TABKA9103

1967-74 Insulation/Sound Deadener Set

Flatline Barriers is the new leader in automotive thermal acoustic insulation products for Mopar models. Utilizing cutting edge technology and materials to significantly reduce unwanted sound and heat. It's lighter than the competition but packs the same punch in sound and heat control properties. Sets are precut for easy installation.

Get The OER® Advantage. . . It's Almost Unfair!

Authentic Quality Reproduction Parts for Classic American Muscle

ORIGINAL QUALITY • ORIGINAL APPEARANCE

Original Fit

Appearance is extremely important in reproduction parts, but just as important is the way the part fits. You will appreciate OER® reproductions. Parts are designed to fit as closely to the original as possible. Each part is checked and rechecked to ensure proper fit and function.

Superior Quality

It's one thing to manufacture a reproduction part, it's another to duplicate the quality. OER® uses the finest quality materials and workmanship to ensure the finished part meets or exceeds original equipment specifications. In fact, many OER® products are superior to the original.

Authentic Appearance

Each OER® part is manufactured to original specifications, down to the smallest detail. Consistent quality control methods ensure an exact duplicate every time.

OER® Officially Licensed Products

Many OER® products are officially licensed by the original manufacturers, assuring the highest quality reproductions available.

MOPAR, DODGE, HEMI, PLYMOUTH, and CHRYSLER vehicles, images, and logos are trademarks of Chrysler Group LLC used under license. © Chrysler Group LLC 2016.

OER® ORIGINAL EQUIPMENT REPRODUCTION

Manufacturing Authentic Products for The Restoration Industry

Learn more about OER® online: **www.oerparts.com**

Look for the OER® symbol of quality throughout this catalog.

Classic Industries® Has More To Offer!

Service Excellence From the Restoration Leaders!

Price Match Guarantee

If You Find a Product for Less, We'll Match the Price!

Classic Industries® will match any competitor's current advertised retail price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Money Back Guarantee

100% Satisfaction or Your Money Back!

We take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Online Instructional Videos

Visit ClassicIndustries.tv to View Our Online Video Library

Need a little guidance to help you install the restoration parts you purchased? Then cruise over to Classic Industries®' new video media website, www.classicindustries.tv where you can watch a library of how-to videos created by our own expert staff, guiding you through the installation processes for upholstery, headliners and more.

Technical Support

Call 1-800-854-1280, extension 5390 for more information

Our tech representatives are ready to help you with all your restoration questions regarding parts or accessories, but we don't stop there, we can help answer questions you may have concerning the detailed areas of your restoration! Our tech representatives consist of some of the most knowledgeable restoration experts in the business. We don't claim to have all the answers but we've been doing it longer than anyone. Chances are we've heard the questions you need answered before. If nothing else, we can probably steer you in the right direction. We continually train our staff in all aspects of early and late model restoration and pass the information along to you!

California Residents — Prop 65

Prop 65 requires businesses that manufacture and/or sell products in the State of California to inform consumers which items contain chemicals known to cause cancer and/or reproductive harm.

Symbols of Quality

OER® Original Equipment Reproduction

The leader in quality reproductions is here! OER® stands for Original Equipment Reproduction®. When you see the OER® logo, you can be assured that every part is manufactured to exact factory specifications and will fit and function just like the original part. What's more, many OER® products are officially licensed and carry a full one year warranty against defects and workmanship.

OER® Authorized Products

The OER® Authorized logo represents products that meet or exceed stringent OER® quality control standards. These items have been sanctioned and approved by OER®. Most of these products are prepackaged with the OER® Authorized logo.

MOPAR Authentic Restoration Products

Only products identified with this logo are MOPAR Authentic Restoration Products. Classic Industries® advertises a variety of products with the above MOPAR Authentic Restoration Product logo. This logo indicates that the product is manufactured to MOPAR's specifications and licensed by Chrysler Group LLC as a MOPAR Authentic Restoration Product. Such products represent a prestigious class of restoration parts that are nearly identical to the original products offered by MOPAR in the 1960's and 1970's.

MOPAR, DODGE, HEMI, and PLYMOUTH vehicles, images, and logos are trademarks of Chrysler Group LLC used under license. © Chrysler Group LLC 2012.

MOPAR Official Licensed Product

MOPAR and Chrysler Group, LLC have officially licensed select items identified with this logo. MOPAR is a symbol of quality and performance, and only the best products are fit to carry the name of the brand. When a product is identified with this logo, you can be assured that such products are premier products in the industry.

MOPAR, DODGE, HEMI, and PLYMOUTH vehicles, images, and logos are trademarks of Chrysler Group LLC used under license. © Chrysler Group LLC 2012.

Made in USA

Classic Industries® is proud to offer American products for your American classic. Wherever you see this MADE IN USA symbol, you know you're receiving the highest quality parts, sourced from the skilled craftsmen of the United States of America.

PRODUCT EMISSIONS GUIDE

Please visit help.classicindustries.com/en/emissions-compliance-guide for more details.

1 **CARB EO Compliant (50 States) – This product is covered under a CARB EO and is legal for sale and use in all 50 states.**

Products that have completed the CARB EO process belong in this category. EPA recognizes the CARB EO as a reasonable basis demonstration, therefore products can be considered legal by both CARB and EPA.

2 **Legal In U.S. (Excludes California) – This product is covered under the Emissions certification or has otherwise met the requirements of the EPA's Tampering Policy and is legal for sale in states that do not mandate Executive Order (EO).**

Products that have demonstrated a reasonable-basis emissions compliance either through engineering evaluation or testing, but do NOT have a CARB EO. For example: Testing has been completed and paperwork submitted to CARB but the EO has not yet been issued. The product meets the reasonable basis standard but may not meet CARB's criteria for an EO. Testing has been performed but decided not pursue a CARB EO.

3 **Non-CARB Compliant – This product is not legal for street use on an emissions-controlled vehicle. It may be used on a dedicated competition or pre-pollution-controlled vehicles only.**

Some products can never be legal for use on pollution-controlled vehicles (both for use on the road and off-road), but they do have legitimate use on racing vehicles and vehicles that predate emissions regulations. Pre-certification means: 1965 and older domestic vehicles in California, 1968 imports in California and both domestic and imports under EPA jurisdiction.

4 **Non-Emissions – This product does not require an EO in California. By nature of its design, it is legal for sale and use in all 50 states. Replacement parts included.**

Products that have little or no impact on emissions, such as drop-in air filters or exhaust components downstream of the last emissions component (such as the catalytic converter, DPF, or exhaust gas sensors). Also included are devices that plug into the OBD port to monitor information, but do not alter the vehicle's electronics.

Form-Fit Car Cover

Form-Fit covers are the preferred vehicle cover for those with classic, luxury, or show cars that are stored indoors. The outer shell of our Form-Fit covers is constructed with a superior woven knit polyester that has Lycra/Spandex added to the yards to provide the best stretch and memory. The inside features an ultra-soft sheared cotton fleece that provides the softest finish you can put on a vehicle designed to glide gently over your paint, chrome, and finish. Form-Fit Car Covers are the most luxurious indoor custom car cover designed to fit snug, look amazing, and pamper your vehicles finish.

Note: Please add 2 digit color code when ordering.

Reflectect Car Cover

Reflectect® car covers provide great all-weather protection but are ideal for sunny climates. The Reflectect® vehicle covers are made from a silver urethane coated polyester fabric with a UV-reflective silver colored finish. Not only will these custom car covers keep your vehicle cooler, but they are water-resistant and designed to repel dust and dirt to keep your vehicle clean. The lightweight design allows for easy installation and compact trunk storage.

Ultratect Car Cover

Covercraft Ultra'tect car covers are made for durable outdoor protection with high-performance fabric at a moderate price. Developed from the need for a cover that would retain its color and strength in extended outdoor exposure, while providing a high degree of water resistance and UV protection at a reasonable price. Ultra'tect is made from a solution dyed WeatherMax SL fabric which means each fiber is a solid color and not just surface dyed.

Note: Please add 2 digit color code when ordering.

Tan Flannel Car Cover

Constructed of a durable polycotton blend with a napped underside finish these vehicle covers are 50% heavier than most standard polycotton covers. Perfect for providing long wear and durability. Specially treated to resist moisture, rot, and mildew. These custom car covers provide superior breathability and ding protection with basic dust protection for indoor use.

5-Layer Softback All Climate Cover

This all-climate softback car cover fabric features 5-layers of protection to provide the best defense against the elements while being smooth against your paint finish. The robust car cover layers also help add privacy to help keep prying eyes out of your vehicle while also serving as a theft deterrent. If parking in a garage this car cover works as a superior dust top to keep your vehicle looking its best. The softback lining paired with the robust multi-layer design also helps to reduce scuffs and minor dings from accidental bumps or garage accidents. Protect your vehicle with this premium softback all-climate car cover from Covercraft.

Mopar Car Covers

The Economical Way to Protect Your Investment!

★ Indoor Use
★ Single Layer Material ⚠

Diamond Blue™

Protect your vehicle from dust and dirt with OER® Authorized custom fit Diamond Blue™ car covers. Designed for use indoors, the Diamond Blue™ is manufactured using an economical single layer material that provides good protection from dust and dirt penetration. Includes non-scratch grommets installed on each side of the cover to allow the use of a tie strap and lock.

Diamond Fleece™

★ Indoor/Outdoor Use
★ Triple Layer Material ⚠

Designed for indoor and occasional outdoor use, the Diamond Fleece™ is manufactured using 3 layer material which helps prevent dust and dirt penetration and damage from the sun's UV rays. Each cover is sewn with double stitched seams that are strong and durable. Neoprene elastic is sewn into the front and rear hems to help secure the cover in place. Non-scratch grommets are installed on each cover to allow the use of your tie strap or lock.

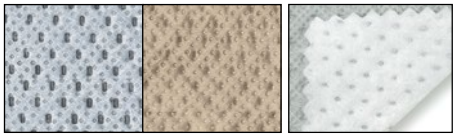
WeatherBlocker™ Plus

Available in Gray or Tan



GR *TN* *Soft cotton lining for protection against door dings and scratches.*

★ Outdoor Use
★ Four Layer Material ⚠

Designed for outdoor use, the Weather Blocker cover is manufactured using a durable 4 layer material that provides a high level of protection against outdoor elements. The fourth layer is a soft cotton backing that further protects against scratches and dings. Cover is sewn with double stitched seams that are strong and durable. Neoprene elastic is sewn into the front and rear hems to help secure the cover in place.

SoftShield™

★ Indoor Use
★ Cotton Flannel Material
★ Soft Nap Underside

Cotton flannel car covers pamper the vehicle's finish with a soft nap underside

GR *TN*

Our woven soft cotton flannel car covers pamper your vehicle's finish with a super soft underside nap that protects delicate surfaces. Designed for indoor use only, the Softshield™ is soft on paint, providing a dust barrier and protection against nicks and dings. Each cover is sewn with double stitched seams that are strong and durable. Neoprene elastic is sewn into the front and rear hems to help secure the cover in place. Your choice of gray or tan flannel.

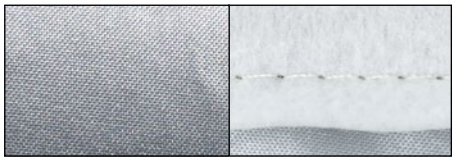
TitaniumPlus™

Plus soft cotton lining for protection against door dings and scratches.



★ Indoor/Outdoor Use
★ Silver Reflective Material
★ Double Layer Soft Cotton Inner Lining ⚠

This premium fabric offers double protection! Designed for indoor or outdoor use, TitaniumPlus has a silver highly reflective water repellent 100% polyester top layer that keeps the interior cool when in sunlight and a soft padded cotton inner layer that provides extra protection against nicks and dings during storage in tight quarters. Each cover is sewn with double stitched seams that are strong and durable. Neoprene elastic is sewn into the front and rear hems to help secure the cover in place. With it's silver reflective properties, Titanium Plus offers the ultimate UV protection. Each cover includes a free storage bag and lock kit. Non-scratch grommets are installed on each cover to allow the use of a tie strap or lock.

Gust Guard™ Cover Clamps ⚠

The Gust Guard™ is the easy solution for keeping your truck cover in place in windy conditions! Includes: four adjustable hem clamps, two "Quick Grip" friction locks and two 7' long white cords. These components clamp to the hem in front of the front tires and behind the rear tires. When wind gets under the car cover, the Gust Guard™ helps reduce the possibility of the cover coming loose.

MADE IN USA

1962-76 Mopar Logo Floor Mats

Ultimat logo floor mats feature a premium continuous filament, two ply nylon yarn in a 32 ounce per yard construction. Twice the weight and density of original equipment mats, its dense construction and 5/16" pile height provide impressive long wear and true comfort. The durability of the mats is enhanced by a unique multi-layer backing providing stiffness, moisture resistance and anti-skid characteristics. All mats are equipped with factory compatible anchoring devices, if applicable. After 35 years they are still the best selling custom fit logo floor mat in the industry. With these mats you get full customization; you choose the mat color, logo and embroidery color for a one of a kind look. Sold in 4 piece sets: 2 front and 2 rear mats.

*Note: *Super Bee logo color cannot be changed; add mat color code only to order. When ordering, specify 2 digit mat color code and 3 digit logo color code.*

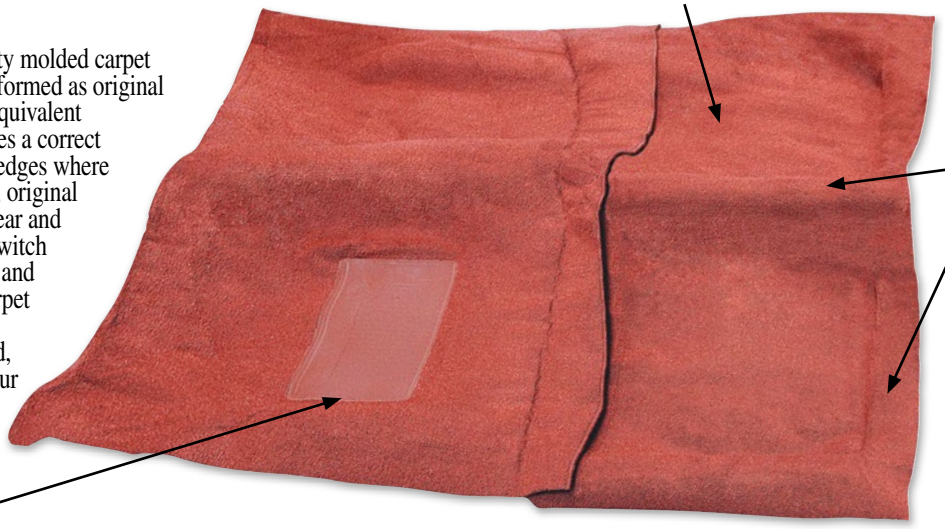
OEM Quality Molded Carpet

Treat Your Classic Plymouth or Dodge to the Highest Quality Molded Carpet on the Market!

OER AUTHORIZED

Absolutely the highest quality molded carpet available! All carpet is preformed as original and manufactured using OEM equivalent materials. Each carpet set features a correct heel pad, color matched surged edges where front carpet overlaps rear carpet, original blend carpet material for your year and model, and includes a dimmer switch grommet. Features jute padding and a precut grommet hole in the carpet for easy grommet installation (when applicable). Heat stamped, preformed and trimmed to fit your floor pan perfectly.
Made in USA.

Manufactured using OEM equivalent materials including color matched edge binding offering an original appearance.



Truly the finest form fitted carpet available. Each set is molded to original floor pan specifications.

The heel pad is manufactured exactly as original. Each set features the correct configuration for each model year in the correct matching color.

Heavy Duty 20 Spray Adhesive

Forms a powerful, permanent bond to wood, laminate, metal, plastic and more. Simply spray the adhesive on one or both surfaces, wait 15 seconds to 30 minutes, and press surfaces together to form a tight bond. Self-contained, highly portable dispenser allows for a variable width lace spray pattern to help ensure precise placement.

1963-76 Kick Panel Insulation Set

Reduce unwanted road noise and vibration with a kick panel insulation set designed specifically for your Mopar. Each set features the correct type of insulation to dampen noise and vibration like the factory intended. Located on each side of the front footwell area, each set is die-cut to fit perfectly between the plastic kick panel and sheet metal. Applications available for most A, B, & E-Body models.

Stage 1 Dynamat® Damper Pads

Stage 2 Heat Shield/Barrier Panels

Firewall Insulator and Heat Shield Set

Each firewall insulator is year, make, and model specific so that it fits just like the original. They are molded to fit over the transmission hump and into the heater well and are made with the highest quality materials available and includes mounting pins. AcoustiShield sets are designed to insulate and control the noise, vibration and heat in the passenger cabin. Sets include pre-sized Dynamat® damper pads, pre-trimmed heat shield/barrier panels, spray adhesive and sealing tape, plus fully illustrated instructions for an easy, painless, 2-hour installation.

*Note: *AcoustiShield sets are shipped ground only.*

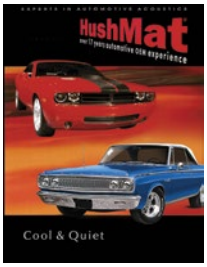
Interior Insulation

HushMat® #1 Rated Made in the USA OEM-APPROVED



silver

black

- #1 Rated Automotive Thermal and Sound Insulator
- Reduces Firewall/Tunnel Heat by Over 40%
- Blocks Exhaust Drone from Entering Interior
- Hushmat Ultra Bonds to Every Surface
- Creates a 10 dB Barrier to Road and Engine Noise
- Performs In Temperatures Up to 550 Degrees F
- 1 Step Peel & Stick Application
- Flexible In All Climates; Molds and Contours Easily

Ultra Insulation

Starter Sets

Four 12" x 12" sheets available in either black or silver. 4.1 square feet (1.25 square meters). A starter set is perfect for single panel treatment or small jobs.

HM250 silver ..... 29.99 set
HM251 black ..... 29.99 set

Door Sets

Ten 12" x 12" sheets available in either black or silver. 10.1 square feet (3.1 square meters). A door set is designed to effectively treat 2 doors. Treat the inside of the outer door skin, door frame and back of the door trim panel. Replace that cheap metal, rattling noise with a solid sound when you close your doors.

HM200 silver ..... 79.99 set
HM201 black ..... 79.99 set

Trunk Sets

Ten 12" x 23" sheets available in either black or silver. 19.1 square feet (5.8 square meters). A trunk set is designed to effectively treat the trunk floor, spare tire well, quarter panels and rear deck of a vehicle. Helps reduce interior noise typically caused by performance exhaust systems.

HM300 silver ..... 129.99 set
HM301 black ..... 129.99 set

Floor/Firewall Sets

Twenty 12" x 23" sheets available in either black or silver. 39 square feet (11.8 square meters). A floor/firewall set is designed to treat the firewall, floor panel and transmission tunnel. This eliminates vibration noise caused by the engine and road surfaces and reduces the heat transfer from the engine and transmission.

HM400 silver ..... 229.99 set
HM401 black ..... 229.99 set

Bulk Sets

Thirty 12" x 23" sheets available in either black or silver. 58.7 square feet (17.9 square meters). A bulk set is enough to treat an entire midsize or smaller vehicle.

HM500 silver ..... 299.99 set
HM501 black ..... 299.99 set

- Absorbs High Frequency Airborne Noise
- Lightweight Synthetic Rubber Foam
- Soft, Flexible, and Highly Compressible
- Moisture Repellent
- Thermal Insulation Up to 300 Degrees F
- Aggressive Adhesion
- One Step Peel and Stick Application

Sound Absorbing Foam

1/8" Foam

Includes: two 23" x 36" sheets of 1/8" HushMat Silencer Megabond foam. Great for glove boxes, kick panels, or pillar trim to eliminate squeaks and rattles.

HMF01 1/8" ..... 112.99 set

1/4" Foam

Includes: two 23" x 36" sheets of 1/4" HushMat Silencer Megabond foam. Apply directly on backs of door panels, headliners or under package trays.

HMF02 1/4" ..... 149.99 set

1/2" Foam

Includes: four 12" x 23" sheets of 1/2" HushMat Silencer Megabond foam. Great for firewall, transmission tunnel, floor, and trunk applications. Makes an excellent replacement for traditional jute.

HMF03 1/2" ..... 172.99 set

Custom Cut Insulation Set

Each set has been designed specifically for the vehicle application and contains CNC precision cut sections of self-adhesive Dynamat material in the proper shapes, dimensions, and amounts to fit your vehicle exactly. Custom cut sets feature Dynamat Xtreme material with patented elastomeric VECTOR Chemisty from great sound deadening. With a .060" butyl layer and a .004" think aluminum face.

Ultra-Lite Insulating Mat

MADE IN USA

Ultra-Lite insulating mat was designed with the racer in mind. The new Heat Terminator is made of the highest quality insulating materials available today. The material is made of a highly textured aluminum composite surface on the one side, with a high temp silica felt center and a durable Mylar composite facing. The Heat Terminator uses Thermal Conduction Technology (TCT), developed by Thermo-Tec, and is available in six popular sizes.

TT1133 8" x 12" ..... 69.99 ea
TT1134 10" x 18" ..... 99.99 ea

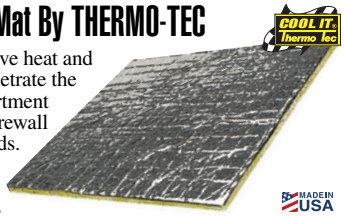
Interior Insulation

Universal Door Damper/Barrier Insulation

Universal door damper/barrier insulation set for various 2 door model vehicles. The aluminum barrier insulation installs on the structure of the door frame and interior panel. Prevents wind, moisture, road noise and radiant heat to your vehicle. Includes: 2 sheets aluminum insulation 30" x 40", 6 strips of Dynamat Extreme material 2" x 24", 1 roll of double sided adhesive foam tape and illustrated instructions.

AS132 universal set..... 77.99 set

Insulating Mat By THERMO-TEC



Battle excessive heat and noise that penetrate the driver compartment through the firewall and floorboards. The highly reflective Mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dual density composite and is the main sound insulator. Easy to trim and can be applied with the push-in fasteners provided or any weather strip adhesive. Two sizes to fit your individual needs.

Adhesive Heat Barrier

Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. Made up of woven silica with a flexible aluminized finish. The surface of the material is capable of withstanding radiant temperatures in excess of 2000 degrees F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance.

TT1049 24" x 36" ..... 55.99 ea
TT1050 24" x 48" ..... 73.99 ea

Super Sonic Acoustical Mat

Superior sound dampening control to reduce road noise, rattles, engine noise, and any other noises that are bothersome! The high density polyethylene film with an aluminum foil composite is abrasion and tear resistant. The gray film provides structural integrity and strength, allowing the material to bend, move, and return to shape even under tension forces. The product is 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit. The rubberized compound is applied with the high temperature adhesive to absorb all those out of control noises.

TT14700 12" x 12" 2 piece..... 18.99 pr
TT14710 36" x 24" 1 piece..... 32.99 ea
TT14720 36" x 60" 1 piece..... 67.99 ea

Thermo-Guard FR

Thermo-Guard FR is a lightweight, durable shield that does everything: reduces sound, absorbs vibration, protects from radiant heat and provides an extra layer of insulated padding. The product features 100% polyester fiber felt that provides sound and comfort control and a high tech foil heat barrier that blocks more than 90% of radiant heat. Easy to apply and can be trimmed to fit anywhere. Available in 2 sizes with one or two foil sides. Designed to be applied with Thermo-Tec's Heavy-Duty Spray Adhesive.

TT1055 24" x 48" 1 side..... 27.99 ea
TT1056 48" x 72" 1 side..... 55.99 ea
TT1057 48" x 72" 2 side..... 76.99 ea

Suppressor Acoustical and Heat Control Mat

The Suppressor is ideal when both sound and radiant heat control is needed. In addition to the polyethylene film, the foil surface provides direct protection from radiant heat. Great for areas like firewalls, floorboards, or doors. The Suppressor is also 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit.

TT14600 12" x 12" 2 piece..... 15.99 pr
TT14610 36" x 24" 1 piece..... 29.99 ea

Xtreme Bulk Pack

Dynamat Xtreme is the highest efficiency energy conversion sound deadener available. Xtreme unique chemistry uses a space age self-adhesive synthetic rubber with a heavy 4 mil aluminum constraining layer to absorb noise energy. At only 1/16" thick, the super sticky rubber and foil stretches and contours to fit your vehicle like a glove. Dynamat Xtreme can be also used for trunk lids, roofs, quarter panels, and under the hood. The Xtreme bulk pack contains 9 sheets (18" x 32") or 36 square feet of 1/16" insulation. Made in USA.

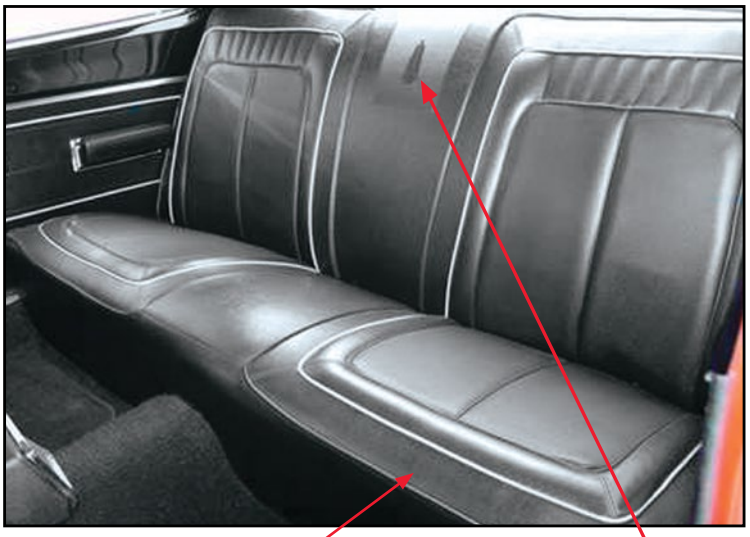
Mopar Authentic Restoration Product

Legendary Auto Interiors Ltd.

Heavy Foam Backing as Original

Using quality materials is essential when replacing your interior. Although many manufacturers neglect this area, we insist on offering OEM quality upholstery which features correct high density foam backing stitched into place as original. Once installed, you'll feel the difference!



Correct Manufacturing Techniques

Each upholstery set is professionally reproduced using exact factory specifications. Correct manufacturing techniques allow the restorer to get a factory appearance with easier installation.

Correct Grains and Colors

Each style and color is specifically produced to match the original upholstery in weight and grain. You'll get the factory fresh appearance you want while maintaining the authenticity of your interior.

The Details Matter

When it comes to details, the word is *Legendary*! Right down to the heat sealed Plymouth emblem which features the correct original factory grain and texture.

Sportline Evolution X Racing Seat

The new Sportline series of seats by Corbeau features superior comfort, style, and support, plus top of the line injection molded foam, bolsters that hold you in the right spots, and harness capability. The Evolution X is a fixed back racing seat. Inspired by the C5/C6 Corvette where seating options are limited due to the small cockpit area, the Evolution X was designed to be a bit narrower, allowing it to fit in smaller vehicles. Each seat has a base height of only 2-1/2" between the floor and where you would sit. This is ideal for minimal headroom applications or for drivers wearing helmets. Seats feature black vinyl with carbon vinyl accents and are handcrafted with your choice of red or black offset stitching. Seats will fit up to approximately a 38" waist.

Note: *Mounting brackets with seat tracks sold separately. Shipped double oversize.*

CDB340A

1965-76 Seat Brackets with Sliders

These custom seat brackets will make the installation of your Corbeau bucket seats a breeze. Unlike universal seat brackets that may require drilling, these brackets are designed to use the factory bucket seat mounting locations. Each bracket includes seat tracks and is available with single or double locking sliders. Single locking sliders are recommended for normal use. Sold individually.

Important: *Picture for reference purposes only. *This item is ordered as needed due to variations in the floor pans used. Must call and provide measurements to order. Measurements are from center to center of the mounting holes.*

Sportline RRB Racing Seats

The Sportline series of seats by Corbeau have a look and feel that is second to none. RRB seats feature thigh bolsters that come into contact with the back of the seat. This gives you that racing bucket look of a fixed back seat, while maintaining the convenience of a reclining seat. Each seat has a base height of only 2-1/2" between the floor and where you would sit. This is ideal for minimal headroom applications or for drivers wearing helmets. Seats will fit up to a 38" waist. Weight is 26 lbs per seat. Sold as a pair.

1970-71 Injection Molded Bucket Seat Backs

Reproduction seat back panel set for 1970-71 Mopar A, B, & E-Body models. Each panel set is manufactured in true quality injection molded ABS, as original (not a vacuum formed panel) featuring the correct Coachman style grain replicating the original panel in every detail. Includes LH and RH bucket seat back panels. Sold as a pair. Side hinge covers are not included.

Important: *These "early style" seat back panels are designed for use with the separate die-cast metal side hinge covers (not included). You must re-use your original die-cast metal side hinge covers. Often referred to as the "three piece design", this early style seat back panel set is correct for 1970-71 models built through 12/01/70.*

1971-74 Injection Molded Bucket Seat Backs

Reproduction seat back panel set for 1971-72 Mopar A-Body and E-Body and 1971-74 B-Body models. Each panel set is manufactured in true quality injection molded ABS (not a vacuum formed panel) featuring the correct Coachman style grain replicating the original panel in every detail. Includes LH and RH bucket seat back panels. Sold as a pair. Features integrated side hinge covers molded into the seat back on each side, just like the originals.

Important: *These "later style" seat back panels are often referred to as a "one piece design" due to the integrated side hinge covers on each side that is molded directly into the part. This later design eliminated the need for the separate die-cast metal hinge covers. This "one piece design" is correct for 1971 and later models built after 12/01/70.*

1970-71 Vacuum Formed Bucket Seat Backs

If your bucket seat backs are scratched, cracked, oxidized, or simply missing, these reproductions are for you. These early style seat backs are injection molded in quality ABS material featuring the correct Coachman grain as original. Includes both LH and RH back panels. Sold as a pair. Available with your choice of factory colors.

Note: *Often referred to as the "three piece design", this early style seat back panel set is correct for 1970-71 models built through 12/01/70. After 12/01/70, Mopar eliminated the separate side hinge cover making the seat back panel a "one piece design" with an integrated side hinge cover molded directly into part. Please add three digit color code when ordering.*

1971-74 Vacuum Formed Bucket Seat Backs

If your bucket seat backs are scratched, cracked, oxidized, or simply missing, these reproductions are for you. These late style seat backs are vacuum formed in ABS plastic with Coachman grain, as original. Sold as a pair. Available with your choice of factory colors.

Important: *These "late style" seat backs are more pointed at the top, have longer hinge extensions and are for vehicles built from 12/02/70. Prior to 12/01/70, Mopar used a pair of separate die-cast metal side hinge covers, making each seat back panel a "three piece design" consisting of one plastic seat back panel and one LH and one RH die-cast metal side hinge cover.*

Note: *Please add three digit color code when ordering.*

Universal Fit Bucket Seat Belt

The closest thing to a factory installed seat belt yet! These aftermarket seat belts are designed for an OE appearance without the high cost of OE. Unlike other seat belts which require assembly, these units are ready to bolt-in and are available in 4 popular colors.

Note: Non-retractable type. Sold per seat (order 2 for both bucket seats). Not to be used in conjunction with factory shoulder harnesses. Not for use with bench seats or rear seats. Hardware and bolts for installation not included. DOT requires 3 point harness for 1973 and later models.

1968-73 Three Point Retractable Seat Belts

Add a new level of safety to your Mopar with these high-quality 3 point retractable seat belts. Complete with front lap and shoulder belts, retractors, all necessary stainless steel brackets, stainless steel hardware and installation instructions. Easily installs using factory seat belt mount holes and all brackets are designed to fit your floor pan's contours perfectly for a beautiful installation. Each seat belt is safety tested at the factory for safety and quality assurance. Fits 1968-73 A, B, & E-Body vehicles.

Important: Seat belt extenders are available to allow these seat belts to be used with bench seat applications using the seat belts listed below only. The 15" extenders will add approximately 5" length to the belt. The 16" extenders will add approximately 6" in length.

Note: Please add two digit color when ordering.

1967-69 A-Body Convertible Rear Panels

Reproduction rear side panels for 1967-69 convertible Dart and Barracuda models. Manufactured in molded plastic for a direct replacement of the originals. Features textured finish on the bottom of the panel with a smooth texture on the top. Panels also include a new molded armrest pad. Chrome trim included or sold separately.

Important: *These panels will fit and function on 1967-69 Barracuda models but are not cosmetically correct as these panels are flat on top and Barracuda panels were round on top.*

MADE IN USA 1971-74 B-Body Lower Door & Quarter Panels

Manufactured with vacuum formed plastic, these panels are molded in your choice of black or white or can be ordered in a variety of factory dyed colors to match your upholstery. Front panels do not include armrest pads, which are sold separately. Rear quarter panels feature molded plastic armrest pad. For 1971-74 Charger, GTX, Road Runner, Satellite, and Super Bee. Made in USA.

Important: Black and white panels may require additional preparation and painting to eliminate tooling marks and any small scratches molded into the plastic. No additional preparation should be needed for any other colors listed prior to installation. If you do not see your color listed, order the white panels and paint to desired color.

Note: Please add 3 digit color code when ordering.

1972-76 A-Body ABS Plastic Headliner Board

Replace the droopy or deteriorated board style headliner in your classic car with an ABS plastic headliner from Classic Industries®. This replacement headliner will fit all models originally equipped with the board style headliner. Your choice of foam backed Tier grain vinyl or foam backed cloth in a variety of colors to match or accent your interior. Or select the uncovered board for a do-it-yourself template and recover it in your own fabric. Made in USA.

Headliner and Upholstery Tool

This tool is great for tucking headliner or upholstery material into tedious channels without damaging the material. This tool helps you to evenly tuck the excess materials into the correct channels giving your finished job a clean, professional look and is easy to use around curves and near corners.

Headliner, Upholstery Glue and Thinner

New!

Correct adhesive formula used to adhere the headliner to the roof panel and for other vinyl upholstery jobs where a strong vinyl adhesive is required. This is specially designed for use with vinyl covered fabrics. Includes a handy brush for easy application. Solvent-based thinner reactivates dried HH-66 vinyl cement or removes unwanted HH-66 from surfaces. You also can use HH-66 thinner to clean brushes, rollers, spray guns, and other types of applicators.

1968-74 B & E-Body Pillar Post Moldings

Replacement pillar post moldings for 1968-70 B-Body and 1970-74 E-Body models. Made with vacuum formed plastic, these pillar post moldings are molded in your choice of black or white or can also be ordered in a variety of factory dyed colors to match your upholstery. B-Body moldings available only in black. Made in USA.

Important: *The black and white moldings feature molded in color and can be installed as-is. However, for show quality vehicles, additional preparation and painting may be required to eliminate tooling marks and any small scratches molded into the plastic. Colors other than black or white have been prepped and dyed at the factory and should require no additional preparation prior to installation.*

Note: **Please add three digit color code when ordering.*

1960-76 Mopar Package Tray

MOPAR OFFICIAL LICENSED PRODUCT

Replace the rear package tray in your Mopar with a brand new die-cut package tray. These replacement package trays install inside the vehicle between the top of the rear seat and the rear window. Most trays are available as standard without speaker cutouts or as a deluxe tray with cutouts for speakers. These trays are manufactured to exacting standards with the highest quality materials and workmanship to offer a replacement panel that is as close to original as possible. Please specify color when ordering. Made in USA.

Package Trays

OFFICIAL LICENSED PRODUCT

MADE IN USA

1963-76 Mopar Package Tray

Replace the rear package tray in your Mopar with a brand new die-cut package tray. These replacement package trays install inside the vehicle between the top of the rear seat and the rear window. Most trays are available as standard without speaker cutouts or as a deluxe tray with cutouts for speakers. These trays are manufactured to exacting standards with the highest quality materials and workmanship to offer a replacement panel that is as close to original as possible. Made in USA.

*Note: Please specify color when ordering. *With fold down rear seat.*

MADE IN USA

1962-76 Package Tray Insulation

Reduce road noise, exhaust noise, heat, and fumes in the passenger compartment by replacing or adding jute padding insulation beneath the package tray in your Mopar. Die-cut to fit your specific vehicle, these insulation pads are an inexpensive way to provide you and your passengers with a more comfortable atmosphere while driving.

Trunk Divider Board and Insulation

Replacing the trunk divider board and adding jute insulation will help to reduce the amount of noise, heat and fumes that can enter the passenger area through the trunk compartment. Both the trunk divider board and jute insulation are die-cut from high-quality materials to perfectly replace the originals. Applications are available for a variety of A, B, & E-Body vehicles. Made in USA.

Interior Screw Sets

Be sure to have the correct fasteners on hand when you put your interior back together with our convenient screw sets!

1963-75 Interior Screw Set

Tempted to substitute a fastener with an incorrect head, thread or washer design because you've lost the originals and can't find the correct replacement? Spending too much time searching for and cleaning up rusty or dirty original fasteners? Don't cut corners or waste valuable time when it comes to fasteners. Purchase the set from Classic Industries® and rest assured that you have the correct fastener on hand when it's time to put your interior back together. Our handy interior screw sets contain most of the visible essential screws used for installing key items such as the brake release handle, interior mirror, pillar post moldings, coat hooks, dash panels, dome light, door frame, door seal, kick panels, light switch, quarter seals, seat latch, sill plates, sun visors, interior windshield moldings, and more! Screw count and application will vary by model and year.

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

Dash Pad Covers

Conceal unsightly cracks or discolored areas of your dash pad with an ABS plastic dash pad cover as an easy and economical alternative to replacing the entire dash pad. Vacuum molded from thick, durable ABS material, these dash pad covers will not crack when exposed to extreme hot or cold temperatures like the original vinyl skinned dash pads. Each dash cover will easily install right over your existing original dash without using any special tools. E-Body dash covers will cover the nameplate on the RH side of the original dash. Made in USA.

Note: Shipped oversize.

Dash Gauge Components

MA562

1967-71 A-Body Rallye Dash Gauge Parts

1967-71 A-Body Rallye dash cluster parts. Replace original indicator lenses, dash reset knobs, and gauge lenses. Original outer lenses that are scratched, cloudy, yellowed, or covered in over spray can be very difficult to see through and even more difficult to repair. Applications are available for 1967-69 Barracuda and Rallye dash equipped vehicles such as 1970 Dart Swinger 340, 1970-71 Duster 340, and 1971 Demon 340.

Note: *Original lenses were accented with satin black in the chrome center. These have a chrome center, but black accent can be painted on for a more original look.*

MA820105

MA820108

1960-77 A-Body Gauge Decal Set

These decals are reproduced to duplicate the styles, fonts, and spacing of the original instrument faces. Machine cut from high-quality 3M material and designed to lie flat and wrinkle free. Made with a custom combination of printing and silk screening which results in vibrant markings against a semi-flat background finish. In fact, these are the only decals with an OE finish available on the market.

ME175901

1962-74 B & E-Body Gauge Decal Set

These decals are reproduced to duplicate the styles, fonts, and spacing of the original instrument faces. Machine cut from high-quality 3M material and designed to lie flat and wrinkle free. Made with a custom combination of printing and silk screening which results in vibrant markings against a semi-flat background finish. In fact, these are the only decals with an OE finish available on the market.

*Note: *Paint mask set.*

1965-76 Supplemental Gauge Face Decal and Stencil

These decals are reproduced to duplicate the styles, fonts, and spacing of the original instrument faces. Machine cut from high-quality 3M material and designed to lie flat and wrinkle free. Made with a custom combination of printing and silk screening which results in vibrant markings against a correct semi-flat background finish. These are the only decals on the market with an OE finish. Use with our premium dash decal sets for complete restoration.

*Note: *Installs on lens to cover over MPH markings. **Installs on speedometer, lens must have lettering removed.*

Performance Gauges

6 Gauge Custom Instrument Panels for A, B, & E-Body Models!

These panels feature 3-3/8" speedometer and tachometer, and 2-1/16" oil pressure, water temperature, fuel level and voltmeter gauges. LED turn signal, parking brake, and high beam indicators are included. See AutoMeter section for gauge details. Panels are also available without gauges to customize with the gauges of your choice.

Important: *Sending unit for electric speedometers must be purchased separately. SPORT-COMP gauge sets feature mechanical gauges (except tach, fuel and Volt) and do not include a wire harness. Four 1/8" holes must be drilled for LED indicators.*

Dakota Digital 1968-70 B-Body VHX Instruments

VHX Systems fit directly into the stock Rallye gauge bezel of 1968-70 B-Body models without modification, adding a wealth of features to this iconic vehicle. Features fully lit needles, backlit faces and easy-to-read LCD message centers, the VHX series is a far cry from yesterday's traditional instrumentation. Mounts directly to the stock dash housing for simple installation. The VHX series is loaded with features including micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy and user customizable display feedback. Available in black or silver alloy face, with either blue, red, or white numeration and backlighting. Please specify blue, red, or white illumination when ordering.

Note: Gauge bezel not included.

Dakota Digital 1970-74 E-Body VHX Gauge System

Dakota Digital's VHX instrumentation system will modernize your vehicle with the latest technology and styling. Available for 1970-74 Dodge Challenger, Plymouth Barracuda, 'Cuda with Rallye dash. Fully lit needles, backlit faces, and highly visible LCD message centers are a few of the things that you can see which set the VHX Series apart from yesterday's traditional approach to instrumentation. A few of the features which you don't normally see are the micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy, and user customizable display feedback, all supported by an unrivaled limited lifetime warranty which has become the standard for Dakota Digital instrumentation systems. Available in silver or black alloy, with either blue, red, or white display.

Note: Instrument system will fit stock Rallye bezel without modifications. Bezel not included, used for representation purposes only.

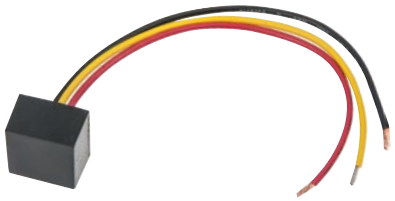
OEM AUTHORIZED



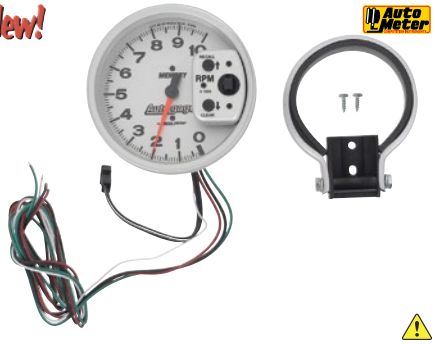
Universal Tachometer Filter

Eliminate tach signal noise and surges caused by your ignition system with this compact and easy-to-install tachometer filter. This filter installs between the tachometer and the signal source and modifies the sharp up and down spikes into a semi-square wave signal for steady readings and faster response. Measures: 2" x 3/4" x 1". Includes instructions.

Important: *Recommended for vehicles running an HEI ignition with a tachometer designed for points style ignitions.*

MG019219 ..... 39.99 ea

New!



Monster Memory Tach – 5" Pedestal

AutoMeter 5" pedestal autogage monster memory tach 0-10,000 RPM. AutoMeter's race proven air-core electric tachometers provide quick and accurate readings with a needle so responsive it can go from 0 - full scale in 333 milliseconds. Compatible with most 4, 6, and 8 cylinder engines (2-4 pulse per revolution ignition signals) with points, electronic, and most 12V high-performance racing ignitions.

233907 silver ..... 244.99 ea

BOSCH

Super Tach II

Bosch's Super Tac II features internal dial lighting, accurate air coil meters, 250 degree dial sweep, 8000 RPM limit and adjustable red line pointer. Works on 4, 6, or 8 cylinder engines. Functions with breaker point, electronic and most aftermarket ignition systems except magnetos. Includes mounting hardware. Available 3-3/8" with white dial.

ST7903 chrome bezel ..... 54.99 ea

Distributorless Tach Adapter

This tach adapter is designed to adapt a standard ignition tachometer, Pro Shift light, or RPM activated module to be used with distributorless ignition systems.

AM9117 tach adapter ..... 129.99 ea

Tachometer Signal Filter

AutoMeter tachometer signal filter. These filters are designed to correct erratic tach function by filtering out the interference or spiky pulse signals often caused by points or noisy ignition systems.

Carbon Fiber™

Carbon Fiber gauges give your interior the complete look of rapid acceleration even when the vehicle isn't moving. The clean, racy look of a crisp anodized aluminum bezel, an actual carbon fiber dial face, silver pointer and yellow accents with perimeter incandescent lighting give these gauges high visibility and style for any application.

Note: Most popular gauges are listed below. For items not listed visit us online.

In-Dash Speedos and Tachs

Our In-Dash Speedometers and Tachometers feature our famous high-performance movements and are designed with seamless dashboard mount in mind for the ultimate driver information center. Available in a variety of configurations and sizes.

***Important:** Electric speedometers operate on 500-200,000 pulse/mile sending units. Use existing sender if vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 4, 6, or 8 cylinder engines with most factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an ohmmeter with the sending unit float in the empty and full position to determine the correct fuel gauge.*

Full Sweep Electric Gauges

Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges combine extreme durability and readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electrics. Track tested and race proven, these units use precision senders to keep hazardous fluids out of the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

SCX Pro and SCX Series Gauges

SCX Pro gauges feature one touch peak recall and programmable high and low full dial warning. There is also an external alarm output (12V, 500mA) that can be used to activate an external warning light when an alarm condition exists. Superior amber and white through-the-dial lighting and illuminated pointer. All SCX and SCX Pro fuel senders work with 0-90, 240-33, 73-10, 20-150, and 0-30 Ohm senders. SCX Series 5" tachometers feature a slimline case design (only 2" deep).

1970-74 E-Body Indiglo Gauge Overlay

Want a new look for your gauges without replacing your working originals? Brighten up your instrument cluster with an electroluminescent indiglo gauge kit for 1970-74 E-Body models. Designed to be installed on top of the existing standard (non-Rallye) gauges. Kits features two selectable color modes, blue or green, which are able to be changed at will thanks to the included switch. Includes: 5 gauge face overlays (speedometer, fuel, temperature, alternator, and tachometer), power/color switch with dimmer control, instructions, and mounting components.

Important: Requires modification to instrument cluster. Instructions included.

Note: Gauges not included. Requires standard in-dash tachometer. If standard tach is needed, see part #ME1316.

Prestige In-Dash Gauge

AutoMeter's new Prestige Series gauges have the precision and reliability you've come to expect from AutoMeter, but with a stunning new look. These gauges achieve their elegant style with brushed aluminum centers, fully lit vintage style needles, domed lenses, and polished chrome bezels. Antique Ivory gauges have black numerals and needles, and feature an LED fully lit gauge face when illuminated at night. The Prestige Black Diamond gauges have white numerals and needles and feature through the dial LED lighting to illuminate the numbers, markers, and needles. Mechanical gauges include the necessary fittings and 6 feet of capillary tubing (unless otherwise specified). Electric gauges include the required sending units.

Performance Gauges

New!

Universal 3-in-1 Gauge Set

Upgrade the look and performance of your dash with a set of 3-in-1 gauges from New Vintage USA. These gauges are 4-3/8"and offer multiple designs to blend perfectly into your build. NVU's exclusive Phoenix technology features fully programmable inputs and high tech OLED screens. Each set is hand built in Detroit and includes NVU's 5-year warranty. The electronic programmable speedometer with digital odometer allows for easy calibration with any wheels and tires or rear axle. Sets include an electronic programmable speedometer displayed in MPH, with oil pressure, and water temperature gauge. The tachometer gauge includes a voltmeter, and fuel gauge. Hardware and detailed instructions also included. Made in USA.

Note: Sending unit for electronic speedometer must be purchased separately.

Gauge Accessories

Sky Drive GPS Speedometer Sender

Drive your speedometer accurately and reliably with the Sky Drive GPS Speedometer sender. This device quickly calibrates and accurately drives any electronic programmable speedometer. The Sky Drive updates 10 times per second without any transmission signals, pulse generators or signal converters and features an omnidirectional antenna that can be mounted virtually anywhere and in any position. No more guessing or recalibrating due to tire or gear changes, this unit requires a one time setup and you're done.

280667 Sky Drive sender ..... 162.99 ea

A8101008

Internal Float Fuel Sending Unit

Get reliable fuel gauge readings with this internal-float fuel sending unit. This advanced design provides accurate readings without fluctuations due to fuel slosh. Because this internal float design requires no float arm, it is far more resistant to corrosion, even with racing fuels. All sending units mount to the tank with the standard 5 bolt mounting flange and are available in sizes from 4" to 24".

Important: *Sending unit should not touch bottom of tank. When the fuel gauge reads empty, the area below the sending unit is reserve fuel.*

Note: *Sending units are sold in 1" increments. Please add the desired length to the end of the part number, eg 06 = 6", 11 = 11".*

0-90 Ohm Sending Units

A81010 4" - 12" ..... 127.99 ea
A81011 13" - 24" ..... 137.99 ea

A81013 13" - 24" ..... 137.99 ea

New!

GPS Speed Sender

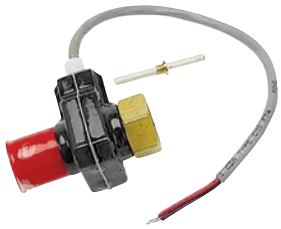
New Vintage USA GPS speedometer senders are compact units that mount virtually anywhere and deliver a steady, smooth signal to any electronic programmable speedometers. So, if you need an easy way to pickup your speed signal, or have a transmission without a built-in VSS or cable output, a New Vintage USA's GPS speedometer sender may the just the part you're looking for.

NV42181 universal ..... 154.99 ea

Fuel Tank Sender

This universal type fuel sender is used with gauges that require 240Ω empty and 33Ω full and can be adjusted for tanks from 5" to 24" deep.

AM3262 ..... 54.99 ea



Speedometer Sending Unit

Speedometer sending unit for use with all AutoMeter electric speedometers. This unit is not included with the gauge packages and must be purchased separately.

AM5291 ..... 134.99 ea

New!

Electric Speedometer Sending Unit

Electric speedometer sending unit for electric, analog speedometers. Features: 16 pulse/rev output, Hall-effect, 0.104" driver key, and quick disconnect/cable wire harness included.

Note: *Will not work on Muncie transmissions. Will not work with mechanical speedometers.*

2001000 universal ..... 69.99 ea

New!

1960-76 OBD-II Interface Module

This OBD-II / CAN Interface allows you to plug directly into the engine diagnostic port, extracting engine data from the OBD-II computer (ECU) and porting it to your Dakota Digital gauge cluster. This module will output the following information to Dakota Digital Instrument Systems: speed, tachometer, engine temp, intake air temp (if data is available), transmission temp (if data is available), ambient air temp (if data is available), gear position (if data is available), and oil pressure.

DDBIM011 1960-76 ..... 118.99 ea

New!

Instrument Panel Dimmer Switch

Enhance your digital dash panel display by adding this light dimmer to adjust the dimming feature built into your instrument system for night time driving. This aluminum knob and bezel works only with the Dakota Digital Instrument Systems and will not dim the Odyssey or Solarix. Stock dimming switches will not work with Dakota Digital Instrument Systems.

DD1045 ..... 35.99 ea

New!

AM3218 AM3219

T1-3/4 Wedge Bulb

1963-70 Redondo Radio

The new RetroSound® Redondo radio is the only radio made specifically for late 1960's to early 1970's Mopar vehicles that originally came supplied with the distinctive "thumb roller" radio controls and the 2 knob style. The Redondo display face and push buttons are independently adjustable, making it easy-to-install into any Mopar vehicle in which a part of the dash fascia separates the original radio dial from the push buttons. Now you can enjoy all the modern conveniences with classic Mopar styling.

*Important: *SiriusXM satellite radio requires monthly subscription and radio tuner (sold separately.) For radio tuner see part #XM300.*

Stereo Accessories

Portable MP3/Media Adapter

You now have the freedom to listen to your favorite music in your classic car with the RediRad adapter, the only portable music adapter specially designed for older vehicles. The music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your AM or AM/FM radio without any vehicle modifications. Designed for simple and out-of-sight installation, it uses a standard audio plug on a 6 foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player. The radio will return to normal operation after switching off the personal player. A great way to preserve the original appearance and maximize your vehicle's collector value while still listening to your tunes in modern style!

14923 RediRad adapter ..... 128.99 ea

SiriusXM Radio Tuner Set

The SiriusXM radio tuner set connects directly to any of the RetroSound satellite ready radios to provide the signal required. No need for special adapters or cables. The compact size installs easily and discreetly behind the dash for a fully integrated look.

Boom Mat Speaker Baffles

Solve the problem of rattles and vibrations caused by speakers and protect the back of speakers from damage! Boom Mat Speaker Baffles maximize speaker performance by isolating the correct frequency responses while damping reverberation in the sheet metal and panel to frame resonance. Also forms a water tight protective shell to prevent moisture intrusion. Made from a closed cell polyethylene to enhance frequency response for improved sound clarity. Easy conformably in tight spaces for a professional installation. Isolates frequency responses and prevents sound from migrating to unfavorable areas in the vehicle such as door panels.

1970-74 E-Body Defroster/Speaker Housing

Replacement rear defroster/speaker housing for 1970-74 E-Body models. Manufactured from pot metal, this housing mounts under the rear package shelf and houses the rear blower motor and passenger side speaker.

ME8135	1970-74	E-Body	219.99 ea

UNDERCOVER I Stealth Speaker

This speaker system is designed specifically for under seat or horizontal wall installations. The compact ABS housing contains one 5-1/2" woofer and Piezo tweeter in each enclosure and is only 2-7/8" x 8" x 11". This system sounds very good and can handle up to 120 watts. For a great sound combine these with one of our DVC (dual voice coil) speakers in the dash and you'll have a great system without any vehicle modifications.

S5060	6 Ohm	141.99 pr

UNDERCOVER II Upgrade Speakers

We have developed the UNDERCOVER II with an 8" woofer and 2 Piezo tweeters in each box. This system can be mounted in many of the same locations as the regular UNDERCOVER. With the 8" woofer in UNDERCOVER II you get a much fuller deeper sound. These are a great addition to our Concours series radios with their 200 watt capacity. Sold in pairs. Measures: 11" x 12-1/2" x 3".

Note: These speakers have a 4 Ohm rating. Check for compatibility with your audio system.

Steering Column

1970-74 E-Body Tilt Steering Column

These new premium tilt steering columns are designed as bolt-in replacements and connect directly to manual, power or even rack and pinion steering applications with a single U-joint change. Each column is 100% American made, and features 8 position tilt, ignition switch with 2 coded keys, included floor mount, and wiring harness adapter. Also includes all levers and knobs, and is completely wired for self-canceling turn signals, 4 way flashers and horn. Offered in paintable steel, chrome, or black powder coated. Made in USA.

Important: *E-Body models require steering wheel adapter or 1969 and later GM aftermarket wheel*

1967-81 Tilt Steering Column Bracket

This unique steering column clamp bracket is needed to mount Flaming River steering columns. This polished billet aluminum clamp will attach the steering column to the factory dash on 1960-76 Mopar models.

FR20114K	1967-81	119.99 ea

1963-76 Steering Column Knuckle Housing

Reproduction steering knuckle housing for all 1963-76 Dodge and Plymouth models. This will fit manual and power steering vehicles with a 3/4" hole. Pin not included.

MD8030	steering knuckle housing	159.99 ea

1962-74 Tilt Column

Get an all-new USA made Flaming River tilt steering column for your Mopar and stop the search for a used or rebuilt original. Flaming River offers keyed and non-keyed slip adjustable tilt columns that can be used for a variety of Mopar applications from 1962-74. The column is an overall length of 45 inches including an additional slip shaft extension. This allows for 1-1/2" of slip movement and includes a universal joint for direct connection to the steering box. Each column includes new turn signal/hazard switch and female adapter plug kit for connecting to original wiring harness. All Flaming River columns are made from 304 grade stainless steel.

Note: *May need to reuse mounting parts from old column or use a column drop for mounting column to dash. Horn relay, hazard kit and steering wheel adapter may be required (sold separately).*

U-Joint with Vibration Reducer

With the more frequent use of rack and pinions and low profile performance tires, there are more road vibrations transmitted to the steering wheel than in the past. Using a Borgeson vibration reducer results in an immediate change in the steering feel and as an added benefit, this reduction in vibration has been shown to increase the overall life of the steering components.

Montecarlo Steering Wheel

MOMO Tuning Series steering wheels are ergonomically designed for the best hands-on feel and manufactured of the highest quality materials available. These 12.6" or 13.8" Montecarlo wheels feature a triangular 3-spoke hub inspired by the famous MOMO Gran Turismo steering wheel. The brushed black anodized hub is surrounded by your choice of black leather or Alcantara leather grip with black or red stitching. A chromed MOMO logo in the center horn button provides a bright accent to the Montecarlo's black finish.

Note: Momo steering wheels use a common 6 x 70mm bolt pattern. They will bolt directly to any Momo, Sparco, Isotta, or NRG 6 bolt steering wheel adapter.

15" Grant Walnut Grip Tuff Wheel

This aftermarket wheel is similar to the Tuff Wheel Chrysler offered in the 1970's. Features a matte nickel finish, an original style horn button and has a dual bolt pattern (one for the original style Tuff Wheel adapter and one for a Grant installation kit, for a non-Tuff Wheel column). The hardwood walnut finish grip has a rich one piece look without the rivets. Measures 15" in diameter with a 1-3/4" dish. Includes horn cap.

Note: OE style hub #3467186, and horn switch with horn cap retainer #2996884, are available separately.

MW774	walnut finish grip	263.99 ea

non-OE molded grip

15" Grant Molded Grip Tuff Wheel

Similar to the Tuff Wheel Chrysler offered in the late 60's, this wheel is a great choice for vehicles that were not originally equipped with the Tuff Wheel. Features a matte nickel finish, an original style horn button, and includes a dual bolt pattern (one for a direct replacement on the original Tuff Wheel style spacer and one for an installation kit for a non-Tuff Wheel column). The thick foam grip wheel measures 15" in diameter with a 2-1/2" dish. Includes horn cap.

Note: OE style hub #3467186, and horn switch with horn cap retainer #2996884, are available separately.

MW775	thick molded foam grip	155.99 ea

GT3 Retro Tuff Steering Wheel

Upgrade the look and feel of your steering wheel with one of these GT3 Retro Tuff steering wheels. These modern interpretations of the classic Tuff Wheel features steel spokes that have beveled edges and are clear coated and your choice of a black leather or dark walnut stained wood grip. Wheels also feature a dual mounting pattern and can be installed as a direct replacement or installed using a GT3 installation hub. Includes OE style horn button cap. Wheel measures 15" in diameter with a 2-1/2" dish.

Note: Requires horn switch #MW979 (sold separately) when using the horn cap with a GT3 installation hub.

1970-71 E-Body Rim Blow Steering Wheel Kit

OER® reproduction Rim Blow steering wheel kit. Manufactured to exact original specifications, this wheel kit features a simulated wood grain look for an authentic OE appearance. Correct for 1970-71 models originally equipped with S-83 Rim Blow steering wheel option. Fits all 1970-74 E-Body models. On a rim blow wheel, the horn honks by squeezing the inside rim of the steering wheel. One of the most sought after Mopar steering wheel options ever produced! Kits include: the wood grain steering wheel, horn cap pad, horn cap adapter, and the horn cap emblem.

Note: This hub can also be used for custom applications when installing a Rim Blow steering wheel in 1970-76 A-Body or 1970-74 B-Body models.

MADE IN USA

Eliminator Floor Mount Gas Pedal

The Eliminator floor mount gas pedal is crafted from billet aluminum and designed to eliminate routing cables through the firewall. It includes an adjustable aluminum splined shaft and stainless steel under the floor cable mounting bracket. Can be mounted in multiple positions for various floor and toe board angles.

Important: *Requires a 36" cut-to-fit Lokar throttle cable. LS1, Ramjet and Vortec applications require a 48" throttle cable.*

1967-76 A-Body Billet Throttle Assembly

These 1967-76 Barracuda, Dart, Demon, Duster, Valiant, and Scamp billet aluminum throttle pedal assemblies are made to bolt into the factory mounting location on the firewall without any drilling or modification. Designed with an internal spanner nut to maintain perfect pedal tension, this throttle assembly eliminates the possibility of excess slop in the pedal. Lokar's curved brake and clutch pedal pads are fashioned after their OEM counterparts and feature hidden screws that allow them to bolt to the steel pedal with a clean finish. Offered in brushed or black finish with rubber inserts for style and functionality.

Car Art by David Snyder

This collection of limited edition prints is numbered and hand signed by the artist, David Snyder. Each represents 200 to 300 hours of painting, historical research and fine tuning. The original painting is meticulously hand painted without any computer generated or airbrushed art. Own one of these limited edition prints!

A. "Back To Brice"

At the August Mopar Nationals, the party always moves to Brice Road. Fans cheer as drivers put on this unofficial parade. Just 750 signed and numbered prints. Printed on high-quality acid-free stock trimmed to 20" x 36", image measures 15-1/2" x 34".

DSP101 ..... 110.99 ea

B. "Mopar Strip"

Las Vegas Boulevard in 1972 with some of the best Mopar Muscle in the foreground. Just 950 signed and numbered prints will be produced. Printed on premium, acid-free stock trimmed to 23" x 36", image measures 19-1/2" x 34".

DSP103 ..... 110.99 ea

C. "Fun in the Sun"

Sun and surf at the beach featuring some of the best Mopar drop tops from Chrysler, Dodge, Plymouth and DeSoto. Limited edition of just 950 signed and numbered prints. Image size: 18" x 26-1/2" on 22" x 28" heavy paper.

DSP105 ..... 85.99 ea

D. "Sweeeet"

There was just one word to describe the ground pounding horsepower experience from a Hemi: "Sweeeet!". Printed on high-quality acid-free stock and trimmed to 22" x 28", image measures 18-1/2" x 26".

DSP102 ..... 90.99 ea

E. "Fish Food"

Other pony cars were just "fish food" as the Hemi 'Cuda became king of the street. Just 950 signed and numbered prints will be produced. Printed on high-quality, acid-free stock trimmed to 22" x 28", image measures 18" x 24"

DSP104 ..... 85.99 ea

F. "Quick and Dependable"

Each print is signed and numbered by the artist, David Snyder, and is also signed by "Mr. Norm" Kraus of the famous Grand Spaulding Dodge dealership. Print measures 18" x 26" and is printed on high-quality, acid-free stock trimmed to 22" x 28".

Commemorative Metal Sign

A Classic Industries® exclusive! These PhotoSteel signs display your favorite Mopar emblems and logos on corrosion resistant steel. These signs can be used even in harsh outdoor environments and are sturdy enough to be mounted on a wall without framing, to stand independently, to use as a table top, or to hang freely from the ceiling. Heavy gauge steel construction provides a rich, substantial feel that will continue to impress for years to come.

1960-76 Factory Shop Manual on CD-ROM

The information provided on each CD-ROM includes virtually all the information you'll find in a factory shop manual. This unique concept gives you the ability to view on your personal computer, complete factory technical information on the make and model of your vehicle. You can print out just that portion of the manual that's needed, or go to the index and type in the part that you're trying to locate. If several manuals are required for a particular make and model, all are supplied on a single CD for your convenience.

Note: CD's are non-returnable once opened.

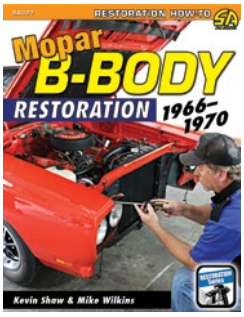
Mopar B-Body Restoration 1966-1970



This book offers an in-depth resource for restoring a Mopar B-Body. Step-by-step processes walk you through the tasks of metal repair, suspension rebuild, driveline verification, interior restoration, and more. All components are addressed, creating the most complete resource in the marketplace. With multiple step-by-step procedures and more than 400 color photographs, this is the most complete hands-on book ever written covering these coveted Chryslers. This will be your primary resource when it's time to tackle a full restoration or complete a simple repair on your prized Pentastar. You won't find a cheaper "part" that helps you more than Mopar B-Body Restoration 1966-70. Paperback, 176 pages, 8-1/2" x 11".

Standard Guide to '50s Cars

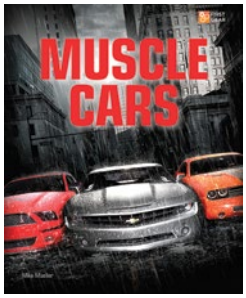
The 1950s. An unforgettable time in America. Rock music dawns and segregation ends. The debut of wide-screen movies and television. Fads like ducktails, saddle shoes, and Hula Hoops. And those fabulous 1950s cars! Big and roomy, lots of glass and chrome, with new styles almost every year. They sported fabulous fins and ever-larger V-8s. Chevy, Ford, and Chrysler competed with Hudson, Nash, and Studebaker for business. Whether you lived through the 1950s or just wonder what those great cars were really like, the Standard Guide to 1950s American Cars is the book for you! Go "back to the '50s" with this great read about some very cool rides! Paperback, 8.19" x 10.79", 256 pages.

L368 ..... 24.95 ea

1950-65 Chrysler Products Interchange Manual

Save money and time when fixing up your classic car. This book details the part numbers for your classic car and what other vehicles used the same part number. You have a larger selection of cars to use when searching for parts for your car.

L1015 ..... 46.99 ea



Muscle Cars

Muscle Cars explores this era and the current models with a broad survey of classic muscle and today's new machines. Each chapter is organized around a theme (milestones, factory racers, etc), each model getting a multi-page spread of full color photography, performance stats, trivia, and more. Photos and stories from the people who built and raced these amazing machines make the book a must read for any fan of American muscle. Paperback, 240 pages, 6-1/2" x 8-1/4".

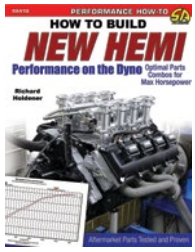
How to Build Horsepower

Proven methods for increasing horsepower in any engine. High-performance street and race engine builders are always looking for the latest techniques and combination of parts to build a better, stronger, more powerful engines. This all-new edition of Vizard's top-selling How to Build Horsepower explains the latest and most effective engine building techniques and strategies. The reader is treated to the secrets and methods for building virtually any automotive engine. Paperback, 8-1/2" x 11", 144 pages.

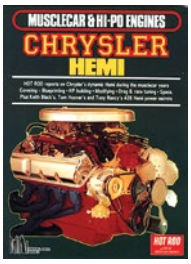
L606 ..... 29.99 ea



New Hemi Performance On The Dyno

Although the New Hemi produces excellent performance in stock form, it's just the starting point. Veteran author and dyno-testing expert Richard Holdener has done the research, gathered the data, and provided a detailed analysis of the results. Within the pages of this book, heads and camshafts, headers and exhaust, intakes, throttle bodies, manifolds, electronic engine controls, forced air induction, and nitrous oxide are all tested. Using this comprehensive information and the dyno results, you can select the best performance parts for your engine and application. Paperback, 8-1/2" x 11", 144 pages with 287 color photos and charts.

L1305 ..... 29.99 ea

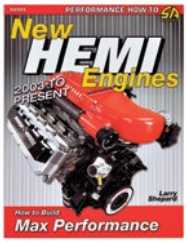


Chrysler Hemi

From the pages of Hot Rod magazine comes bolt-ons, tuning tips and power secrets for the fabulous muscle engines of the 60's and 70's. Over 20 reprinted articles, each filled with great tips to hype your horsepower for street or strip. See what the muscle craze was all about, as only Hot Rod magazine can tell it. Softbound, 8" x 10-3/4", 100 pages.

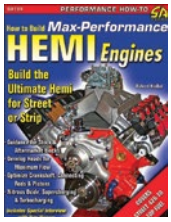
L1049 ..... 23.99 ea

New HEMI Engines



With this book, you can transform a New Hemi engine into an even more responsive and faster power plant. You are able to build the engine that suits all your high-performance needs. Unleashed in 2003, it has been offered in 5.7L, 6.1L, 6.2L, and now 6.4 liter displacements. With each successive engine introduction, Chrysler has extracted more performance. And with the launch of the Hellcat and Demon 6.2 liter supercharged engines, Chrysler built the highest horsepower production engines ever made, at 707 HP and 840 HP respectively. Paperback, 8-1/2" x 11", 144 pages.

L1302 ..... 29.99 ea

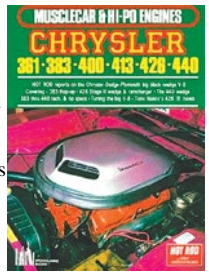


How to Build Max-Performance Hemi Engines

Hemi – the word alone evokes images of ultra high-performance street cars and dominating race cars. No other engine has earned as much street credibility and race success. This engine resides at the pinnacle of American V-8 performance, and cars that carry a Hemi are some of the rarest, most expensive, and legendary muscle cars ever made. How to Build Max-Performance Hemi Engines details how to extract even more horsepower out of these incredible engines. Full detailed coverage on the reciprocating assembly is also included. Heads play an essential role in flowing fuel and producing maximum horsepower, and therefore receive special treatment. Paperback, 8-1/2" x 11", 144 pages.

L1085 ..... 35.99 ea

Chrysler 361-383-400-413-416-440



From the pages of Hot Rod magazine comes bolt-ons, tuning tips and power secrets for the fabulous muscle engines of the 60's and 70's. Over 20 reprinted articles, each filled with great tips to hype your horsepower for street or strip. See what the muscle craze was all about, as only Hot Rod magazine can tell it. Softbound, 8" x 10-3/4", 100 pages.

L1051 ..... 19.99 ea

How to Build Max-Performance Mopar Big-Blocks

Starting in the early 1960s, Mopar Wedge engines powered a wide range of Chrysler muscle cars. This book covers how to build Mopar's 383-, 400-, 413-, 426-, and 440-ci engines to power levels of 600 to 900 HP. How to Build Max-Performance Mopar Big Blocks discusses how to properly budget your engine build for a specific performance target and how to select a stock or aftermarket block for the desired performance level. Paperback, 8-1/2" x 11", 144 pages.

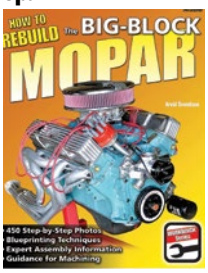
How to Rebuild the Big-Block Mopar

New!



The Mopar big-block RB and B engines have powered millions of Dodge, Plymouth, and Chrysler cars from 1959 to 1978, including some of the most iconic muscle cars. Over the course of 50 plus years, these engines have required and will continue to require rebuilding, and this book is an indispensable guide for the process. Full color photographs accompanied by exceptionally detailed captions with clear, concise instructions guide you through each crucial stage of the rebuild process. Paperback, 8-1/2" x 11", 146 pages.

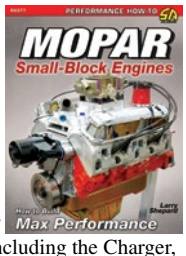
MPRBK ..... 35.99 ea

How to Build Big-Inch Mopar Small Blocks

This book shows you how to get that big cube power, and then it shows you how to optimize the small block's other systems – induction, heads, valvetrain, ignition, exhaust, and more – to make the most of the extra cubic inches. Author Jim Szilagyi is a Performance Specialist for Dodge Motorsports and Mopar Performance Parts. In this book he covers building big inchers from Mopar 318/340/360ci LA or Magnum 5.2-/5.9 liter engines, using both factory and aftermarket parts. Black and white photos. Softbound, 8-1/2" x 11", 144 pages.

L1060 ..... 35.99 ea

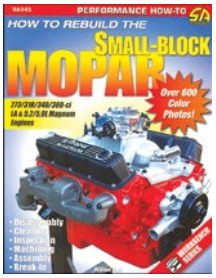
Mopar Small-Block Engines



The Chrysler LA series and Magnum small blocks are powerful, efficient, and quick revving engines that have dutifully powered millions of Chrysler/Dodge/Plymouth cars including the Charger, Barracuda, Challenger, Dart, and others. Author Larry Shepard identifies the best parts and clearly guides you through the specific techniques to extract maximum performance for LA and Magnum engines. Paperback, 144 pages, 8-1/2" x 11".

L1553 ..... 35.99 ea

New!



How to Rebuild the Small-Block Mopar

Small-block Chrysler, Plymouth, and Dodge V-8 engines came in a variety of vehicles since 1964. These powerful, durable engines powered everything from high-performance 'Cudas and Chargers to torquey Dakotas and Ram trucks. How to Rebuild the Small-Block Mopar is the most comprehensive book on small-block Mopar engines ever released, covering 273, 318, 340, and 360-ci LA engines and 5.2 and 5.9L Magnum V-8s. Author William Burt uses color photos and descriptive text to teach readers the complete rebuild process from removal to break-in. Paperback, 8-1/2" x 11", 144 pages.

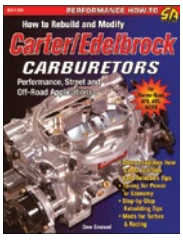
L1061 ..... 35.99 ea

High-Perform Ignition Systems

This book leads you through the various components, systems and sub-systems, explaining the theory behind the operation and how the parts work with each other to achieve the ultimate goal of efficient combustion. Coils, wires, spark plugs, distributors, magnetos, inductive systems, CD ignitions, multiple spark systems, computer ignition controls, and rev limiters are all covered. 8-1/2" x 11", 128 pages, 250 b/w photos.

L851 ..... 34.99 ea

Carter/Edelbrock Carburetors



Contains photos, illustrations and diagrams, covering rebuilding, tuning and modifying Carter and Edelbrock carburetors. Also features history on the Carter company as well as the development of the AFB and the AVS since the purchase by Edelbrock. Softbound, 136 pgs, 8-1/2" x 11".

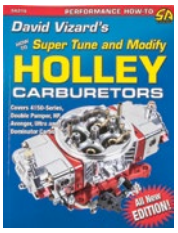
L433 ..... 34.99 ea

Holley Carburetor Handbook

This handbook covers the fuel inlet system, idle system, main metering system, power system, accelerator pump system, secondary system, choke system, metering blocks, repair and adjustment, and more! Softbound, 6" x 9", 80 pages.

L559 ..... 19.99 ea

David Vizard's How to Super Tune and Modify Holley Carburetors

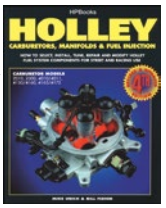


Author Vizard explains the science, the function, and the tuning expertise required to get your Holley carburetor to perform its best for your performance application. This book guides you through the traditional 4150 Double Pumper, Dominator, and 4160 vacuum secondary models, as well as all the recent releases from Holley, including the Ultra Street Avenger and Ultra HP Series Carbs. Paperback, 144 pages, 8-1/2" x 11".

L9658 ..... 29.99 ea

Holley Carburetors, Manifolds & Fuel Injection

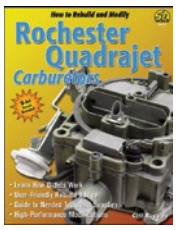
New!



This manual covers high performance and stock replacement 1, 2, and 4 barrel Holly carburetors and Holly manifolds for the street or strip. Also includes sections on the operation and installation of Holley's Pro-Jection fuel injection systems and a special section on Z-28's. Softbound, 8-1/2" x 11", 192 pages.

L40 ..... 29.99 ea

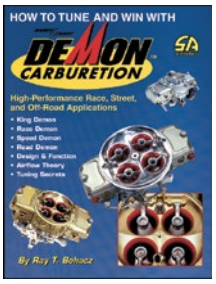
How to Build and Modify Quadrajet Carburetors



The book is a complete guide to selecting, rebuilding, and modifying the Q-Jet, aimed at both muscle car restorers and racers. It includes a guide to selecting and finding the right carb, instructions on how to rebuild the carb and extensive descriptions of high-performance modifications. 128 pages.

L202 ..... 29.99 ea

New!

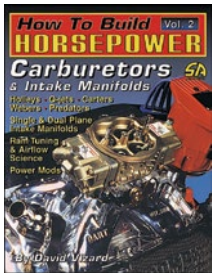


How to Tune and Win with Demon Carburetors

How to Tune and Win with Demon Carburetion provides a detailed look at carburetor and engine theory in an easy to understand manner, and is a guide for choosing the correct carburetor for the application. Tuning tips for racing, and street/strip use are included and each of the four Demon models are analyzed in detail along with the basics of combustion, air flow, emissions, fuel systems, and gasoline. To add to the learning experience, each chapter includes side bars and review questions. Softbound, 8-1/2" x 11", 128 pages.

L164 ..... 33.99 ea

New!

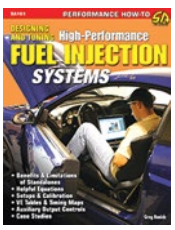


How to Build Horsepower Carburetors & Intake Manifolds

Small modifications and upgrades can result in large performance gains! Acclaimed technical writer David Vizard provides you with the latest technical updates in regards to Carter, Holly, Predator, Weber, Dellorto and Mukini carburetors plus calibration methods, analysis of different designs, mixture ratios and intake combinations. Paperback, 8-1/2" x 11", 128 pages.

L353 ..... 33.99 ea

Designing And Tuning High-Perf Fuel Injection Systems



This book goes in-depth on the combustion basics of fuel injection as well as benefits and limitations of standalone. Includes glossary and a special resources guide with standalone manufacturers and test equipment manufacturers. Softbound, 128 pgs, 8-1/2" x 11".

L1062 ..... 29.99 ea

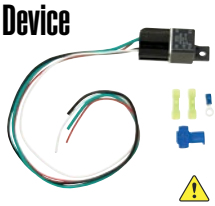
LED False Alarm

Deter auto theft with a "flashing red LED" that gives the appearance of a sophisticated alarm system at a fraction of the cost. In minutes the battery operated Guardian 3000 can be installed anywhere on the dashboard.

G3000		19.99 ea

Starter-Stop Anti-Theft Device



The Starter-Stop is a low cost theft protection device that disables the vehicles ignition. This works with virtually all 12V vehicles. Simply wire it into any on/off switch in your vehicle and that will become your personal kill switch. It automatically arms when the ignition is turned off. There are no batteries to wear out, no annoying siren and no transmitters to lose.

Protection from Moisture During Storage

Sta-Dri pouches significantly reduce humidity and moisture inside of your vehicle safely and conveniently. Pouches can be regenerated up to 3 times. Use 1-2 pouches per vehicle. Depending on humidity level, one pouch can last up to a year of continuous storage, though it is recommended that you check every month and regenerate as necessary. Non-toxic and non-corrosive, remains dry to the touch even when fully saturated.

Grit Guard Wash System

This unique wash bucket provides a convenient way to store or transport all of your car cleaning supplies while doubling as an extremely effective finish protecting wash tool. The Grit Guard insert sits in the bottom of the pail to extract particles and contaminants from mitts and brushes. Gravity causes sand and dirt to settle below the guard so the wash water stays clean and scratch free.

Basic Wash System

The basic wash system includes a black pail with a yellow sealing lid and a Grit Guard insert.

Portable Fire Extinguisher

Amerex portable fire extinguishers have been the industry standard for more than 50 years. ABC Dry Chemical is rated to extinguish: (A) paper, wood, and textiles, (B) flammable liquids and, (C) energized electrical hazards. Purple-K dry agent is superior for flammable liquid fires over ABC units. Halotron "clean agent" units are also effective for Class B and C fires but leaves no residue after discharge.

OER

K89448

OER® "Secret Formula" Clay Bar System

Clay pulls out all the contaminants you cannot see, but that you can definitely feel, like industrial fallout, rail dust, and brake dust. These contaminants may cause patches of paint to appear dull, even after waxing. As these contaminants oxidize, they create rust spots within the paint. Clay bar will remove these contaminants and leave the surface silky smooth with a mirrorlike smooth finish. Our clay will not break or deteriorate into small particles like inferior low quality clay bars. Acts as a magnet to foreign particles, literally pulling the paint fouling grime away from the surface of the paint. Clay lubricant is essential to the performance and safety of clay. It provides the necessary slick surface for clay to glide on.

200 Grams – Package of 4 - 50 Gram Bars per Package

OER® Premium Metal Polish & Sealant

OER® Extreme Shine Metal Polish & Sealant cuts through layers of dulling oxides to restore a wet mirrorlike finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on with ease, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust, or powder. Utilizing friction and heat OER® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective sealant that bonds to metal surfaces reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball and drill.

K89483 16 oz. bottle 17.99 ea

OER® "Secret Formula" Acryli-Shine Glaze

K89620 K89621

Glaze is a polish without any cleaning properties used primarily to improve the shine and clarity of paint. Primarily used by body shops for finishing jobs or by detail shops to bring out the brilliance of paint, glazes are also commonly used on show vehicles to achieve a "high luster or wet look". Your moldings will not turn white. Glazes do not replace polishing. If a surface has minor swirls and imperfections, to achieve the best superior results, the surface should be polished with a polish first.

K89620	32 oz. bottle	24.99 ea
K89621	1 gallon	54.99 ea

Ice Super Shine High Gloss Dressing

K89521 K89522

The Ice Super Shine Dressing is a thick silicone rich dressing that leaves a super high gloss, long-lasting shine on tires, rubber molding, vinyl, and plastic. This dual action premium dressing leaves surfaces 100% dry to the touch and shining better than new, while protecting the surface against dirt, dust and harmful UV rays.

K89521	32 oz. spray bottle	26.99 ea
K89522	1 gallon	42.99 ea

Finishing Touch Matte Finish Protectant

K89523 K89524

Finishing Touch is an all purpose dressing that restores the "new car look" to vinyl, rubber, leather, and plastic. It cleans, beautifies, and protects. It is preferred by many detailers for interiors for its "softer" look and non-greasy look and feel. Pleasant banana fragrance. Patented UV absorber penetrates and acts as a protective barrier against harmful rays that cause premature aging, cracking, fading, and peeling. Perfect for dashboards, vinyl tops, door panels, consoles, tires, trim, bumpers, vinyl seats, moldings, and more.

Rust Treatments

KBS Rust Converter converts a rusty surface into a matte black, inert primed surface that is ready for paint and compatible with most top coats and protects against future rust. KBS Pre-Priming Etch inhibits rust and promotes paint adhesion for bare metal surfaces. OER® Convert Rust instantly neutralizes rust and converts the rusted surface, leaving a protective dark polymer coating.

with Diamond Finish

DiamondFinish® Clear Coat

DiamondFinish Gloss Clear Top Coat is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal®, for top coating direct to metal, or to coat over any other paint/primer application. The clear coat formula can be applied direct to metal or over other coatings. This high gloss clear coat remains permanently flexible and is able to perform in the toughest environments without yellowing, cracking, or peeling. Apply directly to painted surfaces with minimal surface prep. Incredibly tough and hard like no other clear coat on the market. Can be applied with a brush (without leaving any brush marks), roller and conventional spray gun. Unlike two part coatings, no hardener is needed with DiamondFinish. Just stir and go. DiamondFinish clear coat will cure without heat or UV lights in temperatures from 50 to 86 degrees Fahrenheit. Able to withstand the harshest of chemicals including fuels, solvents, battery acid, brake fluid, Ethanol, Methanol, MEK, Hydrochloric Acid, fertilizers, and Acetone. Graffiti resistant: because of its chemical resistance, graffiti just won't stick and can be removed simply with a solvent soaked rag. Great for high temperature automotive applications including the use on cylinder heads, engine blocks, brake components and even inlet manifolds, without yellowing up to 300 degree Fahrenheit.

RustSeal® Corrosion Barrier Coating

RustSeal is a superior one part, ready-to-use, high-solids content, rust preventive, corrosion barrier coating. RustSeal flows out to a beautiful, rock-hard, tough ceramic-like coating that is tough to chip or scratch, and will not crack or peel. RustSeal is an incredible, single component, ready-to-use, high solids content, rust preventive coating with exceptional sealing properties. RustSeal is the most permanent cost effective solution for stopping rust and corrosion anyplace where it is a problem: home, automotive, industry, fleet, farm, and more! RustSeal is an enhancement that lasts. Water and air are locked out, therefore oxidation, the precursor to rust, cannot take hold. RustSeal is not intended for use as a final finish. After removing or treating rust on floors, subframes, or other under vehicle components, RustSeal Corrosion Barrier Coating works by isolating the surface from moisture and oxygen. This single component, high solids, rust stopping coating seals out the ultimate causes of rust, creating a rock hard non-porous barrier between the metal and rust promoting elements. Will not crack, chip, flake, or peel, and no hardeners or activators are needed. RustSeal is completely unaffected by salt, gasoline, oils, battery acids, hydraulic fluids, solvents, chemicals, or corrosives.

RustSeal® Coating

Note: add the 2 digit numerical color code to the end of the part number to specify your desired color when ordering.

BEFORE APPLICATION **AFTER APPLICATION**

Shared Benefits:

- Easy spray-on application
- Continuous protective moisture barrier
- Fast clean up with soap and water
- Environmentally friendly solution
- Applicable to interior or exterior of vehicle
- Non-toxic and class A fire rated
- Both are paintable
- Coverage is approximately 50 ft²/2 gallons

Sound Control Benefits:

- Provides non-combustible thermal insulation
- Able to withstand temperatures up to 500 degrees F
- Interior temperature reduced by 30 degrees F
- Offers a protective, seamless membrane

Ceramic Insulation Benefits:

- Protects surface from moisture and rust
- Dampens annoying rattles and road noise
- Impressive damping to weight ratio
- Coating can withstand temperatures up to 300 degrees F

Sound Control and Ceramic Insulation

Get the comfort of premium grade insulation without the extra weight! These environmentally safe formulas from LizardSkins can be used as a one part coating or as a two stage system for a cooler, quieter driving experience. The Sound Control formula dampens unwanted engine and road and noise, while the Ceramic Insulation formula cools your vehicle up to 30 degree F or more creating a more comfortable ride. Designed for floors, roofs, firewalls, fenders, transmission tunnels, door panels, trunks, and more, all at a combined cured weight of 52 lbs for four gallons. Insulating a vehicle has never been this easy, thanks to a custom designed application gun made specifically to handle the thick density of the coatings with ease. Order the individual components or buy a complete kit and save!

Important: For two stage applications, Sound Control coating should be used as the base. Four gallons of each coating are required to encapsulate a typical interior and trunk area of 1 vehicle, and 1 gallon of Sound Control when applied as undercoating.

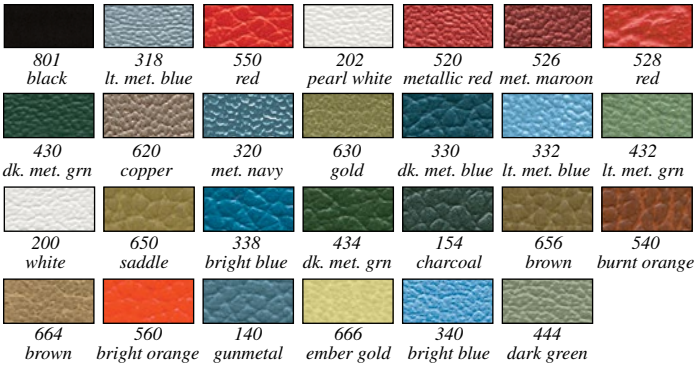
OER® Aerosol Coatings



OER® Premium Quality Aerosol Interior Paint

OER's revolutionary formula provides 40% more coverage than standard dyes and lacquers and actually penetrates and bonds at the molecular level to the surface to permanently seal in the color. Dries to the touch in 45 seconds and forms a complete bond in just 10 minutes. UV stable and color fast, it will not crack, flake, or peel. For use on vinyl, leather, ABS plastic, polycarbonate, polypropylene, polyurethane, acrylic, lexan, fiberglass, and recycled plastics. When only the best will do, use OER® Premium Quality Interior Paint. Available in a 16 oz. aerosol can (net wt. 12 oz.).

Note: Shipped within the continental U.S. only. Shipped ground only.

Mopar Exterior Touch Up Paint

Classic Industries® now has an answer for those annoying paint chips and scratches that always seams to appear. Manufactured from high-quality acrylic lacquer, these paints are mixed with factory formulas and designed to be the best match for the original paint on your vehicle. This paint is a single stage product, which means that no hardener is added. This gives our touch up paint an extended shelf life. Use it today, and then if you need it down the road it will still be usable. Just like the factory finish, the paint is gloss, so no clear coat is needed (unless the original paint called for a clear). Our paint is slightly thinned so you can use the included brush to touch up the problem area, or you can thin it down and spray it out of an airbrush. Paints come in a 1/2 oz. glass bottle sealed with a metal lid and foil liner, additional brush cap and a small mixing stick.

Important: Colors may not match 100% due to factors such as age, weathering, fading, lot variances, etc. Colors may have also been used by the manufacture on additional years other than what's listed below and often went by different names depending on the division in which they were used (Chrysler, Dodge, or Plymouth). Please refer to color codes when placing order. Additional colors, information and year ranges available online.

Note: Shipped ground only, no air shipments.

OER® Aerosol Coatings

OER® Rubberized Undercoating

A black, rubberized undercoating for all automobile under surfaces. Sprays evenly and dries completely to a smooth consistency. Can be top coated with any type of automotive finish. Prevents rust, reduces road noise, seals out water, fumes, road chemicals, and dust. Special formula greatly reduces lingering odor associated with most other brands of undercoating. No "bleed through" when top coated. Use on undersides of panels, hoods and deck lids, trunk interiors, section repairs, weld joints, rust holes, or on chassis parts. 20 oz. aerosol can (net wt. 18 oz.) or buy a case and save!

Note: Ships ground only. No air shipment.

OER® Professional Grade PBE Primer

OER® is pleased to offer our professional grade primers specifically formulated to meet the performance needs of body shop personnel but conveniently packaged for the automotive enthusiast. Tough and dependable, these primers adhere extremely well, prevent rust and corrosion and enhance the quality and appearance of the finished product. Large fan spray head gives a professional looking application. Eliminates the need for a spray gun for small repairs, reduces cleanup time.

OER® Self-Etching Sanding Primers

Manufactured with a modified acrylic resin to give you excellent adhesion to all types of metal, aluminum and prepared surfaces. Drys to the touch in 10 minutes. Dry to sand or top coat in 15 minutes. Available individually in 20 oz. (net weight 15 oz.) cans or in case of six.

K89560	gray	17.99 ea
K89561	black.....	17.99 ea
K89562	red oxide.....	19.99 ea

OER® High Solids Sanding Primers

A superior professional grade primer formulated with 40% solids to provide twice the coverage of conventional aerosol primers. Fewer cans needed to complete the job to save you time and money. Protects against rust and corrosion. Provides excellent adhesion with single coat hiding capability and minimum over spray. Available individually in 20 oz. (net weight 15 oz.) cans or in case of six.

Note: Shipped within the continental U.S. only. Shipped ground only.

K89575	red oxide.....	19.99 ea
K89576	gray	19.99 ea

OER® Zinc Phosphate Primers

Specially formulated primer that is chromate free and chemically bonds with iron, steel and aluminum to form a hard, highly adherent coating. It has exceptional corrosion resistance. Ideal for spot repair of damaged coatings. Exceptional protection against rust and corrosion. Compatible under two component coatings. Forms a hard, highly adherent, water resistant coating that can be painted or left as is. Drys to the touch in 10 minutes. Available individually in 20 oz. (net weight 17 oz.) cans or in case of six.

Note: Shipped within the continental U.S. only. Shipped ground only.

K89565	green.....	17.99 ea
K89566	yellow.....	17.99 ea

OER® Spray Galvanized Weld-Thru™ Coating

A smooth, cold galvanizing compound that chemically fuses to bare steel and forms a extremely rust resistant barrier. Perfect for application on the inside of newly installed panels where rust prevention of new metal is important, but where the part treated will not be painted. Fast dry, sag free spray that is abrasion resistant. Stops rust creepage, resists chemicals and is rust inhibitive. Apply it to sheet metal pieces before installation, then weld as usual. The coating will not affect the quality of the weld, and will retain is rust preventative properties. Available individually in 16 oz. (net weight 12 oz.) cans or in case of six.

Note: Shipped within the continental U.S. only. Shipped ground only.

K89567	gray	21.99 ea

Experience Spray Gun Control!

Transform your aerosol container into a versatile spray gun. Using it's unique "lock-on" device, simply snap it on and spray! You'll experience better control for applying steady even coats, easy handling and comfort, all adding up to reduced fatigue. Use with paints, lubricants, cleaners, craft sprays, and more! Universal fit for most aerosols.

OER® Aerosol Coatings

argent silver | low luster gray | charcoal gray metallic | simulated magnesium

OER® Factory Wheel Coatings

OER® factory wheel coatings are available in a variety of original colors so you can achieve the correct factory look when restoring your wheels. Eliminates the need for expensive custom paint mixing and greatly simplifies the restoration process by providing spray gun results without the hassle and mess of a spray gun or the need for an air compressor.

Note: Ships ground only. No air shipment.

Argent Silver

Correct color and sheen for Mopar Rallye wheels grills and other parts where argent silver was originally utilized.

K89320 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea

Low Luster Gray

Correct color and sheen for the restoration of steel and mag wheels that call for a unique shade of gray. This gray was used on the backside and in some cases both sides of steel factory sport wheels. Can also be used on jack mechanism and jack base on some models.

K89410 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea

Charcoal Gray Metallic

Charcoal gray metallic paint for the restoration of the wheel insert area on various wheels. Correct color, tone, and luster for a factory fresh appearance.

K89330 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea

Simulated Magnesium

Correct color, sheen, and texture for the restoration of magnesium wheels.

K89315 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea

OER® Underhood Detail Paint

The perfect alternative to expensive zinc phosphate plating. A variety of choices are available to correctly refinish underhood items such as hood hinges, hood latch and safety catch, carbs, pulleys, linkage, nuts, bolts, brackets, clips, screws, and more with a durable flat or non-gloss finish that mimics the appearance of zinc phosphate plating. 16 oz. aerosol can (net weight 12 oz.).

Note: Ships ground only. No air shipment.

K89540 factory black ..... 19.99 ea
K89520 dark gray ..... 19.99 ea

OER® Clear Enamel

Provide extra durability and color depth on a variety of surfaces. OER® Clear Enamel will enhance the appearance of engine components, wheels, suspension components, and other painted and unpainted surfaces where a gloss clear top coat is desired. Withstands rust, gas, oil grease, salt and intermittent temperatures up to 400 degrees F. 16 oz. aerosol can (net weight 12 oz.).

Note: Ships ground only. No air shipment.

K89265 gloss clear ..... 19.99 ea

OER® Metal Mimic FX Coating

OER® Metal Mimic FX high-performance coatings were developed to mimic the appearance of bare metal so that you can refinish and protect all of the components that were originally left unpainted by the factory. Items such as cast iron housings, aluminum housings, stainless steel parts, galvanized parts and even chrome can now be coated with a "factory correct" looking finish that is extremely durable and amazingly close to the original color.

Note: Ships ground only. No air shipment.

OER® Factory Black Coatings

OER® factory black coatings are available in a variety of sheen levels to help you achieve the correct factory look for your restoration. Our Ultra Flat sheen is an extremely flat non-glare finish. The next level up is our low gloss formula followed by the semi-gloss and finally our exclusive high gloss formulation. Whatever you are spraying, we have the correct sheen for an original factory black look.

Note: Ships ground only. No air shipment.

Factory Black Set

Buy the complete OER® Factory Black set and you will have all the necessary sheen levels for a correct factory look no matter what component you are spraying.

K89550 4 can set – all four sheens ..... 59.99 set

Ultra Flat Factory Black

Extremely flat non-glare finish that is perfect for a variety of uses including underhood items. Provides a durable flat black zinc phosphate look without the high cost of black zinc phosphate plating.

K89540 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea
K89590 case of six cans..... 89.99 cs

Low Gloss Factory Black

A durable low gloss coating that provides a factory fresh appearance on the frame, transmission crossmember, or anywhere else a low gloss, but not quite flat black finish is desired.

PM0305

Frame, Engine, and Body Marker

Auto makers use these permanent markers to write codes and numbers on frames, engines and body components. Engine suffix codes were often written on the back of the cylinder heads. Job numbers were written on the firewall, frame, engine and other components to assure the correct vehicle was being built according to the build sheet. These permanent paint markers will help you exactly duplicate the factory original marks.

EB13

1970-71 Emergency Brake Cable Tags

These tags are located approximately 12 to 14 inches down the cable from where the brake cable exits the drum backing plate. Sold in pairs.

Note: There is no conclusive evidence to determine whether or not 1970 vehicles came from the factory with these cable tags in place. The tags were on the cables that were sold by Chrysler (factory/service replacements) in the early 1970's.

Decal Application Cleaner, Gel, and Protectant

Ensure a safe application by a proper preparation of the vehicles painted surface with Pre App® surface cleaner. The Slide-on® Application Gel is specially formulated for applying automotive stripe kits, eliminating air bubbles and helping to temporarily overcome the tack of pressure sensitive materials during installation. Slide-over® UV Protectant provides an optically enhanced appearance by repelling dirt, oils, tree sap, smudges, and stains.

Application Gel and UV Protectant Sold as a Kit, Buy Both and Save!

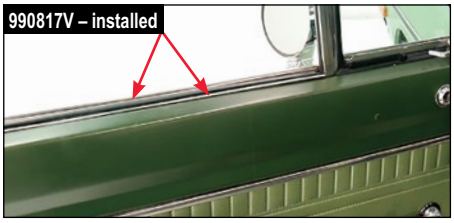
Door Belt Line Weatherstrip

New!



970463

1962-76 Premium Original Style A-Body Window Felt/Belt Line Weatherstrip Set

Top Catwhiskers premium original style belt line weatherstrip sets for various 1962-76 Dodge and Plymouth vehicles. Top Catwhiskers brand offers high-quality workmanship and materials manufactured to the original specifications. This original style set is designed to match the factory weatherstrip in appearance, fit and function. Features the correct style: window felt material or rubber wipe with beaded edge and outer rub blocks (where applicable). These seals are fastened horizontally to the inner and outer top edge of the door and quarter window glass openings. Top Catwhiskers will help eliminate window rattles and seal the vehicle from water and other external elements.

1966-74 Premium Original Style B-Body Window Felt/Belt Line Weatherstrip Set

Top Catwhiskers premium original style belt line weatherstrip sets for various 1966-74 Dodge vehicles. Top Catwhiskers brand offers high-quality workmanship and materials manufactured to the original specifications. This original style set is designed to match the factory weatherstrip in appearance, fit and function. Features the correct style: window felt material or rubber wipe with beaded edge and outer rub blocks (where applicable). These seals are fastened horizontally to the inner and outer top edge of the door and quarter window glass openings. Top Catwhiskers will help eliminate window rattles and seal the vehicle from water and other external elements.

*Note: *10 piece set. **4 piece inner and outer set for the doors only, fits vehicles with pop out quarter windows.*

Window Ribbon Sealer

Window ribbon sealer is a "tape type" sealer which is used in the replacement of windshields and rear windows on all "gasketless" models. Its unique feature of controlled compressibility allows easy installation yet will not squeeze out to allow glass to contact pinch weld. One 15 foot roll is sufficient material to replace one windshield or rear window. 3/8" x 15' rolls.

K4122 round bead..... 19.99 ea

OEM AUTHORIZED

GT0132

Glass Setting Tape

Replacement glass setting tape for various models. This glass tape holds glass firmly and permanently. Seals against dirt, moisture, and will not stretch out of shape. Just fold it over the glass edge, insert glass in the metal frame or channel, and trim with a knife or razor blade. Available in either 5 or 10 foot sections and 1-1/2" wide.

5 Foot Roll

Multi Wedge Prying and Scraping Tools

Multi Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polyethylene that is incredibly ductile so they won't break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy-duty jobs like oil pan covers, timing covers or valve covers. Each 3 piece set includes one 4" curved end, one 4" straight blade and one 3" straight blade. Buy both sets and save! The jumbo wedge is 14" in length and 2" wide, making it perfect for the big jobs.

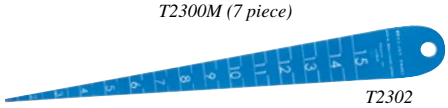
T2300M (7 piece)



T2302

Soft Duty – Delicate prying or wedging

Medium Duty – Sturdy prying or wedging

Heavy-Duty – Very strong and durable

Prying and Scraping Tools

Available in 3 different fiberglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium duty tools are better for the objects that require a little more force to remove, and the heavy-duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough to do interior and exterior automotive jobs without the damage that metal tools can do.

Glass Molding Clip Installing Tool

Reduce the risk of chipped glass and scratches by using this handy tool for replacing your front or rear window glass molding. This tool is specifically designed to fit trim clips over the studs and virtually eliminates glass breakage.

A13574 ..... 37.99 ea

Weatherstrip Ball End Hook Tool

This hook tool has a small, round steel ball on the end. Once the steel ball is inserted down into the rubber gasket, it is very difficult for it to come out. If it should slip out of the gasket, there is less of a chance you will scratch the paint of the vehicle.

153823 ..... 14.99 ea

Glass Seal Rope-in Tool

Use the rope in tool when working with rubber gasket set glass. The unique counter grip plastic handle injects the rope through its stem as it is pulled around the gasket. There is plenty of enough durable rope to fit around even the largest truck window.

153813 ..... 19.99 ea

Lockstrip Insert Tool

The lockstrip insert tool is specifically designed for self-sealing 2 piece rubber weatherstripping. The eye of the tool threads locking strip into the groove and inserts it into the channel.

153818 ..... 12.99 ea

Premium Auto Trim Removal Tool Kit

This 11 piece kit was designed for the removal of door panels, dashboard, trim strips, interior panels and window moldings. Made of impact resistant plastic that will not mar surfaces like metal tool will. Included for the tools is a heavy-duty nylon pouch.

TX2684 ..... 23.99 ea

Windshield/Back Glass Molding Removal Tool

Excellent tool used to remove the molding from the retaining clips on windshield and back window glass.

A7914 ..... 14.99 ea

Windshield/Back Glass Molding Pliers

Specialty pliers for removing door handle clips and chrome molding on most windshields and rear glass. Jaws slip under door handle without damage to panel material, and offset handle permits easy access to molding clips.

Y35200 ..... 8.99 ea

Windshield Removal Tool

Professional windshield removal tool for all vehicle applications. Features an aluminum handle with diamond cut pattern for added grip. Heavy-duty braided wire secures the pull handle to the cutting blade.

153811 ..... 21.99 ea

3M Super Fast Urethane

A rapid curing adhesive/sealant intended for all flush mounted and bonded windshield or back glass replacements. Provides the necessary strength for automotive glass replacement. 10 fl. oz. cartridge.

08609 ..... 29.99 ea

MADE IN USA

J-B Weld ClearWeld Epoxy

J-B Weld ClearWeld is a multi-purpose epoxy that provides a strong and lasting bond on most surfaces including tile, most plastics, ceramic, glass, wood, and metal. Sets in 5 minutes, cures in 1 hour. Cure color is clear. Made in USA.

RedLine Lumtronix headlamps allow 50% more light to shine through thanks to their crystal clear lenses and a special side lens that extends past the retaining ring. This side lens is a true a safety innovation and was designed to provide additional side light and increase visibility. Each headlamp features a Euro style diamond cut reflective base, diamond crystal glass, and a heat resistant composite housing. Even though no paint or tint is applied to the glass or reflector, the Black Illusion headlamps look blacked out when off thanks to the halo and lamp shields that are painted black. Headlamps are available with or without a halo, either single color halo (white) or multi-color halo (with 16 selectable colors plus the ability to adjust brightness), with or without turn signals and your choice of clear or blue H4 Halogen bulbs or H4 LED bulbs. The halo or "Angel Eyes" can also be wired as a daytime running lamp and features 23 low temp LEDs with a 100,000+ hour life, along with "fade", "flash", "strobe", and "smooth" modes that you can choose with the included wireless remote. Headlamps plug directly into your stock harness for a simple and easy installation. Each pair includes 2 headlights, 2 bulbs, dust boots, ceramic tip pigtail harness adapter, and instructions. Multi-color halo sets also include the RGB harness and wireless remote.

Important: *Will fit most vehicles (cars, trucks, motorcycles, and motor homes) made from 1936 to 1979, as well as many vehicles made after 1979 that use a universal round style headlight.*

Note: *Blue Halogen bulbs are blue in color when off, and bright white when on (no blue tint). Clear Halogen bulbs are clear in color when off and bright white when on. LED bulbs include colored film to change the look and temperature color of your lights.*

H4 LED Headlamp Bulbs

Upgrade your stock Halogen bulbs with a pair of premium LED headlamp bulbs from RedLine Lumtronix. With a 50,000 hour lifespan, you won't have to change the bulbs as frequently, meaning you'll spend more time on the road than in the garage. Each bulb is 300% brighter than your stock Halogen bulbs as well as a direct fit, "Plug and Play" upgrade that requires no modification to your electrical wiring. LED bulbs include colored film to change the look and temperature color of your lights.

Headlamp/Road Lamp Parts

HID HeadLamp Bulbs

HID headlamp bulbs are much brighter than conventional Halogen bulbs, while providing tight light focus for better light distribution. They require 35 watts and use an external regulator, but will plug into the existing light plug. The H4 series bulb features a bright white HID low beam and a Halogen high beam function.

Important: *Not for use on public roads.*

EH002

Headlamp Wiring Harness Upgrade

Redline Lumtronix wire harness kit upgrades the stock headlamp wiring on your vehicle to provide your new bulbs with maximum power and decrease the chance of overloading the stock wiring and connectors. Power will be drawn directly from your battery, eliminating voltage drops and ensuring headlamp system reliability. The upgrade kit installs easily in 5-10 minutes without any cutting or splicing. Simply plug into your factory headlamp sockets, attach positive connectors to battery terminal and ground wires to the body of your vehicle. Two 30 amp relays provide added protection for your headlamp switch and wiring harness.

United Pacific

Halogen Headlight Pigtail

Universal replacement heavy-duty 3 wire headlamp plug will replace the original plug on most vehicles equipped with dual filament low/high beam headlamps that require a standard classic 3 prong connector. Each pigtail is widely used on many various applications. Check your original pigtail socket to determine the 3 prong design. The 3 blade connector plug includes 3 high heat resistance nylon wires in black, green and red color skin. Will require cutting and splicing to install into the original wire harness.

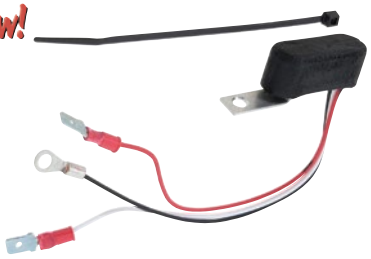
Lamp Flasher

Emergency flasher and turn signal flasher for a wide variety of classic vehicles. This is the part that regulates current to the turn signal bulbs so they can intermittently flash. Replaces the standard 2 terminal fixed load and variable load flashers. Fits all standard 2 prong flasher receptacles.

13350C	12 Volt	2 prong	4.99 ea

New!



Electronic LED Lamp Flasher

Electronic LED flasher (advanced) is a simple replacement and upgrade for standard flasher relays. This electronic LED flasher is recommended for use with LED tail lights. Two flashers are recommended, if you are installing both LED taillights and LED front lights (turn signals etc.)

UFM10	.....	34.99 ea

B6207 B6208

LED Lamp Flasher

Due to the lower current draw of LED lamps, this electronic 12 Volt flasher is recommended for vehicles equipped with LED lamps. Available in 20 amp or a 25 amp. The 20 amp is available in 2 or 3 prong type.

Important: *If installing LEDs on both the front and rear, two flashers are usually required.*

1967-74 A, B, & E-Body LED Taillamps

These LED replacement taillamps fit perfectly behind your factory lens and bezel, respond faster than conventional bulbs, and are brighter than DOT requirements! Using high intensity, wide angle LEDs, these lamps splice into the rear wire harness to increase visibility and add a modern touch to your Mopar. The circuit boards are designed to use the maximum housing area with LEDs arranged to compliment original lens facets for optimal light output. Includes installation hardware. One set does both sides.

Note: Lens, housings, and bezels not included.

Universal Hood Insulation

Dynamat hoodliner will protect your vehicle's paint and reduce irritating underhood noise. Made from 3/4" acoustic sound soaker foam with a reinforced, aluminized skin that is oil and water resistant. The hoodliner has a high tack pressure sensitive adhesive for easy peel and stick application. For those who prefer black, there is also Dynaliner, which boasts the highest heat blocking properties available in a single layer synthetic foam. Dynaliner is available in 1/4" and 1/2" thick. Use the thickest one your space will allow. All hood insulation sheets measure 32" x 54".

1966-74 Inner Fender

Factory style replacement inner fender for various 1966-74 models. One of the most critical and important sheet metal panels is the front fender skirt or inner fender. These panels provide critical support for the fenders and keep water and other road hazards out of the engine bay. Because of the location of these panels, they take abuse from the road like rocks, salt, and other hazards and often rust out as a result. Each panel is stamped to original factory specifications. Your choice of our Restorer's Choice™ panel, Officially Licensed by Mopar, manufactured in OE gauge steel featuring all original contours and details or our standard replacement for the car builder on a budget. Comes finished in black EDP coating to prevent rust and ready to prep and paint to your desired color.

Note: Shipped double oversize.

1970-74 E-Body Upper Cowl Panel

Factory style replacement upper cowl panel with holes is stamped from OE gauge steel with all-new tooling, is designed to replicate the original exactly and features the correct contours and detailing that make this the finest replacement on the market. This panel was made two different ways. The difference was how the plastic vent screens were attached to the cowl panel. The screens could either be held on by small plastic clips or by small Phillip head screws. The panels that we offer for the clip style screen include the pre-cut square holes for the clips and the screw style panel does not include any mounting holes for the vent screen. Panels feature black EDP coating for rust and corrosion prevention and are ready to be prepped, primed, and painted without stripping.

Note: Shipped double oversize.

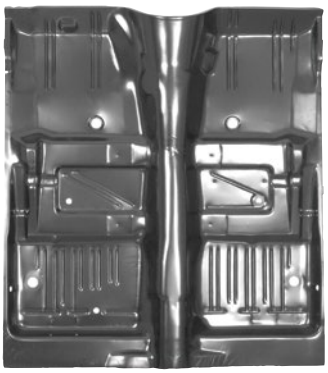
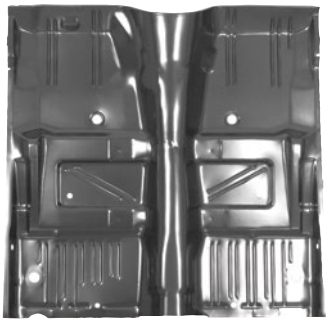
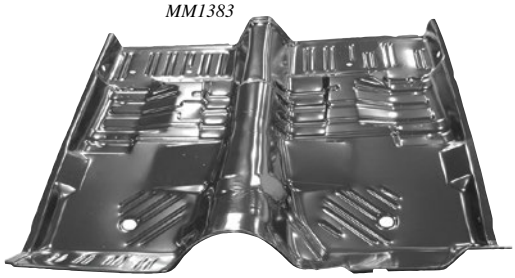
Floor Pan



MM1383



MM1384



MM1386B

MM1387A

1966-74 Floor Pan

Don't mess around with patching your floor one section at a time. If the floor pan in your A, B, or E-Body is rusted in multiple places, simply replace the whole pan at one time. Our quality, 1 piece floor pan offers less hassle for installation and no patched seams for a cleaner restoration, greater strength and durability than a patchwork of sheet metal pieces possibly can. Plus, save hours of costly body shop labor when welding in one panel instead of many. Available in your choice of Restorer's Choice™ pans, manufactured in OE gauge steel featuring all original contours and details or our standard replacement for the car builder on a budget. For years, restorers have only had partial floor pans to use on rusted areas, but no longer! Finished in semi-flat black EDP coating to prevent rust.

*Note: *Dart Sport, Demon, Duster. **Without rear seat pan. †With rear seat pan, without braces. ††With rear seat pan and braces. Shipped truck freight.*

1960-76 Torsion Mount Frame Repair Cap

Torsion bar crossmembers often trap mud and dirt inside and it weakens them, causing them to rust out from the inside out, meaning the torsion bar no longer supports the chassis and the suspension is severely compromised. This frame repair cap will remedy this problem.

1960-76 Torque Box

At the factory, torque boxes were known as "Hemi boxes" or "double floor plates". These resist torsional flex, and when combined with subframe connectors, add 20%+ rigidity to the framework. These are not factory stamped pieces for show car points, these are heavy-duty, performance oriented structural enhancements. Made in USA.

Heavy Duty 20 Spray Adhesive

3M Heavy Duty 20 Spray Adhesive forms a powerful, permanent bond to wood, laminate, metal, plastic and more. Simply spray the adhesive on one or both surfaces, wait 15 seconds to 30 minutes, and press surfaces together to form a tight bond. Our self-contained, highly portable dispenser allows for a variable width lace spray pattern to help ensure precise placement.

Note: Ships via ground freight only and is shipped exclusively within the continental U.S. only, as no air shipments are permitted on aerosol spray cans.

MADE IN USA

12 Volt Exterior Door Handles

Elevate your vehicle's style with these electronic exterior door handles from Lokar! Each billet door handle utilizes a weatherproof 12 Volt pressure pad switch to supply power to an electronically actuated door latch (door popper). Its 2 piece design and available 0 degree or 10 degree mounting surface allows the insert to be removed, and door handle positioned for ultimate customization. The XL design provides 7/8" of clearance between the door and the switch, allowing for easier mounting and less modifications to the door. Made in the USA from 6061-T6 billet aluminum.

Important: Requires electronic door latch actuators which are not included.

*Note: *Installation requires hand pocket for clearance.*

Ringbrothers billet aluminum trunk hinges require no alterations for installation. Feature gas charged springs specifically calibrated for steel or fiberglass trunk lids to provide a smooth and effortless action compared to an original mechanical spring. They are machined from 6061-T6 billet aluminum and include hardware. For 1965-70 Coronet and Charger models.

Body Chemicals

BlackTop Top Coat

BlackTop is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal or any other paint/primer application. BlackTop is a high-performance protective coating specifically formulated to withstand dulling and fading caused by prolonged sunlight exposure. BlackTop may be used alone as a resilient coating but offers the ultimate rust protection when used in combination with the RustSeal corrosion barrier coating as step 1. For the best stop rust and ultraviolet protection, first apply RustSeal to permanently seal the surface and then top coat with BlackTop for an incredibly tough and professional looking finish. Like RustSeal, BlackTop dries to a rock hard yet flexible coating that can be readily applied to chassis, coil springs, and lightweight panels. BlackTop also has high heat resistance and can be applied to almost all automotive applications except exhaust systems. BlackTop is intended as a final finish for parts that have been coated with RustSeal. BlackTop will retain its color and sheen even after repeated or prolonged exposure to direct UV light and will not degrade.

Nu-Metal Epoxy Putty

NuMetal Epoxy Putty is an easy to use, two part putty that mixes like clay but hardens like steel! No complicated weighing or measuring required. NuMetal bonds, seals, fills, insulates, anchors, caulks and waterproofs. It cures without shrinking or sagging and can be drilled, tapped, sanded, primed and painted. NuMetal will not only stick to damp surfaces, but it will cure underwater! Available in black.

Sheet Metal Tools

13216 132131

Blaircutter

When you don't have a lot of holes to make, Blaircutters provide fast, accurate holes in materials up to 3/16" thick. Blaircutters are annular cutting tools that cut around the edge of the hole and eject the center as a slug. Because they're hollow there's no dead zone as with twist drills. And unlike hole saws, that rip and tear through the material, they quickly give you a quality, virtually burr-free hole. Sold individually.

Note: D.O.C = depth of cut. Arbors and Cutters sold separately.

Arbor for 1/4" and Larger Chucks

132121	5/8"	23.99 ea

11093

Premium Spotweld Cutters

When you have a lot of spotwelds to remove, step up to the premium spotweld cutters for longer life in today's high strength body steels. These cutters have a heavier wall (.090") for extreme durability and two step geometry that splits the chips and helps clear them. Premium spotweld cutters have a fast cutting action and lasts for hundreds of spotwelds. They are for use in 3/8" or larger drill chucks. The spotweld cutters are available individually or in sets containing arbor, 3 cutters, your choice of 2 skip proof or 2 standard pilots.

111083	cutters – 3 piece	30.99 set

Stick Lubricant

Ideal for all Blair hole cutters. Softer than standard stick lubricants, it provides superior adhesion to the tool and can be used in place of cutting fluids on ferrous and non-ferrous metals to increase tool life, improve cutting performance and easier slug removal.

11750	1.68 oz.	12.99 ea

13224

Double-End Spotweld Cutter

Double-end spotweld cutters makes removing body panels fast and easy. Their hollow design cuts around the spotweld so weld hardness does not affect tool sharpness. When one end becomes dull, simply unscrew the cutter and flip it over using the new teeth on the other end. An adjustable depth rod sets the tool so only the outer panel is cut, leaving the underlying panel undamaged.

13217	replace pilot – 3 pc	12.99 set

Holcutter

Produce holes 3 times faster and cleaner than hole saws in sheet metal up to 1/8" thick and have dramatically extended tool life. Holcutters produce holes from 11/16" up to 3" diameter in sheet metal, rubber, gasket or fiber materials, and some plastics. Ideal for aftermarket installations, custom fabrication, trailers, or gauge installation. Arbor fits 3/8" drill chucks. Holcutters have a new, patented Quad-Lead Thread System for quick cutter changes. Buy the set and save! Holcutter set includes: arbor, hex washer, extra pilot and the following sizes of cutters, 7/8", 1-1/8", 1-1/4", 1-3/8", 1-3/4", 2", and 2-1/2".

Note: D.O.C = depth of cut. Arbors and cutters sold separately.

11007 arbor with 11356 cutter

Rotabroach annular cutters are ideal for sheet metal fabrication, paintless dent removal and for cutting rustproofing access holes without clogging. Unlike hole saws and twist drills that push and tear through materials, these cutters will make hundreds of holes in steel, sheet metal or plastics up to 1/2" thick with no deforming of stock, jagged edges or out-of-round holes. Arbors for Rotabroach cutters fit 3/8" and 1/2" handheld drill chucks and use either spring loaded pilots or skip proof pilots which eliminate predrilling operations. Each set includes: arbor, Hex wrench, center punch, extra pilot, and a variety of cutters as listed.

Note: D.O.C = depth of cut. Arbors and cutters sold separately.

Rotabroach Cutter Set

11090	5/16", 3/8", 7/16", 1/2", 9/16", 5/8", and 3/4"	98.99 set

Body Tools

The Filler Detective

The Filler Detective will find hidden body damage and body filler on a car, truck, or motorcycle. It will tell you where body filler is and how deep it is. This simple 1 button tool lights up and sounds when it detects body filler and features a visual alert with bright, daylight visible LEDs. The meter doesn't miss and it indicates exactly where the body filler is and includes a test plate to confirm accuracy. Never again wonder whether or not a vehicle has been in a wreck! The Filler Detective solves the mystery every time.

FDA0100 red ..... 79.99 ea

EZ Rest Door Hanger

The EZ Rest door hanger enables a single person to quickly remove and/or install vehicle doors. The padded, removable side rails and plastic, ribbed base inserts allow for accurate positioning of the door. The easy on/off design quickly adapts to most floor jacks with a removable saddle and 30mm (1.18") diameter saddle hole.

Note: *Floor jack is not included.*

S21870 ..... 179.99 ea

Door Spring Tool

Compresses spring for easy safe removal. Slides safely over spring. Constructed of heat treated, high carbon steel.

S21900 ..... 25.99 ea

Door Hinge Adjuster Tool

You can now easily adjust the hinges without the aggravation of trying to align by eyesight with this handy tool. Specifically designed to help adjust the hinges so they help to align the door.

Y65800 ..... 52.99 ea

New! Door Hinge Pin Popper

The ultimate solution for removing door pins fast. Drives out even stubborn hinge pins. Works on most GM vehicles with removable hinge pins. Includes pin puller to remove loosened pins.

S21835 ..... 43.99 set

Door Bushing Tool

If you've ever tried removing a door hinge bushing with just a regular punch, you know it's a hassle. This tool makes it easy to punch out bushings and align bushings when reinstalling. Offset design allows for easy access to all door hinges.

S21825 ..... 20.99 ea

Door Aligning Bar

Finally, a convenient door aligning tool that will fit in your tool drawer! Features a Hex stub to use with a breaker bar and socket for additional leverage.

S21845 ..... 46.99 ea

Pro Paint Gauge

The Pro Gauge is a device which measures paint thickness. Factory paint is usually four to five mils in thickness. By using the Pro Gauge you can determine if the vehicle has been repainted. For instance, you can take measurements of about 4.5 mil around the vehicle but the hood may read seven mils on the Pro Gauge. That tells you the hood has been repainted.

PG2437 ..... 84.99 ea

Eliminator Rust Remover

Before touching up paint, you first must remove all rust, wax, and dirt or the rust will return and the paint won't adhere. This unique tool will scrub away all dirt, rust, and wax. The results are touch up paint adheres, seals and blends smoothly into the rest of the paint.

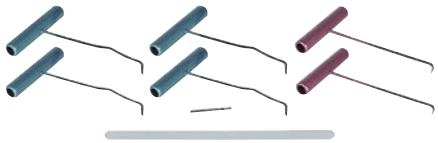
E3437 ..... 9.99 ea

Spot Weld Chisel

Chisel tool to separate panels after the spot weld has been drilled out. Drive the blade with a hammer from the end or the side through the panel seam. Panels are separated without damage. The blade is sharpened on three sides, and offset for clearance.

Note: *The sharpened edges will wear with use. Resharpen on a grinding wheel.*

Y51900 ..... 15.99 ea



Body Dent Removal Tools

The pull rod set includes: 4 pull rods with formed shank, 2 pick pulls with straight shank, straight edge and HS split point drill bit.

S20000 pull rods ..... 47.99 set

X9858

Cleco Sheet Metal Fastener Kit

Everything you need to secure sheet metal panels during the fit and alignment stage. The pliers can be used with all standard spring loaded fasteners and clamps. The kit contains: one pair of Cleco pliers, twenty-five 1/8" Kwik-Lok Clecos and four side grip fastener clamps. Also available are individual components so you can add to your kit as necessary.

Complete Kit

X9863 Cleco pliers ..... 14.99 ea

S23230

Plugweld Pliers

These plugweld pliers make plug welding fast and easy. Panels won't separate and copper alloy pad prevents burn through, allows higher welding temperature and better penetration.

S23230 pliers ..... 43.99 ea
S23231 replacement pad ..... 14.99 ea

13229

Vise Grip Flange Pliers

Preparing panels with an offset flange will produce a clean, flush fit. Work on up to 18 gauge sheet metal without removing panels from the vehicle. The added feature of "Vise-Grip" locking pliers allows for better leverage. Available with your choice of 1/2" wide non-slip jaw or wider 1" clamping surface.

13229 1/2" wide jaw ..... 45.99 ea
X9853 1" wide jaw ..... 41.99 ea

S20016
S20015
S20017

Seam Buster HD Chisel

Easily separate spot welded or bonded panels. Save up to 15 minutes per panel replacement. Great for quarter panels, rocker panels and other pinch welded areas. Sharpened on two edges, the sharp end allows for penetration between panels and the side edge allows for side impact to drive the panels apart without damage. Made of super tough alloy steel. Cushioned handle absorbs shock.

S20015 straight ..... 34.99 ea

Authentic Style Power Steering Belt

Are your belts showing signs of deterioration including cracking and dry rot? If so, it's time to replace these potentially troublesome parts with our original style reproduction belts. Officially Licensed by Mopar, they feature indented imprinting of the correct Mopar part numbers, manufacturer's code, appropriate date code, Chrysler Pentastar logo and they are cloth wrapped. These authentic looking reproductions are the finishing touch to any serious restoration and a great way to gain points over your car show competitors. You don't want something as simple as a worn or incorrect belt to keep you from winning your next trophy, and you certainly don't want to be left stranded on the way to your next show. Officially Licensed by Mopar!

Power Steering Components

New!

Series 8000 Power Steering Cooler Set

A step up from Tube and Fin type coolers, this Derale Plate and Fin power steering cooler features strong furnace brazed construction, 7/8" wide plates, 3/4" embossed turbulators which maximize heat transfer while also minimizing pressure drop. Includes: cooler, hose, clamps, and hardware.

13215	11" x 5-3/4"	68.99 set

New!

13211

Series 7000 Power Steering Cooler Set

This little two pass Tube and Fin power steering cooler uses 1/2" copper tubing expanded into aluminum cooling fins to extend pump and seal life and improve steering performance. It incorporates mounting brackets to make installation a snap. Features 11/32" hose barb inlets. Includes: cooler, hose, clamps, and hardware.

13210	8-1/8" x 2-3/4"	43.99 set
13211	13-3/4" x 2-3/4"	41.99 set

MD2383

Saginaw Power Steering Pump Pulley

Reproduction power steering pulley for Saginaw power steering pumps on B/RB/Hemi applications. Choose black satin finish like the originals or chrome.

Important: *Can be used on 1970 and up small block engines but require spacer set MD47207 for correct alignment.*

MD2381	keyed	black	94.99 ea
MD2383	press fit	black	94.99 ea
MD2384	press fit	chrome	99.99 ea

Saginaw Pulley Conversion Bolt Set

If your small block has a Saginaw pump but no power steering pulley, this bolt and spacer set is the solution! This set mounts big block power steering pulleys MD2381, MD2382, MD2383, and MD2384 on your small block power steering pump.

MD47207	1970-74	small block	14.99 set

New!

1962-72 A, B, & E-Body PS Gearbox

Brand new reproduction power steering box for 1962-72 A, B, & E-Body models engineered to OE specifications. Each unit is inspected, adjusted, and hydraulically tested. This brand new unit is a service replacement style unit that may differ cosmetically from your original gearbox.

11043	1962-72	fast	2-1/2 turns	499.99 ea

New!

MN6542

1962-76 PS Gearbox — Standard Ratio

Service replacement power steering gearbox manufactured to fit a wide variety of 1962-76 Mopar applications. May differ cosmetically from your original unit but will fit and perform as intended as a replacement of your worn, damaged, or missing original gearbox.

MN7506

1962-76 14:1 Ratio Power Steering Box

A modern power steering box for the 1962-76 Mopar models which fits factory power steering cars. The box offers a 14:1 quick ratio, firm modern power steering feel, drastically increased header clearance and a 10 pound weight savings over a factory power box. Box bolts directly to the stock K-member mounting location. Gearbox is available to fit 1-1/8" or 1-1/4" pitman arm shafts.

Important: *The original steering column shaft will need to be cut and shortened for installation. Connection to the box is then made by drilling and pinning MN7507 Mopar vibration reducing universal joint coupling to the shortened steering column shaft. Drill bit and pins included with coupler. Use MN7508 hose set for Saginaw pumps.*

MN7505	1962-76	1-1/8" shaft	594.99 ea
MN7506	1962-76	1-1/4" shaft	594.99 ea

New!

1973-76 A, B, & E-Body PS Gearbox

This unit features 100% new o-rings and lip seals to ensure leak free, long-lasting performance. Shafts are surfaced to precise specifications to eliminate premature seal wear and extend gear life. Unit is 100% hydraulically tested to ensure perfect fit and function. The gearbox installs and functions as original, but may vary in finish and appearance.

Important: *The steering system must be flushed and replaced with OE recommended fluid. Hoses should be inspected and replaced if they have been in use for more than 5 years.*

Note: *Gearbox does not include control valve (return nozzle body). Must clean it before installing on gearbox. O-rings are included.*

2267560 2537227

1965-74 Pressure Control Valve

OER® reproduction return fitting for the steering sector on 1965-74 Dodge and Plymouth models. The return hose of the power steering pump attaches to this fitting. It is mounting to the control valve by 2 bolts and is sealed by 2 o-rings.

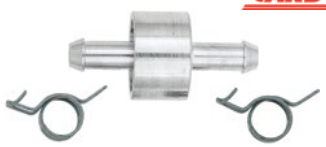
2267560	1965-66	5/8"	69.99 ea
2537227	1967-74	3/8"	69.99 ea

1962-76 Steering Coupler Universal Joint

Steering universal joint/vibration reducer in steel. Couples stock steering columns to power steering box MN7505 and MN7506. Stock column must be cut and shortened for installation. Includes drill bit and roll pins for installation.

MN7507	1962-76		128.99 set

New!



Power Steering Fluid Filter

In-line Magna-Pure filter filters up to 190 micron particles. Protects the entire steering system from contamination. Features serviceable magnetic filter element. Fits 3/8" id power steering hoses.

PS20038F		24.99 ea

Steering Components

Is your steering loose or front end out of alignment? Parts of your steering system may be worn out or damaged. Now you can rebuild your 1962-76 Mopar A, B, or E-Body's steering linkage system with your choice of inexpensive aftermarket replacement parts or superior premium replacement parts, both of which meet or exceed OE quality standards. Whether it's loose tie rod ends, a seized up idler arm, or a worn out steering gearbox, we carry the parts you need to get your Mopar back on the road!

Front Suspension Components

If your suspension rattles or makes noises when turning or going over bumps, it might be time to think about rebuilding your front suspension. You no longer have to search for obsolete parts because we carry the parts you need to rebuild the suspension of your 1960-76 A, B, or E-Body. Choose from either standard aftermarket replacement parts or premium replacement parts, both of which meet or exceed OE quality standards. Whether it's cracked bushings, or rusty spindles, we carry the parts you need to get your Mopar on the road again!

1963-74 A-Body Disc Brake Conversion Tubular Upper Control Arm Set

These tubular upper control arm sets are designed for installing B & E-Body disc brakes on your A-Body Mopar. They are made from 1-1/4" .120" wall DOM (Drawn Over Mandrel) tubing. The pivot barrels are thick 1-1/2" .188" wall DOM (Drawn Over Mandrel) tubing to eliminate distortion from welding and hard use. The bushings are made from self-lubricating non-squeak plastic that works at temperatures in excess of 400 degree F and will outlast any rubber or urethane. The sleeves are zinc-plated for lasting performance, and ball joints are included.

Formula Five Pre-Lube

Formula Five Pre-lube is a versatile, waterproof, non-melting grease containing PTFE. This forms a tough, durable, chemical resistant film of lubricant. Only small amounts are required to properly lubricate bushings and metal components and to prevent corrosion. Use this when assembling your polyurethane bushings to your suspension. Made in USA.

Important: *Only small amounts are needed when assembling components.*

1966-74 Sport Suspension Sway Bar Set

Improve the handling and straight line performance of your Mopar with Hotchkis Sport Suspension stabilizer bars. Specifically tuned and tested for each application to offer a balanced feel. Hotchkis Sport Suspension stabilizer bars offer increased roll stiffness previously unavailable for the classic Mopar. Both stock vehicles and those modified with wider tires and high horsepower engines will benefit from this increased stability. Featuring the latest, lightweight tubular design, these bars are finished in gloss black powder coated, and include easy to lubricate bushings, mounts, and end links, and all necessary hardware for a complete installation.

Important: A-Body models require minor welding. B-Body models may require minor frame drilling in rear.

*Note: *Lower mounts for vehicles without original sway bar mounts. Shipped oversize.*

Set Includes:

- Pre-Fabricated Wheel Tub Fillers
- Trunk Hinge Braces Extensions
- Spring Buckets
- Shackle Brackets and Sleeves
- Spring Perches
- Set of Cut Templates
- Step by Step Instructions

1962-75 Mini-Tub Set

Ever wanted to gain more room for bigger tires in your vintage B-Body Mopar, but thought that moving the wheel tubs and leaf springs was to much work? This combo set was created to save you time and money for just that. Individual components also available.

Mini-Tub and Spring Relocation Combo

PM1019

1962-74 B & E-Body Level 1 Chassis Stiffening Set

Frame connectors and torque boxes add stiffening where the factory engineers knew you needed. Less twist and Unibody flex. The factory added OEM torque boxes on the high HP, high torque vehicles and convertibles. Hemi, Six-Pak vehicles etc. had torque boxes added by the factory engineers. These reproductions of the OEM pieces improves on that proven design. Stronger by using 1/8" thick steel and having them CNC-machine cut and CNC bent. Purchasing these chassis stiffening components as a set will save substantially over purchasing these individually. Level 1 set includes CNC cut frame connectors and front and rear torque boxes.

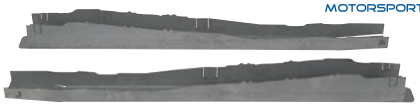
Suspension Components



PM1106

1962-75 Frame Connectors

CNC-machine cut from 12 gauge steel (original factory rails are made from 16 gauge material) and CNC bent for a precision fit, these frame rail connectors are designed to be welded in to your existing unibody floor pan. No cutting of the floor pan is required and once welded in, they create a fully boxed frame rail connector that is stronger than the original factory frame rails.

PM2044	1970-74	T56	383.99 set

1970-74 E-Body Transmission Tunnel

1970-74 transmission tunnel frame for 1970-74 Mopar E-Body models. The perimeter frame replaces the factory restrictive floor/transmission hump and adds the structure needed when removing the center of the factory torsion bar cross member and makes room for larger automatic and overdrive transmissions.

PM1801	1970-74	E-Body	907.99 ea

1970-74 Barracuda Rear Valance Panel

This compound shaped patch panel will allow removal of the factory "bump" in the rear valance that creates clearance for the rear spring shackle and replaces it with a smooth panel.

PM1521	1970-74	Barracuda, 'Cuda	278.99 pr

MM52314

1966-72 Tubular K-Member

Engineered for maximum strength, QA1's direct bolt-on K-member reduces front end weight and allows for greater header and oil pan clearance. These tubular K-members come in powder coated black finish and will accept both factory and aftermarket engine mounts and lower control arms. Includes welded tow hooks. Made in USA.

Important: *K-members require the use of later style sway bars. When converting to the later sway bar, you can relocate the sway bar tabs on the stock lower control arms, use later year lower control arms, or upgrade to QA1 lower control arms.*

Note: *Shipped oversize.* OS1

A-Body

Designed for use with 1967-72 small block engine mounts and 1973-76 sway bars.

MM52313	1967-72	A-Body	820.99 ea

B & E-Body

Designed for use with small block or big block engine mounts and 1970-74 E-Body or 1971-72 B-Body sway bars.

MM52315	1966-70	B-Body	820.99 ea

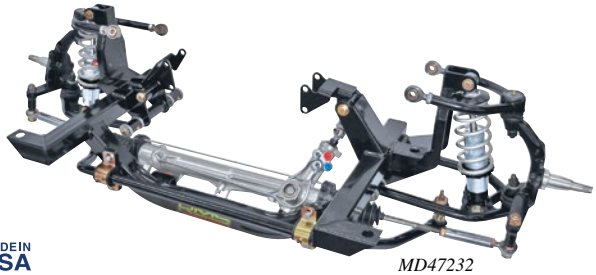
AlterKtion Front Suspensions Handles the Competition!

Unrivaled Performance on Any Road Surface

From bumpy, pothole lined streets to winding mountain roads and silky smooth racetracks, Reilly Motorsports has designed the Alterktion front suspension to perform in all conditions. The highest quality manufacturing and design goes into every suspension system. The result is a weight saving performance package that bolts-in without welding, providing adjustability and even allowing clearance for engine, oil pan, exhaust, and steering columns. Made in USA.

Featured on Classic Industries®' "Twisted" Duster



MADE IN USA

MD47232

- ***Tubular Control Arms***
  Alterktion tubular control arms use standard B-Body screw-in upper ball joints. The lower control arm features a B7 steel through-shaft – an Alterktion exclusive.
- ***Greaseable Bushings***
  Lower control arm/sway bar bushings are greaseable for longer life and less noise.
- ***Motor Mounts***
  Engine frame mounts are installed in the proper position for your engine. The standard polyurethane spool mounts are proven to 600 HP.
- ***Power Rack and Pinion Steering***
  Save weight and increase steering precision. Alterktion's silver powder coated rack and pinion features 2.75 turns lock-to-lock with 6" total travel.
- ***Coilover Shocks***
  Double adjustable Viking coilovers.
- ***Maximum Adjustability***
  Custom-tune your suspension with adjustable upper control arms and tie rods.
- ***Powder Coated Durability***
  All suspension components are powder coated gloss black for corrosion resistance.

1966-76 AlterKtion Set with Double-Adjustable Viking Coilovers

Reilly MotorSports' Alterktion systems with double-adjustable Viking coilovers. Adjust compression and rebound independently. Includes shock adjustment wrench and detailed instructions.

Important: *1967-72 A-Bodies only require removal of the lower bump stop bracket, while all other cars require the upper and lower bump stop brackets to be removed for this installation and two 3/8" holes will have to be drilled. AlterKtion uses Mustang II style spindles, not Mopar spindles.*

Note: *Special order, must be prepaid. Shipped oversize.*

Dig Your Claws Into Pavement with Street-Lynx Suspension

Improves Rear End Geometry, Traction, and Handling!

Get rid of under performing leaf springs with the Street-Lynx triangulated four bar system for your Mopar! This system drastically improves suspension geometry, traction and handling for any road surface. Street-Lynx separates the axle locating system from the spring and lighter components provide excellent ride quality and wheel control. The system mounts the coilovers ahead of the axle to eliminate the wheel hop associated with four bar systems and still allows a stock fuel tank to mount correctly. A crossbar welds between the factory frame rails with no cutting and lower links bolt into the stock leaf spring locations with adjustable mounts. Made in USA.

MD47260

Note: *Axle housing not included.*

MADE IN USA

STREET-LYNX

- ***Weld-In Crossmember***
  Provides mounting points for suspension locating with no chassis cutting.
- ***Lower Link Brackets***
  Mount directly into the forward leaf spring mounting pocket. No modification necessary.
- ***Powder Coated Durability***
  All suspension components are powder coated gloss black for corrosion resistance.
- ***Four Bar Suspension***
  Triangulated four bar system locates the axle better than stock leaf springs.
- ***Coilover Shocks***
  Mounted ahead of the axle to eliminate wheel hop, keeping your rear end planted.

1962-76 Street-Lynx Set with Double Adjustable Viking Coilovers

Reilly Motorsports' Street-Lynx rear suspension sets with double adjustable Viking coilovers make leaf springs a technology of the past. Components are powder coated gloss black and include springs with recommended rating, shock adjusting wrench, and detailed instructions.

Important: *For A-Body models, choose stock location hangers or inboard weld-in boxes. If Dana axle is used in A-Body, rear exit tailpipes will not fit over the axle.*

Note: *Axle housing not included. Special order, must be prepaid. Shipped oversize.*

CALVERT RACING *Products*

CF Series Front 90-10 Shocks

Calvert Racing suspensions offers a lightweight, cost effective shock specifically designed for maximum weight transfer. Built with the softest rate on rebound on the market today, allowing the front end of your race car to come up as easy as possible! This equates to better weight transfer and more weight over your rear tires. Dual stage valving on compression allows the car to settle on the top end. Every application is closely evaluated for best length assuring that each vehicle would have sufficient travel for maximum traction. This is a missed area by most manufactures as their shocks are designed after the factory length shocks. Due to a slightly larger diameter shock body, some slight trimming or clearancing may be required on the lower control arm. Sold as a pair.

Note: *Not for street use.*

1960-76 Stocker Star Shock

QA1 offers Stocker Star Shocks in your choice of fixed, single adjustable and double adjustable configuration. The fixed, non-adjustable version is a rebuildable and revalveable shock for the budget conscious owner. The single adjustable shock lets you simultaneously change the compression and rebound with one knob, choosing 18 valving options. The double adjustable shock offers two knobs to adjust compression and rebound separately, resulting in 324 valving options to fine tune your ride for any type of driving. All shocks have polyurethane bushings and are sold individually. 2 required per axle.

Important: *Some disassembly or modification may be necessary to mount these shocks.*

New!

1960-76 Drag Shock

Lakewood drag shocks feature state-of-the-art 10 stage valve design which provides excellent starting line reaction and stable high speed operation, superior to any other shock on the market today. These shocks feature multiple valve stages, as the vehicles speed increases, the characteristics of the shock change. All Lakewood drag shocks will mount in the stock locations without modification.

90/10 Series Front – Race Only

Will let the front end rise quickly to provide as much weight transfer as possible to the rear wheels on initial launch. Works best on vehicles where maximum rear wheel traction is required.

1960-76 HD Spring Shackle Bushing Set

There are significant forces that are aimed at the rear leaf spring type suspension pivot points and shackles. These wear out the stock rubber bushings in a very short period of time. The best solution for keeping your suspension tight and functioning like it was intended is to install polyurethane bushings. Polyurethane withstands high temperatures and deterioration from the elements. Made in USA.

Important: *A = Main Eye Bushing Diameter. B = Main Eye Bolt Diameter. C = Shackle Bushing Diameter.*

Note: *Please specify color when ordering: G – black or R – red.*

52104	1970-74	E-Body	80.99 set

1960-74 Adjustable Pinion Snubber

If you are using the stock leaf spring rear suspension with a high horsepower to your engine then you need to add an adjustable pinion snubber. These help control axle wind up by adjusting the height to the floor pan. Without a pinion snubber your axle will rotate upward, causing loss of traction and possible driveline damage. These mount on the center front of the rear axle housing.

MM3108	8-3/4" axles	48.99 ea

1964-75 Driveshaft Safety Loop

Mancini Racing's driveshaft safety loops will contain the driveshaft in case of a front U-joint failure, keeping it from contacting the track and possibly flipping the vehicle. Loop uses existing factory OEM chassis mounting holes to securely fasten to the unibody structure of your vehicle. Adjustable to fit all engine/transmission/exhaust combinations. Meets regulations for NHRA and IHRA sanctioning bodies. 100% bolt on with no holes or welding! Manufactured from 2" wide, 1/4" thick, CNC formed steel. Grade 8 hardware included. Crossmember not included.

M18055

Important: **Does NOT fit any "A" bodies with a spool type transmission mount.*

8-3/4" Mopar Differential Holding Fixture

Work on your differential third member safely and easily with this lightweight fixture. It can be clamped or bolted to your work bench or simply mounted in a vise, and it fits neatly in your tool chest when the job is finished. This fixture features a gloss powder coated finish and is designed for all 8-3/4" Mopar differential third members.

Rear Axle Components

Differential Cover FilterMag

Powerful rare earth magnets trap and hold wear inducing metal particles smaller than 40 microns down to 1 micron that the filter cannot stop, keeping metal particles from harming your differential and holding FilterMag in place. Reusable, these will reduce maintenance costs by extending the life of your oil. The rear end FilterMag attaches to the inside of the differential cover and will help keep it running its best. Install when replacing the rear end gasket.

Note: *Mounts to inside of differential cover.*

New!

1960-76 Axle Adjusting Nut Locking Pawl

This locking pawl and flanged nut is used on the right side axle of 8-3/4" and 9-3/4" differentials. The pawl secures the axle end play adjusting nut once proper bearing play is established.

MD7114 1960-76 ..... 11.99 ea

Lisle

Handy Packer Bearing Packer

The Handy Packer works on bearings up to 3 1/2" o.d. The grease stays in the tool cavity, not on your hands. To pack a bearing, place the bearing on the piston. Press down on the cap until the old grease is forced out and the new grease shows on top of the bearing with less mess.

"489" 8-3/4" Drop-Out Housing

Direct replacement "489" case drop-out differential housing for 1969-74 Chrysler 8-3/4" rear end assemblies with an 1-7/8" pinion stem. This nodular iron housing improves upon the factory design by correcting weaknesses found in the original, which allows this unit to handle up to 500 horsepower. The housing features the original Chrysler part number casting, extra material on the bearing caps for added strength and reduced deflection, and high strength billet side adjusters. Although this unit is a direct replacement for 1969-74 models, it can also be used to upgrade the weaker 8-3/4" rear ends installed in 1965-69 applications.

Mopar Authentic Restoration Product

MM1859

MM1860

1968-71 Rear Axle Housing Tape

Did you know the rear axle housing was shipped to the assembly plant without the brake lines and fittings in place? A special piece of tape covered the vent hole to keep debris and moisture out during shipping. The plant then installed the lines and fitting over the tape to complete the assembly. Now you can truly detail your rear end and bring it back to factory specs with the rear axle tape. Each piece is precut and approximately 15/16" x 3-1/4". Available in black or light tan.

Note: *Research indicates majority of axle tape was used on multiple models between 1968-71, but may have also been used on other year ranges as well.*

ROYAL PURPLE SYNTHETIC OIL

Max-Gear Oil

Max-Gear is an ultra tough automotive gear oil. It makes gears run smoother, quieter, cooler and longer without overhauls. Max-Gear is recommended for use in front or rear differentials and manual transmissions that specify use of an API GL-5 or GL-4 fluid. All viscosities of Max-Gear are formulated with hypoid friction modifiers necessary for use in clutch or cone type differentials. No additional additives are necessary.

Disc Brake Conversion Sets

14011022A

1961-76 Forged Dynalite Front Brake Set

Forged Dynalite Pro Series front brake sets offer a drum-to-disc brake upgrade for 1961-76 Mopar A, B, & E-Body models. Each set includes: 11" vented iron rotors, forged billet four piston calipers, low noise low dust brake pads, aluminum hubs and all bracketry, wheel bearings and mounting hardware. Dynalite Pro sets can be used with either manual or power assist master cylinders and replace 9" or 10" drum brakes or factory disc brakes utilizing the original spindles. Requires brake line set 2208307, sold separately.

Style A: Smooth rotors and black anodized calipers
Style B: Drilled rotors and black anodized calipers
Style C: Drilled and slotted rotors and red powder coated calipers.

Important: *May fit some 14" wheels, check wheel clearance diagram in installation instructions before purchase at www.wilwood.com. All front hubs feature 1/2"-20 wheel studs.*

BP-10 Brake Pads

1508850K

Wilwood's exclusive BP-10 is an all new type of metallic composite friction pad compound. BP-10 exhibits the medium to high temperature friction characteristics of a semi-metallic based race compound with the low temperature response, quiet engagement and lowered dust levels normally associated with ceramic based street performance pads. The combination of these characteristics make it the perfect choice for your street machine, auto crosser, or drag racer.

Brake Tools

Brake System Power Bleeder

Bleed your hydraulic brake system like the pros with this high capacity brake bleeder system. This is a simple, 1 person operation with no external power source needed. Includes a precision pressure gauge for safe operation and you can flush the entire hydraulic system without frequently refilling the reservoir. This unit features a large reservoir that holds up to 2 quarts of brake fluid. Complete system includes: reservoir with gauge, hoses, fittings, instructions as well as 2 adapters that will fit most master cylinders from 1947-91.

14227 bleeder w/universal adapters .... 99.99 ea

04000

Mityvac Brake Bleeder

The Mityvac Brake Bleeding set can be used on virtually all hydraulic systems including most ABS systems. It's a rugged, low cost professional tool which enables one person to efficiently bleed brakes, clutches, or other hydraulic systems. Choose from our sturdy polymer plastic bleeder, designed for occasional use, or step up to the heavy-duty model designed for the professional mechanic.

04000 "professional" model..... 139.99 set
06820 "do-it-yourselfer" model ..... 61.99 set

One Man Brake Bleeder

Loosen the bleeder screw and fill with brake fluid. Pump the brakes until the hose is free of bubbles. Everything is included to quickly bleed brakes with no mess. Plastic bottle collects discharged fluids. Complete instructions included.

Y19200 ..... 10.99 set

Y10950

Brake Bleeder Wrench

These will ensure that you don't strip the bleeder nuts on your calipers or cylinders. Check size before ordering.

Y10950 1/4" x 3/8"..... 10.99 ea
Y10900 5/16" x 3/8"..... 8.99 ea

Brake Adjustment Tool

Speed up star wheel adjusting on drum brakes by simply inserting the tool through the slot in drum backing plate. A different angle at each end adapts to many various models.

Y50700 ..... 4.99 ea

Y46750

Y44800

Brake Spring Removal Tool

The standard tool will remove springs that are set over a post. The heavy-duty brake spring tool will remove springs installed through a hole.

Y46750 standard tool..... 14.99 ea
Y44800 heavy-duty (lg. brake springs).. 13.99 ea

Brake Spring Pliers

Removes and installs shoe return springs on most drum brakes. Socket end removes spring from anchor stud. Notched end installs spring on anchor. Pliers remove and install the return spring to outside of brake shoe.

X298 ..... 24.99 ea

Y10400

Brake Cylinder Hone

Special abrasive pads polish the cylinder without cutting. Controlled pressure, three abrasives, and flexible driver give good stability and speed. Stones are 1" long. Range 1-1/2" to 3-1/8".

Y10400 hone..... 25.99 ea
Y10490 set of replacement abrasives.... 6.99 set

Brake Pad Spreader

This unique tool makes changing disc brake pads easy. The tool compresses the disc brake piston for easy installation of pads.

Y24400 ..... 10.99 ea

Y25750

Speedy Brake Pad Spreader

The pistol grip ratcheting action and the fast acting plunger compress disc brake pistons in seconds. This makes brake pad replacement a snap.

Y24300 single piston pad spreader ..... 49.99 ea
Y25750 dual piston pad spreader..... 64.99 ea

Double Flaring Tool Set

If your brake or fuel lines need to be flared, this is the right tool for you. This set allows the user to make single or double SAE flares to exact dimensions. Great item to keep in your tool box.

Y31310 ..... 41.99 set

Tubing Bender

This tool make bends easy without the tube collapsing. Tube benders can be used for bending copper or steel tubing such as brake, fuel, transmission cooler, or power steering lines.

V025700 5/16" and 3/8" lines..... 59.99 ea

Brake Fluid

Wilwood offers two grades of high-performance brake fluid. Hi-Temp° 570 for severe heat. EXP 600 Plus for extreme performance under the high heat of professional motor sports. Always add new fluid to a clean system. Sold by the case.

6801266LP

Remaster Master Cylinder — 2 Bolt Style

Baer Brakes introduces the Remaster master cylinder. The Remaster is a direct replacement for 2 bolt GM bolt patterns. Left or right hand port configurations and compact design to make fitment easier. Master cylinders are available in these bore sizes: 15/16" for manual, 1" for power, 1-1/8" for hydroboost brakes. Provides the best balance between pressure and volume for great braking performance with reasonable brake pedal effort. A mount is machined into the bottom of the master cylinder for a Baer billet bracket/adjustable proportioning valve (sold separately).

1960-75 Replacement Brake Master Cylinder

Replacement hydraulic brake master cylinder use both aluminum and cast iron castings for an exact match to your vehicle. Technologically advanced components ensure safe and reliable braking. With these premium products, you can be certain that your replacement brake master cylinder will perform as good as your original equipment.

Note: **Part #MC36221 can be used on both manual or power brakes.*

1966-74 B & E-Body Disc Brake Master Cyl

Cast iron Bendix style master cylinder for 1966-72 B-Body and 1970-74 E-Body models with disc/drum manual or power brake applications. Master cylinder features casting #2225621, 1.125" bore, 2 ports (9/16"-20 INV-1/2"-20 INV), internal residual valve and black finish. Includes preinstalled firewall bolts for manual applications. For power brakes applications bolts and boot on back need to be removed.

MP500505	1970-74	E-Body	110.99 ea

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

Master Cylinders

1966-74 B & E-Body Drum Brake Master Cyl

Cast iron Bendix style master cylinder for 1966-74 B & E-Body models with drum/drum manual or power brake applications. It features a 1" bore, and ports 9/16"-20 INV and 1/2"-20 INV, with internal residual valves. Includes: the original style zinc lid with the hold down bracket, mounting holes for manual applications and cast finished. Manual rod mounting kit available.

MP500506 1966-72 B-Body ..... 125.99 ea
MP500506 1970-74 E-Body..... 125.99 ea

Universal Cast Iron Master Cylinder

This is the Corvette Style cast iron brake master cylinder that is used as a replacement cylinder or in master/booster conversions. Features a 1" bore master cylinder with 9/16" and 1/2" ports on both sides for easier installations. Includes a piston adapter that will allow for power or manual applications. Works on either disc/drum or drum/drum applications.

MM201321 universal..... 60.99 ea

1967-76 A-Body Brake Switch Wire Retainer

Wire retaining clip for the brake system indicator switch wire on 1967-76 A-Body models. Mounts to the left inner fender on the rear of the shock tower. Features zinc-plating, correct gauge steel and thermo-plastic coated for proper appearance. Mounting screw is included. Made in USA.

MA2474 1967-76 A-Body ..... 6.99 ea

Adjustable Brake Pushrod

This adjustable brake pushrod from Mopar Performance is great for brake master cylinder conversions, especially when changing from a 4 hole to a 2 hole mount. Get the correct adjustment for pedal height. Recommended for MD47277 brake master cylinder adapter.

MD47277 all..... 75.99 ea

1960-76 Master Cylinder Gasket

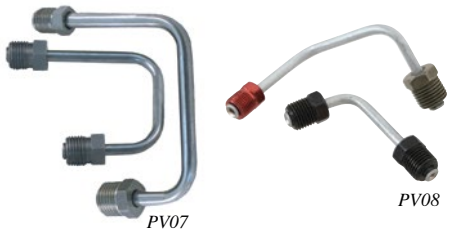
Master cylinder gasket for most 1960-76 A, B, & E-Body Dodge and Plymouth models with or without power brakes. Made in USA.

MD2092 1960-76 all..... 3.99 ea

Master Cylinder Steel Brake Lines

Features tight 90 degree bends at the master cylinder end. Both lines feature inverted flare ends. The longer of the 2 lines measures approximately 12" from the bend to the end.

PV06 3/8"-24 fittings..... 17.99 ea



Master Cylinder Steel Lines

Steel brake lines from master cylinder to combination valve, this pair of lines are correctly bent for mounting the proportion brake valve under the master cylinder. Features: one 9/16"-18 inverted ends on both side and one 1/2"-20 master side. 3/8"-24 inverted ends.

PV07 bottom..... 17.99 set
PV08 side..... 17.99 set

1966-70 B-Body Firewall Wiring Bracket

Replacement wiring bracket for all 1966-70 B-Body models equipped with manual or power brakes. Available in long or short versions and mounts on the brake pedal reinforcement bracket. Manufactured from correct gauge galvanized material and thermo-plastic coated for an original appearance. Made in USA.

MB1721 1966-70 long version..... 22.99 ea
MB1722 1966-70 short version..... 22.99 ea

1966 Inner Fender Wiring Clip

Reproduction of the wiring harness clip located on the inner fender of 1966 Hemi B-Body Dodge and Plymouth models. This clip mounts on the inner fender to hold the front wiring harness. Includes correct mounting screw.

MB1760 1966 B-Body ..... 22.99 ea

1968-70 B-Body Master Cylinder Firewall Bracket

Reproduction master cylinder firewall bracket for 1968-70 B-Body Dodge and Plymouth models. This bracket snaps into place between the master cylinder brace and the firewall to hold the wiring and hoses. One needed per vehicle.

MB1941 1968-70 firewall bracket..... 44.99 ea

1970-74 B & E-Body Firewall Wiring Bracket

Replacement firewall wiring bracket for 1971-72 B-Body and 1970-74 E-Body models. These brackets mount on the brake pedal reinforcement bracket behind the master cylinder on all manual brake vehicles, and on the rear of the power brake booster on Hemi power brake applications. Manufactured from correct gauge material and thermo-plastic coated for original appearance. Correct mounting hardware is included. Made in USA.

MD1628 1970-74 B & E-Body ..... 33.99 set

1970-76 Firewall Wiring Clip

Reproduction of the wiring harness clip located on the firewall of 1970-76 A-Body Dodge and Plymouth vehicles. This clip mounts on the firewall to hold the engine compartment wiring harness. Includes #10 PHP zinc-plated mounting screw.

MA1723 1970-76 A-Body..... 22.99 ea

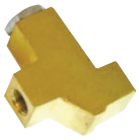
MD2273	1970-71	disc	68.99 ea

1967-71 Proportioning Valve



Utilized in conjunction with the distribution valve on vehicles with front disc and rear drum brakes, this proportioning valve is designed to prevent rear wheel lockup during sudden braking by limiting pressure to the rear brakes. For 1967-70 A & B-Body vehicles and 1970-71 E-Body vehicles.

MD2274	1967-71		48.99 ea

1967-74 Prop Valve with Metering Block

This combination proportioning valve with metering valve is for 1967-74 A, B, & E-Body models with disc/drum brakes. This combination valve includes tee, proportioning valve, and metering valve mounted together. This is a great replacement combination for your old combination and metering valve.

Important: You may have to make new lines because of the metering valve being mounted to the proportioning valve on some models.

MADE IN USA

Brake Proportioning Valve Clamp Set

Reproduction mounting clamp used to secure the proportioning valve to the left frame rail on all 1967-70 A, B, & E-Body front disc brake equipped vehicles. Formed from the correct gauge steel and clear zinc-plated for original appearance. Includes correct 5/16" Hex flange washer mounting bolt. Reference Chrysler part #2852 043. Made in USA.

MN431008	1967-70	all	18.99 set

residual valves

112

Universal Adjustable Combination Valve

Universal adjustable brake combination valve. Features a rotary adjustment to regulate brake pressure. Includes: rotary adjustment to regulate pressure, five 3/8" ports, two front ports, one rear port, two ports feed master cylinder, five 3/8"-24 brake line fittings, and brake light sensor wiring pigtail.

PB1109	valve only		70.99 ea

PB1112	with disc/drum residuals		95.99 kit
PB1113	with disc/disc residuals		85.99 kit

PB1108

Universal Proportion Valve Block

Universal proportion valve and distribution block all in one. Features a rotary adjustment to regulate rear brake pressure and help maintain correct brake bias between front and rear. Distribution block connects to master cylinder and distributes brake fluid to all four wheels. Includes: 5 stainless steel fittings for 3/16" brake line, brake light switch, and wiring pigtail.

PB1107	without lines/bracket		70.99 ea
PB1108	with prebent lines/bracket		116.99 kit

Proportioning Valve

Precision proportioning from 100 to 1000 psi. At full release, valve is capable of up to 57% reduction in line pressure. The new smaller body accommodates easy mounting in a variety of locations in conjunction with two .25" diameter holes on 1.00" centers. Standard 1/8"-27 NPT inlet and outlet ports and two 1/8"-27 NPT to 3/8"-24 inverted flare brake line adapters included makes installation simple.

2608419	knob style		48.99 ea

26013783

Residual Pressure Valve

A 2 pound valve is used in disc brake systems where the master cylinder is mounted below the horizontal plane of the calipers and fluid drain back occurs from gravity and vibration, thereby causing excessive caliper piston retraction and a longer brake pedal stroke. A 10 pound valve is used with drum brake vehicles to compensate for return spring tension in the drums. Fittings are included.

2 Pound Valve – Blue

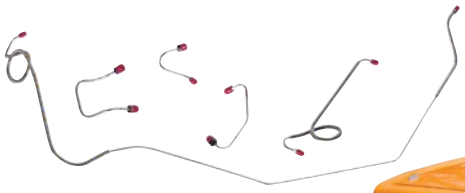
26013783	with fittings		22.99 ea

10 Pound Valve – Red

26013784	with fittings		22.99 ea

WARNING: Cancer and Reproductive Harm-www.P65Warnings.ca.gov

A-Body Brake Lines



Each line is produced with all correct bends to match the factory equipment exactly. Couple precise manufacturing techniques with superior materials and you can be assured that you are installing the best lines available on the market. Lines are machine double flared for a safe, no leak fit. Each line is labeled for your convenience and pre-fitted for easy installation. Applications are available for most 1962-75 A-Body vehicles in your choice of galvanized steel or never rust stainless steel.

Important: *Front brake line sets include master cylinder lines and left front and right front brake lines. They are correct for vehicles with disc or drum brakes. Lines for the disc brake calipers or drum brake wheel cylinders are sold separately.*

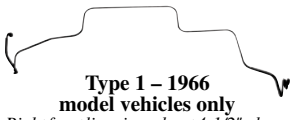
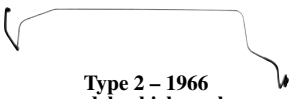
www.P65Warnings.ca.gov

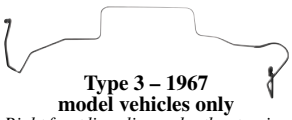
B-Body Brake Lines



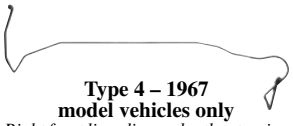
Type 1 – 1966 model vehicles only
Right front line rises about 4-1/2" above the bell housing area of the firewall.



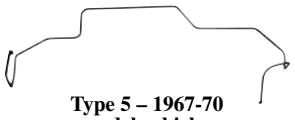
Type 2 – 1966 model vehicles only
Right front line runs fairly straight across firewall to right side.



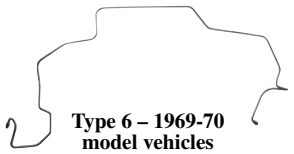
Type 3 – 1967 model vehicles only
Right front line clips under the steering column, then rises about 4-1/2" above the bell housing area of the firewall.



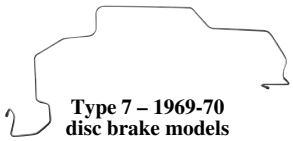
Type 4 – 1967 model vehicles only
Right front line clips under the steering column, then runs fairly straight across firewall to right side.



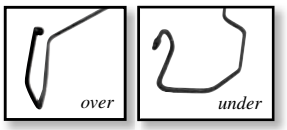
Type 5 – 1967-70 model vehicles
Right front line clips to inner fender, rises about 4-1/2" above the bell housing area, then routes over the frame rail to the hose.



Type 6 – 1969-70 model vehicles
Right front line clips to inner fender, rises about 4-1/2" above the bell housing area, then routes under the frame rail to the hose.



Type 7 – 1969-70 disc brake models
Right front line clips to inner fender, rises about 4-1/2" above the bell housing area, then routes under the frame rail to the hose.



Over or Under the Frame?
Type 6 and 7 lines route under the frame, then back up to the flex hose on the passenger side, while all of the other lines route over the frame, through the splash guard.

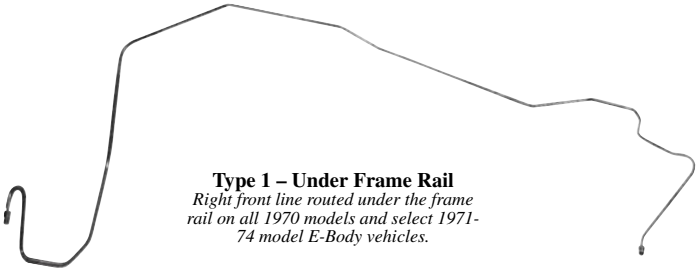
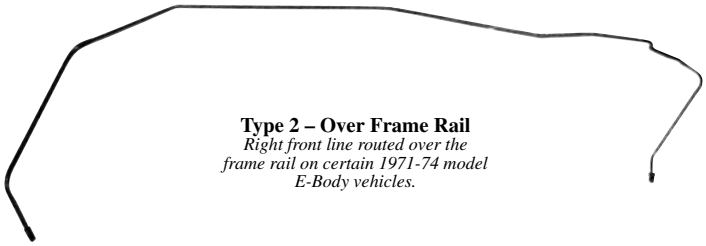
E-Body Brake Lines

Each line is manufactured using a precision process that produces the exact bends of the factory equipment lines. Each line set is clearly labeled for your convenience and prefitted for easy installation and is machine double flared for a safe, no-leak fit. Applications are available for 1970-74 E-Body vehicles in your choice of galvanized steel or never rust stainless steel.

Note: Front to rear brake lines shipped double oversize.



Type 1 – Under Frame Rail
Right front line routed under the frame rail on all 1970 models and select 1971-74 model E-Body vehicles.



Type 2 – Over Frame Rail
Right front line routed over the frame rail on certain 1971-74 model E-Body vehicles.

1963-72 Stainless Steel Brake Hose Set

Get increased stopping power, better pedal feel, and improved safety from these stainless steel brake lines. Rubber lines can swell under pedal pressure, causing a "mushy brake" feel. These quality brake hoses are tested up to 3000 psi. All lines are DOT certified and T.U.V. (Germany) approved. Depending on model, available with 3 or 4 lines sets.

Parking Brake Components

A9507801

MADE IN USA

E-STOPP Push Button Parking Brake

The E-Stopp® is the perfect E-brake for stock or custom vehicles. It not only frees up room on the chassis and in the cab but doubles as an anti-theft device when the button is hidden. It works with any kind of brake system that can accept an E-brake cable. Includes the actuator, the control box with switch and wire connectors. It replaces hand, pedal, or lever brake and mounts conveniently under the vehicle's carriage. The E-Stopp attaches directly to your current E-brake cable and has a micro-computer that regulates the proper amount of pressure to your braking system – it will only pull up to 600 lbs before its locked down. The detachable head button allows for an easy install and for visual and audible recognition. For safety, the brake is inoperable while the ignition is on. It can be hooked up to the parking brake warning light. Made in USA.

Recommendation: *If your brake cables are old, we recommend purchasing Lokar's Universal Rear Parking Brake Cables. You have a choice of a black housing BC80B or a Stainless Steel Housing BC80. It will make the installation easier and cleaner.*

New!

1962-74 B & E-Body Disc Brake Spindles

Disc brake conversion spindle set for 1962-74 Mopar B & E-Body models. Designed in the style of a 1973 and up Mopar disc brake spindle, but developed to fit 1962-74 Dodge, Plymouth B & E Body model drum brake vehicles. This setup is for those who have already sourced the brake caliper brackets, brake calipers, rotors and hardware from a 1973-up Mopar; but need these spindles to finish the conversion. Set includes 2 stock height spindles.

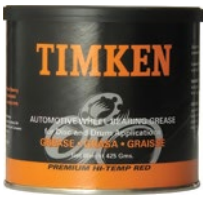
1960-72 Front Wheel Grease Cap

Reproduction of the front wheel grease cap used on all 10" and 11" front wheel hubs from 1960-72 except Imperial. Used on both drum and disc brake applications. Formed from the correct gauge steel with the shape of an original part. Plated as original to prevent corrosion. Two required per vehicle.

MP500302	1960-72	except Imperial	14.99 ea



Hi-Temp Wheel Bearing Grease

When replacing or just repacking your wheel bearings, don't use ordinary grease. Protect those bearings with a high-quality, high temperature bearing grease. This is a very stable aluminized complex thickened grease used for the lubrication of wheel bearings, chassis ball joints and other bearing applications operating under severe conditions. This product assures high temperature protection from excessive heat generated by disc brakes. Also pickup the perfect tool for the mechanic who is tired of packing bearings by hand. This universal bearing packer works on most cone type bearings.

1967-68 Magnum 500 Wheel and Center Cap Kit

MADE IN USA

Offered by a number of vehicle lines, including Mopar, the Magnum 500 is one of the all time favorite OEM style wheels in the muscle car world. This "Magnum 500" style replacement wheel kit fits various Dodge and Plymouth models with a 5 x 4-1/2" lug pattern. The classic design features a chrome-plated face with black painted slots and includes 4 Chrysler "bullseye" center caps. Set of four. Made in USA.

Important: *In order to achieve accurate balancing, a lug centric device must be used on the balancing equipment. Inaccurate balancing will occur if a cone centering device is used on this wheel.*

1960-72 A-Body Wheel Spacer Set

Small bolt pattern aluminum wheel spacers for 1960-72 A-Body models. Aftermarket selection of rims often times have a backspace that does not allow for a larger tire size because the tire rubs the upper ball joints. Now, all 14", 15", and 16" wheels plus custom size rims with 6", 7", 8" or 10" width can fix the backspace problem with these aluminum (for heat resistance) spacers.

MW893

American Racing Outlaw

In the 1980's the modular wheel became the hot ticket on any late 70's or 80's muscle car. The wheels were called modular because they consisted of 3 elements... an aluminum wheel center (in various styles), an inner rim, and an outer rim. The combination of these "modules" allowed for an unlimited range of possibilities when it came to wheel specifications. The true modulars, however, where a bit pricey for the average Joe. This soon led to an influx of modular copies and 1 piece wheels built with a modular look. This modular style wheel is manufactured by American Racing. It is a 1 piece machined alloy wheel with a modular look. It comes clear coated and includes center cap. It's a good choice if you're looking for a period correct wheel design at a great price.

Note: Shipped overweight.

Era Correct Custom Wheels

S/S Super Sport Wheel

The Cragar S/S wheel was first introduced in 1964. By 1974 the Cragar S/S had become one of the most popular wheels of the muscle car era. Because it was chrome-plated rather than polished aluminum, it held its shine and was easier to keep clean. Instead of requiring time consuming polishing, the Cragar S/S was ready to show with a simple hosing off and wiping down. Available in a variety of sizes and configurations, these wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their vehicle "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

3135705P

Smoothie Wheel

The ultimate nostalgic wheel, the chrome smoothie provides a look like no other. It is often used with whitewalls and baby moons. A chrome moon center cap is included with each wheel, but with a little ingenuity, this wheel can provide many different looks for your vehicle. Available in a variety of different sizes. Lug nuts sold separately.

Note: Shipped overweight.

3905605

Cragar 390 Street Pro

The style of the Cragar Street Pro is reminiscent of the Halibrand Sprint which was made famous on the circle track cars of the 60's. The similarities stop there, however. Unlike the Halibrand which was made of magnesium and required constant polishing to retain its shine, the Cragar street pro is manufactured of a chrome-plated steel rim with a chrome-plated aluminum center. They clean up easily and retain their shine with a simple hosing off and wiping down. The price of original 60's era Halibrands has been pushed up by collectors and the new Halibrand wheels are also very pricey. So, if you'd like the look of a legend at about 1/4 of the price, the Cragar Street Pro is definitely the way to go. Chrome center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

325799

Cragar 32 Series Keystone Klassics

If your vehicle is a 1960-70's model, chances are it came with narrow wheels and tiny bias ply tires. By the mid-1960's, aftermarket wheel swaps were commonplace among car enthusiasts. One of the most widely chosen aftermarket wheels available during the muscle car era was the Cragar Keystone Klassic. Popular for their composite design, the chrome-plating on the Keystone Klassics made them much easier to clean than aluminum or mag wheels because they required no polishing. Chrome center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

Aluminum/Copper Radiators

AR84296NM

1960-76 A, B, & E-Body Direct Fit Aluminum Radiator

This direct fit radiator is exactly what your high-performance Mopar needs. The 100% aluminum construction uses no epoxy, making these radiators durable and up to 15% more efficient than copper/brass radiators. These radiators fit in the original location using the factory fan shroud, and the inlet and outlet are in the stock locations so OE style radiator hoses can be used. Automatic versions feature a built in transmission cooler designed to use factory transmission lines.

Note: Shipped oversize.

1966-69 B-Body High Efficiency BB Radiator

MP60106S

High efficiency radiators for Dodge and Plymouth 1966-69 B-Body models. Manufactured completely from durable copper materials and is designed to meet the cooling needs of big block engines. It will bolt-in without modifying the radiator support or support top panel. Features high efficiency core with 1/2" tubes on 3/8" centers.

*Note: *Except 425 Hemi engines.*

MA2236A

1963-73 Aluminum Radiators

Aluminum reproduction radiator for various 1963-73 models. These 2 row radiators are manufactured completely from durable aluminum and are designed to meet the cooling needs of high-performance big and small block engines. Will bolt in without modifying your radiator support or support top panel, this radiator offers better heat transfer and is considerably lighter than standard replacement radiators. Made in USA.

Note: Please add to the end of the part number: A – automatic transmission and S – manual transmission. Shipped oversize.

Northern

CR5070

- Bolt-In Installation
- 60% Lighter Than Copper/Brass
- Up To 75% More Cooling Capacity
- Fully Welded Construction
- Size: 29" x 18-1/2" x 3-1/8"
- Heavy-Duty, Die-Stamped Tanks
- Extra Thick Hose Connections
- Billet Filler Neck
- 7 Plate Alum. Transmission Cooler

1966-76 Aluminum Radiator

This high-performance bolt-in radiator from Northern is manufactured with race proven technology, these aluminum radiators feature a 2 row, 1" core tube design for maximum cooling efficiency. Northern fan and shroud assemblies are also available for a matched cooling system.

Important: CR5070 features upper inlet on driver side, lower outlet on passenger side. CR5071 featiures upper inlet on passenger side, lower outlet on driver side.

Note: Dimensions listed below include the radiator, tanks and brackets. Shipped oversize.

MADE IN USA

1960-76 Direct Fit Aluminum Cross Flow Conversion Radiator

Nothing takes the fun out of driving your Mopar like overheating. That's why you need a cooling system that can keep up with your engine, especially when your engine has been upgraded. Stock radiators are designed to cool stock applications and often fail to keep up with high-performance applications. Be Cool produces cross flow radiators that are 40% lighter than conventional OEM units with greater cooling capacity, thanks to epoxy free construction. Available with natural or polished finish, with LH or RH water pump outlet. Made in USA.

Important: *Modification to upper and lower hoses and transmission lines required for Crossflow upgrade.*

Note: **Replaces OEM down flow radiator with a 26" core. Four brackets needed (Part #BC72003) to install stock OEM fan shroud. **Modification to top mounting plate for cross flow conversion may be required. Shipped oversize.*

1968-74 Performance Aluminum Radiator

Mishimoto performance radiators for 1968-74 models offer 100% aluminum construction which provides greater heat and pressure tolerance, better heat dissipation, increased durability, improved cooling efficiency, and improved structural rigidity. All radiators feature a 3 row brazed aluminum core with an internal transmission cooler to provide optimal fluid temperatures for automatic transmissions. Each radiator includes a Mishimoto radiator cap, magnetic drain plug, and is backed by a manufacturer's lifetime warranty.

Important: *Radiators will work with automatic or manual transmission vehicles.*

Note: *Shipped oversize.*

"Liquid Chill" Engine Coolant and Additive

Mishimoto's Liquid Chill is a universal, synthetic coolant that will provide premium cooling and protection for your vehicle. Liquid Chill protects from boil over to 265 degrees F and from freezing down to -26 degrees F, inhibits corrosion, and reduces operating temps. Made with propylene glycol base and unique poly organic additives to allow for extended life of 2+ years or 250,000 miles before needing service in gasoline applications. One gallon jugs are available in full strength formula or 50/50 blend. For up to 30 degrees F cooler over just coolant alone, the universal Liquid Chill additive is available in 4 oz. bottles.

MM13067	additive	18.99 ea

Super Coolant

ROYAL PURPLE SYNTHETIC OIL

Purple Ice is a high-performance, synthetic, radiator coolant additive. It reduces engine heat by reducing the surface tension of the radiator fluids for improved heat transfer. Purple Ice fosters optimum coolant flow by helping to prevent formation of scale deposits in the radiator. Purple Ice is recommended for any water/glycol pressurized cooling system, including those using the traditional green silicate based glycols or the newer OAT or HOAT based glycols.

RP01600	12 oz. bottle	10.99 ea
RP12600	case of 12 - 12 oz. bottles	131.99 cs

JOE GIBBS DRIVEN RACING OIL

Coolant System Protector

Impurities in well water can cause rust and corrosion inside the radiator, water pump, and cylinder heads. Over time, this can lead to a loss of cooling efficiency. Joe Gibbs Driven Coolant System Protector stops the adverse effect of hard water to help prevent cooling system damage.

Finned Aluminum Overflow Tank

Although it's often overlooked, a durable coolant overflow tank is a crucial component of any cooling system. Leaks within the overflow system can result in air entry into your coolant, which ultimately leads to overheating. Upgrade your plastic overflow tank with Mishimoto's universal 1 quart coolant overflow tank. Tank is constructed from durable 3mm thick aluminum, featuring stunning precision TIG welds. In addition, this overflow tank includes a sight tube, which provides an accurate look at your fluid level. This sight tube is removable and can be installed on either end of the tank, which is helpful when installing in a cramped engine compartment.

1969-72 Air Conditioning Belt

Reproduction air conditioning belts for 1969-72 models. Officially Licensed by Mopar, they feature indented imprinting of the correct Mopar part numbers, manufacturer's code, appropriate date code, Chrysler Pentastar logo and they are cloth wrapped. These authentic looking reproductions are the finishing touch to any serious restoration and a great way to gain points over your car show competitors. You don't want something as simple as a worn or incorrect belt to keep you from winning your next trophy, and you certainly don't want to be left stranded on the way to your next show.

FL2016

Stainless Steel Flex Fan

Flex-a-lite fan blades are designed to flex or flatten out as the RPM's climb, helping to reduce engine drag for better performance and improved fuel economy. Fan features a premium, high tech silver coating that won't degrade or lose its luster in the harsh environment of an engine compartment. Available in standard or reverse rotation along with four different diameters and six blades.

Important: Must be used with a Flex-a-lite spacer or warranty will be voided. Fans features 5/8" pilot hole with a 1-3/4" to 2-1/2" slotted bolt pattern.

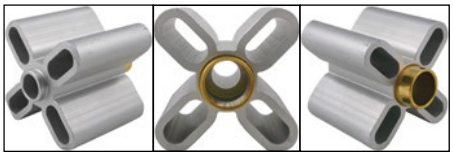
Cooling Fan Components



31520 – detail views

31500

31520

Specifications:

- Male pilot diameter: 5/8"
- Female pilot diameter: 5/8"
- Flange bolt spacing: 1-3/4" - 2-1/4"

Aluminum Fan Spacer

This universal fan spacer is constructed from quality aluminum and features a clear anodized finish. Fits most domestic 5/8" pilot water pumps. Includes mounting hardware. Made in USA.

Important: *Fan should have a minimum clearance of 3/4" from the radiator, belts, hoses, or pulleys.*

31500	1/2"	15.99 ea

11076

Universal Trinary Switch

Combine low and high pressure clutch cut-off functions and electric fan engagement signal at 254 psi. The low pressure cut off of this trinary switch is 30 psi and the high pressure cut off is 406 psi.

11076	4 wire female	41.99 ea
11086	4 wire male	41.99 ea

16" Fan Mounting Gasket

SPAL fan gasket is a specifically designed rubber gasket for use exclusively with the 16" fan line. The gasket provides an additional 1/4" clearance from the cooler core and is ideal for mounting our pusher style fans.

Note: *Will not fit SP2056 and SP2057.*

SP2070	16"	16.99 ea

Cooling System Zinc Anode

Used in heavy-duty and marine applications to protect the cooling systems and its many components from damage due to electrolysis or coolant additive failure/breakdown. The introduction of the zinc anode will protect your cooling system from galvanic action as it "eats" the zinc rather than your cooling system. To be installed in the radiator as a replacement for the drain petcock in radiators that are equipped with a 1/4" NPT hole or any 1/4" NPT hole that is available in the cooling system.

FL32060		21.99 ea

MF109

Fan Temperature Sending Unit

The temperature sending unit screws into the side of the cylinder head or on the intake manifold to operate the Champion or Challenger Series fans.

High-Performance Electric Fan

These reversible fans help prevent overheating in stop-and-go traffic, designed to fit the most popular cars and trucks, increases gas mileage, improves engine performance, frees the water pump pulley for more RPM, installs in minutes with simple hand tools, 10", 12", 14", and 16" fans are (mount in front or back of radiator). Ultra thin design to fit cramped locations. Reinforced glass filled polypropylene blade and plastic housing for minimized weight. Nylon tie mounting kit included. Nominal fan size is based upon approximate overall assembly diameter. Your choice between a straight or S-blade.

EF6504

12" Electric Engine Cooling Fan Kit

Thermostatically controlled, it only operates when forced airflow is required (such as when idling, during stop and go traffic, pulling a load, driving up a grade, etc.). Can be mounted either in front or in back of the radiator. Our kit includes: one 12" fan, thermostat fan control, and all mounting hardware (nothing else to buy).

Note: Requires 5-1/4" clearance between radiator and water pump shaft (or belt driven fan). For extreme use, add a second fan (fan control will operate up to 2 electric fans).

High-Performance Electric Fan

Your stock fan robs your engine of up to 15 or more horsepower! Replace it with a rugged, quieter than straight blade, universal fit S-blade fan equipped with an adjustable 160-240 F degree thermostat. Bolts to your radiator supports using sturdy brackets. With a heavy-duty motor, and 15" diameter, this unit pulls up to 2,800 cfm of air. Amp draw, 14 amps. Mounting hardware and wiring included.

67029 18" x 16-1/8" x 4-1/4" ..... 184.99 ea

Black Magic S-Blade

This universal fit Flex-a-lite electric fan features computer engineered blades that are extremely quiet and efficient, and moves 3000 cfm of air to provide consistent cooling, regardless of engine RPM. This electric fan fits vehicles with 16" or wider radiator cores, and requires a mounting surface of 18" x 16" x 4-1/4" for an easy, bolt-in installation. Universal mounting brackets are included.

FL160 ..... 319.99 ea

SP2066

Fan Switch

SPAL replacement temperature fan switch. Manufactured from stainless steel, hermetically sealed and feature a 3/8" NPT. Operating switch range 35 degrees F to 480 degrees F and max current/voltage 3 amp, 32 VDC and grounded case only.

*Note: *Turns fan on 185 degrees/off at 165 degrees. **Turns fan on 195 degrees/off at 175 degrees.*

Brushless Electric Fan Powerpacks ⚠

Derale brushless powerpacks provide the best performance when it comes to cooling performance for your engine. Derale's new, high performing brushless fans with integrated fan controller, combined with their high performing shrouds is a combination that just can't be beat. These units feature a fully welded aluminum shroud measuring only 2-13/16" in depth and combined with the installed electric fan, the overall thickness is only 3-1/2". The dual 12" brushless electric fans are some of the most proven and reliable fans in our line-up and are specifically designed to thrive on thick, tight fin radiator cores. Offering a total of 4400 cfm. Don't forget they also have the built-in PWM fan controller with soft start technology. The controller utilizes pulse width modulation to constantly adjust electric fan speeds from 0-100% to maintain temperature. This allows electric fans to operate at the percentage needed, instead of 100% all the time. This results in extra longevity, increasing component life and eliminating amperage spikes.

Electric Dual Fan & Shroud Powerpack

This Derale dual high output RAD fan powerpack assembly is part of the HO aluminum shrouded fan series that is designed with the application in mind. Based on some of the most common radiator core sizes sold today, this unit features an aluminum shroud and is only 4" in overall depth to offer an adjustable yet precision fit. The natural, non-finished aluminum shroud gives the user the freedom to polish, anodize, paint, or simply leave it raw to create a truly custom look for an affordable price. The dual 12" high output electric fans are some of the most proven and reliable fans in our line-up. Offering a total of 4000 cfm, this dual electric fan assembly generates the most real world airflow in the smallest package on the market. Now add the digital PWM fan controller with built-in soft start technology. The controller utilizes pulse width modulation to constantly adjust electric fan speeds from 0-100%, maintaining the optimal engine operating temperature.

Adjustable Electric Fan Controller

This Derale high amperage fan controller breaks new ground in the industry of electric fan controllers. A bulletproof design, 35 amp per fan amperage rating, adjustability from 150-240 degrees F, and a die-cast bright finish aluminum cover. It's capable of controlling two separate 35 amp fans at different turn-on temperatures, with only a single probe. The first electric fan will be activated at the temperature set by the user followed by the second electric fan when the temperature becomes 10 degrees F warmer. Each electric fan will turn off at 10 degrees F below its turn-on temperature. Includes: wiring harness, fusible link, all necessary electrical connectors, and push-in style radiator probe.

69599

Electric Fan Controller

Turn your electric fan into a thermostat controlled fan! PROFORM's premium adjustable fan controller make this easy! The thread-in probe can be installed directly into the water jacket of the intake manifold, engine block, or cylinder head. The push-in probe can be installed between the fins of the radiator. Fan activation is adjustable between 150 and 240 degrees F. This fan controller is recommended for race and street applications.

69598 thread-in probe sensor ..... 47.99 ea
69599 push-in probe sensor ..... 46.99 ea

Fan Controller Set

The Mishimoto fan controller set is applicable to any 12V electric fan and includes all necessary components for installation. Features adjustable activation from 150 to 240 degrees F and deactivates once temperatures are reduced by 10 degrees F. This controller includes a built-in AC override feature and is designed for use with 1–2 electric fans drawing a combined 25 amps or less.

153522 probe style ..... 77.99 set

"Ice Box" Cooling Fan Control

Available as a dual fan/ 2-speed fan control unit. The sensor is simply tightened under an intake or water pump bolt. It can then be adjusted to your exact preference for on and off temperature. It is equipped with an AC Request system to turn the cooling fan on whenever the AC Compressor engages (this feature does not have to be used). The dual fan control can operate two fans at different temperatures or a single 2-speed fan at different temperatures. Each unit has a fully adjustable operating range of 140-230 degrees.

Note: *With Walker 2-speed fans.*

TF900635 dual control..... 172.99 ea

MF102

MF100

Electric Fan Controller

These sets are designed to operate Champion or Challenger Series electric fans. Includes: a heavy gauge wire harness, relay, weatherproof fuse, and electrical connectors.

Fixed Switch Fan Controllers

MF102 with 185 degree temp. sender 78.99 set
MF103 with 195 degree temp. sender 78.99 set

Adjustable Switch Fan Controllers

MF100 with adj. temperature switch.. 78.99 set
MF110 adjustable switch only..... 25.99 set

30104

Adjustable Electric Fan Thermostat Set

These sets are designed to allow a wide range of temperature adjustments for your electric fan. The adjustment knob may be used to set a precise temperature desired for fan activation. The mounting bracket is made of brushed stainless steel for good looks and durability. The complete set includes the thermostat with bracket, a 30 amp relay, a 30 amp circuit breaker for overall protection, wiring, terminals, and mounting hardware.

Specs on Adjustable Fan Thermostat:

Temp range - 32 degrees to 248 degrees F
Accuracy: +/- 7.3 degrees F
Differential: 7.3 degrees +/- 3.6 degrees F

Important: *Temperature refers to the temp of the capillary tube, not the coolant temp.*

1960-76 New Water Pump

This 100% new water pump actually performs better and lasts longer than remanufactured or OE water pumps because they're "engineered with insight". Based on over 40 years of making the highest quality remanufactured parts, we've seen where and why new parts fail and we built in solutions to avoid traditional design flaws. Developed with advanced 3D modeling and design software tools to deliver dimensional precision up to 0.005mm. Unitized seals produced with superior materials that drastically enhance operating life. Bearing type and materials meet or exceed original specifications. Applications are not over consolidated, thus preserving the proper appearance and performance of the pump.

*Note: *High-performance.*

Water Pump Pulley Warning

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys.

MA820151

1966-74 "Perfect Fit" Air Conditioning Set

These "Perfect Fit" air conditioning retrofit systems upgrade your standard, non-AC 1966-74 Mopar with full air conditioning. Using the original heater controls and dash louvers, these systems provide powerful air conditioning, under dash heating, and dehumidified window defrosting. Each "Perfect Fit" AC system is designed specifically for each application with minimal modifications. These AC sets include all interior components as well as an evaporator, condenser, Sanden style compressor and all mounting and hose routing hardware necessary. Instructions and templates also included.

Important: **With 318 Poly engine. †No longer uses original heater controls. Now includes a new D.E.R. (Direct Electronic Replacement) control panel that fits into the factory location.*

Note: *Shipped double oversize.*

This bracket set allows you to upgrade the power robbing factory AC compressor in your Mopar with an efficient Sanden. No add-on pulleys necessary, everything stays in its original location. Fits most standard, shaker, and aftermarket hoods. This set is for models with 1967-76 big block or Hemi engines without factory AC and with power steering and mounts the compressor under the alternator, hidden away from view.

Important: *This compressor bracket can not be used in conjunction with mechanical fuel pumps. Mounts only Sanden SD7H compressors.*

Note: *Need to change compressor hoses, o-rings, thermostat/clutch cycling switch, expansion valve, filter dryer for R 134a refrigerant and a R134a service port kit for correct installation.*

MA820226

1966-76 AC Condenser

The condenser, along with the evaporator, is a fundamental part of the AC system. Over time, condensers develop leaks and are damaged by road debris, reducing their efficiency. These OE style tube and fin design condensers modern parallel flow condensers are both designed as direct replacements for the original to keep your AC blowing cold.

Note: **High efficiency parallel flow.*

High-Performance Crate Engines from BluePrint Engines

BluePrint means fun, reliable horsepower that you can drive every day! That's why you'll find our engines in all kinds of vehicles – from street rods and muscle cars, to 4 x 4s and daily drivers. Each dyno-tested engine includes the dyno-sheet, an industry leading 30-month/50k-mile warranty, and free technical support. With BluePrint Engines, you're not just buying killer performance, you're buying peace of mind! Thats why the BluePrint 408ci and 493ci engines are available in a variety of different performance levels. **Each engine comes standard with a balanced rotating assembly, high volume oil pump, oil pan, heavy-duty double roller timing set, timing cover, and valve covers.**

Important: *Computer controlled vehicles may need updated chips or other modifications.*

Note: *Special order, prepaid only.*
Shipped truck freight.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Motor Coater Engine Refinishing Set ⚠

KBS Motor Coater engine paint set has everything you need to do a superior job when you paint your engine, and even includes the step-by-step instructions needed to help you do it right. Motor Coater is easy to apply, offers superb coverage and yields a self-leveling professional looking finish brushed or sprayed. These engine enamels provide deep, rich pigmented colors for excellent coverage. Your engine will be a show stopper at this DIY price... too bad it's kept under the hood! First, KBS special engine cleaner and degreaser eliminates all dirt, grease and oil. Next, use the RustBlast to dissolve rust and prep the metal. Then, rustproof and top coat your engine with KBS Motor Coater. All of this is available in one convenient set with thinner, gloves, a brush, and a stir stick.

Thread Detective — Lanyard

This precise, easy to use thread identification tool is well suited for distinguishing between similar inch and metric threads on both nuts and bolts. Attached to a wire lanyard. Includes both metric and inch nut and bolt sizes.

TD700102 wire lanyard ..... 44.99 set

Flywheel Turner

This tool hooks into the flywheel teeth to rotate the crankshaft. Use when working on clutches, transmissions, installing rings, or other jobs which require the crankshaft to be in a specific position. Spring tension aids tool engagement on the flywheel.

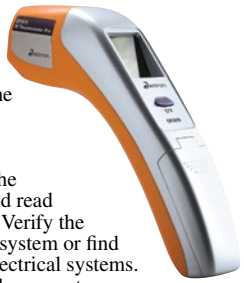
X2270 ..... 29.99 ea

AutoAnalyzer Digital Multimeter New!

Pinpoint problem area and determine which components are faulty! Performs standard electrical tests for on-car and pm bench to locate faulty wiring, test electrical components, engine sensors, ignition and fuel systems and starting/charging system voltage. Features 19 ranges and automatic zero adjustment for Volts, amps, and battery tests, as well as an easy-to-read backlit LCD. Includes: color coded detachable test leads, alligator clips, and a comprehensive user manual.

AC7665 ..... 39.99 ea

Infrared Thermometer with Laser Pointer



Infrared thermometers do everything from verifying the temperature in your AC system in the car or home to helping electricians to find an overcharge in electrical systems. Aim this IR thermometer at the target, press a button, and read the temperature display. Verify the temperature in your AC system or find an overcharge in your electrical systems. System On-Chip technology creates a compact, lightweight design with a measurement range of -58 degree F to +932 degree F (-50 degree C to +500 degree C). Includes two AAA batteries and belt holster.

AC7876 ..... 74.99 ea

Remote Control Starter Switch

Use to bypass the ignition switch on any engine with solenoid starter switch. Lets you crank the engine while working in the engine compartment. Includes 44" long leads. Connect from the positive terminal of the battery to the energizing terminal of solenoid. Use for generator, starter, electrical tests, setting ignition points, fuel pump tests, adjusting tappets, and compression tests.

426 Hemi Motor Swap Mount Set

This Hemi conversion set offers factory correct motor position and race performance strength yet still retains a smooth, insulated ride. This bullet proof spool type mount set allows you mount a new crate or original 426 Hemi to your V8 K-member without additional fabrication, K-member modifications, or additional installation parts required. Accepts factory Hemi manifolds, works with power steering, power brakes and both automatic and manual transmissions. Includes mounts and hardware.

*Note: *Custom headers are required.*

MADE IN USA

1962-74 Torque Strap

Throw away your chains and broken motor mounts, this torque strap can handle all the upgraded power and excess vibration your Mopar small block or B/RB engine can dish out. Features heavy-duty rod ends for adjustability, urethane bushings, DOM (Drawn Over Mandrel) tubing and Grade 8 hardware. Does not interfere with power steering and does not require welding or major fabrication. Includes powder coated torque strap, all necessary hardware and instructions. Mounts in existing sway bar location on some models. Made in USA.

Engine Support Bracket Bolt Set

These factory style bolts attach your engine support brackets to the motor mount ears on the side of your engine block. Made from high strength steel, this set features correct thin style washers and fine thread bolts as original. Perfect for high horsepower applications. One set contains: 6 bolts, washer, and nut assemblies, enough for both sides of the engine.

MADE IN USA

1973-76 Polyurethane Motor Mount Insert Set

This performance motor mount is firm enough to handle high horsepower and torque output, yet is soft enough to dampen excess vibration. Will not deteriorate when exposed to underhood fluids. This set replaces right and left side mount bushings. Available in red or black polyurethane. Made in USA.

Note: Must reuse the existing bushing outer metal shells. Add to part number G – black, R – red.

PROTHANE MOTION CONTROL

MADE IN USA

1973-76 Prothane Motor Mount Insert Set

Polyurethane engine mounts limit unwanted movement and control torque to transfer maximum energy to the wheels. Polyurethane mounts are very durable and resistant to oil, chemicals, and road contaminants that deteriorate rubber mounts. Gain performance for the street or track with these nearly indestructible mounts. Made in USA.

1973-76 Motor and Trans Mount Insert

These polyurethane transmission and motor mount inserts are engineered for your specific application to provide the performance of solid mounts without the vibration and noise. Polyurethane stands up to the elements better than rubber while limiting unwanted movement and controlling torque so that all possible energy is transferred to the wheels. Wheel hop is reduced, along with potentially damaging drive train movement.

Note: Will not work on 1973 340 models.

1964-74 Engine Fastener Set

Buy one of these and get the correct engine fasteners in one set. Each fastener set is correct, from head markings to size and finish. If you want to do a first class job on your engine, try one of these sets. Each set typically includes fasteners for the following: carburetor, choke, crank pulley, distributor hold down, intake and exhaust manifolds, fuel pump, oil pan, water pump, and many others. If it is a fastener for the exterior of the engine, it is probably in this set. Individually bagged and labeled for simplified installation.

Oil Pan Components

1962-76 Big Block Rear Main Seal

These replacement rear main seals are superior to the stock rope type seals. The rear main seal is connected to the back of the oil pan and makes a seal against the rear of the engine block. These 2 piece neoprene rubber style rear main seals will make the job easy.

MN2081	1962-76	361-440.....	42.99 ea

1960-76 Oil Pan Bolt Set

Chrysler oil pan bolts for all V8 engines including Hemi. Bolts are coated in black oxide to resist rust. All bolts include washers. 5/16"-18 x 9/16".

MN1062	1960-76	all V8 engines.....	14.99 set

318-340-360 Oil Pan Hardware Set

The engineers at ARP developed these unique oil pan studs to install a pan and seal it properly. The studs have a radiused bullet nose that serves to locate the pan rails and allow the nuts to be installed without cross threading. For those who prefer bolts, ARP has you covered, too. Both studs and bolts are available in black oxide finished chromoly steel or rustproof stainless steel in your choice of conventional Hex style or the space saving 12 point nuts. The stud sets come with a special locking flanged nut, while the bolt sets come with washers. Made in USA.

FL500021

FL700032

Engine Oil Cooler

Engine oil is designed to act as a coolant as well as a lubricant for your motor. If the engine oil is allowed to get too hot, horsepower drops, varnishes form, and the oil starts to break down, which can lead to premature engine wear. Flex-a-lite heavy-duty oil coolers can help prevent this by keeping oil temperatures down, helping to ensure longer-life to engines and components, and reduce the stress created by high-performance engine modifications. Also suitable as a heavy-duty transmission fluid cooler. Includes -8, -10, and -12 interchangeable AN fittings with o-rings.

Important: Depending on application and setup, additional fittings or adapters may be required.

*Note: Dimensions: width: 11"; depth without fan: 1-3/4", with fan: 4-1/4"; variable height, see height below in the line listings. *Dual 6-1/2" fans.*

MM13064	carbon fiber	140.99 set

Oil Catch Tank

An oil catch tank works as a filter for the PCV system, reducing emissions and carbon buildup. This fabricated aluminum tank includes mounting tabs, barbed inlet/outlet fittings, a drain plug, and a sight glass to let you know when it is full.

25051	round 17 oz. tank w/breather filter	89.99 set

New!

1962-76 BB Oil Pickup Tube and Screen

The curve in this oil pickup tube avoids hitting the internal baffles of most factory style passenger car oil pans. This screw-in, aftermarket style pickup tube will also replace applications originally equipped with a straight pickup tube, even if there are no baffles. Depending on the oil pan, your pickup to oil pan clearance should be between 1/4" and 3/8".

Note: Features 3/8" pipe and 4-1/2" depth. Uses 3/8" NPT engine block thread size.

MN2186	1962-76	curved	59.99 ea

1968-72 BB Oil Pickup Tube and Screen

When replacing an oil pan, don't forget the pickup tube and screen if needed. These corrode and can become clogged over time, so prevent oil starvation by installing a new pickup and screen. Straight style for RB big block with 7-1/4" deep pan.

HR Conventional High-Performance Oil

From the leader in racing lubricants, now comes a oil designed specifically for high-performance engines. Joe Gibbs Driven HR Oils build on our original formula while adding critical additives to protect engines when they are not running. Our formula uses the same additive technology developed for the U.S. Military for storing and shipping. It protects against rust and corrosion so your engine is protected even when it's not running. It features higher levels of Zinc than regular passenger car oils to deliver proper anti-wear protection for older style pushrod and flat tappet engines.

Break-In Oil

BR is used by Joe Gibbs Racing to break-in and dyno all their NASCAR Nextel Cup and Busch Series engines. This petroleum based oil provides superior break-in properties for flat-tappet engines. The special additive package promotes ring seal and provides maximum protection for cams and lifters during initial break-in. BR can also be used to break in roller cam engines, and as a general purpose dyno oil. Available in 5W30 or 15W50 weights.

Synthetic Oil

Delivers superior protection and improves performance in four cycle gasoline and diesel engines. Increase horsepower and torque, save fuel and reduce heat, wear and emissions! It has unsurpassed oxidation stability that allows for extended oil drains and fewer oil changes, which saves time, money and reduces the impact on the environment. Performance advantages come from a blend of synthetic oils plus Royal Purple's proprietary Synerlec technology. Compatible with other mineral and synthetic motor oils.

Engine Break-In Oil

Royal Purple has developed an engine break-in oil formulated to allow optimal ring seal and protect rotating assembly components from initial start up wear. Combines highly refined mineral oil, preferred for engine break-in, with advanced additives containing high levels of zinc and phosphorus to optimize protection in flat-tappet and roller engines. Does not require the use of any other chemical additives. Royal Purple recommends using their high-performance motor oils after the engine is broken in for maximum engine performance.

Timing Components

Set Includes:
- Cast iron magna-fluxed crankshaft sprocket
- Cast iron magna-fluxed camshaft sprocket
- Roller timing chain

1964-76 Performance Timing Chain Set

High strength Mopar Performance double roller chain provides added durability and decreased rotational friction versus the production silent chain. Crank sprocket features three matched keyways to adjust cam timing. Set includes cast iron magna-fluxed sprockets and a roller timing chain.

373-360 Small Block

MN2146	1964-76		79.99 set

MN2126 MN2127

1960-76 High Energy Timing Chain Set

High Energy timing chain sets exceed all original equipment timing chain specifications. Premium quality link belt type timing chain for exceptional durability. Ideal for stock replacement and mild performance application. The camshaft and crank gear sprockets are made from cast iron.

***Note:** *Features a single bolt gear and will not fit 426 Hemi or 440 Six Pack.*

MN2126	1960-76	273-360 and 318A	49.99 set

Magnum Double Roller Timing Chain Set

Magnum double roller timing chain sets are ideal for street or performance applications. They feature a 3 keyway crank sprocket for 4 degree incremental adjust ability, 4 degree maximum advance/retard. The camshaft gear is made from induction hardened cast iron and the crank sprocket is billet steel. The chain is a heavy-duty pre-stretched heat treated true double roller timing chain.

***Note:** MN2129 is made with a single bolt cam gear and will not fit 426 Hemi or 440 Six Pack. MN2130 has a 3 bolt cam gear design.*

MN2131 MN2133

Keyway Adjustable Billet Timing Chain Set

Keyway adjustable billet timing chain sets are ideal for all street performance and race applications. It includes a Torrington roller thrust bearing for reduced friction. Features a 9 keyway crank sprocket for 2 degree incremental adjust ability, 8 degree maximum advance/retard. The gears are induction hardened and precision machined steel billet gears for bullit proof durability. The chain is pre-stretched, heat treated double roller timing chain with heavy-duty large pin design.

***Note:** Choose from single or three bolt camshaft gears.*

E7803 E7805

Performer-Link Timing Chain and Gearset

Performer-Link timing chain and gearsets are for use with Edelbrock cams. They have a solid bushing chain for a true bearing surface that rolls with the sprockets, eliminating chain stretch. Cam sprockets are made with 35,000 psi tensile strength cast iron, crank sprockets are made from billet SAE-1144 steel and induction heat treated. All timing chain sets have three keyway setting points to ensure accurate timing selection for early or late model vehicles. Performer-Link timing sets are not for use above 6500 RPM.

***Emissions Note:** (3) Non-CARB compliant (not legal for emission controlled vehicles).*

Crankshaft Pulley

Original style pulleys are available for all popular applications, including all big block combinations, with or without power steering or air conditioning. Also available for small block, with aluminum water pump and with or without power steering. Power steering pulleys are for Saginaw pumps on B, RB, and crate Hemi engines. Available in your choice of black or chrome.

Note: Will not work on 1969 and earlier small block A-engines and Poly 318 engines with a driver side (Left Side) lower radiator hose water pump (most were cast iron). Works with MD2375 water pump pulley on 1965 and Later B/RB/ CRATE Hemi Engines. Works with MD2377 water pump pulley on 1970-91 A-engines.

Warning Concerning Crankshaft Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

MN2712 MN2713 MN2714

MADE IN USA

Harmonic Balancer

These Fluidampr viscous dampers by Horschel Motorsports are among the best dampers on the market. Instead of a rubber, or "elastomer" dampening material that deteriorates over time, a silicone gel is used inside the damper to keep the flywheel in place and function as the insulator for the internal flywheel. This significantly reduces the risk of catastrophic failure that can occur when rubber dampers wear out. Measures 7-1/4" outer diameter, feature a steel construction, 1.5295" minimum and 1.5305 maximum bore diameter, and are finished in black zinc chromate. Made in USA.

*Note: *Minor modification may be necessary to the stock crank pulley.*

SFI-Approved Harmonic Balancer

Pro Race harmonic balancers are designed for a wide range of high-performance applications. These performance dampers are direct replacements for cast iron factory originals and are SFI approved for racing. PRO/STREET balancers measure 7.25" in diameter and 1.00" in thickness. PRO/RACE balancers measure 7.01" in diameter and 1.54" in thickness. Pro/Street bonded nodular iron damper features special splines to enhance bonding between the elastomer, inner hub, and outer ring preventing any radial movement. Pro/Sport damper is smaller in diameter than factory to slow the speed of belt driven accessories. Since performance engines are generally used at higher RPM, the belt speed can be reduced to save horsepower yet still meet engine cooling, electrical, and steering needs. Pro/Race "all steel" damper is a direct replacement for factory cast iron versions which may fracture or disintegrate at high RPM and are not permitted by most racing organizations. Pro/Sport under drive dampers are smaller in diameter than factory to slow the speed of belt driven accessories. Since performance engines are generally used at higher RPM, the belt speed can be reduced to save horsepower yet still meet engine cool ing, electrical, and steering needs. PRO/SPORT balancers measure 6.61" in diameter and 1.52" in thickness, while PRO/STREET Underdrive balancers measure 5.86" in diameter and 1.67" in thickness.

CAUTION: PRO/STREET or PRO/SPORT counterweights are not interchangeable with PRO/RACE counterweights.

*Note: *Fits 426 Hemi engine with slight TDC adjustment detailed in instruction manual that is supplied. Will not fit early 354 and 392 Hemi engines.*

Cylinder Heads

E60779

LA Small Block Performer Cylinder Head

Performer RPM Chrysler heads for 318-340-360ci LA engines deliver outstanding performance in non-emission 1967-91 Chrysler vehicles. The RPM Chrysler 340 heads have chambers machined .060" for clearance designed for non-emission 1968-73 340ci Chrysler with early high compression engines. The high compression heads are capable of 417 horsepower and 397 ft lbs of torque on pump gas with an Edelbrock Performer RPM intake manifold and matching camshaft. Choose from flat tappet or roller rocker style heads as listed. Sold individually.

Important: *Not compatible with 1970 340 T/A engine. Recommend 14mm x 3/4" reach spark plugs with flat gasket seat (Champion RC12YC)*

Note: *Shipped overweight.*

Emissions Note: * ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

E8591 1961-79 ..... 114.99 ea

Victor Max Wedge Head

Intake ports are machined to match Max Wedge intake manifolds for RB competition big block Chrysler models. Intake ports are raised .650", exhaust ports are raised .250" for improved flow. The intake flange is extended .950" to eliminate the need for intake spacer plates. Exhaust flange is extended .300" from stock (same as Mopar Stage 6) featuring dry exhaust bolt holes with Helicoil® thread inserts. Sold without springs or retainers; use recommended springs to match your cam.

Note: *Offset intake rockers required, exhaust side accepts standard spec rockers. May require additional pushrod hole clearancing for some combinations. Bare heads will have valve guides and seats installed, but will require final sizing and a valve job to match the valves you will be using. These heads require the use of a 14mm, 3/4" reach, flat gasket spark plug with a heat range appropriate to your application. Shipped overweight.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Victor Jr. CNC HEMI Head

Our new Victor Jr. cylinder heads are designed for high output 650+ HP Chrysler 426-572 HEMI engines. They feature fully CNC'd combustion chambers and CNC blended seats for optimal air flow performance. These cylinder heads also feature a revised exhaust valve angle to accommodate larger intake valves. The HEMI heads feature combustion chamber volume: 170cc, intake runner volume: 245cc, exhaust runner volume: 105cc, intake valve diameter: 2.32", exhaust valve diameter: 1.94", valve stem diameter: 5/16", valve guides: manganese bronze, deck thickness: 5/8", valve spring diameter: 1.54", valve spring maximum lift: .700", rocker stud: N/A, guide plate: N/A, pushrod diameter: 5/16" or 3/8", valve angle: intake (stock)/exhaust tipped 1.5 degree - 21.5 degree, exhaust port location: stock.

Note: *Recommend 14mm x 3/4" reach spark plugs with flat gasket seat (Champion RC12YC). Bare heads will have valve guides and seats installed, but will require final sizing and a valve job to match the valves you will be using. Shipped overweight.*

Emissions Note: * ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

1968-79 Big Block Power Package Top End Set

To get great performance out of any engine, the components must work together. Since the early 1980's, the Edelbrock total power package system has been the solution to the parts matching puzzle for many street performance enthusiasts. Each power package includes: intake manifold, camshaft and lifter kit, cylinder heads, timing chain and gear, head bolt set, intake bolt set, and gaskets. Get all of your power package components in one box with an Edelbrock power package top end set.

Mopar Performance Small Block "Purple" Camshaft Set

All Mopar "Purple Shaft" performance camshafts are designed, developed, dyno-tested and track tested by engineers for increased power and RPM potential while maintaining reliability and the best possible low speed characteristics, including torque and idle quality. Fits all LA family 273, 318, 340, and 360 engines. Each package contains the camshaft, instruction sheet, and tappets.

Note: *Mopar recommends the use of a high zinc oil for maximum durability for flat tappet camshafts.*

www.P65Warnings.ca.gov

Your Choice of Four Convenient Sets to Meets Your Specific Needs!

Important: *On small block applications, High Energy™ Cams may be used with stock valve springs and lifters. However, these components must be in good operating condition. In order to protect your camshaft warranty and for maximum performance benefit, we recommend replacing stock valve springs and lifters with a high-performance set from Classic Industries®.*

A – Camshaft Only

The camshaft only set includes: camshaft, instructions, assembly lube, and decals.

B – Cam And Lifters

Order the cam and lifter set to add a matched set of lifters to your camshaft.

C – Small Set

Order the small set for cam and lifter set plus timing chain and gear.

D – Full Set

Full set includes: cam, lifters, timing chain, gear valve springs and retainers, valve locks, valve stem seals.

High Energy™ Hydraulic Cams for Your Mopar Daily Driver!

All High Energy™ designs are totally streetable hydraulic cams. They will produce 10 to 30% more power than a stock cam throughout the RPM range. Each cam has a particular RPM range in which it works best. By selecting the cam that best suits your driving needs, exceptional power increases can be expected. High Energy™ Cams work great for everyday driving without the "bad" side effects normally found with other hydraulic cams. High Energy™ cams produce more power, are more efficient and do not affect the engine's idle characteristics to the point of making your car undriveable. High Energy™ Cams will not affect any vacuum or power accessories such as power brakes, air conditioning or steering. A variety of cams and sets are available for small block and big block applications.

Magnum™ Hydraulic Cams for High-Performance Mopar Engines!

The Magnum™ Cam is a great cam for high-performance driving in street machines. Provides 30-70% more horsepower and a rough and ready to rumble idle in small block or big block Mopar applications. The Magnum™ will not affect power accessories, but should be used with headers and a change in rear end gear ratios. This is the perfect hydraulic cam for cruising.

Important: *Vendor states that engine must use recommended valve springs. Use of stock valve springs could cause damage when used with these camshafts. Full sets include valve springs.*

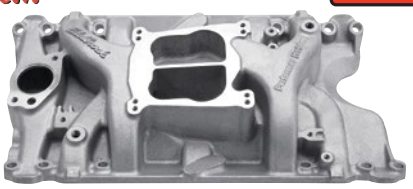
New!



Performer Intake Manifold

This Edelbrock Performer intake manifold is designed for street 253-304-308 c.i.d. Holden V8 engines. This Performer intake manifold is a dual plane design that is tuned for excellent throttle response from idle to 5500 RPM. The Performer Holden manifold has been designed to fit both cylinder head bolt hole patterns. Pilot holes have been drilled on each side of the exhaust crossover for early or late model cylinder heads and will need to be drilled out depending on application. The intake manifold will not fit EFI Heads (see #7594). It accepts both square-bore and spread-bore carbs. The manfold fits red/blue/black engines. It does not have a provision for external heat crossover. The intake manifold includes an Edelbrock square-bore carb adapter plate #2732, carb gasket, and carb studs.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

New!

Dual Quad Intake Manifold

This Dual Quad HEMI intake manifold is intended for use with Gen II (1964-71) 426-572 HEMI engines operating in the 2500-6500+ range. This new intake manifold is a single plane Air-Gap design with a dual square-bore 4150 style carburet or pad. Carburetor spacing and height are the same as Mopar Performance dual quad, making it a direct bolt-on for all vehicles with a shaker hood. They also retain the same carburetor linkage location from the factory. The Dual Quad HEMI manifold is compatible with factory style cylinder heads.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Intake Manifold Components

E7276

1958-87 Intake Manifold Gaskets

Matched to Edelbrock Performer and Performer RPM cylinder heads and manifolds, Edelbrock intake gaskets allow for optimum flow and performance. The new MP-2N Micropore® technology does not use solvents making our gaskets environmentally friendly. Impervious to most chemicals, this synthetic fiber composite provides a high recovery under load. This means that when compressed, the gasket will conform to any imperfections on the sealing surface even using lower flange pressures. A nitrile bead around each port opening makes the seal even better.

*Note: *Must be used with OE style valley pan.*

Emissions Note: ③ Non-CARB compliant (not legal for emission controlled vehicles).

MN2421

Big Block Valley Pan

"Lips" along the side fit underneath the edge of the cylinder heads, making a tight seal and allowing the use of standard intake port gaskets. This pan works well with the standard Edelbrock performer and Performer RPM intake. Works great with Edelbrock RPM cylinder heads and other aftermarket heads with an unbroken deck surface where the cylinder head meets the edge of the valley pan. These pans may be used with factory cylinder heads, depending on the intake manifold, if any break in the lower deck surface is filled with silicone. Finished in gold iridite finish for corrosion resistance. Made in USA.

Note: Because this pan fits under intake face edges, at least one cylinder head must be removed in order to install or remove valley pan.

Big Block Valley Pans with Dimple

This valley pan is designed for "B" engines and include a clearance well, or dimple, that will clear exhaust crossovers found in many dual plane intake manifolds.

Important: Will not work with original cast iron intake.

361, 383, 400 Engines

MN2422 B engines..... 74.99 ea

Big Block Flat Valley Pans

These fabricated valley pans are designed for "RB" and "B" engines that are using single plane intake manifolds.

Important: Dual plane intake manifolds (both factory and aftermarket) will not fit due to exhaust manifold interference.

Distributors

Pro-Billet Distributor

These distributors feature a lightweight CNC-machined 6061-T6 billet aluminum housing and a polished, coated steel shaft to produce a low friction durable finish that resists corrosion. MSD uses a sealed ball bearing at the top of the housing and an extra long sintered bushing at the bottom to guide and control the shaft smoothly and accurately up to 10,000+ RPM. Other features include an iron drive gear, Rynite® distributor cap with brass terminals and a high output magnetic pickup to trigger the ignition. Choose from the "standard" Pro-Billet distributors that use the MSD 6, 7, 8, or 10 series ignition control box or from the internally controlled "Ready-to-Run" distributors.

Emissions Note: * ① *CARB EO compliant (50 states legal).* ** ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

This 100% new high-performance distributor produces a 50,000 Volt spark through 7500 RPM. Easy 1 wire hook up, low saturation ignition module, premium cap with brass terminals, and high power coil! Each high-performance, factory set distributor, has a retro style Mopar emblem prominently displayed beneath the tan cap. Three versions are available to fit most Chrysler engine applications. Select one of three options depending on the engine your vehicle is equipped with. Distributors are available to fit Chrysler 273, 318, 340, 360 small block, 361, 383, 400 big block, or 413, 426, 440 big block and HEMI engines.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Mopar V8 HEI Electronic Distributor

High-quality brass terminals and a protective plastic dust cover that encapsulates the 65,000 Volt coil. A new cast aluminum housing featuring a machine polished finish contains new bushings, main shaft assembly, and a hardened steel gear. Our HEI includes high output module, centrifugal advance components, and adjustable vacuum advance canister. For use up to 7000 RPM.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Noise Filter

If you experience radio noise after installing the MSD Ignition, you may need to install an MSD noise filter. Electro Magnetic Interference (EMI) is occasionally generated from the MSD power cables and can be easily eliminated by installing the noise filter on the heavy power supply wires coming from the MSD. It is recommended that the noise filter be used on installations with the MSD 7 and 8 Series ignitions to prevent this interference. Includes noise filter cover.

8830	MSD noise filter with cover	65.99 ea

6A/6AL Ignition Control

MSD's new Digital 6A is the base model of the capacitive discharge multiple spark 6 Series design. Features the same footprint as the traditional 6A and 6AL, but with a lower profile for a sleek look. Like all MSD 6 Series Ignitions, the 6A will work with virtually any vehicle as long as it has a 12-18 Volt electrical system. It can be triggered using breaker points, a magnetic pickup or the output of an electronic amplifier. All necessary parts and wiring instructions are included. Will work on 4, 6, and 8 cylinder engines. The new Digital 6AL shares the same proven circuitry of the Digital 6A with the addition of a built-in adjustable rev limiter with two top mounted rotary dials. The combination of powerful sparks with the safety of a rev control is what makes the Digital 6AL the most popular ignition control in the world.

Emissions Note: ① *CARB EO compliant (50 states legal).*

MADE IN USA

Ignition System Coil

The following Blaster coils share the same special windings and high voltage output as the other Blaster 2 coils, but do not include a ballast resistor. When you are using an MSD Ignition Control, the ignition is responsible for delivering the voltage to the coil so a ballast is not necessary. The Blaster 3 coil features an extra tall tower design to improve the coil wire attachment and spark isolation and is supplied with a 90 degree terminal and boot.

Emissions Note: ① *CARB EO compliant (50 states legal).*

8202	Blaster 2	49.99 ea
8223	Blaster 3	59.99 ea

MADE IN USA

Blaster Performance Coil

With a stock points style ignition, a ballast resistor must be placed in-line with the positive terminal of the coil. The following Blaster coils are supplied with a 0.8 Ohm ballast resistor plus a terminal and boot to fit most applications. Mallory Unilite applications also require the ballast resistor. Available in chrome or red.

Important: *The ballast is not necessary if an MSD 6 or 7 series ignition control is being used with the points distributor.*

Emissions Note: * ① *CARB EO compliant (50 states legal).* ** ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

8200**	Blaster 2	chrome	83.99 set
8203*	Blaster 2	red	59.99 set

Features:

- Timing based on engine RPM and gear value
- Advanced individual cylinder timing based on gear or time
- Five retard stages for nitrous
- Four steps of RPM limits for burnout, spool, launch and over rev
- Output switch set on RPM, pressure or time
- Shift light settings for each gear
- Ignition data acquisition accepts multiple runs
- Crank trigger system highly recommended

Power Grid System

The Power Grid System is the next evolution of programmable ignition controls. The grid incorporates an efficient 32 bit micro-controller and an all new software program, called MSD View, and is USB compatible. The Power Grid Controller is the brains behind the entire system and can be used with any MSD ignition or the Pro Mag to provide advance ignition tuning capabilities. While it is compatible with all MSD boxes, the new Power Grid System Controller has been specially designed to mount to the Power Grid-7 ignition box sold separately. Includes: View software, wiring harness, micro-SD card and mounting hardware.

Note: *To use any modules with the Power Grid Ignition System, (7720 and 7730), users MUST plug the modules into a 4 Connector CAN-Bus Hub (7740) to be attached to the Power Grid System Controller.*

Emissions Note: * ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

MADE IN USA

Blaster SS Coil

The efficient E-core windings are designed to produce high amounts of current without sacrificing the voltage output. In fact, when used with an MSD 6 Series Ignition, the Blaster SS produces 300 milliamperes with a maximum voltage output of 40,000 Volts. The secondary windings are wound on a segmented bobbin which reduces the chance of voltage breakdown between the primary and secondary windings. For more protection, these windings are encased in a polyurethane compound for complete protection against vibration. The Blaster SS features brass terminals and a sturdy Rynite housing. It is supplied with a 90 degree boot, terminal and vibration mounts.

Emissions Note: ① *CARB EO compliant (50 states legal).*

6 Series Vibration Mounts

In performance applications such as off-road, racing, and marine applications, strong vibrations can be transmitted through the chassis to the MSD unit. To protect the MSD from excessive vibration, we recommend this vibration mount set.

8823 ..... 27.99 set

Spark Guard

MSD's spark guard is a dielectric grease that solves many common ignition troubles. It stops voltage leaks, eases boot removal, prevents moisture buildup inside the spark plug wire boots, and even helps protect against radio noise (EMI). It also simplifies the installation of MSD universal spark plug wire sets. Spark guard will not dry up or harden so it will retain its spark isolating capabilities indefinitely.

8804 ..... 39.99 ea

8920

8910E

Tachometer Adapter

MSD tach adapters will correct the operation of most voltage triggered tachometers or fuel injection systems that do not work directly off the tach output terminal of the MSD ignition unit. If you are triggering an MSD Blaster, 5, 6, SCI, or 7 series ignition with its white wire or points terminal, you will need item #8910 or #8910E. For applications using green and violet wires for magnetic pickup input, use item #8920.

Important: **For non-current limiting ignitions, originally equipped with a ballast resistor. **For use on current limiting ignitions, not originally equipped with a ballast resistor.*

8mm Superstock Spiral Plug Wires

ACCEL's SuperStock Spiral Core 5000 Series wire sets. With only 500 Ohms per foot of resistance, more ignition energy can reach the spark plug, producing a longer-lasting, hotter spark flame kernel. This 8mm wire's double silicone construction is rated to 550 degrees F. The high gloss wire jacket resists moisture, chemicals, and heat extremes for longer life and great looks. Stainless steel plug terminals. High RFI suppression for street and strip use. Universal wire sets include standard socket and HEI boots with the appropriate terminals. Made in USA.

Core: Spiral wound stainless steel alloy conductor, magnetic suppression and semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.

Note: Universal fit 8 cylinder wire sets can be used for 6 cylinder applications.

EXTREME 9000 Ceramic Wires

Increase ignition energy with these incredibly low resistance severe duty spark plug wires! These 8mm wires are designed for forced induction, HD truck, and racing applications. These wires can withstand up to 600 degrees F while offering a mere 500 Ohm per foot of resistance and complete EMI/RFI suppression. The ceramic plug boots and stainless steel terminals withstand temperatures up to 2000 degrees F. Compatible with both pre- and post-HEI systems.

Note: Universal fit 8 cylinder wire sets can be used for 6 cylinder applications.

Thunder Volt 8.2mm Ignition Wires

Taylor Thunder Volt 8.2mm ignition wires are dyno-tested and proven to increase horsepower and torque. Designed with a Ferrite spiral wound core coated with a blend of copper/nickle bonded with a conductive acrylic cover for only 40 Ohms per foot of resistance with optimum RFI and EMI suppression. A 2 layer 100% Zimplex silicone outer jacket for heat protection up to 600 degrees. Available in black, red, or blue with grey silicone spark plug boots. Universal wire sets include both standard socket and HEI boots with the appropriate terminals. Made in USA.

Emissions Note: ② Legal in U.S. (excludes California).

10.4mm "409-Series" Pro Race Wire Set

Taylor 409 Pro Race 10.4mm high-performance ignition wires are designed for street and track performance. Tightly woven heat treated fiberglass braid over a 100% silicone Spiro-Pro ignition wire providing a 3 layer jacket these wires have a 102,000 Volt dielectric strength and thermal protection to 600 degrees. The spiral wound core with 350 Ohm resistance per foot has excellent EMI and RFI suppression making them perfect for extreme electronic ignition systems. Universal wire sets include standard socket and HEI boots with the appropriate terminals. Made in USA.

Emissions Note: ② Legal in U.S. (excludes California).

Date-Coded Plug Wires

Correct date code based on production quarter of the vehicle.

Correct "Electronic Suppression" wording on plug wire jacket.

Mopar Authentic Restoration Product

1962-72 Model Year Date Coded Spark Plug Wires

Exact reproduction spark plug wire sets are manufactured to original specifications and are correct in every aspect: wire type and length, color, terminals, boot angle and shape, script, and braiding (where applicable). These reproduction sets are identical to the spark plug wires as they would have appeared on the vehicle when it shipped from the factory and are designed to look, fit and perform exactly as original. Each wire features original style lettering with the wording "Chrysler Corporation Electronic Suppression". All wires are date coded based on the production quarter of the vehicle. For vehicles built during the first half of production (September of the preceding year through February of the vehicle's model year), choose "1Q"; For cars built in the second half of production (March through August of the vehicle's model year), choose "3Q" dated wires.

Note: *These plug wires are not designed for use with aftermarket headers or aftermarket manifolds. Wiring may be used with other manifolds or headers but are not guaranteed to fit.*

1962-76 Ballast Resistor

Replacement ballast resistor for 1962-76 Mopar models. This resistor is designed to look, install and function exactly as original. The ballast resistor works in conjunction with the ignition coil. During low speed operation, the ballast resistor heats up. The increase in temperature causes an increase in resistance in the ignition system and ultimate failure in the ballast resistor. Keep a spare in your glove box!

Standard Ignition

E3352 – detail

1961-76 Spark Plug

Want to unlock more power from your engine and actually burn less gas? Through an intensive R&D process, E3 has created a spectacular new spark plug that creates the industry's fastest spark growth and fastest combustion pressure rise, meaning it burns fuel more efficiently to give you more power and increased fuel economy. E3's patented design forces the spark discharge from one sharpened edge to another, and projects the spark forward into the combustion chamber, unlike traditional spark plugs, for the most consistent, powerful and efficient burn possible! Sold individually.

Performance Ignition

by Pertronix

30-Month Limited Warranty

IGNITOR ⚠

- Increases Horsepower and Fuel Economy.
- Easily Installed in Minutes.

Eliminate points and wear prone moving parts while delivering twice the stock voltage to the spark plugs. The Ignitor fits completely inside the distributor with no complex wiring, leaving no unsightly black box to clutter up your engine compartment. Use with Flame-Thrower 40,000 Volt coil for optimum performance.

Note: MN2240, MN2242 are with factory electronic ignitions, excluding lean burn computer controlled engines.

Emissions Note: ① CARB EO compliant (50 states legal).

MN2242	1972-76	8 cylinder all	154.99 set

Ignitor II ⚠

- Increases Horsepower and Fuel Economy.
- Matches Dwell to RPM
- Easily Installed in Minutes.

The Ignitor II detects electrical current in the coil and uses a micro controller to increase or decrease dwell to maintain peak energy as RPM and operating conditions change, providing more energy, reducing misfires, and improving engine performance. Produces nearly 4 times more available energy between 3000 and 5000 RPM, and double the available plug voltage! Use with the new Flame-Thrower II super low resistance (0.6 Ohms) 45,000 Volt coil to maximize high RPM performance.

Note: Ignitor II can not be used with solid core ignition wires. MN2244 and MN2245 are for factory ignition excluding lean burn computer controlled engines, PX91381A is for single point applications only.

Emissions Note: ① CARB EO compliant (50 states legal).

Ignitor III ⚠

- Ignition Box Inside Distributor.
- Adaptive Dwell Maintains Peak Energy
- Increases Horsepower, Fuel Economy.

The Ignitor III is the most advanced points replacement set available. Featuring multiple sparks throughout the RPM range and an adjustable REV limiter accurate to +/- 50 RPM, Ignitor III generates 5 times more spark than points maintains peak energy, reduces misfire, and improves engine performance throughout the RPM range. Peak current is reached just prior to spark for maximum energy without heat buildup, increasing performance and reliability. Fits Chrysler aluminum bodied single point distributors with vacuum advance.

Note: Not available for 6 cylinder.

Emissions Note: ① CARB EO compliant (50 states legal).

PX71381A	1960-72		206.99 set

PX1385LS

Ignitor Series Ignition Module ⚠

Eliminates points and moving parts that wear out while delivering twice the voltage to spark plugs. Increase horsepower, fuel economy, and plug life. Concealed entirely within the distributor. Easily installs in minutes with no complex wiring. Compatible with negative ground 12 Volt systems. 30-Month warranty included.

Emissions Note: ① CARB EO compliant (50 states legal).

High-Performance Coil ⚠

Complete your ignition upgrade with a Flame-Thrower high-performance coil. Best when used with the Ignitor Electronic Ignition Conversion, the Flame-Thrower high-performance coil fits existing coil brackets for a clean, factory look. Enables larger plug gaps for greater fuel efficiency and more power. Available with either a chrome or black finish. Choose from a variety of voltages and primary resistance ratings.

Emissions Note: ① CARB EO compliant (50 states legal).

40,000 Volt Coil – 1.5 and 3.0 Ohm

These Flame-Thrower coils are compatible with breaker point ignition systems or vehicles equipped with the original Ignitor system. Choice of 6 or 8 cylinder.

New!

1965-71 Date Coded Ignition Coil

These quality Mopar licensed ignition coils are a faithful, American-made reproduction of the factory installed ignition coil. It features heavy-duty windings to ensure outstanding performance, a 3 digit date code stamp, the part number, and the words "Made in the USA" stamped on the side in green ink as original. Includes correct nuts and washers.

Performance Ignition

New! MADE IN USA MSD

Blaster Performance Coil

8203

With a stock points style ignition, a ballast resistor must be placed in-line with the positive terminal of the coil. The following Blaster coils are supplied with a 0.8 Ohm ballast resistor plus a terminal and boot to fit most applications. Mallory Unilite applications also require the ballast resistor. Available in chrome or red.

Emissions Note: * ① *CARB EO compliant (50 states legal).* ** ③ *Non-CARB compliant (not legal for emission controlled vehicles)*

New! MSD

8202 8223

MADE IN USA

Blaster Ignition System Coil

The following Blaster coils share the same special windings and high voltage output as the other Blaster 2 coils, but do not include a ballast resistor. When you are using an MSD Ignition Control, the ignition is responsible for delivering the voltage to the coil so a ballast is not necessary. The Blaster 3 coil features an extra tall tower design to improve the coil wire attachment and spark isolation and is supplied with a 90 degree terminal and boot.

Emissions Note: ① *CARB EO compliant (50 states legal).*

MADE IN USA

Blaster SS Coil

The efficient E-core windings are designed to produce high amounts of current without sacrificing the voltage output. In fact, when used with an MSD 6 Series Ignition, the Blaster SS produces 300 milliamperes with a maximum voltage output of 40,000 Volts. The secondary windings are wound on a segmented bobbin which reduces the chance of voltage breakdown between the primary and secondary windings. For more protection, these windings are encased in a polyurethane compound for complete protection against vibration. The Blaster SS features brass terminals and a sturdy Rynite housing. It is supplied with a 90 degree boot, terminal and vibration mounts.

PERTRONIX PERFORMANCE PRODUCTS Flame-Thrower

PX60130

HV 60,000 Volt Coil

The Flame-Thrower HV (High Voltage) coil have an E-Core design which is rated at a sizzling 60,000 Volts and operates with no degradation of energy throughout the temperature ranges. Made from 6063-T5 aluminum, it efficiently transfers heat to optimize energy output, and the housing is black anodized for increased corrosion resistance. Available in 3 different resistances for compatibility with most points and electronic ignition systems. Standard threaded connections and mounting hardware are included.

Emissions Note: ① *CARB EO compliant (50 states legal).*

TSP

A7700201 A7700202

Power Coil

The TSP power coil is capable of delivering a longer and hotter spark with up to 70% more spark energy than stock ignition coils. Its convenient design easily mounts to fire walls, core supports and fender wells. It features an aluminum heat sink keeping it cooler for more efficient energy output at lower temperatures. Coils have an HEI style output tower and are rated at 50 kV maximum voltage with 260 mA peak current with 0.35 Ohm primary resistance. Coils include installation hardware, a coil wire boot with terminal and a wiring harness.

Fresh Air Components

1970-72 B-Body N96 Fresh Air Box Duct

Commonly referred to as the "Ram Charger" hood on 1971-72 Charger, 1971 Super Bee or the "Air Grabber" hood on 1970-71 GTX and 1970-72 Road Runner, these hoods utilized a large duct commonly referred to as an "air box" that bolted beneath the underside of the hood to route the air into the air cleaner assembly. This duct is injection molded just like the original.

Retro Style Air Cleaner

This custom air cleaner assembly was inspired by the Cadillac and Oldsmobile oil bath air cleaners of the early 1950's. Manufactured in heavy gauge steel and powder coated in a semi-gloss black finish, these custom air cleaners fit most carburetors and throttle bodies with a 5-1/8" mounting flange. The lower rear section of the air cleaner is clearanced for HEI distributors. Available in a full scale 18-1/4" wide version that uses a 14" x 4" filter element and a 7/8 scale 15-21/32" wide version that uses a 12" x 3" filter element. Both sizes include a filter element, chrome rocket shaped wing nut, and an air cleaner decal.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Air Cleaners & Parts

14" Low Profile Chrome Air Cleaner

This air cleaner provides a low profile by dropping the filter 7/8" or 1-1/4" below the carburetor flange. 5-1/8" flange fits all popular 4 barrel carburetors. Your choice of 4 element heights are offered to fit a wide variety of applications. The 7/8" drop will fit carburetors with electric choke mechanisms. Optional vent kit, item #851190 is available and sold separately. Total height listed below is the minimum clearance needed above the carburetor flange.

Important: **Items marked with asterisk will not fit Edelbrock carbs with electric choke.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

XStream Air Flow Top and Assembly

If your engine still has its stock style filter element and air cleaner assembly, it most likely is not realizing its full horsepower potential. Restrictive elements combined with the turbulence inside a stock filter housing tend to choke off critical airflow. Put an end to this dilemma with K&N's XSTREAM air flow top or the XSTREAM air flow assembly and feed your engine all the air it can use. The result will be maximum horsepower! Choose from the complete assembly or just add the top to your existing round filter. Either way, you'll enjoy the benefits of a high flow element that cuts turbulence. Cleanable and reusable just like our other filters. Total height listed below is the minimum clearance needed above the carburetor flange.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Air Filter Oil & Clean/Degreaser Set!

K&N Air Filter Oil and Cleaner/Degreaser is the only oil and cleaner/degreaser specially formulated to work in combination with the cotton fabric in the K&N filter. The use of any other could void the filter's warranty and potentially harm the air filter's cotton material. The cleaner/degreaser works to dissolve the dirt buildup and old oil filter oil and can be washed away with water. It is environmentally friendly, and when used as directed, is safe on paint, chrome, cast aluminum, plastic, rubber and vinyl. Each set includes oil, cleaner/degreaser, and service decal. Your choice of 6-1/2 oz. aerosol spray or 8 oz. squeeze oil bottle is offered.

Air Cleaner Element

A K&N air filter element can be washed up to 25 times before it is considered no longer serviceable. Even though the filter may not show outward signs of deterioration, it should be replaced after 25 washings. Excessive washings will deplete the tiny cotton hairs that crisscross the openings. The resulting damage will allow tiny dust particles to pass through. The elements listed below are designed for use with our K&N chrome and stainless steel air cleaner assemblies.

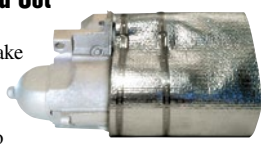
Starter Heat Shield Set



In today's high heat environment, starters take in a lot of damaging heat that destroys the windings of the starter and solenoid. To combat this problem, we offer a nonconductive strap-on heat shield with a highly reflective Mylar surface. The Starter Heat Shield will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The Starter Heat Shield is a universal set that fits all starters.

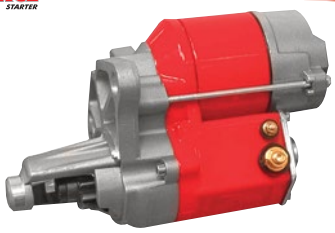
TT1002	set with straps.....	27.99 set

MN2169

1965-76 Ultra Torque Starter

Powermaster Mopar replacement starters for all 1965-76 Mopar models. Each starter includes a dyno sheet to show how well the starter you just bought performs. The torque output of a starter is the most important consideration. The starter must be able to spin the engine, and do it without overheating internally. Since there is no such thing as having too much torque (even on a street vehicle) a 200 ft lb starter will work for everyone. Speaking in general terms, a 12:1 or higher compressed engine should use a 200 ft lb or higher starter.

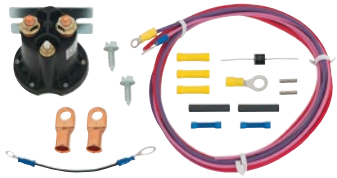
MN2169	200 ft lb high speed, natural	345.99 ea
MN2179	250 ft lb natural	292.99 ea



DynaForce Starter

This MSD DynaForce starter is designed for severe duty, high compression applications. The 3.4 HP motor uses a 4.4:1 gear reduction to easily start even an 18:1 small block or big block engine with a lower current draw than traditional starters. Features a red powder coated and natural finish. Made in USA.

5098	small block/ big block starter ..	406.99 ea



Remote Starter Solenoid

Position the starter solenoid any place you need to in order to make maintenance easier. Includes extra wire and connectors.

30203	.....	64.99 ea

Hot Shot Starter Solution

30201

The "Hot-Shot" Plus model includes an engine bump switch which allows you to turn over the engine while working in the engine compartment (adjusting valves, etc.) Includes: stainless steel mounting bracket, 30 amp heavy-duty relay, 24" wire length, wire lead, and terminals.

DynaForce Alternator

Made in USA MSD DYNA FORCE STARTER

5321

Street Series alternators are offered with chrome, black, and natural finishes and are designed to fit most custom bracket sets that use a GM style alternator and install with a simple one wire hook up to the battery post. Racing alternators are available in 50 amp Denso style or 100 amp GM style and are compatible with 12 and 16 Volt electrical systems thanks to an adjustable voltage regulator. They feature the same one wire hook up and a red wrinkle finish. Every alternator assembly is tested and is delivered with proof of performance. Made in USA.

Note: Modifications to mounting brackets will be necessary.

1960-76 Voltage Regulator

A voltage regulator is used to control the output of an alternator or generator. Regulators are either internal or external. Internal regulators are mounted in the alternator housing, external regulators are typically located on the fender well in the engine compartment. Applications are available to fit all models with all engines for the year ranges specified.

Fuel Tanks

Dodge and Plymouth Fuel Tanks

These reproduction fuel tanks are manufactured to factory specifications from stamped steel and are available in a variety of finishes to suit your build. Basic zinc coated steel tanks are a great value, offering strong corrosion resistance at a reasonable price. Ni-terne steel tanks provide an OE quality appearance for discerning restorers. For show quality builds, stainless steel tanks offer superior corrosion resistance with a spectacular polished finish.

Fuel Tanks

1968-74 Stainless Steel Gas Tank

Rick's Stainless Tanks — New!

Each tank is hand formed from 304 grade stainless steel and TIG welded. This tank features a unique baffle system running front to rear, side to side, and surrounding the fuel pickups to eliminate fuel starvation during acceleration, hard braking and to control fuel tank slosh. All fittings and mounting flanges for fuel sending units and fuel pumps are CNC-machined from 304 stainless steel stock to a thickness of 3/8" to ensure a proper seal. Tank includes an installed fuel pump and stainless steel mounting straps with hardware. All tanks have a brushed finish for easy up-keep.

15858

Important: *Sending unit is not included with tank. A 0-90 Ohm sending unit is required and available separately or any standard universal 5 screw mount 90 Ohm sender (Auto Meter, Stewart Warner etc.)* **Image of item is a representation only. Actual part may differ slightly in cosmetics.*

Sniper EFI Fuel Tank System

Holley SNIPER EFI

Holley Sniper EFI conversion fuel tank system for 1967-76 Mopar A, B, & E-Body models. Each tank is galvanized and then powder coated to maximize corrosion resistance. Fuel pump and sender are recessed in the tank to provide an easy installation with no modification to your car. These tanks are a direct, bolt-in install for select most applications, capable of supporting 550 HP. The system includes the fuel tank, tank straps, a 255 lph fuel pump, internal baffling and a fuel level sender. Sender operates at the same 73-10 Ohms as the factory Mopar fuel level gauge.

Gold Standard Fuel Tank Sealer Set

Our 3 step fuel tank sealer set contains almost everything you might need to seal a tank of up to 25 gallons. The Gold Standard Tank Sealer is specifically formulated to stop rust and corrosion by forming a tough, fuel impervious coating while simultaneously sealing small pinholes and weld seams. The prep products are formulated to extend storage times by leaving a zinc phosphate film that prevents rust until you have a chance to seal the tank with the sealer. Complete set and individual items available.

KBS 3 Step Fuel Tank Prep & Sealer – Complete Set

Includes: 2 quarts of Klean (a water based, heavy-duty, cleaner/degreaser), 1 quart RustBlast (a powerful rust remover/metal etch), 1 quart Gold Standard Tank Sealer, gloves, instructions, and a stir stick.

KB53000	prep/sealer kit	for tanks up-to 25 gallons	75.99 set

KBS Klean – Cleaner/Degreaser Only

KBS Klean is a concentrated, water based, biodegradable formula that is an excellent alternative to flammable solvents and hazardous chemicals for preparing your paint job with a clean surface. KBS Klean is step #1 in the KBS 3 Step Tank Sealing System. KBS Klean is a powerful cleaner that deeply penetrates and removes stubborn soil from most surfaces without leaving harmful residues or emitting noxious fumes.

KB2200	half pint (8 oz.)	cleaner/degreaser only	6.99 ea
KB2400	one quart	cleaner/degreaser only	13.99 ea
KB2500	one gallon	cleaner/degreaser only	25.99 ea

KBS RustBlast Rust Remover/Metal Etch Only

KBS RustBlast is a powerful rust remover, zinc phosphate pre-primer, and metal etch. RustBlast effectively dissolves rust, corrosion, metal oxides, and tarnishing from most metal surfaces. RustBlast will gently etch the surface and leave a zinc phosphate coating to ensure a strong bond with any paint. KBS RustBlast is Step #2 in the KBS 3 Step Tank Sealing System.

KB3200	half pint (8 oz.)	rust remover/metal etch only	9.99 ea
KB3400	one quart	rust remover/metal etch only	19.99 ea
KB3500	one gallon	rust remover/metal etch only	37.99 ea

KBS Gold Standard Fuel Tank Sealer Only

KBS Gold Standard Fuel Tank Sealer is a superior, one part, ready to use fuel tank sealer that is specifically formulated to form a super tough, fuel and alcohol impervious coating, while simultaneously sealing small pinholes and weld seams. KBS Fuel Tank Sealer is Step #3 in the KBS 3 Step Tank Sealing System. May be used on steel, aluminum, and fiberglass tanks.

Universal Fuel Tank Anti-Squeak Insulator

Universal style anti-squeak cushions are designed to install between the gas tank and the gas tank straps. These fuel tank anti-squeek pads cushion the gas tank from the body and straps to reduce noise caused by metal to metal contact. Replacing or adding the anti-squeak pads can help eliminate noise or friction between the fuel tank straps and the body.

24" Anti-Squeek Set

Set contains: two 24" x 2" x .060" anti-squeak strips, two 24" x 1-1/4" molded fuel strap cushions, and one 5-1/4" x 2" x 1/2" neoprene anti-rattle pad.

Driven Carb Defender

Driven Carb Defender Fuel Additive has been formulated to protect against harmful ethanol deposits and corrosion in fuel and the induction system. Special inhibitors resist expensive damage and reduced performance from moisture accumulation from modern ethanol blended gasoline. This additive controls combustion chamber residue, cleaning and protecting fuel system and intake tract surfaces to keep carburetors functioning properly. Carb Defender is ideal for everyday drivers or classics that spend time in storage between cruises and special events. One bottle treats up to 25 gallons of ethanol blended fuel.

Fuel System Cleaner

Max-Clean targets and cleans deposit buildup in the intake system and combustion chamber and is effective on the entire spectrum of engines on the road. Deposit buildup is a natural consequence of fuel combustion, but can have significant effects on the performance and reliability of your engine. Royal Purple's Max-Clean can restore internal engine surfaces, recovering lost fuel economy and performance.

J-B Weld Gas Tank and Radiator Repair

AutoWeld is a hand mixable, steel reinforced, non-rusting epoxy putty that quickly repairs or rebuilds anything made of metal. After mixing, it forms an industrial strength polymer compound that can be molded into shapes or used to buildup, patch and repair steel components. AutoWeld sets in 5 minutes and after 60 minutes, can be drilled, tapped, machined, ground, filed, and painted. Cures dark gray. Made in USA.

Fuel Filler Neck with Pop-Up Door

OER® Authorized billet aluminum flush mount fuel filler neck with pop-up gas cap is the perfect addition to your classic car or truck when adding a non-stock fuel filler location or relocating your fuel tank. Measures approximately 2-1/2" diameter to allow it to fit into tighter spaces while the filler hose connection measures approximately 1-1/2" in diameter. The fuel cap can be popped up or pressed down for a smooth appearance. When clicked into the flush position, the non-vented cap will not leak or allow fuel to escape.

1968-74 Fuel Filter/Vapor Separator

Help prevent vapor lock by using the correct fuel filter/vapor separator on your 426 Hemi or 440 equipped vehicle the way the factory intended. This part mounts near the fuel pump and is designed to filter the fuel while simultaneously routing fuel vapor back to the fuel tank. Correct size, shape, mounting bracket, color and lettering make this a must for any serious Mopar project. Applications are available for a variety of 426 Hemi or 440 equipped 1968-74 B-Body and E-Body vehicles.

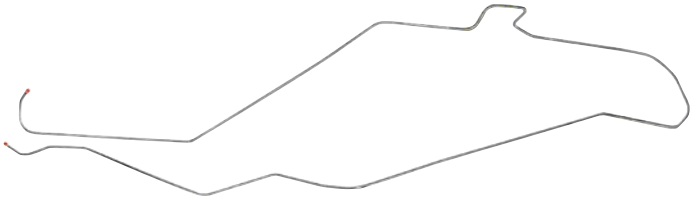
Fuel Lines

Replace Your Fuel Lines with OEM Material for Originality or High-Quality, Long-Lasting, Stainless Steel Material!



Each line is manufactured using a precision manufacturing process that creates the correct bends to match the factory original equipment. Couple these manufacturing techniques with your choice of material selection and you can be assured that you are installing the best fuel lines on the market. These lines are available for many A, B, or E-Body applications, saving you the hassle of having to bend up your own fuel lines.

Note: *All fuel lines are shipped double oversize.*

1963-75 A-Body Front to Rear Fuel Line

Applications are available for 1963-75 A-Body vehicles including 1964-69 Barracuda, 1963-75 Dart, Valiant, 1971-74 Demon/Dart Sport, Duster, and Scamp.

Your Choice of OEM Material for Originality or Long-Lasting Stainless Steel!

1970-74 E-Body Front to Rear Fuel Line

These lines, produced in steel material will fit your vehicle without the hassle of bending up your own lines. Applications are available for various 1970-74 E-Body vehicles including 1970-74 Barracuda, 'Cuda, and Challenger.

Note: All fuel lines are shipped double oversize.

www.P65Warnings.ca.gov

Fuel Pump to Carburetor Lines

Each line is manufactured using a precision process that creates the exact same bends as factory original equipment. Couple these exact manufacturing techniques with superior material selection and you can be sure that you are installing the best fuel lines on the market. These lines are produced in your choice of original steel material or stainless steel material for A, B, or E-Body models without the hassle of bending your own lines.

*Note: *Includes one brass tee.*

1968-70 Fuel Tank Vent Line

Correct replacement fuel tank vent tubes which extend from the fuel tank across the trunk. Each line is designed to OE specifications and is guaranteed to fit each specific application perfectly! Replacing your vent lines can improve your fuel system while retaining originality. Choose from OEM material lines which match the factory originals or stainless steel lines which resist rust.

Return Line Fitting Conversion Set

If you are installing an in-line fuel pump or an aftermarket fuel injection setup but are using an original fuel tank not originally provisioned for a return line, this universal return line fitting set is a simple and inexpensive way to add one to your existing setup without having to go through the hassle of pulling your old tank and installing an expensive, brand new tank. This fitting can also be used for other applications such as adding a vent line or power steering return line, whatever you might need where a return line was not originally installed. Works on material up to 1/4" thick.

Quiet-Flo Electric Fuel Pump

Edelbrock

This anodized aluminum EFI fuel pump offers maximum performance in a compact package. Its rugged housing and high-quality internals make it both strong and durable. The in-line design keeps the pump motor and components cool even under harsh conditions. Flow rate of up to 80 gph at 45 psi for use with high HP fuel injected applications. This fuel pump supports 835HP at 12 Volts with a current draw of 12 amps at 45 psi. 10AN inlet/outlet 80 gph at 45 psi.

Fuel Pump Vacuum/Pressure Tester

Tests for fuel line pressure and vacuum leaks. Check for leaky valves, timing, fuel pump, vacuum, pressure and gas line leakage. Easy-to-read gauge with 3 foot hose and vacuum hose adapter fitting. Gauge measures vacuum from 0 to 28" HG in 1" increments. (0 to 700mm HG in 50mm increments). Measures pressure from 0 to 15 psi in 1/2 psi increments (0-1Kg/cm2 in .1 Kg/cm2 increments).

Y20300		.....	27.99 ea

Quiet-Flo Electric Fuel Pump

Edelbrock

E1791

State-of-the-art electric fuel pumps offer maximum performance in a compact package for carbureted applications. Anodized aluminum housing and high-quality internals make it both strong and extremely durable. The E1791 electric fuel pump is factory set to 6.5 psi does not require a regulator. 3/8" inlet/outlet, 120 gph free flow, up to 600 HP. The E1792 electric fuel pump is preset to 12 psi and requires an external regulator. 1/2" inlet-outlet, 160 gph free flow, up to 1000 HP.

Important: *For proper installation and voltage requirements, use fuel pump relay E1795.*

Edelbrock

In-Line Electric Fuel Pump

This in-line electric fuel pump is continuous duty rated and is ideal for EFI applications that require additional pumping capabilities for upgraded modifications. Works superbly as either an in-line booster pump or as a stand alone unit. Use with EFI regulator part #E1728 for adjustability from 35 to 90 psi. 57 gph, 3/8" hose barb fittings. Includes mounting bracket and 3/8" hose barb fittings.

E3594		.....	307.99 ea

Features:

- Solid-state worry free electronics
- Internal pressure regulating
- Universal design allows for easy installation
- No diaphragms or mechanical parts to wear out
- Hose barbs fit 5/16" fuel hose

Micro Electric Fuel Pump

This compact electric fuel pump features a solid state design that has a low current draw of around one amp and makes a good stand alone pump or booster pump. Designed for carbureted vehicles with a 12 Volt negative ground electrical system, this pump supports 4-7 psi at up to 35 gph. Includes: fittings, mounting hardware, and instructions.

Note: *Not for diesel applications.*

H12880 6AN inlet/outlet ..... 186.99 ea

New! Universal Bypass Regulator

A dual purpose, universal regulator for EFI or for Carbureted street/strip applications. Features pressure adjustable from 3 to 20 psi with standard spring, (installed) or from 20 to 60 psi with high pressure spring (included). Offers the full flow and rock steady fuel pressure that only a dynamic, Aeromotive bypass regulator provides. Capable of regulating any fuel pump between 100 and 250 gph, fuel pressure rises on a 1:1 ratio when referencing boost. All ports are 3/8" National Pipe Thread taper (NPT), with one inlet and three outlets on the main body and one return port on the bottom. Bypass design provides the ultimate, dynamic fuel pressure control.

Note: *Requires a return line to be installed from the bottom of the regulator to the top of the tank.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

3 Port 3/8" NPT
A9713301 ..... 221.99 ea

New! Carbureted Bypass Regulator

For use when converting from fuel injection to carburetion using the EFI pump in a carbureted application. Perfect for naturally aspirated or 'blow-through' supercharged engines. Features base fuel pressure adjustable from 3-15 psi, 1 o-ring boss fitting (ORB-10) inlet port and 1 o-ring boss fitting (ORB-08) return port, fuel pressure rises on a 1:1 ratio when referencing boost, bypass design provides the ultimate, dynamic fuel delivery system, ideal for converting from fuel injection to carburetion using the stock, in-tank pump, EFI conversions will require a larger than stock return line for proper low pressure control. Includes two o-ring boss fittings (ORB-06) outlet ports and 1/8" National Pipe Thread taper (NPT) gauge port.

Note: *Requires Army/Navy fitting (AN-08) return line from bottom of regulator back to top of the tank.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

A9713204 2 port ..... 231.99 ea

New! EFI Bypass Regulator

Performance EFI regulator designed for medium to high horsepower applications. This regulator features Aeromotive's high flow design, superb pressure control and legendary durability. Features base pressure adjustable from 40-75 psi, gasoline and alcohol compatible, fuel pressure rises on a 1:1 ratio with boost, 1/8" National Pipe Thread taper (NPT) gauge port. Includes 2 o-ring boss fittings (ORB-06) inlet ports and 1 o-ring boss fitting (ORB-06) return port.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

A9713109 adjustable with EFI ..... 221.99 ea

Fuel Pump Safety Switch

This safety feature is a must have for any electric fuel pump vehicle. This safety switch monitors the tach signal to limit when an electric pump can operate. When the key is first turned on, the fuel pump is allowed to run for three seconds, priming the fuel system. After that, it only operates if the engine is running. If the engine stops, so does the fuel pump. No plumbing into the oil lines or no extra priming button under the dash is required.

RE12003 ..... 64.99 ea

Fuel Pump Safety Switch

This fuel pump safety switch shuts off fuel flow whenever oil pressure drops below 15 psi. This adds a safety factor in case of an accident or engine stall. Designed for 12 Volt electrical systems and can be teed into the oil pressure sending unit with an 1/8" NPT tee.

77872 ..... 36.99 ea

30131

Universal Fuel Pump Relay Set

Choose from a standard fuel pump relay or a weatherproof fuel pump relay which is perfect for the harsh weather conditions. Weatherpoof relay set provides complete protection from the elements and ensures reliable, dependable performance utilizing a heavy-duty waterproof relay, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

Performance Carburetors

Thunder Series Carburetor

E1906

Edelbrock Thunder Series carburetors share all the performance advantages of the popular Performer Series but with innovative new features. These carburetors include all of the performance features of the Performer Series carburetors and also include distinctive black hardware, dual fuel inlets (shipped with left side plugged), lightweight ball burnished and CNC profiled body, and the Quick-Tune secondary. They're available in 650 cfm and 800 cfm sizes with manual or electric choke. There's even a 650 cfm version specifically designed for off-road vehicles. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors include an installation kit and owners manual.

Emissions Note: * ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Performer Series Carburetor

E1405

By design, Performer Series square bore carburetors are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air Gap or Torker II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design. Performer Series square bore carburetors are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The 2 piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. All Edelbrock carburetors come with an installation kit and owners manual.

Emissions Note: * ① *CARB EO compliant (50 states legal).* ** ③ *Non-CARB compliant (not legal for emission controlled vehicles).* †*Black power coated.*

Street Demon Carburetor

D1900

The Street Demon redefines the street carburetor with clean looks, brisk performance, and universal design. Available in 625 and 750 cfm, the Street Demon supports stock and mildly modified V8's with smooth, crisp throttle response. A dual bolt pattern works with most 4 barrel spread bore and square flange intake manifolds. Includes integrated 700R4/200R4 transmission kickdown location and electric choke. Choose from all-aluminum construction or a polymer main body design. Made in USA.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

1306EDL

Race Series Carburetor

Edelbrock VRS-4150 race and performance carburetors are street friendly but race ready. The 3.75" tall cast aluminum main body fits all 4150 and 4500 carb flange manifolds without requiring an adapter plate. Multiple vacuum hook ups keep this carburetor usable on the street but still ready for the track with larger capacity fuel bowls and four circuit billet metering blocks. The floats have corner cuts to avoid shutting off the fuel flow during hard cornering, and jet extender notches and jet extenders in the rear to keep the jets covered in fuel under hard acceleration. The advanced idle circuit features interchangeable idle discharge jets in all four corners to allow for a smooth, clean idle with the use of big, low vacuum camshafts.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

1964-76 Remanufactured Carburetor

Highest quality remanufactured carburetor for 1964-76 Mopar models with 6 or 8 cylinder engines. Carburetors are available for Slant Six, LA V8, B series V8 and RB series V8 and available for a variety of applications. Choose from Holley, Carter, Stromberg, or Rochester carbs. Each carburetor is thoroughly remanufactured with the highest quality components and tested to ensure optimum performance and fuel economy.

*Note: *Features solenoid lever opposite the throttle arm. **Does not feature solenoid opposite the throttle arm.*

Carburetor Components

Street Demon TPS Set

When using an electronic overdrive transmission, such as a 4L60E, with a carbureted engine, the transmission control unit requires a throttle position signal. This sensor bolts on to the carburetor and sends the proper signal to the computer. The simple design allows for easy calibration and voltage adjustments. Includes all necessary installation hardware. Made in USA.

D1951	Street Demon TPS	266.99 set

Throttle Solenoid

Some vehicles require a throttle solenoid to be used with Holley carburetors. This is a replacement unit manufactured by Holley. Also available are the solenoid bracket #H209, and nut #H2657.

H4674	Holley throttle soleniod	134.99 ea
H209	bracket	15.99 ea
H2657	nut	14.99 ea

Street Demon Throttle Solenoid Set

Some vehicles, especially vehicles with air conditioning, require a throttle solenoid to automatically increase engine RPM. This throttle solenoid set from Demon Fuel Systems includes the solenoid, bracket, and mounting nut. Made in USA.

D1950	Street Demon	182.99 set

Accelerator Pump Cam Set

This set will allow you to "tailor" accelerator pump performance to the engine's actual requirements. Each cam has a different shape to give different results. The shape of each cam directly affects the accelerator pump stroke and pump capacity. A steeply rising cam shape will give a fast, heavy fuel shot right off idle. Conversely, a gentle sloping ramp will spread the pump action over a longer period of time.

H2012	includes 8 pump cams	41.99 set

Street Demon Calibration Set

This calibration set allows fine tuning of Street Demon carburetors. Although the carburetors are already fine tuned other adjustments and modifications may be necessary for optimal performance in built engines with large cams. This set includes an assortment of primary jets, metering rods and step-up springs along with secondary jets all in a convenient plastic storage case.

D1921		124.99 set

Carburetor Calibration Set

These sets include a selection of metering rods, jets, and step up springs that allow fine tuning and calibration of Edelbrock Performer and Thunder Series carburetors for mildly to extremely built motors, especially motors with performance camshafts that cause low intake manifold vacuum. Made in USA.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

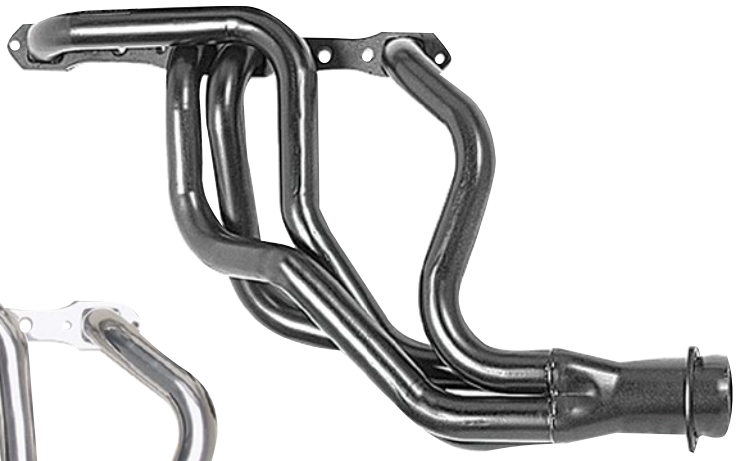
Hedman Hedders

1966-76 Hedman Hedders

Hedman Hedders™ for 1966-76 Mopar models. These headers are designed to replace the heavy and restrictive factory manifolds with lightweight, free flowing tubular steel manifolds. Each set of headers comes complete and is ready to bolt-on. Includes: collector and header to head gaskets, collectors and bolts. Will fit models with AC, power steering and either manual or automatic floor or column shift mechanisms. Get more performance from your Mopar without breaking the bank and do it with a name you can trust in the header business: "Hedman".



78030 – painted header

78036 – HTC coated header

Important: *Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application.*

Note: *Shipped oversize.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

1962-72 A & B-Body Long Tube Headers

Doug's Headers are carefully developed to fit each specific vehicle and engine application. They are tuned with the proper tube size and length to efficiently remove all the exhaust from each cylinder resulting in increased horsepower and torque. Every set features heavy-duty machined and finished flanges, smooth CNC mandrel bent tubing, and precision formed long transition collectors. Available in plain/uncoated Metallic Ceramic Thermal Barrier Coating (MCTBC), or Hi-Temp black coating.

Important: *These headers are intended for off-highway use only and are not designed for California vehicles with pollution control devices. Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application.*

Note: **For Reilly Motorsports Alter-K-Tion K-Member. Shipped oversize.*

Emissions Note: †† ② *Legal in U.S. (excludes California).* † ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Socket Assist

Essential tool for bolts with tight clearance like spark plugs and header bolts! 12 point for maximum finger traction. Set of 3 including: 1/4" x 1/4", 1/4" x 3/8", 3/8" x 3/8" (12 point x socket drive size). These belong in every tool box.

67575	3 piece	11.99 set

Wedge Locking Header Bolts

PROFORM Grade 8 (12.9 steel), Hex type header bolts were designed to keep bolts from backing off. These permanently assembled bolts feature special washers with super hardened serrated teeth that, when torqued to 28 ft lbs, bite into and grab the bottom of the bolt head and the top surface of the header. After being self-locked in this manner, any bolt loosening rotation is blocked by a wedge locking action created by the washers interfacing, matching cams. Engine vibration increases the tension, making them even more secure! They are reuseable and you can count on them to not fail. Available in different sizes.

Note: Image for illustration purposes.

Tru-X and Y-Pipes

The more gentle radius of these X- and Y-pipes allow for better exhaust gas scavenging, noise cancellation and better balance between cylinder banks. The result is a significant increase in power and torque, but a reduction in dB sound levels.

1962-74 A & B-Body OE Style Replacement Muffler

Our OE style mufflers feature a long-lasting double wrapped aluminized finish that's effective against salt road winters. Manufactured to perform exactly as original and produce the correct sound tone, these mufflers are also the closest to the original in appearance available. High-performance mufflers feature a two pass three chamber design that allows for improved exhaust flow and a slightly more aggressive tone. Correct for 340, 383, and 440 (M code) applications and feature flat corner dents that the factory added for clearance.

*Note: Any engine modifications will alter the sound of the muffler. *18" Case, Replacement. **Max Wedge, Replacement. †Replacement.††Hemi, Replacement. †††Hemi, Performance.*

F842515

Super 10 Series Muffler

Looking for the most aggressive sound available? Flowmaster's new Super 10 series mufflers are so aggressive, they aren't recommended for street driven vehicles. Best suited to racing applications, these feature the same Delta Flow performance technology used in the highly popular Super 40 and Super 44 series Flowmaster mufflers. Manufactured from durable 409S stainless steel for long-life and offered in a variety of configurations. Backed by a limited lifetime manufacturer's warranty, these short, single chamber mufflers deliver the closest thing to open pipe sound possible. If you want high impact sound, the Super 10 series mufflers are the answer. Measures: 6-1/2" x 9-1/2" x 4".

Note: These mufflers are recommended for off-highway use, not for street driven vehicles.

Screamer Twintronic Muffler

With the success of QTP's electric cutout they took it to the next level, A dual mode muffler with a single inlet with a dual outlet. One outlet is a straight pipe with a valve at the end on a 360 degree floating flange for total adjust ability. When the valve is open you get the loud and free flowing exhaust system. Close the valve and the exhaust gases are diverted through the muffled section to get the quiet mild mannered sound. This is the only system out there that can give you exactly what you want. Other systems that make the power are loud and drone all the time which gets old. Other systems are on the quieter side, which lacks the power. With all the noise restrictions coming out The Screamer is the only system that gets you the power and sound you desire! All systems are stainless steel for clean look and made in the USA.

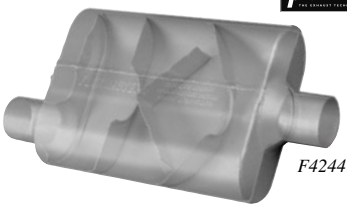
Mufflers



F42441

40 Series – Original Flowmaster Tone

This is the most "aggressive" sounding street/strip muffler that Flowmaster offers. If you're looking for attention, this one will get you noticed. The standard 40 series has an "aggressive rumble" and will generally resonate inside the vehicle around 1800-2000 RPM's, and again at 2400-2600 RPM's. Constructed of 16 gauge aluminized steel and fully MIG welded for maximum durability.

F952546

F952445

Super 40 Series Muffler

The Super 40 gives you a deeper tone that retains our classic 40 Series sound and feel. Increased flow path radius for optimum internal flow using the latest in Delta Flow technology. Flowmaster state-of-the-art robot assembly technology assures a product that exceeds OEM auto manufacturers' specifications. To achieve such critical quality, Flowmaster performs extensive R&D at the track and in-house with our own engine and chassis Dyno facilities. Flowmaster Super 40 is aluminized, black in color and is the most aggressive, deepest sounding street two chamber muffler they've ever built. Enjoy some American Thunder today!

Delta Flow 40 Muffler

This 2 chamber design incorporates Flowmasters patented "Delta Flow" technology. The "Delta" deflectors result in increased scavenging for better performance and reduced interior resonance over the standard 40 series with a nice growl outside the vehicle. Sounds great on late model performance vehicles with catalytic converters. Constructed of 16 gauge steel and fully MIG welded for maximum durability.

MWA High Performance Muffler

The Gibson MWA Muffler delivers maximum sound and the best muffler flow period! This straight-thru design promotes exhaust gases to flow at the highest rates flowing only 3 cfm less than a 3" straight pipe, improving power potential while keeping interior drone to a minimum. The MWA muffler has no internal packing or weak baffles, allowing it to maintain a lightweight design with a unique and powerful sound. The MWA muffler is Made in the USA and is constructed of high-quality stainless steel. When its time to make your Hot Rod or Sport Truck sound and perform as good as it looks, there is no other choice than Gibson's MWA, "Muffler With Attitude".

CFT Superflow Muffler

Gibson's CFT Superflow muffler with Convergent Flow Technology actually tunes your exhaust by using resonance chambers, directional louvered tuning ports and angular induction to draw exhaust gases into the muffler and expel it at a higher velocity. The result is a muffler that doesn't have packing to wear out, yet delivers more power and a performance sound. This muffler features a chambered and louvered core, to ensure no sound degradation overtime, and fully welded solid internal construction. This result delivers more power with a deep tone.

Stainless Performance Exhaust System

Pypes exhaust systems deliver enhanced performance, provide extra punch in the passing lane, and improve gas mileage. Fabricated using the highest quality materials, 16 gauge, mandrel bent, stainless steel pipe ensures maximum exhaust gas flow, which can significantly boost horsepower. The stainless pipe and muffler construction resists corrosion and extends the life of their system. Pypes mufflers, X-pipes, and OEM style stainless tailpipes, are precision matched to deliver the ultimate in sound as well as performance. Cadmium-plated or stainless hardware and hangers are included. These systems can be installed without any special tools. Some cutting may be required. 2-1/2" crossmember back system.

Note: *Shipped double oversize.* OS2

Exhaust Cutouts

P1074K

Universal Dual Electric Cutout Set

The optional electric exhaust cutouts and make uncorking your exhaust as easy as flipping a switch. Electric cutout set includes: 2 valves, wire harness, switch, mounting hardware, and 2 gaskets. Limited lifetime warranty. Available with or without Y-pipes. Made in USA.

Note: *Connects to any 2-1/2" exhaust with a straight section of approximately 12" in length and enough clearance for the motor/valve assemblies.*

Includes 2-1/2" Y-Pipes (Dump Legs)

P1074K	cutout set with Y-pipes	567.99 set

25057

Stainless Steel Electric Cutout

These cutouts feature a rugged 12 Volt DC motor and rotating gate for a leak proof seal every time the cutout is opened and closed. When fully opened, these cutouts do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly style cutouts. A pre-wired harness with an illuminated rocker switch is supplied for easy installation. Uncork your exhaust with the flip of a switch from your dash. The cutouts are ideal for race tracks that don't require mufflers. Available individually, in pairs, or in complete kits with Y-Pipes for easy installation. Made in USA.

Important: *Not recommended for vehicles equipped with catalytic converters.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Electric Exhaust Cutout

Don't crawl under your vehicle to uncork your exhaust ever again by switching to electric cutouts. Keep them closed and quiet for the street, wide open for the strip, or anywhere in between with the flip of a switch. You control the volume and the power! Available in sizes 2-1/4" to 4" and a low profile oval design for applications with limited ground clearance. Fits 2-1/4" to 3" round exhaust pipe. Built with high-quality materials CNC 6061 aluminum body and motor plate, stainless steel shaft and butterfly plate, high torque DC gear driven motor, weather tight wiring connectors, and custom illuminated toggle switch.

Note: *Match valve size with cutout size for optimal fit and performance.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

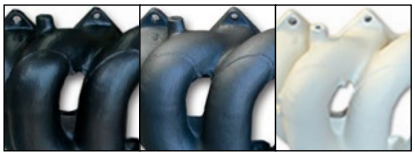
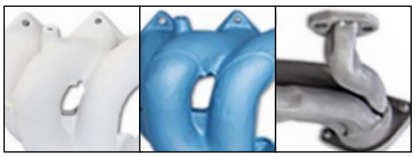
Exhaust Components

XTC primer 12 oz. | 12 oz. net weight can | half pint (8 oz.) | pint



02 – jet black | 05 – cast iron gray | 08 – off-white



28 – pure white | 10 – flame blue | 03 – aluminum

06 – rocket red | 07 – Pontiac metallic blue | 23 – stainless steel | 25 – charcoal metallic

Xtreme Temperature Coating

XTC is a high temperature/heat resistant coating formulated specifically to protect metal surfaces operating at temperatures from 500 to 1500 degrees F. With proper preparation, XTC provides outstanding adhesion, film integrity, weathering, and thermal shock resistance throughout this entire temperature range, and is guaranteed not to burn off! Available in your choice of a wide variety of colors and sizes.

Important: *8 oz. will coat approximately 3 sets of automotive exhaust manifolds with 2 coats or coat a set of shorty headers with 2 coats. Pints will coat a set of full size headers with 2 coats or coat a complete automotive exhaust system with 2 coats.*

Note: *When ordering, select the part number for the size of the can you need, then add the two digit numerical color code to the end of the part number to specify your desired color.*

Exhaust Components

Reduce Underhood Temperatures!

Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust insulating wrap withstands continuous heat up to 2000 degrees F, and contains no asbestos. Will not over insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec® Thermal Conduction Technology (TCT) that conducts heat across the wrap's surface. The 1/16" thick wrap is available in 1 inch or 2 inch widths in 15' or 50' rolls. Choose from off-white or graphite black.

Off-White Exhaust Wrap

TT1009	1" x 15' short roll	9.99 ea

TT1010	1" x 50' long roll	28.99 ea
TT1012	2" x 50' long roll	56.99 ea

Graphite Black Exhaust Wrap

TT1053	1" x 15' short roll	10.99 ea
TT1054	2" x 15' short roll	15.99 ea
TT1013	1" x 50' long roll	29.99 ea
TT1014	2" x 50' long roll	48.99 ea

Reduce Underhood Temps Up to 70%!

The new quick wrap, high velocity exhaust jackets are an innovative way to insulate and block radiant heat. The jackets cover the header tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermal Conduction Technology (TCT), developed by Thermo-Tec®, and can be applied with the headers in the vehicle.

TT1016	8 cylinder	93.99 ea

This Flexible Heat Shield Clips Into Place!

The header manifold blanket provides excellent heat retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminized side facing away – offering protection from abrasion and harmful liquid spills. The header manifold blanket is available in 2 sizes: two 20" by 24" blankets for V6 and V8 applications, and one 36" by 40" blanket for straight 6 and 4 cylinder engines.

Vermiculite Coated Header Wrap

Insultherm header wrap is an extremely high temperature resistant wrap used to insulate hot gases in automotive exhausts. Manufactured from texturized fiberglass yarns that are woven into a strong, flexible wrap with vermiculite coating. Resists gasoline and engine chemicals and withstands temperatures up to 1200 degrees F (maximum continuous temperature of 1000 degrees F). Available in black or natural in 50' or 25' rolls.

Shield Plastic or Rubber Hoses and Wiring from Radiant Heat!

Thermo-Shield protects hoses and wires from radiant heat. Unprotected, rubber hoses and plastic or rubber insulated wiring can dry out, melt or crack over time. Thermo-Shield is used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. Reflects radiant heat up to 2000 degrees F. Provides a barrier against the extreme conditions that underhood components are exposed to. Wrap your fuel lines and say good-bye to vapor lock.

EZ-TCU – detail

Paddle Shifter – detail

Outlaw Shifter – detail

Features:

- TCI 6X Transmission and Bellhousing
- Flexplate
- Transmission Cooler
- Max Shift Transmission Fluid
- EZ-TCU Controller and Harness
- Handheld Programmer
- Outlaw Shifter (optional)
- Paddle Shifter (optional)
- Dipstick and Tube

6X Transmission Package

The innovative TCI 6X six-speed automatic transmission, based on the 4L80E, is designed for Mopar small block, big block and Hemi engines to handle both everyday driving and race vehicles up to 850HP. Six forward gears allow breakneck acceleration as well as fuel efficient low RPM cruising, while a handheld programmer allows shift point adjustment. Each transmission is dyno-tested and supplied with a serial numbered spec sheet with performance test scores.

Important: 4-speed automatic shifter is required for standard operation. Electronic manual shifting requires the optional paddle shifter or TCI Outlaw Shifter. Paddle shifter is designed for 5 or 6 bolt steering wheel adapters.

Note: Some modification may be required. Special order, must be prepaid. Shipped truck freight. TRUCK

Tork Master for Mild Performance SB

The Tork Master 2400 fits 1967-79 Chrysler, Dodge, Plymouth Torqueflite A727 automatic transmissions (Non-lockup) with 24 spline input and a 10" bolt circle. Don't let the exceptional value fool you into thinking Tork Master Converters are not packed with lots of quality features, making them the best value priced street performance converters money can buy. These converters perform best when paired with stock to modified engines up to 350HP/350 ft lbs of torque. The Tork Master will provide noticeably quicker launches and harder acceleration while maintaining normal daily driving qualities. The Tork Master torque converter is not recommended for big block or supercharged applications.

Tork Master™ 2400 – 2300-2500 RPM Stall Speed

MN3013	TF A727		399.99 ea

MN3011

HoleShot for SB and BB Applications

The HoleShot converter delivers a higher stall speed, providing several advantages and benefits in vehicles with modified engines. Big cams in particular tend to reduce low end power and torque. A high stall converter allows the engine to launch the vehicle at higher RPM where more torque is available. The HoleShot is designed for street and mild strip use, offering better, stronger launches. Vehicles with modified engines will also benefit from a HoleShot converter. Not recommended for use engines equipped with nitrous oxide. Stall speed listings are based on engines producing 230 ft lb of torque at 2500 RPM. More torque at 2500 RPM will give you a higher stall speed, less torque at 2500 RPM will give you a lower stall speed than the stall speed ratings indicated.

Shift Improver Kit Mopar A727/A904 Transmissions

B&M® Shift Improver kit for various 1966-76 Dodge, Plymouth, and Chrysler TF727 and TF904 transmissions. These sets recalibrates your automatic transmission for optimum performance, extended life by eliminating shift overlap and excess wear on clutches and bands due to slippage. You get two modes of performance to select from. All you need are basic tools, the included installation instructions and in the space of an afternoon you can turn your transmission into a B&M-tuned unit!

Stage 1 – Heavy-Duty
Gives firm positive shifts without loss of driver comfort for improved shifting performance in all street vehicles.

Stage 2 – Hi-Performance Street/Strip
For high-performance street use or for competitive events for the enthusiast who wants the hardest hitting, quickest possible shifts.

Transpak Mopar A727/A904 Transmissions

The B&M Transpak is the next step up from the B&M Shift Improver kit. It has all the features in the Shift Improver kit, plus it provides additional driver manual control. The B&M Transpak for Chrysler, Dodge, Plymouth A727 and A904 automatics recalibrate's your transmission for optimum performance to best suit your needs. Most stock automatic transmissions won't downshift into low gear above 15 MPH, and automatically upshift at a predetermined speed no matter what gear you're in. With the Transpak, you can downshift at any speed, and you can hold the transmission in first gear to any speed that you want!

Stage 1 – Heavy-Duty
For street rods, normal passenger vehicles and heavy-duty use. Firmer shift feel but not harsh. Improves transmission performance and life dramatically without loss of comfort. Normal automatic operation when in "Drive".

Stage 2 – Hi-Performance Street
For performance street use. Essentially the same as Heavy-Duty mode except shift is much quicker. Retains full automatic features and standard shift points with selector in "Drive".

Pour In Performance!

Trick Shift™ was originally developed by B&M for racing applications. It's become so successful that it's the most popular high-performance fluid on the street also! Not an additive, this is the best performance ATF available! Trick Shift™ is the easiest way to measurably improve the transmission performance of your vehicle. Trick Shift™ works with all automatic transmissions when a firmer shift is desired. "Pour in Performance" isn't just a catchy phrase – it's reality! It can be mixed with stock type transmission fluids, however to attain maximum improvement you should use Trick Shift™ exclusively. Ideal for towing, light trucks and RV applications as well as racing.

Important: *Not recommended for electronically controlled automatic transmissions.*

Max ATF

Max ATF is a synthetic, high-performance, automatic transmission fluid. Its low co-efficient of friction and high film strength help to dramatically reduce heat and wear. Reduces heat to extend the life of your transmission. Max ATF is fully compatible and can be mixed with other automatic transmission fluids.

A904 Flexible Transmission Dipstick

You will have flexibility with OER's transmission dipstick for Chrysler A904 transmissions. This firewall mount dipstick features a flexible stainless steel braided cable, aluminum knob, and a fill tube. Dipstick includes braided stainless outer housing and heat resistant E-Z to read flexible inner dipstick measuring cable. Inner cable is molded with appropriate trans fluid levels marked. Designed for "push-in" style transmissions. Dipstick seals with double o-rings. This is perfect for any Chrysler A904 transmission. Includes a clear plastic tube with fitting to adapt a regular transmission fluid funnel to fit the dipstick housing.

Transmission Coolers

FL600029

Transmission Fluid Cooler

Flex-a-Lite 29 row transmission fluid cooler with 10" fan (3/8" barbed bitting) - 9-5/8" x 11" x 3-1/4". Transmission fluid is designed to act as a coolant as well as a lubricant for your transmission. If the transmission fluid is allowed to get too hot, horsepower drops, varnishes form, and the oil starts to break down, which can lead to premature engine wear. Flex-a-lite heavy-duty coolers can help prevent this by keeping fluid temperatures down, helping to ensure longer life to transmissions and components, and reduce the stress created by high-performance transmissions.

Important: *Depending on application and setup, additional fittings or adapters maybe required.*

AT Aluminum Cooler

Keep your transmission temperatures down with this universal cooler from Mishimoto. Cooler temperatures means less fluid breakdown to keep your transmission working the way it should, longer. Another benefit of using this transmission cooler is that you can use any Mishimoto radiators, with or without a built in trans cooler.

MM13061	AT cooler.....	100.99 set

Transmission Oil Cooler/Filter

This automatic transmission oil cooler and filter combination assembly uses a finned aluminum heat sink design to dissipate heat in racing applications. It can also be used as an inline auxiliary cooler in conjunction with the stock cooler. It's compact one pound 3" x 12" aluminum body gives it excellent heat transfer capabilities. An internal filter with magnet traps particles over 5-microns to reduce transmission wear. Includes filter cartridge and two 1/4" NPT to 3/8" line fittings.

Automatic Shifters

Key Features:
- Unique multi-positioned trigger for user comfort in various shifter positions.
- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle and cable.
- Can be used with a reverse pattern valve body.

The Most Comfortable Shifter We Offer!

The B&M Hammer shifter may just be the most comfortably operated automatic shifter you can buy. Grab the handle of a Hammer shifter and it feels like it was molded to your hand. The unique design easily fits small to large hands and provides the appropriate wrist angle. The multi-position trigger is spoon shaped for easy finger operation in a multitude of grip positions. Ratchet shifter for A-727 and A-904 3-speed automatic transmissions.

Important: *Not for original consoles.*

223016 Hammer shifter..... 339.99 ea

Key Features:
- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle, and cable.
- Can be used with a reverse pattern valve body.

High-Performance Ratchet Action!

The MegaShifter is one of B&M's all-time classic designs due to it's timeless good looks and high-performance ratchet action. And, it's ideally suited for most popular universal applications. For 1966 and later Torqueflite A727 and A904 3-speed automatic transmissions.

Important: *Not for original consoles.*

223017 Megashifter™ shifter ..... 479.99 ea

Key Features:
- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting. You can't miss a gear.
- Neutral safety switch, back-up light switch, lighted gear indicator, chrome knob and cable.
- Can be used with a reverse pattern valve body.

Classic Style and Stout Performance!

You want style and stout performance wrapped up in a classic package? The B&M QuickSilver shifter is your answer! This top of the line ratchet action shifter provides performance shifting without a trigger. To get into park or reverse from drive, just lift the knob/stick assembly and move it forward into position! And it's cable operated for easy installation and precise shifting. For 1966 and later Torqueflite A-727 and A-904 3-speed automatic transmissions.

Important: *Not for original consoles.*

223018 QuickSilver shifter..... 439.99 ea

Key Features:
- Base can be trimmed to custom fit any floor.
- Neutral safety switch, back-up light switch, lighted gear indicator, black T-handle and cable.

The Perfect Shifter for Your Daily Driver!

The Sport Shifter may be a low cost alternative to B&M's top of the line MegaShifter but it performs as if it was twice the price! The Sport Shifter™ is not a ratchet shifter and not intended for racing applications, but it makes a perfect addition to any street machine – making daily driving something to look forward to. Utilizing a simple detent action between first, second, high, and neutral, it features a lighted gear indicator, black plastic T-handle, neutral safety switch, back-up light switch, and flat aluminum stick. For 1966 and later Torqueflite A-727 and A-904 3-speed automatic transmissions.

Important: *Not for original consoles.*

223019 Sport Shifter shifter ..... 329.99 ea

Key Features:
- Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch and polished aluminum T-handle and cable.

Straight Line Detent Shifter

The B&M StarShifter is one versatile 3-speed automatic shifter wrapped up in a clean, timelessly styled package! In the normal mode the StarShifter is a straight line detent shifter. When the lever is in low, lift the trigger all the way and pull the stick back to convert to ratchet action. Move the stick forward for the 1-2 and 2-3 shifts. Cannot be used with reverse pattern valve body. For 1966 and later Torqueflite A-727 and A-904 automatic transmissions.

Important: *Not for original consoles.*

223020 StarShifter shifter..... 309.99 ea

Key Features:
- Base can be trimmed to custom NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, black T-handle and cable.

More Bang for the Buck!

The B&M Z-Gate shifter combines classic styling, performance and a popular price. If you're building a project on a budget, or just want to upgrade your automatic shifter, the Z-Gate is the only choice! Great for most 3-speed automatics, the patented 'Z' shaped architecture eliminates the possibility of over shifting and missing a gear. Even more, this easy to operate shifter has many of the features found in our top of the line units, and it includes a T-handle and T-trigger so you get the most bang for your buck! For 1966 and later Torqueflite A-727 and A-904 3-speed automatic transmissions.

Important: *Not for original consoles.*

Universal Pistol Grip Shifter Handle

Need a serious grip for power shifts? Wrap your hand around the Hurst pistol grip shifter handle! It's designed to provide a firm, natural grip to help prevent missed shifts. Manufactured from aluminum featuring the Hurst name embossed on both sides. Available with a 12 Volt 10 amp normally open switch to operate roll control, nitrous, or other accessories. Choose from natural and black anodized finishes. The handle has a 16mm-1.50 internal thread and includes jam nuts as well as the following SAE and Metric adapters: 3/8"-16, 1/2"-20, 10mm-1.25, 10mm-1.50, 12mm-1.25, and 12mm-1.75.

1966-76 TKX Quick Launch 5-Speed Transmission Conversion Set

American Powertrain ProFit conversion combo sets include the components required to convert your vehicles manual driveline to a modern Tremec TKX 5-speed manual overdrive transmission. Specially prepped case mods for easier fit for your model, each combo include a TKX 5-speed transmission rated at 600 ft lbs, shifter mechanism, bolt-in crossmember, driveshaft slip yoke, speedometer solution (mechanical or electronic), transmission mount, conversion pilot/release bearings, weather seal reverse light harness, hardware, and instructions. Compatible with OE console or non-console applications.

Important: *Requires engine specific bellhousing and 26 spline clutch disc. Some models require tunnel and torsion bar support modifications for proper installation.*

Note: *Transmission set contents vary by model. Special order, must be prepaid. Shipped overweight. Photos for illustration purposes only. *Not compatible with bench seat.*

Billet Steel Flywheel

McLeod steel flywheels are ideal for street applications where easy stoplight acceleration is desired. The mass of these steel units are perfect for helping to launch a heavy car with a smaller engine. Flywheels come balanced and SFI approved, to ensure consistent performance and maximum clutch life. Flywheels are designed for internal balanced engines, but can be counter balanced with counter weight kit sold separately.

*Note: *Flywheels use Bendix type starters.*

Billet Steel Flywheel

RAM billet steel flywheel is recommended as a replacement for factory cast flywheels in high-performance and racing vehicles. Cast flywheels are not explosion proof and can be dangerous when used in high-performance applications at higher RPMs. RAM billet steel flywheels are CNC-machined from certified materials and exceed SFI specifications. After machining, the flywheels are blanchard ground parallel to the crankshaft mounting surface ensuring minimum run out and the optimum mating surface for the variety of friction materials they offer. Use steel flywheels in heavier drag race models or for the best drivability in street driven vehicles.

1965-78 Aluminum Flywheel

Get faster throttle response, quicker acceleration, and smoother shifting with a Fidanza billet aluminum flywheel! Fidanza billet aluminum flywheels are CNC-machined from the highest quality 6061-T6 aluminum to deliver optimum tensile strength, heat dissipation and weight reduction. The replaceable friction surface is made from 1050 steel and attached with military grade aerospace fasteners for smooth engagement and durability. Fidanza billet aluminum flywheels also feature a 1050 heat treated steel ring gear that's pressed on and secured with Grade 8 button screws.

Universal Battery Cables

BC900701

Underhood or trunk mount battery cable sets. Each cable is 1 gauge and features lead die-cast top post terminals with a steel ring insert. This feature prevents cracking or breaking the terminal due to tightening. Each version comes in either top post or side post sets. Trunk mount sets measure 18' while underhood sets measure 6' in length. Negative cables feature pre-assembled 36" long 6 gauge secondary lead. Each set includes: crimping tool, extra lugs, and shrink tubing.

Service Replacement Battery Cable

Having electrical issues? You may be shocked to realize that the problem may not be your battery or alternator, but rather your battery cables. Though these cables may not be cosmetically correct for your vehicle, they will fit and function correctly on a variety of applications. All cables are 4 gauge, stranded copper wire and are equipped with an accessory lead wire. Battery clamp bolt and nut are included.

Cell Saver Battery Insulation Kit

DEI cell saver battery insulation kit is designed to solve the problem of heat soak into batteries preventing premature failure due to heat. Batteries are very susceptible to heat and vibration that could cause premature failure and hazardous leaks. Cell Saver is very capable of damping vibration and will absorb and neutralize any damaging leaky battery acids. Cell Saver is easy-to-install and excess material can be trimmed to accommodate batteries of most sizes and shapes.

Quick-Disconnect Battery Terminal

This brass, quick-disconnect battery terminal isolates the vehicle's battery, allowing the clock, radio etc., to remain functional when combined with a fused bypass. Designed for both round and square battery lugs.

W203507 ..... 6.99 ea

Master Disconnect Battery Switch

Taylor's 2 post battery disconnect switch completely shuts off all of the current from the battery in the event of a accident or electrical short. The 2 post switch is rated at 180 amps continuous capacity and is especially useful when charging the battery. Includes vinyl on/off decal.

Note: *The NHRA requires a master battery disconnect switch on all modified and super stock class vehicles to comply with their rule 8:4.*

TP1032	180 amps	44.99 ea

W203047 T4988

Battery Cutout Switch

Make sure your battery maintains the precious power you need by disconnecting the battery from the vehicle during storage. Your choice of an inexpensive standard duty cutout or a heavy-duty unit. Works on any 12 Volt system or vehicle. Splices into positive battery cable to provide a switch for turning power on or off.

W203047	standard duty	34.99 ea
T4988	heavy-duty	104.99 ea

Disconnect Position Ring

For disconnect switches to identify the correct position of the switch (ON or OFF). Eliminates the question of which direction is the safe one.

BC900705 ..... 5.99 ea

W20314

Water Resistant Master Switch

This water resistant master switch is rated to 100 amps continuous, 1000 amps surge at 12 Volts, and 50 amps surge at 24 Volts. 2-1/4" dia. x 2-1/2" deep and 1-1/4" deep behind panel. Features two 3/16" dia. mounting holes. Includes 2 keys and a water resistant cover.

T70781

Battery Topper

Now you can turn any modern style battery into a vintage looking one by adding one of these battery toppers featuring correct special grain just as original. Battery toppers are designed to be used with any maintenance-free flat top battery, and will work on any 24/60 series battery as long as the post location is original.

T70781	top post	49.99 ea
T70782	side post	49.99 ea

Side Terminal Battery Wrench

Make life easier with this reverse able ratchet. Fits standard 5/16" side mount battery bolt.

W21020	5/16"	8.99 ea

Battery Terminal Puller

This handy tool is used to remove battery terminal clamps without damage to the battery posts. By simply placing the jaws of the puller under the battery cable clamp, tighten the screw until the clamp is removed. Great for removing corroded battery terminals.

Y54000	professional level puller	23.99 ea

Battery Cable Crimping Tool

No matter what the size of your battery cable job, this is the tool that will make quick work of it. By simply selecting the proper size to match your crimp and aligning the star with the battery lug in your vise, you will gain a professionally strong and conductive crimp every time!

500665 ..... 16.99 ea

1962-74 Engine Harness

Engine wiring harness which is ready-to-install and features correct colored wires and connectors, making installation as easy as possible. Harnesses include connections for the following: temperature sending unit, oil light, coil power, horn relay, and washer pump motor. All wiring harnesses available are wrapped in non-adhesive vinyl wrap tape for an authentic factory appearance.

***Important:** *Features a connector to which federal inspectors could attach a testing device, allowing them to check the brake light warning system. For vehicles without this addition, simply tape the connector out of the way.*

T-56 Magnum All-In-One Harness

New!

7100001

The Bowler Performance All-in-One harness solution for the Tremec T-56 Magnum transmission comes equipped with all the connections pre-wired into one harness for a simple installation and ease of use. The small epoxy sealed controller is mounted to the VSS output using the existing bolt, and once the unit is powered up you will be able to connect via Bluetooth to your Apple or Android smartphone using (Bowler Transmissions) free app. The app will give you the ability to customize thew input and output settings for each feature to ensure proper operation in your vehicle. This harness eliminates the need for any additional equipment to operate the reverse lock out or generate the correct speedometer signals coming from your Tremec T-56 Magnum.

MB2444

1964-74 Under Dash Harness

Replacement under dash harness for various 1964-74 Dodge and Plymouth models. Harnesses feature correct color wires, factory style connectors and are wrapped in non-adhesive vinyl wrap tape. Under dash harnesses connect to various switches and sensors related to the dash. The harness also connects to the engine harness and runs down the side cowl panel and connects to the rear body harness.

Important: *When ordering a new wiring harness, inspect the original harness on the vehicle. Chrysler often added separate wire assemblies depending on the vehicle's final configuration. Many of these separate harnesses are not available and if needed they will have to be reused. Owners of early 1972 models that do not have the seat belt warning system should disregard the connector and tape it off out of the way.*

1962-74 Front Light Harness

Front light harness for 1962-74 Dodge and Plymouth models. Front light harnesses are for vehicles that required a separate engine harness. Each harness features correct color wires, factory style connectors and is wrapped in non-adhesive vinyl wrap tape. Harnesses attach to the firewall as original. The firewall connectors will vary depending by model as some models use a single style plug while others use two.

1967-72 Back-Up Lamp MT Harness

MD4522

Back-up lamp harness for 1967-72 A, B, & E-Body models. The back-up lamp harness connects the bulkhead to the transmission back-up switch. Other connections may vary depending on your particular model. Harness does not fit any Hemi model. Hemi back-up lamp harness is incorporated into the positive battery cable. Back-up lamp harness is for manual transmissions only. Neutral safety switch incorporates the back-up lamp feature.

*Note: *Models built late 1968 and early 1969 before November 15,1968. **Models built late 1969 after November 15,1968. ***Models without NOX emission controls.*

1968-74 Back-Up Lamp/Neutral Safety Switch Harness

MD4515

Back-up lamp/neutral safety switch harness for 1968-74 A, B, & E-Body models with automatic transmission and 1968-74 B & E-Body models with clutch safety switch. The back-up lamp/ neutral safety switch harness connects the back-up lamp/ neutral safety switch to the bulkhead connector. The 1968 B-Body has a wire connecting the neutral safety switch to the starter relay. The clutch safety switch lead wire connects the clutch switch on the pedal to the starter relay. Harness will not fit any Hemi model.

1964-74 Rear Lamp Harness

MB2482

Replacement rear body lamp harness for various 1964-74 Dodge and Plymouth models. The rear lamp harness powers all accessories on the rear end of the vehicle and connects to the under dash harness. These harnesses feature correct color wires, factory style connectors and are wrapped in non-adhesive vinyl wrap tape.

Important: **Except Charger and convertible models. None of these harnesses will fit station wagon models.*

Aftermarket Halogen Headlamp Harness

Some factory headlamp wiring is not designed to handle high power Halogen headlamps, especially when upgrading to a higher wattage. Our headlamp harnesses draw power directly from the battery, through a relay, to the headlamps, providing full power to your H4 conversion headlamps or Halogen sealed beams. They are made with TXL high temp wire, weather resistant 30 amp fuse, and two 40 amp weather resistant relays capable of handling up to 150 watts. #30816 is for vehicles with a 2 headlamp system using dual filament sealed beams or H4 headlamp conversions. 30817 is for vehicles with a 9005 and 9006 bulb on each side.

1970-71 E-Body Overhead Console Harness

ME8105

Overhead console wiring harness and extensions for 1970-71 E-Body models equipped with overhead console. The console to body harness needs three other harness extensions to operate all overhead console functions. You will need the console to fuel relay extension which connects the overhead console to the low fuel relay harness. The low fuel relay harness connects the dash harness with the fuel relay extension. Then the door ajar switch extension connects the right door ajar switch to the body harness and completes the overhead console wiring.

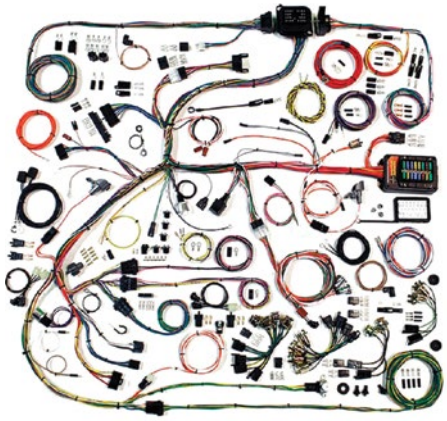
Universal Wiring Harnesses

American Autowire Classic Update

Classic Update kits are designed for projects that require more circuits than would have been available in an original chassis harness. Each kit includes all the basics needed to rewire a vehicle from headlight to taillight, and will accommodate popular add-on items such as electronic fuel injection, aftermarket gauges and common supporting modifications.



MB51634

1967-75 A, B, & E-Body Classic Update Wiring Harness

Classic Update wiring harness for 1967-75 A, B, & E-Body models. These complete car wiring harness systems not only allow you to power your essentials, but also add accessories such as aftermarket air conditioning or power windows. The main harness includes turn signal and hazard flashers mounted on the ATO style fuse panel, which installs in the factory location (minor firewall modification required), original switch connector bodies, steering column connector, under dash courtesy lamps, an instrument cluster harness disconnect, a rear body harness, and a new floor mounted dimmer switch. A bulkhead connector is used to connect the engine and front light wiring harness for easy installation. The engine harness includes connectors for original points type distributors, OE style starter relay connection, tach, and ignition leads, and is supplied with high powered 1 wire alternator connection. The front light harness includes extra long leads to allow for custom routing. Includes original style lamp bulb sockets, connectors, and terminals. Also includes full color diagrams and instructions.

Note: *This system is intended for use on customized vehicles. Does not support factory ammeter. Requires one wire alternator. Must use original or reproduction dash switches. Use of original AC will require original AC harness.*

RON FRANCIS Wiring

- 18 Circuits on 16 Fuses
- 4 Select-A-Circuits
- Handles 100 Amp Alternators
- Includes the Proper Connectors and Terminals
- Clear, Simple, Color Coded Instructions
- Clear Coated, Polished Stainless Steel Finish
- Faster Installation with New Style Terminal Block
- Cooling Fan Relay Included
- Serial Number

1961-75 A, B, & E-Body Express Wiring Harness

This express wiring harness for one wire alternator applications has been improved over previous models to simplify installation. Kit includes: a headlight switch, isolated cooling fan relay, and wiring for high and low beams, indicator lights, brake, turn signal, parking, and third brake light. It will accommodate points, aftermarket and electronic (factory or dealer supplied) distributors, and can be connected to the Chrysler starter relay for use of the factory transmission mounted neutral safety switch. A multi-connection battery junction block reduces the number of wires needed for add-ons. Our printed and color coded high temperature fire resistant wiring is supplied for all circuits, including for the lighting needed for most safety inspections, and features a unique serial number. Applications available for 1961-75 Challenger, Barracuda, Satellite, Challenger, Charger, Dart, Coronet.

RON FRANCIS Wiring

Timed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

Note: *Not compatible with probe style fan sensor controls that mount on the radiator or radiator support.*

Mopar Bare Bonz Wiring Set

Mopar Powered Rodders with the need for only a simple electrical system will love this model. We don't use an old GM fuse block and call it universal. We do it right. This set has 8 fuses and 10 circuits and plenty of wire needed to take care of your basic engine, dash and lighting, gauges, and some accessories yet built well enough to be compatible with electronic fuel injection. This panel measures: 7-1/2" x 3-1/8" x 2-7/8".

RON FRANCIS Wiring

Mopar Access 24/7 Wiring Set

This fuse system comes standard with 24 fuses and 3 relays, along with a unique mounting system and room for 4 additional relays. The Access 24/7 allows you to consolidate even additional aftermarket products' relays to clean up the under dash area. Fuse panel can be conveniently placed under the dashboard for easy servicing or maintenance. Additional wires simply plug into labeled connectors in the fuse panel. No hard wiring is necessary to add accessories or other circuits to the fuse panel.

Universal Wiring Harnesses

Universal Chassis Wiring Harnesses ⚠

Starting from a blank slate is a daunting task, especially with wiring. Trying to keep your electrical systems running smoothly on a patchwork of old wiring can be a troubleshooting hassle and possibly even a fire hazard. Whether you are planning a series of electrical upgrades or simply need to replace aging, brittle wiring, build your electrical system on a fresh foundation with a quality universal harness. For basic builds, start with a simple kit with wiring provisions for all lamps, horn, fan, wiper, gauges, and all lamps. For more elaborate builds, choose from a selection of advanced wiring solutions. Need to integrate your aftermarket air conditioning? Need extra circuits for a multitude of electronic accessories? With Classic Industries®, there's no limit to what you can do with your wiring.

PAINLESS

21-Circuit Universal Wiring Harness

This universal 21-circuit harness is configured for 1966-76 Mopar vehicles and features OEM color codes and a unique covered micro-fuse block. Harness includes an auxiliary circuit with 20 amp relay for accessories such as fog lights, electric seats, electric window/lock, or an electric fuel pump. This harness does not include that troublesome bulkhead connector that most Mopar vehicles came with throughout the 1960's and 1970's. The circuit that is known for burning up was the Ammeter circuit going through the firewall bulkhead. So, to solve this problem Painless does not support the Ammeter on these vehicle and we provide you with a 3-1/2" x 3-1/2" black powder coated plate to cover up the original bulkhead hole in the firewall.

Important: *This is for non-fuel injected motor and non-electronic transmission.*

Power Door Components

GSE2100A

12 Volt Exterior Door Handles

Elevate your vehicle's style with these electronic exterior door handles from Lokar! Each billet door handle utilizes a weatherproof 12 Volt pressure pad switch to supply power to an electronically actuated door latch (door popper). Its 2 piece design and available 0 degree or 10 degree mounting surface allows the insert to be removed, and door handle positioned for ultimate customization. The XL design provides 7/8" of clearance between the door and the switch, allowing for easier mounting and less modifications to the door. Made in the USA from 6061-T6 billet aluminum.

Important: *Requires electronic door latch actuators which are not included.*

Note: **Installation requires hand pocket for clearance.*

Shaved Doors — Emergency Entry

Installing shaved doors? You'll need a way to get into your ride if the power fails. Electric-Life billet emergency kit are just what you need. Just connect the end of the cable to the door lock, pass the cable through the door, through the post, and exit through the fender well or the floorboard. Then attach the billet pull knob and you've got a way to enter your vehicle no matter what.

EL94300 emergency entry kit..... 68.99 ea

Set Includes:
- Two 4 button keyless remotes
- Two 15 lbs actuators for the door locks
- Wire harness
- Mounting hardware
- Installation instructions

Power Door Lock Conversion Set

Looking to convert your manual door locks to a full power remote system? The combination power door lock and keyless entry system will convert your old manual locks to power, and activate them from up to 100 feet away!

PDL5120 ..... 182.99 set

Set includes:
- Two 4 button keyless remotes
- Two 15 lbs actuators for the door locks
- Trunk lock actuator
- Wire harness
- Mounting hardware
- Installation instructions

Power Door Lock and Trunk Lock Conversion Set

Convert your manual door locks and trunk release to a full power remote system. The combination power door lock and trunk release provides everything necessary to convert your manual door locks to power, plus pop your trunk. You can activate them from up to 100 feet with the same remote!

PDL5170 ..... 202.99 set

Set Includes
- Two 4 button keyless remotes
- Two 15 lbs actuators for the door locks
- 45 lb trunk lock actuator
- 120 dB 6 tone siren alarm
- Wire harness
- Mounting hardware
- Installation instructions

1958-70 Power Door Lock and Trunk Lock Conversion Set with Alarm

This power conversion system has everything! It includes all you need to add remote power door locks, remote power trunk release, and a high security alarm. This fully integrated system allows you to control door locks, trunk release and alarm, and activate them from up to 100 feet through a single 4 button remote.

RON FRANCIS Wiring

Remote Battery Disconnect

With this setup, one click of the key fob completely shuts down your vehicle's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. For even more security, the 4 channel "Safe-n-Sound" system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4 channel package can handle up to 30 amps worth of electrical equipment.

Remote Master Disconnect

We offer two Master Disconnect sets with 250 amp continuous duty solenoids designed for use with high amperage alternators. Remote master disconnect set 30204 uses a small toggle switch to activate the solenoid. This switch can be hidden anywhere in the vehicle as a theft deterrent. Master disconnect with emergency push button is perfect for drag race applications as it allows you to install a large emergency push button in easy reach if you need to shut down your vehicle's electrical system in a hurry. Remote master disconnect with mechanical latching solenoid is ideal for everyday vehicle applications and is a simple and effective antitheft deterrent. It uses a 110 amp continuous duty solenoid which is activated by an easy to hide momentary push button.

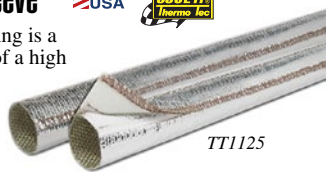
Express Sleeve



TT1125

Express sleeving is a combination of a high temperature insulation material and a highly reflective Mylar foil with a Velcro closure. The sleeving is designed to simply and effectively protect wire, hoses, and cables from harmful effects of radiant heat. Just pull apart the Velcro, wrap around the wire, and re-close the sleeve. Express Sleeves reflect over 90% of radiant heat bursts up to 2000 degrees F, and can easily withstand direct temperatures up to 750 degrees F.

Fabric Heat Shrink Tubing

Shrinkflex fabric tubing is the only product of its kind. The unique weave of poly olefin and polyester easily installs over wiring harness bundles, connectors and splices, as well as rubber hoses and plastic pipes. When heated to 176 degrees, it shrinks to 1/2 the original diameter while remaining flexible, even at high temperatures!

XT100 XT101 XT102 XT103

X-Treme Tape

X-Treme Tape was developed for the military and has some very unusual properties. The silicone based tape will stick only to itself, and only when placed under tension. Once wrapped around an object, it forms a non-conductive, air and watertight, insulating seal that remains flexible within a temperature range of -60 degrees to 500 degrees F. Insulates to 8000 Volts. Stretches to 3X's its length. Conforms to irregular shapes. When wrapped upon itself, it bonds together immediately and becomes completely fused after 24 hours at room temperature.

Firewall Wire/Tubing Boot

Firewall Rubber Boot Seal from JJ's Rods. Features a highly polished 304 stainless steel bezel and hardware and a flexible rubber boot that can accommodate wiring or tubing from 5/16" to 1" in diameter. This boot cleans up the appearance of your firewall and seals out unwanted heat, noise, and fumes from your engine compartment.

JJ005	universal	39.99 ea

Vintage Style Firewall Wire Port

Vintage style wire port allows you to pass wiring through the firewall and adds to a classic look. Cast finned cover conceals a bushing and back plate that will handle up to a 3/4" bundle of wires. Measures: 2-7/8" round, 1-7/8" tall.

Universal Wire Grommet

Sometimes you are forced to punch a hole in your firewall to get additional wires into the engine compartment, but that hole you cut is sharp and can potentially sever wires. To help prevent this, install one of these universal wire grommets. In addition to the added protection, these grommets also give the hole in the firewall a cleaner appearance.

*Note: *Can be drilled out up to a 1/4" opening.*

New! Plastic Wire Gutter

This OER® reproduction wire gutter is used to hold the engine harness as it passes against the firewall area and protects your wiring from falling into the distributor area. Each wire gutter is precut to the original length assuring originality. Also includes pre-punched mounting holes for easy installation. This extremely durable item replaces your original painted over, heat warped, or missing wire gutter.

Mopar Production Figures

The Dodge and Plymouth passenger cars manufactured by the Chrysler corporation were some of the most popular and iconic vehicles produced during the Muscle Car era as shown by the production figures listed here. In an attempt to show the number of vehicles produced during these years, we have listed the specific model figures as closely as possible. The breakdown is not specific to body style or options. Other information on specific vehicles and model years and may be found in some of the literature offered by Classic Industries® in this catalog. The information provided in the chart is believed to be correct. However, the accuracy of these figures has not been verified by the factory or any other source.

Four Ways to Order!

ORDERING BY PHONE

TOLL FREE 800•854•1280

In the continental United States, Hawaii and Alaska.
Outside the U.S. call 714.847.6887.

Mon-Fri 8:00-5:00 **Sat 10:00-3:00, P.S.T.**
(Closed Sundays and holidays)

Information you'll need when ordering by Phone:

Customer Number
Found on back cover of your catalog above your name, this number allows Classic Industries® to quickly access your information. If you do not have a customer number, a new one will be given to you when placing your order.

Billing and Shipping Address
Please have the billing and shipping address available. Credit card orders are verified by name and address before shipping. Your order can be shipped to a different address, provided the cardholder's name and address match the credit card used. You may be asked to contact your credit card company to have the shipping address added to your account.

Year and Model of Vehicle
To provide the best possible service, we may require the year and model of your vehicle. This helps verify that the parts you order are correct for your car.

Part Numbers
All Classic Industries® products are listed with a part number. If possible, please have the part numbers of the products you're ordering available before calling to make the ordering process faster and more convenient.

ON-LINE ORDERING

www.classicindustries.com

Classic Industries® offers on-line ordering directly through our website. Log on to classicindustries.com and order on-line. On-line ordering is available 24 hours a day 7 days a week for your convenience.

Service Excellence from the Restoration Leaders!

ORDER WORRY FREE WITH #1 Classic Industries

You No Longer Have To:

- ✕ Pay excessive fees to protect your merchandise
- ✕ Contact the carrier yourself
- ✕ File a damage claim yourself to have the carrier inspect the damaged items
- ✕ Send the damaged items back at your expense

With Classic Industries® the worry is eliminated!

PROCEDURE FOR RETURNING SHIPPING DAMAGES

We handle the claim so you don't have to! If any part you receive is damaged during shipping and handling, simply contact our customer service department toll-free at 800.854.1280 within two business days.

After verifying the damage, Classic Industries® will issue a pickup call tag through the carrier that shipped the products. The carrier will pickup the damaged goods from your address and return them to us at no expense to you. After the product has been inspected, our customer service department will send a replacement part.

In order to ensure replacement of damaged products, please return items in their original box and packaging. Failure to do so may result in the claim being denied. Someone must be available at the pickup address to supply the damaged products when the carrier arrives. If the carrier in unable to pickup the products for any reason, the customer may be required to return the products at their expense.

Note: Some products are excluded from damage call tag pickup. Call a customer service representative for information about products that are not eligible.

ENJOY THE BENEFITS!

Money Back Guarantee

At Classic Industries®, we take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Not all restoration parts are created equal. But at Classic Industries®, we research each and every product we sell to make sure our customers are getting the highest quality products in the market. We have decades of experience in product selection and we painstakingly scrutinize every product we offer for quality manufacturing, materials, and craftsmanship before we will offer it in any of our catalogs. Many of our employees are automotive enthusiasts themselves. In fact, many were customers prior to becoming employees, so we understand the needs of the modern classic car enthusiast. Our product procurement specialists have made it their goal to select restoration products that have been manufactured using modern technology and materials with an emphasis on originality, longevity, and attention to detail. What else would you expect from the company that started it all? Classic Industries® is the name you can trust, and we'd like for you to consider us as your partner in restoration. When a company continually offers a quality product for a reasonable price and backs up every sale with the best customer service in the industry, people come back! That's why Classic Industries® has been the leader in restoration for almost four decades. So, if you haven't already decided for yourself that Classic Industries® is the most logical choice as your restoration parts supplier, then check out our Money Back Guarantee. If for any reason you are not 100% satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit, or exchange.

- ✓ **Lowest Prices Guaranteed!**
- ✓ **The Finest Quality Reproductions!**
- ✓ **No Fault Product Protection Offer!**
- ✓ **100% Satisfaction or Your Money Back!**

Price Match Guarantee

If you find it for less we'll match the price!

Classic Industries® will match any competitors current advertised price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Important: In an effort to provide our retail customers with the most competitive pricing available, we will match our current competitor's pricing. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the "Restoration Industry". Performance parts and special orders are exempt from price matching policy. Classic Industries® reserves the right to decline price matching if pricing is deemed to be a special offer, a sale or closeout price, or a non-current price. Competitors sale pricing, inventory reductions, close outs, special promotional offers, etc. may be exempt from the "price match" guarantee. The guarantee is subject to the terms and conditions of Classic Industries® current policies.

Classic Industries® will generally contact competitors to confirm that the published price is current due to market changes, demand or availability. Price matching supersedes all other promotional offers and on sale pricing. If Classic Industries® matches a price from a competitor, additional discounts on that product or products may not apply. If the standard retail price of a product is higher than the competitor's price and an applied discount reduces the price below the competitor's pricing, the now discounted or sale pricing will prevail. We reserve the right to change or revoke this offer at any time without notice. Classic Industries® reserves the right to decline price matching.

Think Of Us As Your Partner In Restoration!

A restoration can take years! We understand the complications and problems that can occur when ordering precious parts for your project car. If you are like most people, you want perfection. The many different elements that make up a restoration isn't just limited to the parts you install. You sometimes need to rely on other outside elements such as body shops, painters, upholstery specialists and parts suppliers. That's where we come in. We offer the quality parts you want without all the guesswork. We carry one of the largest inventories of restoration products and accessories the market has to offer. What's more, you can rely on our nearly 40 years of experience to help you through the rough spots when you need it. Our tech advisors are always ready and willing to discuss any problem you may have concerning the parts for your vehicle and your restoration. Unlike other companies, we give you knowledgeable sales representatives, one of the largest inventories in the business, quick and efficient delivery, Toll Free ordering, and the experience to back it up. If you're not absolutely 100% satisfied with the products you receive. We'll refund 100% of your money! Classic Industries® – your partner in restoration!

Form of Payment

CREDIT CARDS
Classic Industries® accepts *Visa, Mastercard, American Express, Optima*, and *Discover* for your convenience. When placing your order, be sure to indicate the card holders name, address, home phone, business phone, credit card number and expiration date and billing address *(if different from person placing order)*. A security code is required for credit card purchases. Please have your credit card readily available when placing your order. Minimum order is $20.00. New or 1st time customers who are paying by credit card must have the order shipped to the cardholders billing address for the first order. Invalid or non-matching billing addresses could delay your shipment.

CERTIFIED CHECKS
Classic Industries® will accept certified checks for your mail order. Be sure to include customer number and/or reference invoice number. Contact your bank to issue a certified check in the amount due for your order. All orders paid by certified check are held up to 15 days pending clearance.

PERSONAL CHECKS
To use personal checks or business checks on prepaid orders, the name, address, and check number must be preprinted on the check. Be sure to include customer number and/or reference invoice number. Only first party checks will be accepted. All orders paid by personal check are held up to 15 days pending clearance.

MONEY ORDERS/CASHIERS CHECKS
To use money orders or cashiers checks on prepaid orders be sure to include customer number and/or reference invoice number. All orders paid by money order are held up to 15 days pending clearance. Once released the order will leave within 24 hours of clearance.

Make Personal Checks or Money Orders payable to:
Classic Industries®

PAYPAL
Classic Industries® now accepts payments via Paypal! Simply complete your order over the phone with a customer service representative, get your invoice number and then send your payment to paypal@classicindustries.com through Paypal's "Send Money" feature and select "Goods and Services" for payment reason. Be sure to include your invoice number in the "Special Instructions" tab at checkout for fastest service. Orders are generally shipped within 72 hours or less of payment receipt. Contact our customer service department for additional details.

How to Order

MAIL ORDERS
Fill out the order form located in the back section of this catalog. For quick service use your credit card, money order, or cashiers check. Personal checks are held for 15 days from date of receipt pending clearance. All mail orders must be prepaid including freight *(when applicable)*. COD orders through the mail will not be accepted. If you have any questions regarding product information or availability, contact our sales representatives during regular business hours at 800.854.1280.

ORDER BY PHONE
Classic Industries® employs knowledgeable sales representatives to assist you when placing your order. Our sales representatives are trained to answer your questions regarding restoration and the parts listed in this catalog. Call during regular business hours Mon-Fri 8:00-5:00, Sat 10:00-3:00, P.S.T. Closed Sundays and holidays. Our convenient **Toll Free** number allows you to place your order with confidence to assure you get exactly what you want when you want it! Inter-continental U.S. 800.854.1280. Outside U.S. country code + 1.714.847.6887

TOLL FREE 800•854•1280

FAX YOUR ORDER
Classic Industries® offers a convenient FAX line for customers who have access to a Fax machine. Our FAX is available 24 hours a day 7 days a week for your convenience. Fill out the order form completely and FAX your order. Within U.S. 800.300.3081. Outside U.S. country code + 1.714.848.9501

TOLL FREE 800•300•3081

ON-LINE ORDERING
Classic Industries® offers online ordering directly through our website. Log on to classicindustries.com and order online. Online ordering is available 24 hours a day 7 days a week for your convenience.

WWW.CLASSICINDUSTRIES.COM

FOREIGN ORDERS
All foreign orders must be prepaid before the products can be shipped. The Classic Industries® staff will check with the various freight companies that deliver to your country and area to determine the best possible rates available for your order. Once your order is rated, you'll be contacted by e-mail or phone to approve the rate. After approval and payment is received, the order will be shipped. The Shipping & Handling field for foreign orders will state "TBD" (To Be Determined). Rates are subject to change once the order has been packed and is ready to ship. Rates are calculated based on estimations of weight, dimensions and other factors. Should changes in freight costs occur once the order is packed and ready to ship, Classic Industries® will notify the customer immediately before the shipment is sent. If you have any questions or concerns, please direct your inquiries to info-desk@classicindustries.com.

General Information

Sales Tax Information
Classic Industries® collects and remits sales tax based on state and local requirements. The sales tax laws have changed due to a Supreme Court ruling in 2018. The appropriate sales tax will be applied to your order and remitted based on your state's requirements. If your order is shipped, or picked up in a specific state that requires sales tax, the appropriate amount will be added to your order.

Accuracy Of Descriptions
Classic Industries® makes every effort to verify the accuracy of all information published in this catalog. Each item is represented with information that is accurate to the best of our knowledge at the time the catalog is printed. Classic industries® is not responsible or liable for mistakes, print errors or inaccurate information that may lead to, or result in labor costs or damages to any vehicle under any circumstances.

Kit Products
All Classic Industries® Parts and Accessories catalogs include kits which contain a variety of products. On occasion we may run out of an item supplied with a kit. If this happens we will generally ship what is in stock and back order the item(s) which are not in stock. You may contact our sales department by phone to verify which items are not in stock at the time the order is placed. The customer may decide whether to accept the partial kit or have the entire kit back ordered until the kit is completed and all the items can be shipped at the same time. If the customer decides to accept partial delivery of the kit, then the full price of the kit will be charged to the customer and the back ordered items will be shipped no charge when they arrive at our warehouse. Customers will be charged the appropriate freight fees when applicable. Cancellation of products from a kit will be accepted at 25% below the actual current retail price of the item. On COD orders the price of the kit is charged in full and the back ordered items are shipped on a COD freight only basis.

Rights and Lefts
Some items in this catalog are presented as left or right hand products (left side – driver) (right side – passenger). LH or RH sides are determined by sitting in the vehicle, not standing in front of the vehicle.

Color Matches
Due to multiple manufacturers of products Classic Industries® provides, color variations may occur. Slight color variations are common especially amongst interior products and does not constitute a defect. These products are not eligible for return for this reason.

Pricing
Current product pricing and our pricing policy can be found by visiting our website. Prices in this catalog were in effect at the time of printing and supersede all prices in any previous publication. Classic Industries® makes every effort to honor the prices contained herein. Due to constantly changing costs in raw materials, supply chain issues, and other unforeseen circumstances, pricing on products are subject to change. We reserve the right to change prices without notice. For current pricing, please go to Classicindustries.com, or contact a Classic Industries® sales representative during normal business hours. Eligibility of products for discounts are subject to change without notice.

Trademark and Copyright
Classic Industries® Parts and Accessories catalog is copyrighted. No part of this publication including text, photos or illustrations may be reproduced without the prior written permission of Classic Industries®. The following names and/or symbols: *Mopar, Dodge, Plymouth, Barracuda, Belvedere, Coronet, Challenger, Charger, 'Cuda, Dart, Duster, Fury, GTX, Hemi, Polara, Road Runner, Six Pack, Super Bee, Scamp, Valiant* are registered trademarks of Chrysler Group, LLC and are used for reference purposes only unless specified otherwise.

Product Availability
Availability of all items in this catalog are subject to change without notice. We reserve the right to discontinue products, services or accessories without notice.

Shortages
Always check the contents of your delivery to assure all the parts ordered were received. If you are missing any item(s) be sure to check for back orders notated on your invoice before calling our customer service department *(see back orders)*. If a shortage has occurred, contact our customer service department within 2 working days of delivery to assure a prompt replacement. Classic Industries® assumes no liability after this period.

Shipping Information

ALASKA, HAWAII, GUAM & PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2-Day delivery whenever possible. All orders must be prepaid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped. Contact our sales department for exact rates.

Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

INSURANCE

Each order is charged an insurance fee of $3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will require cash only upon delivery of your order. All COD orders are shipped by FedEx. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of $11.95 per box will be added to all COD orders. Oversize and/or overweight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries® reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to $999.00. If the COD order should be returned to Classic Industries® for non-acceptance/non payment, the customer will be responsible to reimburse Classic Industries® for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned products. All outstanding charges must be paid before any additional orders will be accepted.

SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries® Showroom location. Contact our sales department for actual additional shipping fees.

Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.

EXPRESS SHIPPING

Classic Industries® offers Overnight and 2-Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Pre-payment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A $16.95 fee will be added to Overnight fees for Saturday delivery. 2-Day orders will arrive within 2 business days (pending availability). 3-Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A $9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

***Important:** Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.*

TRUCK FREIGHT

Products in this catalog that require truck freight are typically indicated with a "Truck Freight" icon. This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be prepaid, including freight charges, before the shipment can be sent. Truck freight rates may vary depending on products being ordered, fuel surcharges, and the shipping destination. Residential deliveries require an additional fee assessed by the carrier due to the additional coordination and transit outside of normal routes. Some Truck Freight shipments may require special handling (e.g., lift gate service, re-routing, additional freight charges, etc.). Acceptance of truck freight shipment, rate and applicable fees is acknowledged at time of order. For additional information visit us online at help.classicindustries.com or contact our customer service department during regular business hours.

OVERSIZE-OVERWEIGHT

These are the designations for Ground or Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (OS1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs. and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs. and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A handling fee will be added to all (OS3) orders. Overweight 1, 2, and 3 designates actual weight is less than 90 lbs. and is billed at >90 lbs. as appropriate. We reserve the right to charge Oversize and Overweight fees on any order containing oversize and overweight products, even if it is not indicated in the catalog. For additional information visit us online at help.classicindustries.com or contact our customer service department during regular business hours.

FOB WAREHOUSE – "FREE ON-BOARD"

All Classic Industries® orders are shipped based on FOB Warehouse. Unless otherwise specified, Classic Industries® is not responsible for freight charges, shipping charges, or damages once the shipment leaves our warehouse.

General Information

Back Orders

The invoice located in the packing slip of your order will notate any items that were out of stock at the time of shipping. The unavailable items will be back ordered unless otherwise specified on your order form or verbally to a sales representative when placing your order by phone. Back orders are usually shipped when the products arrive at our warehouse without prior notification. Classic Industries® will make an effort to contact the customer if the backorder is more than 90 days old. If you wish to cancel a back order, please notify our customer service department immediately. The customer will be responsible for a 25% restocking fee and freight charges if the back order is cancelled or returned after the items are shipped.

Damage Claims

Always check the contents of your shipment in the presence of the person delivering the merchandise. Should any damage occur, immediately notify Classic Industries® customer service dept. so that all steps necessary will be taken to ensure a prompt replacement of any damaged goods. Accurate instructions will be given on damaged goods replacement. Classic Industries® is not responsible if no notification is given within 2 working days of receipt of goods (excluding Sundays and Holidays). Classic Industries® will file a claim with the carrier in most cases. If the customer files a claim with the carrier, Classic Industries® will not be responsible for replacing damaged products and the customer will be responsible to pay for any replacements until the carrier pays the claim. Any replacement parts due to sales errors or customer errors in ordering will be sent using the same shipping method as the original order when possible. Please follow these instructions to avoid any problems or misunderstandings associated with damaged products and freight claims.

Refusals

All refused COD orders will be subject to a 25% restocking fee. Classic Industries® will consider the entire order cancelled and void with no notification to the customer. The customer will be billed 25% plus all freight charges to and from the destination. Contact our customer service department for more information.

Policies

All policies in Classic Industries® current catalog supersede any and all policies in any previous catalog or publication.

Sales Errors/Ordering Errors

Classic Industries® is not responsible for customer errors or employee sales errors. Every effort is made to insure that the products you are ordering are accurate. Should an error occur, we will make every effort to resolve the issue. Replacement products will be shipped the same method as the original order whenever possible. Classic Industries® assumes no responsibility or liability for damages, fees, storage charges, or any other inconvenience that may be associated with sales errors or customer ordering errors.

Returns

Products may be returned for a full refund on the product, credit or exchange within 30 days of receipt. All returns are subject to a 25% restocking fee after 30 days. Should you need to return a part for refund, exchange or credit, please contact our customer service department for a return authorization number and instructions. Classic Industries® will not accept returned goods without prior authorization. Customer will pay freight on all return orders. Allow up to 3 weeks to process refund or credit.

Important: Gift certificates have no cash value and must be redeemed for merchandise only. Literature, CDs, videos, printed materials, stencil kits, stripes, electrical parts, gauges, wiring harnesses, switches, etc. are non-returnable. All special order products must be prepaid in full and are non-returnable. No returns on partial kits or sets. There is no guarantee on moving parts such as engines, transmissions, rear ends, steering gears, water pumps, distributors, wiper motors, etc. If any product is modified, altered, painted, installed or disassembled in any way without Classic Industries® expressed written permission, the item is non-returnable. Classic Industries® always recommends professional installation on all products. Any item which has been altered, painted, installed or deemed non-resalable by Classic Industries® will be returned to the customer at the customers expense. Classic Industries® is not responsible or liable for labor fees associated with the installation, removal, modification, painting or repair of any product purchased regardless of the circumstances. Classic Industries® is not responsible for any damage or discoloration incurred in relation to chemical products being used including cleaners, waxes, polishes, paints, etc.

THE ALL NEW
www.classicindustries.com

Improved Account Management!

Managing your account couldn't be simpler! Update your information, track your orders, buildup and modify your wish list, and more, all at your convenience.

All New Shopping Experience!

Our redesigned website is much more than just a sleek new look. Improved usability and a streamlined checkout process eliminate the hassle of ordering parts for your project!

More Product Detail!

Multiple product views give you the full picture of what you're ordering. "Also Fits" information and the "Ask a Tech" feature ensure that you get the right part for your project!

Improved Product Search!

New search capabilities make it easier than ever to browse our product line! "Shop by Brand" lets you check out the latest from the names you know and the brands you trust!

Social Media Integration!

Social media updates, news, videos and articles and easily accessible right from the main page! See posts from our upcoming Classic Industries® blog site *blog.classicindustries.com!*

At A Glance!

Scroll through the most popular items Classic Industries® has to offer using our new *Most Popular*, *Top Sellers* and *Most Viewed* tabs!

SOCIAL MEDIA

Your All-Access Pass to Classic Industries®

Receive special sales codes, promotions and product updates on our Facebook, Google + and Twitter pages!

Follow us on Facebook, Google + and Twitter! Receive special sales codes, promotions and product updates. Stay informed on special events and interact with other automotive enthusiasts, staff and fans of Classic Industries®!

www.facebook.com/classicind

Cruise on over to Classic Industries' new video media website where you can access a library of *Overhaulin'*, *Chop Cut Rebuild*, and *My Classic Car* episodes, Classic Industries® television commercials and how-to videos to guide you through installation processes.

62441 (large duster)

62443 (mini duster)

Pickup Layers of Dust with One Sweep!

An easy way of keeping your vehicle clean and free of dust, looking like it was just washed. It's specially treated cotton fibers lift dust off the surface without scratching the paint, even delicate lacquers. The more you use it, the better it works! Regular use can significantly reduce the frequency of washings.
