## 1979-86 ABS Dash Cover

Rejuvenate the interior of your vehicle by eliminating those unsightly cracks or discolored spots on your dash. Install a dash cover to bring new life to your interior again. They are vacuum formed or molded from thick, durable ABS material, and will not crack under extreme hot or cold temperatures. Each will install over your original dash, and will not require any special tools or instrument removal to install.

**Important:** If you don't find your color listed, these dash covers can be painted to match your original interior color using the correct color OER® interior paint.

**Note:** Shipped oversize.

## 1979-04 Polycarpot Dash Protector

When your vehicle is in the sun or in extreme cold temperatures, the dash pad can become cracked, warped or faded. These dash protectors will combat the damaging effects of the sun, reduce dangerous sun glare and enhance your vehicle's interior. Produced from a 100% solution dyed polyester low pile carpet material. Each cover is contoured to the shape of the dashboard to ensure a protective fit. Available in your choice of a variety of popular colors to match or accent your interior.

## 1965-66 Direct Fit Dash Insert, 5 Gauge

Modification to an original dash can be a daunting task. AutoMeter makes it easy with a direct fit replacement dash panel. Precision engineered and machined in the USA from billet aluminum, these panels drastically simplify the process of gauge installation while providing a clean, timeless look. Fits one 3-3/8" instrument and four 2-1/16" gauges. Retains factory 1965 Pony or GT bezel or 1966 bezel.

MADE IN USA

## Hall Effect Speedometer Sending Unit

Mechanical to electric speed sensor for use with all Auto Meter electronic speedometers. This unit is not included with the speedometer when you buy an AutoMeter electronic speedometer unit, and must be purchased separately in most cases. Features pass through drive for vehicle's with cruise control.

AM5292	Ford plug-in type.....	134.99 ea
--------	------------------------	-----------

## Electric Speedometer Sending Unit

Electric speedometer sending unit is designed to work with electric, analog speedometers on Ford models. Will not work with mechanical speedometers. Not for use with cruise control.

2001001	without cruise control .....	99.99 ea
---------	------------------------------	----------

## 1987-93 Speed Sensor

Reproduction speed sensor for 1987-93 Mustang models. This direct replacement speedometer sending unit will install with no modifications and restore speedometer function.

A48005	1987-93	speed sensor.....	34.99 ea
--------	---------	-------------------	----------

# Performance Instruments

## Snap-On Speedometer Drive Converter

The Cable-X is the easy, cost efficient way to operate your stock mechanical speedometer with a transmission equipped with vehicle speed sensor for an electronic speedometer. This universal adapter will pickup the electronic speedometer signal and operate the cable driven speedometer to the corresponding speed. It's a snap to install with only three wires: hot, ground and signal. The Cable-X is a one-of-a-kind solution to your speedometer drive problem.

1860S with snap-on cable ..... 459.99 ea

## Thread-On Speedometer Drive Converter

The Cable-X is the easy, cost efficient way to operate your stock mechanical speedometer with a transmission equipped with vehicle speed sensor for an electronic speedometer. This universal adapter will pickup the electronic speedometer signal and operate the cable driven speedometer to the corresponding speed. It's a snap to install with only three wires: hot, ground and signal. The Cable-X is a one-of-a-kind solution to your speedometer drive problem.

1860T with thread-on cable ..... 459.99 ea

## GPS Speedometer Sender

New Vintage USA GPS speedometer senders are compact units that mount virtually anywhere and deliver a steady, smooth signal to any electronic programmable speedometers. So, if you need an easy way to pickup your speed signal, or have a transmission without a built-in VSS or cable output, a New Vintage USA's GPS speedometer sender may be the just the part you're looking for.

NV42181 universal..... 154.99 ea

## Sky Drive GPS Speedometer Sender

Drive your speedometer accurately and reliably with the Sky Drive GPS Speedometer sender. This device quickly calibrates and accurately drives any electronic programmable speedometer. The Sky Drive updates 10 times per second without any transmission signals, pulse generators or signal converters and features an omnidirectional antenna that can be mounted virtually anywhere and in any position. No more guessing or recalibrating due to tire or gear changes, this unit requires a one time setup and you're done.

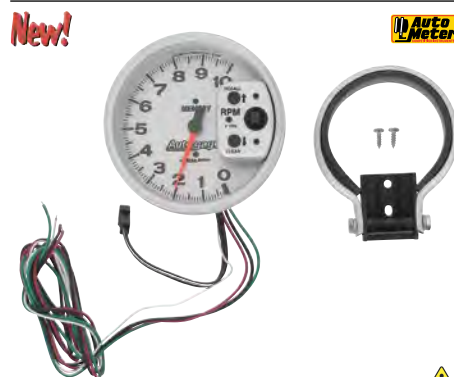

280667 GPS speedometer sender..... 162.99 ea

## Cobra Style Tachometer

Auto Meter Cobra 8000 RPM tachometer features a black dial with white numbers and increments, a white pointer, and bright silver anodized bezel. 12 and 16 Volt compatible, well-suited with nearly every street car or race car electrical system. Traditional incandescent lighting illuminates around the perimeter of the dial. Compatible with 8 cylinder engines only (4 pulses per revolution).

4" In-Dash Gauges  
AM201004 8000 RPM, V8 ..... 216.99 ea

## Monster Memory Tach — 5" Pedestal

AutoMeter 5" pedestal autogage monster memory tach 0-10,000 RPM. AutoMeter's race proven air-core electric tachometers provide quick and accurate readings with a needle so responsive it can go from 0 - full scale in 333 milliseconds. Compatible with most 4, 6, and 8 cylinder engines (2-4 pulse per revolution ignition signals) with points, electronic, and most 12V high-performance racing ignitions.

233907 silver ..... 244.99 ea

## Dixco Style Hood Tachometer

These Dixco style 8000 RPM tachometers were installed by builders for super car vehicles such as Yenko, Baldwin Motion, and Big Daddy Garlits. Fits all vehicles. This tachometer works with factory points and GM HEI distributors.

**Note:** Tachometer adapter required for aftermarket ignitions.

A9100101 all ..... 199.99 ea

## Distributorless Tach Adapter

This tach adapter is designed to adapt a standard ignition tachometer, Pro Shift light, or RPM activated module to be used with distributorless ignition systems.

AM9117 tach adapter ..... 129.99 ea

## Tachometer Signal Filter

AutoMeter tachometer signal filter. These filters are designed to correct erratic tach function by filtering out the interference or spiky pulse signals often caused by points or noisy ignition systems.

AM9116 ..... 30.99 ea

## Universal Tachometer Filter

Eliminate tach signal noise and surges caused by your ignition system with this compact and easy-to-install tachometer filter. This filter installs between the tachometer and the signal source and modifies the sharp up and down spikes into a semi-square wave signal for steady readings and faster response. This tachometer filter can be used as a direct replacement for 1975-89 GM vehicles. Measures: 2" x 3/4" x 1". Includes instructions.

**Important:** Recommended for vehicles running an HEI ignition with a tach designed for points style ignitions.

## 1965-66 Direct Fit Gauge Package

Classic Instruments direct fit 5 gauge set for 1965-66 Ford Mustang models. All gauges feature low step bezels, flat glass, and contrasting pool cue pointers, numerals, and indices. In addition to the gauges, every set includes all the sending units, harnesses, and bracketry necessary to install them into your existing bezel. The fuel level gauge is calibrated to the factory 75-10 Ohms, eliminating the need for a new sender.

## 1964-65 HDX Instruments

Ford's compact entry has been a favorite among car crafters and racers for decades, and the lightweight flyer is enjoying revival in popularity today. Use a stock or reproduction 1964-65 front bezel to put six analog readings including tachometer and twin TFT message centers in your Mustang model. Each HDX system allows the user to select independent illumination colors for the gauge readings and needles, as well as the message centers. Calibration and personal settings are manipulated with the built-in, capacitive-touch buttons, or the available Bluetooth app for Apple and Android devices. All HDX instrument systems feature dead-faced indicators (turn signals, high beam, check engine, cruise control, parking brake, plus two user-definable), and a red, settable warning light for each gauge.

## 1969-93 RTX Instruments

The RTX series is the latest from Dakota Digital, focused on retaining that stock look without sacrificing the late-model features you love. Every effort has been put forth to incorporate OEM design elements regarding the layout, face styling and indicators. With this direct-fit package bolted behind the stock bezel, driving your 1969-70 Mustang will never be the same. Full LED backlighting makes night visibility second to none, and the OEM styling will keep the vintage vibe you're going for. The TFT message centers will keep you informed of under hood happenings, and you can add the RLC clock to the passenger side for a complete upgrade.

## 1964-65 VHX Instruments

The VHX instrument package installs into the factory standard instrument bezel completely replacing the original gauges. This gauge package is designed to utilize the original style instrument bezel and lens. Modern, performance style, analog gauges monitor vital functions, while the digital message center gives more detailed information. Analog gauges include: speedometer, tachometer, water temperature, oil pressure, voltmeter, and fuel level. Using the message center readout, you also have access to: odometer, trip odometer, clock, hour meter, resettable service meter, 0-60 timer, 1/4 mile timer/speed, and high speed/RPM recall. Instruments feature fully lit needles, red, blue, or white backlit illumination. Includes necessary senders. Made in USA!

# Performance Gauges

## 1979-93 VHX Instruments

The VHX instrument package installs into the factory instrument bezel completely replacing the original gauges. This gauge package is designed to utilize the original style instrument bezel. Modern, performance style, analog gauges monitor vital functions, while the digital message center gives more detailed information. Analog gauges include: speedometer, tachometer, water temperature, oil pressure, voltmeter, and fuel level. Using the message center readout, you also have access to: odometer, trip odometer, clock, hour meter, resettable service meter, 0-60 timer, 1/4 mile timer/speed, and high speed/RPM recall. Instruments feature fully lit needles, red, blue, or white backlight illumination. Includes necessary senders. Made in USA!

## 1965-70 HDX Series Gauge Set

The new HDX series gauge sets from Dakota Digital brings you the best in modern instrumentation, rivaling what's offered in today's modern vehicles. Each HDX system is fully customizable, allowing you to personalize your instrument panel to complement nearly any vehicle theme. Each direct fit gauge package incorporates a speedometer, tachometer, fuel level, Volts, oil pressure and coolant temperature gauges, along with a digital message center. The gauges are integrated into your vehicle's systems using the supplied central control box. Includes necessary sensors. Gauge faces offered in black alloy or silver alloy and are available with either standard (MPH and Fahrenheit) or metric (KM/H and celsius) displays.

**Important:** Gauge bezel not included. Clock sold separately from gauges. Metric display (KM/H and celsius) gauge sets are custom built by Dakota Digital, and may require a 3-5 week build time.

DD15971A – gauges shown installed

DD15971B – gauges shown installed

DD15971A – rear view

- Over 30 independent RGB color options for needle and TFT Message Center.
- 12 preset color theme options or build your own.
- Wide angle color TFT LCD Message Center(s)
- Independent day/night color selections.
- Illuminated needles and LED backlighting for the numbers and tick marks.
- "Ghosted" indicators (Turn signals, high beam, check engine, cruise control engaged, parking brake, plus two that are user definable) appear only when lit.
- Bluetooth connection to tablet/smart phone. Easy to use app allows for quick setup, modifications and sensor diagnosis.
- Available for iPhone and Android systems.

## 1965-66 HDX Series Gauge Set ⚠

The HDX instrument package installs into the factory instrument bezel completely replacing the original gauges.

### HDX Gauge Sets

**Note:** Please specify option codes when ordering: 1 = standard (MPH and fahrenheit); 2 = metric (KM/H and celsius) and then either A = silver alloy face, or B = black alloy face.

**Example:** DD15971A = 1965-66 with standard display and silver alloy gauge face.

## Panel Assembly Light Dimming Switch

Enhance your digital dash panel display by adding this light dimmer to adjust the dimming feature built into your instrument system for night time driving. This aluminum knob and bezel works only with the Dakota Digital Instrument Systems on the previous page, and will not dim the Odyssey or Solarix gauges on this page. Stock dimming switches will not work with Dakota Digital Instrument Systems.

## 1979-93 Custom ABS Panels with 6 Gauges

These panels feature 3-3/8" speedometer and tachometer, and 2-1/16" oil pressure, water temperature, fuel level, and voltmeter gauges. See AutoMeter section for gauge details.

**Important:** When ordering, specify finish suffix: 1 – black, 2 – aluminum, 4 – carbon fiber.

## In-Dash Speedos and Tachs

Our In-Dash Speedometers and Tachometers feature our famous high-performance movements and are designed with seamless dashboard mount in mind for the ultimate driver information center. Available in a variety of configurations and sizes.

**Important:** Electric speedometers operate on 500-200,000 pulse/mile sending units. Use existing sender if vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 4, 6, or 8 cylinder engines with most factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an ohmmeter with the sending unit float in the empty and full position to determine the correct fuel gauge.

## 1967-78 USA-740 AM/FM Bluetooth Radio

The USA-740 offers the same classic look that Custom Autosound has always been known for with today's latest features. Now, with built-in Bluetooth (microphone included), answer calls and get Bluetooth streaming music from your Bluetooth capable phone or Bluetooth compatible device. A solid 300 watt peak power should be all the juice you need, yet the USA-740 has Hi 4 Volt, 4 channel RCA pre-outs and a subwoofer RCA pre-out for additional amplifiers. Match the dominant color of your instrument cluster with user selectable multiple LCD color choices with LCD dimmer control. The USB input allows you to plug in a USB flash drive (thumb drive) for playback of MP3/WMA/FLAC/WAV song files. A front mini jack auxiliary audio input and a rear RCA auxiliary audio input provide versatility for options like satellite radio, I-pod, or any portable player you wish to use.

## Play Portable MP3's or CD's on Your Factory Radio!

You now have the freedom to listen to your favorite music using a modern MP3 Player, iPod or CD player in your classic with the RediRad adapter, the only portable music adapter specially designed for older vehicles. The music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your stock AM or AM/FM radio without any vehicle modifications. Designed for simple and out-of-sight installation, it uses a standard audio plug on a six foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player. The radio will return to normal operation after switching off your personal player. Made in USA.

14923 RediRad adapter ..... 128.99 ea

## Bluetooth® Receiver Adapter

Now you can wirelessly stream audio and take handsfree calls from the road in your Classic Mustang! Simply plug this into your cigarette lighter, connect the cable to your radio's 3.5mm input jack, and pair your Bluetooth® enabled phone or other device... that's it! You'll be ready to wirelessly stream music from your device to your audio system. Calls and music are routed through your car's speakers for excellent sound quality. Includes Bluetooth adapter and 18" extension cable.

## The "Hot-Dot" All-in-One Ignition Switch

Convert your separate ignition switch and start button into one convenient unit with the "Hot-Dot" all-in-one ignition starter switch. Chrome recessed switch is 3/4" diameter with a colored LED ring to indicate when the ignition is "On". Push and hold the button while the starter turns over and release when the engine starts. The ignition stays "On". Push again to stop the engine. Includes installation instructions and is available with your choice of blue, green, or red LED ring. Switches also available separately. Can be used for positive or ground switching, rated 1 amp maximum load.

## 1964-69 Tilt Steering Column

These tilt steering columns include levers and knobs, wiring connectors, mounting plates, and detailed step-by-step instructions. Available in a number of finishes and configurations to fit most 1964-69 Ford Mustang models. The Ford based columns are a direct bolt-in design utilizing the stock wheel and wiring harness. The GM style column provides a modern options such as dimmer, wiper, and cruise controls. Some cutting and modification to the original steering box is required on early pre-1967 models. Your choice of unpainted steel, chrome, black powder coated steel, brushed aluminum, or polished aluminum.

**Important:** If using an OEM wheel it must be from the same year column or installation will result in damage to the turn signal switch. Dimmer, wiper and cruise control options can not be added to the Ford Style column due to the manufacturers design of the Ford style wiring harness. The 1965-66 ididit Mustang column is not compatible with the 1965-66 factory Rally-Pac gauge cluster. Column will need to be shorter if using a Borgeson power assisted box on any year Mustang.

## 1965-66 Pro-Lite

### Lightweight Performance Steering Column

Pro-Lite lightweight aluminum steering column built to fit the 1965-66 Mustang. At under 6 lbs, the Pro-Lite still packs all the features of a standard column including self-canceling turn signals, 4 way flashers, horn wiring, 3-7/8" wiring plug, and a 1" 48 lower shaft. It also collapses a full five inches for enhanced driver safety and is designed to work with most quick release steering wheel hubs. Installs easily using your original dash mount and ididit's plug-in wiring connectors. Available in a matte black microtex finish.

## 1964-70 Tilt Steering Column

These Flaming River tilt steering columns are a direct bolt-in column for 1964-69 Mustang with floor shift. Can also be used on 1970 models but ignition switch would have to be relocated. This steering column can be used with original Mustang steering wheels or aftermarket steering wheels that have the original Ford spline count and configuration. For aftermarket wheels, a steering wheel hub kit may be required. Flaming River's tilt steering column installation kit is required to install this steering column. Use part #3509B installation kit, sold separately. Made from 304 grade stainless steel and comes in your choice of paintable mill finish, black powder coated finish, or polished stainless steel.

## U-Joint with Vibration Reducer

With the more frequent use of rack and pinions and low profile performance tires, there are more road vibrations transmitted to the steering wheel than in the past. Using a Borgeson vibration reducer results in an immediate change in the steering feel and as an added benefit, this reduction in vibration has been shown to increase the overall life of the steering components

## Corso Feroce CS500 Steering Wheel ⚠

This Corso Feroce CS500 steering wheel is a stunning replica of the wood rimmed steering wheel originally equipped on 1967 Shelby GT350s and GT500s. It features a beautifully finished real solid wood rim with proper finger indents and a distinctive black band around the back surface just like the originals. The sporty 3-spoke design is brushed stainless steel with 4 chamfered holes per spoke and unique black rubber finger guards. The main hub is CNC-machined aluminum with a satin finish. Wheel is equipped with an integral mounting hub that will install on 1965-73 models. Concores correct GT350 and GT500 horn button assemblies are available separately as well as Mustang and Mach 1 horn buttons. For installation on 1968-73 models an adapter sleeve is available, sold separately. This wheel will not fit 1967 models with factory tilt or late 1967 production with 2 piece steering column that utilizes a rag joint. This wheel will fit 1970-73 models, but will not accommodate locking steering column feature.

## 1982-04 Clutch Pedal Height Adjuster Kit

These kits allow adjustment of the clutch pedal's height to suit your taste. The original placement of the clutch pedal is about 2" above the brake pedal. This makes smooth and fast driving more difficult, as your feet must find pedals that are placed at three different heights. This easy-to-install kit allows you to adjust the clutch pedal to the same height as the brake pedal, or even slightly below or above it.
