License Plate Frames

SNS135

detailed shot of mounting base and plate holder

Sto-n-Sho Quick Release License Plate Bracket

In some states a front license plate is required in order to drive on public roads. This not only takes away from the look of your vehicle, but requires unsightly holes to be drilled into the bumper. Now you can stay in compliance with state law and keep your bumper looking pristine with the Sto-n-Sho quick-release front license plate bracket. Consisting of a front license plate holder and base mounting plate, each bracket installs covertly underneath the front bumper and requires only the pull of a spring loaded pull pin to remove and to reinstall. Manufactured from 5052 and 6061 aluminum with an anodized black finish and limited lifetime warranty. Made in USA.

Important: Most applications have pre-existing holes from the factory that can be used as a mounting point. Drilling may be required to access some of these points.

Note: *Uses pre-existing holes from the factory as mounting points. No drilling required.

†Combo includes hardware for both with and without second chin spoiler, allowing you to switch between having the second factory chin spoiler on or off.
