PAINLESS

20120

1965-70 Chassis Wiring Harness

Painless Performance chassis wiring harness for 1965-70 Mustangs. This 22 circuit direct fit harness is ready-to-install right out of the box with many of the factory connector preinstalled. This harness uses our unique covered micro-fuse block. It features a modern micro fuse block with an auxiliary circuit with 20 amp relay for accessories such as fog lights, or an electric fuel pump. Each wire is custom printed with the circuit identification as well as using Ford color codes for easy installation. Kit is intended for vehicles without EFI or electronically controlled transmissions.

Important: Will not fit 1964-1/2 Mustangs

STEEDA AUTOSPORTS

Made in USA

1979-04 Adjustable Rear Sway Bar

Adding Steeda's adjustable rear sway bar is a great way to dramatically improve handling. Spring loaded end links let you fine tune the suspension to fit your driving style. Engineered to control your vehicle's roll stiffness properly while still allowing you to run softer springs which optimizes your overall grip and balance of the vehicle while still allowing you to maintain exceptional ride quality. Mounting hardware included.

Note: Does not fit 1999-04 Cobra models.

1965-73 Procar Seat Mounting Adapters

Seat adapters are designed to make the transition from original seats to Procar seats easy by replacing the original seat track. The Procar adapter attaches to the seat track sliders which are bolted on the base of the Procar seat. Once the adapters are attached to the sliders, you can bolt them to the floor. Each adapter is designed to allow the seat to be installed for each year listed.

1964-04 Replacement Oil Filters

K&N Performance Gold replacement oil filters. They feature an internal for to prevent collapse, an anti-drain back valve to eliminate dry starts, and a metal leaf spring to provide a positive seal and easy removal. The resin impregnated elements can trap contaminants as small as 10 to 20 microns while flowing up to 16 gallons per minute. Its over 550 psi hydrostatic burst strength exceeds the requirements of many high-performance engine builders and racing bodies. High-performance engines require high-performance filtration.

Get The OER® Advantage. . . It's Almost Unfair!

Authentic Quality Reproduction Parts for Classic American Muscle

ORIGINAL QUALITY • ORIGINAL APPEARANCE

Original Fit

Appearance is extremely important in reproduction parts, but just as important is the way the part fits. You will appreciate OER® reproductions. Parts are designed to fit as closely to the original as possible. Each part is checked and rechecked to ensure proper fit and function.

Superior Quality

It's one thing to manufacture a reproduction part, it's another to duplicate the quality. OER® uses the finest quality materials and workmanship to ensure the finished part meets or exceeds original equipment specifications. In fact, many OER® products are superior to the original.

Authentic Appearance

Each OER® part is manufactured to original specifications, down to the smallest detail. Consistent quality control methods ensure an exact duplicate every time.

OER® Officially Licensed Products

Many OER® products are officially licensed by the original manufacturers, assuring the highest quality reproductions available.

OER® ORIGINAL EQUIPMENT REPRODUCTION

Manufacturing Authentic Products for The Restoration Industry

Learn more about OER® online: **www.oerparts.com**

Classic Industries® Has More To Offer!

ORDER WORRY FREE #1 Classic Industries WAY WITH

Service Excellence From the Restoration Leaders!

Price Match Guarantee

If You Find a Product for Less, We'll Match the Price!

Classic Industries® will match any competitor's current advertised retail price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Money Back Guarantee

100% Satisfaction or Your Money Back!

We take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Online Instructional Videos

Visit ClassicIndustries.tv to View Our Online Video Library

Need a little guidance to help you install the restoration parts you purchased? Then cruise over to Classic Industries® new video media website, www.classicindustries.tv where you can watch a library of how-to videos created by our own expert staff, guiding you through the installation processes for upholstery, headliners and more.

Technical Support

Call 1-800-854-1280, extension 5390 for more information

Our tech representatives are ready to help you with all your restoration questions regarding parts or accessories, but we don't stop there, we can help answer questions you may have concerning the detailed areas of your restoration! Our tech representatives consist of some of the most knowledgeable restoration experts in the business. We don't claim to have all the answers but we've been doing it longer than anyone. Chances are we've heard the questions you need answered before. If nothing else, we can probably steer you in the right direction. We continually train our staff in all aspects of early and late model restoration and pass the information along to you!

California Residents - Prop 65

Prop 65 requires businesses that manufacture and/or sell products in the State of California to inform consumers which items contain chemicals known to cause cancer and/or reproductive harm.

Symbols of Quality

OER® Original Equipment Reproduction

The leader in quality reproductions is here! OER® stands for Original Equipment Reproduction®. When you see the OER® logo, you can be assured that every part is manufactured to exact factory specifications and will fit and function just like the original part. What's more, many OER® products are officially licensed and carry a full one-year warranty against defects and workmanship.

OER® Authorized Products

The OER® Authorized logo represents products that meet or exceed stringent OER® quality control standards. These items have been sanctioned and approved by OER®. Most of these products are prepackaged with the OER® Authorized logo.

OER® Premier

Count on the OER® Premier logo to denote parts that are outstanding in fit, craftsmanship, and manufacturing techniques. Each and every product displaying the Premier symbol is the best the market has to offer, and a cut above the competition. Order with confidence when you see this symbol, as OER® Premier is the true sign of originality and quality.

The Ford Licensed Parts & Original Tooling

It's the true sign of originality and quality. You can be sure that every product you receive will look and fit exactly as the original did. Parts that display these emblems are Officially Licensed by Ford or are restoration products manufactured using the original tooling. The Ford Officially Licensed Product emblem is a registered trademark of Ford Motor Company and used under license.

Classic Industries® The Restorer's Choice™

Count on the Classic Industries® Restorer's Choice™ symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. This Classic Industries® symbol is your assurance of quality.

Made in USA

Classic Industries is proud to offer American products for your American classic. Wherever you see this MADE IN USA symbol, you know you're receiving the highest quality parts, sourced from the skilled craftsmen of the United States of America.

PRODUCT EMISSIONS GUIDE

50-State Legal: These products currently have a California Air Resource Board (C.A.R.B.) Executive Order (O.E.) number. They meet the emission standard for use on pollution controlled vehicles in all of the 50 United States for the vehicles listed on the E.O.

For Racing Use Only: These products are intended to be used on vehicles that are exclusively designated for racing use only. They are not legal for use on vehicles that are registered for street use.

For Use On Pre-Pollution Controlled Vehicles (PPCV): These products are legal for use on pre-pollution controlled vehicles. They can be used on all vehicles that were manufactured before emissions control regulations were imposed. These are considered "uncontrolled vehicles".

1965 and older U.S. manufactured California Certified vehicles
1967 and older U.S. manufactured Federally Certified vehicles
1967 and older Foregin manufactured vehicles

Stock Replacement Part: These products are manufactured to exact specifications of the Original Equipment (OE) part. They must be used on the specific year, make, and model for which it is listed.

Engine Swaps: These products are intended to be used with engines that have been transplanted or swapped into an uncontrolled or pre-pollution controlled vehicle, as defined above. They are not legal for use on pollution controlled vehicles.

OER AUTHORIZED

FREE Lock Kit and Storage Bag With Car Cover Purchase A $20.00 Value!

Indoor Use
Single Layer Material

Diamond Blue™

Diamond Blue fabric

Designed for indoor use, OER®'s Diamond Blue covers are manufactured using an economical single layer non-woven material that offers excellent protection from dust and dirt penetration. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Blue offers basic protection from water and guards against damage from dust, dirt, overspray and similar environmental elements. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side of the cover to allow the use of a tie strap or lock.

Indoor/Outdoor Use
Triple Layer Material

Diamond Fleece™

Diamond Fleece fabric

Designed for indoor and occasional outdoor use, OER®'s Diamond Fleece cover is manufactured using a durable 3 layer non-woven material that provides excellent protection from dust and dirt penetration. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Fleece offers water resistance and prevents damage caused by the sun's UV rays. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side of the cover to allow the use of a tie strap or lock.

Indoor Use
Cotton Flannel Material

SoftShield™

Softshield cotton flannel fabric

gray

tan

Favored by classic car collectors that garage their vehicles, OER®'s SoftShield cotton flannel car covers pamper the vehicle's finish with a soft nap underside that protects even the most delicate surfaces. Designed exclusively for indoor use, the SoftShield cover is soft on paint while providing a barrier against dust and protection against nicks and dings while the vehicle is being stored. Each cover is sewn with double-stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Covers feature non-scratch grommets have been installed onto each side of the cover to allow the use of a tie strap or lock. Your choice of gray or tan flannel.

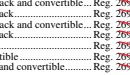
Gust Guard™ Cover Clamps



The Gust Guard™ is the easy solution for keeping your car cover in place in windy conditions! If you need to leave your vehicle covered for extended periods of time (airport, vacation, etc.) in locations where wind gust could be a problem, this set is the answer. Includes: four adjustable hem clamps, two "Quick Grip" friction locks and two 7' long white cords. These components clamp to the hem in front of the front tires and behind the rear tires. When wind gets under the car cover, the Gust Guard™ helps reduce the possibility of the cover coming loose.

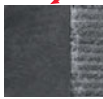
Mustang Molded Carpet Sets

A4040A – 1964-68 loop carpet medium blue (shown with optional mass backing)

Made in USA



with mass backing *without mass backing*

FAQ: What Exactly is Mass Backing?
As part of the manufacturing process, a special latex coating is thermo-bonded to the back of the carpet to substantially increase the insulating and sound deadening properties of the basic carpet set. Then 36 oz. jute padding is attached to the underside of the carpet. Mass backing is available as an option for all types of carpets.

Made in USA

A4107A41 –
medium blue carpet with black inserts

OER AUTHORIZED

A4117A02 –
black carpet with red inserts

with mass backing *without mass backing*

***FAQ:* What Exactly is Mass Backing?**
As part of the manufacturing process, a special latex coating is thermo-bonded to the back of the carpet to substantially increase the insulating and sound deadening properties of the basic carpet set. Then 36 oz. jute padding is attached to the underside of the carpet. Mass backing is available as an option for all types of carpets.

Features correct heel pad and running pony logo centered on the insert.

Interior Insulation

- #1 Rated Automotive Thermal & Sound Insulator
- Reduces Firewall/Tunnel Heat By Over 40%
- Blocks Exhaust Drones From Entering Interior
- Hushmat Ultra Bonds to Every Surface
- Creates A 10 dB Barrier to Road & Engine Noise
- Performs In Temperatures Up to 550 Degrees F
- One Step Peel and Stick Application
- Flexible in All Climates – Molds & Contours Easily

Made in USA

Ultra Insulation

Starter Set

Four 12" x 12" sheets available in either black or silver. 4.1 square feet (1.25 square meters). A starter set is perfect for single panel treatment or small jobs.

HM250 silver ..... 34.99 set
HM251 black ..... 34.99 set

Door Set

Ten 12" x 12" sheets available in either black or silver. 10.1 square feet (3.1 square meters). A door set is designed to effectively treat two doors. Treat the inside of the outer door skin, door frame and back of the door trim panel. Replace that cheap metal, rattling noise with a solid sound when you close your doors.

HM200 silver ..... 99.99 set
HM201 black ..... 99.99 set

Trunk Set

Ten 12" x 23" sheets available in either black or silver. 19.1 square feet (5.8 square meters). A trunk set is designed to effectively treat the trunk floor, spare tire well, quarter panels and rear deck of a vehicle. Helps reduce interior noise typically caused by performance exhaust systems.

HM300 silver ..... 144.99 set
HM301 black ..... 144.99 set

Floor/Firewall Set

Twenty 12" x 23" sheets available in either black or silver. 39 square feet (11.8 square meters). A Floor/Firewall set is designed to treat the firewall, floor panel and transmission tunnel. This eliminates vibration noise caused by the engine and road surfaces and reduces the heat transfer from the engine and transmission.

HM400 silver ..... 244.99 set
HM401 black ..... 244.99 set

License Plate Mat Set

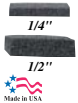
One 4" x 12" Sheet. 0.33 square feet (0.1 square meters). Designed to eliminate the nuisance rattling of your license plate due to subwoofer vibration or loose fitting frames. We also include a HushMat license plate frame in every box!

HM600 silver ..... 14.99 ea

Bulk Set

Thirty 12" x 23" sheets available in either black or silver. 58.7 square feet (17.9 square meters). A bulk set is enough to treat an entire midsize or smaller vehicle.

HM500 silver ..... 359.99 set
HM501 black ..... 359.99 set



- Absorbs High Frequency Airborne Noise
- Lightweight Synthetic Rubber Foam
- Soft, Flexible and Highly Compressible
- Moisture Repellent
- Thermal Insulation Up to 300 Degrees F
- Aggressive Adhesion
- One Step Peel and Stick Application

Made in USA

Sound Absorbing Foam

1/8" Foam

Includes: two 23" x 36" sheets of 1/8" Hushmat Silencer Megabond foam. Great for glove boxes, kick panels, or pillar trim to eliminate squeaks and rattles.

HMF01 1/8" Silencer Megabond ..... 119.99 set

1/4" Foam

Includes: two 23" x 36" sheets of 1/4" Hushmat Silencer Megabond foam. Apply directly on backs of door panels, headliners or under package trays.

HMF02 1/4" Silencer Megabond ..... 171.99 set

1/2" Foam

Includes: four 12" x 23" sheets of 1/2" Hushmat Silencer Megabond foam. Great for firewall, transmission tunnel, floor, and trunk applications. Makes an excellent replacement for traditional jute.

HMF03 1/2" Silencer Megabond ..... 154.99 set

Made in USA

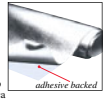
Insulating Mat

Battle excessive heat and noise that penetrate the driver compartment through the firewall and floorboards. The highly reflective mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dual density composite and is the main sound insulator. Easy to trim and can be applied with the push-in fasteners provided or any weather strip adhesive. Two sizes to fit your individual needs.

TT1005 24" x 48" ..... 31.99 ea
TT1006 48" x 48" ..... 64.99 ea

Made in USA

Adhesive Heat Barrier™



Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. Made up of woven silica with a flexible aluminized finish. The surface of the material is capable of withstanding radiant temperatures in excess of 2000 degree F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance.

TT1003 12" x 12" ..... 11.99 ea
TT1004 12" x 24" ..... 19.99 ea
TT1049 24" x 36" ..... 49.99 ea
TT1050 24" x 48" ..... 67.99 ea

Made in USA

Super Sonic Acoustical Mat

This high-quality mat offers superior sound dampening control to reduce road noise, rattles, engine noise, and any other noises that are bothersome. The high density polyethylene film with an aluminum foil composite is abrasion and tear resistant. The gray film provides structural integrity and strength, allowing the material to bend, move, and return to shape even under tension forces. The product is 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit. The rubberized compound is applied with the high temperature adhesive to absorb all those out of control noises.

TT14700 12" x 12" 2 pc 14.99 pr
TT14710 36" x 24" ..... 29.99 ea
TT14720 36" x 60" ..... 56.99 ea

Made in USA

Thermo-Guard FR

Thermo-Guard FR is a lightweight, durable shield that does everything: reduces sound, absorbs vibration, protects from radiant heat and provides an extra layer of insulated padding. The product features 100% polyester fiber felt that provides sound and comfort control and a high tech foil heat barrier that blocks more than 90% of radiant heat. Easy to apply and can be trimmed to fit anywhere. Designed to be applied with Thermo-Tec's Heavy-Duty Spray Adhesive.

TT1055 24" x 48" 1 side 19.99 ea
TT1056 48" x 72" 1 side 49.99 ea
TT1057 48" x 72" 2 side 59.99 ea

Made in USA

Suppressor Acoustical and Heat Control Mat

The Suppressor is ideal when both sound and radiant heat control is needed. In addition to the polyethylene film, the foil surface provides direct protection from radiant heat. Great for areas like firewalls, floorboards or doors. The Suppressor is also 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit.

TT14600 12" x 12" 2 pc 14.99 pr
TT14610 36" x 24" ..... 29.99 ea

Floor and Firewall Insulation

1964-93 Molded Firewall Insulator

The firewall insulator is your first defense against engine noise and heat. QuietRide Solutions molds each firewall insulator to fit engine/transmission setbacks to fit like a glove with a unique vacuum forming process. Each firewall made with high definition rubber and is digitally cut for stock hole locations. Firewall insulators are year, make and model specific and comes with the insulation preattached, ready-to-install. Mounting pins included.

1964-73 Custom Cut Interior Insulation

Dynamat Xtreme Custom Cut kits for classic Mustang. These kits contain specially designed sections of Dynamat to fit your vehicle's year and model exactly. Each piece is precision cut by CNC-machine to exact specifications for a perfect fit. That means no guesswork or cutting and you'll receive the right amount of Dynamat for a quick and easy install. Custom Cut kits feature Dynamat Xtreme material with patented elastomeric VECTOR chemistry for great sound deadening. With a .060" butyl layer and a .004" thick aluminum face, Xtreme has the highest efficiency sound deadening properties on the market and is self-adhesive.

1964-73 Under Carpet Sound Deadener

Quality carpet underlay used to eliminate noise and add padded comfort on floor carpet. This acoustic noise barrier consisting of asphaltic mastic laminated with a poly film on one side and black paper on the other. Helps protect floor pans from rust and acts as a barrier against outside heat, cold and noise. When it comes to originality, the OEM style paper reproduction is as close as you'll get! Originally, the sound deadener included a paper material attached to the rubber.

New! 1974-78 Logo Floor Mats

Classic Industries® is proud to offer custom fit mats for your Mustang II! These mats feature a premium, continuous filament two ply nylon yarn in 32 ounce per yard construction. Twice the weight and density of original equipment mats, they have dense construction and 5/16" pile height that provide impressive long wear and true comfort. The durability of the mats is enhanced by a unique multi-layer backing providing stiffness, moisture resistance and anti-skid characteristics. All mats are equipped with factory compatible anchoring devices, where applicable. After 35 years they are still the best selling custom fit logo floor mat in the industry. Sold as set of four.

Sportline RRB, RRX and RRS Racing Seats

The new Sportline series of seats by Corbeau have a look and feel that is second to none. Each seat features superior comfort, style and support, plus top of the line injection molded foam, bolsters that hold you in the right spots, and harness capability. RRB seats feature thigh bolsters that come into contact with the back of the seat. This gives you that racing bucket look of a fixed back seat, while maintaining the convenience of a reclining seat. The RRX and RRS seats feature a perfect blend of aggressive lateral bolster support but with the comfort of a daily driver. Whether you are on the street, the track, or off-road, you can't go wrong with the RRX and RRS seats. Each seat has a base height of only 2.5" between the floor and where you would sit. This is ideal for minimal headroom applications or for drivers wearing helmets. Choose between cloth, vinyl, carbon vinyl, and diamond stitched patterns. Seats will fit up to a 38" waist. Sold in pairs.

Note: Mounting brackets with seat tracks sold separately. Shipped double oversize. BS2

CB649014 – carbon vinyl w/black stitching

Sportline Evolution Racing Seat

New!

The new Sportline series of seats by Corbeau have a look and feel that is second to none. Each seat features superior comfort, style, and support, plus top of the line injection molded foam, bolsters that hold you in the right spots, and harness capability. The Evolution and Evolution X are the newest additions to the Sportline series of seats, with the Evolution being a reclining racing seat and the Evolution X being a fixed back racing seat. The fixed seat back was angled to the most comfortable degree for a daily driver and where most people would recline their seat (70 degrees). Inspired by the C5/C6 Corvette were seating options are limited due to the small cockpit area, the Evolution X was designed to be a bit narrower, allowing it to fit in smaller vehicles. Each seat has a base height of only 2.5" between the floor and where you would sit. This is ideal for minimal headroom applications or for drivers wearing helmets. Seats feature black vinyl with carbon vinyl accents and are handcrafted with your choice of red or black offset stitching. Seats will fit up to approximately a 38" waist.

Note: Mounting brackets with seat tracks sold separately. Shipped double oversize. DS2

1965-04 Seat Brackets with Sliders

New!

These custom seat brackets will make the installation of your Corbeau bucket seats a breeze. Unlike universal seat brackets that may require drilling, these brackets are designed to use the factory bucket seat mounting locations. Each bracket includes seat tracks and is available with single or double locking sliders. Single locking sliders are recommended for normal use, while the double locking sliders feature an additional locking pin, suitable for more aggressive driving or track use. Sold individually.

Important: Please add suffix to part number when placing order: A = Single Locking Tracks; B = Double Locking Tracks. Photo for representation purposes only.

1979-04 Mustang Harness Bar

New!

The Corbeau harness bar is a bolt-in solution to install 3, 4, or 5 point harnesses in your 1979-04 Mustang, all without the need of a full roll cage. Each bar mounts to your B-pillar and then connects to the horizontal bar with the supplied reinforcement tubes. This not only offers a solution for mounting the seat belts, but also increases the structural rigidity of the vehicle while using existing mounting locations. No drilling required.

Note: Does not fit convertibles.

Sportsman Pro Bucket Seats

The TIG welded steel frames and injection molded foam offer maximum durability and comfort. Features pass throughs for 5 point harnesses and large bolsters to stand up to hard cornering. A fixed headrest and a micro recliner mechanism provide maximum comfort, while a lever release allows easy access behind the seat. The new Procar Sportsman Pro XL seat has the same dimensions as the Sportsman Pro but features a redesigned bottom seat foam that is 2" wider for maximum comfort. Available in vinyl with black vinyl side trim or black vinyl with colored velour insert. Includes seat sliders. Fits left or right side. Sold as a pair. Mounting adapters sold separately.

1965-04 Seat Mounting Adapter

Seat adapters are designed to make the transition from original seats to Procar seats easy by replacing the original seat track. The Procar adapter attaches to the seat track sliders which are bolted on the base of the Procar seat. Once the adapters are attached to the sliders, you can bolt them to the floor. Each adapter is designed to allow the seat to be installed for each year listed.

1967 Deluxe/Shelby Seat Back Panels

Reproduction of the popular 1967 Deluxe/Shelby interior seat back panels. Larger than the standard seat back panel, this beautifully tooled panel wraps around the back of the seat, giving it a more substantial look. Features the correct texture grain like the original, with simulated seams and indentions for fitting the bright trim moldings (not included). Gray molded-in color, can be painted to match most any original interior color with OER® interior paints (sold separately). Requires minor prep for finishing. Sold individually.

1964-73 Standard Interior Side Panels

Our standard door panels are produced using authentic colors and correct grain vinyls, with heat sealed, embossed patterns, just like the originals. Sold as a pair, each set of standard door panels features the correct padding over a fiberboard backing with all holds die-cut in the correct locations for ease of installation. Also available, is our matching quarter trim upholstery set that includes enough vinyl material to recover both rear quarter panels. Each set installs over your original interior quarter trim panels with 3M Super Trim Adhesive, sold separately. 1964-68 upholstery comes in correct Sierra grain, while the 1969-73 upholstery comes in the original Corinthian grain vinyl.

Door Panel & Water Shield Kits

1964-70 Coupe/Fastback Door Panel and Water Shield Kit

It is recommend that when you install new door panels, you should also install new water shields. We've put a kit together with standard Mustang door panels, water shields, and the clips for installation. Included in this kit is one pair of door panels, a set of door water shields, and enough clips to install the door panels.

1969-70 Fastback Quarter Trim Panels

Reproduction rear quarter trim side panel set that attaches behind the inner quarter trim panels and includes the 2 upper trim pieces. This 4 piece set features OEM grain patterns molded into the panel as original, and fits 1969-70 Mustang fastback models. These molded black plastic panels can be prepped and painted to match your desired original interior color using our OER® interior paints, sold separately.

31112B	1969-70		269.99 set

1965-68 Convertible Quarter Interior Panel

Authentically reproduced to match the originals. We use vacuum formed ABS for a part that closely replicates the OEM piece. ABS is lightweight, and is more flexible for longer life after installation. We finish these pieces with CNC trimming to ensure a proper look and fit.

31013-C	1965-68		131.99 pr

1965-66 Convertible Quarter Trim Panel

This metal panel works with the lower interior quarter trim to complete the interior quarter trim panel. The rear window crank goes through the hole in this panel.

HK54A	1965-68	Pony interior	1.99 set

1969-70 Fastback Interior Trim Caps

Top of interior quarter panel at back lower corner of quarter window and headliner sail panel. Sold in pairs.

311A92	1969-70		11.99 pr

1969-70 Fastback Lower Pivot Rod Cover

The pivot rod on the rear quarter window passes through these, which snap into interior quarter panel. Sold in pairs.

30246A	1969-70		11.99 pr

1965-66 Fastback Rear Trim Center Cap

Reproduction of the original rear trim center cap for use on 1965-66 Mustang interiors. This stamped steel trim cap is used to attach the narrow fastback interior moldings that run along the headliner in the rear upper area where the headliner meets the window. Sold individually. Use as required.

291C12A	1965-66		8.99 ea

1974-78 Interior B-Pillar Moldings

Replacement interior B-pillar moldings for 1974-78 Mustang II models. Manufactured from fiberglass to factory specifications, each molding features a smooth gel coat finish which reduces the amount of time required to prep for paint. Sold individually. Paint to match. Made in USA.

Note: Gel coat finish will either be black or white.

1964-73 Sport 1 Piece Molded Headliner

TMI 1 piece molded headliner kit for 1964-73 Ford Mustang models. These headliner kits securely install with the existing trim and windlace already in the vehicle. No need to remove the glass and no adhesives or hardware necessary. The contoured 1 piece design is covered in a seamless original style vinyl or unisuede cloth, providing an updated stock look or a more custom appearance. Includes matching sail panels, except where noted. Made in USA.

*Note: *Sail panels not included. Shipped oversize.*

1965-68 Fiberboard Package Tray

Fiberboard package tray is just like the original with smooth on one side and rough on the reverse side. It is cut for a direct fit on top of the package shelf, behind the rear seat in your 1965-68 coupe. Paint to match.

PT1	1965-68		15.99 ea

1965-70 ABS Package Trays

Reproduction of the OEM style rear package tray molded from sturdy ABS material, this rear tray includes provisions to accommodate two 6" x 9" speakers which are tilted forward for better sound. Eliminates the need to cut metal package tray framework. Can be painted to match the interior.

1979-04 Dash Protector

When your car is in the sun or in extreme cold temperatures, the dash pad can become cracked, warped or faded. These dash protectors will combat the damaging effects of the sun, reduce dangerous sun glare and enhance your vehicle's interior. Produced from a 100% solution dyed polyester low pile carpet material. Each cover is contoured to the shape of the dashboard to ensure a protective fit. Available in your choice of a variety of popular colors to match or accent your interior.

Simply attaches to the back of your stock instrument bezel

A complete instrument package!

satin alloy or carbon fiber face styles — *blue or red backlit illumination*

Made in USA

1965-68 Dakota Digital VHX Instruments

A hot looking new performance gauge package from Dakota Digital! The VHX instrument package installs behind your factory instrument bezel and completely replaces all the original gauges. Modern performance style analog gauges monitor your Mustang's vital functions, while the digital message center gives more detailed information. Analog gauges include speedometer, tachometer, water temperature, oil pressure, voltmeter and fuel level. Using the message center readout, you also have access to: odometer, trip odometer, clock, hour meter, resettable service meter, 0-60 timer, 1/4 mile timer/speed, high speed/RPM recall. Instruments feature fully lit needles, red or blue backlit illumination. Includes necessary senders. Available for 1965-68 Mustangs with full instrumentation. Made in USA!

***Note:** This gauge package is designed to utilize your Mustang's original style instrument bezel and lens. *You can install these gauge packages behind a 1965-68 Mustang standard or deluxe instrument bezel as long as it features full instrumentation. The instrument bezel and lens combinations shown here are for illustration purposes only. Dakota Digital VHX instruments do not come with any instrument bezel or instrument lens.*

- Over 30 independent RGB color options for needle and TFT Message Center
- 12 preset color theme options or build your own
- Wide angle color TFT LCD Message Center(s)
- Independent day/night color selections
- Illuminated needles and LED backlighting for the numbers and tick marks
- "Ghosted" indicators (turn signals, high beam, check engine, cruise control engaged, parking brake, plus two that are user definable) appear only when lit.
- Bluetooth connection to tablet/smart phone
- Easy to use app allows for quick setup, modifications and sensor diagnosis
- Available for iPhone and Android systems.

1965-70 Dakota Digital HDX-Series Gauge Set

The new HDX series gauge sets from Dakota Digital brings you the best in modern instrumentation, rivaling what's offered in today's modern vehicles. Each HDX system is fully customizable, allowing you to personalize your instrument panel to complement nearly any vehicle theme. Each direct fit gauge package incorporates a speedometer, tachometer, fuel level, volts, oil pressure and coolant temperature gauges, along with a digital message center. The gauges are integrated into your vehicle's systems using the supplied central control box. Includes necessary sensors. Gauge faces offered in black alloy or silver alloy and are available with either standard (MPH and fahrenheit) or metric (KM/H and celsius) displays. *Important: Gauge bezel not included. Clock sold separately from gauges. Metric display (KM/H and celsius) gauge sets are custom built by Dakota Digital, and may require a 3-5 week build time.*

HDX Gauge Sets

Note: Please specify option codes when ordering: 1 = standard (MPH and fahrenheit); 2 = metric (KM/H and celsius) and then either A = silver alloy gauge face, or B = black alloy gauge face.
Example: DD15971A = 1965-66 with standard display and silver alloy gauge face.

1969-70 black alloy face

1969-70 shown with "Yellow Flare" color theme

HLC Clock

The HLC series clocks have a traditional analog style face with LED backlighting and lighted needles to match the HDX instrument system. They're designed to change their color theme along with the gauges and must be used with an HDX instrument system. They simply plug into one of the available network jacks on the HDX controller. *Important: Clock bezel not included. Please specify option code when placing order: A = silver alloy face; B = black alloy face.*

Ford Racing Pedestal Mount Tachometer

Ford Racing gauges feature black dials with Officially Licensed Ford Racing logos, white numbers and increments, and bright silver anodized bezels. High contrast red pointers and LED lighting make these instruments easy-to-read in all driving conditions.

*Note: *Comes with Super-Lite LED shift light.*

Chrono Series Electric Gauges

AutoMeter Chrono Series electric gauges with race proven digital stepper motor movement for unmatched accuracy. Electronic senders can be used for a variety of applications and keep unwanted fluids out of the driver compartment. The Chrono Series features a three dimensional concave dial design, "through-the-dial" LED lighting, and over 320 degrees of pointer movement. All gauges have both metric and imperial scalings and are 12 and 16 volt compatible.

In-Dash Speedos and Tachs

Our In-dash Speedometers and Tachometers feature our famous high-performance movements and are designed with seamless dashboard mount in mind for the ultimate driver information center. Available in a variety of configurations and sizes to accommodate diverse applications.

Pedestal Mount Tachometers

Mountable in every conceivable position, the versatility and durability of our Pedestal Mount Tachometers have made them a race proven favorite for over 30 years. These tachometers offer a variety of performance oriented options from shift lights to memory recall functions, coupled with a trademarked aluminum and rubber shock strap design for the best vibration protection available.

Full Sweep Mechanical Gauges

Bronze bourdon tube 270 degree sweep movements and durable nylon gearing have made these rugged and long lasting gauges a proven high-performance favorite for over 25 years. These mechanical gauges require no electrical power for operation making them an ideal choice for vehicles with no or low powered electrical systems.

Full Sweep Electric Gauges

Powered by digital microprocessor controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges are the best gauges available. They combine extreme durability and readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electrics. Track tested and race proven, these units use precision senders to keep hazardous fluids out of the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

Important: *Electric speedometers operate on 500-200,000 pulse/mile sending units. Use existing sender if vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 4, 6, or 8 cylinder engines with most factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an ohmmeter with the sending unit float in the empty and full position to determine the correct fuel gauge.*

ULTRA-LITE

ULTRA-LITE gauges feature aluminum construction that greatly reduces weight while satin anodized Super Bezels and dials with black numbering and increments. Perimeter incandescent white lighting and bright red fluorescent pointers make them easy-to-read.

Z-SERIES

Z-Series gauges feature race quality mechanisms, a black Super Bezel with black dial, white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this line easy-to-read.

PHANTOM II

Phantom II gauges feature black Super Bezels and white dials with black outlined, white numbering and black increments, "through the dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and markings).

NV

NV gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense green "full dial" patented LED lighting technology and glowing orange pointers for superior visibility.

Phantom

Phantom gauges are race quality mechanisms featuring a subtle black bezel with stark white dials, bright orange pointers and perimeter incandescent lighting that make this extensive high-performance line easy to read with a crisp, no-nonsense modern appearance.

C2

C_2 gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense blue "full dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

ULTRA-LITE II

ULTRA-LITE II gauges feature satin anodized Super Bezels and dials with black numbering and increments, white "through the dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and amber accents).

ELITE

ELITE gauges by AutoMeter are track tested and race-proven. They feature blacked out dials with 7 user selectable backlight colors. They can be programmed to change color automatically and to control various functions like lights, fans, switches, and pumps.

ES

ES gauges feature black satin Super Bezels and black dials with white numbering and increments, intense red "through the dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

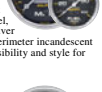
COBALT

COBALT gauges feature bright anodized Super Bezels and black dials with blue accents, white numbering and increments, cobalt blue "through the dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

Carbon Fiber

Carbon Fiber gauges give your interior the complete look of rapid acceleration even when the car isn't moving. The clean, racy look of a crisp anodized aluminum bezel, an actual carbon fiber dial face, silver pointer and yellow accents with perimeter incandescent lighting give these gauges high visibility and style for any application.

SPORT-COMP II



SPORT-COMP II gauges feature a satin anodized Super Bezels and black dials with white numbering and increments, "through the dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent from your OE dash lighting.

AMERICAN MUSCLE

The AMERICAN MUSCLE Street Rod Series features advanced hybrid dial technology combining AutoMeter's signature white Hi-Def LED illumination and fluorescent red pointers for maximum readability. The light intensity can be controlled through the optional LED Lighting Dimmer independently of your OE dash lighting (available separately).

SPORT-COMP

SPORT-COMP gauges feature the trademarked competition appearance and rugged, reliable performance of a satin anodized Super Bezel with black dials with white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this extensive high-performance line easy-to-read with a crisp, no-nonsense modern appearance.

FORD RACING

FORD RACING gauges feature black dials with Officially Licensed Ford Racing logos, white numbers and increments and bright silver anodized bezels. High contrast red pointers and LED lighting make these instruments easy-to-read in all driving conditions.

Gauge Accessories

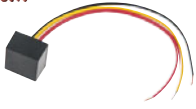
New!

Tachometer Signal Filter

AutoMeter tachometer signal filter. These filters are designed to correct erratic tach function by filtering out the interference or spiky pulse signals often caused by points or noisy ignition systems.

AM9116 ..... 24.99 ea

New!



Universal Tachometer Filter

Eliminate tach signal noise and surges caused by your ignition system with this compact and easy-to-install tachometer filter. This filter installs between the tachometer and the signal source and modifies the sharp up and down spikes into a semi-square wave signal for steady readings and faster response. This tachometer filter can be used as a direct replacement for 1975-1989 GM vehicles. Measures: 2" x 0.75" x 1". Includes instructions.

Important: *Recommended for vehicles running an HEI ignition with a tach designed for points style ignitions.*

MG0192219 ..... 34.99 ea

New!

AM2280

AM2282

Hose Adapter Kit

AutoMeter coolant hose adapter kits for mounting gauge senders or probes directly into your heater or radiator hose. Ideal for vehicles with limited access to water passage ports on the engine. They are manufactured from solid brass or aluminum with male hose barb ends for an easy and secure installation.

AM2280	5/8" brass	41.99 kit
AM2281	3/4" brass	41.99 kit
AM2282	1-1/4" aluminum	51.99 kit
AM2283	1-1/2" aluminum	51.99 kit

Distributorless Tach Adapter

This tach adapter is designed to adapt a standard ignition tachometer, Pro Shift light, or RPM activated module to be used with distributorless ignition systems.

Note: For use with distributorless ignition systems only.

AM9117 tach adapter ..... 99.99 ea

New!

Copper Tubing Set

For mechanical pressure gauges (except fuel, nitrous, or brake pressure gauges). Includes: 6 feet of 1/8" copper line, 1/8" NPT male to 1/8" compression fitting, 1/8" NPT female to 1/8" compression fitting, grommet, and 1/8" NPT to 1/4" NPT bushing.

SecretAudio Sound Systems

SecretAudio systems are an excellent choice for any project vehicle because they allow you to keep your original radio intact, or you can hide your audio system altogether! The tuner/amp unit can be hidden out of sight and controlled by either the LCD Display/Controller or a mounted LCD panel with a RF remote control. Both systems boast excellent audio features which make them an ideal choice for any street rod, classic, or custom.

Secret Audio w/LCD Display/Remote

All system functions are controlled by and shown on the rechargeable remote controller/LCD. Includes LCD holder (usage is optional) and cigarette lighter adapter for charging.

CR601 tuner w/LCD display/remote.. 411.99 set

Secret Audio w/Compact RF Remote

Features an LCD display that can be mounted virtually anywhere and controlled by the compact radio frequency (RF) remote. Includes flush mount bezel and mounting bracket for your choice of LCD display mounting.

Play Portable MP3's or CD's on Your Factory Radio!

With the RediRad adapter music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your AM or AM/FM radio without any vehicle modifications. For simple and out-of-sight installation, it uses a standard audio plug on a six foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player. The radio will return to normal operation after switching off the personal player. Preserve the original appearance and maximize the collector value of your vehicle while still listening to your tunes your way!

14923 RediRad adapter..... 99.99 ea

New!

Bluetooth Interface

Wireless interface for Custom Autosound CD controller radios (USA-630, Secretaudio (SST & SRMS), USA-66). This adapter plugs into the CD changer port of your Custom Autosound radio and gives you the ability to do handsfree calling from your Bluetooth® capable phone. Also listen to music stored on your A2DP enabled bluetooth device.

A910300 ..... 124.99 ea

New!

Bluetooth® Receiver Adapter

Now you can wirelessly stream audio and take handsfree calls from the road in your Classic Mustang! Simply plug this into your cigarette lighter, connect the cable to your radio's 3.5mm input jack, and pair your Bluetooth® enabled phone or other device... that's it! You'll be ready to wirelessly stream music from your device to your audio system. Calls and music are routed through your car's speakers for excellent sound quality. Includes Bluetooth adapter and 18" extension cable.

AR9901 Bluetooth® adapter ..... 41.99 ea

Radio Off Delay

With this new device, you can listen to your radio after you remove the key from the ignition, just like many modern luxury cars! After removing they key, this unit will keep the radio power active for 15 minutes or until a door is opened. This allows you to continue listening to the radio without leaving the electric fan or other accessories running. And you're not limited to just the radio; it could be wired to control all accessory power so you still have control of the power windows after the key is off.

OER

OER® Hide-A-Way Antenna

The product is totally self-contained using printed circuit technology and miniaturized components, coupled with high-quality manufacturing methods. You don't need an external rod, no drilling to install, no removal prior to car wash, concealed mounting prevents theft and also includes a lifetime warranty! Antenna cable measures 9 feet long. For best results mount as high as possible.

The "Hot-Dot" All-in-One Ignition Switch

Convert your separate ignition switch and start button into one convenient unit with the "Hot-Dot" all-in-one ignition starter switch. Chrome recessed switch is 3/4" diameter with a colored LED ring to indicate when the ignition is "On". Push and hold the button while the starter turns over and release when the engine starts. The ignition stays "On". Push again to stop the engine. Includes installation instructions and is available with your choice of blue, green or red LED ring. Switches available separately. Can be used for positive or ground switching, rated 1 amp maximum load.

Universal Cruise Control Units

Cruise control units to upgrade your driving experience. Available for both computerized and non-computerized engines. For computerized engines, this Rostra unit gathers information from you car's computer, so no external sensors are required. Adjustable for 2000, 4000 or 8000 pulses per mile. For non-computer engines, this Rostra electric servo unit uses solid state electronics for accuracy and reliability. Servo and control units are small enough to fit under any dash. Includes pulse generator and either a black column mounted handle or black dash mounted control.

Steering Column Parts

Made in USA

1964-69 Tilt Steering Column

These tilt steering column kits include levers and knobs, wiring connectors and mounting plates, and detailed step-by-step instructions. Available in a number of finishes and configurations to fit most 1964-69 Ford Mustang models. The Ford based kits are a direct bolt-in design utilizing the stock wheel and wiring harness. The GM style kit provides a modern options such as dimmer, wiper, and cruise controls. Some cutting and modification to the original steering box is required on early pre-1967 models. Your choice of unpainted steel, chrome, black powder coated steel, brushed aluminum or polished aluminum.

Important: If using an OEM wheel it must be from the same year column or installation will result in damage to the turn signal switch. Dimmer, wiper and cruise control options can not be added to the Ford Style column due to the manufacturers design of the Ford style wiring harness. The 1965-66 ididit Mustang column is not compatible with the 1965-66 factory Rally-Pac gauge cluster. Column will need to be shorter if using a Borgeson power assisted box on any year Mustang.

1965-66 Pro-Lite Lightweight Performance Steering Column

Pro-Lite lightweight aluminum steering column built to fit the 1965-66 Mustang. At under 6 lbs, the Pro-Lite still packs all the features of a standard column including self-canceling turn signals, 4 way flashers, horn wiring, 3-7/8" wiring plug, and a 1" 48 lower shaft. It also collapses a full five inches for enhanced driver safety and is designed to work with most quick release steering wheel hubs. Installs easily using your original dash mount and ididit's plug-in wiring connectors. Available in a matte black microtex finish.

Mustang Wood Series Steering Wheel

Forever Sharp's popular wood steering wheels offer outstanding quality and sleek designs to match your vehicle and style! Each wheel is crafted from real mahogany wood with finger grooves on the back and steel spokes finished in smooth chrome or textured black. A urethane coating has also been applied to give the wheel a longer life and improved heat resistance on hot summer days. Wheels feature a 6 hole bolt pattern with a 1.75" dish depth and are available in 14" and 15" diameters. Finishes include either a light or dark hand stained finish, or either black or gray wheels painted with high-quality automotive paint.

Important: *Steering wheels require mounting adapter and your choice of interchangeable horn button/cap. For use with 6 hole adapters and horn caps. Each sold separately.*

Note: *Please add two digit finish code to part number when ordering.*

Classic Deep Style 15" Wood Wheel

Forever Sharps' deep style, dark mahogany wood steering wheel offers outstanding quality and a classic design that was popular with muscle cars of the 1960's. Each wheel is manufactured from real mahogany wood and features aluminum rivets, brushed aluminum spokes, as well as finger indentations on the backside for comfort and grip. A urethane coating has also been applied to give the wheel a longer life and improved heat resistance for those hot summer days. Features a 3 hole bolt pattern, 15" (14.75") diameter with a 4" dish depth and decorative rivets.

Note: *For use with chrome horn button/cap FS120302 and 3 bolt mounting adapter, sold separately.*

14" Billet "Muscle" Half Wrap Series Billet Steering Wheel

Forever Sharp's popular billet "muscle" steering wheel features a interchangeable half wrap allowing you to match or change your vehicles style at any time. Half wraps are easy to install and interchangeable, mounting from the backside of the steering wheel with the five included screws. Choose between leather grain vinyl or wood half wraps made from real wood. The wood half wraps have been urethane coated to give the wheel a longer life and improved heat resistance. Each billet wheel is 14" in diameter and forged from aircraft standard 6061 aluminum. Wheels feature finger indentations on the backside, a 1.75" dish depth and 5 hole bolt pattern. Includes half wrap and billet wheel in either a polished or matte black (powder coated) finish. Replacement half wraps also available separately.

Important: Steering wheels require mounting adapter and your choice of interchangeable horn button/cap. For use with 5 hole adapters and horn caps. Each sold separately.

*Note: *Please add two digit color code to part number when ordering.*

K212 standard puller ..... 9.99 set

"No Wheel-No Steal Security System"

The world's first security system based on removing the car's aftermarket steering wheel. After years of exhausting research and development, this fully patented system has proven to be virtually foolproof and safe. It's easy-to-install and it's easy to use. You can remove and replace your aftermarket Grant steering wheel in less than 5 seconds. A patented lockout cap snaps onto the steering column to further assure the security of your vehicle. So you can simply take your wheel with you wherever you go. Unlike conventional alarms, this revolutionary accessory designed system cannot be affected by motion. Another big advantage is the fact that it doesn't rely on your battery. You can store vehicles indefinitely. And it cannot be bypassed as many of the ignition bypasses can. Can only be used with Classic Industries® walnut steering wheels (W9673162, W9673193, W9673196) and black foam padded steering wheels (W9693162, W9693193, W9693196).
Important: *Not for use on factory original steering wheels.*

Floor Console Components

CK1

1965-69 Complete Console Set

Complete console sets, ready-to-install. Add one of the most popular interior options to your 1965-69 Mustang using all-new, reproduction components. Sets include textured black console base, chrome and black pebble grain insert panel, shifter dial/bezel assembly (auto trans), ashtray, rear courtesy lamp, console and dash wiring harness, console end cap (AC only), floor bracket (non AC only), and mounting screw kit. When ordering, please specify year, transmission type and if equipped with air conditioning. Console base comes black, and can be painted to match your Mustang's interior color.

Important: *Insert trim panels and console base require trimming to size for air conditioned cars (as original). Console base will also require trimming at the floor line for convertible applications. Trimming instructions are included. Base features trim lines molded-in. Non-air conditioned console kits are shipped without map box door or door springs. Door springs and map door are available separately.*

Note: *Shipped oversize.*

FLI1901

Kit Includes:

- One 3 oz. bag of nylon fibers – your choice (black, charcoal, silver)
- One 8 oz. can of color coordinated undercoat adhesive
- One Mini Flocker – easily cleaned between color changes
- One applicator brush and instructions

Suede-Tex Nylon Flocking Kit

Suede flocking fibers can be used to create a soft, velvety surface for a variety of automotive applications, as well as a durable and non-slip surface. Cover any surface with a professional looking finish at an economical cost. Nylon flocking fibers are soft, but do not show fingerprints, are water resistant and fade resistant to UV rays. Popular applications include auto restoration and dashboards to reduce glare. Made from petroleum, fiber size .040"-3denier (1mm-3.3dtex). Suede-Tex flocker kits contain everything you need to start flocking.

Important: *Due to DOT regulations, the nylon kit only ships via UPS ground within the Continental U.S. and Canada.*

Eliminator Floor Mount Gas Pedal

The Eliminator floor mount gas pedal is precision crafted from billet aluminum and designed to eliminate routing cables through the firewall. It includes an adjustable aluminum splined shaft and stainless steel under the floor cable mounting bracket. Can be mounted in multiple positions for various floor and toe board angles, while pedal travel stops are built in. Pedal floor spacers are recommended when installing the pedal on vehicles with thick carpet or under carpet padding.

Important: *Requires a 36" "cut-to-fit" Lokar throttle cable. LS1, Ramjet and Vortec applications require a 48" throttle cable.*

Adjustable Hood Prop

Constructed of high-quality aluminum and stainless steel, these adjustable hood props offer great looks as well as functionality on your ride. When the hood is raised, the hood prop will automatically lock itself into position. A quick release allows the hood to be opened to its max for easy engine access. There are two versions of this hood prop, a three position and a six position. This will allow the hood to be set at various levels without unsightly objects holding it up. Each level of the six position prop increases the opening of the hood by approximately 6". Each level of the three level prop increases the opening of the hood by approximately 12". They also work great for cooling your engine in the staging lanes.

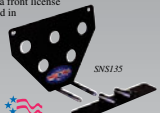
License Plate Frames

Sto-n-Sho Quick Release License Plate Bracket

In some states a front license plate is required in order to drive on public roads. This not only takes away from the look of your vehicle, but requires unsightly holes to be drilled into the bumper. Now you can stay in compliance with state law and keep your bumper looking pristine with the Sto-n-Sho quick-release front license plate bracket. Consisting of a front license plate holder and base mounting plate, each bracket installs covertly underneath the front bumper and requires only the pull of a spring loaded pull pin to remove and to reinstall. Manufactured from 5052 and 6061 aluminum with an anodized black finish and limited lifetime warranty. Made in USA.



detailed shot of mounting base and plate holder

Important: *Most applications have pre-existing holes from the factory that can be used as a mounting point. Drilling may be required to access some of these points.*

Note: **Uses pre-existing holes from the factory as mounting points. No drilling required. †Combo includes hardware for both with and without second chin spoiler, allowing you to switch between having the second factory chin spoiler on or off.*

How-To Library Set

Buy the set and save! A set of four books which includes Mustang How-To Volume 1 and Volume 2, 1965-68 How to Restore Your Mustang, and the How To Paint Your Mustang book.

LS1 ..... 49.99 set

Mustang How-To, Volume 1

The original Mustang How-To book contains articles on 25 relevant projects. Interior topics include accessories, gauges, major interior trim components, and convertible top replacement; mechanical projects include engine compartment, air conditioning, suspension, transmission, tires, and cooling system. Other topics covered are buying a Mustang, show preparation, styled steel wheels, and photographing your Mustang. 98 pages.

L72-CM ..... 12.99 ea

Mustang How-To, Volume 2

Nineteen How-To articles in 87 informative pages. Covers interior projects such as seat and console restoration, upholstery, and carpeting. Mechanical fixes include engine, front end, and disc brakes. Additional general topics cover minor body work, show preparation, vinyl tops, and Rally-Pacs. A do-it-yourselfer's dream.

L74-CM ..... 12.99 ea

1965-68 How To Restore Your Mustang

Covers each phase of restoration in detail. Everything from selection of the car, to removal and installation of major and minor components. Easy-to-follow illustrations. 160 pages.

L61 1965-68 ..... 16.99 ea

How-To Paint Your Mustang

A simple and complete manual with over 200 descriptive photos and illustrations. Also features color codes for exterior and stripe kits.

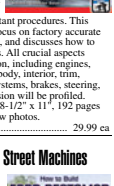
Ford How To Books

Rare Finds Mustangs & Fords

This book is a follow-up to the top-selling Jerry Heasley's Rare Finds. Features a collection of the rarest and most sought-after Mustang and high-performance Ford rescue stories, including the 1969 Boss styling prototype, the original 1967 Shelby Mustang prototype, and a rare 1965 Shelby GT350R. Paperback, 8-1/2" x 11" with 186 b/w illustrations.

L1309 ..... 26.99 ea

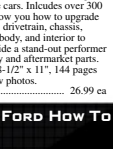
Restore Your Mustang



This unique guide will cover the restoration process for every major component group and also provide step-by-step restoration information for the most important procedures. This book will focus on factory accurate restorations, and discusses how to source parts. All crucial aspects of restoration, including engines, drivelines, body, interior, trim, electrical systems, brakes, steering, and suspension will be profiled. Paperback, 8-1/2" x 11", 192 pages with 525 b/w photos.

L1315 ..... 29.99 ea

Restomod Street Machines



The styling of Ford's muscle and pony cars of the 1960s and 1970s is amazing, but their performance in some areas just isn't up to date. This book shows you how to modify your vintage Ford to accelerate, stop, corner, and ride as good as if not better than Detroit's best new high-performance cars. Inlcudes over 300 photos to show you how to upgrade your engine, drivetrain, chassis, suspension, body, and interior to make your ride a stand-out performer using factory and aftermarket parts. Paperback, 8-1/2" x 11", 144 pages with 300 b/w photos.

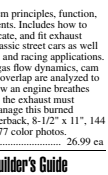
L153-CM ..... 26.99 ea

Mustang On A Budget

When Ford introduced the new 1979 Mustangs on what is known as the Fox platform, it sparked a new revolution in automotive modification and performance. Hailed as the sports car for the masses, the Mustang GT soon became one of the most modified cars Ford has ever produced. This book is for anyone who wants to modify this affordable and popular sports car, covering everything from planning your project, engine modification and performance, transmission and driveline upgrades, to suspension performance modification and body modification. Paperback, 8-1/2" x 11", 224 pages with 350 b/w photos.

L1316 ..... 26.99 ea

Performance Exhaust Systems



To extract maximum performance, an engine needs an efficient, well-designed, and properly tuned exhaust system. This book explains exhaust system principles, function, and components. Includes how to design, fabricate, and fit exhaust systems to classic street cars as well as for special and racing applications. Air/exhaust gas flow dynamics, cam duration and overlap are analyzed to determine how an engine breathes in air/fuel, as the exhaust must efficiently manage this burned mixture. Paperback, 8-1/2" x 11", 144 pages with 577 color photos.

SA277 ..... 26.99 ea

Mustang Builder's Guide

Before the introduction of the 2005+ models, never before has such a range of highly modifiable performance cars been available. You can build your Mustang for drag racing, road racing, or improved street performance and this book will show you how! Paperback, 8-1/2" x 11", 144 pages with 300 b/w photos.

L1317 ..... 26.99 ea

1964-73 Ford Mustang

The Mustang is an automotive icon with more than two million cars built between 1964-1973. While some owners choose to preserve their Mustangs through an original restoration, other owners have upgraded their Mustangs into true driving machines. This book will give you the information to build a high-performance street car as well as a track car. Covers every component group of the car including engine, transmission, rear differential, front suspension, rear suspension, steering, chassis, electrics, interior, and more. Paperback, 8-1/2" x 11", 160 pages with 313 b/w photos.

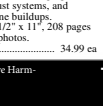
L228-CM ..... 29.99 ea

Supercharged & Turbocharged

The supercharger and turbocharger in their various forms and applications have both been around for well over a century. What makes them so popular? Looks, power, performance, sound, and status. This book features legendary supercharger and turbocharger manufacturers like Paxton, Vortech, Pro-Charger, Garret-AirResearch and Power Dyne, as well as traditional Roots style systems, and covers everything you need to know about supercharging and turbocharging your small-block Ford. Paperback, 8-1/2" x 11", 128 pages with 425 b/w photos.

L155-CM ..... 26.99 ea

4.6/5.4L Ford Horsepower



This book takes the guesswork out of modification and parts selection by showing you the types of horsepower and torque gains expected by each modification. Includes complete before-and-after dyno graphs. Also, covers upgrades for 2, 3, and 4 valve modular engines, with chapters on throttle bodies and inlet elbows, intake manifolds, cylinder heads, camshafts, nitrous oxide, supercharging, turbocharging, headers, exhaust systems, and complete engine buildups. Paperback, 8-1/2" x 11", 208 pages with 340 b/w photos.

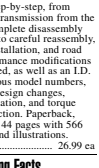
L1314 ..... 34.99 ea

Ford C4 & C6 Transmissions

The Ford C4 and C6 automatic transmissions have been equipped in millions of production rear wheel drive cars and trucks since they were introduced in the 1960s. This book takes you through the process step-by-step, from removing the transmission from the vehicle, to complete disassembly and cleaning, to careful reassembly, to proper reinstallation and road testing. In addition, if the transmission will be used in a high-performance or competition situation, the author includes the various steps required to bolster the unit's strength, using commonly available aftermarket components. Paperback, 8-1/2" x 11", 144 pages with 434 color photos.

L1320 ..... 26.99 ea

Ford AOD Transmissions



In the 1980s Ford replaced the old C4/C6 designs with the AOD transmission for a new generation of cars. This book takes you through the you through the process step-by-step, from removing the transmission from the vehicle, to complete disassembly and cleaning, to careful reassembly, to proper reinstallation and road testing. Performance modifications are also covered, as well as an I.D. guide for various model numbers, evolutionary design changes, shift kit installation, and torque converter selection. Paperback, 8-1/2" x 11", 144 pages with 566 color photos and illustrations.

L1321 ..... 26.99 ea

1001 Mustang Facts

Author Steve Magnante is well known for his encyclopedia like knowledge of automotive facts. Steve turns his attention to the most popular car in history, the Ford Mustang. In more than 50 years, the Mustang has taken many turns, from the original pony car, to the modern Coyote and Voodoo powered supercars. This book covers them all, generation by generation, an informative and entertaining collection of facts from one of the industry's most beloved and respected sources. Paperback, 6" x 9", 336 pages with 120 b/w photos.

Ford How To Books

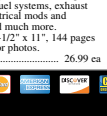
Big-Inch Ford Small Block

Have you been dreaming about a little extra displacement for your Ford? This book explains the concept of building a stroker (331-408ci) without the hassle of switching to a big block, paying special attention to the effect that increasing the bore and stroke have on the engine as a whole. With this information, you'll be better able to tailor your heads, cam, intake manifold, carburetor, and exhaust system to get the most out of the extra cubes. Also includes a complete guide to factory head and block castings, as well as aftermarket block and head guides, so you can choose exactly the right parts for your project. Paperback, 8-1/2" x 11", 128 pages with 300 b/w photos.
L158-CM ..... 26.99 ea

Ford 351 Cleveland Engines

Ford's Cleveland was designed to be a 'mid-sized' V-8 engine, and was developed for higher performance use. This book reviews the history and variations of the 351 Cleveland and Ford's related engines, the 351M and 400M. Also, will walk you through everything you need to know to build a great street or competition engine based in the 351 Cleveland platform. Paperback, 8-1/2" x 11", 144 pages with 405 color photos.
SA252 ..... 26.99 ea

Ford Swap Modular Engines



The Ford modular engine is a popular swap for 1964-73 Mustangs, Fox body Mustangs, trucks, hot rods, and other muscle cars. This book covers motor mount selection and fabrication, suspension and chassis modifications, aftermarket suspension options, firewall and transmission tunnel modifications, engine management and wiring procedures, fuel systems, exhaust systems, electrical mods and upgrades, and much more. Paperback, 8-1/2" x 11", 144 pages with 385 color photos.
SA381 ..... 26.99 ea

Rebuild Big-Block Ford Engines

From factory drag racing, to the AC Cobra, to the legendary Mustang, the history of the Ford big block is a long and storied one. The 351, 400 and 429 cubic-inch versions are covered in full detail in this Workbench series rebuild volume. Included are step-by-step heavily illustrated instructions, that walk you through the entire process of rebuilding your Ford engine. If you want to breathe new life into your tired old Ford engine, this is the book for you. Paperback, 8-1/2" x 11", 144 pages with 609 b/w photos.
L78-CM ..... 26.99 ea

Ford Flathead Engines

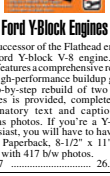
Although not the first V-8 engine ever produced, Henry Ford's side valve V-8, launched in 1932, certainly qualified as the first mass-produced V-8 sold to the public. This book provides a step-by-step through rebuilding a vintage flathead. Including teardown, parts inspection, machine shop processes, replacement part selection, reassembly, start up, and break-in. Paperback, 8-1/2" x 11", 144 pages with 577 color photos.
SA379 ..... 26.99 ea

Ford V-8s On A Budget

This book addresses high-performance V-8 engines such as the 289, 302, 351ci small-blocks found in Mustangs, as well as the FE series of big blocks. Emphasis throughout is a budget approach to building high performance powerplants through the use of over-the-counter factory components and selected aftermarket pieces. Includes realistic, low-cost formulas for building serious horsepower in Ford V-8 engines. Paperback, 8-1/2" x 11", 128 pages with 270 b/w photos.
L248-CM ..... 26.99 ea

Performance Ford FE Engines

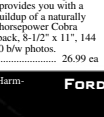
The Ford FE engine is one of the most popular engines Ford ever produced. This book shows you how to select the ideal pistons, connecting rods, and crankshafts to achieve horsepower requirements for all applications. Also examines head, valvetrain, and cam options that are best suited for individual performance goals. In addition, this volume covers port sizing, cam lift, and the best rocker arm geometry. Paperback, 8-1/2" x 11", 144 pages with 377 color photos.
SA183 ..... 26.99 ea



Ford Y-Block Engines

The successor of the Flathead engine, the Ford Y-block V-8 engine. This book features a comprehensive rebuild and high-performance buildup guide, a step-by-step rebuild of two stock engines is provided, complete with explanatory text and captions as well as photos. If you're a Y-block enthusiast, you will have to have this book. Paperback, 8-1/2" x 11", 136 pages with 417 b/w photos.
SA257 ..... 26.99 ea

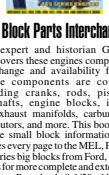
Ford 4.6-Liter Engines



When the '96 Mustang came out with the 4.6-liter V-8, some performance enthusiasts were scared away by its technology. This updated edition gives you a comprehensive guide to building and modifying Ford's 2-, 3-, and 4-valve 4.6- and 5.4-liter engines. Includes block selection and crankshaft prep, to cylinder head and intake manifold modifications. Also outlines eight recommended power packages and provides you with a step-by-step buildup of a naturally aspirated 405 horsepower Cobra engine. Paperback, 8-1/2" x 11", 144 pages with 320 b/w photos.
L1313 ..... 26.99 ea

Ford FE Engines

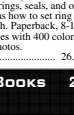
Ford FE engines, which were manufactured from the late 1950's all the way through the mid-1970's, were designated as the large displacement engines in the Ford lineup. Covered are engine identification and selection, disassembly, cleaning, parts analysis and assessment, machine shop processes, replacement parts selection, reassembly and start-up/break-in techniques. Paperback, 8-1/2" x 11", 144 pages with 388 color photos and charts.
SA352 ..... 26.99 ea



Big Block Parts Interchange

Ford expert and historian George Reid covers these engines completely. Interchange and availability for all engine components are covered including cranks, rods, pistons, camshafts, engine blocks, intake and exhaust manifolds, carburetors, distributors, and more. This book cuts out the small block information and devotes every page to the MEL, FE and 385 series big blocks from Ford, which allows for more complete and extensive coverage. Paperback, 8-1/2" x 11", 144 pages with 409 color photos and charts.
SA397 ..... 26.99 ea

Ford Differentials



This book provides detailed step-by-step photos and information for rebuilding the differentials with the best equipment, installing the gear sets, and converting to Posi-Traction for a variety of applications. It describes how to disassemble the rear end, identify worn ring and pinion gears, other damage or wear. It also explains how to select the right differential hardware, bearings, seals, and other parts, as well as how to set ring and pinion backlash. Paperback, 8-1/2" x 11", 144 pages with 400 color/illustrations photos.
L1318 ..... 26.99 ea

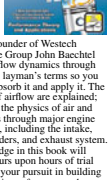
Engine Manuals

Souping the Stock Engine

Reprint of the 1950 classic, this true hot rodders' guidebook provides effective methods for tuning all types of stock engines from the conservative road car to full race capability. Includes: general engine performance, stock engine characteristics, and basic planning for modifications.
L2051 ..... 19.99 ea

Practical Engine Airflow

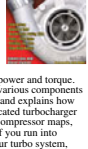


The efficient flow of air through an engine is instrumental for producing maximum power. Former Hot Rod magazine editor and founder of Westech Performance Group John Baechtel explains airflow dynamics through an engine in layman's terms so you can easily absorb it and apply it. The principles of airflow are explained; specifically, the physics of air and how it flows through major engine components, including the intake, heads, cylinders, and exhaust system. The knowledge in this book will save you hours upon hours of trial and error in your pursuit in building the ultimate in performance when building your next engine. Paperback, 160 pages, 8.5" x 11".
L1571 ..... 29.99 ea

Engine Airflow Handbook

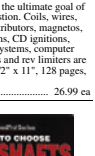
This informative and fully illustrated guide to the science of engine airflow includes basic discussion on the chemistry of airflow and fuel, testing individual components such as cylinder heads, carbs and throttle bodies, how to test an engine on a flow bench, how to analyze the numbers and how to apply to performance modifications. Softbound, 8-1/2" x 10-7/8", 192 pages.
L1054 ..... 29.99 ea

Turbo: Real World High-Performance Turbocharger Systems



Author Jay Miller uses more than 300 photos and the perfect blend of technical and common sense information to help you build boost fast and make more horsepower and torque. He discusses the various components of a turbocharger and explains how to decode complicated turbocharger model numbers, compressor maps, and other specs. If you run into problems with your turbo system, there's also a detailed chapter on failure analysis to help you figure out what went wrong and how to fix it. Softbound, 8-1/2" x 11", 160 pages.
L978 ..... 26.99 ea

High-Performance Ignition Systems



This book leads you through the various components, systems and sub-systems, explaining the theory behind the operation and how the parts work with each other to achieve the ultimate goal of efficient combustion. Coils, wires, spark plugs, distributors, magnetos, inductive systems, CD ignitions, multiple spark systems, computer ignition controls and rev limiters are all covered. 8-1/2" x 11", 128 pages, 250 b/w photos.
L851 ..... 26.99 ea

How to Choose Camshafts & Time Them For Maximum Power

If you're interested in learning how camshafts work, then this is the book for you. There's a science to their design, and a method to installing them for the greatest benefit. This book provides advice on how to find optimum timing for maximum power, and will help readers to choose the right camshaft for their individual application. Paperback, 96 pages, 8" x 10".
L2810 ..... 29.99 ea

Carburetor Manuals

Holley Carburetor How To Rebuild

New!

You often need to replace gaskets, worn parts, and jets for the prevailing weather/altitude conditions or a different engine setup. This book details how to select parts then disassemble, assemble, and calibrate all of the major Holley carburetors. Softcover, 8-1/12" x 11". 144 pages.
L1280 ..... 26.99 ea

Holley Carburetor Handbook

This handbook covers the fuel inlet system, idle system, main metering system, power system, accelerator pump system, secondary system, choke system, metering blocks, repair and adjustment and more! Softbound, 6" x 9", 80 pages.
L559 ..... 19.99 ea

Holley Carburetor Manual

Information includes carburetor identification, basic trouble shooting, diagnostic checks for computer controlled carburetors, on vehicle tuning and adjustments, step-by-step repair and overhaul, performance and economy modifications, professional tips and tricks along with over 340 step-by-step photos. Sftbnd, 220 pgs.
L564 ..... 29.99 ea

David Vizard's How to Super Tune and Modify Holley Carburetors

Author Vizard explains the science, the function, and the tuning expertise required to get your Holley carburetor to perform its best for your performance application. This book guides you through the traditional 4150 Double Pumper, Dominator, and 4160 vacuum secondary models, as well as all the recent releases from Holley, including the Ultra Street Avenger and Ultra HP Series Carbs. Paperback, 144 pages, 8-1/2" x 11".
L9658 ..... 26.99 ea

Rochester Carburetors

Here's the definitive book on selecting, installing, tuning and modifying conventional and electronic Rochesters. Also details design, operation and performance modifications of current microcomputer controlled models. Includes comprehensive coverage of Quadrajet design and service from early to electronic models. Softbound, 176 pages.
L191 ..... 29.99 ea

How to Build and Modify Quadrajet Carburetors

The book is a complete guide to selecting, rebuilding, and modifying the Q-Jet, aimed at both muscle car restorers and racers. It includes a guide to selecting and finding the right carb, instructions on how to rebuild the carb and extensive descriptions of high-performance modifications, 128 pages.
L202 ..... 26.99 ea

Rochester Carburetor Manual

This manual includes detailed information on carburetor identification, basic trouble shooting, diagnostic checks for computer controlled carburetors, on-vehicle tuning and adjustments, step-by-step repair and overhaul, performance and economy modifications, professional tips and tricks along with over 340 photos, 200 pages.
L561 ..... 29.99 ea

Carter/Edelbrock Carburetors

Contains photos, illustrations and diagrams, covering rebuilding, tuning and modifying Carter and Edelbrock carburetors. Also features history on the Carter company as well as the development of the AFB and the AVS since the purchase by Edelbrock. Softbound, 136 pages, 8-1/2" x 11".
L433 ..... 26.99 ea

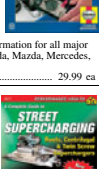
Fuel Injection Manuals

Designing And Tuning High-Performance Fuel Injection Systems

So you've decided that fuel injection is for you, but want to know more. Many questions surround what appears to many as more of a black art than science. Engine tuning used to be the hallowed ground of vehicle engineers and cutting edge hot rodders. For years, the carburetor filled the needs of enthusiasts and provided simple adjustments at the end of a flat bladed screwdriver. But today, electronic controls for engines are the norm. Even the casual enthusiast who actually drives his favorite hot rod on the streets can easily see the benefit of increased precision when he fires the car up for the first time each spring. Useful appendixes include glossary and a special resources guide with standalone manufacturers and test equipment manufacturers. This book goes in-depth on the combustion basics of fuel injection as well as benefits and limitations of standalone. Softbound, 128 pages, 8-1/2" x 11".

L1062 ..... 26.99 ea

Fuel Injection 1986-1999



With a Haynes Techbook, you can do it yourself… from simple maintenance to basic repairs. Haynes writes every book based on a complete teardown of the vehicle. We learn the best ways to do a job and that makes it quicker, easier and cheaper for you. Our books have clear instructions and hundreds of photographs that show each step. Whether you're a beginner or a pro, you can save big with Haynes! Step-by-step procedures, Easy-to-follow photos, Complete troubleshooting section, Valuable short cuts, Color spark plug diagnosis. This manual covers port injection, TBI, CIS. Complete with trouble codes and information for all major manufacturers including BMW, Chrysler, Ford, GM, Honda, Mazda, Mercedes, Nissan, Subaru, Toyota, VW.

L386 ..... 29.99 ea

Street Supercharging

As time and technology march on, updates are required to keep things current, and that's exactly what this new, all-color edition of Street Supercharging does. It covers blower basics, blower background and history, a tutorial on how blowers work, information on used superchargers and their practicality, chapters on the different styles of superchargers, like the traditional roots style blowers vs. the emerging centrifugal styles, blower installation, how to build your engine to handle the demands of a blower application, and information on tweaking factory blower systems. Softbound, 8-1/2" x 11", 128 pages.

L211 ..... 26.99 ea

Turbochargers

If you want more power, a turbo may be the solution you are looking for and this book will definitely help you. This book also covers turbo design, sizing and matching. Controls, carburetion, exhaust, ignition, cooling, marine and high altitude applications. And unlike other DIY turbo guides, this one covers much more than just car engines. If you want to turbocharge your motor, this is the guide you need! How to select and install the correct turbo for big or small horsepower gains, turbo design, sizing and matching. Improve the performance of your engine by simply getting the right information. Covers all aspects of turbocharging and includes turbo suppliers list. Softbound, 8-1/2" x 11", 160 pages.

L185 ..... 29.99 ea

Performance Fuel Injection Systems

This practical guide walks you through the process of modifying and tuning modern electronic fuel injection systems. Presenting plenty of foundational information, you're taken on a journey that includes wiring, fuel systems, sensors, and different types of ignition systems – all geared towards building a basic understanding of fuel injection systems. The book also covers configuring a stand-alone engine management system and tuning for maximum power and drivability, and much more. Paperback, 160 pages, 8-1/2" x 10-7/8".

L1569 ..... 29.99 ea

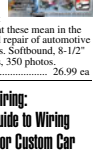
Wiring Manuals

Automotive Electrical Manual

The manual features comprehensive information which covers basic electrical fundamentals, troubleshooting and repair for both foreign and domestic vehicles. Includes engine starting and charging systems, lights, gauges and more! Softbound, 8-1/2" x 11", 192 pages.

L575 ..... 29.99 ea

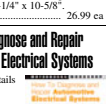
Automotive Wiring & Electrical



The basics of electrical principles, including voltage, amperage, resistance and Ohm's law, are revealed in clear and concise detail, so the enthusiast understands what these mean in the construction and repair of automotive electrical circuits. Softbound, 8-1/2" x 11", 144 pages, 350 photos.

L1019 ..... 26.99 ea

Automotive Wiring: A Practical Guide to Wiring Your Hot Rod or Custom Car



This book guides builders through every step from determining what components they need, to selecting wire type and gauge, methods of connection, and other considerations. The book includes numerous charts showing typical configurations and suggested installations. A troubleshooting section lends a hand in tracking down the inevitable problems that can arise. Paperback, 144 pages, 8-1/4" x 10-5/8".

L39923 ..... 26.99 ea

How To Diagnose and Repair Automotive Electrical Systems

This book details the various tools, such as multimeters and test lights, that can be used to evaluate and troubleshoot any vehicle's electrical system. Several hands-on projects take readers on a guided tour of their vehicle's electrical system and demonstrate how to fix specific problems. Paperback, 160 pages, 8-5/16" x 10-5/8".

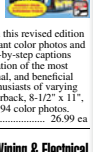
L20990 ..... 25.59 ea

Auto Electrical Handbook

Learn about basic electrical theory, how various electrical works and drawing circuit diagrams. Includes tips on electrical test equipment and troubleshooting electrical circuits. 350 photos, drawings and diagrams. Softbound, 157 pages.

L187 ..... 29.99 ea

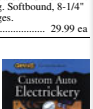
Automotive Wiring & Electrical



Countless collector car owners are skilled at performing mechanical work, but for many of them, electrical work seems like a mystery, too complicated and too confusing. In this revised edition (volume 2) brilliant color photos and explanatory step-by-step captions detail the installation of the most popular, functional, and beneficial upgrades for enthusiasts of varying skill levels. Paperback, 8-1/2" x 11", 144 pages with 394 color photos.

L1323 ..... 26.99 ea

Custom Auto Wiring & Electrical



This indispensable guide to high performance and OEM automotive electrical systems covers electrical theory, wiring techniques and equipment, custom wiring harnesses for racing, hot rods and restorations, premade wiring harnesses, special electrical systems (navigational, audio, video), troubleshooting common electrical problems, dashboards and instrument and trailer wiring. Softbound, 8-1/4" x 5-1/4", 192 pages.

L1056 ..... 29.99 ea

Custom Auto Electrickery

This book will help the home based enthusiast unravel the mysteries surrounding Auto Electricals and Electronics. From a simple rewire to installing and troubleshooting your own engine management system, it is all covered in this book. Paperback, 256 pages, 8-1/2" x 11-1/4".

L98352 ..... 29.99 ea

Brake Guides

Muscle Car Brake Upgrades: How To Design, Select and Install

Arguably the only book dedicated exclusively to muscle car brake performance, veteran author Todd Ryden shows readers how to select brake systems for various applications and different budgets. The book covers system design, operation, and component function so you have a clear understanding of all principles. You'll learn how to assess brake system requirements and select brake system kits for many popular muscle car applications form aftermarket brake leaders including Baer, Wilwood, and CPP. Paperback, 144 pages, 8.5" x 11".

L1574 ..... 26.99 ea

High-Performance Brake Systems: Design, Selection, and Installation

A great deal of time, effort, and money can be invested in raising the horsepower level, thus increasing the speed potential, and very little invested in bringing all of that power under control in the form of an upgraded braking system. Granted, brakes can be intimidating, however, *High-Performance Brake Systems: Design, Selection, and Installation* gives you the knowledge to upgrade your brakes the right way the first time. You'll learn how to choose and install the most effective rotors, calipers, pads, and tires for your muscle car or classic vehicle. Paperback, 144 pages, 8.5" x 11".

L1580 ..... 26.99 ea

Drivetrain Manuals

How to Build and Modify High-Performance Manual Transmissions

This revised edition of How to Rebuild and Modify High-Performance Manual Transmissions breaks down the disassembly, inspection, modification/upgrade and rebuilding process into detailed yet easy-to-follow steps consistent with SA Design's other Workbench series books. The latest techniques and insider tips are revealed, so an enthusiast can quickly perform a tear down, identify worn parts, select the best components and successfully assemble a high-performance transmission. This new edition also contains a complete step-by-step rebuild of the Chrysler A833 transmission. Softbound, 8-1/2" x 11", 144 pages.

L964 ..... 26.99 ea

High-Performance Differentials, Axles & Drivelines

Covers everything you need to know about selecting the most desirable gear ratio, rebuilding differentials and other driveline components and most importantly, matching the correct driveline components to engine power output. Learn how to setup a limited slip differential, install high-performance axle shafts, swap out differential gears and select the best available products for the driveline. Explains rear differential basics, rear differential housings, rebuilding open rear differentials, limited slip differentials and factory differentials. Ring and pinion gears, axle housings, axle shafts, driveshafts and U-joints are also covered. Softbound, 8-1/2" x 11", 144 pages.

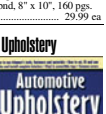
L1063 ..... 26.99 ea

Interior Manuals

Auto Upholstery & Interiors

A guide to performing basic upholstery and interior repairs on all kinds of automobiles written expressly for the home enthusiast. Includes helpful guides on how-to replace headliners, lay carpet, repair dashboards, reupholster seat frames and more. Sftbnd, 8" x 10", 160 pgs.

L1265 ..... 29.99 ea



Custom Auto Interiors

More than 800 color photographs capture every detail you'll need to create your own exciting and award-winning custom interiors. Precise step-by-step instructions show you how-to turn out completely professional custom interiors. This is an advanced level book. 192 pages, 8-1/2" x 11".

L740 ..... 26.99 ea

Automotive Upholstery

The author teaches you how to sew like an expert, and avoid costly mistakes. Learn to recover and build seats, make headliners and carpets. Materials are described with specific recommendations for vinyl, cloth, leather, Nimbus, panel board, etc. 230 pages, 8-1/2" x 11", 550 b/w photos.

L378 ..... 22.99 ea

Automotive Custom Interiors

The book covers every aspect of design – seat and upholstery, dashboards and gauges, door panels and armrests, consoles, steering wheels, pedals, shifters, knobs and hardware, floor coverings and headliners, audio and high tech accessories, and cargo areas and trunks. Fabrication

Weld Like a Pro

Welding is an art and skill that's essential for automotive fabrication, repair, and vehicle upgrades. It is also an important skill for countless household projects and industries. Not only will you learn these basic skills, but you'll also learn advanced welding techniques as well as with the use of aluminum, titanium, magnesium, stainless steel, and other specialty materials. Paperback, 144 pages, 8.5" x 11".

L1570 ..... 26.99 ea

Performance Welding Handbook

Performance Welding demonstrates the newest fabricating techniques and covers the latest in welding equipment. This complete guide helps a fabricator select the proper equipment, prepare jigs, and effectively weld 4130 steel, stainless steel, aluminum, and magnesium. It also covers plasma cutting, the technique used extensively on Monster Garage that has revolutionized metal working. 2nd edition, Paperback, 160 pages, 8.25" x 11".

L21720 ..... 25.99 ea

The Welder's Handbook

Excellent handbook detailing all common and not so common techniques of welding. Oxyacetylene welding and cutting, brazing and soldering. Also includes how to weld stainless steel, aluminum, magnesium and titanium. Softbound, 8-1/2" x 11".

L144 ..... 29.99 ea

Welding Manual

This Haynes Techbook covers gas (oxyacetylene), arc, MIG and TIG welding. Soldering and flame cutting are also covered. Techniques are discussed as they relate to automotive and workshop repairs. Information on selecting equipment is also included. Softbound, 176 pages, 8-1/2" x 11".

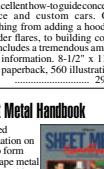
L388 ..... 29.99 ea

Media Blasting & Metal Preparation: A Complete Guide

When it comes to bodywork and painting, one aspect that's overlooked is proper metal preparation. However, there's more to a great paint job than sanding and shooting. Without proper metal preparation, the paint finish can end up full of imperfections; bubbles from underneath, or simply won't last, no matter how expensive the materials were. In Media Blasting & Metal Preparation: A Complete Guide, restoration expert and veteran author Matt Joseph gives you all the tools you need to expertly prepare your vehicle for the next stages of restoration. Shortcutting the process will only cost you precious time. This book provides all you need to know for a successful and long-lasting restoration. Paperback, 144 pages, 8.5" x 11".

L1575 ..... 26.99 ea

Metal Fabricator's Handbook



This excellent how-to guide concentrates on race and custom cars. Covers everything from adding a hood scoop or fender flares, to building complete cars. Includes a tremendous amount of useful information. 8-1/2" x 11", 176 pages, paperback, 560 illustrations.

L42 ..... 29.99 ea

Sheet Metal Handbook

Detailed information on how to form and shape metal for competition, custom or restoration use. Chapters include hammer forming tools, terms and equipment, riveting techniques, layout, design and pattern making. Softbound, 192 pages, 8-1/2" x 11".

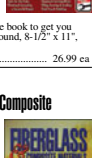
L243 ..... 29.99 ea

Professional Sheet Metal Fabrication

Professional Sheet Metal Fabrication is the number one resource for sheet metal workers old and new. Dent repair and automotive patch panel fabrication are covered in detail. This is truly the most detailed enthusiast focused sheet metal how-to book on the market. Paperback, 304 pages, 8-1/4" x 10-5/8".

L44927 ..... 39.99 ea

Automotive Bodywork And Rust Repair



Whether you want to tackle a full restoration project, or just want to save money by doing minor repairs yourself, Automotive Bodywork and Rust Repair is the book to get you through it. Softbound, 8-1/2" x 11", 160 pages.

L1086 ..... 26.99 ea

Fiberglass & Composite Materials

This informative guide covers FRP materials, fibers and fiber forms, resins, gel coats, advanced techniques, building molds and plugs, structures and materials, health and safety, tools and shop equipment. Softbound, 154 pages, b/w illustrations. 8-1/2" x 11".

L652 ..... 29.99 ea

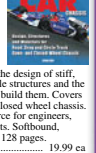
Powder Coating

New!

Most metals, including steel, cast iron, and aluminum can be powder coated. With powder coating, these parts look brilliant and don't rust or corrode. Powder coating is an attractive, tough, and resilient finish that is used to protect and preserve metals. Powder coating at home is safe, affordable, and easy to do with the right information. Softcover. 8-1/2" x 11". 128 pages.

L1282 ..... 26.99 ea

Race Car Chassis: Design, Structures, Materials



In this comprehensive revised and updated book, award-winning writer Forbes Aird deconstructs the race car chassis, examining the fundamentals of the design of stiff, lightweight mobile structures and the materials used to build them. Covers open wheel and closed wheel chassis. A valuable resource for engineers, racers and students. Softbound, 8-1/2" x 10-7/8", 128 pages.

L1055 ..... 19.99 ea

Drag Race Chassis & Suspension

Detailed information and photos on basic chassis design, how to set ride height, tubing construction, standard axle housings, choosing gear ratios, transmission choices, bolt-on traction bars, 4 link setups, ladder bars, anti-roll bars, steering, shocks, springs, brakes, wheels, tires, safety equipment and so much more! Softbound, 5-1/4" x 8 1/4", 160 pages.

L1052 ..... 29.99 ea

Chassis & Suspension Handbook

First in a series of custom techniques and tips on all areas of building a street rod. Features designing and how-to procedures on building the chassis and suspension for all types of street rods. Paperback, 8-1/2" x 11", 192 pages.

L248 ..... 29.99 ea

How To Make Your Muscle Car Handle

This book defines, explores, and reviews the complete suspension system, and teaches you how to best choose your upgrades for maximum effectiveness. Softbound, 8.5" x 11", 144 pages, 328 color photos.

Automotive Literature

1968 Shelby Mustang: Muscle Cars In Detail

New!

Covers the 1968 Shelby GT350, GT500, and GT500 KR. In 1968, Ford sought to take over much of the process of producing Shelby Mustangs and increased that production dramatically to meet anticipated sales demand, so it was a bit of a transition year. Provides an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, and an in-depth study of all hardware and available options, as well as an examination of where the car is on the market today. Also included is are paint and option codes, VIN and build tag decoders, as well as production numbers. Paperback, 8-1/4" x 9", 96 pages.

L1295 ..... 18.99 ea

1969 Mustang Mach 1

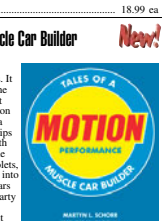
New!

The 1969 Mach I was Ford's attempt to create a package and a style to match the performance of its recently released and very potent 428ci Cobra Jet engine package. This book provides an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, an in-depth study of all hardware and available options, and an examination of where the car is on the market today. Also included are paint and option codes, VIN and build tag decoders, as well as production numbers. Paperback, 8-1/4" x 9", 96 pages with 136 color and 2 b/w photos.

L1303 ..... 18.99 ea

1969-70 Ford Mustang Boss 429: Muscle Cars In Detail

New!



The semi-Hemi Boss 429 was so large, it couldn't fit in the small Mustang, so Kar-Kraft, a specialty car builder, had to shoehorn the engine into the compact Mustang fastback. This book gives you the story on the car, its special equipment, 429 engine, 4-speed Toploader transmission, interior appointments, paint codes, and options. Features an exciting story of developing this monumental engine, engineering the components and parts to fit the engine and chassis, and assembling the cars. Also included are paint and option codes, VIN and build tag decoders, as well as production numbers. Paperback, 8-1/4" x 9", 96 pages.

L1297 ..... 18.99 ea

Tales Of A Motion Performance Muscle Car Builder

New!

It was a driver's dream: Along with the full factory warranty, your car came with a guarantee of 11.5 second quarter mile times. It was also Joel Rosen's dream, and in 1964, he set out to make it a reality. First he built fast cars. Then, taking a page from Ford's "win on Sunday, sell on Monday" strategy, he built a reputation by beating all comers on drag strips and in street races. Brilliantly illustrated with period pictures and modern color photos, the book takes readers along as Cobras, Chevrolets, Oldsmobiles, even Volkswagen Beetles roll into the shop to get torn down and rebuilt into cars unbeatable on the streets and drag strips. Marty Schorr gives a first hand account of seven years of high-performance life and of how it all came to a screeching halt at the hands of the U.S. Department of Transportation and the Environmental Protection Agency. Paperback, 176 pages, 11" x 9".

L2725 ..... 24.99 ea

Detroit Muscle

Detroit Muscle: Factory Lightweights and Purpose Built Muscle Cars follows the evolution of the fastest, most powerful, and exciting vehicles of the era, in both drag racing and NASCAR. From early Hudson Hornets, to the birth of the Hemi, to aluminum and fiberglass panel sedans, to lightweight special order muscle cars ready to race from the factory. Hardcover. 10" x 10". 192 pages.

L1283 ..... 39.99 ea

Detroit Speed's How to Build a Pro Touring Car

You will discover the history of Detroit Speed and how they design performance parts. Learn-to-ins tall sections cover front subframe and rear suspension assemblies as well as upgrades to wheel tubs, brakes, fuel system, driveline, cooling system, and more; also included is an LS swap. The featured cars are customer builds as well as Detroit Speed test cars including a number of different Chevrolet products, a 1966 Mustang, and a 1969 Charger. Detroit Speed's How to Build a Pro Touring Car is an important edition to every performance enthusiast's library. Paperback, 144 pages, 8-1/2" x 11".

L51379 ..... 26.99 ea

How To Draw Cars 2nd Edition

Car designer Thom Taylor goes back to the drawing board with all-new illustrations on such topics as the use of computers in design today. Taylor begins with advice on selecting the proper tools and equipment, then moves on to perspective and proportion, light, shadow, reflection, color and even interiors. 8-1/4" x 10-5/8", 144 pages, 140 color, 100 b/w photos.

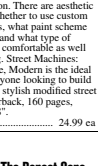
L4434 ..... 21.99 ea

Muscle Cars

Muscle Cars explores this era and the current models with a broad survey of classic muscle and today's new machines. Each chapter is organized around a theme (milestones, factory racers, etc), each model getting a multi-page spread of full color photography, performance stats, trivia, and more. Photos and stories from the people who built and raced these amazing machines make the book a must read for any fan of American muscle. Paperback, 240 pages, 6-1/2" x 8-1/4".

L38377 ..... 19.99 ea

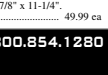
Street Machines: Classics, Muscle Cars, Modern



Any custom automotive project begins with making choices. There are choices under the hood, such as which engine will match well with a certain chassis and transmission. There are aesthetic choices, like whether to use custom or stock wheels, what paint scheme will look best, and what type of interior will be comfortable as well as eye catching. Street Machines: Classic, Muscle, Modern is the ideal resource for anyone looking to build a powerful and stylish modified street machine. Paperback, 160 pages, 8-1/4" x 10-5/8".

L39077 ..... 24.99 ea

Top Muscle: The Rarest Cars from America's Fastest Decade



A muscle car book unlike any other, featuring the rarest vehicles on Earth. Top Muscle chronicles the ultimate collection of these super rare high-performance beasts. These cars represent the absolute zenith of the most valuable collector cars in existence, with fascinating histories that illuminate the wildest age in American automotive history. Features over 600 cars. Hardcover, 224 pages, 9-7/8" x 11-1/4".

My Classic Car DVD Collection

American automobiles have been around since the early 1900's, but in the 50's, 60's, and 70's they became part of American culture, and they gave America an identity. With the help of Dennis Gage you can take a look at the cool cars of the fifties and the muscle cars of the 60's and 70's. Take a pedal to the metal ride with such muscle machine manufacturers as Chevrolet, Ford, Buick, Oldsmobile, Pontiac and the Mopars. Also available is Jay Leno, Certified Car Nut. Dennis takes you inside Jay's garage to look at his collection and take some of his favorite cars and motorcycles for test drives.

Accessories for the Ultimate Classic Car Garage!

The Ultimate Anti-Theft System!

By immobilizing the brake pedal, the Pedal Jack makes it impossible to drive the vehicle. Federal Vehicle safety standards require brake pedals to be unbreakable. The Pedal Jack uses this fact to it's advantage in providing tamper proof security for your vehicle. Furthermore, the Pedal Jack itself is constructed using heavy duty, heat treated tempered steel that is saw proof and cannot be fractured by freon gas. It has a patented high security lock that is protected by a tempered steel plate making it drill proof. Each lock comes with three keys that cannot be duplicated. The Pedal Jack is fully adjustable to fit perfectly on cars, vans and light trucks.

Made in USA

Billet Fire Extinguisher Bracket

Billet fire extinguisher mounting brackets are CNC-machined out of 6061-T6 aluminum and are built to mount in any position. The round mounting bracket fastens permanently to the extinguisher (sold separately) and is held on its base with a stainless aircraft quick release pin. The large brackets work with the 2-1/2 lb (3" o.d.) extinguishers. The small brackets work with the 1lb (2-3/4" o.d.) models and both are available in black, polished or satin finishes. The small extinguisher bracket is also offered in a roll bar mount.

PM0301 PM0302 PM0303 PM0304 PM0305

Frame Engine and Body Marker

Automakers use these permanent markers to write codes and numbers on frames, engines and body components. Engine suffix codes were often written on the back of the cylinder heads. Job numbers were written on the firewall, frame, engine and other components to assure the correct car was being built according to the build sheet. These permanent paint markers will help you exactly duplicate the factory original marks.

MOTHERS® – High-Performance Car Care Products

California Gold Clay Bar Set

The clay bar system has been a closely guarded secret of professional detailers for many years. Until now they have had nearly exclusive access to this technology. Now Mothers® makes it available to you so you can gain the benefits of the system, saving time and money. Everything you need is included in this box: one 80 gram Mothers® California Gold Clay Bar (enough to save at least three average sized cars), one 16 oz. bottle of California Gold® Showtime® Instant Detailer (clay bar lubricant) and one 4 ounce bottle of California Gold® Original Formula Liquid Carnauba Wax to provide long lasting protection.

M07240 ..... 21.99 set

California Gold Original Formula Paste Wax

Genuine Brazilian carnauba wax combined with cleaners is the secret to a superb shine and incredible protection. Original formula is created with carnauba wax, top of the line cleaners, the highest quality polishes and finish restorers. Works great on cars, trucks, motorcycles and airplanes. Is safe for clear coats. Gives the shine you would expect from a paste wax and is easy to use.

M05500 12 fl. oz. ..... 12.99 ea

California Gold Natural Formula Paste Wax

This natural formula wax contains Carnauba wax and just enough modern chemistry to let you easily apply it, remove the light haze and enjoy the most spectacular shine you will ever experience. For a truly brilliant shine, accept no substitute.

M05550 12 oz. paste ..... 19.99 ea

Mothers® Mag & Aluminum Polish

Mothers® secret formula is world renowned for providing the easiest, brightest shine for aluminum wheels, manifolds, valve covers, brass trim, all alloy parts and accessories. Tough enough to tackle the most neglected metals, yet gentle enough to use every day.

M05100 5 oz. ..... 5.99 ea
M05101 10 oz. economy size 8.99 ea

California Gold Car Wash

Cleans and shines like only Mothers® can. This ultra sudsy car wash contains detergent strong enough to wash away dirt, road film, bugs, bird droppings and other contaminants, yet its exclusive PH balanced formula will not remove wax and resists water spotting.

M05600 16 oz. ..... 4.99 ea
M05632 32 oz. economy size 6.99 ea

California Gold Pre-Wax Cleaner

Cleans like only Mothers® can. See incredible results on clear coat paints, lacquers, enamels, pearls, candies, urethanes and all other paint types. Prepares paint for waxing or glazing by removing oxidation, dirt, stains and old wax. Restore color and luster to your paint with Mothers® pre-wax cleaner.

M07100 16 fl. oz. ..... 5.99 ea

California Gold Sealer and Glaze

Enjoy the ultimate brilliance of a show car shine on all paint types and colors including clear coats, blacks, reds and candies. Fills and hides scratches, swirl marks and spider webbing. Formulated to achieve spectacular, professional results by hand or with a buffer. Will not streak, smear or fingerprint and may be used over existing wax.

M08100 16 fl. oz. ..... 7.99 ea

California Gold Natural Formula Liquid Wax

This natural formula wax contains carnauba wax and just enough modern chemistry to let you easily apply it, remove the light haze and enjoy the most spectacular shine you will ever experience. For a truly brilliant shine, accept no substitute.

M05750 16 fl. oz. ..... 11.99 ea

California Gold Carnauba Cleaner Wax

The alternative to paste wax is this terrific liquid wax with cleaner. It contains Brazilian Carnauba for spectacular shine and state-of-the-art chemical film formers to lock in durable protection. Great for all paints. Restores color, removes oxidation and is detergent resistant. Safe for clear coats too.

M05701 16 fl. oz. ..... 7.99 ea

LeatherTech Foaming Wash

LeatherTech Foaming Wash is an air-infused rich lather cleansing solution that penetrates and cleans stains from even the most neglected finished leather and vinyl surfaces. Glycerin-enriched micro-emulsion provides moisture balance while encapsulating agents lift away dirt and debris, leaving your leather clean and ready for conditioning.

M06410 8 oz. ..... 6.99 ea

Moisture Infusion Gel Cream

LeatherTech Moisture Infusion goes beyond conventional conditioning with advanced hydration to nourish and protect leather surfaces in one simple step. Premium conditioners replenish natural oils lost to heat and sunlight with a moisture lock to prevent fading, drying and cracking. Keep your leather soft and supple for years to come!

M06310 7 oz. ..... 11.99 ea

Carpet & Upholstery Cleaner

Carpet & Upholstery Cleaner is a must for removing stubborn dirt and stains from velour, vinyl, cloth, carpets and sheepskin covers. Safe and effective on all automotive fabrics, yet works great for home use too. This special formula is designed to get out some of the toughest dirt you'll find. Even works great on grease, gum and stains caused from mud.

M05422 22 fl. oz. ..... 7.99 ea

Preserves Protectant

Provides preservation and protection for 30 days. This unique formula penetrates and bonds to block out the harmful effects of ultraviolet rays, ozone, smog and contaminants to protect, rubber, vinyl, plastic and fiberglass. It beautifies and protects tires, bumpers, vinyl tops, dash boards, window trim, seats, household items, sporting goods and just about everything else.

M05316 16 fl. oz. ..... 8.99 ea

Regular Formula Wheel Mist

Rusty rims? Oxidized bumpers? Don't worry Mothers® will clean it up for you. The original, one step wire and mag wheel cleaner, formulated for chrome and rough cast aluminum. No scrubbing or elbow grease needed. Simply spray on and hose off dirt, oxidation, rust and brake dust for the best shine and the ultimate sparkle. Works great on chrome bumpers, side pipes or any hard to clean bright metal surface.

M05824 24 fl. oz. ..... 6.99 ea

Mothers® PowerBall

Mothers® PowerBall is the first foam polishing tool designed to revitalize billet, diamond plate, polished aluminum, stainless steel, plastic lenses, convertible top windows and much more. When used with Mothers® PowerMetal polish, the power ball is ideal for any uncoated, polishable metal finish. Its unique and durable construction compresses to fit tight spaces, so polishing difficult, intricate metal work to a mirror like finish is fast and easy.

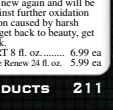
M05140 PowerBall..... 29.99 ea

Chrome and Glass Cleaner/Protector

Ideal for cleaning and protecting windows, mirrors, bumpers, wheels and chrome trim. Leaves surfaces clean and streak free. Unique protecting agents resist smears and fingerprints.

M05208 12 fl. oz. ..... 5.99 ea

Mothers® Back-to-Black



Renews and protects all exterior trim. Perfect for all vinyl, rubber, plastic, flat finishes, yet surfaces need not be black to achieve superior results. Works incredibly well on both smooth and textured surfaces, bumpers, protective and decorative moldings, louvers, air vents, window trim and wiper arms. Tire Renew removes grease, grime and brake dust. After applying, surfaces look new again and will be protected against further oxidation or deterioration caused by harsh elements. To get back to beauty, get Back-to-Black.

OER® "Secret Formula" D.A. Polish

This bodyshop safe, 100% wax and silicone free polish will prepare any paint for the perfect sealant. Available in your choice of 2 grades to rapidly remove light scratches, swirls, key marks, fingernail scratches, and other imperfections. Each grade starts out as a polish then breaks down to a final step product that produces an exceptional shine. Use the Pro-Polish as a final product or a superior foundation for wax, sealant or glaze. To start out with a slightly more aggressive polish, step up to the medium grit product Scratch & Swirl B-Gone. For best results use with a D.A. or rotary polisher.

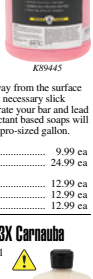
OER® "Secret Formula" Clay Bar System

K89477

K89478

K89449

K89444



K89445

Clay pulls out all the contaminants you cannot see, but that you can definitely feel, like industrial fallout, rail dust, and brake dust. Though these contaminants are not visible, you can tell they are there because the paint will feel rough or gritty. These contaminants may cause patches of paint to appear dull, even after waxing. As these contaminants oxidize, they create rust spots within the paint. Once this happens, the oxidation is considerably harder to remove and will most likely take a good bit of paint with it. Clay bar will remove these contaminants and leave the surface silky smooth with a mirror-like smooth finish. Our clay will not break or deteriorate into small particles like inferior low quality clay bars. Super elastic to remove harmful particles quickly and effectively. Acts as a magnet to foreign particles, literally pulling the paint fouling grime away from the surface of the paint. Clay lubricant is essential to the performance and safety of clay. It provides the necessary slick surface for clay to glide on. Using low quality clay lubes or cheap detail sprays will deteriorate your bar and lead to poor clay bar performance. Also beware of soapy water as a clay lube, detergent or surfactant based soaps will cause the clay to deteriorate. OER® Slick-It Clay Lubricant is available in a 16 oz. bottle or pro-sized gallon.

OER® "Secret Formula" Acryli-Shine Glaze

Glaze is a polish without any cleaning properties. Glazes are used primarily to improve the shine brilliance and clarity of paint. Primarily used by body shops for finishing jobs or by detail shops to bring out the high brilliance of paints on a vehicle, glazes are also commonly used on show vehicles to achieve a "high luster or wet look". It was developed for the darker finishes, using a slightly moister formulation to enhance the difficult to wax paint finishes. The application process is forgiving, smooth, and dust free. Your moldings WILL NOT turn white. Glazes do not replace polishing. If a surface has minor swirls and imperfections, to achieve the best superior results, the surface should be polished with our OER® Secret Formula Pro-Polish first.

K89620	32 oz. bottle	29.99 ea
K89621	1 gallon	49.99 ea

OER® DA Paint Sealant + 3X Carnauba

Just one coat of this sealant is all you need to protect your auto's finish for 6 to 8 months. OER® D.A. Paint Sealant's 3X Carnauba creates an anti-static, heat resistant protective seal against corrosive elements such as ultraviolet rays, salt water, acid rain and industrial pollutants. Can be applied in multiple layers to deepen the shine and level of protection without compromising your paint or clear coat. Coats your vehicle in a protective seal delivering a glossy, rich, liquid shimmer that leaps off the paint surface. Anti-static formula discourages the settling of new dust. Bring out the depth of the paint color while the shine enhancers leave a glass-like mirror finish.

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

Get The OER® Advantage... It's Almost Unfair!

OER® "Secret Formula" Waterless Wash

We care for the environment, and if you share the same feeling, try out OER® Secret Formula Waterless Wash.. a unique product which can help you conserve water while keeping your car sparkling clean. However, just because our product doesn't call for the use of water, by no means it is any less effective. In fact, because there is no water, it is much easier on the finish and other bodywork in general. It cleans, shines and protects all paints, clear coats, rubber,vinyl and plastic surfaces. It even softens and breaks down light surface contamination while it captures and reduces dirt particles, lifting them off the surface of your vehicle. For all its cleaning power, it will not strip or remove wax or sealants and delivers superior results in the sun or in the shade. It's inexpensive, provides outstanding results, and is so easy to use... It's almost unfair!

K89605	16 oz. bottle	9.99 ea

OER® "Secret Formula" Headlight Restorer

OER® Secret Formula Headlight Restorer Professional Polish for plastic headlight lenses is not only affordable, but unlike most of the other headlight restoration products available in the market, is a professional formula that is remarkably easy to use. However, we do recommend that you apply it with the aid of a machine for best results. Over a period of time, the headlight lenses are bound to become yellowed and hazy. In such a situation, you have two options, spend hundreds of dollars for replacement, or try restoration. The latter is what our product is meant for. Save money! That's right, you no longer have to replace foggy headlights. In addition, you do not have to settle for exorbitantly priced headlight restorer products available elsewhere. We offer a better alternative for less. Have a safer ride. When restored, your headlight will deliver better luminance, yielding up to 30% more road visibilty.

This product is a favorite among professionals in the industry as well as automotive connoisseurs who insist on the finest quality. Made from 100% pure Brazilian Carnauba Wax, this hard paste wax leaves any finish with an exceptionally long lasting, lustrous, clear shine. Apply by hand with a damp cloth. For pre-cleaned surfaces only. As hard as a brick, yet easy to apply and remove. For use on any color paint. Bonds with clean paint, waxes and sealants to offer a deeper richer shine and longer lasting protection. One coat is truly all you need, however layer it as many times as you want to achieve desired results. Long lasting 2-3 month protection. Formulated for successful use even in the sun! Works like a sun block to protect your paint and deliver an unparalleled show-car shine. The 5" round microfiber applicator pads make it easy to apply waxes or rubbing compounds without scratching paint or clear coat. Simply rinse and reuse. Microfiber applicators are highly absorbent, strong yet gentle and the fabric is machine washable.

OER® Premium Carnauba Pre-Softened Wax

OER® Secret Formula Pre-Softened Carnauba Paste Wax is in a class all its own. A pre-softened paste wax with no cleaners, it leaves a deep, brilliant long-lasting shine. It protects and beads up with a glass like gloss that lasts up to 6 months. It works beautifully on all colors, even on blacks, reds, and burgundies, filling in swirl marks. It's also super easy on and off: just wipe on in a circular motion, and take off with a microfiber immediately. No need to wait for it to dry! Leaves no white haze at all – there is no white residue to clean out of the cracks, and no need to be careful around the exterior trim – it won't leave white marks! There's no trade-off here: the easiest application in the world, and the best results! Great grape smell. For the enthusiast who demands the highest and wettest level of shine, OER® Secret Formula Pre-Softened Carnauba Paste Wax is a proprietary blend of genuine carnauba wax and natural oils that makes paint "drip off of your vehicle" with a high gloss shine and shimmer that is sure to impress even the toughest critics. The 5" round microfiber applicator pads make it easy to apply waxes or rubbing compounds without scratching paint or clear coat. Simply rinse and reuse. Microfiber applicators are highly absorbent, strong yet gentle and the fabric is machine washable.

OER® Pro-Seal 109 Carnauba Paint Sealant

OER® Secret Formula Pro-Seal 109 Carnauba Paint Sealant is a proprietary blend of fluorocarbon polymer resins that creates a slippery, slick barrier that accelerates water runoff and protects auto finishes from rain, acid rain, salt, dust, and water spotting. Easy application by hand! OER® Secret Formula Pro-Seal 109 provides high gloss protection in minutes! Cleans, polishes, and protects new and classic cars, trucks, vans, and even boats. Contains 100% pure carnauba wax; the hardest natural wax available. Quickly cleans, seals and shines all paint finishes, vinyl, plastic, rubber and chrome trim. Easily removes tar, tree sap, road film, paint oxidation and water stains. OER® Secret Formula Pro-Seal 109 contains UV light absorbers to reduce fading, oxidation, and cracking of paints. Non-abrasive and safe for all automotive finishes.

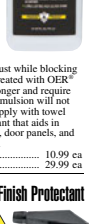
OER® Secret Formula Professional Dressings

Finally you can get the level of shine you desire with a professional grade formula that is not greasy, will not drip, is dry to the touch and lasts far longer than any product sold in stores. Additionally, our products soak in to nourish and protect the surface while repelling dust and dirt. Your choice of matte finish for an original appearance or super shine for a high gloss look.

OER® Super Shine High Gloss Protectant



The only 100% super shine, dry to the touch dressing that works as well on vinyl, leather, rubber, and tires as it does on hard plastics, plastic bumpers and trim. A multi-surface shield for your vehicle's interior. Dual action premium dressing leaves surfaces dry to the touch and shining better than new, while protecting the surface against dirt and dust. Maintains a 100% dry, never greasy or oily, fresh texture on vinyl, leather, plastic, rubber, tires and more! Water based emulsion repels dirt and dust while blocking out harmful UV rays. Surfaces treated with OER® Secret Agent Shine look shiny longer and require less cleaning. Extra thick, pure emulsion will not separate or sling and is easy to apply with towel or sponge. Industry leading sealant that aids in protecting seats, steering wheels, door panels, and dashboards against the elements.

OER® Natural Shine Matte Finish Protectant

OER® Natural Shine Matte Finish Protectant is a water based natural look dressing. It leaves surfaces supple and protected against damaging UV radiation. Like new matte finish lasts weeks and nicely complements a clean interior. Cleans, protects and beautifies in one easy step. Gently wipes away light traces of dirt while you apply. Patented UV absorber penetrates and acts as a protective barrier against harmful rays that cause premature aging, cracking, fading and peeling. Engineered to work like a lotion to soak into new vinyl or dry vinyl to aid in prolonging and strengthening the surface. Perfect for use on dashboards, vinyl tops, door panels, consoles, tires, trim, bumpers, vinyl seats, moldings and more. Available in your choice of 16 oz. bottle or professional size gallon jug.

OER® Extreme Shine Premium Metal Polish & Sealant

OER® Extreme Shine Metal Polish and Sealant cuts through layers of dulling oxides to restore a wet mirror like finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on with ease, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust or powder. The most innovative metal polish ever. A 3 step product in one, this diminishing metal polish cuts fast, cleans like no other, shines like a mirror and protects like a sealant. Utilizing friction and heat OER® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective sealant that bonds to metal surfaces reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball and drill.

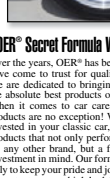
K89483 16 oz. bottle ..... 17.99 ea

Secret Weapon Polish Ball

The Secret Weapon Polish Ball bends and compresses enabling it to fit into tight spaces and make the cleaning and polishing of difficult, hard to reach areas like wheels, rims and other metal work much easier. Can be attached to any hand held drill or drill-like device for fast and superior cleaning and polishing. Great for cleaning and buffing small items like mirrors, headlight lenses and trim parts. Spacegage Dura-foam and fiber soft materials make it the most durable tool of its kind. Comes in your choice of two sizes: a 2.5 inch or 3 inch ball. Ideal for use with your favorite wax, polish, wheel product or compound.

K89490 2.5 inch polish ball ..... 26.99 ea
K89491 3 inch polish ball ..... 28.99 ea

OER® "Secret Formula" Wheel and Tire Care



OER® Secret Formula Wheel and Tire Care

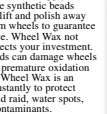
Over the years, OER® has become the name that you have come to trust for quality restoration products. We are dedicated to bringing our valued customers the absolute best products our industry has to offer. When it comes to car care, our "Secret Formula" products are no exception! We know you have a lot invested in your classic car, so we have formulated products that not only perform at a level unmatched by any other brand, but a formula that keeps your investment in mind. Our formulas are engineered not only to keep your pride and joy looking good, but also to protect your vehicle's delicate surfaces from the elements without the use of harsh damaging chemicals.

OER® Acid Free Wheel And Tire Cleaner

Spray-on and rinse-off! Easily removes deposits of brake dust, grease, and road grime from wheels. Safe for clear coated, painted, and polished finishes. This strong non-acid formula is fortified with a citrus cleaning agent. This is an industrial strength 1:1 concentrate. Dilute with water as needed. Long time accumulations of brake dust may need light agitation with a soft brush. Unlike many alternative products, OER® Acid Free Wheel Cleaner dissolves grime and brake dust without damaging your chrome and alloy wheels. Non-acidic, spray-on wipe-off formula with no scrubbing necessary and no harsh scent.

K89614 32 oz. bottle ..... 9.99 ea
K89615 1 gallon ..... 17.99 ea

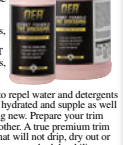
OER® Secret Formula Wheel Wax



OER® Secret Formula Wheel Wax is formulated to safely and effortlessly clean, shine, protect and prolong all types of wheels and wheel finishes. Wheel Wax delivers a high gloss durable wet shine finish on all chrome, aluminum, stainless, powder coated, and even painted wheels. Clean, polish, shine, protect and prolong in one easy step. Extremely easy to use and apply, utilizing accurate micro-size synthetic beads that gently and effortlessly lift and polish away oxidation and road film from wheels to guarantee a scratch free perfect surface. Wheel Wax not only enhances shine, it protects your investment. Harmful degreasers and acids can damage wheels reducing shine and causing premature oxidation and deterioration of wheel. Wheel Wax is an acrylic sealant that bonds instantly to protect against brake dust, heat, acid rain, water spots, airborne fallout and road contaminants.

K89486 8 oz. jar ..... 16.99 ea

OER® TNT Extended Life Tire & Trim Dressing



This unique formula quickly penetrates rubber trim and tires to hydrate and provide lasting protection. TNT Extended Life gel by OER® finally delivers on that promise. Simply wipe on using a pad and TNT gel restores the look of faded tires, trim, bumpers, seals and weatherstrip. What's more, OER® TNT gel lasts for many months, not days. Our exclusive no-streak, no-run and non-drip formula works to repel water and detergents and helps keep tire walls hydrated and supple as well as looking brand spanking new. Prepare your trim for a product unlike any other. A true premium trim restorer and protectant, that will not drip, dry out or destroy surfaces. Provides unmatched durability, ease of application and a superior "new look" shine that lasts through numerous washes. Non-greasy, non-tacky and simply amazing.

K89750

K89748

Grit Guard Wash System

This unique wash bucket provides a convenient way to store or transport all of your car cleaning supplies while doubling as an extremely effective finish protecting wash tool. The Grit Guard insert sits in the bottom of the pail to extract particles and contaminants from mitts and brushes. Gravity causes sand and dirt to settle below the guard so the wash water stays clean and scratch free.

Basic Wash System

The basic wash system includes a black pail with a yellow sealing lid and a Grit Guard insert.

K89740	3.5 gal.	28.99 ea
K89741	5 gal.	32.99 ea

Grit Guard Deluxe Wash Bucket Sets

This superb washing system features a Grit Guard insert, a heavy-duty bucket, a seat cushion and a dolly that turns the washing system into a rolling stool, so you can sit down and detail your car comfortably. Five heavy-duty smooth rolling casters roll over cracks without tipping. Two locking casters hold your washing system in place while working on inclines. The convenient spin-on lid creates a perfectly sealed storage compartment for all of your favorite cleaning supplies. Supports up to 250 pounds.

Deluxe Washing System

Air Force Master Blaster Vacuum/Blower

There's nothing more enjoyable than giving your favorite ride a little TLC. The Air Force Master Blaster is just the thing to enhance your cleaning experience. It uses twin 4.0 peak HP motors (8 peak HP) to blow warm, dry, filtered air that provides safe drying without the chance of scratching your expensive paint and chrome finish. It also speeds up drying time; minimizing water spots and blowing water out of places you can't normally get to with a towel or chamois. This isn't simply a vacuum with a hose attached to the other end, it's purposely designed to safely dry your vehicle and save your finish. The Master Blaster and Master Blaster Revolution feature a sturdy all steel construction, weigh 26 pounds, and are 22" x 8" x 11". The Master Blaster comes with a 10 ft, 1.5" flexile commercial strength hose, heavy-duty neoprene blower nozzle, with 5 additional interchangeable attachments. The blower itself is mounted on wheels. Park Perfectly Every Time

The Park Smart Mat helps guide you into your garage space letting you know exactly when to stop. Perfect for getting your classic or collectible car into the correct position in a crowded garage. As you feel yourself driving over the first bump, the second bump tells you that you have driven far enough forward. Measures: 27-1/2" x 12" x 1-1/2". Comes with a manufacturer's limited lifetime warranty. Buy one for each of your cars.

ACP101 Park Smart Mat..... 19.99 ea

Trailer Ramps

Is your trailer door too steep to get your car to the race track or autocross? Are you tired of busting up your nose? Race Ramps has just the solution for you: simply place the trailer door on the notch of these specially designed Trailer and decrease your angle of approach to as little as 4 degrees. These hassle free, lightweight ramps work for cars weighing up to 6000 pounds. Trailer Ramps are ideal for low ground clearance cars with extra wide tires.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR104 5" ..... 299.99 pr
RR105 8" ..... 299.99 pr

Wheel Chocks

Wheel Chocks are ideal for use with all Race Ramp products, providing additional safety in the working environment. Made from solid rubber composite with an extra grip bottom, they each weigh 3 pounds. Set of 4.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR109 6" L x 4" H x 5" W..... 64.99 set

Wheel Cribs

Wheel Cribs are a safe, lightweight alternative to jack stands. They cradle the tire 10" off the ground, providing unobstructed access underneath the car. Each crib supports 1500 pounds (3000 pounds per set) and weighs only 5 pounds. Wheel Cribs also can be used for car display.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR108 15" L x 10" H x 12" W..... 104.99 pr

Race Ramps

Race Ramps are ideal for vehicles with tires up to 10" wide. With an incline of only 10.75 degrees, they lift your car up 8" or 10" and hold up to 3000 pounds per set while weighing only 10 pounds per ramp. Will not slide across a garage floor, dig into an asphalt driveway, or scratch or otherwise damage a cement or painted floor. They can be used on grass, dirt, or almost any other flat surface, and they will never rust. Race Ramps come complete with straps for easy carrying and storage.

*Note: For increased safety, use Wheel Chocks with all Race Ramp products. *Shipped oversize.*

Spray-On Insulation

New!

Buy the Complete Set & Save!

BEFORE APPLICATION

AFTER APPLICATION

Shared Benefits:

- Easy spray-on application
- Continuous protective moisture barrier
- Fast clean up with soap and water
- Environmentally friendly solution
- Applicable to interior or exterior of vehicle
- Non-toxic and class A fire-rated
- Both are paintable
- Coverage is approx. 50 sq. ft/2 gallons

Sound Control Benefits:

- Provides non-combustible thermal insulation
- Able to withstand temperatures up to 500°F
- Interior temperature reduced by 30°F
- Offers a protective, seamless membrane

Ceramic Insulation Benefits:

- Protects surface from moisture and rust
- Dampens annoying rattles, vibrations and road noise
- Impressive damping to weight ratio
- Coating can withstand temperatures up to 300 degrees F

Lizard Skin® Sound Control and Ceramic Insulation

Get the comfort of premium grade insulation without the extra weight! These environmentally safe formulas from LizardSkins can be used as a one part coating or as a two stage system for a cooler, quieter driving experience. The Sound Control formula dampens unwanted engine and road and noise, while the Ceramic Insulation formula cools your vehicle up to 30 degrees F or more creating a more comfortable ride. Designed for floors, roofs, firewalls, fenders, transmission tunnels, door panels, trunks, and more, all at a combined cured weight of 52 lbs for four gallons. Insulating a vehicle has never been this easy, thanks to a custom designed application gun made specifically to handle the thick density of the coatings with ease. Order the individual components or buy a complete kit and save!

Important: For two stage applications, Sound Control coating should be used as the base. Four gallons of each coating are required to encapsulate a typical interior and trunk area of 1 vehicle, and 1 gallon of Sound Control when applied as undercoating.

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

OER® Rust Removal & Prevention

Remove Rust

OER® Dissolve Rust

OER® Chemical Restoration Dissolve Rust returns rusted surfaces to bare metal without harming the integrity of the metal. The viscous formula is reusable and will not harm plastic, rubber, seal, soft metals, or non-oxide coatings such as paint and chrome. OER® Chemical Restoration Dissolve Rust works like an acid, but is safe for you and the environment. OER® Chemical Restoration Dissolve Rust is ideal for removing rust from any part or surface that can remain damp with the product until the rust is gone!

Dissolve

OER® Dissolve Rust removes rust leaving a bare metal surface.

K86110	quart		16.99 ea

Treat Rust

OER® Etch Metal

OER® Chemical Restoration Etch Metal inhibits rust and promotes paint adhesion for bare metal surfaces. This specially formulated liquid gently etches the metal, then leaves a zinc coating that helps chemically bind paint to the surface. OER® Chemical Restoration Etch Metal is non-toxic, non-flammable and reusable. Ideal for application on bare metal parts after sandblasting or using OER® Chemical Restoration Dissolve Rust.

Etch

OER® Etch Metal removes light surface rust and leaves a coating that bonds paint to the metal surface.

K86114	quart		16.99 ea

OER® Convert Rust

OER® Chemical Restoration Convert Rust instantly neutralizes rust and converts the rusted surface, leaving a protective dark polymer coating. The inert coating provides an excellent primer base that seals out moisture to prevent future rust and corrosion. Protected surface can then be top coated with most paints. OER® Chemical Restoration Convert Rust can be applied with a brush, trigger bottle or a spray gun. Brush – A common household paint brush or foam applicator. Spray Gun – HVLP or conventional spray gun using a 1.0-1.4 nozzle at low pressure. Available in quart bottles.

Convert

OER® Convert Rust turns rust into a black, paintable polymeric coating that's ready for primer or top coat.

K86112	quart		24.99 ea

Inhibit Rust

OER® Inhibit Rust

glossy clear coat

OER® Inhibit Rust bonds to any metal substrate completely sealing the area to starve rust and oxidation, to prevent pitting, weathering, abrasion, and protect against salt spray, fuel, tar, and road debris.

Withstands temperatures up to 190 degree F with two or more coats. Clear formula eliminates the need to mask off areas and it cleans up easily with solvent cleaner. OER® Chemical Restoration Inhibit Rust also protects and provides added UV resistance to painted to powder coated surfaces. OER® Chemical Restoration Inhibit Rust protects against weathering, oxidation, pitting, salt spray, fuel, tar, road debris, and modest abrasion.

K86113	16 oz. aerosol		16.99 ea

KBS RustSeal® Corrosion Barrier Coating

After removing or treating rust on floors, subframes, or other under car components, RustSeal® Corrosion Barrier Coating works by isolating the surface from moisture and oxygen. This single component, high solids, rust stopping coating seals out the ultimate causes of rust, creating a rock hard non-porous barrier between the metal and rust promoting elements. Will not crack, chip, flake, or peel, and no hardeners or activators are needed. RustSeal® is completely unaffected by salt, gasoline, oils, battery acids, hydraulic fluids, solvents, chemicals, or corrosives.

RustSeal® Coating

Available in your choice of a wide variety of colors and sizes. Select the part number for the size of the can you need, then add the two digit numerical color code to the end of the part number to specify your desired color when ordering.

Undercoatings

New!

KBS Blacktop® Top Coat

BlackTop is a permanent, moisture cured, UV stable coating primarily used for topcoating surfaces previously sealed with RustSeal® or any other paint/primer application. BlackTop is a high-performance protective coating specifically formulated to withstand dulling and fading caused by prolonged sunlight exposure. BlackTop may be used alone as a resilient coating but offers the ultimate rust protection when used in combination with the RustSeal® corrosion barrier coating as step 1. For the best stop rust and ultraviolet protection, first apply RustSeal to permanently seal the surface and then topcoat with BlackTop for an incredibly tough and professional looking finish. Like RustSeal®, BlackTop dries to a rock hard yet flexible coating that can be readily applied to chassis, coil springs and light weight panels. BlackTop also has high heat resistance and can be applied to almost all automotive applications except exhaust systems. Blacktop is intended as a final finish for parts that have been coated with RustSeal®. Blacktop will retain its color and sheen even after repeated or prolonged exposure to direct UV light and will not degrade.

*Note: *Shipped within the continental U.S. only. Shipped ground only.*

with satin finish *with Diamond Finish*

KBS DiamondFinish® Clear Coat

DiamondFinish® Gloss Clear TopCoat is a permanent, moisture cured, UV stable coating primarily used for topcoating surfaces previously sealed with RustSeal®, for topcoating direct to metal, or to coat over any other paint/primer application. The clear coat formula can be applied direct to metal or over other coatings. This high gloss clear coat remains permanently flexible and is able to perform in the toughest environments without yellowing, cracking or peeling. Apply directly to painted surfaces with minimal surface prep. Incredibly tough and hard like no other clear coat on the market. Can be applied with a brush (without leaving any brush marks), roller and conventional spray gun. Unlike two part coatings, no hardener is needed with DiamondFinish®. Just stir and go. DiamondFinish® clear coat will cure without heat or UV lights in temperatures from 50 to 86 degrees Fahrenheit. Able to withstand the harshest of chemicals including fuels, solvents, battery acid, brake fluid, Ethanol, Methanol, MEK, Hydrochloric Acid, fertilizers, and Acetone. Graffiti resistant: because of its chemical resistance, grafitti just won't stick and can be removed simply with a solvent soaked rag. Great for high temperature automotive applications including the use on cylinder heads, engine blocks, brake components and even inlet manifolds, without yellowing up to 300 degree Fahrenheit.

Water based asphalt undercoat – Non-paintable *Solvent based asphalt undercoat – Non-paintable* *Solvent based rubberized undercoat – Paintable*

KBS Water Based and Solvent Based Undercoating

Whether you choose our water based or solvent based undercoat formulas, each produces a very tough, yet flexible film with excellent adhesion, and helps prevent road salt from eating away at your car's metal and/or fiberglass. Offers excellent adhesion to metal or painted surfaces. Provides economical paintable durability, plus moisture resistance and corrosion resistance, all in a matte black finish. Also provides sound deadening by reducing road noise and vibration. You can attach the quart size can directly to a Schutz applicator type spray gun or contents may be poured into a clean container pot that fits the applicator gun of your choice. Part #20018 undercoat gun is offered separately.

*Note: *Shipped within the continental U.S. only. Shipped ground only.*

Water Based Asphalt Undercoat – Non-Paintable

Our VOC friendly waterbased undercoating provides protection in wheel wells, gas tanks, frames, and floor pans. Being an asphalt base, it is not designed to be painted over. Dry to touch in one-hour, fully cures in 24 hours. Excess coating may be removed with soap and water.

RESTORER'S CHOICE™

New! OER® Premium Quality Aerosol Interior Paint

OER®'s revolutionary formula provides 40% more coverage than standard dyes and lacquers, and actually penetrates and molecularly bonds to the surface to permanently seal in the color. Dries to the touch in 45 seconds, forms a complete bond in just 10 minutes. UV stable and color fast, it will not crack, flake or peel. For use on vinyl, leather, plastic, metal, polycarbonate, polypropylene, polyurethane, acrylic, lexan, fiberglass and recycled plastics. One formula does it all to save you time and money! When only the best will do, use OER® Premium Quality Interior Paint.

Important: Due to variances in factory vinyl material, paint could have up to a 10% variation color difference from original.

Note: Shipped within the continental U.S. only. Shipped ground only.

KBS Motor Coater® Engine Refinishing Kit

KBS Motor Coater engine paint set has everything you need to do a superior job when you paint your engine, and even includes the step-by-step instructions needed to help you do it right. Motor Coater is easy to apply, offers superb coverage and yields a self-leveling professional looking finish brushed or sprayed. These engine enamels provide deep, rich pigmented colors for excellent coverage. Your engine will be a show stopper at this DIY price... too bad it's kept under the hood! First, KBS special engine cleaner and degreaser eliminates all dirt, grease and oil. Next, use the RustBlast to dissolve rust and prep the metal. Then, rustproof and top coat your engine with KBS Motor Coater. All of this comes in one convenient set with thinner, gloves, a brush and a stir stick.

OER® Metal Mimic FX Coating

OER® Metal Mimic FX high-performance coatings were developed to mimic the appearance of bare metal so that you can refinish and protect all of the components that were originally left unpainted by the factory. Items such as cast iron housings, aluminum housings, stainless steel parts, galvanized parts and even chrome can now be coated with a "factory correct" looking finish that is extremely durable and amazingly close to the original color.

Note: Shipped within the continental U.S. only. Shipped ground only.

OER® Factory Black Coating

OER® Factory Black Coating is available in a variety of sheen levels to help you achieve the correct factory look for your restoration. Our Ultra Flat sheen is an extremely flat non-glare finish. The next level up is our low gloss formula followed by the semi-gloss and finally our exclusive high gloss formulation. Whatever you are spraying, we have the correct sheen for an original factory black look.

Note: Shipped within the continental U.S. only. Shipped ground only.

Ultra Flat Factory Black

Extremely flat non-glare finish that is perfect for a variety of uses including underhood items like hood hinges, latches, carburetor parts, seat adjusters, pulleys, linkage, nuts, bolts, washers, screws, clips, brackets and more. Provides a durable flat black zinc phosphate look without the high cost of black zinc phosphate plating.

K89540 12 oz. can ..... 16.99 ea

Low Gloss Factory Black

A durable low gloss coating that provides a factory fresh appearance on the frame, transmission crossmember, leaf spring shackles, control arms, firewall, cowl, brake components, AC compressor or anywhere else a low gloss, but not quite flat black finish is desired.

K89541 12 oz. can ..... 16.99 ea

Semi-Gloss Factory Black

A semi-gloss coating that provides a factory fresh appearance on the underside of the hood or on inner fender skirts, battery tray, radiator support, master cylinder, front control arms, brackets, pulleys, fan blade, smog pump tail housing, starter, power steering assembly, horns, sway bars, wiper motor assembly and suspension components or anywhere else a semi-gloss black finish is desired.

K89542 12 oz. can ..... 16.99 ea

High Gloss Factory Black

A high gloss coating that is perfect for restoration of air cleaner assemblies, valve covers, radiator tanks and brackets, ignition coils, voltage regulator covers, suspension springs, wheel inserts, shock absorbers, rear axle housings, differential tubes, brake backing plates and any other parts where a durable gloss black finish is desired.

OER® Aerosol Coatings

OER® Rubberized Undercoating

A black, rubberized undercoating for all automobile under surfaces. Sprays evenly and dries completely to a smooth consistency. Can be top coated with any type of automotive finish. Prevents rust, reduces road noise, seals out water, fumes, road chemicals and dust. Special formula greatly reduces lingering odor associated with most other brands of undercoating. No "bleed through" when top coated. Use on undersides of panels, hoods and decklids, trunk interiors, section repairs, weld joints, rust holes or on chassis parts. Buy the case and save!

Note: Ships ground only. No air shipment.

OER® Professional Grade PBE Primer

OER® is pleased to offer our professional grade primers specifically formulated to meet the performance needs of body shop personnel but conveniently packaged for the automotive enthusiast. Tough and dependable, these primers adhere extremely well, prevent rust and corrosion and enhance the quality and appearance of the finished product. Large fan sprayhead gives a professional looking application. Eliminates the need for a spray gun for small repairs, reduces cleanup time. One 20 oz. can will cover as much area as four 16 oz. cans of a conventional low solids formulation.

OER® Self-Etching Sanding Primers

Manufactured with a modified acrylic resin to give you excellent adhesion to all types of metal, aluminum and prepared surfaces. Drys to the touch in 10 minutes. Dry to sand or topcoat in 15 minutes. Available individually in 20 oz. cans.

K89560	gray	.....	12.99 ea
K89561	black	.....	12.99 ea
K89562	red oxide	.....	12.99 ea

OER® High Solids Sanding Primers

A superior professional grade primer formulated with 40% solids to provide twice the coverage of conventional aerosol primers. Fewer cans needed to complete the job to save you time and money. Protects against rust and corrosion. Provides excellent adhesion with single coat hiding capability and minimum overspray. Available individually in 20 oz. cans.

Note: Shipped within the continental U.S. only. Shipped ground only.

K89575	red oxide	.....	12.99 ea
K89576	gray	.....	12.99 ea

OER® Zinc Phosphate Primers

Specially formulated primer that is chromate-free and chemically bonds with iron, steel and aluminum to form a hard, highly adherent coating. It has exceptional corrosion resistance. Ideal for spot repair of damaged coatings. Exceptional protection against rust and corrosion. Compatible under two component coatings. Forms a hard, highly adherent, water resistant coating that can be painted or left as is. Drys to the touch in 10 minutes. Available individually in 12 oz. cans.

Note: Shipped within the continental U.S. only. Shipped ground only.

K89565	green	.....	14.99 ea
K89566	yellow	.....	14.99 ea

OER® Spray Galvanized Weld-Thru™ Coating

A smooth, cold galvanizing compound that chemically fuses to bare steel and forms a extremely rust resistant barrier. Perfect for application on the inside of newly installed panels where rust prevention of new metal is important, but where the part treated will not be painted. Fast dry, sag-free spray that is abrasion resistant. Stops rust creepage, resists chemicals and is rust inhibitive. Apply it to sheet metal pieces before installation, then weld as usual. The coating will not affect the quality of the weld, and will retain is rust preventative properties. Available individually in 12 oz. cans.

Note: Shipped within the continental U.S. only. Shipped ground only.

K89567	gray	.....	16.99 ea

Experience Spray Gun Control!

Transform your aerosol container into a versatile spray gun. Using it's unique "lock-on" device, simply snap it on and spray! You'll experience better control for applying steady even coats, easy handling and comfort, all adding up to reduced fatigue. Use with paints, lubricants, cleaners, craft sprays and more! Universal fit for most aerosols.

OER® Aerosol Coatings

OER® Factory Wheel Coatings

OER® Factory Wheel Coatings are available in a variety of original colors so you can achieve the correct factory look on the restoration of your wheels. Eliminates the need for expensive custom paint mixing and greatly simplifies the restoration process by providing spray gun results without the hassle and mess of a spray gun or the need for an air compressor.

Note: Shipped within the continental U.S. only. Shipped ground only.

Argent Silver

Correct color and sheen for the restoration of Ford wheels. Makes your wheels look like they just rolled out of the factory.

K89320 12 oz. can ..... 16.99 ea

Low Luster Gray Coating

Correct color and sheen for the restoration of mag wheels that call for a unique shade of gray. This gray was used on the backside and in some cases both sides of steel factory wheels. Can also be used on jack mechanism and jack base on some models.

K89410 12 oz. can ..... 16.99 ea

Wheel Insert Paint – Charcoal Gray Metallic

Charcoal gray metallic paint for the restoration of the wheel insert area on wheels. Correct color, tone and luster for a factory fresh appearance.

K89330 12 oz. can ..... 16.99 ea

1979-93 Window Felts

Reproduction front door window felt for 1979-93 Mustang models. Bring your weatherstrip back to original factory condition and improve the overall look of your Mustang while maintaining originality. Beltline weatherstrip is very important because it seals against the door glass and quarter window glass. It wipes off water and debris when putting your windows up or down. Helps to keep the rain out of the door and reduces window rattle.

1965-93 Foam Seal

This is the thin foam seal for various applications. On 1965-73 models it is needed for the roof rail retainer channel to body seal, it is the seal between the framing and the weatherstrip retainer for both 1981-88 T-top and convertible models, and 1983-93 convertible models this goes between the extruded aluminum channels that hold the weatherstrip.

Window-Weld Ribbon

Window-Weld ribbon sealer is a "tape type" sealer which is used in the replacement of windshields and rear windows on all "gasketless" models. Its unique feature of controlled compressibility allows easy installation yet will not squeeze out to allow glass to contact pinch weld. One 15 foot roll is sufficient material to replace one windshield or rear window. 3/8" x 15' rolls.

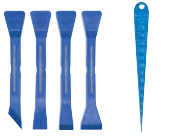
Body Molding Tools

New!

Remove Weatherstrip Easily with the Right Tools! Pry or Scrape Old Weatherstrip Away from the Vehicle and Prep for New Weatherstrip.

T2300M (7 piece)



T2301H (4 piece) *T2302*

Soft Duty for delicate prying or wedging *Med. Duty for sturdy prying or wedging* *Heavy-Duty very strong and durable*

Soft Prying and Scraping Tools

Available in 3 different fiberglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium duty tools are better for the objects that require a little more force to remove, and the heavy-duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough not to damage. With 7 tips to choose from: 3 pry bars, 2 wedge tools, a wedge puller and a sticker/gasket scraper, they can do various interior and exterior automotive jobs without the damage that metal tools can do. No chipping paint or tearing fabric. No toolbox should be without these great tools.

Multi-Wedge Prying and Scraping Tools

Multi-Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polyethylene that is incredibly ductile so they won't break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy-duty jobs like oil pan covers, timing covers or valve covers. Each 3 piece set includes: one 4" curved end, one 4" straight blade and one 3" straight blade. Buy both sets and save! The jumbo wedge is 14" in length and 2" wide, making it perfect for the big jobs.

New!

Bathtub Clip Expansion Tool

This specialty tool is used to install the bathtub shaped molding clips on earlier Mustang models.

153040 side moldings ..... 29.99 ea

New!

Windshield Locking Strip Tool

This windshield lock strip tool comes with two double ended tips to fit most windshield locking strips. Its unique design allows tip to swivel 90 degrees in either direction to work where other tools won't. Simply select the tip with the opening that most closely fits your locking strip, then feed the locking strip through the eyelet to install or remove.

Y47000 ..... 16.99 ea

Universal Molding Release Tool

The ultimate tool for cleanly releasing moldings. Slide tool left or right under the molding until it hooks a retaining clip, then just rock the tool with a twist of the wrist to release the clip. Heat treated, high carbon steel.

S21500 ..... 6.99 ea

Glass Molding Clip Installing Tool

Reduce the risk of chipped glass and scratches by using this handy tool for replacing your front or rear window glass molding. This tool is specifically designed to fit trim clips over the studs and virtually eliminates glass breakage.

A13574 ..... 29.99 ea

Windshield/Back Glass Molding Pliers

Specialty pliers for removing door handle clips and chrome molding on most windshields and rear glass. Jaws slip under door handle without damage to panel material, and offset handle permits easy access to molding clips.

Y35200 ..... 11.99 ea

Premium Auto Trim Removal Tool Kit

This 11 piece kit was designed for the removal of door panels, dashboard, trim strips, interior panels and window moldings. Made of impact resistant plastic that will not mar surfaces like metal tool will. Included for the tools is a heavy-duty nylon pouch.

TX2684 ..... 23.99 ea

08609

3M® Window Sealer

This adhesive is used for installing front and rear window weatherstrips. Packaged in 10.5 fl. oz. tube to fit standard caulking gun.

Note: 48 state ground ship only. Federal regulations prohibit air shipment of this product.

3M-8056	standard	16.99 ea
08609	rapid curing	22.99 ea

3M® Super Weatherstrip Adhesive

Adhesive used for bonding and sealing weatherstripping to trunk and doors. An excellent general purpose adhesive which is fast drying, waterproof and flexible (rubbery). Also resists oil, grease and solvents.

Made in USA

1983-04 Convertible Top Plastic Window

Convertible top rear windows often become yellowed and scratched. Plastic windows feature heavy duty 40 gauge clear plastic trimmed with premium 38 ounce material and a zipper assembly. The trim is made from the same vinyl as our convertible tops. Made in USA.
Important: Glass and plastic convertible windows can be damaged through improper installation, operation or maintenance. These are beyond the control of the distributor and, accordingly, there is no guarantee of any kind after installation of the window.

88L304 – detail

1994-04 Convertible Light Bar

High-quality fit and finish. Manufactured to fit the curves and lines of the vehicle. The high mounted LED light provides added safety with the highly visible taillight. The factory top effortlessly fits over the light bar and does not interfere with any original factory functions. The light bar is constructed of a sturdy 1-1/4" round steel tube, with a 1/8" wall thickness. The polyurethane mold is then wrapped in vinyl. The bar bolts to the B-pillar for a sturdy mount and also stiffens the body. In a couple of hours, your Mustang will be ready for the next convertible day. Complete with mounting hardware, wiring and instructions. (Installation requires drilling).
Important: Like all light and styling bars, these bars are not intended for rollover protection.

Made in USA

1974-78 OE Style Fiberglass Front Bumper

Fiberglass front bumpers offer the ultimate in lightweight durability while retaining an original appearance. Bumpers with OE trim will be able to retain the OE bumper trim, while the trim delete bumpers offer a smooth, custom look. Available in two versions, skin or bolt-on. The skin is a fiberglass bumper skin only and will require fabrication to bond directly to the stock brace. The bolt on bumper has mounting studs bonded to the bumper, and attaches directly to the stock brace. Made in USA.

Note: There is a seam on each end where the mold bolts together. This leaves a seam which will require light sanding and filler to get it ready for paint.
Shipped double oversize.

1974-78 R-Apron Fiberglass Front Bumper

Give your 1974-78 Mustang II race inspired styling with a fiberglass R-Apron front bumper. Inspired by the 1965 GT350R, this apron features a wide opening in the front to ensure maximum airflow to your radiator or intercooler. The R-Apron attaches to the flat part at the front of the fenders just like the header panel. The middle opening is made a little longer to accommodate all years, even 1974, but can be trimmed down if it interferes with the radiator. Stock bumper assembly and front valance will need to be removed. This R-Apron replaces both. Made in USA.

Note: Drilling required. Shipped double oversize.

1974-78 Mid-Tucked Fiberglass Front Bumpers

Give your 1974-78 Mustang II exterior a sleek upgrade with these new mid-tucked fiberglass front bumpers. Each bumper still looks similar to stock, but is actually shaved back about 3-1/2" for a clean, custom look. This design allows you to keep the stock cross brace and bumper shocks, they just need to be relocated back 3-1/2" on the frame (as simple as drilling 2 holes). Bumpers with stock trim will be able to retain the stock bumper trim, while the trim delete bumpers offer a smooth, custom look. Available in two versions, bolt-on or skin. The bolt on bumper has mounting studs bonded to the bumper, and attaches directly to the stock brace. The skin is a fiberglass bumper skin only and will require fabrication to bond directly to the stock brace. Made in USA.

1967-68 Eleanor Style Fiberglass Front Lower Valance

Eleanor style fiberglass front valance for 1967-68 Mustang. This valance is an accurate reproduction with all of the contours and details of the original.

Note: Shipped double oversize.

A6715	1967-68		649.99 ea

1975-78 Fiberglass Front Valance

Replacement front valance for 1975-78 Mustang II models. The front valance shipped standard on all Mustang II's and was located beneath the bumper. Each valance mounted directly to the front edge of the fenders and was attached to thick hangers on either side of the radiator. The chin spoiler (if equipped) attaches to the underside edge of the valance. Manufactured in fiberglass to factory specifications. Made in USA.

Important: Correct valance for 1975-78 models which can also be used on a 1974. The 1974 model valance was different as it did not have to accommodate a front chin spoiler.

Note: Drilling may be required. Shipped double oversize.

Rear Bumpers

New!

FM291014

Made in USA

1974-78 OE Style Fiberglass Rear Bumper

Available in two versions, bolt-on or skin, with two styles to choose from as well. Bumpers with OE trim will be able to retain the OE bumper trim, while the trim delete bumpers offers a smooth, custom look. The bolt on bumper has mounting studs bonded to the bumper, and attaches directly to the stock brace. The skin is a fiberglass bumper skin only and will require fabrication to bond directly to the stock brace. Made in USA.

Note: There is a seam on each end where the mold bolts together. This leaves a seam which will require light sanding and filler to get it ready for paint. Shipped double oversize.

8390ER

1965-66 Lower Grill Bar

Reproduction lower grill support for 1965-66 Mustang models. Located under grill opening moldings, this grill support bar installs behind the front bumper to add support to the grill and connects the headlamp assemblies to one another. The LH and RH grill moldings then are mounted to this lower grill bar support panel. This panel is a direct bolt-on replacement panel, produced in stamped steel, that comes finished in EDP coating for corrosion resistance.

Redline LumTronix Round Headlamps with LED Halo

RedLine LumTronix headlamps allow 50% more light to shine through thanks to their crystal clear lenses and a special side lens that extends past the retaining ring. This side lens is a true safety innovation and was designed to provide additional side light and increase visibility. Each headlamp features a Euro style diamond cut reflective base, diamond crystal glass, and a heat resistant composite housing. Even though no paint or tint is applied to the glass or reflector, the Black Illusion headlamps look blacked out when off thanks to the halo and lamp shields that are painted black. Headlamps are available with or without a halo, either single color halo (white) or multi-color halo (with 16 selectable colors plus the ability to adjust brightness), with or without turn signals and your choice of clear or blue H4 Halogen bulbs or H4 LED bulbs. The halo or "Angel Eyes" can also be wired as a daytime running lamp and features 23 low temp LEDs with a 100,000+ hour life, along with "fade", "flash", "strobe", and "smooth" modes that you can choose with the included wireless remote. Headlamps plug directly into your stock harness for a simple and easy installation. Each pair includes: two headlights, two bulbs, dust boots, ceramic tip pigtail harness adapter and instructions. Multi-color halo sets also include the RGB harness and wireless remote.

Important: Will fit most vehicles (cars, trucks, motorcycles and motor homes) made from 1936 to 1979, as well as many vehicles made after 1979 that use a universal round style headlight.
Note: Blue Halogen bulbs are blue in color when off, and bright white when on (no blue tint). Clear Halogen bulbs are clear in color when off and bright white when on. LED bulbs include colored film to change the look and temperature color of your lights.

H4 LED Headlight Bulbs

Upgrade your stock Halogen bulbs with a pair of premium LED headlight bulbs from Redline Lumtronix. With a 50,000 hour lifespan, you won't have to change the bulbs as frequently, meaning you'll spend more time on the road than in the garage. Each bulb is 300% brighter than your stock Halogen bulbs as well as a direct-fit, "Plug and Play" upgrade that requires no modification to your electrical wiring. LED bulbs include colored film to change the look and temperature color of your lights.

LED Projector Headlamps

Dapper Lighting LED projector headlamps provide the classic look while substantially upgrading the quality and spread of light. These replacement bulbs feature glass lenses, Bi-LED projectors, and a slim flat base design. These features eliminate the extra wiring and bucket modifications associated with HID lighting. They offer a quick and clean install and a significant increase in performance, reliability, and safety. Available with clear or black lenses and with or without halos. The halos are available in solid, dashed, and HDR styles.

7" High-Performance Xenon Lamp Kit

50% brighter than Halogen, yet street legal. High-quality construction. Classic 7" universal Xenon low and high beam headlight set for quad lighting on your 1964-68 Mustang, or 1970-78 Mustang. Perfect for restoration, muscle cars and hot rods. The lead crystal glass lens does not oxidize (become hazy or accumulate film) like plastic lenses. Added lead enhances glass strength. Prismatic lens provides superior photo metric light distribution. Four time finished vacuum metalized steel reflectors improve reflection 4-to-1 next to stock. Bulb assembly protected by high density silicone rubber boot with venting to guard against dirt and moisture. The set includes: 2 headlights, 2 H4 Xenon bulbs 60/55 Watt, and 2 rubber boots.

50% brighter than Halogen, yet street legal. Xenon bulbs are included. High-quality construction and lead crystal lens. Classic 5-3/4" universal Xenon low and high beam headlight set for quad lighting on your 1969 Mustang. Perfect for restoration, muscle cars and hot rods. The lead crystal glass lens does not oxidize (become hazy or accumulate film) like plastic lenses. Added lead enhances glass strength. Prismatic lens provides superior photo-metric light distribution. Four time finished vacuum metalized steel reflectors improve reflection 4-to-1 next to stock. Bulb assembly protected by high density silicone rubber boot with venting to guard against dirt and moisture. Included in each set are: 2 headlight assemblies, 2 H4 Xenon Bulbs (60/ 55W), and 2 rubber boots. The high beam sets also include 2 H4/ H1 (H5001) pigtail adapters.

High-Performance Bulbs Improve Night Driving Safety!

Available in a variety of bulb types and wattages to fit your specific needs, our Halogen and Xenon bulbs are perfect way to improve visibility at night without breaking the bank. Halogen technology stems from late '60's and although a superior light to incandescent bulb technology, it is still inferior to current technology of Xenon and HID bulbs as commonly used today! The Xenon gas mixture used in Xenon bulbs burns roughly 20% brighter than traditional Halogen gas mixed bulbs, thereby allowing the filament to burn hotter for a better light. If you choose a bulb that is of a higher wattage than stock, we recommend installing our upgrade harness sold separately. Some bulbs are sold as a pair, while others are sold individually. Be sure to refer to unit of measure for details when ordering.

H4 Headlamp Wiring Harness Upgrade

Our wiring harness set upgrades the thin stock headlamp wiring on your vehicle, providing your new bulbs with maximum power and decreasing the chance of overloading (and possibly melting) your stock wiring and headlamp connectors. Power will be drawn directly from your battery, eliminating voltage drops and ensuring headlamp system reliability. Each upgrade set installs easily in 5-10 minutes without any cutting or splicing. Two 30 amp relays provide added protection for your headlamp switch and wiring harness.

Heavy-Duty 3 Wire Headlamp Plug & Pigtail and Relay & Fuse

This replacement, heavy-duty 3 wire headlamp plug will replace the original plug on most vehicles equipped with dual filament low/high beam headlamps that require a standard classic 3 prong connector. Correct style 3 connector plug comes with a short pigtail. Will require cutting and splicing to install into the original wire harness. This heavy-duty pigtail is produced with heavier gauge wire than many stock vehicles, which makes it an ideal replacement pigtail for vehicles running H4 headlight conversions. Also available is a relay and fuse assembly you can use to rrotect your H4 investment. Relay and fuse is a 5 prong 30 amp relay and 20 amp fuse set with 14 gauge wire leads.

LED Replacement Light Bulb

New!

OER AUTHORIZED

500577

Brighten up your tail and back-up lamps with these direct replacement LED bulbs. LED lighting is safer than conventional incandescent bulbs, shining up to 3 times brighter and lighting up more quickly. Plus they last longer, don't get hot, and require fewer amps. LEDs flash on almost instantly, in approximately .05 seconds, giving the driver behind you valuable reaction time. These are available in the common dual contact 1157 tail/stop lamp bulb and the single contact 1156 back-up lamp bulb.

Body Styling Kits

New!

Monroe Handler 7 Piece Wide Body Kit

Made in USA

Built by Monroe Shocks and Hot Rod magazine in Hot Rod's 1977 June, July, and August issues, the original Monroe Handler was designed to showcase Monroe's new Handler line of shocks. This one-off production featured an upgraded exterior with steel IMSA style fenders and other enhancements that drastically changed the look of the Mustang II. Highly desired ever since, you now have a chance to recreate this one of a kind vehicle with our Monroe Handler 7 piece wide body kit. Manufactured from fiberglass with a smooth gel coat finish, each kit includes the front nose, left and right front fenders, left and right rear quarter panels, rear roll pan and rear spoiler. Available as a 7 piece kit or sold individually as well. Made in USA.
*Important: Fits hatchback models only. Does not fit coupes. Gel coat finish will either be black or white. *Rear roll pan is smooth.*
Note: Drop ship. Parts are made to order. Please allow 4-6 weeks for delivery. Shipped truck freight.

1987-93 Cobra Ground Effects Kits

Upgrade the look of your 1987-93 Mustang GT with a Cervini's Cobra ground effects kit. In 1993, Ford's Special Vehicle Team launched a new version of the popular fox body Mustang, with improved power, handling, and styling. Now Mustang GT owners show off their tailpipes and clean up their body lines with a Cobra kit, made with OEM grade urethane for better fitment and durability. Cobra conversion kits include: cobra grill insert with pony emblem, front fender extensions, side skirts, and rear bumper cover. The entire kit installs to all factory locations.

Note: *Mustang LX models require a GT front bumpers and GT door moldings.*

1975-78 Cobra II Fiberglass Front Chin Spoiler

Replacement front chin spoiler for 1975-78 Cobra II models. The front chin spoiler attaches to the underside edge of the front valance and was originally part of the Cobra II package. This spoiler will also fit 1974-78 Mustang II's looking to add a little more style. Manufactured in fiberglass, each spoiler is made to factory specifications and will bolt in just like the original. Made in USA.

***Important:** The front chin spoiler attaches to the underside edge of the front valance. 1974 models were not originally equipped with a front chin spoiler and therefore will require the use of a 1975-78 front valance to work.*

Note: Drilling required. Mounting hardware not included.

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

Important Information Before Attempting to Install Sheet Metal!

Regarding Minor Imperfections in Panels:

The sheet metal you receive may have scratches, dings, small dents and other minor imperfections which are considered normal sheet metal characteristics due to the nature of the product. These minor imperfections will be easily corrected during the filling, priming and sanding phase of your sheet metal installation. Classic Industries® does not consider dings, scratches, minor dents or other imperfections on the sheet metal to be defects in the panel nor are they considered damaged. All sheet metal panels will require some sort of preparation and manipulation during installation. Every panel that we sell is inspected and then carefully packaged to protect against damage that may occur during transit.

Test Fit All Panels Prior to Paint and Installation:

Classic Industries® recommends test fitting all sheet metal panels prior to final paint and installation. Minor modifications including elongating mounting holes, adding additional shims, etc. are normal and may be necessary when installing sheet metal. It is important to note that hard driving conditions, like racing, can twist bodies and frames out of original tolerances. Poor body work from previous collisions can cause problems with the body structure that the panels are attached to. Some vehicles were manufactured with a unitized body (no frame) thus causing even the most minor accident to twist the body creating a situation that would cause sheet metal panel misalignments. Take into consideration that tolerances on classic vehicles are not nearly as exact as they are on modern vehicles. This is primarily due to the hand fitting of panels at the factory on most antique and classic cars as opposed to the robotics used in today's modern factories. All of these factors will affect the way your new reproduction sheet metal will install and fit on the car. There is really no such thing as a direct fit body panel when it comes to older vehicles.

Returns and Defects:

Prior to returning any defective body panel or sheet metal item to Classic Industries®, please contact our customer service department. Classic Industries® will not replace a panel, nor will we be responsible for freight on returns should it be deemed that the panel is not defective. See policies for more information.

For Best Results, Hire a Professional to Install the Panels:

Classic Industries® recommends that you hire a professional paint and body technician that has the skills, knowledge and experience necessary to install the new panels on your vehicle. A professional body technician will be able to prepare the panels for installation and repair any imperfections.

When Welding Sheet Metal Products . . .

Save time when replacing sheet metal by using Classic Industries® new, innovative "Weld-Thru™" primed sheet metal products. Our all new coating process is designed to eliminate the unnecessary process of grinding or sanding the EDP coating off to ensure a solid and rust free weld. This "Weld-Thru™" primer requires minimal preparation and eliminates corrosion problems between overlapped panels and layered spot welds. It also minimizes heat zone problems, reduces panel distortion, and allows better penetration into the dense replacement steel to compensate for the older metal's impurities. Look for the "Weld-Thru™" logo when purchasing sheet metal products to save time during installation of weld-on sheet metal repair panels.

Some Guidelines on EDP Coating

Many sheet metal products are delivered with a black electrophoretically deposited coating (EDP, or E-coat) for superior long-term corrosion protection, while others use a similar lacquer-based coating designed to provide protection for storage and shipping. Before panel installation, Classic Industries® recommends applying lacquer thinner with a shop towel to determine the type of coating. If the coating is removed by lacquer thinner, then it should be completely stripped from the product before any primer or paint is applied. If the lacquer thinner does not remove the EDP coating, it can simply be prepped, primed and painted without stripping.

Classic Industries® The Restorer's Choice™

Count on the Classic Industries® Restorer's Choice™ symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. Products denoted throughout the catalog with this symbol are officially approved by Classic Industries® as a genuine restoration product. Look for the Restorer's Choice™ logo. The Classic Industries® symbol is your assurance of quality.

1975-78 Mustang Fiberglass Hoods

Fiberglass hoods for 1975-78 Mustang II models. Weighing as little as 17 pounds, these hoods were molded off originals and designed with weight savings and performance in mind. The top side of the hood features a smooth gel coat finish which reduces the amount of time required to prep for paint. Hoods are available with 2 options, bolt on or pin on. Bolt on hoods feature the inner hood structure underneath and use the stock hinges in the rear, requiring hood pins for the front. Pin on hoods do not use hinges and will require hood pins for the front and rear. Pin-on hoods are considered true race hoods or "hood skins", as they are lighter and there is no inner structure. Choose between a OE style, carbon fiber, cowl, or ram air hood. Hood pins sold separately. Made in USA.

Important: Hood pins required. No provisions for hood latch.

Note: †Fiberglass hood with carbon fiber overlay. ‡Ram air hoods have closed ports. Fits 1975-78 models only. 1974 hoods are currently unavailable. Shipped truck freight.

Designed after the 2003 SVT Cobra, this heat extractor hood from Cervini's brings aggressive Terminator styling to your 1987-04 Mustang. Features two open heat extractor vents with Cobra inserts to allow hot air to escape the engine bay. Manufactured from steel reinforced fiberglass with a finished underside that can be painted for a show quality appearance. Hood comes unfinished, should be test fitted, prepped, and painted prior to installation. Installs with OEM hinges, latch and hardware. Includes full instructions and additional hardware.
Note: Shipped truck freight.

1999-04 Stalker 2 Hood

Cervini's 1999-04 Mustang Stalker 2 Hood is designed with form and function in mind. Not only does the Ram Air scoop add modern styling, it delivers fresh cool air to your engine compartment. Twin heat extractor vents remove excess heat for cooler engine temperatures and circulating cool airflow translates into more consistent power and performance. Manufactured from premium hand laid fiberglass with a fully finished underside. Hood comes unfinished, should be test fitted, prepped, and painted prior to installation. Installs with OEM hinges, latch and hardware. Includes additional installation hardware.

1965-66 Shelby Style Hood Scoop

Make your stock hood look like a 1965-66 Shelby with a "bolt-on" Shelby style GT 350 hood scoop. This hood scoop is a great replacement for your original Shelby GT350 hood scoop or as an upgrade for your 1964-66 Mustang. The mounting location is 2" from the rear edge of the hood. This fiberglass piece will require prepping, priming and painting prior to installation. The installation requires drilling eight holes into the hood to mount to molded studs.

1965-66 GT350 Hood Scoop Stamped Steel

Add the authentic look of a Shelby GT350 hood scoop to any 1965-66 Mustang with this new stamped steel GT350 style hood scoop. This perfectly contoured hood scoop design is an exact replica of the original GT350 hood scoop. Each stamping is made on new tooling that was created using a digital scan taken from an extremely rare 1966 GT350 all steel hood. The new scoop can be brazed, welded or bonded to an original or aftermarket steel hood with superior results compared to a fiberglass hood scoop. The precision stamped steel form requires less installation work and is easier to blend than a thicker fiberglass scoop. For a more custom appearance, the stamped steel scoops can also be riveted in place like those found on classic Shelby Cobras. Each scoop comes ready to prep and paint with a semi-gloss black finish.

16025G 1965-66 ..... 111.99 ea

1965-70 Fastback Body Brackets

When you begin a full restoration on your Mustang you may discover rust on the inner structure of the body. With a body bracket kit, you will get all the brackets and bracing your Mustang needs for a strong structurally sound body. These are the hidden brackets behind the body that act as bracing for the cars structure.

D121652

1964-70 Mustang Selecta-Speed Wiper System

Bring your Mustang into the 21st Century! Specifically designed for your 1964-70 Mustang, the Selecta-Speed wiper system contains a low profile, seven speed wiper motor (with five different delays, a low and a high speed), rotary switch, and a new wiring harness as well as a new wiper motor cover. This kit will also utilize your factory wiper knob and bezel. The wiper switch and wiring harness plug into a wiper control module located under the dash. The wiper motor connector is already installed on the wiring harness, saving you from having to pin out the wiper motor connector. The wiring harness has also been simplified with new wiper control module design. The wiper switch and wiring harness plug into a wiper control module located under the dash. Modern OE wiper motor design is more compact for a clean look on the firewall giving additional clearance for your brake booster, valve covers, etc. The rotary wiper switch features a push button function for a windshield washer option. The wiring harness includes a weather pack connector/harness for an inline windshield washer pump.

Note: Washer pump kit sold separately. Washer tank not included.

1967-68 OEM Style Power Steering Conversion Kit

This is a factory style power steering conversion from manual steering for 1967-68, 289/302 without AC. Includes: power steering pump with pulley and bracket, power steering cylinder with boot, all hoses and hose insulators, pump dipstick, control valve, chrome crankshaft and water pump pulleys, and hardware kit for the pump and cylinder bracket.

Note: Power steering belt not included.

PSCK2 1967-68 ..... 1015.99 kit

Late 1967-69 Manual to Modern Power Steering Conversion

This is a power steering conversion from manual to a modern power steering box for late 1967-69 Mustang 289 (exc. HiPo)/302-2V/351 with manual steering, cast iron water pump, auto transmission, with or without air conditioning. Clean installation. No expensive power control valve. No low hanging power steering hoses. Has a 16:1 ratio instead of a 19:1. Includes: power steering gearbox with hardware, power steering pump with pulley, mounting bracket with hardware, power steering hoses, rag joint, and pitman arm. Crank pulley and V-belt sold separately.

Note: Late 1967 Mustangs will have a rag joint near the bottom of the steering shaft. Early 1967 Mustangs will have a solid, 1 piece steering shaft.

5653 1967-69 289 289, 302-2V, 351 ..... 1289.99 kit

Late 1967-70 Modern Power Steering Upgrade

This is a power steering upgrade from power assisted to a modern power steering system for late 1967-70 Mustang 289 (exc.HiPo)/302-2V/351 with factory power steering, cast iron water pump, auto transmission, with or without air conditioning. Clean installation. No expensive power control valve. No low hanging power steering hoses. Has a 16:1 ratio instead of a 19:1. Includes: power steering gearbox with hardware, power steering pump with pulley, mounting bracket with hardware, power steering hoses, rag joint, and pitman arm, power steering hoses, control valve adapter, rag joint, and pitman arm. V-belt sold separately.

Note: Late 1967 Mustangs will have a rag joint near the bottom of the steering shaft. Early 1967 Mustangs will have a solid, 1 piece steering shaft. You can use a late 1967-70 Mustang manual center link and not use the control valve adaptor. Control valve adapters are non-returnable except for replacement of a defective valve.

Warning: Concerning Steering Pump Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

1965-70 Rack and Pinion Cradle Set

Flaming River power rack and pinion cradle sets for 1965-70 Mustang models. These sets are stronger, lighter, and more responsive than the stock steering system while retaining the full factory turning radius and increasing travel. Flaming River Mustang power cradle sets feature a welded cradle that bolts directly to existing holes in the frame, no cutting, drilling, or welding required. Power and manual sets are available to fit with the original or Granada spindles and come with or without columns that are paintable or polished. Includes: mounting hardware, wiring connectors, universal joints, a power steering pump, a billet bracket and pulley, and a polished aluminum reservoir.

Note: The power rack and pinion set is recommended for vehicles with small block engines and automatic transmissions. Set was designed for use with the original exhaust manifolds. Some headers may not work with this rack and pinion cradle system. Shipped double oversize.

1964-04 Pro-Alignment Caster/Camber Kit

Eibach's complete range of Pro-Alignment kits for your Mustang models. Kits provide a simple, affordable solution to correct excessive negative camber. These alignment kits not only assist in adjusting a vehicle's camber back to factory specifications, but they also allow an experienced chassis tuner to utilize the increased adjustment range to "dial-in" a performance oriented alignment that uses negative camber to maximize a chassis true potential. With correct alignment, high speed stability is enhanced, turn-in becomes more precise, handling becomes crisp and predictable.

1979-04 Caster Camber Plates

Dial in extra caster for straight line tracking and extra camber for tight cornering grip or set the car up for best tire wear with these Steeda caster camber plates. Unlike other plates that are one size fits all years, these plates have been specifically designed for each body-style strut towers. TIG welded and nickel-plated for strength and durability. Includes full instructions along with alignment suggestions to help setup your Mustang for street of track use.

88L349

1979-04 Caster Camber Plates

Maximum Motorsports Mustang caster camber plates provide the means to properly align your Mustang's front wheels. Especially well-suited for lowered Mustangs due to an innovative double adjustable plate design which provides a much wider range of adjustment for camber than the stock adjustment slots. Constructed from laser cut high grade alloy steel, USA made spherical bearings, and available in powder coated black or chrome finish. Includes installation hardware.

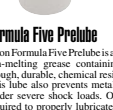
Super Grease

This silicone based grease will reduce squeaking and keep your polyurethane bushings quiet. This waterproof, high temperature, high pressure formula is ideal for use in grease guns.

H3101	14 oz. tube	31.99 ea

New!

ENERGY SUSPENSION



Made in USA

Formula Five Prelube

Energy Suspension Formula Five Prelube is a versatile, waterproof, non-melting grease containing PTFE. These forms a tough, durable, chemical resistant film of lubricant. This lube also prevents metal-to-metal contact even under severe shock loads. Only small amounts are required to properly lubricate bushings and metal components and to prevent corrosion. Use this when assembling your polyurethane bushings to your suspension.

Important: Only small amounts of this prelube are needed when assembling components.

1964-04 Subframe Connectors

Global West subframe connectors for 1964-04 Ford Mustang models. Subframe connectors provide resistance to classic flex, increasing its rigidity, improving response and handling. They are constructed from black powder coated 1.625 o.d. x .125 wall DOM (Drawn Over Mandrel) round tubing for superior torsional twist, weight savings and ground clearance. Includes instructions and additional gussets.

1974-78 Subframe Connector Set

Strengthen your chassis and improve your Mustang II's traction and handling with a pair of bolt-on style subframe connectors. Designed as a bolt-on installation, these subframe connectors can also be welded on for even greater support and strength! Each connector will bolt to your front frame extension and rear frame rail, making your coupe or hatchback feel stiffer and handle better. Features a black powder coated finish with mounting hardware included.

Note: Picture for reference purposes only. Product may vary.

1979-04 Cobra IRS Subframe Bushings

IRS subframe bushings for 1999-04 Cobra IRS in 1979-04 Mustangs. These durable polyurethane bushings will improve handling and reduce wheel hop by reducing the deflection caused by the soft OEM rubber bushings. The 1979-98 kits are specially designed with smaller sleeves for swapping Cobra IRS into earlier chassis. *FM110190R* The 1999-04 kits are performance upgrades for Mustang Cobras.

Note: Use the 1999-04 kit when swapping IRS into non-cobra 1999-04 Mustangs.

1979-04 Gripp Subframe Connectors

Add chassis strength, rigidity and handling performance with these Gripp subframe connectors for 1979-04 Mustang models. Super strong boxed steel connectors will give your unibody Mustang the support of a full frame chassis. Manufactured with super strong boxed steel, with die stamped brackets, and fully sealed precision welds. Available in gloss gray metallic power coated finish. Options include extra supportive seat mounting brackets for additional strength and safety.

Note: Subframe connectors are bolt-on application but can be welded in place for maximum strength. Some Cobra and convertible models require removal of front bracket on subframe connector to clear transmission crossmember.

1988-04 Strut Tower Brace

Steeda's strut tower brace feature super strong 4130N chromoly alloy steel, making them more than twice as strong as other bars without adding any additional weight. Without a strut tower brace, shock towers flex up to 1/4" during hard corners but Steeda's strut tower brace strengthens the front of your car, eliminating suspension flex and cowl shake, while improving steering response and handling. Extra clearance for popular aftermarket intakes and superchargers make them a perfect upgrade.

Suspension Kits

New!

H800412

Features:

- Engineered to work together as a complete suspension package (TVS).
- Easy bolt on installation with no major modifications.
- No mixing and matching parts, one convenient kit.
- Front coil springs 700 lbs/in with 0.5" drop and rear heavy-duty multi-leaf rear leaf springs 180 lbs/in with 1.5" drop.
- Tubular upper and lower control arms and adjustable strut rods with spherical heim joints.
- Performance front and rear sway bars complete with all hardware needed.
- Front and rear Hotchkis tuned 1.5 street performance series shocks by Fox.

Made in USA

1964-70 Stage 2 TVS Suspension

This kit is all-inclusive and has been designed and tested as a system for your 1964-70 Ford Mustang Coupe Fastback or Convertible. No need to mix and match components since this kit contains all of the necessary engineered parts for a suspension that rides better and gives you better control of your Mustang in corners and winding roads. This kit offers a sleek lowered stance dramatically improved handling steering response and driver control by reducing body roll while giving you a sporty yet comfortable ride. Proudly made in the USA.

Important: Welding of the subframe connectors is required.

Note: *Shipped truck freight from vendor.*

1987-04 B6 Sport Series Shocks & Struts

Bilstein B6 series are the perfect choice for a dual purpose Mustang that sees aggressive street driving and occasional open tracking. The B6 sport struts and shocks are intended for a high-performance street driven car equipped with stock springs or coilovers with a spring rate of 250-325 lb in. The Monotube design has better heat dissipation that twin tube dampers, keeps oil cooler and decreases heat induced damper fade. Made to last with high grade alloy steel mounting ears and finished in yellow paint. Sold individually.

Eibach

EB3700

Made in USA

1964-04 Pro-Kit Lowering Springs

With Eibach's proprietary, progressive rate spring design, Pro-Kit springs provide the ultimate balance to take your passion for driving to a whole new level. Each Pro-Kit is designed and tested by Eibach's suspension engineers and performance driving professionals to deliver high-performance handling and aggressive good looks, without compromising safety or ride quality. Eibach's Pro-Kit spring system lowers the car's center of gravity, reducing squat during acceleration, body roll in corners and excessive nose dive under braking. The kit also reduces excessive fender well clearance, making your car look just as hot as it performs!

Note: PRO-KIT spring rates are measured as a system of front or rear suspension, 10mm of bump-stop deflection is included in the final rate of the system.

LOCK RIGHT®

PT1830 PT1810

Ford Performance Locker

Powertrax Lock Right performance locker for Ford 8" and 9" rear ends. These lockers replace the spider gears in your open differential carrier without affecting your ring and pinion settings. They can be installed with common hand tools in a matter of hours. There straight line performance is equal to a solid spool axle, yet they automatically unlock allowing full differentiation during turns. They also reduce the excessive noise, tire wear, and drivetrain damage associated with other lockers. Utilizes stock open differential carrier and side gears. Will work with 8" or 9" rear ends with 28 or 31 spline axles. This high-performance system is best suited for vehicles that see extreme off-road and severe on-road use.

Differential Cover FilterMag

FilterMag's powerful rare earth magnets trap and hold wear inducing metal particles smaller than 40-microns down to 1-micron that the filter cannot stop. The supernstrong magnetic force holds FilterMag to the cover, are reusable and will reduce maintenance costs by extending the life of your oil. Curved FilterMag's are available for engine oil filters, and a flat style is available for automatic transmission pans. The super strong FilterMag will keep metal particles from harming your differential. The rear end FilterMag attaches to the inside of the differential cover and will help keep it running its best. Install when replacing the rear end gasket.

Note: Mounts to inside of differential cover.

Royal Purple® Max Gear Oil

Max-Gear is an ultra-tough automotive gear oil. It's designed to maximize power and provide unsurpassed protection to heavily loaded gears. It makes gears run smoother, quieter, cooler and longer without overhauls. Max-Gear outperforms other gear oils because it combines the highest quality synthetic oils with Royal Purple's proprietary Synslide additive technology. Max-Gear is recommended for use in truck, motor home / RV, and automotive front or rear differentials, manual transmissions, and lower gear units of marine engines that specify use of an API GL-5 or GL-4 fluid. All viscosities of Max-Gear are formulated with hypoid friction modifiers necessary for use in clutch or cone type differentials. No additional additives are necessary.

1964-73 Dynalite Pro Series – 4 Piston

Wilwood disc brake kits for 1964-73 models. Dynalite Pro Series front hub sets are engineered for competition or sports driving applications and offer big stopping power in severe heat conditions with up to 35 pounds of weight savings off the front end. Includes: 10.75", 11", or 12.19" plain or drilled and slotted rotors, forged billet Dynalite 4 piston calipers, and low dust, low noise brake pads for big brake stopping power. Provides plenty of clearance for popular 15" wheels. These kits can be used with manual or power assisted master cylinders. For use on factory drum or disc spindles only. Available with plain or drilled and slotted rotors and red or black calipers. Kit features 1/2" - 20 wheel studs.

Note: Brake kits require different flexlines. 22012168 for 1964-69 and 2209195 for 1970-73 models. 14011072 rotors are 12.19" with 0.81" width. Shipped overweight.

1964-69 Classic Series Dynalite Front Brake Kit

Wilwood's Classic Series front disc brake kits for 1964-66 V8 spindles and all 1967-69 Ford Mustang models offer disc brake upgrade solutions for OEM drum or disc spindles. These kits feature the FDL-M four piston forged aluminum caliper and 11.30" diameter x 0.94" thick one piece rotors with zero hub offset. The FDL-M caliper is a modified version of the time tested Forged Dynalite caliper, and provides the greatest amount of wheel clearance of any four piston caliper in its size class. The OEM style one piece cast iron rotors with integrated hubs simplify installation while providing superb dimensional stability and wear resistance. These versatile kits are easily optioned to suit the braking requirements and style preferences for a daily driver or the most discriminating show enthusiast. Intended vehicle applications require no modifications for installation, and clear most 14" or 15" OEM disc brake wheels. Check wheel clearance with Wilwood's clearance diagram.

Note: Kits will not fit OEM drum brake wheels.

Rear Brake Kit for 9" Axles

Both DynaPro and Dynalite Pro-Series rear disc sets provide a solution for rear axles that require a parking brake. Both offer forged billet four piston calipers, either 11.00" or 12.19" one piece drum/rotors, and high friction pads provide optimized and balanced braking for all types of builds. The neatly hidden internal shoe system provides a clean installation with superior static holding for parking.
Recommend: 3309371 Universal Parking Brake Cable Set for Wilwood rear caliper brake systems.
Important: Brake kits require different flexlines use 2207056 for 1964-73 models. May fit some 15" wheels, check wheel clearance diagram in installation instructions before purchase at www.wilwood.com.
Note: Shipped overweight.

DynaPro Series – 4 Piston

Includes: 11.00" or 12.19" one piece rotors with internal parking brake drum, forged billet 4 piston calipers, high friction pads and brackets and hardware.

BP-10 Brake Pads

Wilwood's exclusive BP-10 is an all new type of high-performance street compound. BP-10 exhibits the medium to high temperature friction characteristics of a semi-metallic based race compound with the low temperature response, quiet engagement, longer wear, and lowered dust levels normally associated with ceramic based street performance pads. The combination of these characteristics make it the perfect choice for your street machine, auto crosser, or drag racer.

Disc Brakes Conversion Sets

1964-70 Six Cylinder Disc Brake Conversion Kit

Finally, a front disc brake conversion kit designed for the 6 cylinder Mustang! Improve your standard 6 cylinder Mustang drum brakes to the safety and stopping power of front disc brakes, with this kit. Includes: single piston cast iron calipers, caliper mounting brackets, dual bowl master cylinder, 10.25 rotors, backing plates, hoses, bearings, seals, necessary hardware, and will bolt to your 6 cylinder drum brake spindles. Fits all 1964-70 Mustangs with 6 cylinder engine.

Important: *Cannot be used with factory steel wheels, minimum 14" x 7" wheels are required. For 1964 applications, you must purchase and install the #2075X brake light switch adapter. Will also fit 1963 to 1965 six cylinder Falcon, Ranchero, and Comet.*

Note: **Fits automatic transmission only. Shipped overweight.*

2B123G*	1965-66	power disc	844.99 kit
2B123Q	1967-70	front disc, 4 lug brake conversion	824.99 kit

1987-93 All Disc 5 Lug Conversion Kit

Upgrade your Mustang Fox body 4 lug braking system to this SSBC all disc 5 lug brake system. Improves braking capability and opens up more wheel options. All components are direct fit and designed to factory specifications. Includes: complete rear drum to 10.25" disc conversion kit with 5 lug rear axles, two front 11" 5 lug rotors, master cylinder, parking brake cables, proportion valve, and mounting hardware.

Important: *Some models may require front fender/fender well modifications depending on tire size and ride height. Requires 14" x 7" or larger wheels.*

Note: *This kit can also be used on all 1979-86 and 1987-93 2.3L Mustang models with additional parts, sold separately.*

A1122	1987-93		1331.99 kit

1965-73 Front Drum to Manual Disc Brake Conversion Kit

Add disc brake performance to your 1965-73 Mustang. All parts are newly manufactured from original tooling or prints. The Dual Reservoir kit (2B123E) is available for 1965-66 models. It uses the later style, dual reservoir master cylinder. All other components in this kit are normal 65-66 pieces. Each kit includes: rotors, bearings, rotor retaining hardware, rotor splash shields, calipers, caliper mounting brackets, pads and retaining hardware, flex hoses, master cylinder, pre-bent stainless steel line (if applicable), and adjustable proportioning valve, along with a five page illustrated step-by-step instruction sheet.

Note: **1964 application, part #2075X brake light switch adapter must be purchased seperately. This application also fits 1968-69 models with 1-1/4" i.d. inner front wheel bearing. Shipped overweight.*

1964-73 Aluminum Manual Master Cylinder

Wilwood tandem aluminum master cylinder for early Mustang models. They are designed primarily for manual applications and include the correct pushrod for the factory 1964-73 brake pedal. The bolt pattern matches the factory manual master cylinder mount and offer fluid outlet ports on both sides of the bore. Available in three finishes: uncoated, black, or polished and with or without a proportioning valve. Proportioning valve kit includes: stainless steel fluid tubes with preinstalled stainless tube nuts, stainless steel button head fasteners, and the black E-coated LH bracket.

Note: Will fit other years with modification.

Kit Components

26011179 valve only..... 89.99 ea

22013189 bracket and line kit..... 34.99 kit

Disc Drum Brake Proportioning Valve

This universal brake proportioning valve is designed to replace a missing or damaged factory proportioning valve on Mustangs with disc front and drum rear brakes (dual reservoir master cylinder). Includes a pressure differential switch that can be wired in to your Mustang's original warning lamp circuit. Can be modified for disc/disc operation with included instructions. Includes: proportioning valve, mounting bracket, adapter fittings, warning switch pigtail, instructions and a special tool to help bleed the system.

2B091C ..... 154.99 ea

Adj. Proportioning Valve & Distribution Block

This adjustable proportioning valve regulates rear brake pressure, helping to maintain correct brake bias between front and rear brakes. Designed for dual bowl master cylinders. Includes 5 stainless steel 3/16" fittings and wiring pigtail for rear brake light switch.

Note: This is not a direct factory replacement for original blocks and some line modifications may be necessary.

A0730 ..... 84.99 ea

Brake Proportioning Valve

This remote mounted valve can be used to adjust or maintain rear brake balance. 100-1000 psi range. Does not come with pressure gauge.

A0707 ..... 49.99 ea

26013783

Residual Pressure Valve

A 2 pound valve is used in disc brake systems where the master cylinder is mounted below the horizontal plane of the calipers and fluid drain back occurs from gravity and vibration, thereby causing excessive caliper piston retraction and a longer brake pedal stroke. A 10 pound valve is used with drum brake vehicles to compensate for return spring tension in the drums. Fittings are included.

2 Pound Valve – Blue

26013783 with fittings ..... 19.99 ea

10 Pound Valve – Red

26013784 with fittings ..... 19.99 ea

Replacement Brake Parts

2078L

1965-93 Performance Braided Stainless Steel Brake Hoses

Russell's race quality braided stainless steel brake hoses are Teflon lined, D.O.T. approved and feature the proper fittings. Tests show stopping distance improvements of up to 20% and a much firmer pedal feel. Available in 3 hose kits (two front and one rear hose) or 2 hose kits (front only). Disc brakes only.

New!

Brake Cable Clip

Reproduction of the original clip used to mount the brake cable to the rear section of the underbody frame rails. This clip is located on the inside of the frame rail. Sold individually. Use as required.

3875092 ..... 1.69 ea

1965-73 Power Brake Conversion Line

This power brake conversion line kit is needed when upgrading from a single reservoir master cylinder to a power brake kit that includes a dual reservoir master cylinder. Kit includes two universal brake lines with a double flare on one end, and the proper fittings to help you build a pair of brake lines to fit your particular application.

Note: Correct flaring and bending tools are required to install these brake lines. Professional installation is recommended.

2A040B 1965-73 ..... 19.99 kit

2K004C

1965-73 Disc Brake Splash Shield

A quality replacement splash shield. Protects the back side of disc rotors from excessive water and debris. The kit fits both sides on 1965-73 Mustang models, and includes LH and RH splash shields, and mounting hardware.

2K004B	1965-67	LH shield only	39.99 ea

Features:

- **Semi Metallic Pads:** Long wearing characteristics. Stable friction performance across wide temperature range. High friction level.
- **Extended Wear Pads:** Longer wearing. Stable friction performance across wide temperature range. Low brake rotor wear, long rotor life.
- **Ceramic Pads:** Longest wearing, most advanced material available. Low brake dust. Stable friction performance across wide temperature range.

FM110519

1984-04 Brake Pads

Brake pads are manufactured using the same positive molding process utilized by Original Equipment suppliers. Positive molding uses extreme pressure to compress the friction material and bond it to the backing plate. This process assures consistent friction material density throughout the pad, resulting in even wear and performance characteristics throughout the life of the brake pad.

Brake Pads/Shoes

FM110610

FM110609

Features:

- Extremely low dust
- High friction/torque, hot or cold
- Gentle on the rotor
- Virtually noise free
- Greatly improved braking over OE
- Extended pad life

1984-04 Hawk Front Brake Pads

These Hawk Performance HPS brake pads are designed to ensure performance, safety, and quality on the street. Hawk Performance HPS compound provides advanced braking characteristics to enhance your driving experience. This unique compound combines the safety and quality of aerospace design with the braking technology of motorsports.

Note: Hawk Performance burnishes its High-Performance Street brake pads as a final step in the factory, but all brake pads have to be bedded-in with the rotors (new or used) that they will be used against. Properly bedding-in new brake pads results in a transfer film being generated at the pad and rotor interface to maximize brake performance.

Hawk HPS Pads

These brake pads are designed for better braking than the stock replacements. HPS braking compound is a unique Ferro-Carbon formula was developed for street performance using the safety and quality of aerospace and motorsports severe duty friction technology. This means less brake fade and brake dust. These are gentle on the rotors and virtually noise free.

Hawk Ceramic

These ceramic pads are a premium, high-performance, ultra low dust, low noise brake pad option for your street legal Mustang. This ceramic pad is engineered to reduce brake NVH (Noise, Vibration and Harshness), creating a quieter performing brake pad. Furthermore, the ceramic brake pad formula has a linear friction profile that allows your Mustang's ABS brake system to work more effectively. You can expect reduced brake pad wear, lower dust output levels and a rotor friendly brake pad.

Replacement Brake Parts

FM110628

Made in USA

1987-04 Sector 27 Rotors and Brake Pad Kit

Sector 27 Rotors are a drilled and slotted design. The beveled drilled holes provide superior cooling under the most extreme conditions. The slots are rounded which provides consistent contact between the rotor and pad while also sweeping away gas and dust. To ensure long life and to reduce rust, Sector 27 Rotors are plated with silver zinc. These elements are combined with a very precise manufacturing process ensuring each and every rotor fits perfectly and is balanced to stringent specifications. Sold as a kit with brake pads. Made in USA.

Sector 27 Rotors and HPS Brake Pads

High-Performance Street (HPS) disc brake pads are world renowned for increasing stopping power on your street legal vehicle. Increasing the performance of your vehicle's braking system is easy when you choose Hawk Performance's HPS braking compound. These are burnished at the factory, but still needs to be bedded-in with the rotors.

Sector 27 Rotors and Ceramic Brake Pads

Ultimate stopping power in an ultra low dust, low noise ceramic compound! This premium, high-performance, ultra low dust, low noise compound is called Performance Ceramic. Performance Ceramic is engineered to reduce brake NVH (Noise, Vibration and Harshness), creating a quieter performing brake pad. Furthermore, the ceramic brake pad formula has a linear friction profile that allows your ABS brake system to work more effectively. These are burnished at the factory, but still needs to be bedded-in with the rotors.

Replacement Brake Parts

1987-04 High-Performance Disc Brake Rotors

Power Slot rotors feature an exclusive "tapered slot" design that runs cooler, extends brake life and significantly improves wet and dry braking performance. Besides looking trick, the CNC-machined slots force brake dust and heat away from the disc. Bright anti-corrosion plating keeps this rotor looking great. The most cost effective braking improvement you can make! Sold individually.

*Important: *Fits 2010 models produced up to 3-20-10.*

1990-04 Sector 27 Rotors

The Sector 27 rotors are drilled and slotted. These rotors feature holes and slots which are beveled and rounded to provide superior cooling and consistent contact between the rotor and pad. The slots aid in cleaning the pad and sweeping away gas and dust ensuring consistent performance stop after stop. Hawk Sector 27 rotors will allow you harder, more precise braking, with temperatures lowered as much as 180 degrees. The Sector 27 rotors are finished with a bright zinc electroplate to ensure long life and reduce corrosion.

*Note: *Also for Bullit, Mach 1, SVT.*

1964-73 Drum Brake Hardware Kit

Kit contains commonly replaced drum brake attaching hardware for two wheels.

Note: To confirm drum brake size, measure the inside diameter of your brake drums (9" or 10" diameter); and measure the width of your brake shoes (from 1-1/2" to 2-1/2" wide). Remember, front brakes are normally larger than rear brakes, so don't just measure one rear wheel brake and assume the front brakes are the same (or vice-versa).

Bleed Brakes Quickly, Simply and Cleanly!

The Mityvac Brake Bleeding set enables one person to efficiently bleed most brakes, clutches or other hydraulic systems. Choose from our sturdy plastic bleeder or heavy-duty metal bleeder.

04000 metal model ..... 109.99 set
06820 plastic model ..... 49.99 set

Brake System Power Bleeder

This is a simple, one person operation with no external power source needed. Includes a precision pressure gauge for safe operation and you can flush the entire hydraulic system without frequently refilling the reservoir. System includes 2 quart reservoir with gauge, hoses, fittings, instructions as well as two adapters that will fit most all GM master cylinders from 1947-present.

14227 power bleeder ..... 99.99 ea

One Man Brake Bleeder

Loosen the bleeder screw and fill with brake fluid. Pump the brakes until the hose is free of bubbles. Everything is included to quickly bleed brakes with no mess. Plastic bottle collects discharged fluids. Complete instructions included.

Y10900 5/16" x 3/8" ..... 8.99 ea

Centric Parts Hydraulic Assembly Fluid

Use this hydraulic brake assembly fluid to keep brake seals and o-ring properly lubricated when assembling wheel cylinders, calipers, master cylinders, and other hydraulic components. Compatible with all DOT 3 and DOT 4 brake fluids.

Important: *Not for use with mineral oil systems.*

CB2568 8 oz. bottle ..... 9.99 ea

StopTech High-Performance Brake Fluid

StopTech High-Performance DOT 4 Brake Fluid is compatible with modern ABS and stability systems. It mixes with all DOT 3 and 4 products, and is optimized resist boiling under severe temperatures. Choose from street or racing formulations. Sold in durable 500ML metal containers.

Note: *This brake fluid should not be mixed with mineral oil systems.*

CB2560 street formula ..... 14.99 ea
CB2566 racing formula ..... 24.99 ea

Brake Fluid

Wilwood offers two grades of high-performance brake fluid. Hi-Temp® 570 for severe heat. EXP 600 Plus for extreme performance under the high heat of professional motor sports. Always add new fluid to a clean system.

2908478 EXP 600, 6-16.9 oz bottles ... 111.99 cs
2902210 Hi-Temp® 570, 6-12 oz bottles 49.99 cs

DOT 5 Silicone Brake Fluid

Wilwood FIVE is a high-performance silicone brake fluid that features a non-hygroscopic blend that blocks the absorption of moisture from the air, preventing internal brake system corrosion. FIVE is paint friendly and will not harm finishes should a spill or leak occur. It is a fully DOT 5 compliant fluid meeting or exceeding FMVSS 116 and MIL-PRF-46176B-DOT specifications, and can be used in any vehicle that requires DOT 5 brake fluid.

Brake Tools

Brake And Parts Cleaner

This powerful brake and parts cleaner quickly cuts through grease and grime, but it does not leave an oily film. This fast drying formula gets the job done while using less spray compared to watered down cleaners. Non-chlorinated.

JG1210 14 oz can ..... 4.99 ea
JG1211 case of 12 - 14 oz. cans ..... 54.99 cs

Brake Pad Spreader

The tool compresses the disc brake piston for easy installation of pads. Choose from the economy spreader or professional grade pistol grip pad spreaders.

Economy Brake Pad Spreader

Y24400 ..... 9.99 ea

Professional Grade Brake Pad Spreader

Y24300 single piston ..... 49.99 ea
Y25750 dual piston ..... 57.99 ea

Handy Packer Bearing Packer

The Handy Packer works on bearings up to 3 1/2" o.d. The grease stays in the tool cavity, not on your hands. To pack a bearing, place the bearing on the piston. Press down on the cap until the old grease is forced out and the new grease shows on top of the bearing with less mess.

Y34550 ..... 19.99 ea

Universal Brake Caliper Bit Set

Nine sizes for brake caliper bolt applications. No more searching for the correct bit!

Y29150 ..... 29.99 set

Brake Pressure Gauge

The gauge comes with the six most common fitting sizes to adapt this versatile gauge right to the threaded bleeder port of either your caliper or drum system. Get the correct brake balancing with the best tool for the job.

A1704 ..... 49.99 set

Drum Brake Spring Tools

Removes and installs drum brake return springs. Choose from standard, heavy-duty or Bendix brake tools as well as brake spring pliers which include a brake spring tool.

Billet Magnum 500 Wheel

Give your classic Mustang a complete new look with Billet Rally wheels. Billet wheels are manufactured from two solid billet aluminum blocks, which are CNC-machined for lightweight performance and classic styling. Then the hoop and center are assembled to the predetermined backspacing and welded. This wheel is modeled after the original Magnum 500 with a slight difference on the face of the wheel, which is fully polished with painted slots and sits more flush with the center line of the wheel. Does not include lug nuts and will only fit on vehicles with the 5" x 4-1/2" lug pattern.
Note: Shipped overweight.

Sebring Wheel

The Sebring wheel puts you back in the day of the Trans Am era, Pony car racing! This was the wheel that was on most of the top race cars before the Minilite came into prominence. This wheel was on the factory race Mustang models. Currently used in the Australian Trans Am Series and have shown not only their beauty but their strength and durability. They will set off your Mustang when you are out on cruise night or on the autocross track showing your driving skills. These are a gravity cast, high-quality aluminium, which is then heat and aged treated to T6 specification. The Australian engineered and designed Sebring is load rated to 1780 lbs (850kg). With the pressed steel inserts, you will not damage your track day wheels during installation. After machining, the wheels are given a black and clear powder coating. The signature finish on the lip is machined by a diamond tip then brought to a high polish. Includes cap. Lug nuts sold separately.

These wheels will set off your vehicle when you are out on cruise night or on the autocross track showing off your driving skills. These are a gravity cast, high-quality aluminium which is then heat and aged treated to T6 specification. The Australian engineered and designed Superlite is over 1 pound lighter than the original Minilite and has been re-engineered to strengthen the core of the spokes, along with the center. The wheel is load rated to 1780 lbs (850kg). With the pressed steel inserts, you will not damage your track day wheels during installation. After machining, the wheels are given a silver and clear powder coated. The signature finish on the lip is machined by a diamond tip then brought to a high polish. Includes cap, lug nuts sold separately.

Trans Am Mustang clone with The Glen wheels

The Glen Wheel

This aluminum The Glen wheel puts you back in the day of the Trans Am era, Pony car racing! These wheels are currently used in the Australian Trans Am Series and have shown not only their beauty but their strength and durability. They will set off your ride when you are out on cruise night or on the autocross track showing your driving skills. These are a high-quality gravity cast aluminum and processed to the T6 specification. The wheel is over 1 pound lighter than the original The Glen wheel and 15% stronger in the spokes and core than the original. It is powder coated The Glen gray with a clear powder coated finish. Wheel has a diamond finished outside edge. Includes cap. Lug nuts are sold.

American Racing Custom Wheels — New!

The American Racing Outlaw

In the 1980's the modular wheel became the hot ticket on any late 70's or 80's muscle car. The wheels were called modular because they consisted of three elements: an aluminum wheel center (in various styles), an inner rim and an outer rim. The combination of these "modules" allowed for an unlimited range of possibilities when it came to wheel specifications. The true modular style wheels, however, were a bit pricey for the average Joe. This soon led to an influx of modular copies and 1 piece wheels built with a modular look. This modular style wheel is manufactured by American Racing. It is a 1 piece machined alloy wheel with a modular look. It comes clear coated and includes center cap. It's a good choice if you're looking for a period correct wheel design at a great price.
Note: Shipped overweight.

Showwheels Aluminum Wheel

Looking for a wheel upgrade for your classic ride? Look no further. Showwheels Streeters are one of the best looking and fitting muscle car wheels available. They have the deep lip look of modern wheels, but for your classic! Available with gray centers or fully polished, in 17", 18" and 20" diameters. Comes complete with caps (chrome metal, hex head screw on) and chrome lug nuts.

Important: The lug nuts supplied with each wheel are for vehicles with right hand threaded studs. Vehicles with left hand threaded studs will have to be converted to all right hand threaded studs.

Note: Wheels with 5 x 4" pattern include special lug nuts and tool.

Shipped overweight.

K64000

McGard© Lug Nut and Lock Kit

These specially designed McGard® nut and lock kits are made to last a lifetime. Guaranteed to out shine the competition long after others have rusted away. Each nut is identified by size directly on the head, chrome-plated and case hardened completely through. The thread strength meets or exceeds OEM specifications. Kits include: 4 locks and 16 nuts.

61614

Cragar S/S Super Sport Wheel

The Cragar S/S wheel was first introduced in 1964. By 1974 the Cragar S/S had become one of the most popular wheels of the muscle car era. Because it was chrome-plated rather than polished aluminum, it held its shine and was easier to keep clean. Instead of requiring time consuming polishing, the Cragar S/S was ready to show with a simple hosing off and wiping down. Available in a variety of sizes and configurations, these wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their car "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

CRAGAR Classic Wheels

Cragar 390 Street Pro

New!

The style of the Cragar Street Pro is reminiscent of the Halibrand Sprint which was made famous on the circle track cars of the 60's. However, the similarities stop there. Unlike the Halibrand which was made of magnesium and required constant polishing to retain its shine, the Cragar street pro is manufactured of a chrome-plated steel rim with a chrome-plated aluminum center. They clean up easily and retain their shine with a simple hosing off and wiping down. The price of original 60's era Halibrands has been pushed up by collectors and the new Halibrand wheels are also very pricey. So, if you'd like the look of a legend at about 1/4 of the price, the Cragar Street Pro is definitely the way to go. Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

Cragar 32 Series Keystone Klassics

New!

If your car is a 1960-70's model, chances are it came with narrow wheels and tiny bias ply tires. By the mid 1960's, aftermarket wheel swaps were commonplace among car enthusiasts. One of the most widely chosen aftermarket wheels available during the muscle car era was the Cragar Keystone Klassic. Popular for their composite design, the chrome-plating on the Keystone Klassics made them much easier to clean than aluminum or mag wheels because they required no polishing. Cleaning them was a breeze by just hosing them down and wiping them off. These wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their car "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

Redline Radial Tires

Classic Redline Radial Tire

Redline radial tires just like the ones popularized in the 1960's! Designed to provide the appearance of an original, each tire is brand new and offers a great way to retain originality.

Important: *When replacing bias ply tires with radials, please refer to the auto manufacturers recommendations. Rims designed for bias tires can crack because of the extra stress placed on them with radial tires. Interchangeability is not implied nor is it always possible because of rim sizes. Do not mix radial tires and bias tires on the same vehicle. Vehicles designed for bias tires may drive differently than was originally intended. Please use caution when installing.*

Note: Tires must be prepaid. Special shipping rate applies.

"Liquid Chill" Engine Coolant and Additive

New! MISHIMOTO

Mishimoto's Liquid Chill is a universal, synthetic coolant that will provide premium cooling and protection for your vehicle. Liquid Chill protects from boil over to 265 degrees F and from freezing down to -26 degrees F, inhibits corrosion, and reduces operating temps. Made with propylene glycol base and unique poly organic additives to allow for extended life of 2+ years or 250,000 miles before needing service in gasoline applications. One gallon jugs are available in full strength formula or 50/50 blend. For up to 30 degrees F cooler over just coolant alone, the universal Liquid Chill additive is available in 4 oz. bottles.

1964-70 ACP Maxcore Aluminum Radiator

ACP utilizes the perfect blend of premium aluminum grades to form an OE look while maintaining excellent high pressure strength and corrosion resistance. Fully TIG welded with a billet filler neck for continuous durability. Keep your Classic Mustang looking classic. Inspired by OE radiators Ford had manufactured, ACP has designed a product that captures the original appearance while improving performance. Along with OE styling comes a direct fit for easy installation. ACP Radiators are made specifically for the Mustang stated in each application listing. No universal fitments.

1965-04 12" Electric Engine Cooling Fan Kit

Thermostatically controlled, it only operates when forced airflow is required (such as when idling, during stop and go traffic, pulling a load, driving up a grade, etc.). Can be mounted either in front or in back of the radiator. Our kit includes: one 12" fan, thermostat fan control and all mounting hardware (nothing else to buy). Fits most 1965-73 and 1979-04 Mustangs. Requires 5-1/4" clearance between radiator and water pump shaft (or belt driven fan). For extreme use, add a second fan (fan control will operate up to two electric fans).
EF6504 electric fan kit ..... 85.99 kit
3640 12" fan only ..... 64.99 ea
3647 fan control only ..... 29.99 ea

1986-93 15" Electric Fan with Thermostat

New! Flexa-Lite

Stock fans rob up to 15HP! Our 5.0L Mustang electric fan comes with an adjustable 180-240 degrees F thermostat. Bolts right on to radiator support. Fits 1986-93 5.0L Mustang models. Your choice of straight blade design or S-blade design.
89L310 1986-93 straight blade ..... 129.99 ea
89L311 1986-93 S-blade ..... 154.99 ea

Delayed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.
TP900632 ..... 144.99 ea

Cooling Fan Shutdown

This cooling fan shutdown kit shuts down your electric cooling fan above 50-60 MPH to improve engine cooling by preventing the electric fan from fighting airflow through the radiator at highway speeds. The unit is adjustable and may be overridden by using the supplied dash mounted toggle switch. This kit is designed to be used with the supplied signal generator which must be installed into the speedometer cable.
TP900627 ..... 189.99 ea

Billet Aluminum Fan Brackets

Use this premium billet aluminum bracket set to mount your 14" or 16" Champion or Challenger Series fan. The set features four adjustable side angle brackets that attach to the side flange of the radiator. Mounting hardware is included.
MF105 billet aluminum fan brackets.... 45.99 set

MAGNAFLOW

Universal Fan Bracket Strip Set

This bracket set is used to mount your Champion or Challenger Series fan. Install the fan's 90 degree mounting feet (included with fan) to these four 7.25" long strips for solid support. Mounting hardware is included.
MF104 universal fan bracket strips ..... 19.99 set

MAGNAFLOW

MF102

Electric Fan Controllers

These sets are designed to operate Champion Series electric fans. Includes: a heavy gauge wire harness, relay, weatherproof fuse and electrical connectors.
Fixed Switch Fan Controllers

Stainless Steel Flex Fan

Flex-a-lite fan blades are designed to flex or flatten out as the RPM's climb, helping to reduce engine drag for better performance and improved fuel economy. Fan features a premium, high tech silver coating that won't degrade or lose its luster in the harsh environment of an engine compartment. Available in standard or reverse rotation along with four different diameters and six or seven blades.

Important: Must be used with a Flex-a-lite spacer or warranty will be voided. Fans features 5/8" pilot hole with a 1-3/4" to 2-1/2" slotted bolt pattern.

Made in USA

1965-93 Ford Small Block Victor Series Water Pump

Designed, cast and machined out off A356 aluminum at Edelbrock's manufacturing facility in the USA. These water pumps provide maximum cooling for the street and race track. Using state of the art racing technology, they are designed to provide maximum flow, pressure and equal distribution to the block. Water pumps only flow one direction (unless noted) for optimum efficiency. Features heavy-duty ball/roller bearing, seals, precision impeller and hub machined from billet steel. Available in several finishes.

S7311

Flexible Hose Sets

Looking for the ultimate replacement radiator and heater hoses? These flexible stainless hoses feature non-corrosive copper construction to conform to tight bends and hold shape indefinitely. Rated for high temperatures and pressure, these hoses are easily cut to custom lengths. Choose from polished aluminum or chrome finished ends.

Radiator Hose Sets

Includes: 1 length of stainless tubing, 2 rubber sleeves, 4 reducer inserts, 4 stainless steel hose clamps, and 2 end covers.

Note: 48" hose sets have double quantities of end caps, sleeves, reducers and clamps.

Purple Ice Super Coolant

Purple Ice is a high-performance, synthetic, radiator coolant additive. It reduces engine heat by reducing the surface tension of the radiator fluids for improved heat transfer. Purple Ice fosters optimum coolant flow by helping to prevent formation of scale deposits in the radiator. It also lubricates the water pump seals. Purple Ice should always be used in conjunction with antifreeze in regions where freezing temperatures occur. Purple Ice is recommended for any water/glycol pressurized cooling system, including those using the traditional green silicate based glycols or the newer OAT or HOAT based glycols.

Milodon

High Flow Performance Thermostat

The "Balanced Sleeve" design of these High Flow Thermostats equals out the pressure exerted on it by a high flow water pump allowing it to be solely regulated by coolant temperature. With the addition of a high-performance water pump and high flow thermostat, you can expect a temperature drop of up to 25 degree F on drives around town.

Note: Fits all except pre-1967, 390-428

Air Conditioning

1965-73 Perfect Fit AC Systems by Classic Auto Air

These AC kits have been designed to let you add air conditioning to any classic Mustang that was not equipped with AC from the factory. Using modern components and technology, Classic Auto Air has put together a great kit based system that easily outperforms the OEM system and utilizes your existing dash mounted controls for a clean, simple installation. Choose from four different kits custom designed for your vintage Mustang!

1986-93 AC System Upgrade Kit

Upgrade the old R-12 AC system on your 1986-93 Fox body to a more efficient and modern 134a system. This kit will improve the overall performance of your factory AC and modernize the appearance of your engine compartment. Designed to fit and replace the factory application. Eliminates all but one spring lock seals with reliable standard o-ring connections. Available with or without evaporator.

Important: *Depending upon the condition of your AC and heater system additional parts, including switches, controls, cables, ducting, vacuum and electrical harnesses, etc. may also need to be replaced. If you plan on reusing the original evaporator, it must be flushed clean to prevent contamination of newly replaced parts.*

Note: *Kit does not include any passenger compartment parts. Refrigerant is not included.*

Hi Performance Crate Engines From ATK

ATK has been building engines for over 75 years and has assembled a line of dyno-proven crate engine packages to power up your car. Classic Industries®' dedication to bringing the highest quality products on the market, combined with ATK's industry leading warranty make these Ford ATK crate engines an obvious choice. Available in various configurations including a complete, "Ready-to-Run" package for those who want to bolt their engine into their Ford muscle car and hit the road. For the ultimate in Ford crate engines, there's no better source than ATK from Classic Industries®.

Important: Not for use in pollution controlled vehicles. Computerized vehicles may need updated chips or other modifications
Note: Special order, prepaid only. Not eligible for No Fault Gold Warranty Program.

ATK by VEGA
ENGINES • HEADS • TRANSMISSIONS

Features a 24-Month/Unlimited-Mile Warranty!

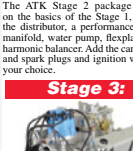
Three Stages of Performance!

Stage 1:

HP79

The ATK Stage 1 package is the basic building block of performance. Each Stage 1 motor comes with oil pump, oil pan, timing cover, and valve covers installed. Choose your own intake, fuel system, and ignition components.

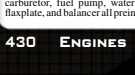
Stage 2:



HP79M

The ATK Stage 2 package builds on the basics of the Stage 1, adding the distributor, a performance intake manifold, water pump, flexplate, and harmonic balancer. Add the carburetor and spark plugs and ignition wires of your choice.

Stage 3:



HP99F

The ATK Stage 3 package is high-performance in a crate, with oil pan and pump, spark plugs and wires, timing and valve covers, distributor, performance intake manifold, carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Stage 1 Engines

302/300HP

The 302ci engine produces 300 HP and 336 lbs of torque. This engine is designed to have great street manners and work with most stock components. Includes: oil pump, black painted oil pan, chrome valve cover and timing cover installed. Just add your own fuel and ignition components.

Specifications:
HP: 300
Torque: 336

302/365HP

The 302ci engine produces 365 HP and 370 lbs of torque. This engine will have a noticeable idle and work with power brakes. Includes: oil pump, black painted oil pan, chrome valve cover and timing cover installed. Just add your own fuel and ignition components.

Specifications:
HP: 365
Torque: 370
Engine Type: Ford small block V8
Displacement: 302ci
Block: Seasoned OE roller
Crankshaft: OE Ford cast 3.000" stroke 1 piece seal externally balanced 50 oz.
Bore/Stroke: up to 4.040 x 3.000
Rods: OE steel 5.400" stock bolts
Pistons: Hypereutectic flat top
Rings: Moly
Camshaft Type: Hydraulic roller
Camshaft Lift: .512 in x .512 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: Dart Pro aluminum
Chamber Size: 58cc/170cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 9.5:1
Rocker Arms: Billet aluminum 1.6 roller
Recommended Fuel: 91+ octane
Ign. Timing: 34-36 degrees total
AT Stall Converter: 2500-2800
Note: OE 5 qt. oil pan is front sump, Fox body 5 qt. oil pan is dual sump.
HP78 OE pan ..... 4099.99 ea
HP08 foxbody pan ..... 4099.99 ea

351W/300HP

The 351Wci engine produces 300 HP and 377 lbs of torque. This engine is built for daily drivers that needed more power and torque. Includes: oil pump, black painted oil pan, chrome valve cover and timing cover installed. Just add your own fuel and ignition components.

Specifications:
HP: 300
Torque: 377
Engine Type: Ford small block V8
Displacement: 351 ci
Block: Seasoned OE roller
Crankshaft: OE Ford cast 3.500" stroke 1 piece seal externally balanced 28 oz.
Rods: OE Steel 5.955" Stock Bolts
Pistons: Hypereutectic Dished
Rings: Moly
Camshaft Type: Hydraulic roller
Camshaft Lift: .498 in x .498 ex
Duration @ .50: 219 in x 219 ex
Cylinder Heads: Dart Pro aluminum
Chamber Size: 62cc
Valve Size: 1.77 in x 1.46 ex
Compression Ratio: 9.5:1
Rocker Arms: 1.6 stamped steel
Recommended Fuel: 91+ octane
Ign. Timing: 34-36 degrees total
AT Stall Converter: 1500-2500
Oil Pan: 5 qt. rear sump
HP09 ..... 3089.99 ea

351W/385HP

The 351Wci engine produces 385 HP and 410 lbs of torque. This engine has great street manners with good horsepower. Includes: oil pump, black painted oil pan, chrome valve cover and timing cover installed. Just add your own fuel and ignition components.

Specifications:
HP: 385
Torque: 410
Engine Type: Ford small block V8
Displacement: 351ci
Block: Seasoned OE roller
Crankshaft: OE Ford cast 3.500" stroke 1 piece seal externally balanced 28 oz.
Bore/Stroke: up to 4.040 x 3.500
Rods: OE steel 5.955" stock bolts
Pistons: Hypereutectic flat top
Rings: Moly
Camshaft Type: Hydraulic roller
Camshaft Lift: .512 in x .512 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: Dart Pro 1 aluminum
Chamber Size: 58cc/170cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 9.8:1
Rocker Arms: Billet aluminum 1.6 roller
Recommended Fuel: 91+ octane
Ign. Timing: 34-36 degrees total
AT Stall Converter: 2200-2500
Oil Pan: 5 qt. front sump
HP11 ..... 4119.99 ea

331/380HP Stroker

The 331ci engine produces 380 HP and 385 lbs of torque. This engine was designed to be street able, with noticeable idle, and work with power accessories. Includes: oil pump, black painted oil pan, chrome valve cover and timing cover installed. Just add your own fuel and ignition components.

Specifications:
HP: 380
Torque: 385
Engine Type: Ford small block V8
Displacement: 331 ci
Block: Seasoned OE roller
Crankshaft: Scat Nodular iron 3.250" stroke 1 piece externally balanced 28 oz.
Bore/Stroke: up to 4.040 x 3.250
Rods: Scat 4340 Forged I beam 5.400 with ARP 8740 bolts
Pistons: Forged flat top w/4 valve reliefs
Rings: Moly
Camshaft Type: Hydraulic roller
Camshaft Lift: .512 in x .512 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: Dart Pro aluminum
Chamber Size: 58cc/170cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 10.1:1
Rocker Arms: Billet aluminum 1.6 roller
Recommended Fuel: 91+ octane
Ign. Timing: 34-36 degrees total
AT Stall Converter: 2400-2800
Oil Pan: OE 5 qt. front sump
HP14 ..... 5049.99 ea

347/410HP Stroker

The 347ci engine produces 410 HP and 415 lbs of torque. This engine was designed to be street able, with noticeable idle, and work with power accessories. Includes: oil pump, black painted oil pan, chrome valve cover and timing cover installed. Just add your own fuel and ignition components.

Specifications:
HP: 410
Torque: 415
Engine Type: Ford small block V8
Displacement: 347ci
Block: Seasoned OE roller
Crankshaft: Scat Nodular iron 3.400" stroke 1 piece externally balanced 28 oz.
Bore/Stroke: up to 4.040 x 3.400
Rods: Scat 4340 Forged I beam 5.400 with ARP 8740 bolts
Pistons: Forged flat top w/4 valve reliefs
Rings: Moly
Camshaft Type: Hydraulic roller
Camshaft Lift: .512 in x .512 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: Dart Pro aluminum
Chamber Size: 58cc/170cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 9.7:1
Rocker Arms: Billet aluminum 1.6 roller
Recommended Fuel: 91+ octane
Ign. Timing: 34-36 degrees total
AT Stall Converter: 2400-2800
Note: OE 5 qt. oil pan is front sump, Fox body 5 qt. oil pan is dual sump.

HP20M foxbody pan .. 5889.99 ea

Stage 3 Engines

302/250HP Base

Classic 302 Ford fully dressed will have stock idle, built to replace your stock worn out engine. Based off the 1980-85 Ford 302 engine. Includes: oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Specifications:
HP: 250
Torque: 335
Engine Type: Ford small block V8
Displacement: 302ci
Block: Seasoned OE roller
Crankshaft: OE Ford cast 3.000" stroke 1 piece seal externally balanced 50 oz.
Bore/Stroke: up to 4.060 x 3.000
Rods: OE steel 5.090" stock bolts
Pistons: Hypereutectic
Rings: Moly
Camshaft Type: Hydraulic flat tappet
Cylinder Heads: OE cast iron
Compression Ratio: 8.5:1
Rocker Arms: 1.5 stamped steel
Recommended Fuel: 87 octane
Ign. Timing: 34-36 degrees total
AT Stall Converter: Stock
Oil Pan: OE 5qt. front sump
Note: This particular engine is not dyno tested, you will still have to do the intital break in for this engine. May not clear OE air cleaners.

HP99F 1968-74..... 2889.99 ea

302/300HP

The 302ci engine produces 300 HP and 336 lbs of torque. This engine is designed to have great street manners and work with most stock components. Includes: oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Specifications:
HP: 300
Torque: 336
Engine Type: Ford small block V8
Displacement: 302ci
Block: Seasoned OE roller
Crankshaft: OE Ford cast 3.000" stroke 1 piece seal externally balanced 50 oz.

1964-70 Motor Mount Brackets

These brackets are the 1966 and later "tall" style that allow you to use the stronger "ear" type motor mounts in 1964-65 Mustang models, or convert 6 cylinder cars to V8. 1965 Mustang V8s with shorty headers will also need this bracket/mount conversion to make clearance for the header tubes. These brackets bolt to the frame on 1964-70 Mustangs. Sold in pairs..

1979-04 Replacement Motor Mounts

These replacement motor mounts for 1979-04 Mustangs are manufactured from superior-quality materials that will meet or exceed OE service life, performance, and ride quality. They will restore proper support to your engine and dampen the vibration and noise caused by worn out factory mounts. Sold individually.
*Note: *convertible motor mounts are a great heavy-duty upgrade for 1984-95 5.0L and 1993-95 Cobra hardtops.*

1960-73 Master Engine Hardware Set

Master engine fastener kits for your Vintage Ford. The authentic hardware you need to correctly reassemble the engine components that attach to the long block. A typical kit includes fasteners to attach: oil pan, exhaust manifolds, valve covers, carburetor to intake manifold, intake manifold, engine i.d. tag, crankshaft damper, starter, air cleaner heat shroud, points/condenser, water neck, block drain plugs, fuel pump, distributor clamp, crank pulley, timing cover, ignition coil strap and bracket, air cleaner wing nut, water pump. Each application within the kit is separately packaged and labeled, so you know exactly where the fasteners go.

Engine Components

Engine Bolt Kit

Each engine bolt kit contains 12 groups of fasteners: intake manifold bolts, valve cover bolts, thermostat housing bolts, alternator bracket bolts, distributor bracket bolts, motor mount bolts, oil pan bolts, coil bracket bolts, header bolts, front cover bolts, water pump bolts and fuel pump bolts. Your choice of Hex head or 12 point bolts in black oxide or polished stainless steel finish.

Timing Components

1964-67 Mustang Timing Chain Cover

Features a cast-in timing pointer and a deep upper cavity to match the rear of the factory aluminum water pump. This cover must be used with the early style aluminum water pump with an exposed impeller. Does not include oil fill tube hole.

6019A	1964-67	289/302/351W	.....	134.99 ea

1965-73 Mustang Timing Chain Cover

This timing chain cover is a replacement style cover that will fit any 1965-68 Mustang 260/289/302 V8 with a cast iron water pump. Original looking, intended to be used with a bolt-on timing pointer sold seperately. This cover must be used with a cast-iron water pump with a stamped steel cover plate over the back of the pump.

6019DR	1965-73	289/289 HiPo/302		69.99 ea

1967-93 Timing Chain Cover

This aluminum timing chain cover is an accurate reproduction of the 1967-93 V8 timing cover featuring a cast-in timing pointer. This cover must be used with a cast water pump with a stamped steel cover plate over the back of the pump.

6019C	1967-93	V8	.....	109.99 ea

Concerning Timing Chain Cover

Any reference to a "cast iron" or "aluminum" water pump refers to the two different types of water pump/timing chain cover combinations originally used by the Ford factory on early Mustang V8's. Some early V8 Mustangs came from the factory with an aluminum water pump featuring an exposed impeller on the back. This pump required a special timing chain cover with a deep cavity to mate properly with the exposed impeller. At some point in the 1965 production run, Ford changed over to a cast iron water pump with a stamped steel cover over the back of the pump. The timing chain cover was changed to accommodate this new pump, and features a shallow cavity where the iron pump attaches to it. Each of these early pumps MUST use the appropriate style of timing chain cover.

Aluminum Timing Cover

Stock replacement die-cast aluminum timing covers for Ford early and late model EFI 5.0L and 351W engines. Includes gaskets and crankshaft seal. Both are compatible with OEM or Edelbrock Victor Series aluminum water pumps.

Note: Part #4250 will not fit high volume oil pumps.
**With reverse rotation water pump.*

Performer-Link Timing Chain Set

Performer-Link timing chain sets have solid bushing chain for true bearing surface that rolls with the sprockets, eliminating chain stretch. Cam sprockets are made from 35,000 psi tensile strength cast iron. Crank sprocket are made from billet steel and induction heated. Include correct keyway setting points to ensure accurate timing selection for early or late model vehicles.

*Note: *Stock replacement. Performer-Link timing sets are not for use above 6500 RPM. †From 3-21-84. ††To 3-21-84.*

Harmonic Balancer Puller Set

This 13 piece set features 4 different sized attaching bolt sets to remove most common Ford harmonic balancers.
TX141 ..... 13.99 ea

BBK1553

Made in USA

1979-04 Under Drive Pulley Set

BBK Performance under drive pulley sets for 1979-04 Mustang models. Manufactured from aircraft quality machined steel or aluminum alloy. Designed as direct bolt on replacements for the current factory pulleys and retain full cooling and charging characteristics. Each pulley set is vehicle specific for maximum performance. These BBK under drive front accessory pulley sets are one of the easiest ways to free up an average 8-15 horsepower. Available in a hand polished aluminum finish. Includes: new crank, water pump, alternator pulley, complete installation instructions and allow the use of existing serpentine belts.
Note: Fits 1986-93 5.0L EFI motors (Reverse Rotation Serpentine System).

1979-2004 Billet Aluminum Under Drive Serpentine Pulley Set

We carry an assortment of anodized, billet aluminum serpentine pulley kits for your Mustang. Under drive pulleys are smaller, and turn your accessories slower which increases available horsepower by as much as 11% and can increase fuel economy up to 3 MPG! Typical set includes: alternator, crank and water pump pullies, plus any required hardware. Applications and finish colors are listed below.
*Important: * 1979-85 kits convert V-belt engines to serpentine. Includes: pulleys, PS bracket kit, alternator bracket kit and related hardware. Not recommended for cars using AC. **Not recommended for cars using AC.*

1996-04 Under Drive Pulley

89L012

Steeda's under drive pulleys are the only ones engineered to have the proper torsional vibration dampening characteristics for your 4.6L engine. Regain up to 10 horsepower and increase gas mileage by reducing the parisitic accessory drag on the engine.These pulleys are made from high-quality nodular iron and the crankshaft pulley also has injection molded bonded rubber to withstand engine heat and absorb vibration. Includes pulleys for crankshaft, water pump, alternator and the crankshaft pulley bolt.
Note: Midway through the production run for the 2001 model year Ford changed the design of the water pump resulting in a change in design for models after January 2001.

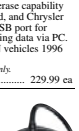
OBD II/ABS AutoScanner with Code Connect

This OBD II scanner not only displays the diagnostic trouble codes, but also offers the most probable solutions for your specific vehicle when troubleshooting details are available thanks to the Code Connect database of 3 million verified fixes. Read and erase DTCs (Diagnostic Trouble Codes), display and reset MIL (Malfunction Indicator Lamp) status, read, record and playback live sensor data, read and display I/M (Inspection/Maintenance) monitors. Other features include an OBD II emissions check and drive cycle mode, ABS code read/erase capability for most 1996 and newer GM, Ford, and Chrysler vehicles, a large, backlit LCD, a USB port for updates, and the capability of printing data via PC. Compatible with OBD II and CAN vehicles 1996 and newer.



Note: Troubleshooting data in English only.

AC9580 ..... 229.99 ea

OBD II PocketScan Plus

PocketScan® Plus is the most advanced compact code reader available! Besides automatically reading DTCs (Diagnostic Trouble Codes), this scan tool provides freeze frame data, VIN info and performs I/M-readiness (Inspection Maintenance) testing. Displays over 4000 OBDII generic code definitions and is compatible with all 1996 and newer vehicles (OBD II and CAN).

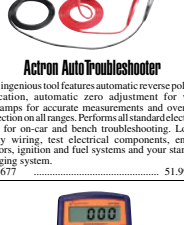
AC9550 ..... 79.99 ea

6V Inspection Camera

Thanks to advanced digital imaging technology, you can now see areas that were out of view and unreachable with inspection mirrors. Features a 3" high resolution color LCD display and small 8mm (0.32") camera head. The camera features a 2 setting 180 degree view flip, 12 setting adjustable zoom (up to 250%), and 5 setting LED brightness control, and a video-out port for viewing on full size monitors. The waterproof camera head and flex-cable allows you to explore virtually any environment.

Important: Requires 4 AA batteries (not included).

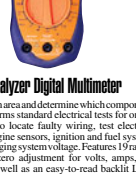
AC100101 ..... 149.99 ea



Actron AutoTroubleshooter

This ingenious tool features automatic reverse polarity indication, automatic zero adjustment for volts and amps for accurate measurements and overload protection on all ranges. Performs all standard electrical tests for on-car and bench troubleshooting. Locate faulty wiring, test electrical components, engine sensors, ignition and fuel systems and your starting/charging system.

AC7677 ..... 51.99 ea



AutoAnalyzer Digital Multimeter

Pinpoint problem area and determine which components are faulty! Performs standard electrical tests for on-car and pm bench to locate faulty wiring, test electrical components, engine sensors, ignition and fuel systems and starting/charging system voltage. Features 19 ranges and automatic zero adjustment for volts, amps, and battery tests, as well as an easy-to-read backlit LCD. Includes: color coded detachable test leads, alligator clips, and a comprehensive user manual.

AC7665 ..... 31.99 ea

Infrared Thermometer with Laser Pointer

Aim this IR thermometer at the target, press a button, and read the temperature display. Verify the temperature in your AC system or find an overcharge in your electrical systems. System On-Chip technology creates a compact, lightweight design with a measurement range of -58 degree F to +932 degree F (-50 degree C to +500 degree C). Includes two AAA batteries and belt holster.

Signature Series Air Cleaner

Top off your engine with a good looking Pro-Flo air cleaner. The Edelbrock signature and styling coordinate beautifully with Edelbrock Signature Series valve covers. These air cleaners are stamped from 18 gauge steel and triple chrome-plated for a high-quality finish and good looks. They'll work with all popular 5-1/8" diameter carburetor necks.

Important: Use E1121 with all Edelbrock square bore carburetors and Q-jets.

Carburetor Cover

The K&N carburetor cover is used on 5-1/8" carburetors eliminating the risk of dropping bolts, nuts, screws or other items down the throut and into the intake manifold. Also works well in keeping dirt, dust and other elements out of your carb during times you must store your engine or vehicle with the air cleaner assembly removed.

Note: Please specify: black, red or orange, when ordering.

Performance Air Cleaner System and Air Filter

For street or race, nothing matches the air flow of these performance products. Maximum performance and show quality looks are now available for engines using Holley Dominator carburetors. Excellent engine protection, high efficiency and super low restriction air filter media designed specifically for Dominator requirements. R2C's Performance air filter products were developed by the same people that designed and built many military's vehicle's engine air intake systems and filters. Air cleaner base and lid are manufactured from polyethylene polymer, keeping cool inlet temperatures, while remaining lightweight and tough. Features washable black Hex race filter media for long-life, and doesn't require oiling.

Emission Notes: For (PPCV) Pre-Pollution Controlled Vehicles Only: Legal for use on all vehicles that were manufactured before emmissions control regulations were imposed. Check your state law before ordering.

Note: Wing nut not included.

K&N Air Filter PreCharger

The K&N PreCharger® is a specially designed filter wrap made to extend the length of time between cleanings. A great idea when operating off-road or in very dusty conditions. The PreCharger® will stop small particles, yet add little restriction to the airflow of the filter. Double stitched elastic openings keep the PreCharger® securely in place. Choose from black, blue, red or yellow.

R2C Air Cleaner Bases and Lids

Introducing the most powerful and versatile air cleaner bases for Holley 4150 four barrel applications! CFD bases will outperform every air cleaner base made today. Smooth radius entry profiles dramatically improve booster signal, increasing horsepower and torque. The result is crisp throttle response, allows precision carburetors to perform as designed.

Emission Notes: For (PPCV) Pre-Pollution Controlled Vehicles Only: Legal for use on all vehicles that were manufactured before emmissions control regulations were imposed. Check your state law before ordering.

14" Low Profile Chrome Air Cleaner

This air cleaner provides a low profile by dropping the filter 7/8" or 1-1/4" below the carburetor flange. 5-1/8" flange fits all popular 4 barrel carburetors. Your choice of 4 element heights are offered to fit a wide variety of applications. The 7/8" drop will fit carburetors with electric choke mechanisms. Optional vent kit, item #851190 is available and sold separately. Total height listed below is the minimum clearance needed above the carburetor flange.

Important: "Items marked with asterisk will not fit Edelbrock carbs with electric choke.

7/8" Drop, without Vent Kit

Custom Air Cleaner Assembly

You've got billet spokes on your wheels, now get precision machined billet spokes in your engine compartment! K&N, renowned for superior performance, durability, and styling in their filters, combines serious air flow with gorgeous looks in these round, 14" billet aluminum air cleaners with either a 5 spoke or 10-spoke lid. Both styles include a carbon fiber insert and a 3" tall K&N element. They are designed to fit 5-1/8" carburetor flanges, and are available with either a 1-1/4" drop base or a standard 9/16" raised base.

Air Filter Oil & Clean/Degreaser Set!

K&N Air Filter Oil and Cleaner/Degreaser is the only oil and cleaner/degreaser specially formulated to work in combination with the cotton fabric in the K&N filter. The use of any other could void the filter's warranty and potentially harm the air filter's cotton material. The cleaner/degreaser works to dissolve the dirt buildup and old oil filter oil and can be washed away with water. It is environmentally friendly, and when used as directed, is safe on paint, chrome, cast aluminum, plastic, rubber and vinyl. Each set includes: oil, cleaner/degreaser, and service decal. Your choice of 6-1/2 oz. aerosol spray or 8 oz. squeeze oil bottle is offered.

995000	set with 6-1/2 oz. aerosol oil..	14.99 set
995050	set with 8 oz. squeeze oil	14.99 set

Performance Intakes

Spectre offers a wide assortment of highly innovative products with unmatched quality and value. From HPR high-performance racing filters that offer a washable, reusable high flow air filtration solution to ProFab cold air intakes which brings a smooth stream of cool, dense air into the engine for power you can feel every time you step on the gas. Spectre uses 3D CAD software to design and test new products before a rapid prototype machine creates a quality ABS model which is used to test form, fit, and function. Performance is verified by a computer controlled flowbench which can measure air flow with OEM engineering accuracy. This dedication to quality shows up in the final product, resulting in unmatched performance and value.

Performance Induction

Cool Air Tube Heat Shield

The Cool Air tube heat shield features a unique lace-up design. This unique design allows this heat shield to fit air tubes from 2-1/2" to 4" in diameter, up to 3 feet in length. Like most of Thermo-Tec's products, it blocks more than 90% of radiant heat from the exhaust, protecting the air tube and the fresh air within from the destructive effects of high heat. For an added kick, Cool Air tube heat shield comes with laces in four cool colors – white, blue, red and yellow!

Ball Milled Billet Aluminum Valve Covers for Small Block Ford Engines

Billet Specialties ball milled polished aluminum valve covers are guaranteed to draw attention to your engine compartment. They feature a tall design to clear high-performance valve train components and a 1-1/4" diameter breather hole positioned between the rockers to reduce oil splash. These covers are manufactured from high grade aluminum, CNC-machined, and polished to a quality finish.

DF1700

DF1701

Keep Your Oil Cleaner!

Made in USA

Dual Flow Adjustable PCV Valve

Does your PCV valve match your engine? Stock PCV valves are not designed to work with modified high-performance engines due to their altered vacuum profiles. A mismatched PCV valve can cause oil to push out of your breathers, cause oil leaks, or contaminate your oil with piston blow-by gasses. Now you can manage your crankcase pressure with this fully rebuildable, 6061-T6 billet aluminum dual flow PCV valve. Once adjusted, the valve will provide sufficient vacuum to the crank case both during idle and during engine acceleration. Valve fits 3/4" i.d. valve cover grommets and 3/8" i.d. PCV lines. An available adapter allows for installation on 3/8" i.d. inline applications. PCV valve set includes valve, vacuum gauge fitting, allen wrench, and detailed instructions. Made in USA.

Note: Not intended for use on pollution-controlled vehicles.

Edelbrock Intake Manifolds

Performer RPM E-Boss 351

Designed for high-performance street and competition Boss 351 engines operating between 1500-6500 RPM. Intake manifold has Cleveland port layout and intake bolt hole pattern to fit both 2V/4V heads. Features 9.5" deck height, Windsor end rails, standard square bore carb pad, front/rear water bosses, water neck and distributor clearance.

EDL7183 non-EGR ..... 329.99 ea

EDL3771

Performer 400 EGR

Designed for 351M/400 engines operating between idle-5500 RPM in one of the three following configurations:

- OEM 2V carb and EGR system with supplied 2V EGR spacer
- 4V EGR system with either an Edelbrock or Ford EGR spacer
- For off highway use non-EGR 4V system with an Edelbrock 4V spacer.

Available in satin or polished finish.

EDL3771 satin ..... 384.99 ea
EDL37711 polished ..... 629.99 ea

Performer 400 Non-EGR

Designed for 400 c.i.d. non-EGR engines from 1971-82 with 2V Cleveland heads and 351M from 1975-82 operating between idle-5500 RPM. Will not fit 1974 and earlier 351C, valley width 8-17/32". Available in satin, polished or black finish.

EDL21711 satin ..... 329.99 ea
EDL21711 polished ..... 549.99 ea
EDL21713 black ..... 429.99 ea

Performer 460

Designed for street 429 and 460ci Ford V8 engines operating between idle-5500 RPM. Choose from EGR and non-EGR versions. Intake will not accept stock spread bore carburetor and will not fit 429 Cobra Jets.

Note: For EGR must use factory EGR plate.

EDL5435

F-28 Dual Quad

Designed for non EGR 289-302 engines with dual carbs operating between 1500-6500 RPM. This low profile manifold allows adequate hood clearance and maintains great driveability. Mounting bosses for throttle cable brackets makes it suitable for late model applications. Carb center to carb center is 6-7/16", Available in satin and polished finish.

EDL5435 satin ..... 384.99 ea
EDL54351 polished ..... 643.99 ea

EDL3821

Performer 5.0

The Performer 5.0 EFI aluminum intake manifold designed for 1986-95 5.0L V8 engines with EGR. The popular design incorporates modern air flow technology and CAD programming for maximum power gains up to 37 HP with no loss of low speed torque. Includes broad power range from idle-5500 RPM, removable plenum cover that allows access to runner for modification and base manifold is CNC port matched to upper manifold.

Note: 1994-95 Mustang engines require throttle body adapter #3835.

EDL71233

Performer 5.0 RPM II

The Performer 5.0 RPM II intake manifold for 1986-95 5.0L V8 engines with EGR has shown significant gains in horsepower in the 1500-6500 RPM range. Suited for street and strip applications, manifold has a V-shape crossover with an increasing cross sectional area, which passes over to 8 large tapered runners. Available in satin, polished and black finish.

Note: 1994-95 Mustang engines require throttle body adapter #3835 and adapter kit #8025. Recommended 70mm throttle body, 75mm will require port matching.

EDL2945

EDL2947

Victor 5.0

Designed for 5.0L based competition EFI engines, this manifold is for non-emission, racing applications. Intended for engines modified to produce 400-540+ horsepower and features shorter and larger runners for power to 7500 RPM. Runners are 11.5" long and 50% larger in area than Performer. Recommended 75mm throttle body and larger injectors will be needed depending upon power levels.

Note: 1994-95 Mustang require conversion to 1987-93 inlet systems. Manifold include throttle cable bracket.

EDL2945 intake ..... 759.99 ea
EDL2947 plenum cover only ..... 89.99 ea

EDL7105

EDL71053

RPM FE Manifold

Designed for non EGR high-performance street 390-428ci Ford FE V8 engines with standard 390-428ci, 427 low/medium rise heads operating between 1500-6500 RPM. The dual plane constant cross sectional area design builds low and mid-range acceleration while optimized runner paths make exceptional top end horsepower. Has provision for adding the PCV or breather flange at rear. No exhaust crossover passage.

EDL7105 satin ..... 469.99 ea

Intake Manifolds

Made in USA

EDL7166

RPM Manifold

Designed for street 289-302 Ford V8 engines, the RPM Air Gap intake manifold incorporates the same race winning technology that's been used on our Victor Series competition intakes for decades. The Air Gap design features an open air space that separates the runners from the hot engine oil resulting in a cooler, denser charge for more power. Includes nitrous bosses. No provision for exhaust heated chokes and no exhaust crossover. Manifolds are dual plane, high rise intake manifolds with a 180 degree firing order to produce incredible top end horsepower while retaining good throttle response. Available in several finishes.

EDL50211	polished	529.99 ea

RPM 460 Manifold

Designed for non-EGR high-performance street 429–460 Ford V8 engines with standard or Cobra Jet cylinder heads operating between 1500-6500 RPM. Dual plane intake manifold design results in excellent low and mid-range torque and outstanding horsepower on appropriately equipped engines. Will accept square bore or spread bore carburetors.

EDL7166	satin	349.99 ea
EDL71661	polished	536.99 ea

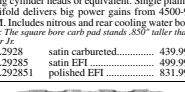
EDL29285

Super Victor 8.2

Designed for high RPM or competition 302-347 non-EGR engines with aftermarket Windsor style racing cylinder heads or equivalent. Single plain race manifold delivers big power gains from 4500-9000 RPM. Includes nitrous and rear cooling water bosses.

Note: The square bore carb pad stands .850" taller than Victor Jr.

EDL2928	satin carbureted	439.99 ea
EDL29285	satin EFI	499.99 ea
EDL292851	polished EFI	831.99 ea



EDL2924

Super Victor 351W

Designed for high RPM or large displacement competition 351 Windsor with deck height 9.5" which are used in drag racing or oval track engines operating between 4500-8500 RPM. Can be used with ported factory cast iron heads or equivalent. Runners have a 3.20 square inch cross sectional area.

EDL2924	satin	414.99 ea
EDL29241	polished	704.99 ea
EDL29245	satin EFI	459.99 ea
ED292451	polished EFI	744.99 ea

EDL7535

RPM Air Gap Dual Quad

Designed for 289, 302 and 351W non-EGR engines. These intakes are taller than the low profile F-28 and offers performance improvements in the 1500-6500 RPM range. Features the unique large runners designed from Air Gap manifolds. Available in satin and endurashine finish.

Dual Quad 289-302

EDL7564

RPM Air Gap 351C

The RPM Air Gap 351 Cleveland manifold is designed to improve performance on the street or racetrack with engines operating between 1500-6500 RPM. Features an open space that separates the runners from the hot engine oil resulting in a cooler, denser charge. Works well with 4V/2V cast iron Cleveland heads or equivalent. Available in satin or polished finish.

EDL7564	non-EGR satin	411.99 ea
EDL75641	non-EGR polished	669.99 ea

RPM Air Gap 351W

Designed for street and high-performance non-EGR 351-427 engines. Features an open air space that separates the runners from the hot engine oil resulting in a cooler, denser charge for more power. Includes bosses for rear water crossover. Available in satin, polished and endurashine finish, 1500-6500 RPM.

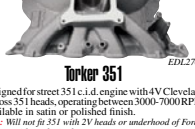
EDL7581	satin	359.99 ea
EDL75811	polished	624.99 ea
EDL75814	endurashine	539.99 ea

EDL7566

RPM Air Gap 460

Designed for street and high-performance 429/460ci Ford V8 engines with standard or Cobra Jet heads. Manifold incorporates the same design from Victor Series competition intakes and features an open air space that separates the runners from the hot engine oil resulting in a cooler, denser charge for more power. The carb mount flange accepts both square bore and spread bore carbs for Cobra Jet applications.

EDL7566	satin	434.99 ea
EDL75661	polished	715.99 ea



EDL2760

Torker 351

Designed for street 351 c.i.d. engine with 4V Cleveland or Boss 351 heads, operating between 3000-7000 RPM. Available in satin or polished finish.

Note: Will not fit 351 with 2V heads or underhood of Ford Pantera with stock air cleaner.

EDL2760	non-EGR satin	349.99 ea
EDL27601	non-EGR polished	674.99 ea

Torker II 351W

Designed for 1969 and later non EGR 351 Windsor high-performance engines with OEM 12 or 16 bolt heads or equivalent operating between 2500-6500 RPM. Will not fit Boss 351 Cleveland. Available in stain and polished finish.

EDL5081	satin	311.99 ea
EDL50811	polished	571.99 ea

EDL2921

Victor Jr. 302

These intakes are designed for non EGR competition racing engines using modified stock cast iron or aftermarket Windsor style heads. Available for carbureted or EFI applications.

Note: Designed for 289, 302.

Victor Jr. 302 3500-5500 RPM

Performer Cylinder Head

Edelbrock Performer complete heads are 50 state emission legal and are designed to provide outstanding bolt-on performance for 1965-95 289, 302 and 351W engines. These heads provide great torque and horsepower up to 5500 RPM. The 1.90" intake valves are for use with stock pistons, high flow 2.02" intake valves are for use with pistons notched for valve clearance.

Note: *Will not accept rail rockers. 289-302 V8's require head bolt bushing #9680 and either head bolt kit #8552 (7/16") or stock bolts.*

E-Series Cylinder Head – 289-351W

E-series cylinder heads are ideal for a spec series racer or larger displacement engines. They feature larger runners for increased airflow, revised exhaust ports and larger diameter springs for higher lift camshafts. These heads also have "As Cast" ports and maintain the stock exhaust port location, making them compatible with OEM headers and hardware. Enlarged valves and ports support the power needed to compete at engine speeds of up to 6500 RPM. Capable of supporting more than 500 naturally aspirated horsepower and even more in forced induction applications.

E-Series E-Street

Note: *1.90" intake valves are for use with stock pistons and high flow 2.02" intake valves work with pistons notched for valve clearance. Use with hydraulic flat tappet camshafts, .550" maximum lift, not compatible with hydraulic roller camshafts.*

Your Choice of Four Convenient Sets to Meet Your Specific Needs!

A – Camshaft Only
The camshaft only set includes camshaft, instructions, assembly lube and decals.

B – Cam and Lifters
Order the cam and lifter set to add a matched set of lifters to your camshaft.

C – Small Set
Order the small set for cam and lifter set plus timing chain and gear.

D – Full Set
Full set includes cam, lifters, timing chain and gear valve springs and retainers, valve locks, valve stem seals.

High Energy™ Cams for Your Daily Driver!

All High Energy™ designs are totally streetable cams. They will produce 10 to 30% more power than a stock cam throughout the RPM range. Each cam has a particular RPM range in which it works best. By selecting the cam that best suits your driving needs, exceptional power increases can be expected. High Energy™ Cams work great for everyday driving without the "bad" side effects normally found with other cams. High Energy™ cams produce more power, are more efficient, and do not affect the engine's idle characteristics to the point of making your car undriveable. High Energy™ Cams will not affect any vacuum or power accessories such as power brakes, air conditioning or steering.

1965-03 Street/Strip Oil Pans

Moroso Street/Strip oil pans are designed for simple bolt-on installation in production chassis. The "kicked-out" or "deep" sumps provide increased oil capacity while maintaining sufficient ground and crankshaft clearance. They feature all steel construction with a clear zinc coating, sump oil retaining system (baffling), and a 1/2" NPT drain plug. Compatible with most starter/flywheel combinations. Intended for performance street vehicles that see occasional track use.

Note: Gaskets, hardware, and pickups sold separately.

1964-67 Engine Oil Dipstick

A reproduction engine oil dipstick with original blue painted handle. Will fit the stock dipstick tube on 1964-67 Mustang models. Don't confuse these with those generic versions.

Note: Ford originally painted all 1964-65 Mustang engine blocks black, and changed to blue painted blocks for 1966 and later Mustangs. So, this dipstick may need to be repainted black to match the original color on a 1965 Mustang engine. Does not include dipstick tube.

6750A	1964-67	289/302	10.99 ea

1964-67 Engine Oil Dipstick

Reproduction of the original OEM style engine oil dipstick with a stainless steel handle. Will fit the stock dipstick tube on 1964-67 Mustangs. Don't confuse this dipstick with the generic versions that are similar. Dipstick tube sold separately.

6750B	1964-67	289/302	11.99 ea

1965-67 Engine Oil Dipstick

A reproduction engine oil dipstick with a polished handle. Will fit the stock dipstick tube on 1968-73 Mustangs. Dipstick tube sold separately.

Note: Will also fit Falcons 144/170/200 after 7-3-61.

1979-04 V8 Oil Cooler

Protect and enhance your Mustang with this Mishimoto oil cooler kit. This kit features a large 19 row oil cooler that mounts in the front bumper for maximum airflow and cooling efficiency. The Mishimoto Mustang oil cooler kit can be installed in less than two hours and adds more than .5 quart to your total oil capacity. Includes mounting brackets, preassembled lines, fittings, oil sandwich plate, and installation hardware. For even better heat protection this kit can include a 185 degrees F thermostat built into the sandwich plate which prevents the flow of oil into the cooler until the oil reaches the proper operating temperature. Available in silver or black finish.

***Note:** Direct fit kits include mounting brackets designed specially for your Fox body.*

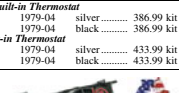
New! Flex-a-lite



FL700021

Heavy-Duty Engine Oil Coolers

Engine oil is designed to act as a coolant as well as a lubricant for your motor. If the engine oil is allowed to get too hot, horsepower drops, varnishes form, and the oil starts to break down, which can lead to premature engine wear. Flex-a-lite heavy-duty oil coolers can help prevent this by keeping oil temperatures down, helping to ensure longer life to engines and components, and reduce the stress created by high-performance engine modifications. Also suitable as a heavy-duty transmission fluid cooler. Includes -8, -10 and -12 interchangeable AN fittings with o-rings.

***Important:** Depending on application and set up, additional fittings or adapters maybe required.*

***Note:** Dimensions: width = 11", depth without fan = 1-3/4", with fan = 4-1/4". Height varies as listed.*

MM13063

1979-04 Oil Catch Can

Protect your Mustang from potentially harmful oil blow-by with this oil catch can by Mishimoto. Internal baffles within the catch can trap the oil and moisture in the gasses coming from the PVC valve while recycling the gases back into your engine thus preventing sludge buildup. The 0.oz. catch can is made from aluminum and can be mounted virtually anywhere under your hood with the included hardware. Available in either black or carbon fiber finish.

1987-04 Oil Separator Kit

New!

Moroso air-oil separator kit for 1987-04 Ford Mustang GTs. Vehicles from the factory vent excess crankcase vapors and residual oil mist back into the intake manifold, causing detonation and oil deposits to form in the intake track. Moroso's oil separators are plumbed into a vehicle's PCV system to capture these gases, preventing them from re-entering the intake, increasing engine performance and efficiency. They feature billet aluminum bodies, heavy-duty brass fittings, a stainless steel mounting bracket and a billet aluminum mounting clamp for the body of the separator. The two piece body unscrews for easy draining.

From the leader in racing lubricants, now comes a lubricant designed specifically for high performance engines. Joe Gibbs Driven HR Oils build on our original formula while adding critical additives to protect engines when they are not running. Our formula uses the same additive technology developed for the U.S. Military for storing and shipping. It protects against rust and corrosion so your engine is protected even when it's not running. It features higher levels of Zinc than regular passenger car oils to deliver proper anti-wear protection for older style pushrod and flat-tappet engines.

Hot Rod Vintage Car Oil

From the leader in racing lubricants, now comes a lubricant designed specifically for hot rods, street rods, and vintage cars. Joe Gibbs Driven Hot Rod Oil builds on the formulation that is used by thousands of racers while adding critical additives to protect engines. What can you do? Check your oil bottles for the API donut. If the oil you currently use carries an API donut, it probably lacks the amount and type of formulated anti-wear activity that historic or racing engines need. Designed specifically for older style historic car and hot rod engines, *Joe Gibbs Driven Hot Rod Oil* features high levels of zinc for wear protection as well as U.S. Military grade rust and corrosion inhibitors for storage protection.

Break-In Oil

BR is used by Joe Gibbs Racing to break-in and dyno all their NASCAR Nextel Cup and Busch Series engines. This petroleum based oil provides superior break-in properties for flat-tappet engines. The special additive package promotes ring seal and provides maximum protection for cams and lifters during initial break-in. BR can also be used to break in roller cam engines, and as a general purpose dyno oil. Available in 5W30 or 15W50 weights.

LS30 Synthetic Oil

This LS30 synthetic 5W-30 oil is specifically formulated for high performance LS-series engines such the 6.2L LS3 found in the 5th generation Camaro SS or the 6.2L supercharged LSA under the hood of the new ZL1. Using advanced synthetic-based oils, LS30 delivers high temperature and high shear protection, making it ideal for high-performance LS engines, especially those that have been turbocharged or supercharged.

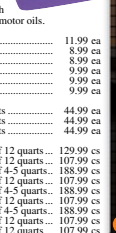
Synthetic Oil



Royal Purple Motor Oil has unsurpassed oxidation stability that allows for extended oil drains and fewer oil changes, which saves you time and money and reduces the impact on the environment. Royal Purple's motor oils for passenger cars and trucks are API licensed. Royal Purple's performance advantages come from a blend of synthetic oils plus Royal Purple's proprietary Synerlec technology. Royal Purple Motor Oil is compatible with other mineral and synthetic motor oils.

MSD Ignition Parts

1986-95 Pro Billet Distributor

When you start making serious power with your Mustang V8 EFI, the factory distributor shaft is one of the weak links of the engines. Upgrade to the Pro Billet distributor from MSD to handle the extra power. Features precision CNC-machined housing, sealed ball bearing, oversized steel shaft with QPQ coating for friction reduction and corrosion resistance. Includes: cap, rotor, speacial gear and stock style trigger pickup to accept factory connectors for direct installation. Available for 5.0 and 5.8 EFI engines.

Note: Legal for use in all 50 states.

- Built-in Rev Limiter
- Powerful built-in module produces a 7.5 amp single spark through high RPM
- Easy to adjust mechanical advance with supplied springs and stop bushings
- Vacuum advance canister for improved economy (can be locked out)
- CNC-machined billet aluminum housing and billet aluminum base
- Housing is 5/8" smaller in diameter than stock Ford distributors
- Advance plate and weights are fine blanked from chromoly steel
- Advance weight pins are staked and TIG welded to the plate
- Nylon pads ensure smooth operation of the advance weights
- Does not require an MSD Ignition Control
- CARB E.O. Approved

Pro-Billet "Ready-to-Run" Distributor

MSD "Ready-to-Run" Ford distributors are the perfect upgrade for bulky DuraSpark systems or ancient breaker point models. These distributors come complete and "Ready-to-Run". All you need to do is drop it in the engine, connect three wires and fire the engine. Features maintenance-free magnetic pickup, sealed ball bearing and oversized shaft with QPQ coating for friction reduction and corrosion resistance. Includes cap and race rotor with HEI style terminals.

- Billet housing is 5/8" smaller in diameter than stock Ford distributors
- Must be used with an MSD Ignition Control
- Supplied with small diameter cap with HEI style terminals and race rotor
- Nylon pads ensure smooth operation of the advance weights
- Advance weight pins are staked and tig welded to the plate
- Mechanical advance assembly can be locked out for crank trigger systems
- Advance plate/weights blanked from chrome moly steel
- Polished steel shaft is QPQ coated and guided by a sealed ball bearing
- Maintenance-free magnetic pickup and precision reluctor
- CNC-machined billet aluminum housing/base
- Easy to adjust mechanical advance with supplied springs/bushings
- No CARB Exemption Order Number

Ford 289-460 Pro Billet Distributor

MSD Ford 289-460 Pro Billet distributor features all the high-performance distributor experience into a special compact housing designed to be less obtrusive for Ford engines. The black cap and housing are 5/8" smaller than stock Ford distributors providing extra room in front of the engine.

Note: Will accept part #8441 Cap-A-Dapt and must be used with an MSD 6, 7 or 8 series ignition.

5. Extra heavy gloss braid
6. High dielectric insulator
7. Ferro-magnetic impregnated center core
8. Helically wound copper alloy conductor

1977-04 Super Conductor Wires

The MSD 8.5mm Super Conductor is the ultimate performance wire. Engineered with incredibly low resistance without electronic interference. Made with copper alloy conductor resulting in less than 50 Ohms per foot of wire. This ensures that the most energy possible makes it to the spark plug. This combination is encased in a heavy-duty sleeve that will withstand abrasion and high temperatures. Features dual crimp terminals, one for the sleeve of the wire and another separate crimp to grasp the conductor.

MSD Ignition Parts

8910 8910EIS 8920

Made in USA

Tachometer Adapter

MSD tach adapters will correct the operation of most voltage triggered tachometers or fuel injection systems that do not work directly off the tach output terminal of the MSD ignition unit. If you are triggering an MSD Blaster, 5, 6, SCI, or 7 series ignition with its white wire or points terminal, you will need item #8910 or 8910E. For applications using green and violet wires for magnetic pickup input, use item #8920. Made in USA.

*Important: *For use on non-current limiting ignitions, originally equipped with a ballast resistor. **For use on current limiting ignitions, not originally equipped with a ballast resistor.*

8910*	points or amplifier	54.99 ea
8910EIS**	electronic ignition	56.99 ea
8920	magnetic pickup	71.99 ea

1985-95 V8 Cap and Rotor

Replacement MSD cap and rotor for 1985-95 Mustang V8 models. Injection molded from a Rynite material that provides superior protection against cross firing and arcing. The corrosion resistant stainless steel inserts and steel rotor springs provide high conductivity and unrestricted energy flow for a hotter spark.

8482 1985-95 V8 ..... 36.99 kit

1986-93 Ignition Module for Ford TFI

Direct replacement ignition module for MSD Ford TFI or factory distributor.

83648 1986-93 ..... 51.99 ea

Noise Filter

If you experience radio noise after installing a MSD ignition box, you may need to install an MSD noise filter. Electro Magnetic Interference (EMI) is occasionally generated from the MSD power cables and can be easily eliminated by installing the noise filter on the heavy power supply wires coming from the MSD. Includes noise filter cover.

8830 ..... 46.99 ea

Ford 4 Tower Coil Pack

MSD Ford DIS 4 tower coil pack for 1996-98 Mustang 4.6L models with DOHC/SOHC engine. This coil has a unique turns ratio (83:1), lower primary resistance than factory coil to produces more output voltage.

Note: CARB E.O. approved.

8241 1995-98 4.6L DOHC/SOHC 81.99 ea

5528 5529

Ford 6 Tower Coil Pack

Replacement ignition coil tower for 1994-04 Mustang V6 models. Mounts directly in place and accepts the factory or performance wires.

5528	1994-00	V6	89.99 ea
5529	2001-04	V6	99.99 ea

Digital Shift Light

MSD universal and easy to use programmable shift light. Can be installed with distributors, coil packs or on 1 cylinder engines up through 12 cylinders on stock ignitions or high power aftermarket systems. Programmable from 100-15,900 RPM down to 10 RPM increments and features six bright LEDs for easy to view anytime. Includes GMR pickup.

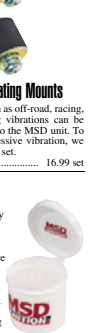
89631 all models ..... 181.99 ea

6 Series Vibration Isolating Mounts

In performance applications such as off-road, racing, and marine applications, strong vibrations can be transmitted through the chassis to the MSD unit. To protect the MSD box from excessive vibration, we recommend this vibration mount set.

8823 isolating mounts ..... 16.99 set

Spark Guard



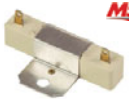
MSD's Spark Guard is a dielectric grease that solves many common ignition troubles. It stops voltage leaks, eases boot removal, prevents moisture buildup inside the spark plug wire boots, and even helps protect against radio noise (EMI). It also simplifies the installation of MSD spark plug wire sets. Spark Guard will not dry up or harden so it will retain its spark isolating capabilities indefinitely.

8804 ..... 19.99 ea

1986-95 Box Harness

MSD 6 series box direct plug-in harnesses for 1986-95 Mustang 5.0L models. This harness plugs directly into your factory coil and harness, then the four color coded wires plug into the MSD 6 Series box.

8874 1986-95 5.0L ..... 32.99 ea



1979-85 Ballast Resistor

MSD 0.8 Ohm ballast resistor designed for 1979-85 Mustang models. Required when upgrading to MSD ignition coil when connected to a stock points style ignition system.

Note: Not necessary if an MSD 6 or 7-series ignition control is being used with the points distributor.

8214 1979-85 ..... 11.99 ea

Pro-Clamp Spark Plug Wire Separators

The MSD Pro-Clamp will keep the plug wires in a tidy order and away from engine heat sources. Each Separator features secure grooves for each wire and a top bracket snaps in place to sandwich the wires in place. Each base has a hole for a retaining screw if desired and a tab that will help hold it in position. The set is supplied with two 4 wire separators, two 3 wire separators and four 2 wire separators.

8843 Pro-Clamp separators ..... 24.99 set

Performance Ignition

Made in USA

Remote Starter Switch

Allows one person to start or crank engine from under the hood. Ideal for compression test or bumping engine onto TDC (top dead center) timing marks for valve, distributor or camshaft adjustment. Power tool type trigger switch for regular use with medium currents. Heavy-duty Neoprene leads. 10 amp, medium current clips open to 1/2". Protective rubber boots prevent electrical shorts. Ergonomic handle. One-year warranty. Made in USA.

AC7853 ..... 11.99 ea

Made in USA

Remote Starting Switch

Excellent tool allowing easy engine starting from under the hood. Features heavy gauge, rubber covered copper wire. Simply depress the button to jog or start the engine. Made in USA.

Y20750 ..... 19.99 ea

Made in USA

Heavy-Duty Remote Starter Switch

Start and crank engine from under the hood or from either side of the vehicle. Ideal for compression test or bumping engine onto TDC (top dead center) timing marks for valve, distributor or camshaft adjustment. Convenient hot circuit red indicator light glows when starter switch is ready, light goes off when switch is depressed. Heavy-duty push button trigger switch, 5 foot heavy-duty leads, 12 gauge conductors. 20 amp, high current clips open to an extra wide 5/8" for easy hookup. Protective rubber boots prevent electrical shorts. Soft, non-slip rubber grip. Made in USA.

AC7854 ..... 34.99 ea

MSD

1986-95 TFI Performance Coil

MSD TFI ignition coil for 1986-95 Mustang 5.0L models. This coil has a unique turns ratio (85:1), lower primary resistance than factory coil, produces more output voltage and will work with stock ignition systems.

Note: CARB E.O. approved.

8227 1986-95 5.0L ..... 51.99 ea

MSD

Ford Modular Ignition Controller

When you retro-fit a Ford 4.6L or 5.4L (SOHC/DOHC) with a carbureted intake manifold, you will need this controller to handle the ignition chores. The controller plugs into the coil packs and sensors of the engine for a direct installation. From a PC, using Pro-Data+ software, you can program a custom timing curve, a step retard, two step rev limiter and even a vacuum advance. A great system for street rods and retro muscle cars.

Note: Does NOT control fuel.

6011 modular engines ..... 457.99 ea

MSD

1986-04 Fuel Pump Voltage Booster

MSD fuel pump booster is an easy way to maintain the proper fuel pressure on your car after adding a power adder such as a turbo or supercharger. It will increase the voltage to the factory fuel pump in proportion to manifold boost pressure in order to maintain the proper fuel delivery. The amount of increase is adjustable from a range of an additional 1.5-22 volts and up to 30 psi which can all be set and adjusted from your PC. For use with stock electric fuel pumps or secondary booster pumps.

Note: The fuel pump booster cannot be used on fuel systems without a return line (pulse-modulated pumps).

2351 1986-04 ..... 431.99 ea

MSD

1996-04 Digital RPM Switch

Are you looking for an RPM switch that will turn a circuit on, then off at a different RPM? This switch will accept an input RPM signal from a coil negative terminal (for stock ignitions), a tach output from an ignition control, an ECU tach output or even a 5 volt tach signal. Works on late model coil per cylinder or dual coil pack ignition systems. The RPM activation points are programmed by simply scrolling through the LED display to your desired RPM amounts. Features two outputs and can be programmed from 200 RPM to 15,000 RPM in 100 RPM increments. No modules needed.

Note: This switch can be used with an input voltage of 9-18 volts.

8969 1996-04 ..... 171.99 ea

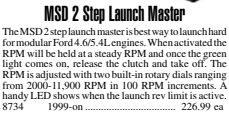
MSD

Ford Coyote 5.0L 2 Step Launch Master

The MSD 2 step launch master is best way to launch hard for Ford Coyote 5.0L engines. When activated the RPM will be held at a steady RPM and once the green light comes on, release the clutch and take off. The RPM is adjusted with two built-in rotary dials ranging from 1800-9900 RPM in 100 RPM increments. A handy LED shows when the launch rev limit is active.

8731 2011-17 ..... 236.99 ea

MSD



MSD 2 Step Launch Master

The MSD 2 step launch master is best way to launch hard for modular Ford 4.6/5.4L engines. When activated the RPM will be held at a steady RPM and once the green light comes on, release the clutch and take off. The RPM is adjusted with two built-in rotary dials ranging from 2000-11,900 RPM in 100 RPM increments. A handy LED shows when the launch rev limit is active.

8734 1999-on ..... 226.99 ea

MSD

2 Step Rev Control

This 2 step rev control could be added to give you the ability to switch to a low RPM limit to use on the starting line. Features two easy-to-read rotary dials that let you set the launch RPM in 100 RPM increments. There is an activation wire that connects to the transbrake, a clutch switch or to the line lock to activate the low RPM limit. When that switch is released, the low RPM limit is turned off and the car launches hard. For use with MSD Digital 6AL #6425 or 64253 only.

8732 all ..... 101.99 ea

MSD

7564 75643

MSD Relay Block

Clean up your wiring with an MSD solid state relay block. This module takes the place of 4 standard relays and eliminates unsightly wiring. Four independent channels can be activated using either power or ground. Each channel is capable of handling up to 20 amps of continuous current providing up to 80 amps of power. LED status indicators ensure proper wiring and operation of each channel. Built-in automatic over temp, short circuit and overload protection. Features mounting tabs that can be rotated 90 degrees to accommodate various mounting locations. Channels can be run in parallel for devices requiring more than 20 amp single channel rating.

Note: Controls electric fans, water pumps, nitrous solenoids, auxiliary lighting and any other electrical accessories that would normally require a relay.

Performance Ignition

6201

6-Series Digital Ignition Module

Improve the performance of your modified engine. Whether you've done a cam swap, or bolted on a carb, intake and headers. The MSD digital 6-series ignition modules produce multiple sparking circuitry and high output power to improve the starting ability, idle quality and throttle response. All of the MSD ignitions can be installed on 4, 6, or 8 cylinder engines equipped with 12 volt, negative ground electrical system and a distributor. They can be triggered by points, electronic amplifiers, or magnetic pickups. Available models are the digital 6A and 6AL the only difference is the addition of a adjustable rev limiter on a 6AL.

Note: These are legal to sell, distribute or install on non-OBD II vehicles

Features:

- ***Higher output with 530 primary volts and 135mJ of spark energy***
- ***Efficient components use less current to produce more power***
- ***Set and RPM limit on the 6AL with two rotary dials in 100 RPM increments***
- ***Same bolt pattern as the original but with a lower profile housing***
- ***Built-in LED for system checks***
- ***Tach output wire***
- ***All wires exit through a locked, sealed connector to prevent corrosion***

7730

7720

7740

1979-95 Power Grid System

The Power Grid System is the next evolution of programmable ignition controls. The grid incorporates an efficient 32 bit microcontroller and an all new software program, called MSD View, and is USB compatible. The Power Grid Controller is the brains behind the entire system and can be used with any MSD ignition or the Pro Mag to provide advance ignition tuning capabilities. While it is compatible with all MSD boxes, the new Power Grid System Controller has been specially designed to mount to the Power Grid-7 ignition box sold separately. Includes: View software, wiring harness, micro-SD card and mounting hardware.

Note: To use any modules with the Power Grid Ignition System, (7720 and 7730), users MUST plug the modules into a 4 Connector CAN-Bus Hub (7740) to be attached to the Power Grid System Controller.

Features:

- ***USB connection for ease of programming***
- ***Timing based on engine RPM and gear value***
- ***Advanced individual cylinder timing based on gear or time***
- ***Five retard stages for nitrous***
- ***Four steps of RPM limits for burnout, spool, launch and over rev***
- ***Output switch set on RPM, pressure or time***
- ***Shift light settings for each gear***
- ***Ignition data acquisition accepts multiple runs***
- ***Crank trigger system highly recommended***

1987-93 Mustang 5.0 Ignition Tune-Up Kit

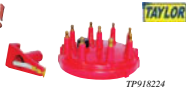
Direct OEM replacements that exceed OEM specs. Work with any fuel injection, turbo chargers or aftermarket headers with no stereo noise. Increases power to the spark plug up to 400°F over stock wires. Improves gas mileage and throttle response. Kit includes: plug wires, brass cap, rotor and all necessary hardware.

91L132 1987-93 ..... 174.99 kit

Duraspark II Wiring Harness

PAINLESS Performance replacement Ford Duraspark II ignition harness. Can also be used to upgrade a points style ignition to Duraspark system. It allows for the factory location of your module and coil. Fits factory Ford Durasparck II ignition systems with blue module.

30812 ..... 99.99 ea



Made in USA

1979-95 Distributor Cap and Rotor Kit

Improve your Mustang's performance with a new distributor cap and rotor set from Taylor Cable Products. Each kit features corrosion resistant brass inserts and steel rotor springs to provide high conductivity and unrestricted energy flow for a hotter, more powerful spark. Manufactured from an alkyd molding compound, which will allow these caps and rotors to provide superior protection from cross firing and arcing for years to come. Made in USA.

1957-74 V8 Distributor Cap

Reproduction distributor cap to fit all 1957-74 Ford V8 engines with breaker point ignition. Solid brass contacts make this high performance distributor cap clearly superior to the standard caps that have aluminum contacts. When you are looking for a quality distributor cap that will last, this cap is a superb choice.

MD1 1957-74 8 cylinder..... 11.99 ea

1967-71 "Autolite" Distributor Cap

Reproduction "Autolite" logo distributor cap, correct for 1967-71 Ford engines but will fit most early Ford V8s. Concourse correct with raised "Autolite" logo, a must for any showcar. Exact copy and MCA approved.

MD2 1967-71 8 cylinder..... 26.99 ea

1965-73 V8 Single Point Distributor Point

Reproduction point set that fits all 1957-74 Ford V8 engines. Premium contacts make this high performance point set clearly superior to the service replacement point sets sold elsewhere. When you are looking for a quality point set that will last, this set is a superb choice

Ignitor II

The Ignitor II electronic ignition goes an extra step beyond for even more power and efficiency! It senses levels of current in the coil, and uses a powerful micro controller to adjust the dwell to maintain peak energy throughout the entire RPM range. As engine RPM and operating conditions change, dwell time is increased or decreased to provide more energy at higher RPM, reducing misfires while improving engine performance. Ignitor II develops nearly 4 times more available energy between 3000 and 5000 RPM, and double the available plug voltage! The Ignitor II's higher RPM performance is maximized when used with the new Flame-Thrower II super low resistance (0.6 Ohms) 45,000 volt coil, but the system is compatible with any induction coil. It comes with a 30-month warranty and is emissions legal in all 50 states and Canada!

12171L	1964-73	V8 single point ..	104.99 ea

Ignitor III

Ignition box performance without the box. The Ignitor III is the most advanced points replacement set. It is literally an ignition box inside your distributor. It features multiple sparks throughout the entire RPM range and a REV limiter accurate to +/- 50 RPM which is set by you with an LED user feedback for rev limit confirmation. The Ignitor III module generates 5 times more spark than points. This means more spark energy creating more horsepower and better mileage. The Ignitor III features include: adaptive dwell which maintains peak energy throughout the entire RPM range, reducing misfires while improving engine performance. Peak current level is reached just prior to spark for maximum energy without the heat buildup, increasing coil performance and module reliability. Legal in all 50 states and Canada.

Note: Requires minor rewiring of circuit from ignition switch to distributor.

Street Thunder 8mm Ignition Wires

Made in USA

Taylor's Street Thunder ignition wire sets are designed to deliver great performance at an affordable price. Each set features a Kevlar® spiral wound core conductor to help suppress radio frequency interference. A 500 Ohm per foot resistance rating delivers greater spark energy, while improving power and fuel efficiency. Wires feature black silicone construction with a synthetic jacket to resist heat, oil, and abrasion. Matching black silicone boots protect against high exhaust temperatures, and double spring locking terminals make quick vibration proof connections. Made in USA.

Ignition Wire Accessories

Made in USA

Thunder Volt 8.2mm Ignition Wires

Taylor Thunder Volt 8.2mm ignition wires are dyno-tested and proven to increase horsepower and torque. Designed with a Ferrite spiral wound core coated with a blend of copper/nickle bonded with a conductive acrylic cover for only 40 Ohms per foot ovf resistance with optimum RFI and EMI suppression. A 2 layer 100% Zimplex silicone outer jacket for heat protection up to 600 degrees. Available in black, red, or blue with grey silicone spark plug boots. Universal wire sets include both standard socket and HEI boots with the appropriate terminals. Made in USA.

Thunder Volt 50 Ignition Wires

Taylor Thunder Volt 10.4mm ignition wires are dyno tested and proven with increases up to 5 horsepower and 7 pounds of torque. Designed with a Ferrite spiral-wound core coated with a blend of copper/nickel bonded with a conductive acrylic cover to provide low resistance at only 40 Ohms per foot with optimum RFI and EMI suppression. Features a tightly woven heat treated fiberglass braid and a 3 layer 100% Zimplex silicone outer jacket for heat protection up to 600 degrees with a 102,000 volt dielectric strength. Available in black with gold lettering and low profile color coordinated silicone boots. Universal wire sets include both standard socket and HEI boots with the appropriate terminals. Made in USA.

409 Series Pro Race Ignition Wires

Taylor 409 Pro Race 10.4mm high-performance ignition wires are designed for street and track performance. Featuring tightly woven heat treated fiberglass braid over a 100% silicone Spiro-Pro ignition wire providing a 3 layer jacket these wires have a 102,000 volt dielectric strength and thermal protection to 600 degrees. The spiral wound core with 350 Ohm resistance per foot has excellent EMI and RFI suppression making them perfect for extreme electronic ignition systems. Available in black, red, and blue with low profile silicone Pro Boot spark plug boots. Universal wire sets include both standard socket and HEI boots with the appropriate terminals. Made in USA.

4 Piece Wire Loom Set

Wire loom is a great way to clean up your engine bay and hide engine, audio and any other electrical wires on your vehicle. Manufactured from a flexible polyethylene tubing, wire loom organizes wiring, eliminates clutter and protects wires from abrasion and heat. Wire looms comes split for easy wire insertion and removal. Also ideal for shop use an computer use. Each set includes four 10 ft rolls in four different diameters (1/4", 3/8", 1/2" and 3/4" i.d.).

Fire Sleeves

Taylor cable products fire sleeves are designed to protects wires, hoses, tubing and cables from heat, flames and abrasion. A woven fiberglass braided inner core along with a high temperature silicone outer jacket provides the protection your wires need from the high heat generated by your motor. Just slide over your wires or cables and let the Fire Sleeves offer continuous protection up to 500 degrees F. Set includes eight 6" long fire sleeves.

Ignition Wire Separator Arms

Keep your ignition wires under control with this pair of 4 wire separators. Each blue separator is mounted on a chrome steel arm to keep the wires from laying across your engine, where heat can break down your ignition wire casing. Sold in pairs.

T2297G		11.99	set

Billet Aluminum Spark Plug Wire Looms

Billet Specialties universal polished billet aluminum plug wire looms for big and small block engines. They feature a unique two piece design, and adjustable mounting tabs that attach to the base of the valve cover. Precision machined from 6061-T6 billet aluminum and includes all stainless steel hardware. Available in either smooth or ball milled designs and will accommodate wires up to 9mm.

B69520	ball milled	64.99	pr
B69529	smooth	64.95	ea

Billet Aluminum Ignition Wire Loom

These two piece chrome billet aluminum looms neatly and attractively route your 8 or 9mm ignition wires along the valve covers to each spark plug. Adjustable mounts fit small or big block Ford V8. Sold in pairs.

12297D	plain	44.99	set
12297E	flames	42.99	set

Spark Plug Wire Support Set

Keeps wires away from hot underhood parts, insulates the plug wires, and reduces shorts and crosstalk. Available with or without stands to keep wires away from hot engine components.

MN2417	V8	without stands	2.49	set
MN2418	V8	with stands	4.99	set

Original Style Ignition Wire Supports

This block shaped ignition wire separator has spaces to hold 4 ignition wires, and attaches to the vertical steel support on 1965-73 stamped steel Ford valve covers.

Ignition & Charging

PX60130 PX60103

HV 60,000 Volt Coil

The Flame-Thrower HV (high voltage) coils have an E-Core design which is rated at a sizzling 60,000 volts and operates with no degradation of energy throughout the temperature ranges. Made from 6063-T5 aluminum, it efficiently transfers heat to optimize energy output, and the housing is black anodized for increased corrosion resistance. Available in 4 different resistances for compatibility with most points and electronic ignition systems. Standard threaded connections and mounting hardware are included.

PX60103 0.32 Ohm..... 69.99 ea
PX60104 0.45 Ohm..... 75.99 ea
PX60115 1.5 Ohm..... 75.99 ea

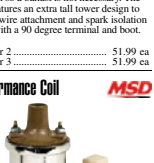
Ignition System Coil

If you are looking to upgrade your stock coil or want to complement the performance of your MSD 6 Series Ignition, our Blaster Coils are the right choice. The following Blaster Coils share the same special windings and high voltage output as the other Blaster 2 coils, but do not include a ballast resistor. When you are using an MSD Ignition Control, the ignition is responsible for delivering the voltage to the coil so a ballast is not necessary. The Blaster 3 Coil features an extra tall tower design to improve the coil wire attachment and spark isolation and is supplied with a 90 degree terminal and boot. Made in USA.

8202 Blaster 2 ..... 51.99 ea
8223 Blaster 3 ..... 51.99 ea

Blaster Performance Coil



8200

With a stock points style ignition, a ballast resistor must be placed in-line with the positive terminal of the coil. The following Blaster Coils are supplied with a 0.8 Ohm ballast resistor plus a terminal and boot to fit most applications. Mallory Unilite applications also require the ballast resistor. Available in chrome or red. Made in USA.

Important: *The ballast is not necessary if an MSD 6 or 7 series ignition control is being used with the points distributor.*

1964-73 Twist-Off Gas Cap

Correct reproduction gas cap for all 1964-73 models Don't settle for a generic replacement which may not fit correctly.

Important: *Gas caps for earlier Mustangs were all vented. Starting in the mid-1970 model year, an evaporative emissions system was added to the Mustang, which required a non-vented gas cap.*

Note: **Also fits standard 1965-66. **For use with evaporative emissions system.*

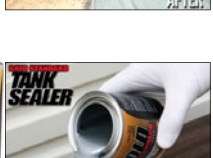
Fuel Tank Repair

New!



KBS 3 Step Solution

- Step 1 – Klean
- Step 2 – Blast
- Step 3 – Seal

Gold Standard Fuel Tank Sealer Kit

Our 3 step fuel tank sealer kit contains almost everything you might need to seal a tank of up to 25 gallons. The Gold Standard Tank Sealer is specifically formulated to stop rust and corrosion by forming a tough, fuel impervious coating while simultaneously sealing small pinholes and weld seams. The prep products are formulated to extend storage times by leaving a zinc phosphate film that prevents rust until you have a chance to seal the tank with the sealer. Kit and individual items available.

KBS 3 Step Fuel Tank Prep and Sealer – Kit

Includes: 2 quarts of Klean (a water based, heavy-duty, cleaner/degreaser), 1 quart RustBlast (a powerful rust remover/metal etch), 1 quart Gold Standard Tank Sealer, gloves, instructions, and a stir stick.

KB53000	prep/sealer kit	for tanks up-to 25 gallons	69.99 kit

KBS Klean – Cleaner/Degreaser Only

KBS Klean is a concentrated, water based, biodegradable formula that is an excellent alternative to flammable solvents and hazardous chemicals for preparing your paint job with a clean surface. KBS Klean is step #1 in the KBS 3 Step Tank Sealing System. KBS Klean is a powerful cleaner that deeply penetrates and removes stubborn soil from most surfaces without leaving harmful residues or emitting noxious fumes.

KB2200	half pint (8 oz.)	cleaner/degreaser only	7.99 ea
KB2400	one quart	cleaner/degreaser only	12.99 ea
KB2500	one gallon	cleaner/degreaser only	22.99 ea
KB2600	five gallons	cleaner/degreaser only	89.99 ea

KBS RustBlast Rust Remover/Metal Etch Only

KBS RustBlast is a powerful rust remover, zinc phosphate pre-primer, and metal etch. RustBlast effectively dissolves rust, corrosion, metal oxides, and tarnishing from most metal surfaces. RustBlast will gently etch the surface and leave a zinc phosphate coating to ensure a strong bond with any paint. KBS RustBlast is Step #2 in the KBS 3 Step Tank Sealing System.

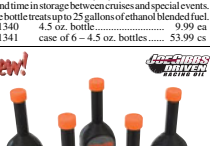
JG1340

Driven Carb Defender

This additive controls combustion chamber residue, cleaning and protecting fuel system and intake tract surfaces to keep carburetors functioning properly. Fuel Defender is ideal for everyday drivers or classics that spend time in storage between cruises and special events. One bottle treats up to 25 gallons of ethanol blended fuel.

JG1340	4.5 oz. bottle	9.99 ea
JG1341	case of 6 – 4.5 oz. bottles	53.99 cs

New!



Driven Defender+Booster

Raises the octane in unleaded fuels, reduces valve seat wear and protects against the corrosion deposits common with today's gasoline. Like Driven Carb Defender and Injector Defender Fuel Additives, this product features corrosion inhibitors that control combustion chamber residue, as well as clean and preserve surfaces of the fuel system. By cleaning and controlling combustion chamber and intake valve deposits, Defender + Booster Fuel Additive protects against detonation and improves fuel economy. The additive is ideal for all carbureted and fuel injection vehicles, including motorcycles and marine engines. Each 10 ounce bottle treats up to 25 gallons of gasoline, and regular use has been proven to lower emissions.

Performer RPM Fuel Pump

EDL1724

Designed for use with all Edelbrock carburetors used in Performer or Performer RPM applications. These high-performance street fuel pumps have a unique valve design that improves flow quantity and support engines up to 600 horsepower. Features high volume 3/8" NPT inlet, larger outlet and polished finish. Produces 6 psi and does not require a regulator. Clockable lower housing can be rotated in 60 degree increments to best inlet/outlet alignment.

Note: For gasoline only, rated at 110 GPH.

Electric Fuel Pump

These externally mounted electric fuel pumps are ideal for most street and strip applications. Proven rotary vein technology provides high flow and stable pressures with minimal vibration and sound. Each pump features 3/8" NPT inlets and outlets along with an externally accessible pressure relief valve. Available in a range of pressures with the choice of chrome- or cadmium-plated housings.

Note: *Not for fuel injected engines. Pumps that produce more than 7 psi should be used with a pressure regulator.*

Electric Fuel Pump

H128011

We offer externally mounted Holley electric fuel pumps. They all feature the proven rotor and vane design and are available in ratings from 97 gph to 140 gph. The 97 gph "red" pump is set at 7 psi and does not require a regulator. The 110 gph "blue" pump is set at 14 psi and includes a regulator. The 140 gph "black" pump is also set at 14 psi and can be used for gas or alcohol fuel.

Electric Fuel Pump

PAINLESS

Perfect Flow Fuel Delivery System

The Perfect Flow Fuel Delivery System is a fuel pump system designed to support up to 1000 horsepower in naturally aspirated engines. It can also be configured as a main and secondary pump to support up to 500 horsepower in situations where a redundant fuel delivery system is needed, such as off-road or racing. Set includes wiring and relays. Due to the multiple plumbing options, fittings are not included with this set.

65100 ..... 826.99 set

PAINLESS

30131

Universal Fuel Pump Relay Set

A relay will prevent voltage drops at the pump thus maintaining constant fuel pump pressure, and will prevent fuel pump amperage overloads from damaging the electrical system. Choose from a regular fuel pump relay or a weatherproof fuel pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

50102 standard ..... 34.99 set
30131 weatherproof ..... 54.99 set

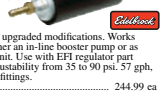
Micro Electric Fuel Pump

This compact electric fuel pump is compatible with all gasoline fuels and additives. The solid state design has a low current draw of around one amp and makes a good stand alone pump or booster pump. Designed for carbureted vehicles with a 12 volt negative ground electrical system, this pump supports 4-7 psi at up to 35 gph. Include fittings, mounting hardware and instructions.

Note: Not for diesel applications.

71211 micro electric fuel pump ..... 41.99 ea

In-line Street/Strip Electric Fuel Pump



This in-line electric fuel pump is continuous duty rated and is ideal for EFI applications that require additional pumping capabilities for upgraded modifications. Works superbly as either an in-line booster pump or as a stand alone unit. Use with EFI regulator part #E1728 for adjustability from 35 to 90 psi. 57 gph, 3/8" hose barb fittings.

E3594 ..... 244.99 ea

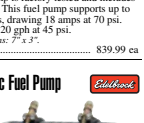
Quiet-Flo Electric Fuel Pump

State-of-the-art electric fuel pumps offer maximum performance in a compact package for carbureted applications. Anodized aluminum housing and high-quality internals make it both strong and extremely durable. The E1791 electric fuel pump is factory set to 6.5 psi does not require a regulator. 3/8" inlet/outlet, 120 gph free-flow, up to 600 HP. The E1792 electric fuel pump is preset to 12 psi and requires an external regulator. 1/2" inlet/outlet, 160 gph free flow, up to 1000 HP.

Important: *For proper installation and voltage requirements, use fuel pump relay E1795.*

E1791 6.5 psi ..... 206.99 ea
E1792 12 psi ..... 209.99 ea

Quiet-Flo Electric Fuel Pump



For huge horsepower from an EFI engine, this external fuel pump offers the ultimate performance in a compact package. Anodized aluminum housing and high-quality internals make it both strong and durable. The in-line design keeps the pump motor and components cool even under harsh conditions. Features a -12AN inlet/outlet with a flow rate up to 120 gph at 45 psi, and is compatible with all grades of gasoline and methanol type fuel. Each pump is factory tested and includes mounting brackets. This fuel pump supports up to 1040 HP at 12 volts, drawing 18 amps at 70 psi. 12AN inlet/outlet 120 gph at 45 psi.

Important: *Dimensions: 7" x 3".*

E1794 ..... 839.99 ea

Quiet-Flo Electric Fuel Pump

This anodized aluminum EFI fuel pump offers maximum performance in a compact package. Its rugged housing and high-quality internals make it both strong and durable. The in-line design keeps the pump motor and components cool even under harsh conditions. Features -10AN inlet/outlet with a flow rate of up to 80 gph at 45 psi for high HP fuel injected applications. This fuel pump supports 835 HP at 12 volts with a current draw of 12 amps at 45 psi. 10AN inlet/outlet 80 gph at 45 psi.

Important: *Dimensions: 6-7/8" x 3-1/4".*

E1790 ..... 576.99 ea

E1727 E1728 E1729

Fuel Pressure Regulator

For those who want the best! These fuel pressure regulators are machined from aircraft quality aluminum and have fluorosilicone diaphragm material for high temperature protection and extended life. Compatible with all grades of gasoline and methanol fuels. Fully adjustable.

160 gph

With 3/8" NPT Inlet/Dual Outlets

E1727 5-10 psi ..... 124.99 ea

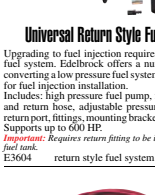
180 gph

With -6AN Inlet/Outlet/Bypass

E1728 35-90 psi ..... 154.99 ea

With -10AN Dual Inlets/Outlet, -6AN Bypass

E1729 35-90 psi ..... 159.99 ea



Universal Return Style Fuel System

Upgrading to fuel injection requires a high pressure fuel system. Edelbrock offers a number options for converting a low pressure fuel system to high pressure for fuel injection installation.

Includes: high pressure fuel pump, fuel filter, supply and return hose, adjustable pressure regulator with return port, fittings, mounting brackets, and hardware. Supports up to 600 HP.

Important: *Requires return fitting to be installed in fuel tank.*

E3604 return style fuel system ..... 589.99 set

Universal Fuel Pump Relay

This universal fuel pump relay will ensure proper wiring which to reduce the risk of damaging the fuel pump, and offers consistent fuel pressure. This relay is used with fuel pump part #E1791 or E1792.

E1795 ..... 59.99 ea

FF40004

FF40005

Go EFI Fuel System

FiTech offers two convenient options to convert your vehicle's low pressure fuel system to a high pressure system capable supporting fuel injection. The Fuel Command Center II is a returnless reservoir style system while the frame mount kit utilizes a more traditional configuration with a return line.

Fuel Command Center

FiTech Fuel Command Center 2.0 is designed to be used in vehicles with stock fuel tanks converting from carburetor to EFI. This newly redesigned system can support up to 800 HP and can be mounted anywhere on the vehicles chassis. It is completely self-contained with a built-in regulator and a 340 lph pump submerged in the reservoir.

FF40004 ..... 394.99 kit

Inline Frame Mount Fuel Delivery Kit

This kit features a 255 lph inline high pressure, high volume EFI pump that will provide enough fuel delivery for up to 600 HP. Included are the fuel lines, fittings, two billet fuel filters and enough premium quality hose for an inlet and return line.

Important: *Requires return fitting to be installed in fuel tank.*

FF40005 ..... 244.99 kit

Throttle Return Spring

This kit will provide a throttle return spring for any FiTech 4 barrel throttle body. Includes: bracket, springs, and mounting hardware.

FF60011 ..... 29.99 kit

EFI Fuel Return Adapter

When converting a carbureted vehicle to an EFI system that requires a fuel return system, there's no longer any need to buy an expensive fuel tank. This adapter creates a return system simply by cutting a 2-3/4" section out of any standard 2" fuel filler tube. Made from aluminum with a 3/8" fitting that points 90 degrees downward to direct fuel back to the bottom of the tank. Each set includes: the adapter with two buna rubber sleeves and four stainless steel clamps for a leak proof seal.

265385 fuel return line adapter ..... 51.99 set

Fuel Pump Block Off Plate, Chrome-Plated with Ford Oval

Used to block off the mechanical fuel pump opening in the timing chain cover when converting to an electric fuel pump. Beautiful chrome-plating, with Ford oval emblem. Shown installed, hardware not included.

Ball Milled Billet Aluminum Fuel Pump Block-Off Plate

Billet Specialties fuel pump block-off for Ford engines. They feature CNC billet aluminum construction with a polished finish and stainless hardware.

B41620 SB and BB ..... 17.99 ea

Fuel Pump Safety Switch

This fuel pump safety switch shuts off fuel flow whenever oil pressure drops below 15 psi. This adds a safety factor in case of an accident or engine stall. Designed for 12 volt electrical systems and can be teed into the oil pressure sending unit with an 1/8" NPT tee.

77872 ..... 21.99 ea

Fuel Pump Safety Switch

This safety feature is a must have for any electric fuel pump fed vehicle. This fuel pump safety switch monitors the tach signal to limit when an electric fuel pump can operate. When the key is first turned on, the fuel pump is allowed to run for three seconds, priming the fuel system. After the initial three seconds, the fuel pump only operates if the engine is running. If the engine stops, so does the fuel pump. No plumbing into the oil lines or no extra priming button under the dash is required.

RE12003 fuel pump safety switch ..... 67.99 ea

Aluminum Double Pumper Carburetor

Holley's new series of aluminum double pump carburetors are constructed from aluminum, which compared to their zinc counterpart offer a 38% weight savings. Holley's aluminum double pump carburetors will hold their shine longer and also can be hand polished for a custom look. These Holley 4150 Series double pump carburetors are available in several sizes and with manual choke. These carburetors feature mechanical secondaries, center hung float bowls and power valve blow-out protection. The double pumper is designed for use on lightweight vehicles with a manual or automatic transmissions with a high stall and low rear end gears.

750 CFM Holley Carburetor

Classic Industries® offers newly remanufactured 750 cfm Holley carburetors. They feature an original finish, vacuum secondaries, electric choke and Power Valve blowout protection. For all engines with or without air injection reactor (smog). These replacements are similar to the 780 cfm units installed on Z28 and big block models and can be used to replace list numbers 3910, 4490, 4555, 4800-1, 4801-1, 6238-1, and 6329-1.

Important: *Throttle solenoid used on some models not included. Order separately. Carburetor stamped with current manufacturing date.*

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

Edelbrock Carburetors

Thunder Carburetors

The Thunder Series carburetors share all the performance advantages of the popular Performer Series but with innovative new features. The Quick-Tune secondary air valve can be easily adjusted to match your needs. Whether you want the secondaries to "kick in" early or late, you can set the air valve using standard tools, with no extra springs. Its a quick and simple process. These carburetors include all of the performance features of the Performer Series carburetors and also include distinctive black hardware, dual fuel inlets (shipped with left side plugged), lightweight ball burnished and CNC profiled body, and the Quick-Tune secondary. They're available in 650 cfm and 800 cfm sizes with manual or electric choke. There's even an 800 cfm version specifically designed for off-road vehicles. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors come with an installation kit and owners manual.

EnduraShine Finish

The EnduraShine finish carburetors offer an everlasting show quality appearance, extreme durability and unmatched performance. The durable finish won't turn blue like chrome and it doesn't require countless hours of polishing and maintenance to maintain the everlasting shine. These bright silver chrome finish carburetors are powder coated for durability. The clear top coat enhances the polished aluminum look for a great appearance.

E1806

650 CFM Carburetor

This carburetor is recommended for most Performer applications and small cubic inch Torker II applications.

Dual Feed Fuel Lines for Thunder Series Carburetor

Designed especially for the new Thunder Series AVS carburetors, these dual feed lines include chromed parts and a stainless steel braided line for high-quality looks and performance. Available with or without fuel filter. Replacement filters are also available separately.

E8133	with blue anodized fuel filter	94.99 ea
E8128	with polished aluminum fuel filter	84.99 ea
E8132	with 3/8" barbed end and no filter	81.99 ea
E8130	blue anodized fuel filter only	29.99 ea
E8129	polished aluminum fuel filter only	34.99 ea

Performer Carburetors

Performer Series carburetors complete the Edelbrock Power Package System for a smooth running and great performing "no guesswork" parts combination. By design, Performer Series square bore carburetors are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air Gap or Torker II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design. Performer Series square bore carburetors are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The two piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors come with an installation kit and owners manual.

E1405

500 CFM Carburetor

Recommended for small cubic inch Performer and dual quad applications. Includes both timed and full vacuum ports for ignition advance.

Performance Carburetors

67213

67208

Street Series Carburetor

Based on the highly successful Race Series carburetors, PROFORM street carburetors are constructed with lightweight aluminum, including provisions for a choke assembly and changeable idle air bleeds for easy, non-permanent calibration changes if necessary. Fine tuning is accomplished by simply changing air bleeds, not opening up calibration restrictions with a drill bit! These dual fuel feed inlet carburetors are hand assembled in the U.S. using PROFORM High Flow Carburetor Main Body, durable billet metering blocks, aluminum fuel bowls, and a high-performance billet throttle base plate.

Atomic EFI Set

The MSD Atomic EFI set fits all engines making up to 525 horsepower at the crankshaft. The annular ring charge injection design produces a better air/fuel mixture and distributes it evenly among the cylinders. As a result, engines idle, start and drive better with the Atomic EFI set. Throttle bodies feature 80 lb injectors and a self-calibrating throttle position sensor. They also feature an internal fuel rail for no-leak, no-hassle fuel delivery. The master set is complete and ready to use out of the box, which includes: the EFI throttle body, electric fuel pump, fuel line and filter with hardware, power module with wide band O2 sensor and handheld controller. Also available are the throttle body set which includes everything except for the fuel system components, or purchase the fuel components separately.

New! MOROSO

Carburetor Wedge Plate

During hard acceleration the float bowls in a carburetor become uneven, causing moderate fuel starvation. This aluminum spacer tilts the carburetor forward 5 degrees to help keep it level by tilting it forward 5 degrees This spacer measures .830" at its thickest point and has a dual bolt pattern for standard Holley, Carter AFB, and Edelbrock carburetors.

***Note:** Not legal for use on pollution controlled vehicles.*

265030 carburetor wedge plate ..... 39.99 ea

Carburetor Adapter

Four hole, square bore to spread bore adapter (.850"). Adapt a Holley or AFB 4 barrel carburetor to a Quadrajet 4 barrel manifold with this adapter plate. Includes all necessary hardware.

E2696 ..... 21.99 ea

H2038 1/4" diameter ..... 6.99 ea

Air Cleaner Base Gasket

This buna rubber air cleaner base gasket forms a positive seal between the air cleaner and the top of carburetor with a 5-1/8" neck. Designed for air cleaners with a straight lip, the gasket has a groove that fits over the lip for a superior seal against dust and debris. It can also be flipped and used on air cleaners with a rolled lip.

297331 rubber..... 11.99 ea

Carburetor Air Cleaner Gasket

This circle shaped gasket is installed between the carburetor body and the base of the air cleaner. Its a must for keeping small particles of dirt from entering your engine. They measure 5" in diameter and are available in two thicknesses.

1256633 5" diameter .060" thick ... 4.99 ea
H10862 5" diameter .200" thick ... 11.99 ea

Carburetor Cover

Keep dirt and contaminants out of your carburetor while working on your engine with the air cleaner removed. Produced using tough plastic construction. For all 4 barrel carburetors. 5-1/8" diameter.

T2012 4 barrel ..... 6.99 ea

Made in USA

Street Demon TPS Set

When using an electronic overdrive transmission, such as a 4L60E, with a carbureted engine, the transmission control unit requires a throttle position signal. This sensor bolts on to the carburetor and sends the proper signal to the computer. The simple design allows for easy calibration and voltage adjustments. Includes all necessary installation hardware. Made in USA.

D1951 Street Demon TPS..... 164.99 set

Made in USA

Street Demon Throttle Solenoid Set

Some vehicles, especially vehicles with air conditioning, require a throttle solenoid to automatically increase engine RPM. This throttle solenoid set from Demon Fuel systems includes the solenoid, bracket, and mounting nut. Made in USA.

D1950 Street Demon ..... 109.99 set

Made in USA

Street Demon Cable Bracket

These brackets remove the guesswork when installing a Street Demon carburetor in almost any carbureted GM application. All brackets have a clear zinc coating for corrosion protection and include installation hardware. Made in USA.

Universal Throttle Cable

Lokar Hi-Tech universal cut-to-fit throttle cables. The 24" cables will work with most carbureted and fuel injected configurations from 1964-93. They feature specially extruded liners, aluminum fittings and aluminum ferrules, and clevis cable ends to virtually eliminate binding and fraying and extend service life. These cables are available in 24", 36" or 48" lengths and your choice of a stainless steel, black stainless steel or black nylon housing. Detailed installation instructions included.

Important: *Remember to pull inner wire out before cutting outer housing.*

Note: *For 1986-93 EFI use LK2130 or LK2130B bracket.*

1965-68 Tri-Y Headers

Named for the unique 4-into-2-into-1 design of the header tubes, this style of header is still one of the most popular performance upgrades for small block Mustangs. Available in bright nickel-plating or original black finish. Comes complete with headers, reducers, gaskets and bolts. Fits 1965-68, 289-302 engines with auto transmission.

Important: *Fits cars with 157 tooth flywheel and small bell housing only.*
Note: Cars with power steering require part 3652A. Shipped oversize.

1964-95 Shorty Headers

Flowtech performance shorty headers are the perfect combination of quality and value for your vehicle. Excellent for vehicles with tight engine compartment or lowered vehicles with limited ground clearance. These headers are constructed of mandrel bent 16 gauge tubing and feature leakproof o-ring port exhaust flanges and mandrel formed collectors. Includes premium aluminum gaskets and installation hardware.

Emission Notes: This part is legal for use on Uncontrolled (Non-Emissions Controlled) Vehicles or Racing Vehicles. Check your state emissions regulations before ordering.

*Note: *Not legal for sale or use in California or states that have adopted California emission laws. Cannot ship to addresses within California.*

Headers

1964-93 Super Competition Long Tube Headers

Hooker Super Competition headers are designed to make maximum power and to put it at the optimum point in the power curve. They feature large, tuned length, mandrel bent setimaries engineered to increase exhaust velocity, gas scavenging, and high RPM efficiency resulting in more power and increased efficiency. Their thick 5/16" flanges and 18 gauge tubing and high-quality coatings are built to last on the street or the track.

Emission Notes: This part is legal for use on Uncontrolled (Non-Emissions Controlled) Vehicles or Racing Vehicles. Check your state emissions regulations before ordering.

*Note: *Swap headers. For installing non-factory engines.*

1999-04 Shorty Headers

MagnaFlow performance headers are built with the same dedication to precision, power and quality as MagnaFlow performance exhaust systems. 1.75" diameter tuned primary tubes, 2.375" collectors, high temp titanium ceramic coating, and 16 gauge mandrel bent stainless steel tubing ensures that your Mustang is putting out peak performance and head turning sound. Stainless steel construction, provisions for OEM emissions, optimized exhaust ports and CNC cut 3/8" thick flanges give you the quality and reliability expected of the name MagnaFlow. Installation hardware included.

Emission Notes: This part is legal for use on Uncontrolled (Non-Emissions Controlled) Vehicles or Racing Vehicles. Check your state emissions regulations before ordering.
Note: Not for sale or use in CA.

Wedge Locking Header Bolts

PROFORM Grade 8 (12.9 steel), Hex type header bolts were designed to keep bolts from backing off. These permanently assembled bolts feature special washers with super hardened serrated teeth that, when torqued to 28 ft lbs, bite into and grab the bottom of the bolt head and the top surface of the header. After being self-locked in this manner, any bolt loosening rotation is blocked by a wedge locking action created by the washers interfacing, matching cams. Engine vibration increases the tension, making them even more secure! They are reuseable and you can count on them to not fail.

1965-73 V8 Stainless Steel Exhaust System

Pypes 1965-73 Mustang V8 2-1/2" crossmember back exhaust kit is designed to deliver enhanced performance, provide an extra punch in the passing lane and improve gas mileage. Precision matched mufflers, X-pipe and OEM style stainless tailpipes deliver the ultimate in sound and performance. To ensures maximum exhaust flow and boost horsepower, each kit is manufactured from 16 gauge, mandrel bent, 409 stainless steel piping. Includes X-pipe and is available with or without mufflers.

Important: *Does not fit staggered shocks. Convertible owners with OEM body brace must run system under brace or fabricate brace spacers for X-pipe clearance. Fits 1965-70 Mustang with 260, 289, 302 or 351W V8 engines.*

Note: *Shipped double oversize.*

1979-04 V6 and V8 Stainless Steel X- and H-Pipe Mid-Pipes

Pypes X and H style mid-pipes are proven winners when it comes to making more horsepower in your 1979-04 Mustang. Typically, X-pipes will increase the power at higher RPMs while delivering more of a high pitched exhaust note, making the car sound more exotic. Whereas H-pipes generally make more power at lower RPMs while producing a deeper, traditional hot rod sound. Both are fabricated using the highest quality materials. Our smooth, 16 gauge mandrel bent, 409 stainless steel pipes resist corrosion and helps extend the life of your system. The ball flare connections and two piece design create a product that's leak-free and easy-to-install. Mid-pipes feature a 2-1/2" pipe diameter and are available with or without catalytic converters.
Important: This product cannot be used or sold in the state of California or in states that have adopted California Emissions Regulations. Check your local or state laws before ordering.
**For non-California Emissions states, products without a catalytic converter are designed for off-road use only. Check your local or state laws before ordering. For use with "shorty" style headers, not long tube headers.*
Note: Shipped double oversize.

MAGNAFLOW

MF15717

1986-04 Cat-Back Exhaust System

The Street and Competition Series Cat-Back exhaust by MagnaFlow will give your Mustang more power and a deeper tone. The Street Series provides a milder tone while the Competition Series has a more aggressive, deep tone. These performance exhaust systems minimize the power robbing effects of the OEM exhaust to maximize horsepower and torque. Built with high flow mandrel bent steel tubing and low restriction mufflers, these systems reduce engine heat and back pressure and improve exhaust scavenging from the combustion chamber for even more power. Installation hardware included.

Important: 1987-93 GT systems include turndown style tips that dump before the rear bumper.

Note: Ships double oversize.

BBK1638

1996-04 Mid-Pipes for Long Tube Headers

Made in USA

To ensure a simple installation of the BBK headers system. BBK Performance designed these matching high flow mid-pipes for 1996-04 Mustang models. Available in 2.5" mandrel bent tubing H- and X-pipe versions, with high flow converters or in off-road only race versions. Direct bolt-in requiring no drilling or welding when used with the matching long tube headers.

*Important: *Converters are 49 state legal, cannot be used or sold in the state of California.*
***Off-road use pipes are NOT EPA street legal in any state and are intended for race use only.*

Exhaust Cutouts

Electric Exhaust Cutouts

Don't crawl under your car to uncork your exhaust ever again by switching to electric cutouts. Keep them closed and quiet for the street, wide open for the strip, or anywhere in between with the flip of a switch. You control the volume and the power! Available in sizes 2-1/4" to 4" and a low profile oval design for applications with limited ground clearance. Fits 2-1/4" to 3" round exhaust pipe. Built with high-quality materials – CNC 6061 aluminum body and motor plate, stainless steel shaft and butterfly plate, high torque DC gear driven motor, weather tight wiring connectors, and custom illuminated toggle switch.

Important: *Match valve size with cutout size for optimal fit and performance.*

Note: **Includes* connector.

LIFETIME WARRANTY

Universal Electric Cutouts

Pypes dual electric cutout set allows you to partially or fully open both your exhausts from one switch that you can mount anywhere in the car. Perfect for when a quick 10-20 horsepower is needed. Using only the highest quality materials, the housing is manufactured with 6061-T6 billet aluminum with a double sealed aluminum butterfly. The motor features a high temp o-ring to ensure a complete seal and a built-in thermal protection device to protect it from overload. Sets include two electric exhaust cutouts, wiring harness with switch, stainless steel mounting hardware, extra thick gaskets, and Pypes lifetime limited warranty. Available with or without Y-pipes. Made in USA.

Note: **Connects to any 2-1/2" exhaust with an aprox. 12" straight section and enough clearance for the motor/valve assemblies.*

Made in USA

Stainless Steel Electric Cutouts

These cutouts feature a rugged 12 volt DC motor and rotating gate for a leakproof seal every time the cutout is opened and closed. When fully opened, these cutouts do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly style cutouts. A prewired harness with an illuminated rocker switch is supplied for easy installation. Uncork your exhaust with the flip of a switch from your dash. The cutouts are ideal for race tracks that don't require mufflers. Cutouts are available individually, in pairs, or in complete sets with Y-Pipes for easy installation. Made in USA.

Important: *Not recommended for vehicles equipped with catalytic converters.*

Note: *May not be legal for highway use or use on emission controlled vehicles.*

1979-04 2-1/2" Flow Tubes

Made in USA

While upgrading mufflers, the factory flow tubes may become damaged in the process. This is why Pypes offers 2-1/2" stainless steel replacement flow tubes for 1979-04 Mustang models. Each pair will replace the piping between the mid pipe and mufflers and is manufactured from 16 gauge 409 stainless steel. Features mandrel bent 2-1/2" tubing along with a ball and socket style connector and two 2 " 304 stainless steel flanges. LH measures approximately 15-3/4" and RH measures approximately 17-3/4". Sold in pairs.

1986-04 High Flow Mini Catalytic Converters

Made in USA

Replace those ultra restrictive factory cats for more power and better sound with Pypes universal high flow catalytic converters. These mini converters feature a 2-1/2" inlet and outlet, bungs for the oxygen sensor (if needed), and a polished 409 stainless steel finish to resist corrosion. Weighing only 2.5 lbs and 11" long, these cats are ideal for tight spaces as they only take up approximately 7" in length when installed. Rated for vehicles up to 5.0L and 4500 lbs. Available with either ceramic or metallic inner substrate material. Includes 2 converters, and 2 clamps. Depending on your current setup, additional clamps may be required.

Important: This product cannot be used or sold in the state of California or in states that have adopted California Emissions Regulations. Check your local or state laws before ordering.

Note: Ceramic is recommended for naturally aspirated applications; Metallic is recommended for forced induction applications due to the higher exhaust temperatures.

Low Line Lake Pipes... The Look is Back!

Get the retro look with a set of chrome lake pipes on your vehicle! This look was popular in the late 1950's and early 1960's. When set up as a functional feature, it allowed the racer to uncap or "dump" the exhaust for increased exhaust flow when racing. The use of a cap was allowed for quieter operation during street driving. It also provided the car with a lower "lead sled" look. These pipes do not incorporate any silencing materials and are recommended for nonfunctional use only. Choose from three styles – slanted outlet without cap, triple outlet with caps or single outlet with cap. Available in three lengths to suit your needs. Chrome pipe measures 2" in diameter. Mounting clamps sold separately.

Note: Shipped oversize.

FLOWMASTER Performance Mufflers

This Design Uses Low Pressure to Pull Spent Gases Out of Each Cylinder More Efficiently.

FLOWMASTER Performance Mufflers

Flowmaster's technology uses the pressure and sound energy released from an engine's combustion chamber into the exhaust system to create a low pressure area between exhaust pulses. Their design uses this energy to pull spent gases out of each cylinder more efficiently. This improved removal of exhaust gases out of the cylinders promotes a more efficient charge of unburned fuel and air to fill the cylinder for the next cycle. The result is more power as the engine has a purer mixture to burn.

Super 40 American Thunder

The Super 40 5" x 10" case design gives you a deeper tone that retains our classic 40 Series sound and feel. Increased flow path radius for optimum internal flow using the latest in Delta Flow technology. Flowmaster state-of-the-art robot assembly technology assures a product that exceeds OEM auto manufacturers' specifications. To achieve such critical quality, Flowmaster performs extensive R&D at the track and in-house with our own engine and chassis dyno facilities. Flowmaster Super 40 is aluminized, black in color and is an aggressive, deep sounding street two chamber muffler. Enjoy some American Thunder today!

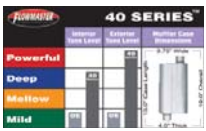
FLOWMASTER 40 Series Performance Mufflers



- Aluminized Steel
- Original Flowmaster Tone
- Deep Tone Inside Vehicle
- Street or Strip

40 Series – Original Flowmaster Tone

This is the most "aggressive" sounding street/strip muffler that Flowmaster offers. If you're looking for attention, this one will get you noticed. The standard 40 series has an "aggressive rumble" and will generally resonate inside the vehicle around 1800-2000 RPM's, and again at 2400-2600 RPM's. Constructed of 16 gauge aluminized steel and fully MIG welded for maximum durability.

*Note: *= 409S Stainless Steel*

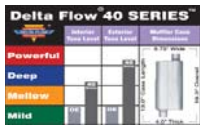
FLOWMASTER Delta Flow 40 Performance Mufflers



- T409 Stainless Steel
- Powerful Aggressive Tone
- Lower Interior Resonance
- Street or Strip

Delta Flow 40 Series – Reduced Interior Resonance

This two chamber design incorporates Flowmasters patented "Delta Flow" technology. The "Delta" deflectors result in increased scavenging for better performance and reduced interior resonance over the standard 40 series with a nice growl outside the vehicle. Sounds great on late model performance cars with catalytic converters. Constructed of 16 gauge steel and fully MIG welded for maximum durability.

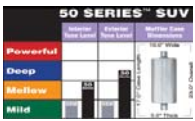
Flowmaster 50 Series SUV-Performance Mufflers



- Large Displacement Street Cars
- Early Era Muscle Cars
- Deep Tone Outside Of Vehicle

50 Series SUV – Performance

The SUV/Performance muffler is a larger version of Flowmasters 50 Series Delta Flow muffler and is specially designed for trucks, light SUVs and high horsepower vehicles. The larger H-chamber reduces interior resonance to a minimum. Constructed of 16 gauge aluminized steel and fully MIG welded for maximum durability.

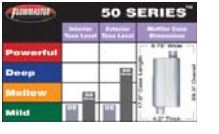
FLOWMASTER 50 Series Performance Mufflers



- T409 Stainless Steel
- Milder Performance Sound
- Lower Interior Resonance
- Performance Street

Delta Flow 50 Series-Milder Interior & Exterior Tone

This is the latest design of the 50 series muffler that utilizes Flowmasters patented "Delta Flow" technology along with an "H-Chamber" to eliminate most all interior resonance and still have that famous Flowmaster sound outside the vehicle. Constructed of 16 gauge steel and fully MIG welded for maximum durability.

FLOWMASTER 80 Series Performance Mufflers

- Aluminized Steel
- Aggressive Performance Sound
- Higher Interior Resonance
- Transverse Mounting

Cross Flow 80 Series – Transverse Mounting

The 80 Series is designed for applications where the muffler must be mounted transversely (cross flow) behind the rearend. It provides an aggressive muscle car sound both inside and outside the vehicle. A replacement for early and late model vehicles. Constructed of 16 gauge aluminized steel and fully MIG welded for maximum durability.

DYNOMAX Performance Exhaust

17519

Universal Fit Ultra Flo SS Muffler

The Dynomax Ultra Flo muffler uses a unique straight through design that maximizes flow and power. Made from all stainless steel materials for optimum appearance, corrosion resistance and longer life. Includes: high chromium content, high luster T-304 cover and heads. Continuous perf design maximizes sound absorption, minimizes turbulence and gives a deep powerful true performance sound. All universal mufflers are reversible for custom installation.

Important: *This muffler comes in two styles: Sport model measures: 4" x 9-3/4" x 18-1/2", Street model measures: 4" x 9-3/4" x 25-1/2".*

Exhaust Components

Exhaust and Tailpipe Cutter

Cuts pipes 3/4" to 3" (19mm to 76mm) in diameter. 15 blades effectively cut pipe so only 1/4" turn is needed for complete cut. Works great in hard to reach areas.

X2031 ..... 51.99 ea

Create More Horsepower! Reduce Underhood Temperatures!

The original Exhaust Insulating Wrap™ was developed over 12 years ago by Thermo-Tec®. Wrapping headers maintains hotter exhaust gases that exit the system faster through decreased density. Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust Insulating Wrap™ withstands continuous heat up to 2000 degrees F, and contains no asbestos. Thermo-Tec® exhaust wrap will not over insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec® Thermal Conduction Technology (TCT) that conducts heat across the wrap's surface. This coating controls heat buildup and dissipation. The 1/16" thick wrap is available in 1 inch or 2 inch widths in 15' or 50' rolls. Choose from off-white or graphite black.

Off-White Exhaust Wrap

TT1014	2" x 50' long roll, black	44.99 ea

Reduce Underhood Temperatures Up to 70%!

The new quick wrap, high velocity Exhaust Jackets™ are an innovative way to insulate and block radiant heat. The jackets cover the header tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermal Conduction Technology (TCT), developed by Thermo-Tec® and can be applied with the headers in the vehicle.

TT1015	4-6 cylinder	64.99 ea
TT1016	8 cylinder	85.99 ea

This Flexible Heat Shield Simply Clips Into Place!

The Header Manifold Blanket™ provides excellent heat retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminized side facing away—offering protection from abrasion and harmful liquid spills. The Header Manifold Blanket™ is available in two sizes: two 20" by 24" blankets for V6 and V8 applications, and one 36" by 40" blanket for straight 6 and 4 cylinder engines.

TT1017	V6-V8 applications	79.99 pr
TT1018	straight 6 or 4 cylinder models	74.99 ea

Vermiculite Coated Header Wrap

Insultherm Header Wrap is an extremely high temperature resistant wrap used to insulate hot gases in automotive exhausts. Manufactured from texturized fiberglass yarns that are woven into a strong, flexible wrap with vermiculite coating. Resists gasoline and engine chemicals and withstands temperatures up to 1200 degrees F (maximum continuous temperature of 1000 degrees F). Available in black or natural in 50' or 25' rolls.

Carbon Fiber and Copper Header Wrap

Generation II Copper Header Wrap and Carbon Fiber exhaust insulating wrap improves heat resistance up to 30% more than current technology, by utilizing a new proprietary coating developed by Thermo-Tec; improved Thermal Conduction Technology (TCT). Generation II Copper and Carbon Fiber Exhaust Wrap creates more horsepower and reduces underhood temperatures, increases exhaust scavenging, withstands continuous heat up to 2000 degrees F, contains no asbestos. The Carbon Fiber exhaust insulating wrap is produced utilizing pulverized Lava rock called basalt and maintains it's color.

Note: Installation on a V8 with long tube headers requires two 50' rolls.

Made in USA

Heat Sleeve

This new silicone coated fiberglass fire sleeving is designed to protect wires, cables and hoses from high temperature exposure, liquid spills and occasional exposure to flame. The high-quality sleeving is made in the USA. from braided fiberglass and coated with a compound silicone rubber. It is capable of continuous protection to 500 degrees F and short-term exposure up to 2200 degrees F! Available in either silver or black, and diameters of 1/2", 3/4" and 1". Sold in lengths of 3 ft., 10 ft. and 50 ft.

Exhaust Components

Hi-Heat Coating

The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface, extend the life of wrap by protecting it from friction, and seal the pores to minimize the penetration of harmful liquids. The coating also works excellent as a paint directly on metal surfaces.

Note: Shipped within the continental U.S. only. Shipped ground only.

Heavy-Duty Spray Adhesive

Heavy-Duty Spray Adhesive is the answer when you need a quick drying, long-lasting spray adhesive for a high temperature application. Extra strong contact-style adhesive sets quickly, and lasts even in high temperature situations. Use with Thermo-Guard FR, Cool It Insulating Mat, Aluminized Heat Barrier and more. Comes in a large 16 oz. spray can.

Note: Shipped within the continental U.S. only. Shipped ground only.

Xtreme Temperature Coating

XTC is a high temperature/heat resistant coating formulated specifically to protect metal surfaces operating at temperatures from 500 to 1500 degrees F. With proper preparation, XTC provides outstanding adhesion, film integrity, weathering, and thermal shock resistance throughout this entire temperature range, and is guaranteed not to burn off! Available in your choice of a wide variety of colors and sizes.

*Note: 8 oz. will coat approximately 3 sets of automotive exhaust manifolds with 2 coats or coat a set of shorty headers with 2 coats. Pints will coat a set of full size headers with 2 coats or coat a complete automotive exhaust system with 2 coats. *Shipped within the continental U.S. only. Shipped ground only.*

Thermal Insulation Products

Adhesive Heat Barrier™

Use your imagination and you will find many uses for this heat reflecting mat. Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. It can be used in applications to protect painted surfaces, plastic parts or any component from the damaging effects of radiant heat. Aluminized Heat Barrier™ is made up of woven silica with a flexible aluminized finish. The highly reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000 degrees F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance. Two sizes to choose from.

Shield Plastic or Rubber Hoses and Wiring from Radiant Heat!

Thermo-Shield™ protects hoses and wires from radiant heat. Unprotected, rubber hoses and plastic or rubber insulated wiring can dry out, melt or crack over time. Thermo-Shield™ is used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. Reflects radiant heat up to 2000 degrees F. Provides a barrier against the extreme conditions that underhood components are exposed to. Wrap your fuel lines and say good-bye to vapor lock.

TT1051	2" x 50' feet	42.99 ea

Protect Your Vehicle from Corrosive Battery Acid!

Excessive heat in the engine compartment will cause most standard batteries to spew or seep corrosive battery acid. This in turn will not only corrode your vehicle's battery tray, underhood and radiator support area, but will also reduce the longevity of your battery. Prolong battery life with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid, protects against corrosion, is recyclable, protects the environment, and is inexpensive and easy-to-install. The Battery Heat Barrier™ set is completely safe to handle before and during installation. It is so effective, it is used by all branches of the U.S. military. Set consists of: one 8" x 40" acid absorbing/neutralizing felt and one adhesive backed 8" x 40" aluminized thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/neutralizing pad to put beneath the battery. Install one on your vehicle NOW, before it's too late.

TT1001	battery heat shield set	25.99 set

Starter Heat Shield™ Set

In today's high heat environment, starters take in a lot of damaging heat that destroys the windings of the starter and solenoid. To combat this problem, we offer a non-conductive strap-on heat shield with a highly reflective mylar surface. The Starter Heat Shield™ will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The Starter Heat Shield™ is a universal set that fits all starters.

TT1002	with straps	24.99 set

TT11600

Clamp-On Heat Shield

The flexible Clamp-On Heat Shield blocks more than 90% of damaging radiant heat from the exhaust. The high tech composite construction provides the ultimate in protection by incorporating Thermo Conductive Technology, a highly texturized silica-based fabric. Clamp-On Shields are available in 1, 2 and 3 lengths. Sets come complete with all clamps and install easily in minutes.

Performance Transmission

TR7646

- Special clutches and bands increase durability
- Chrome-plated transmission pan with embossed TCI logo
- Increased thrust capacity and more torque capacity with less slippage

1966-96 Street Rodder Transmissions

The economical TCI Street Rodder transmission is ideal for Ford V8 powered vehicles producing up to 525 horsepower, perfect for a mild daily driver or street rod. Includes a TCI automatic valve body, shift improver kit and a 13-1/2" tailshaft. This transmission allows you to achieve firm, yet not too harsh shifts in your vehicle while remaining fully automatic. Retains stock shift pattern.

Note: Transmission is non-lockup. Shipped truck freight.

TR7640	1966-96	C6-525HP, V8 289, 302, 351C, 351W	1294.99 ea
TR7641	1966-96	C6-525HP, V8 351M, 400, 429, 460	1169.99 ea

- Increased durability
- Increased holding capacity
- Improved lubrication system
- Chrome-plated transmission pan with embossed TCI logo
- Higher line pressure for extra firm shifts & greater torque capacity with less slippage

1966-96 Street Fighter Transmissions

The TCI Street Fighter transmission for non-supercharged and using pump gasoline Ford V8 applications producing up to 725 horsepower. Includes a manual/automatic valve body (when applicable), to allow you to manually shift into each gear or place it to drive position, to remain fully automatic. This gives you racetrack shifts and shaves time off your ET's with no lag or governor override.

***Important:** TR7647 requires factory ECU to operate transmission.*

Note: C6 transmissions are non-lock up. AOD/AODE transmissions are lockup. Shipped truck freight.

- Extreme performance clutches and nitride coated steel plates
- Extra wide powerbands, where available, for greater torque capacity
- Larger diameter servos increase band pressure for more force on flex bands
- New sprags/roller clutches, enhanced hard parts, and improved lubrication system
- Chrome-plated transmission pan with embossed TCI logo
- Extra firm shifts and greater torque capacity

1966-04 Super Street Fighter Transmissions

The Super Street Fighter transmissions bridge the gap between the Street Fighter series and full competition transmissions. This version is intended for naturally aspirated engines producing 825-1000 horsepower. Featuring some of the same benefits as the Street Fighter but with certain upgrades, this transmission offers both manual and automatic shift options to give you the power and shifts you want for the strip or easy driving for the street.

***Important:** TR7648 requires factory ECU to operate correctly.*

Note: C6 transmissions are non-lock up. AOD/AODE transmissions are lockup. Shipped truck freight.

Street Smart Transmission Packages

Includes: 10" or 12" torque converter, bellhousing, pressure gauge and dipstick with filler tube.

Important: TR7637 requires 164 tooth flexplate. Does NOT include bell housing, TR7638 use 164 tooth flexplate, TR7639 use 184 tooth OEM style flexplate.

Note: Limited lifetime warranty.

TR7637	AOD	small block, 12" stall 2200 rated 450HP	3126.99 set
TR7638	AOD	big block, 10" stall 2600 rated 550HP	4384.99 set
TR7639	AOD	FE, 10" stall 2600 rated 550HP	4384.99 set

- Alto Racing clutches
- Alto Red Eagle bands
- A/B servo
- Hardened input shaft
- Drum and diode
- Lockup
- New steel pan
- Street/Strip valve body

AOD Competition Transmissions

The AOD Competition transmission is equipped to handle up to 550 horsepower. Performance Automatic uses only the best cores as a foundation, inspecting and cleaning every component, checking tolerances to ensure exceptional performance. Redesigned clutch and band application ratios to provide firm, positive shift characteristics. Every transmission is dyno tested for function, performance and calibration.

Note: One-year warranty. Shipped truck freight.

TR7619	AOD	small block engines	2834.99 ea

- Alto Racing clutches
- Alto Red Eagle band
- Super servo
- Trans brake
- Hardened input shaft
- Drum and diode
- Non-lockup
- Deep aluminum pan
- Full manual valve body

AOD Super Competition Transmissions

The AOD Super Competition transmission is equipped to handle up to 700 horsepower. Performance Automatic uses only the best cores as a foundation, inspecting and cleaning every component, checking tolerances to ensure exceptional performance. Redesigned clutch and band application ratios to provide firm, positive shift characteristics. Every transmission is dyno tested for function, performance and calibration.

Note: One-year warranty. Shipped truck freight.

TR7620	AOD	small block engines	3619.99 ea

TR7621

- Heavy-duty clutches
- High-performance bands
- Heavy-duty servo
- Drum and diode
- Lockup
- New steel pan
- Street/Strip valve body

1992-04 AODE Street Strip Transmissions

The AODE Street Strip transmission is equipped to handle up to 500 horsepower. Performance Automatic uses only the best cores as a foundation, inspecting and cleaning every component, checking tolerances to ensure exceptional performance. Redesigned clutch and band application ratios to provide firm, positive shift characteristics. This transmission allows for crisp shifts, improved thrust capacities and endure a longer life. Every transmission is dyno tested for function, performance and calibration.

Important: Do not include the driven gear for a cable driven speedometer or vehicle speed sensor.

Note: One-year warranty. Shipped truck freight.

BM50448

1966-04 HoleShot™ Torque Converter

A higher than stock stall speed as delivered by the HoleShot™ converter will provide several advantages and benefits in vehicles with modified engines. Big cams tend to reduce low end power and torque. The high stall converter allows the engine to launch the car at higher RPM where more torque is available. The HoleShot™ is a very good choice for the typical street car that is looking for better launch capability. The HoleShot™ is not recommended for use with Nitrous, use the Nitrous HoleShot™ for N20 equipped engines. Stall speed listings are based on engines producing 230 ft lb of torque at 2500 RPM. More torque at 2500 RPM will give you a higher stall speed, less torque at 2500 RPM will give you a lower stall speed than the stall speed ratings indicated.

New!

1967-92 Transpak Kit

The next step-up from the Shift Improver Kit™ is the Transpak™. It has all the features in the Shift Improver Kit™, plus it provides additional driver manual control (TH400, TH350 only). With the Transpak™, you can downshift at any speed, and you can hold the transmission in first gear to any speed that you want!

Stage 1 – Heavy-Duty
For street rods, normal passenger vehicles or other heavy-duty use. Firmer shift feel but not harsh. Improves transmission performance and life dramatically without loss of comfort. Normal automatic operation when in "Drive".

Stage 2 – Hi-Performance Street
For full performance street use. Essentially the same as Heavy-Duty mode except shift is much quicker. Retain full automatic features and standard shift points with selector in "Drive".

Key Features:
- Select the mode that best suits your application.
- Improves transmission life.
- Transmission removal not required.

223040

Pour In Performance!

Trick Shift™ was originally developed by B&M for racing applications. Not an additive, this is the best performance ATF available! Trick Shift™ is the easiest way to measurably improve the transmission performance of your vehicle. Trick Shift™ works with all automatic transmissions when a firmer shift is desired. "Pour in Performance" isn't just a catchy phrase – it's reality! It can be mixed with stock type transmission fluids, however to attain maximum improvement you should use Trick Shift™ exclusively. Ideal for towing, light trucks and RV applications as well as racing.

Important: *Not recommended for electronically controlled automatic transmissions.*

1967-99 Shift Improver Kit

The B&M Shift Improver Kit™ is the easiest way to get the stout performance you've always wanted out of your automatic transmission – and you get two modes of performance to select from: Heavy-Duty, or Street/Strip.

Stage 1 – Heavy-Duty
Firm positive shifts without loss of driver comfort for improved performance in all street vehicles. Recommended for regular passenger vehicles.

Stage 2 – Street/Strip
Provides very positive shifts for high-performance street use or for competitive events. This model is for the enthusiast who wants the hardest, quickest possible shift.

Key Features:
- Provides crisp shifts on any stock automatic transmissions.
- Elimination of soft sluggish shifts, shift overlap, and excess wear on clutches and bands due to slippage.
- Improves transmission life.
- Transmission removal not required.

RP01320

Max ATF High-Performance

Max ATF is a synthetic, high-performance, automatic transmission fluid. Its low co-efficient of friction and high film strength help to dramatically reduce heat and wear. Reduces heat to extend the life of your transmission. Max ATF is fully compatible and can be mixed with other automatic transmission fluids, however, for the best results drain or flush the current oil and then fill with Max ATF.

1965-69 C4 Transmission Rebuild Kit

Rebuild your transmission with this kit. Includes: all gaskets, o-rings, lip seals, seal rings, metal clad seals, friction clutches, clutch plates, clutch band, bushings and filter. Vacuum modulator not included.

7005A 1965-69..... 92.99 kit

New!

1970-82 C4 Transmission Rebuild Kit

This is the most comprehensive kit available. Provides parts or necessary part numbers to upgrade your transmission into a true performance transmission. This kit features the same quality and components used in a B&M Street/Strip Transmission in a do-it-yourself kit. Comes with instruction sheets that provide the do-it-yourselfer with all the information needed to completely overhaul a C4 to B&M specs. Easy to understand even if you have no experience in this area.

BM50231 1970-82..... 259.99 kit

New!

1994-97 ShiftPlus Electronic Shift Improver

The ShiftPlus™ shift firmness not only makes driving more fun and pleasurable, but slippage and heat are reduced – extending the life of your transmission! This new design allows you to improve the transmission's shifting performance without removing the transmission pan or valve body. The B&M ShiftPlus™ electronically enhances shift quality and is adjustable. A simple flip of the switch allows the transmission to operate in the performance mode. Flip it back and you are back to stock! Fits Ford AODE rear wheel drive and 4 wheel drive with trans codes D,E,P,U,H,L and V (found on plate on driver door post).

Transmission Pan FilterMag New!

FilterMag's powerful rare earth magnets trap and hold wear inducing metal particles smaller than 40-microns down to 1-micron that the filter cannot stop. The super strong magnetic force holds FilterMag to the canister, are reusable, and will reduce maintenance costs by extending the life of your oil. Flat style FilterMag's are available for differential covers, and curved styles are available for engine oil filters. The super strong automatic transmission FilterMag mounts to the outside bottom of the pan and will keep metal particles from harming your transmission.

New!

Hi-Tek Transmission Cooler

The Hi-Tek automatic transmission cooler is perfect for demanding street/strip and even towing applications. At 175 degrees, a thermal switch activates the high flow 12 volt 7" electric fan. Durable, oven brazed aluminum construction promises years of performance. The 1/2" NPT fittings are easily adaptable to AN fittings and steel-braided cooler lines, or can be used with standard rubber or steel lines. Measures 10" x 7-1/2" x 4" and includes electrical connectors and detailed instructions.

New!

FLA00117

Transmission Fluid Coolers

Transmission fluid is designed to act as a coolant as well as a lubricant for your transmission. If the transmission fluid is allowed to get too hot, performance drops, varnishes form, and the fluid starts to break down, which can lead to premature wear. Flex-a-lite heavy-duty coolers can help prevent this by keeping the temperatures down, helping to ensure longer life to transmissions and components, and reduce the stress created by high-performance transmissions. Also suitable as a heavy-duty engine oil cooler.

Important: Products shown in photos may be a different size and have different details than what is described on this page. Picture is from the same product line and is for reference purposes only. Depending on application and setup, additional fittings or adapters maybe required.

Note: Dimensions: Width = 11"; Depth = 3/4". Height varies. See below for more options.

Transmission Oil Cooler/Filter

Automatic transmission oil cooler and filter combination with a finned aluminum heat sink design to dissipate heat in racing applications. It can also be used as an inline auxiliary cooler in conjunction with the stock cooler. It's compact one pound 3" x 12" aluminum body gives it excellent heat transfer capabilities. An internal filter with magnet traps particles over 5 microns to reduce transmission wear. Includes: filter cartridge and two 1/4" NPT to 3/8" line fittings.

The Most Comfortable Shifter We Offer!

The B&M Hammer™ shifter may be the most comfortable automatic shifter you can buy. The handle feels like it was molded for your hand, and the spoon shaped, multi-position trigger allows easy finger operation in a multitude of grip positions. For use with C4, C6, and AOD automatic transmissions.

Important: *AOD requires #40496 installation kit.*

Key Features:

- Unique multi-positioned trigger for user comfort in various shifter positions.
- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle and cable.
- Can be used with a reverse pattern valve body.

223016 Hammer™ shifter ..... 234.99 ea

3160009

Floor Mount Quarter Stick Shifter

The Hurst Quarter Stick automatic shifter is designed to provide positive gear change control for street or strip applications. Detent activation is controlled by a chrome-plated trigger contoured to fit comfortably into the driver's hand. Optional shifter cover can be trimmed to fit any floorpan. For a stock console look, choose the distinctive black textured plastic cover kit. Or, for a racier look, pick the aluminum cover kit that attaches to the shifter with 2 quick release pins. Both are sold separately.

Important: *For vehicles without factory consoles.*

Key Features:

- Forged aluminum stick.
- One hand operated, spring loaded reverse lockout mechanism.
- Factory installed neutral safety switch.
- Cable operated.
- Optional cover kits sold separately.

B&M Automatic Shifters

1987-04 Hammer Shifter

B&M Hammer shifter for 1987-04 Ford Mustang models. These shifters are specifically designed to fit into the console of Fox and SN-95 Mustang models. They have all the same features as the universal Hammer shifters with the addition of an application specific base. Includes #40496 AOD installation kit.

Note: Ford C4 transmission requires #BM81020 installation kit. Uses factory cable.

BM81002	1987-93	Mustang	209.99 ea
BM81001	1994-04	Mustang	282.99 ea
BM81020	1987-04	C4 adapter kit..	91.99 ea

QuickSilver™ Shifter

The B&M QuickSilver™ shifter is a top of the line ratchet action shifter that provides performance shifting without a trigger. To get into park or reverse from drive, just lift the knob/stick assembly and move it forward into position! And it's cable operated for easy installation and precise shifting. For use with C4, C6, and AOD automatic transmissions.

Important: AOD requires #BM40496 installation kit

Key Features:

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting. You can't miss a gear.
- Neutral safety switch, back-up light switch, lighted gear indicator, chrome knob and cable.
- Can be used with a reverse pattern valve body.

223018 QuickSilver™ shifter..... 309.99 ea

Sport Shifter™

The Sport Shifter™ is the low cost alternative to B&M's top of the line MegaShifter™ that performs as if it was twice the price! The Sport Shifter™ is not a ratchet shifter and not intended for racing applications, but it makes a perfect addition to any street machine – making daily driving something to look forward to. Utilizing a simple detent action between First, Second, High and Neutral, it features a lighted gear indicator, black plastic T-handle, neutral safety switch, back-up light switch and flat aluminum stick. For use with C4. C6, and AOD automatic transmissions.

Important: AOD requires #BM40496 installation kit.

Key Features:

- Base can be trimmed to custom fit any floor.
- Neutral safety switch, backup light switch, lighted gear indicator, black. T-handle and cable.

223019 Sport Shifter™ shifter..... 225.99 ea

Starshifter™

The B&M StarShifter is a versatile 3-speed automatic shifter in a clean, timelessly styled package! In normal mode, the StarShifter is a straight line detent shifter. With the lever is in Low, lift the trigger and pull the stick back to convert to ratchet action. Move the stick forward for the 1-2 and 2-3 shifts. Cannot be used with reverse pattern valve body. For use with C4 and C6 automatic transmissions.

Important: Does not fit AOD transmissions.

Key Features:

- Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch and polished aluminum T-handle and cable.

223020 StarShifter™ shifter..... 211.99 ea

Z-Gate™ Shifter

The B&M Z-Gate™ shifter combines classic styling, performance, and a popular price. If you're building a project on a budget, or simply want to upgrade your automatic shifter, the Z-Gate™ is the only choice! Great for most 3-speed automatics, the patented 'Z' shaped architecture eliminates the possibility of overshifting and missing a gear. Even more, this easy to operate shifter has many of the features found in our top of the line units, and it includes a T-handle and T-trigger – so you get the most bang for your buck! For use with C4 and C6 automatic transmissions.

Important: Does not fit AOD transmissions.

Key Features:

- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, black T-handle and cable.

223021 Z-Gate™ shifter..... 195.99 ea

Megashifter™

The Megashifter™ is one of B&M's all-time classic designs due to timeless good looks and high-performance ratchet action. It's ideally suited for most popular applications using C4, C6, or AOD automatic transmissions.

Important: Not for use with original consoles.

Key Features:

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle and cable.
- Can be used with a reverse pattern valve body.

223017 Megashifter™ shifter..... 341.99 ea

Street Bandit Shifter

B&M Street Bandit shifters are designed with the the look and feel of a race shifter. They feature replaceable 2-, 3- or 4-speed forward pattern gate plates or a 3-speed reverse pattern gate plate. Other features include a back-up light switch, neutral safety switch, brushed aluminum cover, CNC aluminum Magnum Grip shift handle, a 5 ft Super Duty cable, and the all brackets, levers and instructions for needed for an easy installation. For use with C4 and C6 automatic transmissions.

Important: Does not fit AOD transmissions.

Key Features:

- NHRA/IHRA approved.
- Interchangeable gate plate system.
- Solid positive gate shifting.

Manual Transmission

New!

Cobra Spec T5 5-Speed Transmission

Tremec Cobra Spec T5 5-speed overdrive transmissions are a performance upgrade for 1979-93 Fox Mustang models. The T5 has a more compact case than other Tremecs making it a great choice to retrofit into a classic Mustang. The T5 is a smooth shifting, reliable, and an affordable transmission capable of handling up to 300 ft lb of torque.

Important: Some modifications may be required.
Note: Photos for illustration purposes only. Shipped overweight. Special order, must be prepaid.

TR7554

TKO 5-Speed Transmissions

Tremec TKO series 5-speed overdrive transmissions are available in Quick Launch, Road Race, and Street/Strip ratios. These high-performance transmissions are rated at 500/600 ft lbs of torque while maintaining smooth but positive shift characteristics. They feature high grade steel internals and a single piece counter shaft for increased torque carrying capacity, tapered roller bearings throughout for quieter operation, and a unique internal shaft rail system that provides three shifter locations. Tremec TKOs utilize the same bolt pattern as Ford "toploader" transmissions, will work with Ford mechanical gear and analog electronic speedometer drives.

Important: Some modifications may be required.
Note: Photos for illustration purposes only. Shipped overweight. Special order, must be prepaid.

1983-04 Aluminum Flywheel

New!

Get faster throttle response, quicker acceleration, and smoother shifting with a Fidanza billet aluminum flywheel! Fidanza billet aluminum flywheels are CNC-machined from the highest quality 6061-T6 aluminum to deliver optimum tensile strength, heat dissipation and weight reduction. The replaceable friction surface is made from 1050 steel and attached with military grade aerospace fasteners for smooth engagement and durability. Fidanza billet aluminum flywheels also feature a 1050 heat treated steel ring gear that's pressed on and secured with Grade 8 button screws.

*Notes: *Includes 8.5", 9", and 9.5" clutch patterns. **External balance weights are included in the hardware kit supplied with the flywheel. †Includes 10.5" Borg & Beck and 10.5" metric clutch patterns. Image for illustration purposes.*

1986-04 Nodular Flywheel

New!

Fidanza performance nodular flywheel is an inexpensive way to improve over a stock cast iron flywheel. Nodular iron is denser due to graphite content being better distributed in the form of nodules as opposed to flakes. Particles are also better aligned and magnesium content is increased to produce greater strength than a standard casting. Flywheels are thoroughly inspected for quality and fitment.

*Note: *Includes 10.5" Borg & Beck and 10.5" metric clutch patterns. Image for illustration purposes.*

RedTop Battery

The OPTIMA RedTop high-performance AGM battery is the ultimate high CCA starting battery designed to deliver the strongest 5 second ignition power for a reliable start up every time. The RedTop outperforms and outlasts traditional batteries in demanding cranking/starting applications. With ultimate power delivery and durability, the RedTop is ideal for luxury cars, hot rods, off-road vehicles and other applications that require a leakproof starting battery.

Note: Shipped overweight.

Battery Accessories & Tools

Autolite Vintage Look Battery Cover

Fits over an appropriately sized modern flat top battery and is held in place by the battery cable clamps. Battery top should be 10-3/8" x 6-7/8" (or less) with top posts 8-3/16" apart (center to center). Difficult to distinguish from the real thing!

10658 ..... 44.99 ea

Battery Mat – Acid Neutralizer

The Battery Mat offers protection against undetected battery acid leaks. Once installed, the mat will trap and neutralize any battery acid that leaks from the terminals or top side of the battery, preventing corrosion and expensive damage. Each mat is made of super absorbent polypropylene needle punch felt, with one side heat treated to give it additional strength. The mat is inserted under the battery between the battery and the battery tray. It can easily be installed at any time either when replacing the battery tray or battery.

BM2427 yellow mat ..... 5.99 ea
BM2428 black mat ..... 5.99 ea

Protect Your Vehicle from Corrosive Battery Acid!

Excessive heat in the engine compartment will cause most standard batteries to spew or seep corrosive battery acid. Prolong battery life with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid. Set consists of one 8" x 40" acid absorbing/neutralizing felt and one adhesive backed 8" x 40" aluminized thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/neutralizing pad to put beneath the battery.

Remote Battery Disconnect

With this setup, one click of the key fob completely shuts down your car's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. For even more security, the 4 channel "Safe-n-Sound" system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4 channel package can handle up to 30 amps worth of electrical equipment.

Remote Master Disconnect

We offer two Master Disconnect kits with 250 amp continuous duty solenoids designed for use with high amperage alternators. Remote Master Disconnect set 30204 uses a small toggle switch to activate the solenoid. This switch can be hidden anywhere in the vehicle as a theft deterrent. Our new Master Disconnect with Emergency Push Button is perfect for drag race applications as it allows you to install a large emergency push button in easy reach if you need to shut down your vehicle's electrical system in a hurry. Finally, our new Remote Master Disconnect with Mechanical Latching Solenoid is ideal for everyday vehicle applications and is a simple and effective antitheft deterrent. It uses a 110 amp continuous duty solenoid which is activated by an easy to hide momentary push button. No risk of accidentally draining your battery with this latching solenoid.

20120

1965-70 Chassis Wiring Harness

Painless Performance chassis wiring harness for 1965-70 Mustangs. This 22 circuit direct fit harness is ready-to-install right out of the box with many of the factory connector preinstalled. This harness uses our unique covered micro-fuse block. It features a modern micro-fuse block with an auxiliary circuit with 20 amp relay for accessories such as fog lights, or an electric fuel pump. Each wire is custom printed with the circuit identification as well as using Ford color codes for easy installation. Kit is intended for vehicles without EFI or electronically controlled transmissions.
Important: Will not fit 1964-1/2 Mustangs.

60510

1986-95 Engine Wiring Harness

Painless Performance EFI engine harness for the 1986-95 Ford 5.0 HO engines with mass air. Included with this harness is an 8 circuit modular fuse block and Ford color coded wires with labels for easy installation. The standard length harness allows four feet from the back of the intake manifold to where the fuseblock and ECM mount, the extra length kit allows 8 feet. Only compatible with 1989-93 MAF and Distributor, 1986-88 Mustangs must convert to MAF. 1994-95 Mustangs have to modify TPS wiring and change distributor. Harnesses do not include all the original connections for the original emissions.

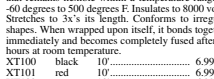
Wiring Harness Tape

If you want an OEM quality and appearance for your original or reproduction wiring, this specially manufactured black, non-stick tape is what you need! This tape will allow you to rewrap your existing harness or replace tape which may have been removed.

K0067	1-1/4 x 100' vinyl		11.99 ea
CA4857	1" x 100' cloth		16.99 ea



XT100 XT101

X-Treme Tape

X-Treme Tape was developed for the military and has some very unusual properties. The silicone-based tape will stick only to itself, and only when placed under tension. Once wrapped around an object, it forms a non-conductive, air and watertight, insulating seal that remains flexible within a temperature range of -60 degrees to 500 degrees F. Insulates to 8000 volts. Stretches to 3 x's its length. Conforms to irregular shapes. When wrapped upon itself, it bonds together immediately and becomes completely fused after 24 hours at room temperature.

RON FRANCIS

iStart™ Touch Sensitive Starter System with Advanced Security

This system uses a security module with proximity sensors to disable the ignition switch and keep the doors locked until you come into range. Once inside, a touch sensitive starter button lets you cycle through accessory, ignition, start/crank, and off modes just like a typical ignition switch. Skip directly to start/crank by simply holding the button!

Note: Main control box is 5-1/2" x 6". Security module is 3" x 4". iStart™ button requires 1-1/4" mounting hole.

RF700101 universal ..... 649.99 ea

PAINLESS

Remote Starter Solenoid

Allows you to position the starter solenoid any place you need to in order to make maintenance easier. Comes with of extra wire and connectors to do the job right.

30203 ..... 69.99 ea

PAINLESS

Auxiliary Lamp Relay Set

Install extra driving or fog lamps easily and properly with our auxiliary lamp relay set. Switch can be wired to turn lights on per state law requirements: low beams and auxiliary lamps, high beams and auxiliary lamps, Auxiliary lamp operation only. Complete set includes lighted switch, wiring harness, 30 amp relay and terminals.

30803 ..... 91.99 set

PAINLESS

Halogen Headlamp Harness

To get maximum power from your headlamps it is recommended to have the shortest possible distance between the power source and the bulbs. This headlamp harness draws power directly from the battery, through the relays, to the headlights; providing full power to your headlamp bulbs.

30816 for 9004 & 9007 Halogen bulbs 222.99 ea

PAINLESS

Universal Integrated Turn Signal Set

A common problem faced by rodders and kit car builders is where to mount turn signals since many aftermarket steering columns are not designed to accommodate the necessary wiring and switches. Problem solved, with this new integrated turn signal set from Painless. The toggle switches for both turn signals and flashers can be mounted anywhere. Because the set is designed to be an integrated system, turn signals will work in conjunction with brake lamps.

30120 ..... 169.99 set

PAINLESS

Courtesy Lamp Kit

Universal kit includes: universal door switches, wires and lamp sockets to install courtesy lamps inside your vehicle.

30704 universal ..... 24.99 kit

Under Dash Courtesy Lamp

Set positions two lamps under corners of the dashboard. Controlled by turning the headlight switch knob and/or door jamb switches. Special sockets/brackets and bulbs included.

TF900631 ..... 46.99 set

PAINLESS

Brake Lamp Relay

When upgrading taillamps to the new higher wattage halogens, always use a relay. The Painless set gives you everything you need to protect your wiring and switches.

30105 ..... 31.99 set

PAINLESS

Park/Neutral Relay Set

This set uses the stock neutral safety switch to also provide for ECM park/neutral ground signal needed when installing factory style fuel injection into older vehicles. For use with any aftermarket shifter or column mounted neutral safety switch.

60122 ..... 84.99 set

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

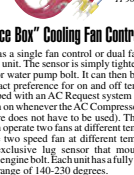
Universal Wiring

30132

Electric Water Pump Relay

These relays provide maximum battery voltage to maximize cooling efficiency and to protect the main electrical system from damaging amperage overloads. Choose from a regular water pump relay or a weatherproof water pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

50106	standard	29.99 ea
30132	weatherproof	44.99 ea



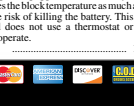
TF900634

"Ice Box" Cooling Fan Control

Available as a single fan control or dual fan/2-speed fan control unit. The sensor is simply tightened under an intake or water pump bolt. It can then be adjusted to your exact preference for on and off temperature. It is equipped with an AC Request system to turn the cooling fan on whenever the AC Compressor engages (this feature does not have to be used). The dual fan control can operate two fans at different temperatures or a single two speed fan at different temperatures. Features exclusive lug sensor that mounts under almost any engine bolt. Each unit has a fully adjustable operating range of 140-230 degrees.

*Note: *With Walker 2-speed fans.*

TF900633	single control	129.99 ea
TF900634	dual control	144.99 ea
TF900635*	dual control	144.99 ea



Delayed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

TF900632		144.99 ea

30104

Adjustable Electric Fan Thermostat Set

This set is designed to allow a wide range of temperature adjustments for your electric fan. The adjustment knob may be used to set a precise temperature desired for fan activation. The mounting bracket is made of brushed stainless steel for good looks and durability. The complete set includes the thermostat with bracket, a 30 amp relay, a 30 amp circuit breaker for overall protection, wiring, terminals and mounting hardware.

Specs on Adjustable Fan Thermostat:
Temp range: -32 degrees to 248 degrees F
Accuracy: +/- 7.3 degrees F
Differential: 7.3 degrees +/- 3.6 degrees F
***Important:** Temperature refers to the temp of the capillary tube, not the coolant temp.*

Four Ways to Order!

ORDERING BY PHONE
TOLL FREE 800•854•1280

In the continental United States, Hawaii and Alaska. Outside the U.S. call 714.847.6887.

Mon-Fri 8:00-5:00 **Sat 10:00-3:00, P.S.T.**
(Closed Sundays and holidays)

Information you'll need when ordering by Phone:

Customer Number
Found on back cover of your catalog above your name, this number allows Classic Industries® to quickly access your information. If you do not have a customer number, a new one will be given to you when placing your order.

Billing and Shipping Address
Please have the billing and shipping address available. Credit card orders are verified by name and address before shipping. Your order can be shipped to a different address, provided the cardholder's name and address match the credit card used. You may be asked to contact your credit card company to have the shipping address added to your account.

Year and Model of Vehicle
To provide the best possible service, we may require the year and model of your vehicle. This helps verify that the parts you order are correct for your car.

Part Numbers
All Classic Industries® products are listed with a part number. If possible, please have the part numbers of the products you're ordering available before calling to make the ordering process faster and more convenient.

ON-LINE ORDERING
www.classicindustries.com

Classic Industries® offers on-line ordering directly through our website. Log on to **classicindustries.com** and order on-line. On-line ordering is available 24 hours a day 7 days a week for your convenience.

Service Excellence from the Restoration Leaders!

ORDER WORRY FREE #1 Classic Industries WITH

You No Longer Have To:

- ✕ Pay excessive fees to protect your merchandise
- ✕ Contact the carrier yourself
- ✕ File a damage claim yourself to have the carrier inspect the damaged items
- ✕ Send the damaged items back at your expense

With Classic Industries® the worry is eliminated!

PROCEDURE FOR RETURNING SHIPPING DAMAGES

We handle the claim so you don't have to! If any part you receive is damaged during shipping and handling, simply contact our customer service department toll-free at 800.854.1280 within two business days.

After verifying the damage, Classic Industries® will issue a pickup call tag through the carrier that shipped the products. The carrier will pickup the damaged goods from your address and return them to us at no expense to you. After the product has been inspected, our customer service department will send a replacement part.

In order to ensure replacement of damaged products, please return items in their original box and packaging. Failure to do so may result in the claim being denied. Someone must be available at the pickup address to supply the damaged products when the carrier arrives. If the carrier in unable to pickup the products for any reason, the customer may be required to return the products at their expense.

Note: Some products are excluded from damage call tag pickup. Call a customer service representative for information about products that are not eligible.

ENJOY THE BENEFITS!

Money Back Guarantee

At Classic Industries®, we take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Not all restoration parts are created equal. But at Classic Industries®, we research each and every product we sell to make sure our customers are getting the highest quality products in the market. We have decades of experience in product selection and we painstakingly scrutinize every product we offer for quality manufacturing, materials, and craftsmanship before we will offer it in any of our catalogs. Many of our employees are automotive enthusiasts themselves. In fact, many were customers prior to becoming employees, so we understand the needs of the modern classic car enthusiast. Our product procurement specialists have made it their goal to select restoration products that have been manufactured using modern technology and materials with an emphasis on originality, longevity, and attention to detail. What else would you expect from the company that started it all? Classic Industries® is the name you can trust, and we'd like for you to consider us as your partner in restoration. When a company continually offers a quality product for a reasonable price and backs up every sale with the best customer service in the industry, people come back! That's why Classic Industries® has been the leader in restoration for almost four decades. So, if you haven't already decided for yourself that Classic Industries® is the most logical choice as your restoration parts supplier, then check out our Money Back Guarantee. If for any reason you are not 100% satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit, or exchange.

- ✓ **Lowest Prices Guaranteed!**
- ✓ **The Finest Quality Reproductions!**
- ✓ **No Fault Product Protection Offer!**
- ✓ **100% Satisfaction or Your Money Back!**

OEP ORIGINAL EQUIPMENT PRODUCTION | GM Restoration Parts | Factory Assembled | Hemmings CHOICE™

Price Match Guarantee

If you find it for less we'll match the price!

Classic Industries® will match any competitors current advertised price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Important: In an effort to provide our retail customers with the most competitive pricing available, we will match our current competitor's pricing. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the "Restoration Industry". Performance parts and special orders are exempt from price matching policy. Classic Industries® reserves the right to decline price matching if pricing is deemed to be a special offer, a sale or closeout price, or a non-current price. Competitors sale pricing, inventory reductions, close outs, special promotional offers, etc. may be exempt from the "price match" guarantee. The guarantee is subject to the terms and conditions of Classic Industries® current policies.

Classic Industries® will generally contact competitors to confirm that the published price is current due to market changes, demand or availability. Price matching supersedes all other promotional offers and on sale pricing. If Classic Industries® matches a price from a competitor, additional discounts on that product or products may not apply. If the standard retail price of a product is higher than the competitor's price and an applied discount reduces the price below the competitor's pricing, the now discounted or sale pricing will prevail. We reserve the right to change or revoke this offer at any time without notice. Classic Industries® reserves the right to decline price matching.

Think Of Us As Your Partner In Restoration!

A restoration can take years! We understand the complications and problems that can occur when ordering precious parts for your project car. If you are like most people, you want perfection. The many different elements that make up a restoration isn't just limited to the parts you install. You sometimes need to rely on other outside elements such as body shops, painters, upholstery specialists and parts suppliers. That's where we come in. We offer the quality parts you want without all the guesswork. We carry one of the largest inventories of restoration products and accessories the market has to offer. What's more, you can rely on our nearly 40 years of experience to help you through the rough spots when you need it. Our tech advisors are always ready and willing to discuss any problem you may have concerning the parts for your vehicle and your restoration. Unlike other companies, we give you knowledgeable sales representatives, one of the largest inventories in the business, quick and efficient delivery, Toll Free ordering, and the experience to back it up. If you're not absolutely 100% satisfied with the products you receive. We'll refund 100% of your money! Classic Industries® – your partner in restoration!

Form of Payment

CREDIT CARDS

Classic Industries® accepts *Visa*, *Mastercard*, *American Express*, *Optima*, and *Discover* for your convenience. When placing your order, be sure to indicate the card holders name, address, home phone, business phone, credit card number and expiration date and billing address *(if different from person placing order)*. A security code is required for credit card purchases. Please have your credit card readily available when placing your order. Minimum order is $20.00. New or 1st time customers who are paying by credit card must have the order shipped to the cardholders billing address for the first order. Invalid or non-matching billing addresses could delay your shipment.

CERTIFIED CHECKS

Classic Industries® will accept certified checks for your mail order. Be sure to include customer number and/or reference invoice number. Contact your bank to issue a certified check in the amount due for your order. All orders paid by certified check are held up to 15 days pending clearance.

PERSONAL CHECKS

To use personal checks or business checks on prepaid orders, the name, address, and check number must be preprinted on the check. Be sure to include customer number and/or reference invoice number. Only first party checks will be accepted. All orders paid by personal check are held up to 15 days pending clearance.

MONEY ORDERS/CASHIERS CHECKS

To use money orders or cashiers checks on prepaid orders be sure to include customer number and/or reference invoice number. All orders paid by money order are held up to 15 days pending clearance. Once released the order will leave within 24 hours of clearance.

Make Personal Checks or Money Orders payable to:

Classic Industries®

PAYPAL

Classic Industries® now accepts payments via Paypal! Simply complete your order over the phone with a customer service representative, get your invoice number and then send your payment to paypal@classicindustries.com through Paypal's "Send Money" feature and select "Goods and Services" for payment reason. Be sure to include your invoice number in the "Special Instructions" tab at checkout for fastest service. Orders are generally shipped within 72 hours or less of payment receipt. Contact our customer service department for additional details.

How to Order

MAIL ORDERS

Fill out the order form located in the back section of this catalog. For quick service use your credit card, money order, or cashiers check. Personal checks are held for 15 days from date of receipt pending clearance. All mail orders must be prepaid including freight *(when applicable)*. COD orders through the mail will not be accepted. If you have any questions regarding product information or availability, contact our sales representatives during regular business hours at 800.854.1280.

ORDER BY PHONE

Classic Industries® employs knowledgeable sales representatives to assist you when placing your order. Our sales representatives are trained to answer your questions regarding restoration and the parts listed in this catalog. Call during regular business hours Mon-Fri 8:00-5:00, Sat 10:00-3:00, P.S.T. Closed Sundays and holidays. Our convenient **Toll Free** number allows you to place your order with confidence to assure you get exactly what you want when you want it! Inter-continental U.S. 800.854.1280. Outside U.S. country code + 1.714.847.6887

TOLL FREE 800•854•1280

FAX YOUR ORDER

Classic Industries® offers a convenient FAX line for customers who have access to a Fax machine. Our FAX is available 24 hours a day 7 days a week for your convenience. Fill out the order form completely and FAX your order. Within U.S. 800.300.3081. Outside U.S. country code + 1.714.848.9501

TOLL FREE 800•300•3081

ON-LINE ORDERING

Classic Industries® offers online ordering directly through our website. Log on to classicindustries.com and order online. Online ordering is available 24 hours a day 7 days a week for your convenience.

WWW.CLASSICINDUSTRIES.COM

FOREIGN ORDERS

All foreign orders must be prepaid before the products can be shipped. The Classic Industries® staff will check with the various freight companies that deliver to your country and area to determine the best possible rates available for your order. Once your order is rated, you'll be contacted by e-mail or phone to approve the rate. After approval and payment is received, the order will be shipped. The Shipping & Handling field for foreign orders will state "TBD" (To Be Determined). Rates are subject to change once the order has been packed and is ready to ship. Rates are calculated based on estimations of weight, dimensions and other factors. Should changes in freight costs occur once the order is packed and ready to ship, Classic Industries® will notify the customer immediately before the shipment is sent. If you have any questions or concerns, please direct your inquiries to info@classicindustries.com.

General Information

Sales Tax Information

Orders shipped outside of California may be exempt from sales tax. California residents are required to add the appropriate current sales tax. Due to regular variations in California sales tax, rates are subject to change without notice. California orders are subject to tax on handling fees, COD fees and rush fees. This additional tax will be applied the to invoice. As of the printing date of this catalog, the current rate is 8%.

Accuracy Of Descriptions

Classic Industries® makes every effort to verify the accuracy of all information published in this catalog. Each item is represented with information that is accurate to the best of our knowledge at the time the catalog is printed. Classic industries® is not responsible or liable for mistakes, print errors or inaccurate information that may lead to, or result in labor costs or damages to any vehicle under any circumstances.

Kit Products

All Classic Industries® Parts and Accessories catalogs include kits which contain a variety of products. On occasion we may run out of an item supplied with a kit. If this happens we will generally ship what is in stock and back order the item(s) which are not in stock. You may contact our sales department by phone to verify which items are not in stock at the time the order is placed. The customer may decide whether to accept the partial kit or have the entire kit back ordered until the kit is completed and all the items can be shipped at the same time. If the customer decides to accept partial delivery of the kit, then the full price of the kit will be charged to the customer and the back ordered items will be shipped no charge when they arrive at our warehouse. Customers will be charged the appropriate freight fees when applicable. Cancellation of products from a kit will be accepted at 25% below the actual current retail price of the item. On COD orders the price of the kit is charged in full and the back ordered items are shipped on a COD freight only basis.

Rights and Lefts

Some items in this catalog are presented as left or right hand products (left side – driver) (right side – passenger). LH or RH sides are determined by sitting in the vehicle, not standing in front of the vehicle.

Color Matches

Due to multiple manufacturers of products Classic Industries® provides, color variations may occur. Slight color variations are common especially amongst interior products and does not constitute a defect. These products are not eligible for return for this reason.

Pricing

Prices in this catalog were in effect at the time of printing and supersede all prices in any previous publication. Classic Industries® makes every effort to honor the prices contained herein. However, due to increased costs of manufacturing, materials, etc., prices can change. We reserve the right to change prices without notice. For current pricing please contact a Classic Industries® sales representative during normal business hours. Eligibility of products for discounts are subject to change without notice.

Trademark and Copyright

Classic Industries® Parts and Accessories catalog is copyrighted. No part of this publication including text, photos or illustrations may be reproduced without the prior written permission of Classic Industries®. The following names and/or symbols: *Mopar, Dodge, Plymouth, Barracuda, Belvedere, Coronet, Challenger, Charger, 'Cuda, Dart, Duster, Fury, GTX, Hemi, Polara, Road Runner, Six Pack, Super Bee, Scamp, Valiant* are registered trademarks of Chrysler Group, LLC and are used for reference purposes only unless specified otherwise.

Product Availability

Availability of all items in this catalog are subject to change without notice. We reserve the right to discontinue products, services or accessories without notice.

Shortages

Always check the contents of your delivery to assure all the parts ordered were received. If you are missing any item(s) be sure to check for back orders notated on your invoice before calling our customer service department *(see back orders)*. If a shortage has occurred, contact our customer service department within 2 working days of delivery to assure a prompt replacement. Classic Industries® assumes no liability after this period.

Shipping Information

ALASKA, HAWAII, GUAM & PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2-Day delivery whenever possible. All orders must be prepaid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped. Contact our sales department for exact rates.

Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

INSURANCE

Each order is charged an insurance fee of $3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will require cash only upon delivery of your order. All COD orders are shipped by FedEx. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of $11.95 per box will be added to all COD orders. Oversize and/or overweight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries® reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to $999.00. If the COD order should be returned to Classic Industries® for non-acceptance/non payment, the customer will be responsible to reimburse Classic Industries® for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned products. All outstanding charges must be paid before any additional orders will be accepted.

SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries® Showroom location. Contact our sales department for actual additional shipping fees.

Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.

EXPRESS SHIPPING

Classic Industries® offers Overnight and 2-Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Pre-payment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A $16.95 fee will be added to Overnight fees for Saturday delivery. 2-Day orders will arrive within 2 business days (pending availability). 3-Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A $9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.

TRUCK FREIGHT

Products in this catalog that require truck freight are usually indicated below the product *"Shipped truck freight"*. This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be pre-paid, including freight charges, before the shipment can be sent. Classic Industries® requires a *minimum $125.00* fee for all California orders and *minimum $175.00* fee for all out of state truck shipments. Truck freight rates could be higher depending on products being ordered and the destination. Residential deliveries require an *additional $40.00* fee. Should the customer's delivery require special handling (lift gate service, re-routing, additional freight charges, etc.), any and all additional fees will be billed to the customer's credit card. Acceptance of truck freight shipment is acknowledgment that additional charges will be incurred. Please include a commercial business address whenever possible. For additional information contact our customer service department during regular business hours.

Important: Truck freight items are excluded from promotional shipping offers.

OVERSIZE-OVERWEIGHT

These are the designations for Ground or Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (OS1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs, and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs, and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A $40.00 handling fee will be added to all (OS3) orders. Actual weight is less than 90 lbs, and is billed at 90 lbs. We reserve the right to charge Oversize fees on any order containing oversize products, even if it is not indicated in the catalog.

Important: Oversize, overweight and dimensional weight items are excluded from promotional shipping offers.

General Information

Back Orders

The invoice located in the packing slip of your order will notate any items that were out of stock at the time of shipping. The unavailable items will be back ordered unless otherwise specified on your order form or verbally to a sales representative when placing your order by phone. Back orders are usually shipped when the products arrive at our warehouse without prior notification. Classic Industries® will make an effort to contact the customer if the backorder is more than 90 days old. If you wish to cancel a back order, please notify our customer service department immediately. The customer will be responsible for a 25% restocking fee and freight charges if the back order is cancelled or returned after the items are shipped.

Damage Claims

Always check the contents of your shipment in the presence of the person delivering the merchandise. Should any damage occur, immediately notify Classic Industries® customer service dept. so that all steps necessary will be taken to ensure a prompt replacement of any damaged goods. Accurate instructions will be given on damaged goods replacement. Classic Industries® is not responsible if no notification is given within 2 working days of receipt of goods (excluding Sundays and Holidays). Classic Industries® will file a claim with the carrier in most cases. If the customer files a claim with the carrier, Classic Industries® will not be responsible for replacing damaged products and the customer will be responsible to pay for any replacements until the carrier pays the claim. Any replacement parts due to sales errors or customer errors in ordering will be sent using the same shipping method as the original order when possible. Please follow these instructions to avoid any problems or misunderstandings associated with damaged products and freight claims.

Refusals

All refused COD orders will be subject to a 25% restocking fee. Classic Industries® will consider the entire order cancelled and void with no notification to the customer. The customer will be billed 25% plus all freight charges to and from the destination. Contact our customer service department for more information.

Policies

All policies in Classic Industries® current catalog supersede any and all policies in any previous catalog or publication.

Sales Errors/Ordering Errors

Classic Industries® is not responsible for customer errors or employee sales errors. Every effort is made to insure that the products you are ordering are accurate. Should an error occur, we will make every effort to resolve the issue. Replacement products will be shipped the same method as the original order whenever possible. Classic Industries® assumes no responsibility or liability for damages, fees, storage charges, or any other inconvenience that may be associated with sales errors or customer ordering errors.

Returns

Products may be returned for a full refund on the product, credit or exchange within 30 days of receipt. All returns are subject to a 25% restocking fee after 30 days. Should you need to return a part for refund, exchange or credit, please contact our customer service department for a return authorization number and instructions. Classic Industries® will not accept returned goods without prior authorization. Customer will pay freight on all return orders. Allow up to 3 weeks to process refund or credit.

Important: Gift certificates have no cash value and must be redeemed for merchandise only. Literature, CDs, videos, printed materials, stencil kits, stripes, electrical parts, gauges, wiring harnesses, switches, etc. are non-returnable. All special order products must be prepaid in full and are non-returnable. No returns on partial kits or sets. There is no guarantee on moving parts such as engines, transmissions, rear ends, steering gears, water pumps, distributors, wiper motors, etc. If any product is modified, altered, painted, installed or disassembled in any way without Classic Industries® expressed written permission, the item is non-returnable. Classic Industries® always recommends professional installation on all products. Any item which has been altered, painted, installed or deemed non-resalable by Classic Industries® will be returned to the customer at the customers expense. Classic Industries® is not responsible or liable for labor fees associated with the installation, removal, modification, painting or repair of any product purchased regardless of the circumstances. Classic Industries® is not responsible for any damage or discoloration incurred in relation to chemical products being used including cleaners, waxes, polishes, paints, etc.

1965-66 Direct Fit Gauge Package

Classic Instruments direct fit 5 gauge set for 1965-66 Ford Mustangs. All gauges feature low step bezels, flat glass, and contrasting pool cue pointers, numerals, and indices. In addition to the gauges, every set includes all the sending units, harnesses, and bracketry necessary to install them into your existing bezel. The fuel level gauge is calibrated to the factory 75-10 Ohms, eliminating the need for a new sender.

Note: Instrument bezel not included.

1999-04 Cobra R Style Front Bumper

Recreate the 2000 Cobra R look and style for your 1999-04 Mustang with this front bumper by Cervini's. This full bumper facia has a ground clearance of 4.5" on factory ride height. The flexible urethane makes it resistant to curb damage. Includes molded screw stems that allow factory Ford fog lamps to bolt right in. Bumper comes unfinished, should be test fitted, prepped, and painted prior to installation. Bolts to all factory locations and includes installation hardware.

Note: Shipped truck freight.

Diamond Blue fabric

Diamond Blue™

OER AUTHORIZED

★ **Indoor Use**

★ **Single Layer Material**

Diamond Blue Car Covers

Designed for indoor use, OER®'s Diamond Blue covers are manufactured using an economical single layer non-woven material that offers excellent protection from dust and dirt penetration. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Blue offers basic protection from water and guards against damage from dust, dirt, overspray and similar environmental elements. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side of the cover to allow the use of a tie strap or lock.

Cragar 32 Series Keystone Klassics

CRAGAR New!

If your car is a 1960-70's model, chances are it came with narrow wheels and tiny bias ply tires. By the mid 1960's, aftermarket wheel swaps were commonplace among car enthusiasts. One of the most widely chosen aftermarket wheels available during the muscle car era was the Cragar Keystone Klassic. Popular for their composite design, the chrome-plating on the Keystone Klassics made them much easier to clean than aluminum or mag wheels because they required no polishing. Cleaning them was a breeze by just hosing them down and wiping them off. These wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their car "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

Item #	Size	Bolt Pattern	Offset	Backspacing	
325799	15" x 7"	5 x 4.5", 4.75", 5"	-6mm	3-3/4"	226.99 ea
