LED False Alarm

Deter auto theft with a "flashing red LED" that gives the appearance of a sophisticated alarm system at a fraction of the cost. In minutes the battery operated Guardian 3000 can be installed anywhere on the dashboard.

G3000	19.99 ea
-------	----------

Starter-Stop Anti-Theft Device

The Starter-Stop is a low cost theft protection device that disables the vehicles ignition. This works with virtually all 12V vehicles. Simply wire it into any on/off switch in your vehicle and that will become your personal kill switch. It automatically arms when the ignition is turned off. There are no batteries to wear out, no annoying siren and no transmitters to lose.

Protection from Moisture During Storage

Sta-Dri pouches significantly reduce humidity and moisture inside of your vehicle safely and conveniently. Pouches can be regenerated up to 3 times. Use 1-2 pouches per vehicle. Depending on humidity level, one pouch can last up to a year of continuous storage, though it is recommended that you check every month and regenerate as necessary. Non-toxic and non-corrosive, remains dry to the touch even when fully saturated.

Grit Guard Wash System

This unique wash bucket provides a convenient way to store or transport all of your car cleaning supplies while doubling as an extremely effective finish protecting wash tool. The Grit Guard insert sits in the bottom of the pail to extract particles and contaminants from mitts and brushes. Gravity causes sand and dirt to settle below the guard so the wash water stays clean and scratch free.

Basic Wash System

The basic wash system includes a black pail with a yellow sealing lid and a Grit Guard insert.

Accessories for the Ultimate Car Garage!

Portable Fire Extinguisher

Amerex portable fire extinguishers have been the industry standard for more than 50 years. ABC Dry Chemical is rated to extinguish: (A) paper, wood, and textiles, (B) flammable liquids and, (C) energized electrical hazards. Purple-K dry agent is superior for flammable liquid fires over ABC units. Halotron "clean agent" units are also effective for Class B and C fires but leaves no residue after discharge.

ELEMENT

Handheld Fire Extinguishers

The Element fire extinguishers are suitable for use on small fires offering 50 or 100 seconds of fire fighting protection lasting 5-10 times longer than a 5 lb. bottle extinguisher. Their compact design has no moving parts or compressed gas to service. Its Zero Pressure Discharge will not spread oil and liquid fires and leaves no residue. All Element fire extinguishers are completely weatherproof, unaffected by extreme temperature, humidity, or vibration and can safely be stored in vehicles in hot climates.

Professional Products For The Car Enthusiast!

New!

Fantastic Finish Carnauba Pre-Softened Wax

For the enthusiast who demands the highest and wettest level of shine, our PDP PW1 Fantastic Finish Pre-Softened Carnauba Paste Wax is a premium blend of genuine carnauba wax and natural oils that makes paint "drip off of your vehicle" with a high gloss shine and shimmer that insure to impress even the toughest of critic. PW1 Fantastic Finish Pre-Softened Carnauba Paste Wax is in a class all its own: Pre-softened paste wax with no cleaners, it leaves a deep, brilliant long-lasting shine. Protects and beads up with a glass like gloss that lasts up to 6 months. Works beautifully on all colors, even on blacks, reds, and burgundies, filling in swirl marks, Super easy on and off: just wipe-on in a circular motion, and take off with a microfiber towel immediately. No need to wait for it to dry. Leaves no white haze at all - there is no white residue to clean out of the cracks, and no need to be careful around the exterior trim- it won't leave white marks.

K89623 20 oz. can 39.99 kit

Super Suds High Foaming Car Wash

This super suds thick, high foaming shampoo is formulated for extra duty cleaning. Chelating agents counteract hard water mineral deposits while foam stabilizers provide longer lasting sudsing action than regular duty shampoos. Its pH balanced to gently clean surface, but not remove existing wax or polymer coatings. Concentrated 100:1 for economy. Biodegradable. phosphate-free, NPE-free, VOC compliant.

OER® "Secret Formula" Clay Bar System

Clay pulls out all the contaminants you cannot see, but that you can definitely feel, like industrial fallout, rail dust, and brake dust. These contaminants may cause patches of paint to appear dull, even after waxing. As these contaminants oxidize, they create rust spots within the paint. Clay bar will remove these contaminants and leave the surface silky smooth with a mirrorlike smooth finish. Our clay will not break or deteriorate into small particles like inferior low quality clay bars. Acts as a magnet to foreign particles, literally pulling the paint fouling grime away from the surface of the paint. Clay lubricant is essential to the performance and safety of clay. It provides the necessary slick surface for clay to glide on.

OER® Premium Metal Polish & Sealant

OER® Extreme Shine Metal Polish & Sealant cuts through layers of dulling oxides to restore a wet mirrorlike finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on with ease, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust, or powder. Utilizing friction and heat OER® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective sealant that bonds to metal surfaces reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball.

K89483	16 oz. bottle.....	17.99 ea
--------	--------------------	----------

OER® "Secret Formula" Acryli-Shine Glaze

Glaze is a polish without any cleaning properties used primarily to improve the shine and clarity of paint. Primarily used by body shops for finishing jobs or by detail shops to bring out the brilliance of paint, glazes are also commonly used on show vehicles to achieve a "high luster or wet look". Your moldings will not turn white. Glazes do not replace polishing. If a surface has minor swirls and imperfections, to achieve the best superior results, the surface should be polished with a polish first.

Rust Treatments

KBS Rust Converter converts a rusty surface into a matte black, inert primed surface that is ready for paint and compatible with most top coats and protects against future rust. KBS Pre-Priming Etch inhibits rust and promotes paint adhesion for bare metal surfaces. OER® Convert Rust instantly neutralizes rust and converts the rusted surface, leaving a protective dark polymer coating.

DiamondFinish® Clear Coat

DiamondFinish Gloss Clear Top Coat is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal®, for top coating direct to metal, or to coat over any other paint/primer application. The clear coat formula can be applied direct to metal or over other coatings. This high gloss clear coat remains permanently flexible and is able to perform in the toughest environments without yellowing, cracking, or peeling. Apply directly to painted surfaces with minimal surface prep. Incredibly tough and hard like no other clear coat on the market. Can be applied with a brush (without leaving any brush marks), roller and conventional spray gun. Unlike two part coatings, no hardener is needed with DiamondFinish. Just stir and go. DiamondFinish clear coat will cure without heat or UV lights in temperatures from 50 to 86 degrees Fahrenheit. Able to withstand the harshest of chemicals including fuels, solvents, battery acid, brake fluid, Ethanol, Methanol, MEK, Hydrochloric Acid, fertilizers, and Acetone. Graffiti resistant: because of its chemical resistance, graffiti just won't stick and can be removed simply with a solvent soaked rag. Great for high temperature automotive applications including the use on cylinder heads, engine blocks, brake components and even inlet manifolds, without yellowing up to 300 degree Fahrenheit.

RustSeal® Corrosion Barrier Coating

RustSeal is a superior one part, ready-to-use, high-solids content, rust preventive, corrosion barrier coating. RustSeal flows out to a beautiful, rock-hard, tough ceramic-like coating that is tough to chip or scratch, and will not crack or peel. RustSeal is an incredible, single component, ready-to-use, high solids content, rust preventive coating with exceptional sealing properties. RustSeal is the most permanent cost effective solution for stopping rust and corrosion anywhere where it is a problem: home, automotive, industry, fleet, farm, and more! RustSeal is an enhancement that lasts. Water and air are locked out, therefore oxidation, the precursor to rust, cannot take hold. RustSeal is not intended for use as a final finish. After removing or treating rust on floors, subframes, or other under vehicle components, RustSeal Corrosion Barrier Coating works by isolating the surface from moisture and oxygen. This single component, high solids, rust stopping coating seals out the ultimate causes of rust, creating a rock hard non-porous barrier between the metal and rust promoting elements. Will not crack, chip, flake, or peel, and no hardeners or activators are needed. RustSeal is completely unaffected by salt, gasoline, oils, battery acids, hydraulic fluids, solvents, chemicals, or corrosives.

RustSeal® Coating

Note: add the 2 digit numerical color code to the end of the part number to specify your desired color when ordering.

BEFORE APPLICATION AFTER APPLICATION

Shared Benefits:

- Easy spray-on application
- Continuous protective moisture barrier
- Fast clean up with soap and water
- Environmentally friendly solution
- Applicable to interior or exterior of vehicle
- Non-toxic and class A fire rated
- Both are paintable
- Coverage is approximately 50 ft²/2 gallons

Sound Control Benefits:

- Provides non-combustible thermal insulation
- Able to withstand temperatures up to 500 degrees F
- Interior temperature reduced by 30 degrees F
- Offers a protective, seamless membrane

Ceramic Insulation Benefits:

- Protects surface from moisture and rust
- Dampens annoying rattles and road noise
- Impressive damping to weight ratio
- Coating can withstand temperatures up to 300 degrees F

Sound Control and Ceramic Insulation

Get the comfort of premium grade insulation without the extra weight! These environmentally safe formulas from LizardSkin can be used as a one part coating or as a two stage system for a cooler, quieter driving experience. The Sound Control formula dampens unwanted engine and road and noise, while the Ceramic Insulation formula cools your vehicle up to 30 degree F or more creating a more comfortable ride. Designed for floors, roofs, firewalls, fenders, transmission tunnels, door panels, trunks, and more, all at a combined cured weight of 52 lbs for four gallons. Insulating a vehicle has never been this easy, thanks to a custom designed application gun made specifically to handle the thick density of the coatings with ease. Order the individual components or buy a complete kit and save!

Important: For two stage applications, Sound Control coating should be used as the base. Four gallons of each coating are required to encapsulate a typical interior and trunk area of 1 vehicle, and 1 gallon of Sound Control when applied as undercoating.

OER® Aerosol Coatings

OER

OER® Premium Quality Aerosol Interior Paint

OER's revolutionary formula provides 40% more coverage than standard dyes and lacquers and actually penetrates and bonds at the molecular level to the surface to permanently seal in the color. Dries to the touch in 45 seconds and forms a complete bond in just 10 minutes. UV stable and color fast, it will not crack, flake, or peel. For use on vinyl, leather, ABS plastic, polycarbonate, polypropylene, polyurethane, acrylic, lexan, fiberglass, and recycled plastics. When only the best will do, use OER® Premium Quality Interior Paint. Available in a 16 oz. aerosol can (net wt. 12 oz.).

Note: Shipped within the continental U.S. only. Shipped ground only.

Mopar Exterior Touch Up Paint

Classic Industries® now has an answer for those annoying paint chips and scratches that always seems to appear. Manufactured from high-quality acrylic lacquer, these paints are mixed with factory formulas and designed to be the best match for the original paint on your vehicle. This paint is a single stage product, which means that no hardener is added. This gives our touch up paint an extended shelf life. Use it today, and then if you need it down the road it will still be usable. Just like the factory finish, the paint is gloss, so no clear coat is needed (unless the original paint called for a clear). Our paint is slightly thinned so you can use the included brush to touch up the problem area, or you can thin it down and spray it out of an airbrush. Paints come in a 1/2 oz. glass bottle sealed with a metal lid and foil liner, additional brush cap and a small mixing stick.

Important: Colors may not match 100% due to factors such as age, weathering, fading, lot variances, etc. Colors may have also been used by the manufacture on additional years other than what's listed below and often went by different names depending on the division in which they were used (Chrysler, Dodge, or Plymouth). Please refer to color codes when placing order. Additional colors, information and year ranges available online.

Note: Shipped ground only, no air shipments.

OER® Aerosol Coatings

OER® Rubberized Undercoating

A black, rubberized undercoating for all automobile under surfaces. Sprays evenly and dries completely to a smooth consistency. Can be top coated with any type of automotive finish. Prevents rust, reduces road noise, seals out water, fumes, road chemicals, and dust. Special formula greatly reduces lingering odor associated with most other brands of undercoating. No "bleed through" when top coated. Use on undersides of panels, hoods and deck lids, trunk interiors, section repairs, weld joints, rust holes, or on chassis parts. 20 oz. aerosol can (net wt. 18 oz.) or buy a case and save!

Note: Ships ground only. No air shipment.

OER® Professional Grade PBE Primer

OER® is pleased to offer our professional grade primers specifically formulated to meet the performance needs of body shop personnel but conveniently packaged for the automotive enthusiast. Tough and dependable, these primers adhere extremely well, prevent rust and corrosion and enhance the quality and appearance of the finished product. Large fan spray gun head gives a professional looking application. Eliminates the need for a spray gun for small repairs, reduces cleanup time.

OER® Self-Etching Sanding Primers

Manufactured with a modified acrylic resin to give you excellent adhesion to all types of metal, aluminum and prepared surfaces. Dries to the touch in 10 minutes. Dry to sand or top coat in 15 minutes. Available individually in 20 oz. (net weight 15 oz.) cans or in case of six.

K89560	gray	17.99 ea
K89561	black	17.99 ea
K89562	red oxide.....	19.99 ea

OER® High Solids Sanding Primers

A superior professional grade primer formulated with 40% solids to provide twice the coverage of conventional aerosol primers. Fewer cans needed to complete the job to save you time and money. Protects against rust and corrosion. Provides excellent adhesion with single coat hiding capability and minimum over spray. Available individually in 20 oz. (net weight 15 oz.) cans or in case of six.

Note: Shipped within the continental U.S. only. Shipped ground only.

K89575	red oxide.....	19.99 ea
K89576	gray	19.99 ea

OER® Zinc Phosphate Primers

Specially formulated primer that is chromate free and chemically bonds with iron, steel and aluminum to form a hard, highly adherent coating. It has exceptional corrosion resistance. Ideal for spot repair of damaged coatings. Exceptional protection against rust and corrosion. Compatible under two component coatings. Forms a hard, highly adherent, water resistant coating that can be painted or left as is. Dries to the touch in 10 minutes. Available individually in 20 oz. (net weight 17 oz.) cans or in case of six.

Note: Shipped within the continental U.S. only. Shipped ground only.

K89565	green.....	17.99 ea
K89566	yellow	17.99 ea

OER® Spray Galvanized Weld-Thru™ Coating

A smooth, cold galvanizing compound that chemically fuses to bare steel and forms a extremely rust resistant barrier. Perfect for application on the inside of newly installed panels where rust prevention of new metal is important, but where the part treated will not be painted. Fast dry, sag free spray that is abrasion resistant. Stops rust creepage, resists chemicals and is rust inhibitive. Apply it to sheet metal pieces before installation, then weld as usual. The coating will not affect the quality of the weld, and will retain its rust preventative properties. Available individually in 16 oz. (net weight 12 oz.) cans or in case of six.

Note: Shipped within the continental U.S. only. Shipped ground only.

Experience Spray Gun Control!

Transform your aerosol container into a versatile spray gun. Using it's unique "lock-on" device, simply snap it on and spray! You'll experience better control for applying steady even coats, easy handling and comfort, all adding up to reduced fatigue. Use with paints, lubricants, cleaners, craft sprays, and more! Universal fit for most aerosols.

OER® Aerosol Coatings

OER® Factory Wheel Coatings

OER® factory wheel coatings are available in a variety of original colors so you can achieve the correct factory look when restoring your wheels. Eliminates the need for expensive custom paint mixing and greatly simplifies the restoration process by providing spray gun results without the hassle and mess of a spray gun or the need for an air compressor.

Note: Ships ground only. No air shipment.

Argent Silver

Correct color and sheen for Mopar Rallye wheels grills and other parts where argent silver was originally utilized.

K89320 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea

Low Luster Gray

Correct color and sheen for the restoration of steel and mag wheels that call for a unique shade of gray. This gray was used on the backside and in some cases both sides of steel factory sport wheels. Can also be used on jack mechanism and jack base on some models.

K89410 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea

Charcoal Gray Metallic

Charcoal gray metallic paint for the restoration of the wheel insert area on various wheels. Correct color, tone, and luster for a factory fresh appearance.

K89330 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea

Simulated Magnesium

Correct color, sheen, and texture for the restoration of magnesium wheels.

K89315 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea

OER® Underhood Detail Paint

The perfect alternative to expensive zinc phosphate plating. A variety of choices are available to correctly refinish underhood items such as hood hinges, hood latch and safety catch, carbs, pulleys, linkage, nuts, bolts, brackets, clips, screws, and more with a durable flat or non-gloss finish that mimics the appearance of zinc phosphate plating. 16 oz. aerosol can (net weight 12 oz.).

Note: Ships ground only. No air shipment.

K89540 factory black..... 19.99 ea
K89520 dark gray..... 19.99 ea

OER® Clear Enamel

Provide extra durability and color depth on a variety of surfaces. OER® Clear Enamel will enhance the appearance of engine components, wheels, suspension components, and other painted and unpainted surfaces where a gloss clear top coat is desired. Withstands rust, gas, oil grease, salt and intermittent temperatures up to 400 degrees F. 16 oz. aerosol can (net weight 12 oz.).

Note: Ships ground only. No air shipment.

K89265 gloss clear..... 19.99 ea

OER® Metal Mimic FX Coating

OER® Metal Mimic FX high-performance coatings were developed to mimic the appearance of bare metal so that you can refinish and protect all of the components that were originally left unpainted by the factory. Items such as cast iron housings, aluminum housings, stainless steel parts, galvanized parts and even chrome can now be coated with a "factory correct" looking finish that is extremely durable and amazingly close to the original color.

Note: Ships ground only. No air shipment.

OER® Factory Black Coatings

OER® factory black coatings are available in a variety of sheen levels to help you achieve the correct factory look for your restoration. Our Ultra Flat sheen is an extremely flat non-glare finish. The next level up is our low gloss formula followed by the semi-gloss and finally our exclusive high gloss formulation. Whatever you are spraying, we have the correct sheen for an original factory black look.

Note: Ships ground only. No air shipment.

Factory Black Set

Buy the complete OER® Factory Black set and you will have all the necessary sheen levels for a correct factory look no matter what component you are spraying.

K89550 4 can set - all four sheens..... 59.99 set

Ultra Flat Factory Black

Extremely flat non-glare finish that is perfect for a variety of uses including underhood items. Provides a durable flat black zinc phosphate look without the high cost of black zinc phosphate plating.

K89540 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea
K89590 case of six cans..... 89.99 cs

Low Gloss Factory Black

A durable low gloss coating that provides a factory fresh appearance on the frame, transmission crossmember, or anywhere else a low gloss, but not quite flat black finish is desired.

K89541 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea

K89594 case of six cans..... 89.99 cs

Chassis Inspection Mark Paint

Restore the many colored factory marks found on your suspension, engine and driveline components. These marks are found on most cars, and were used for inspection, parts picking codes and alignment marks. These inspection paints are color matched to original. In many cases they're supplied with technical bulletins to help you apply them in the proper locations. Supplied in 2 oz. brush top bottles.

Firearm and Frame Marking Crayons

These are the correct "grease pencil style" crayons used for marking the factory inspection marks on your firewall, subframe, and other various sheet metal areas. Included are a yellow and a white marking crayon.

K0084 2 piece..... 8.99 pr

Frame, Engine, and Body Marker

Auto makers use these permanent markers to write codes and numbers on frames, engines and body components. Engine suffix codes were often written on the back of the cylinder heads. Job numbers were written on the firewall, frame, engine and other components to assure the correct vehicle was being built according to the build sheet. These permanent paint markers will help you exactly duplicate the factory original marks.
