TF500266A

1955-57 Big Bore Front Disc Brake Set

Improve the braking of your classic Tri-Five Chevy and eliminate the old-fashioned ball bearings with this convenient disc brake conversion set. Rotors and caliper brackets will bolt onto your original spindles with no modification or machining required. Calipers in this set are designed to mount to the front side of the spindle. Increases total track width by 1-3/4" (7/8" per side). May not clear some 14" wheels. Features your choice of 11" plain or 11" drilled and slotted rotors. Includes: single piston big bore calipers, brake pads, caliper brackets, rubber flex hoses, bearings, seals, dust caps, mounting hardware, and spindle nuts.

Important: *Requires upgrade to power brake master cylinder and booster with prop valve. Some grinding to the steering arms may be required to achieve full turning radius on some models.*

MU315C

1955-57 Stereo with Slidebar

Custom Autosound's Slidebar Radio provides enthusiasts with a completely authentic looking classic car or truck stereo without sacrificing the latest in technology. It will fit in your vehicle's dash without any modifications required. It is designed with large OEM style push buttons to compliment the look of your classic car. Features a digital display with seven backlit color options, Bluetooth, a USB input for flash drives, and a dock for your iPod. When connected to these devices the radio's digital display will display artist, song, album, and allow song navigation through the radio itself. With 300 watts peak the radio provides plenty of power but additionally contains four pre-outs and one subwoofer out. The Slidebar also includes an Aux-in for optional satellite radio as well as our optional compact CD/DVD player.

Important: *Faceplate not included.*

Get The OER® Advantage. . . It's Almost Unfair!

Authentic Quality Reproduction Parts for Classic American Muscle

ORIGINAL QUALITY • ORIGINAL APPEARANCE

Original Fit

Appearance is extremely important in reproduction parts, but just as important is the way the part fits. You will appreciate OER® reproductions. Parts are designed to fit as closely to the original as possible. Each part is checked and rechecked to ensure proper fit and function.

Superior Quality

It's one thing to manufacture a reproduction part, it's another to duplicate the quality. OER® uses the finest quality materials and workmanship to ensure the finished part meets or exceeds original equipment specifications. In fact, many OER® products are superior to the original.

Authentic Appearance

Each OER® part is manufactured to original specifications, down to the smallest detail. Consistent quality control methods ensure an exact duplicate every time.

OER® Officially Licensed Products

Many OER® products are officially licensed by the original manufacturers, assuring the highest quality reproductions available. GM GENUINE PARTS

OER® ORIGINAL EQUIPMENT REPRODUCTION

Manufacturing Authentic Products for The Restoration Industry

Classic Industries® Has More To Offer!

Service Excellence From the Restoration Leaders!

Price Match Guarantee

If You Find a Product for Less, We'll Match the Price!

Classic Industries® will match any competitor's current advertised retail price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Money Back Guarantee

100% Satisfaction or Your Money Back!

We take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Online Instructional Videos

Visit ClassicIndustries.tv to View Our Online Video Library

Need a little guidance to help you install the restoration parts you purchased? Then cruise over to Classic Industries®' new video media website, www.classicindustries.tv where you can watch a library of how-to videos created by our own expert staff, guiding you through the installation processes for upholstery, headliners and more.

Technical Support

Call 1-800-854-1280, extension 5390 for more information

Our tech representatives are ready to help you with all your restoration questions regarding parts or accessories, but we don't stop there, we can help answer questions you may have concerning the detailed areas of your restoration! Our tech representatives consist of some of the most knowledgeable restoration experts in the business. We don't claim to have all the answers but we've been doing it longer than anyone. Chances are we've heard the questions you need answered before. If nothing else, we can probably steer you in the right direction. We continually train our staff in all aspects of early and late model restoration and pass the information along to you!

California Residents — Prop 65

Prop 65 requires businesses that manufacture and/or sell products in the State of California to inform consumers which items contain chemicals known to cause cancer and/or reproductive harm.

Symbols of Quality

OER® Original Equipment Reproduction

The leader in quality reproductions is here! OER® stands for Original Equipment Reproduction®. When you see the OER® logo, you can be assured that every part is manufactured to exact factory specifications and will fit and function just like the original part. What's more, many OER® products are officially licensed and carry a full one year warranty against defects and workmanship.

OER® Authorized Products

The OER® Authorized logo represents products that meet or exceed stringent OER® quality control standards. These items have been sanctioned and approved by OER®. Most of these products are prepackaged with the OER® Authorized logo.

OER® Premier

Count on the OER® Premier logo to denote parts that are outstanding in fit, craftsmanship, and manufacturing techniques. Each and every product displaying the Premier symbol is the best the market has to offer, and a cut above the competition. Order with confidence when you see this symbol, as OER® Premier is the true sign of originality and quality.

Classic Industries® The Restorer's Choice™

Count on the Classic Industries® Restorer's Choice™ symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. This Classic Industries® symbol is your assurance of quality.

Made in USA

Classic Industries is proud to offer American products for your American classic. Wherever you see this MADE IN USA symbol, you know you're receiving the highest quality parts, sourced from the skilled craftsmen of the United States of America.

PRODUCT EMISSIONS GUIDE

Please visit help.classicindustries.com/en/emissions-compliance-guide for more details.

1 **CARB EO Compliant (50 States) – This product is covered under a CARB EO and is legal for sale and use in all 50 states.**

Products that have completed the CARB EO process belong in this category. EPA recognizes the CARB EO as a reasonable basis demonstration, therefore products can be considered legal by both CARB and EPA.

2 **Legal In U.S. (Excludes California) – This product is covered under the Emissions certification or has otherwise met the requirements of the EPA's Tampering Policy and is legal for sale in states that do not mandate Executive Order (EO).**

Products that have demonstrated a reasonable-basis emissions compliance either through engineering evaluation or testing, but do NOT have a CARB EO. For example: Testing has been completed and paperwork submitted to CARB but the EO has not yet been issued. The product meets the reasonable basis standard but may not meet CARB's criteria for an EO. Testing has been performed but decided not pursue a CARB EO.

3 **Non-CARB Compliant – This product is not legal for street use on an emissions-controlled vehicle. It may be used on a dedicated competition or pre-pollution-controlled vehicles only.**

Some products can never be legal for use on pollution-controlled vehicles (both for use on the road and off-road), but they do have legitimate use on racing vehicles and vehicles that predate emissions regulations. Pre-certification means: 1965 and older domestic vehicles in California, 1968 imports in California and both domestic and imports under EPA jurisdiction.

4 **Non-Emissions – This product does not require an EO in California. By nature of its design, it is legal for sale and use in all 50 states. Replacement parts included.**

Products that have little or no impact on emissions, such as drop-in air filters or exhaust components downstream of the last emissions component (such as the catalytic converter, DPF, or exhaust gas sensors). Also included are devices that plug into the OBD port to monitor information, but do not alter the vehicle's electronics.

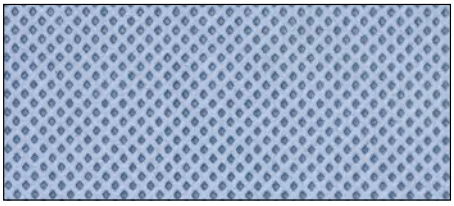
OER AUTHORIZED Tri-Five Car Covers

FREE
Lock Kit and Storage Bag With Car Cover Purchase!
A $20.00 Value!

The Economical Way to Protect Your Investment!

Diamond Blue™



Indoor Use
Single Layer Material

Designed for indoor use, OER's Diamond blue covers are manufactured using an economical single layer non-woven material that offers excellent protection from dust and dirt penetration. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Blue offers basic protection from water and guards against damage from dust, dirt, over spray and similar environmental elements. Covers feature non-scratch grommets installed onto each side of the cover to allow the use of a tie strap or lock.

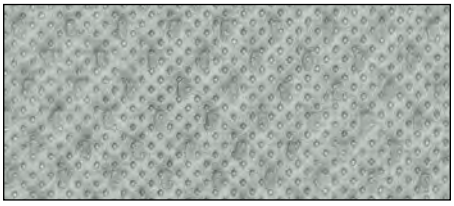
Diamond Fleece™



Indoor/Outdoor Use
Triple Layer Material

Designed for indoor and occasional outdoor use, OER's Diamond Fleece cover is manufactured using a durable 3 layer non-woven material that provides excellent protection from dust and dirt penetration. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Fleece offers water resistance and prevents damage caused by the sun's UV rays. Covers feature non-scratch grommets installed onto each side of the cover to allow the use of a tie strap or lock.

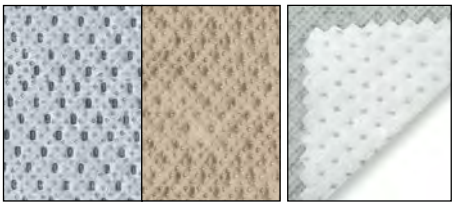
WeatherBlocker™ Plus

Available in Gray or Tan



GR *TN*

Soft cotton lining for protection against door dings and scratches.

Outdoor Use
Four Layer Material

Designed for outdoor use, OER's WeatherBlocker Plus covers are manufactured using a durable 4 layer non-woven material that provides a high level or protection from the elements and features a soft cotton backing which helps protect against scratches and dings. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, WeatherBlocker Plus covers offer excellent water resistance and protection from the sun's UV rays. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side of the cover to allow the use of a tie strap or lock. Specify gray or tan.

OER AUTHORIZED Tri-Five Car Covers

The Ultimate in Outdoor Protection for Your Vehicle

SoftShield™

cotton flannel

Cotton flannel car covers pamper the vehicle's finish with a soft nap underside

GR TN

- Indoor Use
- Cotton Flannel Material
- Soft Nap Underside

Favored by classic car collectors that garage their vehicles, OER's SoftShield cotton flannel car covers pamper the vehicle's finish with a soft nap underside that protects even the most delicate surfaces. Designed exclusively for indoor use, the SoftShield cover is soft on paint while providing a barrier against dust and protection against nicks and dings while the vehicle is being stored. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Covers feature non-scratch grommets installed onto each side of the cover to allow the use of a tie strap or lock. Your choice of gray or tan flannel.

Note: Please add 2 digit color code when ordering.

Titanium™

Lightweight highly reflective material for added protection from harmful UV rays

- Indoor/Outdoor Use
- Silver Reflective Material
- Single Layer Extremely Lightweight

This durable, lightweight fabric is engineered to provide the best possible protection from the sun! Designed for indoor or outdoor use, Titanium© material has a reflective water repellent 100% polyester top layer that keeps your interior cooler in sunlight and protects against harmful UV rays. Each cover is sewn with strong and durable double stitched seams and features neoprene elastic sewn into the front and rear hems to help keep the cover in place. The reflective properties of its silver construction gives Titanium© covers the ultimate in UV protection. Its extremely lightweight construction makes this cover easy to handle and store. Each cover includes a free storage bag and lock kit.

MT8602K	1955-56	2 door	119.99 ea

Car Cover Accessories

Protect your car cover with a storage bag, lock and cable set, or antenna grommet designed to fit almost any car and truck cover. A storage bag will help to keep your cover clean and safe when not in use. A lock set will prevent theft of your cover while in use. An antenna grommet will allow the cover to fit better over a fender or quarter panel mounted antenna, and will prevent the unintentional spread of the antenna hole.

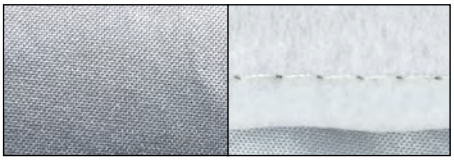
TitaniumPlus™

Plus soft cotton lining for protection against door dings and scratches.



- Indoor/Outdoor Use
- Silver Reflective Material
- Double Layer Soft Cotton Inner Lining

OER's premium Titanium Plus material offers double the protection of the standard Titanium material! Engineered specifically to provide the best protection from the sun. Designed for both indoor or outdoor use, features a reflective and water repellent top layer that helps keep the interior cooler in sunlight and protects against harmful UV rays. In addition, this premium cover adds a soft padded cotton inner layer that provides extra protection against nicks and dings when your vehicle is parked in tight spaces. Each cover is sewn with double stitched seams for strength and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Titanium covers offer the ultimate in UV protection. Covers feature non-scratch grommets installed onto each side to allow the use of a tie strap or lock.

Gust Guard™ Cover Clamps

The Gust Guard™ is the easy solution for keeping your car cover in place in windy conditions! If you need to leave your vehicle covered for extended periods of time (airport, vacation, etc.) in locations where wind gust could be a problem, this set is the answer. Includes: four adjustable hem clamps, two "Quick Grip" friction locks and two 7' long white cords. These components clamp to the hem in front of the front tires and behind the rear tires. When wind gets under the car cover, the Gust Guard™ helps reduce the possibility of the cover coming loose.

***FAQ:* What Exactly is Mass Backing?**

As part of the manufacturing process, a special latex coating is thermo-bonded to the back of the carpet to substantially increase the insulating and sound deadening properties of the basic carpet set. Then 36 oz. jute padding is attached to the underside of the carpet. Mass backing is available as an option for molded carpets only.

MADE IN USA

1955-57 Cut & Sewn Nylon Cut Pile Carpet Set

This all new carpet eliminates the problems of poor abrasion resistance and shedding of fibers, while providing excellent protection against color fading, offering a level of durability previously unavailable. Simply looks better and lasts longer than the original!

Note: **Except Nomad. Please add 2 digit color code when ordering. Shipped oversize.* OS1

New! DB Headliner Kit

This lightweight, two part headliner kit is the ultimate way to keep your vehicle cool in those hot summer days. This headliner insulation kit keeps the car quiet and stops the sun from heating up the interior of your ride. Kit includes DB Skin lightweight liquid acoustic barrier material to dampen the resonance and Stealth Shield thermal barrier material that blocks the transfer of heat from the roof to the interior.

HP040170	15 square feet (approx.)	200.99 ea

HP040052

New! DB Defender Door Panel Sound Insulation

Sound deadening door panel insulation. Replace the factory plastic film behind your door panel with an improved version that not only protects from weather but also provides sound insulation. Twice the damping and less than half the weight of asphalt damping materials. These 0.045" thick vinyl vibration damping sheets are heat moldable and paintable giving an OEM appearance. Available in 37" x 54" rolls.

HP040051	1 roll	92.99 ea
HP040052	2 roll	179.99 ea

HP810001

New! Stealth Shield Interior Heat Reduction

HP Stealth Shield is proven to reduce the temperatures inside your vehicle. Made from fiberglass and carbon, this car interior heat shield is very efficient and super thin, a barely noticeable 1/8" thick. Can withstand temperatures up to 1800°F continuous and 2000°F intermittent, so it's more than capable of handling any high temperatures that are likely to radiate up through the floorboards and interior of your vehicle.

HP810001	2 feet	83.99 ea
HP810002	4 feet	163.99 ea
HP810003	10 feet	394.99 ea

HP040021

New! DB Sniper Road Noise Sound Barrier

Sound barrier insulation can stop and block those higher frequency road noise waves that most damping sheets do not block. This 0.25" thick "Sonic shield wall" reflects and stops sound waves equivalent to 4-6 layers of dampening sheet Available in 34" x 54" rolls.

HP040021	1 roll	175.99 ea
HP040022	2 roll	329.99 ea

CMD1001

New! Universal Jute Padding Insulation

Jute padding will insulate your interior from noise while helping to maintain an even temperature. For firewalls, floor pans, trunks, doors, and roof panels or other areas of the vehicle. These jute pads measure 3' x 6' and they can easily be cut-to-fit with household scissors. Made in USA.

QuietRIDE Solutions — AcoustiSHIELD

Stage 1 Dynamat® Damper Pads

The first stage consists of pre-trimmed, self-adhesive, Sound Damper Pads, bonded to strategically located trouble spots on the floor pan and roof of the vehicle to control body panel vibration and noise. These spots are mapped and labeled in detailed instructions which are included in the kit.

Stage 2 Heat Shield/Barrier Panels

The second stage uses a high-tech absorber/barrier material, bonded to the body panels, to both sound deaden and insulate the vehicle from radiant heat penetration from the engine and road. Each absorber panel is cut to the correct shape and contour and is mapped and labeled in the detailed instructions.

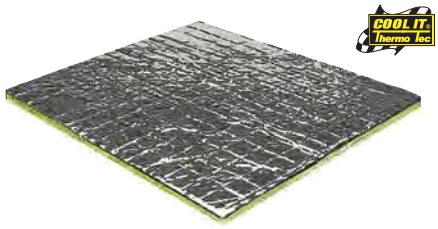
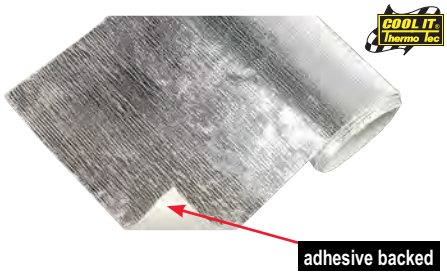
Interior Insulation



Insulating Mat by THERMO-TEC

Battle excessive heat and noise that penetrate the driver compartment through the firewall and floorboards. The highly reflective Mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dual density composite and is the main sound insulator. Easy to trim and can be applied with the push-in fasteners provided or any weatherstrip adhesive. Two sizes to fit your individual needs.

TT1005	24" x 48"	36.99 ea
TT1006	48" x 48"	67.99 ea



Adhesive Heat Barrier™

Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. Made up of woven silica with a flexible aluminized finish. The surface of the material is capable of withstanding radiant temperatures in excess of 2000 degree F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance.

TT1003	12" x 12"	11.99 ea
TT1004	12" x 24"	19.99 ea
TT1049	24" x 36"	55.99 ea
TT1050	24" x 48"	73.99 ea

Super Sonic Acoustical Mat

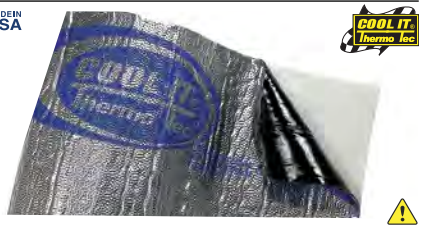
This high-quality mat offers superior sound dampening control to reduce road noise, rattles, engine noise, and any other noises that are bothersome. The high density polyethylene film with an aluminum foil composite is abrasion and tear resistant. The gray film provides structural integrity and strength, allowing the material to bend, move, and return to shape even under tension forces. The product is 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit. The rubberized compound is applied with the high temperature adhesive to absorb all those out of control noises.

TT14700	12" x 12"	2 piece	18.99 pr
TT14710	36" x 24"	1 piece	32.99 ea
TT14720	36" x 60"	1 piece	67.99 ea

Thermo-Guard FR

Thermo-Guard FR is a lightweight, durable shield that does everything: reduces sound, absorbs vibration, protects from radiant heat and provides an extra layer of insulated padding. The product features 100% polyester fiber felt that provides sound and comfort control and a high tech foil heat barrier that blocks more than 90% of radiant heat. Easy to apply and can be trimmed to fit anywhere. Available in two sizes with one or two foil sides. Designed to be applied with Thermo-Tec's Heavy-Duty Spray Adhesive.

TT1055	24" x 48"	1 side	27.99 ea
TT1056	48" x 72"	1 side	55.99 ea
TT1057	48" x 72"	2 side	76.99 ea



Suppressor Acoustical and Heat Control Mat

The Suppressor is ideal when both sound and radiant heat control is needed. In addition to the polyethylene film, the foil surface provides direct protection from radiant heat. Great for areas like firewalls, floorboards, or doors. The Suppressor is also 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit.

TT14600	12" x 12"	2 piece	15.99 pr
TT14610	36" x 24"	1 piece	29.99 ea

DM260

DM261 *DM262*

Xtreme Bulk Pack

Dynamat Xtreme is the highest efficiency energy conversion sound deadener available. Xtreme unique chemistry uses a space age self-adhesive synthetic rubber with a heavy 4 mil aluminum constraining layer to absorb noise energy. At only 1/16" thick, the super sticky rubber and foil stretches and contours to fit your vehicle like a glove. Dynamat Xtreme can be also used for trunk lids, roofs, quarter panels and under the hood. The Xtreme bulk pack contains 9 sheets (18" x 32") or 36 square feet of 1/16" insulation. Made in USA.

HiTemp Spray Adhesive

DEI Boom Mat Hi-Temp Spray Adhesive provides high strength adhesion that bonds a wide variety of DEI Boom Mat Products. Ideal for the installation of DEI Heat Screen, D-Mat, Under Carpet, and UC Lite.

DE050490	10 oz. net weight can	15.99 ea

Boom Mat Tape

Boom Mat Tape is a 2mm butyl damping material with a black aluminum facing. Use on seams, gaps, and for spot coverage.

DE050215	20" x 20' roll	22.99 ea

Boom Mat Spray-on Acoustic Insulation

Boom Mat Spray-on thermal acoustic insulation reduces unwanted noise, vibration, and heat. It can be applied in multiples layers and dries in under 6 hours. Covers approximately 20 sq. ft. and is VOC compliant in all 50 states.

DE050220	18 oz. net weight can	11.99 ea

Heavy-Duty Spray Adhesive

Heavy-Duty Spray Adhesive is the answer when you need a quick drying, long-lasting spray adhesive for a high temperature application. Extra strong contact style adhesive sets quickly, and lasts even in high temperature situations. Use with Thermo-Guard FR, Cool-It Insulating Mat, Aluminized Heat Barrier and more. Comes in a large 16 oz. net weight spray can.

Note: *Shipped within the continental U.S. only. Shipped ground only.*

TT12005	16 oz. net weight can	19.99 ea

Seam Tape

Seam tape consist of a two layer, highly reflective foil with a special acrylic adhesion system. This flame retardant tape is highly puncture proof, tear resistant and features superior adhesion even under extreme conditions.

TT1124	2" x 30' roll	19.99 ea

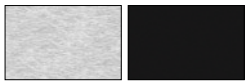
Interior Insulation Sets

HushMat



silver black

#1 Rated Made in the USA

- #1 Rated Automotive Thermal & Sound Insulator
- Reduces Firewall/Tunnel Heat By Over 40%
- Blocks Exhaust Drone from Entering Interior
- Hushmat Ultra Bonds to Every Surface
- Creates A 10 dB Barrier to Road & Engine Noise
- Performs In Temperatures Up to 550 Degrees F
- One Step Peel and Stick Application
- Flexible in All Climates – Molds & Contours Easily

HM300

Ultra Insulation

Starter Set

Four 12" x 12" sheets available in either black or silver. 4.1 square feet (1.25 square meters). A starter set is perfect for single panel treatment or small jobs.

HM250	silver	4 piece	29.99 set
HM251	black	4 piece	29.99 set

Door Set

Ten 12" x 12" sheets available in either black or silver. 10.1 square feet (3.1 square meters). A door set is designed to effectively treat two doors. Treat the inside of the outer door skin, door frame and back of the door trim panel. Replace that cheap metal, rattling noise with a solid sound when you close your doors.

HM200	silver	10 piece	79.99 set
HM201	black	10 piece	79.99 set

Trunk Set

Ten 12" x 23" sheets available in either black or silver. 19.1 square feet (5.8 square meters). A trunk set is designed to effectively treat the trunk floor, spare tire well, quarter panels and rear deck of a vehicle. Helps reduce interior noise typically caused by performance exhaust systems.

HM300	silver	10 piece	129.99 set
HM301	black	10 piece	129.99 set

Floor/Firewall Set

Twenty 12" x 23" sheets available in either black or silver. 39 square feet (11.8 square meters). A floor/firewall set is designed to treat the firewall, floor panel and transmission tunnel. This eliminates vibration noise caused by the engine and road surfaces and reduces the heat transfer from the engine and transmission.

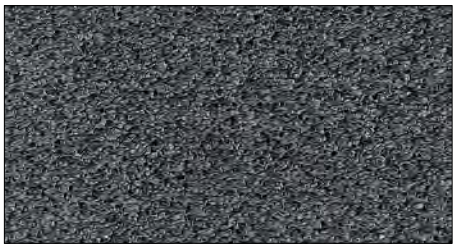
HM400	silver	20 piece	229.99 set
HM401	black	20 piece	229.99 set

Bulk Set

Thirty 12" x 23" sheets available in either black or silver. 58.7 square feet (17.9 square meters). A bulk set is enough to treat an entire midsize or smaller vehicle.

HM500	silver	30 piece	299.99 set
HM501	black	30 piece	299.99 set

HushMat



1/8" 1/4" 1/2"

- Absorbs High Frequency Airborne Noise
- Lightweight Synthetic Rubber Foam
- Soft, Flexible and Highly Compressible
- Moisture Repellent
- Thermal Insulation Up to 300 Degree F

Heavy Duty 20 Spray Adhesive

3M Heavy Duty 20 spray adhesive forms a powerful, permanent bond to wood, laminate, metal, plastic and more. Simply spray the adhesive on one or both surfaces, wait 15 seconds to 30 minutes, and press surfaces together to form a tight bond. Our self-contained, highly portable dispenser allows for a variable width lace spray pattern to help ensure precise placement.

Note: Ships via ground freight only and is shipped exclusively within the continental U.S. only.

78617	13.75 oz. net weight can	16.99 ea

Aerosol General Trim Adhesive

3M General Trim Adhesive bonds automotive materials such as carpeting, vinyl, fabrics, and plastics to metal and other hard, impervious surfaces. Our high-strength adhesive offers good heat and water resistance. Our clear drying, high strength adhesive delivers professional quality results when making automotive repairs. Once the adhesive sets, the bond offers good heat and water resistance.

Note: Due to current FAA regulations all aerosol spray cans must be shipped ground delivery.

1955-57 One Piece Floor Mat

Lloyd Mats® custom floor mats are made with a variety of logos and colors to complement your vehicle's interior. Ultimat® mats are made with densely packed, 2-ply, 32 ounce nylon yarn enhanced by woven polypropylene backing, a water resistant latex coating and a nonslip TractionBac rubber backing for durability and long-lasting appearance. Loop floor mats are manufactured with a fade, stain, and wear resistant loop yarn that looks great in any classic car. Loop floor mats also feature multi-layer TractionBac rubber backing for traction and durability.

Note: Please specify carpet color and embroidery color when ordering. Bel Air crest and vintage Bow Tie do not have embroidery color options. General Motors trademarked logos licensed to Lloyd Design Corporation.

Custom Frame & Foam Packages

TF119114 – bucket seat frame and foam set

1955-57 Bucket Seat Frame, Foam, and Slider Package

Over the years seat frames break down, need rewelding or are completely missing. Replace them with this bucket seat frame, foam, and slider package from Classic Industries®. These frames will bolt into factory outer holes (inner holes need to be drilled) and each bucket seat package features: frames made with all steel construction, non-sag springs, 18 position reclining backs, forward tilting, and powder coated finish. Each package includes frame, foam, and sliders.

Important: *These packages must be taken to a trim shop for custom sewn upholstery. We do not offer pre-sewn upholstery sets for this seat frame and foam package.*

Note: *Special order, must be prepaid. Shipped double oversize.* OS2

1955-57 Seat Mounting Adapter

Seat adapters are designed to make the transition from original bench seats to PROCAR bucket seats easy. This seat adapter is designed to allow PROCAR buckets seats to move independently and bolts into the factory seat mount locations on all 1955-57 Chevy passenger car models. One required per vehicle.

Note: *In applications not using a center console, the mounting adapter will be visible when installed.*

2 Point Aviation Style Seat Belt

RetroBelt lap belts for your classic vehicle feature attractive chrome-plated aviation style lift buckles and are available in 24 colors. The webbing is color matched to its stitching. Seat belts meet or exceed Federal Motor Vehicle Safety Standards. Many vehicles manufactured prior to the late 1960's were not equipped with seat belts. Adding seat belts is a wise investment in the safety of yourself and your family.

Note: *90" belt measures 45" on the buckle side and 45" on the lap side. Please specify 2 digit color code when ordering.*

- Webbing measures 1-7/8" wide
- 135" of webbing on retractor side, 27" on buckle side
- Buckles measure 2-3/8" x 2-1/2"

3 Point Aviation Style Seat Belt

RetroBelt's retractable lap and shoulder seat belts with classic chrome aviation style buckles are available in 11 colors to match the interior of your classic vehicle. The webbing and its stitching are color matched to the retractors, and the belt ends are chromed. The retractor holds 96 inches of webbing, with 39 inches of webbing outside for a total of over 11 feet of seat belt webbing. The buckle side is 27 inches long and is fully adjustable for maximum installation flexibility. This system uses an advanced inertia retractor that locks to support both the upper and lower parts of the body in the event of a sudden stop. The retractor may be mounted in either the horizontal or vertical positions.

Important: *Fabrication skills may be required to establish shoulder anchor point – please consult a professional installation specialist. Seat belts are not designed to work with vehicles that have electric seat belt warning systems.*

Note: *Please specify 2 digit color code when ordering.*

OER AUTHORIZED

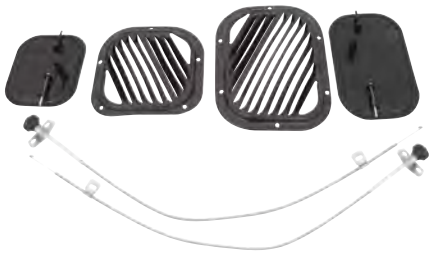
1955-57 Windlace/Kick Panel Retainers

Reproduction of the original windlace/kick panel retainers designed for use on 1955-57 Chevrolet passenger car models. The windlace retainers fit all body styles and the flange is drilled to fit 1955-56 and 1957 Chevy's. The wider slots makes the installation go much smoother. These retainers hold the windlace at the front door "A" pillar.

TF132133	1955-57		144.99 pr



1955-56 Kick Panel Vent Set

Reproduction kick panel vent set for 1955-56 Chevrolet passenger car models. The set also includes the vent grill, door, seal, and cable assembly with knob. The door and grill are manufactured in stamped steel as original. One set required per vehicle.

Note: *Will fit and function on 1955-56 models but knob is correct for 1956 models only.*

TF125088	1955-56	LH and RH	158.99 set

1955-57 Billet Kick Panel Vent Knobs

This polished billet vent knob set adds a modern, custom look to your interior. Made from 6061-T6 aluminum and hand polished to a mirror finish.

TF100467	1955-57		46.99 set

1955-56 Kick Panel Vent Door Seals

Reproduction kick panel vent door seals for 1955-56 models. Manufactured in the correct shape for a proper fit.

1955-57 Headliner Insulation

Install this jute insulation between the headliner and roof panel to deaden sound and maintain a comfortable cabin temperature. This insulation is designed to be glued to the roof panel prior to installing a headliner. 1/8" thick paper.

TF125087 1955-57 ..... 36.99 ea

New!

Headliner, Upholstery Glue and Thinner

Correct adhesive formula used to adhere the headliner to the roof panel and for other vinyl upholstery jobs where a strong vinyl adhesive is required. This is specially designed for use with vinyl covered fabrics. Includes a handy brush for easy application. Solvent-based thinner reactivates dried HH-66 vinyl cement or removes unwanted HH-66 from surfaces. You also can use HH-66 thinner to clean brushes, rollers, spray guns, and other types of applicators.

RE13001

RE13005

Dome Lamp Dimmer

Soften the interior lighting of your muscle car. The standard dome lamp dimmer keeps the lamp on an extra three seconds then slowly fades off, instead of simply switching off. The deluxe dome lamp dimmer, if the ignition power is off, the lamp delay is 10 seconds, but if the power is on, the lamp fades when the doors shut. The deluxe dome lamp dimmer can also be installed in a way that the lamp softly brightens when the doors open. These devices easily install on most applications and can be mounted in any location where electrical connections are easily accessible.

"U-Cut-To-Fit" Speedometer Cable

High-quality speedometer cables feature machined aluminum fittings and a premium housing with a specially extruded liner to extend the life of the cable. These cut-to-fit 7' speedometer cables are designed to work with factory speedometers with a 5/8"-18 male thread, or any cable driven aftermarket speedometers such as AutoMeter, Stewart Warner, or VDO. The transmission end is designed to fit most transmission driven gear adapters (not included), and the inner cable and outer housing of these cables can be cut-to-fit most GM transmissions.

New!

GPS Speed Sender

New Vintage USA GPS speedometer senders are compact units that mount virtually anywhere and deliver a steady, smooth signal to any electronic programmable speedometers. So, if you need an easy way to pickup your speed signal, or have a transmission without a built-in VSS or cable output, a New Vintage USA's GPS speedometer sender may the just the part you're looking for.

NV42181	universal		154.99 ea

Sky Drive GPS Speedometer Sender

Drive your speedometer accurately and reliably with the Sky Drive GPS Speedometer sender. This device quickly calibrates and accurately drives any electronic programmable speedometer. The Sky Drive updates 10 times per second without any transmission signals, pulse generators or signal converters and features an omnidirectional antenna that can be mounted virtually anywhere and in any position. No more guessing or recalibrating due to tire or gear changes, this unit requires a one time setup and you're done.

280667	GPS speedometer sender		162.99 ea

1860T

Cable-X Speedometer Drive Converter

The Cable-X is the easy, cost efficient way to operate your stock mechanical speedometer with a transmission equipped with vehicle speed sensor for an electronic speedometer. This universal adapter will pickup the electronic speedometer signal and operate the cable driven speedometer to the corresponding speed. It's a snap to install with only three wires: hot, ground, and signal. The Cable-X is a one-of-a-kind solution to your speedometer drive problem.

A8101008

Internal Float Fuel Sending Unit

Get reliable fuel gauge readings with this internal-float fuel sending unit. This advanced design provides accurate readings without fluctuations due to fuel slosh. Because this internal float design requires no float arm, it is far more resistant to corrosion, even with racing fuels. All sending units mount to the tank with the standard 5 bolt mounting flange and are available in sizes from 4" to 24".

Important: *Sending unit should not touch bottom of tank. When the fuel gauge reads empty, the area below the sending unit is reserve fuel.*

Note: *Sending units are available in lengths from 4" to 24" and are sold in 1" increments. Please add the desired length to the end of the part number, eg. 06 = 6", 11 = 11".*

New!

M9333B

B – blue G – green R – red W – white

Features Include:

- Voltmeter is microprocessor controlled with 7.0 to 18.0 Volts accuracy
- Oil Pressure displays 0 to 100 psi accuracy and universally adaptable
- Water temperature has 18-255 Fahrenheit degree accuracy

3 Gauge LED Digital Set

Intellitronix universal digital LED 2-1/16" diameter 3 gauge panel. Feature the brightest LEDs available, this sharp looking 3 gauge digital panel includes voltmeter, water temperature, and oil pressure showcased in a black bezel. Sending units and mounting hardware are included.

Note: *When ordering, please add the correct suffix: B – blue, G – green, R – red, or W – white.*

TF141017 (cluster not included)

1957 Authentic Series Gauge Set

Classic Instruments Authentic series gauges update your gauge cluster with modern instrumentation while keeping a vintage look. Designed to fit the original dash bezel of your 1957 Chevy model using OE style trim rings and attaching hardware. Each gauge set comes complete with an electronic 140 MPH speedometer, an 8000 RPM tachometer, and fuel, coolant temperature, voltmeter, and oil pressure gauges. Includes all necessary mounting hardware and sending units (0-30 Ohm fuel sender). Made in USA.

DD10701

Universal Digital Gauge Set

These Odyssey Series II and Odyssey Solarix digital gauges set give any plain dash an old school design with a modern digital display. These six piece gauge sets include: 3-3/8"speedometer and tachometer, 2-1/16" oil pressure, water temperature, voltmeter, and fuel gauge. Includes: oil pressure, water temperature, and speed senders. Fuel gauge works with most OEM and aftermarket senders. Available with chrome or black bezels.

Odyssey Series II – Non-Glare Teal Display

Digital Clock Instrument

Odyssey digital clock incorporates a 12 hour AM/PM format, ambient temperature display, and either an 8 point compass or a day/date display. Features night dimming and label illumination behind a non-glare, high contrast lens. Measures: 2-1/16" diameter x 1-1/2" housing x 2-3/8" deep (including mounting studs). Sensors included. 24-month limited warranty.

Note: *Special order. Must be prepaid, non-returnable.*

1955-56 silver alloy face

1957 black alloy face

- Over 30 independent RGB color options for needle and TFT Message Center.
- 12 preset color theme options or build your own.
- Wide angle color TFT LCD Message Center(s).
- Independent day/night color selections.
- Illuminated needles and LED backlighting for the numbers and tick marks.
- "Ghosted" indicators (turn signals, high beam, check engine, cruise control engaged, parking brake, plus two that are user definable) appear only when lit.
- Bluetooth connection to tablet/smart phone.
- Easy to use app allows for quick setup, modifications, and sensor diagnosis.
- Available for iPhone and Android systems.

1955-57 HDX-Series Gauge Set

The new HDX series gauge sets from Dakota Digital brings you the best in modern instrumentation, rivaling what's offered in today's modern vehicles. Each HDX system is fully customizable, allowing you to personalize your instrument panel to complement nearly any vehicle theme. Each direct fit gauge package incorporates a speedometer, tachometer, fuel level, Volts, oil pressure, and coolant temperature gauges, along with a digital message center. The gauges are integrated into your vehicle's systems using the supplied central control box. Includes necessary sensors. Gauge faces offered in black alloy or silver alloy and are available with either standard (MPH and Fahrenheit) or metric (KM/H and Celsius) displays.

Important: *Gauge bezel not included. Clock sold separately from gauges. Metric display (KM/H and Celsius) gauge sets are custom built by Dakota Digital, and may require a 3-5 week build time.*

HDX Gauge Sets

Note: *Please specify option codes when ordering: 1 – standard (MPH and Fahrenheit); 2 – metric (KM/H and Celsius) and then either A – silver alloy gauge face, or B – black alloy gauge face.*

Example: DD15801A = 1955-56 with standard display and silver alloy gauge face.

Auto Meter In-Dash Speedos and Tachs

Our In-Dash Speedometers and Tachometers feature our famous high-performance movements and are designed with seamless dashboard mount in mind for the ultimate driver information center. Available in a variety of configurations and sizes.

***Important:** Electric speedometers operate on 500-200,000 pulse/mile sending units. Use existing sender if vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 4, 6, or 8 cylinder engines with most factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an ohmmeter with the sending unit float in the empty and full position to determine the correct fuel gauge.*

Auto Meter

Full Sweep Electric Gauges

Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges combine extreme durability and readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electrics. Track tested and race proven, these units use precision senders to keep hazardous fluids out of the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

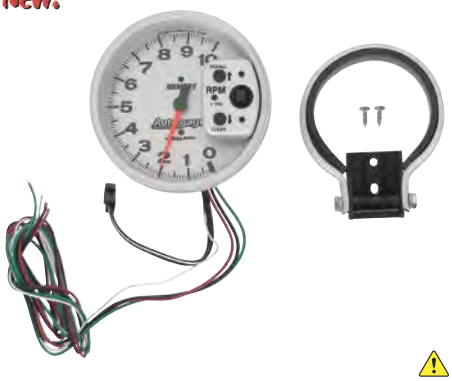
Tachometer and Components

New!



Monster Memory Tach – 5" Pedestal

AutoMeter 5" pedestal autogage monster memory tach 0-10,000 RPM. AutoMeter's race proven air-core electric tachometers provide quick and accurate readings with a needle so responsive it can go from 0 - full scale in 333 milliseconds. Compatible with most 4, 6, and 8 cylinder engines (2-4 pulse per revolution ignition signals) with points, electronic, and most 12V high-performance racing ignitions.

233907 silver ..... 244.99 ea

BOSCH

Super Tach II

Bosch's Super Tac II features internal dial lighting, accurate air coil meters, 250 degree dial sweep, 8000 RPM limit and adjustable red line pointer. Works on 4, 6, or 8 cylinder engines. Functions with breaker point, electronic and most aftermarket ignition systems except magnetos. Includes mounting hardware. Available 3-3/8" with white dial.

ST7903 chrome bezel ..... 54.99 ea

OER

Dixco Style Hood Tachometer

This Dixco style 8000 RPM tachometer was installed by builders for super car vehicles such as Yenko, Baldwin Motion, and Big Daddy Garlits. Fits all vehicles. This tachometer works with factory points and GM HEI distributors. Tachometer features an electronic movement and reset to "0" once they receive 12 Volts of power. Works with factory points style ignition and GM HEI. Any aftermarket ignition may need a module or convertor to give correct signal.

Note: Tachometer adapter required for aftermarket ignitions.

A9100101 all ..... 199.99 ea

Distributorless Tach Adapter

This tach adapter is designed to adapt a standard ignition tachometer, Pro Shift light, or RPM activated module to be used with distributorless ignition systems.

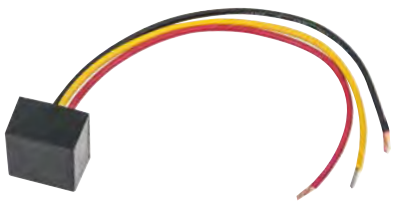
AM9117 tach adapter ..... 129.99 ea

Tachometer Signal Filter

AutoMeter tachometer signal filter. These filters are designed to correct erratic tach function by filtering out the interference or spiky pulse signals often caused by points or noisy ignition systems.

AM9116 ..... 30.99 ea

OER AUTHORIZED



Universal Tachometer Filter

Eliminate tach signal noise and surges caused by your ignition system with this compact and easy-to-install tachometer filter. This filter installs between the tachometer and the signal source and modifies the sharp up and down spikes into a semi-square wave signal for steady readings and faster response. This tachometer filter can be used as a direct replacement for 1975-89 GM vehicles. Measures: 2" x 3/4" x 1". Includes instructions.

Important: Recommended for vehicles running an HEI ignition with a tachometer designed for points style ignitions.

MG019219 ..... 39.99 ea

AM/FM Stereo with Auxiliary Input

Do to the great success of CAM's USA-630 radio they now bring you the USA-230. This new model radio has the same cosmetics as the USA-630 which has been a huge success. If you don't need USB/MP3 or CD changer control this is the model for you. An awesome looking radio a great price. Radio has no cassette but includes auxiliary audio input. If you have a portable MP3 player or Satellite radio just plug it into the Aux input and listen to it through this radio. These exciting features include: AM-FM stereo, 200 watts (4 x 50), auxiliary input (RCA rear) RCA to 1/8" pin jack included, digital clock, electronic tuner, 16 presets (4AM-12FM), 4 channel RCA pre-outs, 4 way fader, power antenna lead.

Important: *Faceplate not included.*

1955-57 630 Stereo

This is the pinnacle of 30 years of evolution of Custom Autosound's quest for the perfect classic car radio. This radio has large OEM push buttons that give a perfect look in a classic dash. USB input on the back of the radio allows you to plug in a USB flash drive for playback of MP3/WMA song files. The jack is on an 14" extension which allows you to place it in the glove box or ashtray for easy access. The new alpha numeric display shows the song/artist/album (id3) titles during playback of MP3/WMA files. With the built-in CD controller you have complete control (no FM modulation) of CAM's 6 disc CD changer. This same CD controller also facilitates the optional iCAMKIT iPod® interface that turns your iPod® on/off and charge it while giving you control to advance songs or play list from the buttons on the radio. With 240 watts, the radio should have all the power you may need. If you want more, there are 4 pre-out jacks on the back of the radio for optional amplifiers. The back also has auxiliary audio input for satellite radio or any portable player you may wish to use. Other features are: AM-FM stereo, 240 watts, USB port for flash memory MP3/WMA playback, direct 6 CD changer control, alpha numeric ID3 display for MP3/WMA files, electronic tuning and volume control, 4 way fader, left right balance, digital clock, 2 channel RCA auxiliary input for satellite/iPod® etc. 16 presets (12FM-4AM), 4 channel RCA pre-outs, separate bass and treble, USA/Euro tuner, power antenna lead.

USA4 – DIN Radio/CD Player

Custom Autosound's USA4-DIN radio is a great choice for any classic car or truck with a "DIN" radio opening (approximately 7.2" x 2.11"). This includes most foreign and domestic vehicles from 1984 onward. Also fits perfectly in classic cars, trucks, and street rods with dashes cut for DIN radios. The USA4-DIN has a full featured digital display that flips down to reveal a CD player underneath. Features a built-in USB 2.0 input and auxiliary input behind small closed doors in the front panel. With built in Bluetooth you have several ways to listen to your favorite music. With the RDS tuner you will see the artist's name and the title of the music playing. Features 160 (4 x 40) watts of power, and one pair of RCA pre-outs for rear amplifier.

1955-57 Modern Radio

These radios have the exact look and feel of your original radio, but feature the performance you'd expect from today's technology. Inside each radio case is a digital AM/FM tuner system with a 180 watt RMS power amplifier and includes RCA inputs for iPod, MP3 or satellite radios. Two powerful microprocessors monitor the interface (knobs and push buttons) and make the radio controls precisely imitate the original while pumping out a sound that is cleaner and much more powerful than any radio that was available when your 1955-57 was new. Radios fit into stock location without dash modification. Where applicable, radios include die-cast chrome knobs, faceplates, and functioning AM/FM station presets. Designed and manufactured in the USA. Blue tooth compatible.

Radio Off Delay

With this new device, you can listen to your radio after you remove the key from the ignition, just like many modern luxury cars! After removing they key, this unit will keep the radio power active for 15 minutes or until a door is opened. This allows you to continue listening to the radio without leaving the electric fan or other accessories running. And you're not limited to just the radio; it could be wired to control all accessory power so you still have control of the power windows after the key is off.

MADE IN USA

Play Portable MP3's or CD's on Your Factory Radio!

You now have the freedom to listen to your favorite music using a modern MP3 Player, iPod or CD player in your classic with the RediRad adapter, the only portable music adapter specially designed for older vehicles. The music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your stock AM or AM/FM radio without any vehicle modifications. Designed for simple and out-of-sight installation, it uses a standard audio plug on a six foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player. The radio will return to normal operation after switching off your personal player. Made in USA.

14923 RediRad adapter ..... 128.99 ea

Bluetooth® Receiver Adapter

Now you can wirelessly stream audio and take handsfree calls from the road in your Classic Tri-Five! Simply plug this into your cigarette lighter, connect the cable to your radio's 3.5mm input jack, and pair your Bluetooth® enabled phone or other device... that's it! You'll be ready to wirelessly stream music from your device to your audio system. Calls and music are routed through your car's speakers for excellent sound quality. Includes Bluetooth adapter and 18" extension cable.

AR9901 Bluetooth® adapter ..... 42.99 ea

Bluetooth Interface

Wireless interface for custom autosound CD controller radios (USA-630, Secretaudio (SST & SRMS), USA-66). This adapter plugs into the CD changer port of your custom autosound radio and gives you the ability to do handsfree calling from your Bluetooth® capable phone. Also listen to music stored on your A2DP enabled bluetooth device.

Boom Mat Speaker Baffles

Solve the problem of rattles and vibrations caused by speakers and protect the back of speakers from damage! Boom Mat speaker baffles maximize speaker performance by isolating the correct frequency responses while damping reverberation in the sheet metal and panel to frame resonance. Also forms a water tight protective shell to prevent moisture intrusion. Made from a closed cell polyethylene to enhance frequency response for improved sound clarity. Easy conformably in tight spaces for a professional installation. Isolates frequency responses and prevents sound from migrating to unfavorable areas in the vehicle such as door panels.

The Smart Antenna

This antenna is an active magnetic type antenna, working on the magnetic field associated with a conductor excited by a radio wave. The product is totally self-contained using printed circuit technology and miniaturized components, coupled with high-quality manufacturing methods. You don't need an external rod, no drilling to install, no removal prior to car wash. Concealed mounting prevents theft, and it also includes a lifetime warranty! Antenna cable measures 9 feet long. Fits all years!

SA20		21.99 ea

RetroSound

Hidden Antenna

The RetroSound amplified AM/FM hide away antenna is a great solution for anyone who doesn't want to install a standard fender mount antenna. This hidden antenna installs in seconds using a standard antenna plug and your radio's power antenna wire. This antenna uses magnetic field circuitry for enhanced radio reception. It can be installed almost anywhere thanks to the supplied 105 inch antenna lead and power wire.

Tilt Floor Shift Steering Column

These columns have become an industry standard. While it is not the most expensive column, this column is by far the most popular. Our tilt column features our unique 8 position tilt, which cannot be found anywhere else on the market. Self-canceling turn signals, 4 way flashers, a 1" DD output shaft, horn wiring and our standard dress-up kit are also included with this column.

1955-57 Column Installation Parts

Complete sets include everything needed to install your ididit steering column into your classic Chevrolet using new parts from the column to the gearbox. All you need to know is the diameter of the gearbox input shaft and the number of the splines. Sets are available for vehicles with a factory original harness and will include a 4 way flasher set. This 4 way flasher set will add the convenience of a 4 way flasher as well as convert your original harness to the 3-7/8" harness found on your ididit column. Many aftermarket wiring companies offer replacement panels that incorporate a 4 way flasher unit as well as the flat 3-7/8" harness. If you are using one of these panels, a 4 way flasher set is not necessary as it has been incorporated into the wiring panel. Components also available separately.

Note: *Sets include all components required to install column in your classic Chevy. Individual components also available separately (not necessary if ordering an install set).*

Steering Column Parts

TF500186 TF500189

1955-57 Tri-Five Original Style Conversion Steering Column

Upgrade an automatic column shift vehicle to a 605/500 or Delphi 600 power steering system without chopping up a steering column. These original style steering columns feature an improved shift lever design, add clearance at the firewall, and require no exchange. Rag joint included. Hardened steel shaft and steel column tube as original.

Note: Use neutral safety switch TF500390 when using these columns with a TH350, TH400, or 700-R4 transmission. Not suggested for use with rack and pinion steering systems.

U-Joint with Vibration Reducer

With the more frequent use of rack and pinions and low profile performance tires, there are more road vibrations transmitted to the steering wheel than in the past. Using a Borgeson vibration reducer results in an immediate change in the steering feel and as an added benefit, this reduction in vibration has been shown to increase the overall life of the steering components.

34935	3/4" DD x 1" DD	115.99 ea

New!

Universal Steering Shaft

Steering shafts from ididit offer a safe and inexpensive way to replace your intermediate shaft. Features mild steel construction and an installed rag joint and U-joint, locked into position with set screws. The steering shaft uses a 3/4" DD shaft design for compatibility in many different applications.

SC1058	2-5/16" long	24.99 ea

New!

Steering Column Shaft Coupler

Borgeson universal steering shaft couplers can be used to extend the steering box, the RP shaft, or the column shaft. Borgeson steering shaft couplers can be welded and/or pinned to the unsplined end of the shaft and are available in many popular applications to complete your buildup. This coupler connects the intermediate shaft to the steering column on several GM models with a 1" 48 spline x 3/4" double D shape.

1955-57 Pro-Touring Sport Steering Wheel

The GT Pro-Touring Sport steering wheel was inspired by GM's optional NK4 four spoke Sport wheel installed in various models during the 1970s. This custom steering wheel offers a modern flair to an already classic design. The black anodized spoke design features a leather wrapped grip with "baseball" stitched seam. The polished spoke design features genuine mahogany wood outer grip and perforated leather inner. Horn buttons are machined from 6061 aluminum and are secured using an exclusive o-ring design that keeps it from "popping off". Each steering wheel kit includes your choice of a black anodized or polished hub with matching horn button and Grade 8 mounting hardware.

Polished 4-Spoke

This kit includes a 14-1/2" diameter, 2-3/4" dish, polished 4-spoke wheel with a polished adapter and your choice of an engraved or red Bow Tie horn button. The horn buttons cover the wheel mounting bolts for a clean, custom look.

Leather 14" Steering Wheel

Each wheel features a thick padded leather grip for driving comfort and a classic center spoke design that is reminiscent of the optional sport wheels from muscle car era. The smaller 14" diameter wheel is easier to manage and provides your dash with a unique sporty look. Each steering wheel kit includes everything you need to mount the wheel. Includes: the steering wheel, mounting hardware kit, mounting hub, and your choice of a Bow Tie or crossed flags horn cap.

Important: *For models equipped with a late style steering column conversion (1969-94 style column).*

Note: *Must specify center type: A – brushed, B – chrome.*

Montecarlo Steering Wheel

MOMO Tuning Series steering wheels are ergonomically designed for the best hands-on feel and manufactured of the highest quality materials available. These 320mm (12.6") or 350mm (13.8") Montecarlo wheels feature a triangular 3-spoke hub inspired by the famous MOMO Gran Turismo steering wheel. The brushed black anodized hub is surrounded by your choice of black leather or Alcantara leather grip with black or red stitching. A chromed MOMO logo in the center horn button provides a bright accent to the Montecarlo's black finish.

Note: Momo steering wheels use a common 6 x 70mm bolt pattern. They will bolt directly to any Momo, Sparco, Isotta, or NRG 6 bolt steering wheel adapter.

Automotive Manuals

1955-57 Factory Service Manuals

These factory manuals provide all the information you'll need to service your Chevrolet. Each shop manual includes procedures for maintenance and adjustments, minor service operations, removal and installation of components (excluding the body) and a wealth of General Motors service operations techniques. If there is one book devoted to the care of your Chevrolet, this is it! Whether you own a Bel Air or another Chevrolet model, these manuals will supply important and pertinent information for correct maintenance procedures. Written by General Motors.

Note: This book covers the service aspect of the mechanical operations of the vehicle. For body and interior, see the Fisher Body Service Manual.

1955-57 Shop Manual

Covers procedure for maintenance and adjustments, minor service operations, removal, and installation for components, except body components.

This manual was produced for the service technician to provide complete information on the construction, operation, maintenance, and repair of the Chevrolet fuel injection system.

TF250036	1957	.....	23.99 ea

1955-57 Shop Manuals on CD-ROM

The information provided on each CD-ROM includes virtually all the information you'll find in a factory shop manual. This gives you the ability to view complete factory technical information on your vehicle with your personal computer. You can go to the index and type in the part that you're trying to locate and print out the portion of the manual that you need. When several manuals were produced for a particular model, all are supplied on the same CD for your convenience.

Note: CDs are non-returnable once opened.

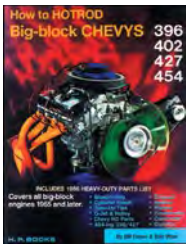
How To Build Chevy Small-Blocks On A Budget

Know the ins and outs of building serious horsepower small block Chevy engines on a budget. Included are details of factory part numbers, easy do-it-yourself cylinder head modifications, inexpensive but effective aftermarket parts, etc. 144 pages, 300 b/w illus.

L857 ..... 36.99 ea

How to HOTROD Big-block



Full coverage is included to show and explain what it takes to blueprint an engine to the exact specifications which will provide the best performance. Lots of photos and illustrations will help make your task easier. Softbound, 162 pages, 8-1/2" x 11".

L75 ..... 29.99 ea

How to Rebuild the Small-Block

This book covers virtually every small block engine. Includes easy step-by-step approach, helps avoid costly and time consuming mistakes, select the right parts, master mechanical tips and the ins and outs of quality machine work. Softbound, 146 pages, 100 illustrations.

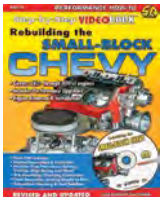
L278 ..... 27.99 ea

How to Rebuild LS Engines

This book details and highlights special components, tools, and other accessories needed to get the job done right. Appendices are packed full of valuable reference information, and the book includes a Work Along Sheet to help you record vital statistics and measurements along the way. 8-1/2" x 11", 152 pages, 604 color photos, softbound.

L975 ..... 29.99 ea

Rebuilding the Small-Block Chevy Step-by-Step Videobook



This is a step-by-step workbench book and DVD combination that shows you how to build a street or racing small-block Chevy. Detailed sections show how to disassemble a used engine, inspect for signs of damage, select replacement parts, check critical component fit, and much more! 160 pages, softbound.

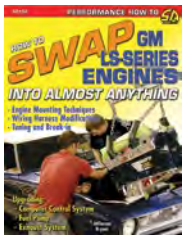
L6611 ..... 49.99 ea

Small-Block Interchange

Cataloging all 1968 to 2000 SB Chevy engines, this manual includes more than 25,000 part numbers, specs, dates and technical details on engine blocks, heads, valves, crankshafts, camshafts, pistons, manifolds, ignition systems, emission systems, and more. Softbound, 176 pages.

L1024 ..... 27.99 ea

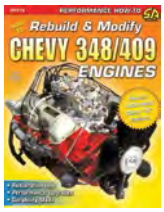
How To Swap GM LS Engines



Complete specs, and detailed information so you can select and fit an LS engine. A section on mounting kits, explaining how to install these engines into a variety of cars using readily available motor mount kits, universal engine mounts, or fabricated mounts. 144 pages, softbound.

L1021 ..... 29.99 ea

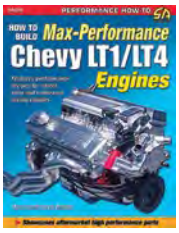
How To Rebuild & Modify Chevy 348/409 Engines



Chevy's "W series" 348 and 409 became legends on the street, and the track. While these engines enjoyed pop culture status in the early 1960's, the later Mark IV Chevy big blocks overshadowed these W-engines by the end of the decade. This book provides instruction for rebuilding a stock W-engine as well as directions for a sound performance build. Learn how to select a strong, clean block, the best heads and camshaft, and increase the compression ratio. All options are examined. Softbound, 8-1/2" x 11", 144 pages, 400 color photos.

L1403 ..... 39.99 ea

New! How to Build Chevy LT1/LT4



This book guides you through the factory and aftermarket components of the LT1/LT4 engines, offering sound performance advice and recommendations. Additionally, complete engine buildup recipes are provided, along with their respective horsepower and torque levels. You can follow the advice of experts and achieve targeted results for your own project. Softbound, 8-1/2" x 11", 136 pages.

L1098 ..... 34.99 ea

LS1 Engine Installation

This useful publication provides general information on components and procedures that can be extremely useful when installing or servicing LS1 engines. Topics include installation notes, support systems, electronic engine controls, recommended accessories, parts lists and engine specs. Softbound, 36 pages.

G11810 ..... 21.99 ea

New! How To Swap GM LT Engines

Discover the latest GM swap technology in this all-new, comprehensive LT swapper's guide. 144 pages.

GM LS Cylinder Head Guide

The GM LS Series V8's are the most popular engines in the aftermarket. Choosing the best cylinder head is key to making any LS engine project perform to it's highest potential. This book compares readily available factory and aftermarket cylinder heads and delivers the facts about each, including dimensions, airflow rates, interchangeability compression ratios, applications, and performance characteristics. Softbound, 8-1/2" x 11", 144 pages.

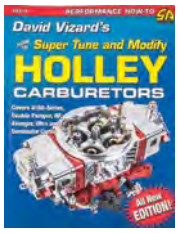
L1099 ..... 35.99 ea

Holley Carburetor Handbook

This handbook covers the fuel inlet system, idle system, main metering system, power system, accelerator pump system, secondary system, choke system, metering blocks, repair and adjustment, and more! Softbound, 6" x 9", 80 pages.

L559 ..... 19.99 ea

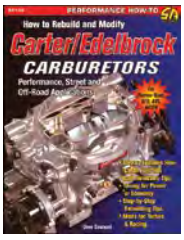
David Vizard's How to Super Tune and Modify Holley Carburetors



Author Vizard explains the science, the function, and the tuning expertise required to get your Holley carburetor to perform its best for your performance application. Paperback, 144 pages, 8-1/2" x 11".

L9658 ..... 29.99 ea

Carter/Edelbrock Carburetors

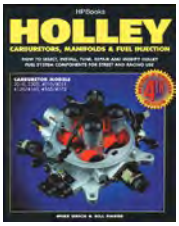


Contains photos, illustrations and diagrams, covering rebuilding, tuning and modifying Carter and Edelbrock carburetors. Also features history on the Carter company as well as the development of the AFB and the AVS since the purchase by Edelbrock. Softbound, 136 pgs, 8-1/2" x 11".

L433 ..... 34.99 ea

Holley Carburetors, Manifolds & Fuel Injection

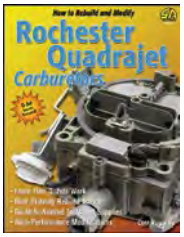
New!



This manual covers high performance and stock replacement 1, 2, and 4 barrel Holly carburetors and Holly manifolds for the street or strip. Also includes sections on the operation and installation of Holley's Pro-Jection fuel injection systems and a special section on Z-28's. Softbound, 8-1/2" x 11", 192 pages.

L40 ..... 29.99 ea

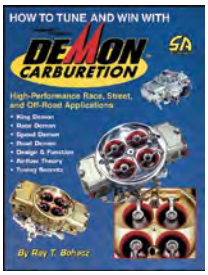
How to Build and Modify Quadrajet Carburetors



The book is a complete guide to selecting, rebuilding, and modifying the Q-Jet, aimed at both muscle car restorers and racers. It includes a guide to selecting and finding the right carb, instructions on how to rebuild the carb and extensive descriptions of high-performance modifications. 128 pages.

L202 ..... 29.99 ea

New!



How to Tune and Win with Demon Carburetors

How to Tune and Win with Demon Carburetion provides a detailed look at carburetor and engine theory in an easy to understand manner, and is a guide for choosing the correct carburetor for the application. Tuning tips for racing, and street/strip use are included and each of the four Demon models are analyzed in detail along with the basics of combustion, air flow, emissions, fuel systems, and gasoline. To add to the learning experience, each chapter includes side bars and review questions. Softbound, 8-1/2" x 11", 128 pages.

L164 ..... 33.99 ea

New!

How to Build Horsepower Carburetors & Intake Manifolds

Small modifications and upgrades can result in large performance gains! Acclaimed technical writer David Vizard provides you with the latest technical updates in regards to Carter, Holly, Predator, Weber, Dellorto and Mukini carburetors plus calibration methods, analysis of different designs, mixture ratios and intake combinations. Paperback, 8-1/2" x 11", 128 pages.

L353 ..... 33.99 ea

Designing And Tuning High-Perf Fuel Injection Systems

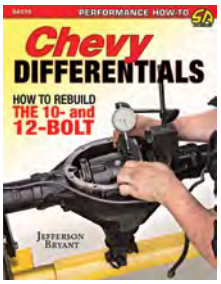
This book goes in-depth on the combustion basics of fuel injection as well as benefits and limitations of standalone. Includes glossary and a special resources guide with standalone manufacturers and test equipment manufacturers. Softbound, 128 pgs, 8-1/2" x 11".

L1062 ..... 29.99 ea

High-Perf Differentials, Axles & Drivelines

All too often, when an enthusiast builds a high-performance engine, swaps a more powerful engine into a car, or mounts sticky tires, the driveline components simply can't handle the added torque and fail. In addition, differential, axles, and driveline parts have a limited life span under the power of a high-performance engine. This book covers everything you need to know about selecting the most desirable gear ratio, rebuilding differentials and other driveline components and most importantly, matching the correct driveline components to engine power output. Learn how to setup a limited-slip differential, install high-performance axle shafts, swap out differential gears and select the best available products for the driveline. Explains rear differential basics, rear differential housings, rebuilding open rear differentials, limited-slip differentials, and factory differentials. Sftbnd, 8-1/2" x 11", 144 pages.

L1063 ..... 29.99 ea



Chevy Differentials: How To Build The 10 and 12 Bolt

In this step-by-step guide, you learn how to completely disassemble the differential, evaluate components, and select replacement parts. You're also shown all of the up-to-date techniques for re-assembling the differential and axle. Informative sections on axle identification and replacement parts are also provided. Maybe you have found a salvage yard unit and want to rebuild it to upgrade your existing vehicle or would like to install an aftermarket 12 bolt assembly for extreme performance or racing. This is the only book dedicated solely to rebuilding, setting up, and modifying these axle assemblies for long service life and maximum performance. If you're going to rebuild a Chevy 10- or 12 bolt axle, this book delivers the essential information to get the job done right. Softcover, 8-1/2" x 11", 144 pages.

EF40050 EF40100

Handheld Fire Extinguishers

The Element fire extinguishers are suitable for use on small fires offering 50 or 100 seconds of fire fighting protection lasting 5-10 times longer than a 5 lb. bottle extinguisher. Their compact design has no moving parts or compressed gas to service. Its Zero Pressure Discharge will not spread oil and liquid fires and leaves no residue. All Element fire extinguishers are completely weatherproof, unaffected by extreme temperature, humidity, or vibration and can safely be stored in vehicles in hot climates.

OER® "Secret Formula" Clay Bar System

Clay pulls out all the contaminants you cannot see, but that you can definitely feel, like industrial fallout, rail dust, and brake dust. These contaminants may cause patches of paint to appear dull, even after waxing. As these contaminants oxidize, they create rust spots within the paint. Clay bar will remove these contaminants and leave the surface silky smooth with a mirrorlike smooth finish. Our clay will not break or deteriorate into small particles like inferior low quality clay bars. Acts as a magnet to foreign particles, literally pulling the paint fouling grime away from the surface of the paint. Clay lubricant is essential to the performance and safety of clay. It provides the necessary slick surface for clay to glide on.

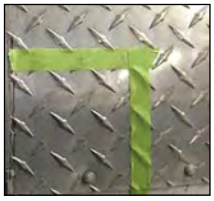
K89504	1 gallon (industrial strength)	19.99 ea



OER® Premium Metal Polish & Sealant

OER® Extreme Shine Metal Polish & Sealant cuts through layers of dulling oxides to restore a wet mirrorlike finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on with ease, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust, or powder. Utilizing friction and heat OER® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective sealant that bonds to metal surfaces reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball and drill.

K89483	16 oz. bottle	17.99 ea

OER® "Secret Formula" Acryli-Shine Glaze

K89620 K89621

Glaze is a polish without any cleaning properties used primarily to improve the shine and clarity of paint. Primarily used by body shops for finishing jobs or by detail shops to bring out the brilliance of paint, glazes are also commonly used on show vehicles to achieve a "high luster or wet look". Your moldings will not turn white. Glazes do not replace polishing. If a surface has minor swirls and imperfections, to achieve the best superior results, the surface should be polished with a polish first.

K89620	32 oz. bottle	24.99 ea
K89621	1 gallon	54.99 ea

Ice Super Shine High Gloss Dressing

K89521 K89522

The Ice Super Shine Dressing is a thick silicone rich dressing that leaves a super high gloss, long-lasting shine on tires, rubber molding, vinyl, and plastic. This dual action premium dressing leaves surfaces 100% dry to the touch and shining better than new, while protecting the surface against dirt, dust and harmful UV rays.

K89521	32 oz. spray bottle	26.99 ea
K89522	1 gallon	42.99 ea

Finishing Touch Matte Finish Protectant

K89523 K89524

Finishing Touch is an all purpose dressing that restores the "new car look" to vinyl, rubber, leather, and plastic. It cleans, beautifies, and protects. It is preferred by many detailers for interiors for its "softer" look and non-greasy look and feel. Pleasant banana fragrance. Patented UV absorber penetrates and acts as a protective barrier against harmful rays that cause premature aging, cracking, fading, and peeling. Perfect for dashboards, vinyl tops, door panels, consoles, tires, trim, bumpers, vinyl seats, moldings, and more.

with Diamond Finish

DiamondFinish® Clear Coat

DiamondFinish Gloss Clear Top Coat is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal®, for top coating direct to metal, or to coat over any other paint/primer application. The clear coat formula can be applied direct to metal or over other coatings. This high gloss clear coat remains permanently flexible and is able to perform in the toughest environments without yellowing, cracking, or peeling. Apply directly to painted surfaces with minimal surface prep. Incredibly tough and hard like no other clear coat on the market. Can be applied with a brush (without leaving any brush marks), roller and conventional spray gun. Unlike two part coatings, no hardener is needed with DiamondFinish. Just stir and go. DiamondFinish clear coat will cure without heat or UV lights in temperatures from 50 to 86 degrees Fahrenheit. Able to withstand the harshest of chemicals including fuels, solvents, battery acid, brake fluid, Ethanol, Methanol, MEK, Hydrochloric Acid, fertilizers, and Acetone. Graffiti resistant: because of its chemical resistance, graffiti just won't stick and can be removed simply with a solvent soaked rag. Great for high temperature automotive applications including the use on cylinder heads, engine blocks, brake components and even inlet manifolds, without yellowing up to 300 degree Fahrenheit.

RustSeal® Corrosion Barrier Coating

RustSeal is a superior one part, ready-to-use, high-solids content, rust preventive, corrosion barrier coating. RustSeal flows out to a beautiful, rock-hard, tough ceramic-like coating that is tough to chip or scratch, and will not crack or peel. RustSeal is an incredible, single component, ready-to-use, high solids content, rust preventive coating with exceptional sealing properties. RustSeal is the most permanent cost effective solution for stopping rust and corrosion anyplace where it is a problem: home, automotive, industry, fleet, farm, and more! RustSeal is an enhancement that lasts. Water and air are locked out, therefore oxidation, the precursor to rust, cannot take hold. RustSeal is not intended for use as a final finish. After removing or treating rust on floors, subframes, or other under vehicle components, RustSeal Corrosion Barrier Coating works by isolating the surface from moisture and oxygen. This single component, high solids, rust stopping coating seals out the ultimate causes of rust, creating a rock hard non-porous barrier between the metal and rust promoting elements. Will not crack, chip, flake, or peel, and no hardeners or activators are needed. RustSeal is completely unaffected by salt, gasoline, oils, battery acids, hydraulic fluids, solvents, chemicals, or corrosives.

BEFORE APPLICATION **AFTER APPLICATION**

Shared Benefits:

- Easy spray-on application
- Continuous protective moisture barrier
- Fast clean up with soap and water
- Environmentally friendly solution
- Applicable to interior or exterior of vehicle
- Non-toxic and class A fire rated
- Both are paintable
- Coverage is approximately 50 ft²/2 gallons

Sound Control Benefits:

- Provides non-combustible thermal insulation
- Able to withstand temperatures up to 500 degrees F
- Interior temperature reduced by 30 degrees F
- Offers a protective, seamless membrane

Ceramic Insulation Benefits:

- Protects surface from moisture and rust
- Dampens annoying rattles and road noise
- Impressive damping to weight ratio
- Coating can withstand temperatures up to 300 degrees F

Sound Control and Ceramic Insulation

Get the comfort of premium grade insulation without the extra weight! These environmentally safe formulas from LizardSkins can be used as a one part coating or as a two stage system for a cooler, quieter driving experience. The Sound Control formula dampens unwanted engine and road and noise, while the Ceramic Insulation formula cools your vehicle up to 30 degree F or more creating a more comfortable ride. Designed for floors, roofs, firewalls, fenders, transmission tunnels, door panels, trunks, and more, all at a combined cured weight of 52 lbs for four gallons. Insulating a vehicle has never been this easy, thanks to a custom designed application gun made specifically to handle the thick density of the coatings with ease. Order the individual components or buy a complete kit and save!

Important: For two stage applications, Sound Control coating should be used as the base. Four gallons of each coating are required to encapsulate a typical interior and trunk area of 1 vehicle, and 1 gallon of Sound Control when applied as undercoating.

OER® Premium Quality 1955-57 Aerosol Interior Paint

OER's revolutionary formula provides 40% more coverage than standard dyes and lacquers, and actually penetrates and molecularly bonds to the surface to permanently seal in the color. Dries to the touch in 45 seconds, forms a complete bond in just 10 minutes. UV stable and color fast, it will not crack, flake, or peel. For use on vinyl, leather, ABS plastic, polycarbonate, polypropylene, polyurethane, acrylic, lexan, fiberglass, and recycled plastics. When only the best will do, use OER® Premium Quality Interior Paint. Available in a convenient 16 oz. aerosol can (net wt. 12 oz.).

OER® Metal Mimic FX Coating

OER® Metal Mimic FX high-performance coatings were developed to mimic the appearance of bare metal so that you can refinish and protect all of the components that were originally left unpainted by the factory. Items such as cast iron housings, aluminum housings, stainless steel parts, galvanized parts and even chrome can now be coated with a "factory correct" looking finish that is extremely durable and amazingly close to the original color.

Note: Ships ground only. No air shipment.

OER® Factory Black Coatings

OER® factory black coatings are available in a variety of sheen levels to help you achieve the correct factory look for your restoration. Our Ultra Flat sheen is an extremely flat non-glare finish. The next level up is our low gloss formula followed by the semi-gloss and finally our exclusive high gloss formulation. Whatever you are spraying, we have the correct sheen for an original factory black look.

Note: Ships ground only. No air shipment.

Factory Black Set

Buy the complete OER® Factory Black set and you will have all the necessary sheen levels for a correct factory look no matter what component you are spraying.

K89550 4 can set – all four sheens ..... 59.99 set

Ultra Flat Factory Black

Extremely flat non-glare finish that is perfect for a variety of uses including underhood items. Provides a durable flat black zinc phosphate look without the high cost of black zinc phosphate plating.

Frame, Engine, and Body Marker

Auto makers use these permanent markers to write codes and numbers on frames, engines and body components. Engine suffix codes were often written on the back of the cylinder heads. Job numbers were written on the firewall, frame, engine and other components to assure the correct vehicle was being built according to the build sheet. These permanent paint markers will help you exactly duplicate the factory original marks.

OER® Aerosol Coatings

OER® Rubberized Undercoating

A black, rubberized undercoating for all automobile under surfaces. Sprays evenly and dries completely to a smooth consistency. Can be top coated with any type of automotive finish. Prevents rust, reduces road noise, seals out water, fumes, road chemicals, and dust. Special formula greatly reduces lingering odor associated with most other brands of undercoating. No "bleed through" when top coated. Use on undersides of panels, hoods and deck lids, trunk interiors, section repairs, weld joints, rust holes, or on chassis parts. 20 oz. aerosol can (net wt. 18 oz.) or buy a case and save!

Note: Ships ground only. No air shipment.

K89570	20 oz. can.....	24.99 ea
K89669	case of six cans	119.99 cs

OER® Black Wrinkle Finish

A durable and long-lasting finish which has a unique wrinkled texture. Excellent hiding qualities provides an excellent finish for hiding surface imperfections such as pitting, scratches, or chips. Extremely durable formula resists oil, gas, and grease. Can be used where harsh conditions break down conventional coatings. Comes in 12 oz. net wt. aerosol can. Great for valve covers, air cleaners, dash components, and more. 16 oz. aerosol can (net wt. 12 oz.) or buy a case and save!

Note: Ships ground only. No air shipment.

OER® Spray Galvanizing Weld-Thru™ Coating

A smooth, cold galvanizing compound that chemically fuses to bare steel and forms a extremely rust resistant barrier. Perfect for application on the inside of newly installed panels where rust prevention of new metal is important, but where the part treated will not be painted. Fast dry, sag free spray that is abrasion resistant. Stops rust creepage, resists chemicals and is rust inhibitive. Apply it to sheet metal pieces before installation, then weld as usual. The coating will not affect the quality of the weld, and will retain is rust preventative properties. Available individually in 12 oz. cans or in case of six.

OER® Trunk Spatter Paint

Restoration grade spatter paint for the discriminating restorer who wants to accurately replicate the original texture and finish in their trunk. Produced by the original manufacturer for an authentic texture and color match. These water soluble paints are designed to be applied with a paint gun and do not require a clear coat. One quart required per vehicle. Includes instructions.

Important: Originally applied trunk spatter paint with a Binks 2100 gun with a 200 tip and a 66 fluid nozzle with an internal mix air cap.

K86130

K86130	quart	black and aqua	109.99 ea
K86131	quart	gray and white	109.99 ea

OER® Underhood Detail Paint

The perfect alternative to expensive zinc phosphate plating. A variety of choices are available to correctly refinish underhood items such as hood hinges, hood latch and safety catch, carbs, pulleys, linkage, nuts, bolts, brackets, clips, screws, and more with a durable flat or non-gloss finish that mimics the appearance of zinc phosphate plating. 16 oz. aerosol can (net wt. 12 oz.).

Note: Ships ground only. No air shipment.

K89520	dark gray	19.99 ea

Experience Spray Gun Control!

Transform your aerosol container into a versatile spray gun. Using it's unique "lock-on" device, simply snap it on and spray! You'll experience better control for applying steady even coats, easy handling and comfort, all adding up to reduced fatigue. Use with paints, lubricants, cleaners, craft sprays, and more! Universal fit for most aerosols.

81005	can gun	7.99 ea

OER® Clear Enamel

Provide extra durability and color depth on a variety of surfaces. OER® Clear Enamel will enhance the appearance of engine components, wheels, suspension components, and other painted and unpainted surfaces where a gloss clear top coat is desired. Withstands rust, gas, oil grease, salt and intermittent temperatures up to 400 degrees F. 16 oz. aerosol can (net wt. 12 oz.).

Note: Ships ground only. No air shipment.

K89265	gloss clear	19.99 ea

A9250101

A9250102

Binks 2100 Spray Gun

This is the style gun that was used at the factory to apply the trunk splatter paint in the correct consistency and pattern. Includes the correct fluid nozzle, needle, and air nozzle. Will spray all conventional coatings, including those with high solids. Features a forged aluminum body that has been precision machined, and brass air nozzles and knobs that are nickel-plated.

Decal Application Cleaner Gel and UV Protectant

33910

Don't make an expensive mistake by trying to put on your decals the hard way! Help ensure a safe application by a proper preparation of the vehicles painted surface with Pre App® surface cleaner. The Slide-on® Application Gel is specially formulated for applying automotive stripe kits by eliminating air bubbles and helps temporarily overcome the tack of pressure sensitive materials during installation. Slide-over® UV Protectant was designed to give an optically enhanced appearance by repelling dirt, oils, tree sap, smudges, and stains.

Note: Applicator is not included.

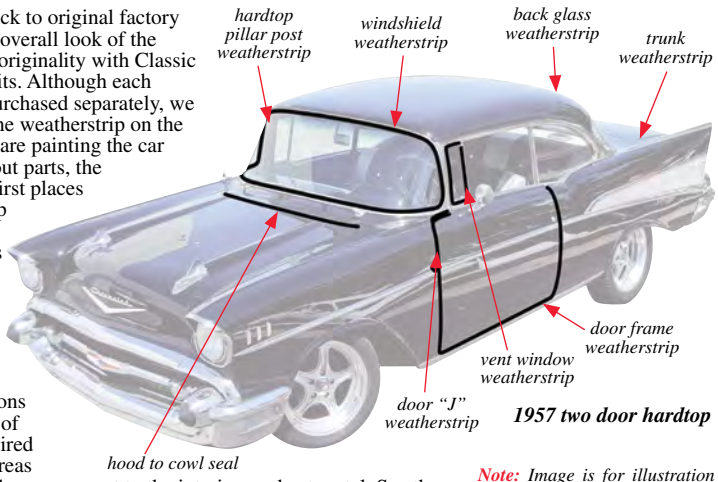
Weatherstrip

Bring your weatherstrip back to original factory condition and improve the overall look of the vehicle while maintaining originality with Classic Industries® replacement kits. Although each item in these kits can be purchased separately, we recommend replacing all the weatherstrip on the vehicle at one time. If you are painting the car or simply replacing worn out parts, the weatherstrip is one of the first places to check. Each weatherstrip product is manufactured to exact factory specifications and will fit properly and function exactly as designed. A complete kit will replace every major weatherstrip component for your 1955-57 model depending on the applications below. The kit includes all of the basic weatherstrip required to help keep the problem areas from leaking and causing damage or rust to the interior or sheet metal. See the listing below for availability. Please be sure to check your vehicle carefully before ordering.



1957 two door hardtop

Note: *Image is for illustration purposes only and does not indicate completeness of kits.*

Window-Weld Ribbon

Window-Weld ribbon sealer is a "tape type" sealer which is used in the replacement of windshields and rear windows on all "gasketless" models. Its unique feature of controlled compressibility allows easy installation yet will not squeeze out to allow glass to contact pinch weld. One 15 foot roll is sufficient material to replace one windshield or rear window. 3/8" x 15' rolls.

MW04

Multi Wedge Prying and Scraping Tools

Multi Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polyethylene that is incredibly ductile so they won't break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy-duty jobs like oil pan covers, timing covers or valve covers. Each 3 piece set includes one 4" curved end, one 4" straight blade and one 3" straight blade. Buy both sets and save! The jumbo wedge is 14" in length and 2" wide, making it perfect for the big jobs.

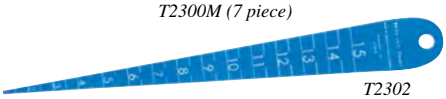
T2300M (7 piece)



T2302

Soft Duty – Delicate prying or wedging
Medium Duty – Sturdy prying or wedging
Heavy-Duty – Very strong and durable

Prying and Scraping Tools

Available in 3 different fiberglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium duty tools are better for the objects that require a little more force to remove, and the heavy-duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough to do interior and exterior automotive jobs without the damage that metal tools can do.

7 Piece Prying and Wedging Tools

Premium Auto Trim Removal Tool Kit

This 11 piece kit was designed for the removal of door panels, dashboard, trim strips, interior panels, and window moldings. Made of impact resistant plastic that will not mar surfaces like metal tool will. Included for the tools is a heavy-duty nylon pouch.

TX2684 ..... 23.99 ea

Glass Molding Clip Installing Tool

Reduce the risk of chipped glass and scratches by using this handy tool for replacing your front or rear window glass molding. This tool is specifically designed to fit trim clips over the studs and virtually eliminates glass breakage.

A13574 ..... 37.99 ea

Weatherstrip Ball End Hook Tool

This hook tool has a small, round steel ball on the end. Once the steel ball is inserted down into the rubber gasket, it is very difficult for it to come out. If it should slip out of the gasket, there is less of a chance you will scratch the paint of the vehicle.

153823 ..... 14.99 ea

Glass Seal Rope-in Tool

Use the rope in tool when working with rubber gasket set glass. The unique counter grip plastic handle injects the rope through its stem as it is pulled around the gasket. There is plenty of enough durable rope to fit around even the largest truck window.

153813 ..... 19.99 ea

Universal Molding Release Tool

The ultimate tool for cleanly releasing moldings. Slide tool left or right under the molding until it hooks a retaining clip, then just rock the tool with a twist of the wrist to release the clip. Heat treated, high carbon steel.

S21500 ..... 6.99 ea

Windshield/Back Glass Molding Removal Tool

Excellent tool used to remove the molding from the retaining clips on windshield and back window glass.

A7914 ..... 14.99 ea

Windshield/Back Glass Molding Pliers

Specialty pliers for removing door handle clips and chrome molding on most windshields and rear glass. Jaws slip under door handle without damage to panel material, and offset handle permits easy access to molding clips.

Y35200 ..... 8.99 ea

Windshield Removal Tool

Professional windshield removal tool for all vehicle applications. Features an aluminum handle with diamond cut pattern for added grip. Heavy-duty braided wire secures the pull handle to the cutting blade.

153811 ..... 21.99 ea

3M Super Fast Urethane

A rapid curing adhesive/sealant intended for all flush mounted and bonded windshield or back glass replacements. Provides the necessary strength for automotive glass replacement. 10 fl. oz. cartridge.

08609 ..... 29.99 ea

MADE IN USA

J-B Weld ClearWeld Epoxy

J-B Weld ClearWeld is a multi-purpose epoxy that provides a strong and lasting bond on most surfaces including tile, most plastics, ceramic, glass, wood, and metal. Sets in 5 minutes, cures in 1 hour. Cure color is clear. Made in USA.

Shallow 7" LED Headlamps

JW Speaker Model 8730 Shallow 7" round LED Headlight will effectively light your way during the night and enable safe driving while giving your vehicle a signature look. They are designed to fit in vehicles that are tight on space and require a shorter depth than standard headlights. Dual Burn® technology combines high and low beam when turning on your high beam for an extra punch of light down the road while maintaining the widespread of the low beam. ComfortLite® technology provides a more powerful punch down the road but also delivers additional illumination above the horizon.

DP901

OE Style LED Projector Headlamps

Dapper Lighting LED projector headlamps provide the classic look while substantially upgrading the quality and spread of light. If you are looking for stock replacements, you can't go wrong with the OE7 or the OE5. The OE7 delivers up to 3X more light than a traditional H4 conversion, 65% less draw than a sealed beam. OE7 headlamps feature day-time running/park lights. and measure 3-1/2" deep. The OE5 is designed to retain the stock appearance of a factory H4 bulb while delivering up to 300% more light with 65% less draw than a sealed beam. They feature an advanced passive cooling system, adaptive power control, and progressive low/high outputs for increased longevity, performance and visibility.

LED7 Projector Headlamps

Dapper Lighting 7" LED projector headlamps provide the classic look while substantially upgrading the quality and spread of light. These replacement bulbs feature OE style glass lenses, Bi-LED projectors, and a slim flat base design (3.2" deep without bulb). These features eliminate the extra wiring and bucket modifications associated with HID lighting. They offer a quick and clean install and a significant increase in performance, reliability, and safety. Available with chrome or black housings and with or without halos. The halos are available in solid, dashed, and HDR styles.

Note: RGB halos require a controller sold separately.

Round Headlamps with LED Halo

RedLine LumTronix headlamps allow 50% more light to shine through thanks to their crystal clear lenses and a special side lens that extends past the retaining ring. This side lens is a true a safety innovation and was designed to provide additional side light and increase visibility. Each headlamp features a Euro style diamond cut reflective base, diamond crystal glass, and a heat resistant composite housing. Even though no paint or tint is applied to the glass or reflector, the Black Illusion headlamps look blacked out when off thanks to the halo and lamp shields that are painted black. Headlamps are available with or without a halo, either single color halo (white) or multi-color halo (with 16 selectable colors plus the ability to adjust brightness), with or without turn signals and your choice of clear or blue H4 Halogen bulbs or H4 LED bulbs. The halo or "Angel Eyes" can also be wired as a daytime running lamp and features 23 low temp LEDs with a 100,000+ hour life, along with "fade", "flash", "strobe", and "smooth" modes that you can choose with the included wireless remote. Headlamps plug directly into your stock harness for a simple and easy installation. Each pair includes: 2 headlights, 2 bulbs, dust boots, ceramic tip pigtail harness adapter, and instructions. Multi-color halo sets also include the RGB harness and wireless remote.

Important: *Will fit most vehicles (cars, trucks, motorcycles, and motor homes) made from 1936 to 1979, as well as many vehicles made after 1979 that use a universal round style headlight.*

Note: *Blue Halogen bulbs are blue in color when off, and bright white when on (no blue tint). Clear Halogen bulbs are clear in color when off and bright white when on. LED bulbs include colored film to change the look and temperature color of your lights.*

H4 LED Headlight Bulbs

Upgrade your stock halogen bulbs with a pair of premium LED headlight bulbs from Redline Lumtronix. With a 50,000 hour lifespan, you won't have to change the bulbs as frequently, meaning you'll spend more time on the road than in the garage. Each bulb is 300% brighter than your stock halogen bulbs as well as a direct fit, "Plug and Play" upgrade that requires no modification to your electrical wiring. LED bulbs include colored film to change the look and temperature color of your lights.

EH002

Headlamp Wiring Harness Upgrade

Redline Lumtronix wire harness kit upgrades the stock headlamp wiring on your vehicle to provide your new bulbs with maximum power and decrease the chance of overloading the stock wiring and connectors. Power will be drawn directly from your battery, eliminating voltage drops and ensuring headlamp system reliability. The upgrade kit installs easily in 5-10 minutes without any cutting or splicing. Simply plug into your factory headlamp sockets, attach positive connectors to battery terminal and ground wires to the body of your vehicle. Two 30 amp relays provide added protection for your headlamp switch and wiring harness.

30817

Halogen Headlamp Harness

To get maximum power from your headlamps, it is recommended to have the shortest possible distance between the power source and the bulbs. Resistance in small gauge wire or in the switch will lower the output at the lamp. Be Safe! Our headlamp harnesses draw power directly from the battery, through a relay, to the headlamps, providing full power to your Halogen sealed beams. They can also be used to relocate headlamps to a remote location. They are made with TXL high temp wire, weather resistant 30 amp fuse, and two 40 amp weather resistant relays capable of handling up to 150 watts. #30816 is for use on vehicles with a 2 headlamp system using dual filament sealed beams. #30817 is for use on vehicles with a 9005 and 9006 bulb on each side.

Electronic LED Lamp Flasher

Electronic LED flasher (advanced) is a simple replacement and upgrade for standard flasher relays. This electronic LED flasher is recommended for use with LED taillights. Two flashers are recommended, if you are installing both LED taillights and LED front lights (turn signals etc.)

UFM10	universal		34.99 ea

B6207

F90652

LED Lamp Flasher

Due to the lower current draw of LED lamps, these electronic 12 Volt flashers are recommended for vehicles equipped with LED lamps. Available in 20 amp or a 25 amp. 20 amp available in two or three prong type.

Important: *If installing LEDs on both the front and rear, two flashers are usually required.*

Note: **Includes reverse polarity adapter.*

Adjustable Hood Prop

Constructed of high-quality aluminum and stainless steel, these adjustable hood props offer great looks as well as functionality on your ride. When the hood is raised, the hood prop will automatically lock itself into position. A quick release allows the hood to be opened to its max for easy engine access. A three position and a six position option allows the hood to be set at various levels. Each level of the 6 position prop increases the opening of the hood by approximately 6". Each level of the 3 level prop increases the opening of the hood by approximately 12". They also works great for cooling your engine in the staging lanes.

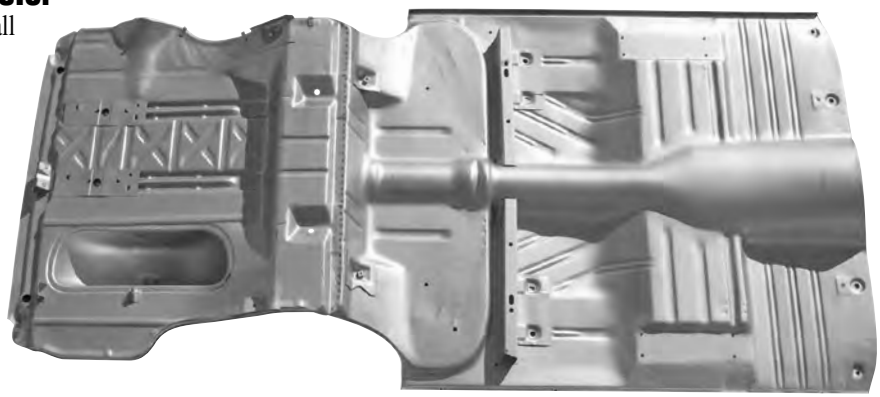
WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

Important Information Before Attempting to Install Sheet Metal!

Regarding Minor Imperfections in Panels:

The sheet metal you receive may have scratches, dings, small dents and other minor imperfections which are considered normal sheet metal characteristics due to the nature of the product. These minor imperfections will be easily corrected during the filling, priming, and sanding phase of your sheet metal installation. Classic Industries® does not consider dings, scratches, minor dents or other imperfections on the sheet metal to be defects in the panel nor are they considered damaged. All sheet metal panels will require some sort of preparation and manipulation during installation. Every panel that we sell is inspected and then carefully packaged to protect against damage that may occur during transit.



Test Fit All Panels Prior to Paint and Installation:

Classic Industries® recommends test fitting all sheet metal panels prior to final paint and installation. Minor modifications including elongating mounting holes, adding additional shims, etc. are normal and may be necessary when installing sheet metal. It is important to note that hard driving conditions, like racing, can twist bodies and frames out of original tolerances. Poor body work from previous collisions can cause problems with the body structure that the panels are attached to. Some vehicles were manufactured with a unitized body (no frame) thus causing even the most minor accident to twist the body creating a situation that would cause sheet metal panel misalignments. Take into consideration that tolerances on classic vehicles are not nearly as exact as they are on modern vehicles. This is primarily due to the hand fitting of panels at the factory on most antique and classic cars as opposed to the robotics used in today's modern factories. All of these factors will affect the way your new reproduction sheet metal will install and fit on the car. There is really no such thing as a direct fit body panel when it comes to older vehicles.

Returns and Defects:

Prior to returning any defective body panel or sheet metal item to Classic Industries®, please contact our customer service department. Classic Industries® will not replace a panel, nor will we be responsible for freight on returns should it be deemed that the panel is not defective. See policies for more information.

For Best Results, Hire a Professional to Install the Panels:

Classic Industries® recommends that you hire a professional paint and body technician that has the skills, knowledge and experience necessary to install the new panels on your vehicle. A professional body technician will be able to prepare the panels for installation and repair any imperfections.

When Welding Sheet Metal Products . . .

Save time when replacing sheet metal by using Classic Industries® new, innovative "Weld-Thru™" primed sheet metal products. Our all new coating process is designed to eliminate the unnecessary process of grinding or sanding the EDP coating off to ensure a solid and rust free weld. This "Weld-Thru™" Primer requires minimal preparation and eliminates corrosion problems between overlapped panels and layered spot welds. It also minimizes heat zone problems, reduces panel distortion, and allows better penetration into the dense replacement steel to compensate for the older metal's impurities. Look for the "Weld-Thru™" logo when purchasing sheet metal products to save time during installation of weld-on sheet metal repair panels.

Some Guidelines on EDP Coating

Many sheet metal products are delivered with a black electrophoretically deposited coating (EDP, or E-coat) for superior long-term corrosion protection, while others use a similar lacquer based coating designed to provide protection for storage and shipping. Before panel installation, Classic Industries® recommends applying lacquer thinner with a shop towel to determine the type of coating. If the coating is removed by lacquer thinner, then it should be completely stripped from the product before any primer or paint is applied. If the lacquer thinner does not remove the EDP coating, it can simply be prepped, primed and painted without stripping.

Classic Industries® The Restorer's Choice™

Count on the Classic Industries® Restorer's Choice™ symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. Products denoted throughout the catalog with this symbol are officially approved by Classic Industries® as a genuine restoration product. Look for the Restorer's Choice™ logo. The Classic Industries® symbol is your assurance of quality.

Made in the USA

Look for the "Made in USA" logo for products that are proudly manufactured in the United States.

K86130

MADE IN USA

OER® Trunk Spatter Paint

Restoration grade spatter paint for the discriminating restorer who wants to accurately replicate the original texture and finish in their trunk. Produced by the original manufacturer for an authentic texture and color match. These water soluble paints are designed to be applied with a paint gun and do not require a clear coat. One quart required per vehicle. Includes instructions.

Important: GM originally applied trunk spatter paint with a Binks 2100 gun with a 200 tip and a 66 fluid nozzle with an internal mix air cap.

www.P65Warnings.ca.gov

Sheet Metal Tools

Blaircutter

When you don't have a lot of holes to make, Blaircutters provide fast, accurate holes in materials up to 3/16" thick. Blaircutters are annular cutting tools that cut around the edge of the hole and eject the center as a slug. Because they're hollow there's no dead zone as with twist drills. And unlike hole saws, that rip and tear through the material, they quickly give you a quality, virtually burr-free hole. Sold individually.

Note: D.O.C = depth of cut. Arbors and Cutters sold separately.

Arbor for 1/4" and Larger Chucks

132121	5/8"	23.99 ea

Premium Spotweld Cutters

When you have a lot of spotwelds to remove, step up to the premium spotweld cutters for longer life in today's high strength body steels. These cutters have a heavier wall (.090") for extreme durability and two step geometry that splits the chips and helps clear them. Premium spotweld cutters have a fast cutting action and lasts for hundreds of spotwelds. They are for use in 3/8" or larger drill chucks. The spotweld cutters are available individually or in sets containing arbor, 3 cutters, your choice of 2 skip proof or 2 standard pilots.

Stick Lubricant

Ideal for all Blair hole cutters. Softer than standard stick lubricants, it provides superior adhesion to the tool and can be used in place of cutting fluids on ferrous and non-ferrous metals to increase tool life, improve cutting performance and easier slug removal.

11750	1.68 oz.	12.99 ea

Double-End Spotweld Cutter

Double-end spotweld cutters makes removing body panels fast and easy. Their hollow design cuts around the spotweld so weld hardness does not affect tool sharpness. When one end becomes dull, simply unscrew the cutter and flip it over using the new teeth on the other end. An adjustable depth rod sets the tool so only the outer panel is cut, leaving the underlying panel undamaged.

Holcutter

Produce holes 3 times faster and cleaner than hole saws in sheet metal up to 1/8" thick and have dramatically extended tool life. Holcutters produce holes from 11/16" up to 3" diameter in sheet metal, rubber, gasket or fiber materials, and some plastics. Ideal for aftermarket installations, custom fabrication, trailers, or gauge installation. Arbor fits 3/8" drill chucks. Holcutters have a new, patented Quad-Lead Thread System for quick cutter changes. Buy the set and save! Holcutter set includes: arbor, hex washer, extra pilot and the following sizes of cutters, 7/8", 1-1/8", 1-1/4", 1-3/8", 1-3/4", 2", and 2-1/2".

Note: D.O.C = depth of cut. Arbors and cutters sold separately.

11083	1/4", 3/8", 1/2", and 3/4"	48.99 set

Rotabroach Cutter Set

Rotabroach annular cutters are ideal for sheet metal fabrication, paintless dent removal and for cutting rustproofing access holes without clogging. Unlike hole saws and twist drills that push and tear through materials, these cutters will make hundreds of holes in steel, sheet metal or plastics up to 1/2" thick with no deforming of stock, jagged edges or out-of-round holes. Arbors for Rotabroach cutters fit 3/8" and 1/2" handheld drill chucks and use either spring loaded pilots or skip proof pilots which eliminate predrilling operations. Each set includes: arbor, Hex wrench, center punch, extra pilot, and a variety of cutters as listed.

Note: D.O.C = depth of cut. Arbors and cutters sold separately.

Body Tools

The Filler Detective

The Filler Detective will find hidden body damage and body filler on a car, truck, or motorcycle. It will tell you where body filler is and how deep it is. This simple 1 button tool lights up and sounds when it detects body filler and features a visual alert with bright, daylight visible LEDs. The meter doesn't miss and it indicates exactly where the body filler is and includes a test plate to confirm accuracy. Never again wonder whether or not a vehicle has been in a wreck! The Filler Detective solves the mystery every time.

FDA0100 red ..... 79.99 ea

EZ Rest Door Hanger

The EZ Rest door hanger enables a single person to quickly remove and/or install vehicle doors. The padded, removable side rails and plastic, ribbed base inserts allow for accurate positioning of the door. The easy on/off design quickly adapts to most floor jacks with a removable saddle and 30mm (1.18") diameter saddle hole.

Note: *Floor jack is not included.*

S21870 ..... 179.99 ea

Door Spring Tool

Compresses spring for easy safe removal. Slides safely over spring. Constructed of heat treated, high carbon steel.

S21900 ..... 25.99 ea

Door Hinge Adjuster Tool

You can now easily adjust the hinges without the aggravation of trying to align by eyesight with this handy tool. Specifically designed to help adjust the hinges so they help to align the door.

Y65800 ..... 52.99 ea

Door Hinge Pin Popper

The ultimate solution for removing door pins fast. Drives out even stubborn hinge pins. Works on most GM vehicles with removable hinge pins. Includes pin puller to remove loosened pins.

S21835 ..... 43.99 set

Door Bushing Tool

If you've ever tried removing a door hinge bushing with just a regular punch, you know it's a hassle. This tool makes it easy to punch out bushings and align bushings when reinstalling. Offset design allows for easy access to all door hinges.

S21825 ..... 20.99 ea

Door Aligning Bar

Finally, a convenient door aligning tool that will fit in your tool drawer! Features a Hex stub to use with a breaker bar and socket for additional leverage.

S21845 ..... 46.99 ea

Pro Paint Gauge

The Pro Gauge is a device which measures paint thickness. Factory paint is usually four to five mils in thickness. By using the Pro Gauge you can determine if the vehicle has been repainted. For instance, you can take measurements of about 4.5 mil around the vehicle but the hood may read seven mils on the Pro Gauge. That tells you the hood has been repainted.

PG2437 ..... 84.99 ea

Eliminator Rust Remover

Before touching up paint, you first must remove all rust, wax, and dirt or the rust will return and the paint won't adhere. This unique tool will scrub away all dirt, rust, and wax. The results are touch up paint adheres, seals and blends smoothly into the rest of the paint.

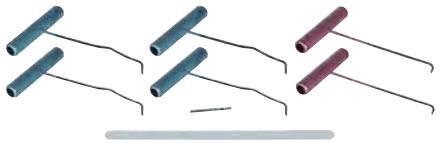
E3437 ..... 9.99 ea

Spot Weld Chisel

Chisel tool to separate panels after the spot weld has been drilled out. Drive the blade with a hammer from the end or the side through the panel seam. Panels are separated without damage. The blade is sharpened on three sides, and offset for clearance.

Note: *The sharpened edges will wear with use. Resharpen on a grinding wheel.*

Y51900 ..... 15.99 ea



Body Dent Removal Tools

The pull rod set includes: 4 pull rods with formed shank, 2 pick pulls with straight shank, straight edge and HS split point drill bit.

S20000 pull rods ..... 47.99 set

X9858

Cleco Sheet Metal Fastener Kit

Everything you need to secure sheet metal panels during the fit and alignment stage. The pliers can be used with all standard spring loaded fasteners and clamps. The kit contains: one pair of Cleco pliers, twenty-five 1/8" Kwik-Lok Clecos and four side grip fastener clamps. Also available are individual components so you can add to your kit as necessary.

Body Chemicals

BlackTop Top Coat

BlackTop is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal or any other paint/primer application. BlackTop is a high-performance protective coating specifically formulated to withstand dulling and fading caused by prolonged sunlight exposure. BlackTop may be used alone as a resilient coating but offers the ultimate rust protection when used in combination with the RustSeal corrosion barrier coating as step 1. For the best stop rust and ultraviolet protection, first apply RustSeal to permanently seal the surface and then top coat with BlackTop for an incredibly tough and professional looking finish. Like RustSeal, BlackTop dries to a rock hard yet flexible coating that can be readily applied to chassis, coil springs, and lightweight panels. BlackTop also has high heat resistance and can be applied to almost all automotive applications except exhaust systems. BlackTop is intended as a final finish for parts that have been coated with RustSeal. BlackTop will retain its color and sheen even after repeated or prolonged exposure to direct UV light and will not degrade.

1955-57 SB Power Steering Pump Set

Replacement power steering pump set for 1955-57 models with small block engines. Replaces the factory power steering pump and generator assembly when upgrading to an alternator. Fits small block with front mounts, short water pump, and small balancer. Includes: remanufactured pump with new reservoir and cap, new pulleys, brackets belts, and hardware. Compatible with original style power steering, 605 steering boxes, and rack and pinion conversions.

TF500124		short water pump	319.99 ea

TF500091

1955-57 500 Series Power Steering Set

The 500 Series power steering boxes are key components to a high-performance modern style power steering system. An open centered, rotary type valve provides smooth operation throughout the steering range while retaining excellent road feel. The late model internal steering components are like having rack and pinion steering in a compact, easy to replace steering box! The steering box has a 1 piece housing, which eliminates the need for an additional conversion mounting bracket and is an easy replacement for the factory manual steering box or the outdated 605 power steering box. This box works with the factory pitman arm, uses inverted flare hoses (pressure fitting is 7/16" tube – 11/16"-18 inverted flare; return fitting is 3/8" tube – 5/8"-18 inverted flare) and uses 3/4"-30 splined steering coupler. Sets include: 500 Series steering box, power steering pump, pump mounting brackets, and power steering hoses. Comes finished in black.

OER AUTHORIZED

Small Block Power Steering Pump Bracket

This convenient 1/4" steel power steering bracket set is designed for mounting non-metric GM Saginaw power steering pumps, with integral reservoir, to small block Chevy engines. Can be used on most pre-1969 pumps, as well as later model V8 pumps up to 1985, with either a single or double groove pulley. Most short water pump applications use a crankshaft power steering pulley that bolts over the existing pulley. This should align with the power steering pump pulley.

Warning: Regarding Steering Pump Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines that exceed these limits may result in catastrophic failure of the pulley, which can potentially cause severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Be sure to install the pulley properly to avoid damage that can occur from improper installation or exceeding recommended RPM and horsepower limits.

MARCH PERFORMANCE PULLEYS

Chrome PS Pulley Nut

This chrome-plated self-locking nut is designed for aluminum performance power steering pulleys. It can also be used with OE and aftermarket pulleys on Saginaw power steering pumps with a 9/16"-18 threaded shaft.

1955-57 Rack and Pinion with Tilt Steering Column

Flaming River has engineered popular rack and pinion cradle systems for the 1955-57 Chevy. This system replaces the early long shaft steering box with an optional new tilt column. This fixture welded cradle mounts between the frame rails and bolts into the original location. Mounting the rack on the cradle system not only reinforces the chassis, but also increases ground clearance. Requires no suspension modification and installs easily with hand tools. All mounting hardware, pump, bracket, reservoir, and universal joints are included.

Important: *Power steering hoses sold separately.*

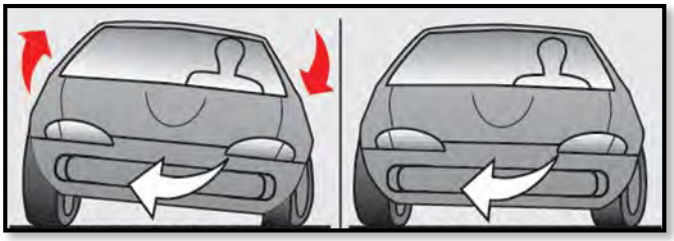
Sway Bar Sets

Sway Bars and Your Tri-Five

Sway bars tie your suspension together to help with body roll when cornering. When turning, the vehicle will "roll" as it transfers its weight to the outside wheels. This causes the front end to "plow" or understeer. An aftermarket sway bar will help keep your vehicle and the load even and assists in steering response. Sway bars sets come complete with everything required for installation. The diagram illustrates the expected effect of installing an upgraded sway bar.



Before *After*

HOTCHKIS SPORT SUSPENSION

H22105F

H22105R

Sway Bar Specs:

Front
1-3/8" tubular steel, 60% stiffer than stock (800 lbs/in).

Rear
1" tubular steel with two adjustment options, 309 lbs/in or 480 lbs/in.

MADE IN USA

1955-57 Sport Suspension Sway Bar

Dramatically improve the cornering performance and traction of your 1955-57 Chevy with the Hotchkis Sport Suspension sway bar package. This performance sway bar package offers fine tunable rear roll stiffness previously unavailable for 1955-57 models. Vehicles with wider rear tires and high horsepower engines will benefit greatly from the stability of this package. Sets include: TIG welded end links with easy to lubricate Polyurethane bushings, premium mounting hardware including stainless steel U-bolts, laser cut axle mounts, Polyurethane bushings, Grade 8 bolts, and gloss black powder coated finish for durability. Made in USA.

Important: *Minor frame drilling required for rear sway bar installation.*

Sway Bar End Links

Front sway bar end links maintain a tight hold between your sway bar and the rest of your suspension. A sway bar is designed to react to changes in the roll of a vehicle. If the sway bar isn't connected with rigid sway bar end links, it will not perform effectively. A soft sway bar end link means that your vehicle has to roll further off center before your sway bar engages. Polyurethane sway bar end links will provide a fast engagement of your sway bar and ensure that your sway bar is working as it was designed to work. Made in USA.

K5706712

K5706722

1955-57 gStreet Suspension

Chassisworks line of bolt-on front suspension systems and components is an excellent choice for improving performance and stance of factory subframe equipped vehicles. Easy install... great results.

Important: Coilover shocks and control arms will lower the vehicle 1 to 2 inches and when used with a drop spindle, the drop could be 3-4 inches total. Also the tire size will affect ride height. Recommend putting stock height spindles on and check the ride height. Positions front crossmember approximately 6-3/4" (+or- 1/2") above ground with 12" rolling radius tire. Available with single (Q1) or double (Q2) adjustable shocks.

Note: Shipped overweight.

1955-57 Chassisworks gStreet Coilover Front Suspension

Includes: VariShock billet aluminum coilovers with 16 position, adjustable valving, tubular upper and lower control arms with bonded rubber or poly bushings, depending upon vehicle application. True coilover shocks with pivot stem top and COM-8 lower mounts, not modified OEM shocks with tapered springs, maximizes shock control and improves response to valve adjustment. Lower A-arms feature dropped mounts, allowing longer travel shocks with additional suspension travel. Ships with powder coated finish.

- HQ Series Shocks.

1955-57 StreetGrip System

This is a direct replacement for factory suspensions without any modifications. StreetGrip System is designed for 1955-57 Chevy models. It is a direct replacement for factory suspensions without additional modifications required. Radical improvement to ride quality and handling performance. Dual rate front and rear coil springs offer ride quality and crisp handling. Delrin front control arm bushings eliminate unwanted movement and static friction in front suspension. Tall ball joints improve OEM camber curve for a more stable feel through the corners. Larger front and rear sway bar minimizes body roll. Delrin sway bar bushings eliminate movement and static friction in the sway bar to improve ride quality and handling performance. RideTech HQ series rebound adjustable shocks offer the ultimate in ride quality and handling performance. Drop spindles allow for lowered stance without compromising compression travel.

Important: Recommend the ridetech bushing installation/removal tool #85000009 for those who do not have a press to remove and install bushings.

Note: Shipped oversize.

1955-57 Pro Coilover Shock System

Coilover shocks are the most tunable suspension you can use, and we offer the best from QA1. Billet shock bodies with a 5/8" chrome steel rod and silver powder coated springs in different spring rates are the ticket. These shocks are fully adjustable with just a turn of a knob in both compression and rebound for full performance tuning. Ride height is also tunable with adjustment rings. A spanner wrench and replacement adjustor ring thrust bearings are available separately.

Important: Must use spanner wrench and thrust bearing set when installing coilover shocks.

1955-57 Stocker Star Shock

QA1 offers Stocker Star shocks in your choice of fixed, single adjustable and double adjustable configuration. The fixed, non-adjustable version is a rebuildable and revalveable shock for the budget conscious owner. The single adjustable shock lets you simultaneously change the compression and rebound with one knob, choosing 18 valving options. The double adjustable shock offers 2 knobs to adjust compression and rebound separately, resulting in 324 valving options to fine tune your ride for any type of driving. All shocks have Polyurethane bushings and are sold individually. Two required per axle.

Note: Some disassembly or modification may be necessary to mount these shocks.

1955-57 Drag Shock

Lakewood drag shocks feature state-of-the-art 10 stage valve design which provides excellent starting line reaction and stable high speed operation, superior to any other shock on the market today. These shocks feature multiple valve stages, as the vehicles speed increases, the characteristics of the shock change. All Lakewood drag shocks will mount in the stock location without modification.

90/10 Series Front – Race Only

Will let the front end rise quickly to provide as much weight transfer as possible to the rear wheels on initial launch. Works best on vehicles where maximum rear wheel traction is required.

Important: Race shocks are not designed for street use.

LW40101 1955-57 front 90/10 Series .. 89.99 ea

70/30 Series Front – Street and Strip

Used for overall improved handling on the strip or when quick front end lift is not needed. Works best on medium to high horsepower vehicles with wide tires and low to medium horsepower vehicles with slicks. This is the perfect shock for vehicles that are driven both on the street and on the strip.

LW40121 1955-57 front 70/30 Series ..104.99 ea

50/50 Series Rear – Street and Strip

Used to properly load the rear wheels and prevent over reaction and wheel hop. This shock is the best overall choice for vehicles that are driven both on the street and the strip. Use with leaf or coil springs.

Features:

- Cost Effective
- Light Weight Design
- Lightning Quick Separation

1955-57 CF Series Front 90-10 Shocks

Calvert Racing Suspensions offers a shock specifically designed for maximum weight transfer. Built with the softest rate on rebound on the market today, allowing the front end of your race car to come up as easy as possible! This equates to better weight transfer and more weight over your rear tires. Dual stage valving on compression allows the vehicle to settle on the top end. Every application is closely evaluated for best length assuring that each vehicle would have sufficient travel for maximum traction. This is a missed area by most manufactures as their shocks are designed after the factory length shocks. Due to a slightly larger diameter shock body, some slight trimming or clearancing may be required on the lower control arm. Sold as a pair.

Note: Not for street use.

CF430931	1955-57	CF series	177.99 pr

Features:

- 9 Way Adjustable
- External Dial for Easy Adjustability
- Cost Effective
- Heavy-Duty Industrial Steel Bodied Design
- Dial Primarily Adjusts Rebound, Enabling Driver to Control Excessive Rear Body Separation

1955-57 CR Series Rear Shocks

The Calvert Racing 9 way adjustable twin tube CR series rear shocks provide the best all around performance and maximum consistency you need. Constructed out of steel with a heavy-duty 5/8" shaft ensures durability in the most strenuous conditions! Shocks can be set for street driving, or with a few turns of the "adjustment dial", your vehicle can be ready for the strip. Sold as a pair.

5803	1955-57	rear	42.99 ea

BN45292

1955-57 Gas Pressure Shock

Bilstein's shock bodies are precision formed through a unique seamless extrusion process for superior strength along with high finish tolerances. The finished body is then mated with a solid, induction hardened steel, chrome-plated and polished shaft, machined valving components and highest quality seals. With extreme attention to detail, Bilstein provides you with the closest thing to a hand built shock available today. Conventional shocks slowly lose efficiency and eventually fail over a period of time causing excessive tire and suspension wear. Bilstein Gas Pressure Shock Absorbers are the least expensive way to dramatically improve the ride, handling and control of your vehicle. With Bilstein's limited lifetime warranty, you may never have to purchase shock absorbers again. Bilstein shocks fit sedan and wagon models, including Nomad.

M12156 1955-57 ..... 1418.99 ea

9" Ford Bolt-in Housing

Moser Engineering uses only the best materials when producing these 9" housings in competitive racing, you can't leave anything to chance. The proper setup using quality high-performance parts is the only way to ensure that the time you spend setting up your vehicle is not wasted. Why waste money on a new engine that could power a rocket to the moon, then turn around and buy an old rusted out rear end that is probably going blow up in the water box? Doesn't make much sense. Our heavy-duty banjos are reinforced in critical stress point areas, thickened up considerably when compared to it's OEM counterpart. New, seamless housing tube is essential in assuring ultimate housing strength, which our 3" diameter tubing is not only seamless, but also a 1/4" thick. We also use newly stamped high strength brackets that are considerably thicker than OEM. Each housing produced includes newly forged housing ends.

Important: *Original, factory style brakes are not compatible with these housings. Aftermarket rear drum or disc brake conversion is required.*

Note: *Special order, must be prepaid. Shipped double oversize.* OS2

9" Housing and Axle Set

This housing is designed and built to go into your muscle car with a minimal amount of effort. It is setup with the Aftermarket Brake Configuration Standard which is: 2-1/2" brake space with late model big Ford housing ends, and a 2.80 center hole in the drum or rotor. Axles include 5 on 4-3/4" bolt pattern with installed 7/16" wheel studs 1/4" thick heavy-duty bearing retainer plates, and tapered Timken set 20 wheel bearings pressed on. Includes: CURRIE "9-Plus" Housing (3" x .188 wall tubing) with brackets and the CURRIE 31 Spline Performance Axle set. Made from USA steel in the USA.

Note: *Shipped double oversize.* OS2

TF591311 1955-57 ..... 1649.99 set

Driveshaft Safety Loop

Required and approved by all major racing sanctioning bodies. This universal driveshaft safety loop is fully adjustable to fit most vehicles. The 4 piece design is manufactured from 1/4" thick, 2" wide mild steel, bright zinc-plated and includes all necessary hardware.

LW18000 all..... 63.99 ea

1955-57 Universal Joint

All 3rd Members Include:

- Nodular Iron "Sportsman" Gear Case w/3.062" Caps
- Nodular Iron Big Bearing Pinion Support
- Nodular Iron 1330 Series Short Yoke
- Nodular Iron Traction Lock, Trutrac, or Detroit Locker
- New Ring and Pinion in These Ratios: 3.00, 3.50, 3.70, or 4.11
- Timken Bearings and Performance Oil Seals
- Professionally Setup, Ready-to-Install

9-Plus 31 Spline 3rd Member

These are built and ready-to-install in your 9" rear end. The Detroit TrueTrac is a helical gear style performance differential that maximizes wheel traction and enhances driving and handling characteristics. The TrueTrac operates as a standard or open differential under normal driving conditions, allowing one wheel to spin faster or slower as necessary. Operation of the TrueTrac is smooth, quiet and automatic. The unit will engage without any driver knowledge or action required. It also has no wearable parts and requires no maintenance, meaning less time in the garage and more on the road.

POWERTRAX No-Slip Traction System — LOCK RIGHT

Positive Locking Differential

The Lock Right system offers a revolutionary design that is exceptionally rugged and yet ingeniously simple! Just replace the existing spider gears with a pair of Lock Right driver and coupler gears in your existing stock, open differential assembly. Installs in 1-2 hours. No extra modification or setup since the ring and pinion gears are unaffected and no special tools, calibration equipment or fixtures are needed! Made in USA.

Important: *Not for use with positraction or Limited-Slip differentials, use in stock, open differentials only.*

- 7", 8", or 9" Single or Dual Diaphragm Booster
- Front Drum/Rear Drum
- Front Disc/Rear Drum
- Front Disc/Rear Disc

Single or Dual Diaphragm Booster/Master/Prop Valve Combo

These all-new single or dual diaphragm brake booster/master cylinder/proportioning valve combinations mount up close to the firewall for added valve cover clearance and improved pedal ratio for full use of master cylinder travel, which means a higher, firmer, and safer pedal. Available in original style gold cadmium finish or chrome-plated finish.

Important: *Units for vehicles with front and rear drum brakes do not include proportioning valve, bracket, or lines.*

Universal Brake Combination Valve

GM prop valve set for disc/drum or disc/disc setup. Sets include: proportioning valve mounting bracket and left side mount lines. For use with 9/16" and 1/2" ports master cylinders. Disc/drum includes: two 3/8"-24 ports for the front brakes and one 9/16"-18" port for the rear. Disc/disc includes: one 1/2" port for the front brakes and one 9/16"-18 port for the rear. Both include dash warning light connector.

PV49200C	universal	chrome	79.99 set

New!

Disc/Drum Brake Proportioning Valve

This universal brake proportioning valve kit is designed to replace a missing or damaged factory proportioning valve on models with disc front and drum rear brakes (dual reservoir master cylinder). Combination valve kit is a necessary item when installing a disc brake conversion kit in a classic car. Includes: proportioning valve, mounting bracket, adapter fittings, warning switch pigtail, instructions, and a special tool to help bleed the system.

2B091C	universal.....	136.99 ea

New!

1955-57 Chrome Proportioning Valve

Chrome proportioning valve for disc/drum conversions or replacement of defective valve on disc/drum brakes.

TF500239	1958-77	chrome.....	130.99 ea

- Rotary adjustment to regulate pressure
- Five 3/8" ports
- Two Front ports
- One Rear port
- Two Ports feed master cylinder
- Five 3/8"-24 brake line fittings
- Brake light sensor wiring pigtail

Universal Adjustable Combination Valve

Universal adjustable brake combination valve. Features a rotary adjustment to regulate brake pressure. Includes five stainless steel fittings for 3/8" brake line, brake light switch, wiring pigtail, and residual valves where applicable.

Note: **With residual valves.*

PB1109	valve only	70.99 ea
PB1110*	with drum/drum	95.99 kit
PB1112*	with disc/drum	95.99 kit
PB1113*	with disc/disc	85.99 kit

Proportioning Valve

Precision proportioning from 100 to 1000 psi. At full release, valve is capable of up to 57% reduction in line pressure. The new smaller body accommodates easy mounting in a variety of locations in conjunction with two .25" diameter holes on 1.00" centers. Standard 1/8"-27 NPT inlet and outlet ports and two 1/8"-27 NPT to 3/8"-24 inverted flare brake line adapters included makes installation simple.

2608419	knob style prop valve	48.99 ea

New!

Adjustable Proportioning Valve

The PROP-BLOCK is a precision-machined combination distribution block and adjustable proportioning valve in one. The valve connects to the master cylinder and distributes brake fluid to all four wheels, while the adjustable proportioning valve regulates rear brake pressure, maintaining correct brake bias between front and rear brakes. A built-in switch activates brake lights when brake pedal is depressed.

Important: *This is not a direct factory replacement for original blocks and some line modifications may be necessary.*

APVDB	black anodized finish.....	94.99 ea
APVDBC	chrome finish.....	104.99 ea

Universal Proportion Valve Block

Universal proportion valve and distribution block all in one. Features a rotary adjustment to regulate rear brake pressure and help maintain correct brake bias between front and rear. Distribution block connects to master cylinder and distributes brake fluid to all four wheels. Includes five stainless steel fittings for 3/16" brake line, brake light switch, and wiring pigtail.

PB1107	without lines & bracket	70.99 ea
PB1108	with pre-bent lines & bracket	116.99 kit

Residual Pressure Valve

A 2 pound valve is used in disc brake systems where the master cylinder is mounted below the horizontal plane of the calipers and fluid drain back occurs from gravity and vibration, thereby causing excessive caliper piston retraction and a longer brake pedal stroke. A 10 pound valve is used with drum brake vehicles to compensate for return spring tension in the drums. Fittings are included.

2 Pound Valve – Blue

26013783	with fittings.....	22.99 ea

10 Pound Valve – Red

26013784	with fittings.....	22.99 ea

New! OER AUTHORIZED

Universal Residual Pressure Valve

Residual pressure valves retain a minimum brake line pressure to help eliminate excessive pedal travel in both disc and drum brake systems. The 2 pound valve is used in disc brake applications where the master cylinder is mounted below the horizontal plane of the calipers. With drum brakes, a 10 pound valve is used to compensate for return spring tension and maintain wheel cylinder sealing in the drums. Residual Pressure Valves are made from billet aluminum and color coded for easy identification. Valves with fittings are supplied with two 1/8-27 NPT to 3/-24 inverted flare female fittings that will fit most domestic 3/16th hard brake line.

2 Pound Valve – Blue

Push Button Parking Brake

The E-Stopp is the perfect E-brake for stock or custom vehicles. It not only frees up room on the chassis and in the cab but doubles as an anti-theft device when the button is hidden. It works with any kind of brake system that can accept an E-brake cable. Includes the actuator, the control box with switch and wire connectors. It replaces hand, pedal, or lever brake and mounts conveniently under the vehicle's carriage. The E-Stopp® attaches directly to your current E-brake cable and has a micro-computer that regulates the proper amount of pressure to your braking system – it will only pull up to 600 lbs before its locked down. The detachable head button allows for an easy install and for visual and audible recognition. For safety, the brake is inoperable while the ignition is on. It can be hooked up to the parking brake warning light. Made in USA.

***Important:** If your brake cables are old, we recommend purchasing Lokar's Universal Rear Parking Brake Cables. You have a choice of a black housing BC80B or a Stainless Steel Housing BC80. It will make the installation easier and cleaner.*

BP-10 Brake Pads

Wilwood's exclusive BP-10 is a type of metallic composite friction pad compound. BP-10 exhibits the medium to high temperature friction characteristics of a semi-metallic based race compound with the low temperature response, quiet engagement and lowered dust levels normally associated with ceramic based street performance pads. The combination of these characteristics make it the perfect choice for your street machine, auto crosser, or drag racer.

Replacement Calipers

Big Bore Caliper Set

All new design to replace the popular small piston GM metric (S10) caliper. The bore size has been increased (2-3/4" piston) to offer more than a 20% increase in stopping power. This new caliper is universal and can used on the left and right sides. The casting has been cleaned up to make chrome, powder coat, or custom painting look even better. This caliper is lighter, stronger, has more stopping power, and fits any application that uses the small GM metric (S10) caliper. Calipers have all new parts, loaded with standard D154 brake pads, clips, slide pins, banjo bolts, washers, and bleeder screws (banjo and bleeder are 10mm-1.50). These calipers can replace D154 type GM metric calipers (1978-88 mid-size and 1983-02 S10) included on most Mustang II conversions. These are included in CPP Big Bore Caliper Disc Brake Conversions.

Note: Mounting pin to mounting pin is 5-1/2".

7" D52 Front Caliper Set

Brand new reproduction (not rebuilt) brake caliper that was factory-installed for many years on a wide variety of GM mid-size vehicles. This caliper will fit any bracket/spindle designed for the large GM calipers with the 7" mount width. Features include a 7/16"-20 inlet so you can use the readily available brake hoses and hardware from Pre-1978 GM midsize models. Come loaded with D52 style GM brake pads. Sold as a pair.

Note: Depending on the spindle and rotor size it will not fit most applications running 14" wheels, nor will it fit on most 15" drum brake wheel applications.

Hi-Temp Wheel Bearing Grease

When replacing or just repacking your wheel bearings, don't use ordinary grease. Protect those bearings with a high-quality, high temperature bearing grease. This is a very stable aluminized complex thickened grease used for the lubrication of wheel bearings, chassis ball joints and other bearing applications operating under severe conditions. This product assures high temperature protection from excessive heat generated by disc brakes. Also pickup the perfect tool for the mechanic who is tired of packing bearings by hand. This universal bearing packer works on most cone type bearings.

7/16"-20 High Crown Chrome Acorn Style Lug Nut Set

Reproduction early design high crown acorn lug nuts used with all 1967-81 Pontiac Rally I wheels, Rally II or Honeycomb wheels. Also used with 1969-70 Chevrolet SS Style and 1970-81 Z28 5-spoke wheel as well as Magnum 500 wheels and other popular wheels of the era. The design of the nut has been improved for longevity. Rather than having a chrome or stainless steel cap as originally designed, this nut is solid in design to prevent splitting or damaging the nut when using an impact wrench to tighten lugs. Sold as a set of 20.

OER

"Hex Style" Wheel Center Cap

Designed exactly like the original as a two piece screw-on style cap that includes the ABS center cap, steel retainer and Phillips head screw. Originally installed on American Racing wheels of the 1960's and 70's including the 200S Daisy wheel, T70, and T70R 5-spoke alloy wheels, but they may fit other aluminum wheels of the era that have a 2-1/2" center bore. Center caps are sold individually. 4 required per vehicle. Cap will accept a 1-3/4" emblem.

S/S Super Sport Wheel

The Cragar S/S wheel was first introduced in 1964. By 1974 the Cragar S/S had become one of the most popular wheels of the muscle car era. Because it was chrome-plated rather than polished aluminum, it held its shine and was easier to keep clean. Instead of requiring time consuming polishing, the Cragar S/S was ready to show with a simple hosing off and wiping down. Available in a variety of sizes and configurations, these wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their vehicle "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Cragar 32 Series Keystone Klassics

If your vehicle is a 1960-70's model, chances are it came with narrow wheels and tiny bias ply tires. By the mid-1960's, aftermarket wheel swaps were commonplace among car enthusiasts. One of the most widely chosen aftermarket wheels available during the muscle car era was the Cragar Keystone Klassic. Popular for their composite design, the chrome-plating on the Keystone Klassics made them much easier to clean than aluminum or mag wheels because they required no polishing. Cleaning them was a breeze by just hosing them down and wiping them off. These wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their car "period correct". Chrome center cap is included with each wheel. Lug nuts sold separately.

Cragar 390 Street Pro

The style of the Cragar Street Pro is reminiscent of the Halibrand Sprint which was made famous on the circle track cars of the 60's. The similarities stop there, however. Unlike the Halibrand which was made of magnesium and required constant polishing to retain its shine, the Cragar street pro is manufactured of a chrome-plated steel rim with a chrome-plated aluminum center. The price of original 60's era Halibrands has been pushed up by collectors and the new Halibrand wheels are also very pricey. So, if you'd like the look of a legend at about 1/4 of the price, the Cragar Street Pro is definitely the way to go. Chrome center cap is included with each wheel. Lug nuts sold separately.

center cap detail

American Racing Outlaw

In the 1980's the modular wheel became the hot ticket on any late 70's or 80's muscle car. The wheels were called modular because they consisted of 3 elements: an aluminum wheel center (in various styles), an inner rim, and an outer rim. The combination of these "modules" allowed for an unlimited range of possibilities when it came to wheel specifications. The true modulars, however, where a bit pricey for the average Joe. This soon led to an influx of modular copies and 1 piece wheels built with a modular look. This modular style wheel is manufactured by American Racing. It comes clear coated and includes center cap. It's a good choice if you're looking for a period correct wheel design at a great price.

MADE IN USA

1955-57 Extreme Series Cooling System

These Be Cool Extreme series cooling system modules offer the ultimate in fit, finish, and performance. At the heart of every module is a direct fit, dual core, crossflow radiator sealed with a machined cap and mounted in an exclusive aluminum core support. A hand fabricated aluminum overflow tank and matching windshield washer fluid reservoir are mounted on either side. Air is pulled through the radiator by two high torque electric fans with machined motor covers and mounting brackets. These modules come pre-assembled with stainless steel hardware and includes a fan wiring harness with temperature sender and waterproof 40 amp relays. Designed to cool engines producing up to 700 horsepower and comes fully polished.

Note: Modification to upper and lower hoses and transmission lines required for crossflow upgrade. Short water pump required. Shipped truck freight. TRUCK

"Liquid Chill" Engine Coolant and Additive

Mishimoto's Liquid Chill is a universal, synthetic coolant that will provide premium cooling and protection for your vehicle. Liquid Chill protects from boil over to 265 degrees F and from freezing down to -26 degrees F, inhibits corrosion, and reduces operating temps. Made with propylene glycol base and unique poly organic additives to allow for extended life of 2+ years or 250,000 miles before needing service in gasoline applications. One gallon jugs are available in full strength formula or 50/50 blend. For up to 30 degrees F cooler over just coolant alone, the universal Liquid Chill additive is available in 4 oz. bottles.

Super Coolant

ROYAL PURPLE SYNTHETIC OIL

Purple Ice is a high-performance, synthetic, radiator coolant additive. It reduces engine heat by reducing the surface tension of the radiator fluids for improved heat transfer. Purple Ice fosters optimum coolant flow by helping to prevent formation of scale deposits in the radiator. Purple Ice is recommended for any water/glycol pressurized cooling system, including those using the traditional green silicate based glycols or the newer OAT or HOAT based glycols.

Stainless Steel Flex Fans

Flex-a-lite fan blades are designed to flex or flatten out as the RPM's climb, helping to reduce engine drag for better performance and improved fuel economy. Fan features a premium, high tech silver coating that won't degrade or lose its luster in the harsh environment of an engine compartment. Available in standard or reverse rotation along with four different diameters and six or seven blades.

Important: *Must be used with a Flex-a-lite spacer or warranty will be voided. Fans features 5/8" pilot hole with a 1-3/4" to 2-1/2" slotted bolt pattern.*

Syclone Electric Fan

The amazing Flex-a-lite Syclone electric fan is the most efficient S-Blade fan blade on the market! This quiet fan mounts to the core and can be used to push or pull air through the radiator. The higher torque (17 amp) motor produces 2500 cfm of air flow, making these fans strong enough to replace your belt driven fan and fan clutch to gain more horsepower and torque. The sweep style blades squeeze out the maximum air flow possible. 16-5/8" x 15-3/4" x 4" mount. Universal mounting brackets are included.

FL398	16" fan	176.99 ea

Black Magic S-Blade

If your vehicle is still running the factory engine driven fan, you're losing vital horsepower and not even getting the full cooling effect you should! By replacing your engine driven fan with an efficient electric unit, you can reduce unneeded drag on your engine to free up horsepower and improve your fuel economy. An engine driven fan can cost up to 17 HP to operate! This universal fit Flex-a-lite electric fan features computer engineered blades that are extremely quiet and efficient, and moves 3000 cfm of air to provide consistent cooling, regardless of engine RPM. Ring fans like this provide better blade support for impact resistance. This electric fan fits vehicles with 16" or wider radiator cores, and requires a mounting surface of 18" x 16" x 4-1/4" for an easy, bolt-in installation. Universal mounting brackets are included.

FL160	.....	319.99 ea

SP2066

30111	185° on/175° off	29.99 ea

Adjustable Fan Temperature Sensor

Turn your electric fan on at whatever your desired temperature is with this adjustable temperature sensor. Sensor adjusts from 180-240 degrees F and helps prevent overheating in performance vehicles when driving at low speeds or when idling for long periods.

346932	180-240 degrees F	109.99 ea

SPAL

SP2068

Fan Harness Set

SPAL wiring harness sets are a must-have when installing an electric fan. Designed to safely integrate with OEM wiring harness. Feature a waterproof 40 amp relay, stainless steel switch with optional switched override capability along with printed wires which aid in installation. Thermo switch, fuse holder, connectors 1/2" adapter, and instructions are included.

SP2068	185 degrees	harness	118.99 set
SP2069	195 degrees	harness	125.99 set

New! Northern

Single Fan Pigtail Connector

Single male fan pigtail connector for Northern or SPAL single fans. Required when not using Northern relay harness.

Note: *This same pigtail is included on Northern relay harnesses. Use part #40080 for Northern relay harness.*

Z40079	pigtail connector	9.99 ea

New! PAINLESS

PCM Controlled Fan Relay Set

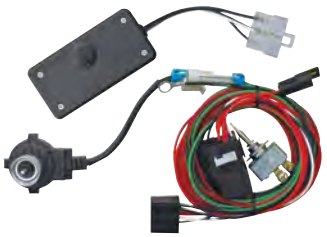
This PCM controlled, weatherproof fan relay set is inexpensive protection for an electric fan and a vehicle's wire harness. Relay activation by grounding the relay coil can be provided by most Powertrain Control Modules. Provides direct battery power, protects PCM from voltage spikes and prevents the fan from back feeding through the vehicle's wire harness.

30133	weatherproof	35 amp	46.99 set

Delayed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

TF900632	shutdown		172.99 ea



Cooling Fan Shutdown

This cooling fan shutdown set shuts down your electric cooling fan above 50-60 MPH to improve engine cooling by preventing the electric fan from fighting airflow through the radiator at highway speeds. The unit is adjustable and may be overridden by using the supplied dash mounted toggle switch. This set is designed to be used with the supplied signal generator which must be installed into the speedometer cable.

TF900627	shutdown		214.99 set

New! Northern

Thermo Switch – Screw-In

Wire your dual electric fan/shroud assembly the easy way with this dual shroud wiring harness with relay and sender specifically designed dual electric fan setups. This wiring harness and relay kit will protect your vehicle's electrical system from the added draw of dual electric fans and proper gauge wiring ensures a stable electrical connection. The temperature switch activates "on" at 185 degrees F and shuts off when the temperature drops to 165 degrees F.

40078	185° on/165° off		114.99 ea

Cooling System

New!

Made in USA

Multi-Fan Controller with Soft Start Technology

Now add the Derale Performance digital PWM Fan Controller with built-in soft start technology. The controller utilizes Pulse Width Modulation to constantly adjust electric fan speeds from 0-100%, maintaining the optimal engine operating temperature. This multi-fan controller has a built-in A/C Over-ride circuit and is designed to control as many 12 Volt brushed electric fans as desired, up to 70 amps combined. Even better, installation and calibration is a snap. It simply wires in-between your vehicle's battery and electric fans.

16797 digital PWM controller ..... 251.99 ea

New!

Variable Speed Fan Controller

Turns your electric fan on and off at your desired temperature. The control is right where it belongs, in your hands Fans turn on at 60 percent power and fan speed increases as the temperature rises. You can easily adjust the activation temperature between approximately 160-240 degrees F. The fan controller includes a 1/8" NPT thread-in temperature sensor with bushing adapter. It features variable fan speed and a 40 amp rating. It works on 12 Volt systems only.

FN4001 with temp sending unit ..... 153.99 ea

Electric Fan Controller

DD2700

Includes a 70 amp relay and will work with your existing water temperature gauge, operating from the temperature sending unit already installed. A dedicated sending unit can be installed for applications without a water temperature gauge. Operating range of 150-250 degrees F and features fully programmable "fan on" and "fan off" temperature functions to suit any application. This also gives you the capability to leave the electric fan operating after the engine has been shut down for a user adjustable period of time. High-quality LED readout displays current temperature readings.

Important: *Must use second relay, either part #DD2701 30 amp relay or DD2702 70 amp relay for dual fan or 2-speed fan operation.*

Made in USA

Adjustable Electric Fan Controller

This Derale high amperage fan controller breaks new ground in the industry of electric fan controllers. A bulletproof design, 35 amp per fan amperage rating, adjustability from 150-240 degrees F, and a die-cast bright finish aluminum cover. It's capable of controlling two separate 35 amp fans at different turn-on temperatures, with only a single probe. The first electric fan will be activated at the temperature set by the user followed by the second electric fan when the temperature becomes 10 degrees F warmer. Each electric fan will turn off at 10 degrees F below its turn-on temperature. Includes: wiring harness, fusible link, all necessary electrical connectors, and push-in style radiator probe.

Single Electric Fan Controller

16778 push-in probe ..... 115.99 ea
16779 3/8" NPT thread-in probe ..... 115.99 ea

New!

69599

Electric Fan Controller

Turn your electric fan into a thermostat controlled fan! PROFORM's premium adjustable fan controller make this easy! The thread-in probe can be installed directly into the water jacket of the intake manifold, engine block, or cylinder head. The push-in probe can be installed between the fins of the radiator. Fan activation is adjustable between 150 and 240 degrees F. This fan controller is recommended for race and street applications.

69598 thread-in probe sensor ..... 47.99 ea
69599 push-in probe sensor ..... 46.99 ea

Fan Controller Set

The Mishimoto fan controller set is applicable to any 12V electric fan and includes all necessary components for installation. Features adjustable activation from 150 to 240 degrees F and deactivates once temperatures are reduced by 10 degrees F. This controller includes a built-in AC override feature and is designed for use with 1–2 electric fans drawing a combined 25 amps or less.

153522 probe style ..... 77.99 set

"Ice Box" Cooling Fan Control

Available as a dual fan/ 2-speed fan control unit. The sensor is simply tightened under an intake or water pump bolt. It can then be adjusted to your exact preference for on and off temperature. It is equipped with an AC Request system to turn the cooling fan on whenever the AC Compressor engages (this feature does not have to be used). The dual fan control can operate two fans at different temperatures or a single 2-speed fan at different temperatures. Each unit has a fully adjustable operating range of 140-230 degrees.

Note: *With Walker 2-speed fans.*

TF900635 dual control..... 172.99 ea

MF102

MF100

Electric Fan Controller

These sets are designed to operate Champion or Challenger Series electric fans. Includes: a heavy gauge wire harness, relay, weatherproof fuse, and electrical connectors.

Fixed Switch Fan Controllers

MF102 with 185 degree temp. sender 78.99 set
MF103 with 195 degree temp. sender 78.99 set

Adjustable Switch Fan Controllers

MF100 with adj. temperature switch.. 78.99 set
MF110 adjustable switch only..... 25.99 set

30104

Adjustable Electric Fan Thermostat Set

These sets are designed to allow a wide range of temperature adjustments for your electric fan. The adjustment knob may be used to set a precise temperature desired for fan activation. The mounting bracket is made of brushed stainless steel for good looks and durability. The complete set includes the thermostat with bracket, a 30 amp relay, a 30 amp circuit breaker for overall protection, wiring, terminals, and mounting hardware.

Specs on Adjustable Fan Thermostat:

Temp range - 32 degrees to 248 degrees F
Accuracy: +/- 7.3 degrees F
Differential: 7.3 degrees +/- 3.6 degrees F

Important: *Temperature refers to the temp of the capillary tube, not the coolant temp.*

1958-68 High Volume Small Block Short Water Pump

High-performance, high volume aluminum water pump features balanced distribution and improved efficiency with close tolerance impellers that increase coolant flow over stock pumps. This increases the pressure within the block to help prevent hot spots and steam pockets, as well as improves coolant flow through the radiator. When used with a non-restrictive, high flow thermostat (sold separately) this pump to work to its highest capability. Available in natural aluminum, polished aluminum, or chrome.

EMP Stewart Components

WP12203

WP21104

High Flow Water Pump

For over 20 years, Stewart Components has focused on the development and production of high-performance water pumps, resulting in innovations like special high strength castings, larger flow passages, more efficient impellers, and stronger bearings. Every pump is designed to exacting tolerances for reliable, long-term performance, offering maximum flow with minimum power consumption. These pumps deliver up to 180 gpm (gallons per minute) of coolant flow at 8000 RPM, yet consume just 2.26 horsepower at 4000 RPM! Each Stewart pump is hand assembled and tested at 10,000 RPM.

Stage 1 Cast Iron Water Pumps

These Stage 1 pumps use brand new, original equipment iron castings are internally engineered for performance and reliability. These water pumps feature a 3/4" heavy-duty bearing. Available for V-belt or serpentine belt systems.

Small Block – Clockwise Rotation

Warning: concerning water pump pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

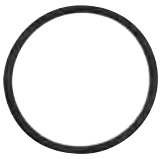
Thermostats



1955-57 Water Neck O-Ring

Avoid water leaks which can compromise your cooling system. Reseal your water neck with this replacement "O" ring. For use on various GM models.

66610	1955-57	replacement o-ring ..	1.99 ea

Water Outlet Restrictors

If coolant travels too fast, it doesn't absorb enough heat inside the engine or properly cool down as it passes through the radiator. That's why it is still important to restrict coolant flow in applications where a thermostat isn't desired. These restrictors come in a set of three with a 5/8", 3/4", and 1" hole to allow adjustment for optimum cooling. Each 2-1/8" plate is made from anodized aluminum and fits under the water outlet in place of the thermostat.

Air Conditioning

Keep Your Tri-Five COOL with Air Conditioning Sets from Classic!

If you own a 1955-57 Chevy, you can install a complete behind the dash air conditioning system, including a heater and defroster, while preserving an original appearance. Feel the comfort of cool air without sacrificing the original look of your dash! The all-new, Vintage Air Gen-IV, SureFit Tri-Five air conditioning, heating and defrost systems are a giant leap forward in performance aftermarket climate control systems. The Gen-IV systems feature all electronic controls requiring no cables, capillary tube or vacuum connections. They are truly "fly-by-wire" systems that use separate heating and cooling coils for superior performance. The internal air control doors are servo operated to provide infinite dash, floor, and defrost blending.

961057

System Features:

- Fly-By-Wire Fully Electronic Servo Motor Controls No Cables or Capillary Tube to Route
- Infinite "Just Right Temperature" Air Blending
- Infinite Blower Fan Speed Adjustment (3-Speed Fan for '57)
- High Volume Dehumidified Defrost Mode
- Separate High Capacity Aluminum Plate and Fin Cooling Coils
- Copper/Brass Cuprobreze™ Parallel Flow Heater Coil
- Mounts Behind the Dash
- AC Exits Through Center and Side Vents
- Uses Your Factory System Controls with Vintage Air's Exclusive Electronic Cable Converters
- Flat Steel Firewall Cover Panel (Stamped OEM Style on 57)

1957 Gen IV Electronic Sure Fit System

Get cool air for your hot ride! This comprehensive set features fully electronic fly-by-wire controls, high capacity plate and fin cooling coil, brass parallel flow heater coil, and an evaporator assembly that mounts completely behind the stock dash. Comes with SuperFlow condenser, compressor, mounting brackets, dryer, safety switch, preformed aluminum lines, firewall cover plate and all mounting hardware... Everything you need to give your classic a modern AC and heating system. These Sure Fit sets are designed to install with minimal drilling and no fabrication required. Available as a complete set with center vent or a complete set with 4 vents (no molded center vent – allows use of 4 individual louver locations).

Note: *Special order, must be prepaid. Shipped double oversize.*

LS Engine Cover Kit

Made in USA

Take your engine bay to the next level with this customizable LS engine cover kit. Made in the USA from special temperature resistant automotive polycarbonate and features 6061 aluminum inserts. This kit is compatible with any automotive paint or hydro dipping for endless customizing options. The LS engine cover kit is engineered to fit LS3 passenger car intakes and coil packs only. Kit includes valve covers, intake cover, cover inserts, ARP mounting hardware, billet oil filler, and aluminum stand-offs.

Note: *Some trimming may be required. Must install aftermarket fuel rail HC2123.*

A700223 LS3 ..... 901.99 kit

TF71001R

1955-57 LS Conversion Set

Made in USA

This unique LS engine conversion system is made specifically for 1955-57 Chevrolet models. Mount sets are designed around the LH8 oil pan for a perfect fit. All sets include: motor mounts, frame brackets, transmission specific cross member with a Polyurethane mount and frame brackets. Sets also include installation hardware and detailed instructions. Ceramic coated headers specifically designed for these sets are also available. Mounts feature a manufacturer's lifetime warranty. Made in USA.

Important: *Installation requires drilling mounting holes into the frame. Modification to the firewall or transmission tunnel may be required with some transmission applications. Frame notching is required when using a 1998-02 Firebird AC compressor.*

1955-57 Side Motor Mount

Reproduction side motor mounts for 1955-57 models with small block engines. Can be used as either LH or RH applications. Sold individually. 2 required per vehicle.

T82142	1955-57	LH or RH	9.95 ea

1955-57 Bolt-On Side Motor Mounts

If you are looking to slide a small block into your classic Chevy, these side motor mounts are the way to go. Side mounts are more modern and stronger than the original front mount style. These stock location mounts are for a seamed or seamless frame. Moves engine 3/4" for additional HEI clearance. Made in USA.

TF800026	1955-57	small block	105.99 set

TF800222

1955-57 Side Motor Mount Conversion

Side motor mount conversions provide a more modern and stronger method of installing an engine in your vehicle than the original front mount style. When selecting a conversion set, you must know whether your vehicle has a seamless or seamed frame and order accordingly.

Small Block – Seamless Frame

TF800222	1955-57	stock location	68.99 set
TF800223	1955-57	3/4" forward	68.99 set

Fitrite™ LS Engine Mount Set

This set is made to assist you with swapping a LS series engine into your 1955-57 Tri-Five models. These mounts are designed to move the engine forward and backward for ease of fitment. The long adapter set allows the engine to move from 1/2" rearward (great for oil pan to crossmember clearance) up to 3-1/2" forward for a full 3-1/2" of travel with a completely custom range of positions. This exclusive design no-weld brackets are CNC laser cut steel and features a durable black powder coated finish. FitRite™ sets include POLYPLUS™ engine mounts.

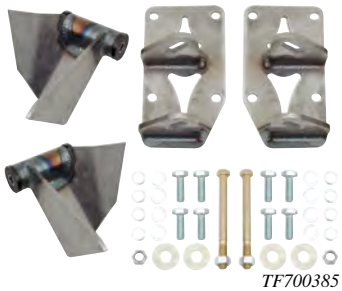
LS700200	1/2" rear – 3-1/2" forward		158.99 set

Adjustable LS Motor Mount Adapter Set

Adapter allows the installation of LS engines into 1958-72 full size models using a standard 3 bolt motor mount. Position the engine in either the original location or 1"-2" forward to allow for transmission bellhousing clearance. Mounting locations allow proper driveline alignment and an additional 1/2" of adjustment. Includes: engine mounting plates, adjuster plates, hardware, and instructions.

Note: Some aftermarket motor mounts may require mounting holes enlarged to 7/16". Some OEM style mounts may require additional clearance of the cast rubber portion to allow full front to back adjustment of the adapter. Not for use with "clamshell" type mounts.

A9750010	adapter		164.99 set



TF700385

1955-57 Modernized Engine Mounts

Once these frame mounts are welded in properly, you'll be able to fit any Chevrolet V8 without additional welding! Starting with a small block but have hopes for a big block some day? Simply flip the frame mounts from side to side to move your future motor forward to clear any distributor you can throw at it. Dreaming of a LS motor on a small block budget? Pick these up now and you'll be ready when the day comes! Order a set of LS adapters and your ready to race with no additional welding. Easily replaceable high-quality urethane bushings will hold up to 1000 horsepower. All Grade 8 hardware and detailed instructions included.

Note: 572 and some large aftermarket blocks may require modification to the mounts.

348/409 Engine Components

E7158

Performer RPM "W Series" 348/409 Intake Manifold

Designed for 1958-65 Chevrolet 348/409 "W Series" big block engines, these Performer RPM intake manifolds are specifically engineered to deliver improved performance in the mid to high RPM range, especially when combined with Edelbrock carburetors. Two versions are available, one for small port cast iron heads and the other for factory large port or with Edelbrock Performer RPM "W Series" heads part #E60819. They both also feature a front mounted oil fill tube (not installed) and matching push-in breather cap. For square bore carburetors only. Made in USA.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

1955-87 Retrofit LS Oil Pan

Holley's Retro LS oil pan is designed for maximum chassis and ground clearance on 1955-87 GM rear wheel drive V8 applications originally equipped with a rear sump oil pan. Each pan is made from machined cast aluminum and uses an original style oil filter and gasket. Features provisions for a factory style oil cooler and attachment points for the factory bellhousing. Set includes: sump baffle, pickup tube, sump plug, oil filter stud, and oil passage cover. H3021 LS Retrofit oil pan is designed for LS engine retrofit installation in a variety of GM muscle/classic car and truck models.

Note: *Requires the use of LS3 dipstick and dipstick tube.*

21575

1955-57 Seven Quart LS Oil Pan

This oil pan allows the installation of newer LS series motors into 1955-57 passenger car models. Using heavy-duty steel and double thick pan rails, it is still 5.5 pounds lighter than the factory LS series oil pan. The increased oil capacity and control provides consistent pressure under heavy usage. The additional oil filter kit (required) includes brass fittings and 3 feet of 10 AN, 250 psi line. Accommodates up to a 4" stroke with steel Carillo or Eagle style rods.

Note: *Requires remote oil filter kit part #21575.*

Attach Your Oil Pan Like a Pro!

Undoubtedly the most professional method of attaching an oil pan is through the use of Milodon's pan stud and nut set which includes heat treated studs with rolled threads and special nuts with built in serrated washer face. The set provides easy pan installation, prolongs gasket life and the special serrated nuts guard against pan loosening during operation.

Stock Replacement Oil Pan

These stock replacement oil pans feature a distinctive gold-plating that is not only cosmetic, but also provides long-lasting protection against corrosion, inside and out. Every pan is 100% leak checked and block checked to assure the high standard of quality that Milodon is famous for. Flat, unwarped pan rails and proper bolt hole alignment provide for a fit and function that is unmatched in the industry. All pans are specifically designed for use only with Milodon gaskets, sold separately. Sold separately is Milodon's "crushproof" gasket seal set, item #40100 for 1955-85 small block or item #40200 for 1964-90 big block. Also offered is Milodon's new 1 piece gasket item #41000 for 1958-85 small block or item #41001 for 1986-02 small block. For use with original stock oil pickup screen also sold separately.

Billet Dipstick

MADE IN USA

22005 – installed

This dipstick assembly has a unique sleek design, as well as many functional benefits. All dipstick hardware is CNC-machined from billet stainless steel. Fittings, stick, and hose are all stainless steel so they will stay bright and rust-free even with the use in an everyday driver. It uses an o-ring sealed top to positively seal against water or dirt and provides a very efficient seal for race cars running an internal vacuum pump or Vac-U-Pan system. Made in USA.

1955-57 Oil Pressure Sending Unit

An oil pressure sending unit is an electrical or mechanical sensing device that sends information to the pressure gauge or light. Electrical sending unit applications to fit 1956-57 Chevrolet models. Can be used on 1955 Chevrolet models when wire terminal is changed.

With Oil Pressure Light

10045707	1956-57	1 terminal	6.99 ea

Oil Bypass Eliminator

An oil bypass valve lets oil bypass the filter if pressure gets too high or the filter becomes plugged. For performance engines that often see increased oil pressure at high RPM, this can cause more damage than it prevents, due to the frequent circulation of unfiltered oil. This anodized billet aluminum adapter eliminates the bypass valve, preserving your expensive engine. For small block applications.

FL500007

FL700032

Engine Oil Cooler

Engine oil is designed to act as a coolant as well as a lubricant for your motor. If the engine oil is allowed to get too hot, horsepower drops, varnishes form, and the oil starts to break down, which can lead to premature engine wear. Flex-a-lite heavy-duty oil coolers can help prevent this by keeping oil temperatures down, helping to ensure longer-life to engines and components, and reduce the stress created by high-performance engine modifications. Also suitable as a heavy-duty transmission fluid cooler. Includes -8, -10, and -12 interchangeable AN fittings with o-rings.

Important: Depending on application and setup, additional fittings or adapters may be required.

Note: Dimensions: width = 11"; depth without fan = 1-3/4", with fan = 4-1/4"; variable height, see height below in the line listings.

Oil and Oil Filters

PF1218 PF454

Replacement Oil Filter

Genuine ACDelco oil filters for Chevrolet engines. Designed with a steel core and a traditional mounting plate, each filter offers enhanced efficiency and consistent flow management to provide exceptional filtering performance for classic vehicles. Features a anti-drain back valve to keep the oil cooler full of oil (on cooler equipped vehicles). This way oil is in the cooler upon start up without waiting for the cooler to refill and pressurize. The Classic Series filters offer you the original size and specifications of the original filter, but with a modern day, blue ACDelco canister. The Professional Series is the modern day, blue ACDelco filter currently being offered by GM.

Accu-Drive® Camshaft Gear Drives

Edelbrock

MADE IN USA

E7890

Replace Your Stock Timing Chain with a Precision Gear Drive System from Edelbrock! The Accu-Drive® camshaft gear drive set replaces a stock timing chain with a precision gear drive system. The gear drive can be easily installed. Just replace the stock crank and camshaft sprockets with Accu-Drive® gears and slip in the idler assembly. Most Accu-Drives require no modifications to the engine block, although some fitting of the axles and front cover may be required. The Accu-Drive® gear system transmits power from the crankshaft gear to a full floating main idler gear which drives the camshaft gear. A unique feature of the Edelbrock Accu-Drive® system is the ability of the main idler gear to float to an optimum position between the crankshaft and camshaft gears.

Important: *Not for stock Chevy hydraulic roller lifter cam equipped engines. Accu-Drive® gears are not recommended for use above 7000 RPM or on computer controlled vehicles with knock sensors. On some late model small block engines, it will be necessary to check clearance behind the cam gear at the engine block at the 12 o'clock position. Make sure gear clears oil galley bosses on block when in the most rearward position. Grind or machine block for clearance.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

TC501SA	1965-95	big block	38.99 set

Edelbrock New!

1958-95 Timing Chain Set

Performer-Link timing chain set is for use with Edelbrock or stock cams. They have a solid-bushing chain for a true bearing surface that rolls with the sprockets, eliminating chain stretch. Cam sprockets are made from 35,000 psi tensile strength cast iron. Crank sprockets are made from billet SAE-1144 steel and induction heat treated.

Note: *Performer-Link timing sets are not for use above 6500 RPM.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

G8329

1965-97 GM Timing Chain

When it comes to quality, you can't beat Genuine GM parts. The timing chains offered are Genuine GM all the way! If you're restoring your Chevrolet, or simply need to replace your original timing chain, make sure the replacement is manufactured with the quality your car deserves. Replacing a timing chain takes time. Make sure you only have to do it once.

Warning Concerning Crankshaft Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

HD100006

Chevrolet Pro/Race Harmonic Balancer

Pro/Race high-performance harmonic balancers are direct replacements for factory cast iron units which may fracture or disintegrate at high RPM. Pro/Race dampers are ideal for the additional torque loads from belt driven superchargers. The STREET damper features special splines to enhance bonding between the elastomer, inner hub, and outer ring to prevent any outer ring radial movement, perfect for engines making between 350 to 400 horsepower. Externally balanced balancers feature weights bolted in place which may be removed for neutral or internally balanced application. Internally balanced balancers can be used on an external application simply by ordering the correct engine specific weights and bolting them in place.

*Note: *HD100016 and HD100019 are NOT drilled to accept counterweights.*

Performance Harmonic Damper

Fluidampr performance harmonic balancers and dampers contain no rubber or elastomers. Instead, they are filled with a viscous silicone-based liquid that doesn't wear out after time. CNC-machined and balanced steel with a black zinc chromate finish. All dampers are SFI 18.1 certified and are designed to last a lifetime without being rebuilt. Made in USA.

Note: SB dampers are not for 1992 and later LT1 engines.

Replacement Engine Gaskets

If you have a Chevy engine to reassemble, you will need new gaskets. Made from durable materials that meet or exceed OE specifications, these gaskets are perfect for stock or mild performance vehicles. Sets include: gaskets for cylinder heads, intake, exhaust, valve covers, oil pan, timing cover, and water pump. Valve seals, rear main seals, and front timing cover seals are also included, along with all necessary gaskets and seals for their listed applications.

Engine Overhaul Gasket Sets

75801

Ultra-Seal Head Gasket

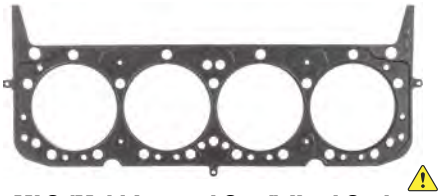
The Ultra-Seal head gasket has a 5 layer composite construction and is coated with high temperature silicone to ensure seal of engine fluids. It's graphite core has excellent thermo-conductivity; transfers heat away from hot spots in head to coolant passages, preventing gasket burn out. The Ultra-Seal head gasket provides excellent stability, compressibility, high temperature endurance and will not Brinell (indent) aluminum cylinder heads.

.028" Compressed Thickness

71134 1955-91 305-350 4.130" bore 60.99 ea

.038" Compressed with Steam Holes

75801 1970-80 400 4.190" bore 64.99 ea

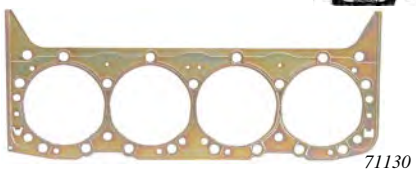


MLS (Multi-Layered Steel) Head Gasket

The MLS head gasket is manufactured from Viton rubber coated stainless steel layers and is stress formed embossments seal extreme cylinder pressure. The MLS head gasket provides excellent stability and reduces cylinder bore distortion. Ideal for supercharged, Turbo charged, nitrous, and extreme compression ratios.

.040" Compressed Thickness

73130 1955-91 283-350 4.060" bore 111.99 ea



71130

71131

Steel Shim Head Gasket

The Steel Shim head gasket is manufactured from .020" steel shim stock and is stress formed embossments seal extreme cylinder pressure. Made thinner than OE head gasket, increases engine compression and coated with high temperature silicone to ensure seal of engine fluids.

Note: Do not use with lightweight 305 heads.

.020" Compressed Thickness

71130 1955-91 283-350 4.100" bore 29.99 ea

71131 1965-90 396-454 4.370" bore 29.99 ea

Gasket Maker

Makes reliable formed in place gaskets that resist cracking, shrinking and migrating. Coats precut gaskets to increase reliability. Resists auto and shop fluids. Great for use on valve covers, intake manifold end seals, timing covers, water pumps, and thermostat housings. 3 oz. tube.

S80022 blue #6B ..... 7.99 ea

81630 red #26B ..... 7.99 ea

Ultra Copper Gasket Maker

For use with Turbo-charged engines or high-performance models. The most advanced, hi-temperature silicone gasket available. Sensor safe, low odor, non-corrosive. Outstanding oil resistance and joint movement values. Temperature range -75 to 700 degrees F intermittent. Recommended for pre-1980 six cylinder and V8 engines. Great for use on: exhaust manifolds/headers, valve covers, intake manifold end seals, oil pans, timing covers, water pumps, thermostat housings. 3 oz. tube.

S81878 copper #101B ..... 8.99 ea

Form-a-gasket Sealant

Slow drying, non-hardening sealant designed for sealing cut gaskets and stamped parts. Allows for easy disassembly if required. Has a temperature range of -65 to 400 degrees F. Use where sealing is more important than adhesion. Resists shop fluids and fuels. Great for valve cover gaskets and oil pan gaskets.

S80016 3 oz..... 9.99 ea

Super Silicone Sealant

Excellent for use with all types of gaskets. A rapid curing adhesive/sealant can also be used as a sealant between flanges, hose connectors, and similar close fitting parts.

08661 clear 3 oz. tube..... 14.99 ea

TVL43	mechanical	8.99 ea

Stamped Rocker Arm Set

66905

Stamped steel rocker arms featuring long slots for use with cams that have lift specs higher than stock for additional clearance at the rocker stud. Fits small blocks through 1986 with stock 1.5:1 pivot ratio and 3/8" rocker studs. Set of 16 rockers with pivot balls and nuts, or add a set of 16 stock length, high-performance 5/16" pushrods with welded ball ends and save.

Note: Check for pushrod clearance and alignment, spring coil bind, piston to valve clearance and valve timing when modifying the valvetrain to exceed factory specs.

1.5:1 Ratio for 3/8" Stud

66905	without pushrods	73.99 set

66936	for 7/16" studs	25.99 set

66908C

1958-86 Aluminum Roller Rockers

The needle bearing fulcrum and roller tip design unleashes power while lengthening valvetrain life and reducing valve stem tip wear. Small block sets are available for engines with stock 1.5:1 ratio arms, or performance enhancing 1.6:1 arms. For small blocks through 1986, a combination of eight 1.5:1 arms and eight 1.6:1 arms is available to allow greater air flow on either the intake or exhaust ports. Big block sets for engines through 1984 feature high-performance 1.7:1 ratios. Sets include 16 rockers with poly locks.

Note: Check pushrod clearance and alignment, spring coil bind, piston to valve clearance and valve timing when modifying the valvetrain.

Emissions Note: * ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Camshafts

Your Choice of Four Convenient Sets to Meet Your Specific Needs!

A – Camshaft Only

The camshaft only set includes camshaft, instructions, assembly lube and decals.

B – Cam and Lifters

Order the cam and lifter set to add a matched set of lifters to your camshaft.

C – Small Set

Order the small set for cam and lifter set plus timing chain and gear.

D – Full Set

Full set includes cam, lifters, timing chain and gear valve springs and retainers, valve locks, valve stem seals.

High Energy™ Cams for Your Daily Driver!

All High Energy™ designs are totally streetable cams. They will produce 10 to 30% more power than a stock cam throughout the RPM range. Each cam has a particular RPM range in which it works best. By selecting the cam that best suits your driving needs, exceptional power increases can be expected. High Energy™ Cams work great for everyday driving without the "bad" side effects normally found with other cams. High Energy™ cams produce more power, are more efficient, and do not affect the engine's idle characteristics to the point of making your vehicle undriveable. High Energy™ Cams will not affect any vacuum or power accessories such as power brakes, air conditioning or steering.

Important: *On small block applications, High Energy Cams may be used with stock valve springs and lifters. However, these components must be in good operating condition. In order to protect your camshaft warranty and for maximum performance benefit, we recommend replacing stock valve springs and lifters with a high-performance set from Classic Industries®.*

Emissions Note: * ① *CARB EO compliant (50 states legal).* ** ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

CAMS for your High-Performance Street Machine!

The Magnum™ Cam is a great cam for high-performance driving in street machines. Provides 30-70% more horsepower and a rough and ready to rumble idle in small block or big block Chevy applications. The Magnum™ will not affect power accessories, but should be used with headers. This is the perfect cam for cruising. Xtreme Energy™ Cams are Comp Cams® series of hydraulic cams. They are designed to take advantage of the latest improvements in valve train components and the newest developments in camshaft design. Xtreme Cams can be used in any street or street/strip application where both throttle response and top end horsepower are desired. Increases horsepower from 20-70% over stock. Includes camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions, and decals.

MADE IN USA

Performer RPM Manifold

Performer RPM manifolds are dual plane, high rise intake manifolds with a 180 degree firing order to produce incredible top end horsepower while retaining good throttle response. Their larger plenums and runners match the free flowing exhaust, and high lift cams and other modifications of a high output engine.

Important: *Will fit cast iron Chevrolet Bow Tie cylinder heads, but will not fit 1987 and later cast iron cylinder heads.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

1957-86 V-8 Equa-Flow Dual Quad High Rise Intake Manifold

Offenhauser 360 degree Equa-Flow Dual Quad intake manifolds make good use of Offy's 360 degree technology to feed all cylinders evenly and make more power. This results from their single-plane configuration, with its unique split-plenum chamber and tuned intake runners. That combination delivers the fuel-air charge evenly to all cylinders for more power without flat spots.

Note: *Years listed are original engine production years. Works with AFB carburetors only.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

OF6007DP – detail

1957-90 V-8 Dual Port Intake Manifold

Offenhauser 360 degree Dual Port single-quad high-rise intake manifolds feature completely separate runner systems for the primaries and secondaries for more power across the rpm range. At low-load, the primaries feed the air/fuel charge through the smaller bottom passages at near sonic speed, improving power and efficiency. When the secondaries open, their charge goes through the bigger, cooler upper passages. The results are better fuel economy and a 15-30 percent power increase across the entire rpm range.

Note: *Years listed are original engine production years.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Performer Intake Manifold

This Edelbrock Performer intake manifold is designed for street 253-304-308 c.i.d. Holden V8 engines. This Performer intake manifold is a dual plane design that is tuned for excellent throttle response from idle to 5500 RPM. The Performer Holden manifold has been designed to fit both cylinder head bolt hole patterns. Pilot holes have been drilled on each side of the exhaust crossover for early or late model cylinder heads and will need to be drilled out depending on application. The intake manifold will not fit EFI heads (see #7594). It accepts both square bore and spread bore carbs. The manifold fits red/blue/black engines. It does not have a provision for external heat crossover. The intake manifold includes an Edelbrock square-bore carb adapter plate #2732, carb gasket, and carb studs.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

216 Stovebolt Intake Manifold Heat Plate

Installing aftermarket exhaust manifolds or headers on 216ci 6 cylinder engines requires an intake manifold heating system for proper performance. The original intake and exhaust manifolds were connected with a heat riser system to keep fuel at ideal atomization temperature. Without this, fuel puddles at idle, causing poor performance, hesitation under acceleration, and fouled spark plugs. This manifold heater plate solves this issue using temperature regulated coolant circulated through the cooling system, rather than extremely hot exhaust gas. CNC-machined from 3/8" heavy gauge aluminum and includes barbed brass fittings and instructions. Made in USA.

*Note: Gaskets and mounting hardware not included. *On vehicles without a water outlet on the thermostat housing use thermostat housing spacer 4010003.*

109216* 216ci engines ..... 51.99 ea

6 Cylinder Intake Manifold Heat Plate

Installing aftermarket exhaust manifolds or headers on 194, 230, 250, and 292ci 6 cylinder GM engines requires an intake manifold heating system for proper performance. Chevrolet Staggered Bolt Valve Covers

Classic Industries® offers these nostalgic cast aluminum valve covers to help bring back that classic look. Features: raised "CHEVROLET" script and strong aluminum construction. Includes mounting hardware. These covers have perimeter mounting with staggered or offset bolt holes for 1955 to early 1959 cylinder heads. The mid-height design clears most roller rockers.

Note: No provision for PCV, breather or oil fill. Gaskets not included.

New! Edelbrock

E4263

Elite Series II Valve Covers

Features a design that is influenced by the original Elite Series released in 1985, but with a new modern take on this classic look. They're made from heavy gauge, die-cast aluminum and are finished off with a show quality high luster polished finish. The raised fins are accented by a contrast gloss black finish between the fins for the definitive Elite Series look. Edelbrock's tall profile valve covers are 2" taller than stock, and clear most roller rockers and valvetrain components. Our low profile valve covers clear all air conditioning, alternator brackets, and aluminum rockers. Overall height is measured from gasket flange to top at the highest point.

Emissions Note: ③ Non-CARB compliant (not legal for emission controlled vehicles).

Vintage Series SB Valve Covers

Vintage Series valve covers are designed to fit all 1958-86 small block Chevrolet engines with perimeter bolt patterns. The die-cast aluminum construction ensures superb detail and reduces the chance of warped valve cover flanges and oil leaks. The valve covers stand 3-1/2" tall with pre-installed internal oil baffles on emission compliant models. The oil fill and PCV grommets are also included.

Note: If your engine has non-standard valvetrain components, such as a high lift camshaft, roller tip rocker arm, higher lift ratio rocker arms, stud girdles, etc., there may be insufficient clearance.

Emissions Note: (3) Non-CARB compliant (not legal for emission controlled vehicles).

LS Coil Covers

Elegantly hides LS coil packs. Fits GM LS engines utilizing existing coil bracket mounting points. Has a cutout for the oil filler. Designed to fit LS crate motors and will not clear factory high mount alternators (such as those found on Corvettes) unless a cutout is fabricated or aftermarket alternator and brackets are used. Best suited for aftermarket serpentine pulley systems. Machined from 6063-T6 aluminum. Can be used with relocated coil packs for a lower profile appearance. Dimensions 19-1/2" x 5", available in black or mill finish. Made in USA.

PCV76

PCV159

1966-93 PCV Valve

PCV valve is a vacuum-controlled metering device that regulates the flow of crankcase fumes in the positive crankcase ventilation system by allowing more flow at high speed than at low speed. These valves act as a system shutoff in case of engine backfire to prevent an explosion in the crankcase. It is recommended to replace your PCV valve during every tune-up.

Street Fire HEI Distributor

MSD

We know the importance of a centrifugal advance in a distributor so our engineers made sure that the Street Fire received an advance assembly with coated weights and welded weight pins (not just pressed in like other models). The Street Fire is fit with the same gear that is used on our Pro-Billet models. The metallurgy of this gear has been refined for years to perform through the harshest conditions. Inside, the ignition module and coil work together to produce a stout spark to light the fuel mixture for great performance. One-year warranty.

Emissions Note: ① CARB EO compliant (50 states legal).

Pro-Billet Distributor

MADE IN USA MSD

These distributors feature a flawless lightweight CNC-machined 6061-T6 billet aluminum housing and a polished steel shaft that receives a QPQ, or Tuftride coating that reduces friction and resists corrosion. To accurately guide this shaft, MSD uses a sealed ball bearing located at the top of the housing. At the bottom of the housing, an extra long sintered bushing controls the shaft. This combination keeps the shaft spinning smooth and accurately throughout 10,000+ RPM. Choose from the "standard" Pro-Billet distributors that utilize the MSD 6, 7, 8, or 10 series ignition control box or from our "Ready-to-Run" distributors that are internally controlled. "Ready-to-Run" distributors do not require an external controller and are the "Plug and Play" alternative to more expensive computer controlled systems. Made in USA.

*Emissions Note: * ① CARB EO compliant (50 states legal). ** ③ Non-CARB compliant (not legal for emission controlled vehicles).*

MSD

8920

8910E

Tachometer Adapter

MADE IN USA

MSD tach adapters will correct the operation of most voltage triggered tachometers or fuel injection systems that do not work directly off the tach output terminal of the MSD ignition unit. If you are triggering an MSD Blaster, 5, 6, SCI, or 7 series ignition with its white wire or points terminal, you will need item #8910 or #8910E. For applications using green and violet wires for magnetic pickup input, use item #8920.

Important: **For non-current limiting ignitions, originally equipped with a ballast resistor.* ***For use on current limiting ignitions, not originally equipped with a ballast resistor.*

8910*	points or amplifier	82.99 ea
8910E**	points or amplifier	96.99 ea

Noise Filter

MSD MADE IN USA

If you experience radio noise after installing the MSD Ignition, you may need to install an MSD Noise Filter. Electro Magnetic Interference (EMI) is occasionally generated from the MSD power cables and can be easily eliminated by installing the Noise Filter on the heavy power supply wires coming from the MSD. It is recommended that the Noise Filter be used on installations with the MSD 7 and 8 Series Ignitions to prevent this interference. Includes noise filter cover. Made in USA.

Distributor Housing Shims

When an engine block has been decked or heads have been resurfaced, shims are needed under the distributor to maintain correct clearance. If the distributor sits too low, it can cause damage to the oil pump or camshaft. These shims are made to exact GM gasket specs from high impact nylon to ensure a leak free fit. Set contains .030", .060", and .100" thick shims.

6A/6AL Ignition Control

MSD's new Digital 6A is the base model of the capacitive discharge multiple spark 6 Series design. Features the same footprint as the traditional 6A and 6AL, but with a lower profile for a sleek look. Like all MSD 6 Series Ignitions, the 6A will work with virtually any vehicle as long as it has a 12-18 Volt electrical system. It can be triggered using breaker points, a magnetic pickup or the output of an electronic amplifier. All necessary parts and wiring instructions are included. Will work on 4, 6, and 8 cylinder engines. The new Digital 6AL shares the same proven circuitry of the Digital 6A with the addition of a built-in adjustable rev limiter with 2 top mounted rotary dials. The combination of powerful sparks with the safety of a rev control is what makes the Digital 6AL the most popular ignition control in the world.

Emissions Note: ① *CARB EO compliant (50 states legal).*

Correct Remanufactured Ignition Coil

K6006E

Remanufactured ignition coils are now available for the discriminating restorer or purist who is looking for an ignition coil to correctly match his engine build date. These V8 coils are remanufactured using new windings and new ceramic insulators. They feature new cans embossed with the correct part number along with an original Delco-Remy top.

Important: *3 digit # represents the last 3 digits of the GM casting number.*

Ignition System Coil MSD

Upgrade your stock coil or complement the performance of your MSD 6 Series ignition, these coils are the right choice! The following Blaster coils share the same special windings and high voltage output as the other Blaster 2 coils, but do not include a ballast resistor. When you are using an MSD ignition control, the ignition is responsible for delivering the voltage to the coil so a ballast is not necessary. The Blaster 3 coil features an extra tall tower design to improve the coil wire attachment and spark isolation and is supplied with a 90 degree terminal and boot. Made in USA.

Emissions Note: ① *CARB EO compliant (50 states legal).*

Blaster Performance Coil MSD MADE IN USA

With a stock points style ignition, a ballast resistor must be placed in-line with the positive terminal of the coil. The following Blaster coils are supplied with a 0.8 Ohm ballast resistor plus a terminal and boot to fit most applications. Mallory Unilite applications also require the ballast resistor. Available in chrome or red. Made in USA.

Important: *The ballast is not necessary if an MSD 6 or 7 series ignition control is being used with the points distributor.*

Emissions Note: * ① *CARB EO compliant (50 states legal).* ** ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

HC 60,000 Volt Coil

The Flame-Thrower HC (high current) coils have an E-Core design which is rated at 60,000 Volts with an ultra low .32 primary resistance and has a high current design for a rapid charge rate. Made from 6063-T5 aluminum, it efficiently transfers heat to optimize energy output. The housing is black anodized for increased corrosion resistance and has a precision machined male high tension terminal and brass primary terminals. It is compatible with Ignitor II and Ignitor III systems as well as most capacitive discharge boxes. Standard threaded connections and mounting hardware are included.

***Emissions Note:** ① CARB EO compliant (50 states legal).*

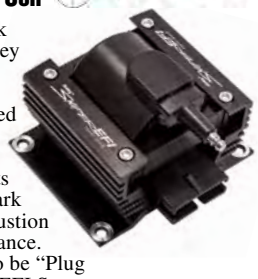
HyperSpark Ignition Coil



Sniper EFI HyperSpark ignition coil from Holley Performance. This coil features an innovative connector and integrated bracket for a secure connection and simplified mounting. Its powerful 135MJ of spark ensure complete combustion and improved performance. This coil is designed to be "Plug and Play" with Sniper EFI Systems.

***Emissions Note:** ③ Non-CARB compliant (not legal for emission controlled vehicles).*

H556152		universal	47.99 ea

Power Coil

The TSP power coil is capable of delivering a longer and hotter spark with up to 70% more spark energy than stock ignition coils. Its convenient design easily mounts to fire walls, core supports and fender wells. It features an aluminum heat sink keeping it cooler for more efficient energy output at lower temperatures. Coils have an HEI style output tower and are rated at 50 kV maximum voltage with 260 mA peak current with 0.35 Ohm primary resistance. Coils include installation hardware, a coil wire boot with terminal and a wiring harness.

Blaster SS Coil

Don't let the compact size of the Blaster SS coil fool you because it is packed with performance. The efficient E-core windings are designed to produce high amounts of current without sacrificing the voltage output. In fact, when used with an MSD 6 Series Ignition, the Blaster SS produces 300 milliamps with a maximum voltage output of 40,000 Volts. The secondary windings are wound on a segmented bobbin which reduces the chance of voltage breakdown between the primary and secondary windings. For more protection, these windings are encased in a polyurethane compound for complete protection against vibration. The Blaster SS features brass terminals and a sturdy Rynite housing. It is supplied with a 90 degree boot, terminal and vibration mounts. A great addition to CD ignitions and some stock applications. Made in USA.

Never change points again!

PX71181 PX91181

PerTronix Ignitor

PERFORMANCE PRODUCTS

Eliminates points and moving parts that wear out, while delivering twice the voltage to the spark plugs over stock to increase horsepower, fuel economy and plug life! Optimal performance can be achieved when used with the Flame-Thrower 40,000 Volt coil. Ignitor is concealed entirely within the distributor. Installs in minutes, compatible with 12 Volt negative ground systems, and it's smog legal in all 50 states and Canada! Includes a 30-month warranty.

Emissions Note: ① *CARB EO compliant (50 states legal).*

PerTronix Ignitor II

PERFORMANCE PRODUCTS

The Ignitor II electronic ignition goes an extra step beyond for even more power and efficiency! It senses levels of current in the coil, and uses a powerful micro controller to adjust the dwell to maintain peak energy throughout the entire RPM range. As engine RPM and operating conditions change, dwell time is increased or decreased to provide more energy at higher RPM, reducing misfires while improving engine performance. Ignitor II develops nearly 4 times more available energy between 3000 and 5000 RPM, and double the available plug voltage! The Ignitor II's higher RPM performance is maximized when used with the new Flame-Thrower II super low resistance (0.6 Ohms) 45,000 Volt coil, but the system is compatible with any induction coil. It comes with a 30-month warranty and is emissions legal in all 50 states and Canada!

Emissions Note: ① *CARB EO compliant (50 states legal).*

PerTronix Ignitor III

PERFORMANCE PRODUCTS

Ignition box performance without the box. The Ignitor III is the most advanced points replacement set. It is literally an ignition box inside your distributor. It features multiple sparks throughout the entire RPM range and a REV limiter accurate to +/- 50 RPM which is set by you with an LED user feedback for rev limit confirmation. The Ignitor III module generates 5 times more spark than points. This means more spark energy creating more horsepower and better mileage. The Ignitor III features include: adaptive dwell which maintains peak energy throughout the entire RPM range. Peak current level is reached just prior to spark for maximum energy without the heat buildup, increasing coil performance and module reliability. Legal in all 50 states and Canada. Fits GM V8 single point type distributors.

Note: *Not available for 6 cylinder.*

Ignition Wires

1955-97 Spark Plugs

Accel's patented race proven spark plugs are now available in a "shorty" configuration. The overall length of each plug has been reduced 1/4" to 3/8" (depending on the specific spark plug) to gain critical air gap space between the spark plug boot and the exhaust manifold or header tube. This helps eliminate burning the spark plug boot or dimpling the header tube. The shorter spark plug length also can make it easier to install and remove the spark plugs in certain applications where there is not a lot of room to work with a socket or wrench.

*Note: Standard Header plugs are sold in sets of 8. *Set of 4.*

1955-86 Spark Plug

Want to unlock more power from your engine and actually burn less gas? Through an intensive R&D process, E3 has created a spectacular new spark plug that creates the industry's fastest spark growth and fastest combustion pressure rise, meaning it burns fuel more efficiently to give you more power and increased fuel economy. E3's patented design forces the spark discharge from one sharpened edge to another, and projects the spark forward into the combustion chamber, unlike traditional spark plugs, for the most consistent, powerful and efficient burn possible! Sold individually.

Super Conductor Spark Plug Wires

The MSD 8.5mm Super Conductor is the ultimate performance wire. It's extremely low resistance combined with the ability to suppress electro magnetic interference is a combination that defies the common laws of physics. Less resistance means more energy is going to make it to the spark plug to ignite the air/fuel mixture. The Super Conductor uses a copper alloy conductor resulting in less than 50 Ohms per foot of wire. This ensures that the most energy possible makes it to the spark plug. This combination is encased in a heavy-duty sleeve that will withstand abrasion and high temperatures. Cap off each end with our dual crimp terminals. Made in USA.

Important: Over the valve cover style, will not work on 1957-72 trucks with a small block and stock Ram Horn style exhaust manifolds.

EXTREME 9000 Ceramic Wires

Increase ignition energy with these incredibly low resistance severe duty spark plug wires! These 8mm wires are designed for forced induction, HD truck, and racing applications. These wires can withstand up to 600 degrees F while offering a mere 500 Ohm per foot of resistance and complete EMI/RFI suppression. The ceramic plug boots and stainless steel terminals withstand temperatures up to 2000 degrees F. Compatible with both pre- and post-HEI systems.

Note: Universal fit 8 cylinder wire sets can be used for 6 cylinder applications.

8mm Superstock Plug Wires

ACCEL's SuperStock 4000 series 8mm spark plug wire sets are designed to upgrade an OE ignition system for high spark delivery levels for street driven applications. The 450 degree F rated high gloss silicone jacket is extruded over a tightly woven, rugged fiberglass braid. RFI suppression for street driven applications. Universal wire sets include standard socket and HEI boots with the appropriate terminals. Made in USA.

Core: Carbon/graphite conductive material, high resistance suppression, fiberglass/Kevlar, 3000-7000 Ohms per foot resistance.

Note: Universal fit 8 cylinder wire sets can be used for 6 cylinder applications.

8mm Superstock Spiral Plug Wires

ACCEL's SuperStock Spiral Core 5000 Series wire sets. With only 500 Ohms per foot of resistance, more ignition energy can reach the spark plug, producing a longer-lasting, hotter spark flame kernel. This 8mm wire's double silicone construction is rated to 550 degrees F. The high gloss wire jacket resists moisture, chemicals, and heat extremes for longer life and great looks. Stainless steel plug terminals. High RFI suppression for street and strip use. Universal wire sets include standard socket and HEI boots with the appropriate terminals. Made in USA.

Core: Spiral wound stainless steel alloy conductor, magnetic suppression and semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.

Note: Universal fit 8 cylinder wire sets can be used for 6 cylinder applications.

1955-74 Spark Plug Wires

These Flame-Thrower high-performance spark plug wires were created with the classic car in mind. They are manufactured in original 7mm size jackets to fit stock wiring looms. With no markings or script of any kind on the wire, they maintain a stock appearance yet give you all the benefits of a high-performance wire set including: 2 current paths spiral wound stainless steel alloy winding and carbon impregnated fiberglass center core, low 500 Ohm per foot resistance, silicone jackets to resist high temperatures, moisture, oil and chemicals. They also have EPDM rubber inner insulation for superior heat resistance and prevention of arcing and voltage leaks. Fiberglass reinforcing braid is added for strength and flexibility. Lifetime Warranty, Made in USA.

2-in-1 Universal Wire Set

These universal spark plug wires sets are made from MSDs super conductor performance wire. Universal wire sets have only the spark plug boot and terminal installed. These boots and terminals are available in your choice of a 90 degree boot or a multi-angle boot. The distributor end boots and terminals are supplied, but not crimped on. Both sets include terminals for engines with either the early style (socket) and late style (HEI) distributor caps. The wires are extra long so they can be cut-to-fit any application. Each set includes a MSD mini-stripper crimper for easy installation. Available with wires in either black or red.

1968-72 Vintage Dual Snorkel Air Cleaner

Reproduction factory dual snorkel air cleaner and replacement parts for mid-sixties, early seventies Chevrolet models equipped with 4 barrel carburetors. This reproduction air cleaner is a closed element style which includes the base, filter, lid and flame arrestor. Also available are replacement lids in black or chrome. A nice addition when going for a 1960-70 custom vintage look.

Important: Valve cover to air cleaner elbow and hose must be purchased separately, see valve cover section for correct elbow and hose application.

Air Cleaners & Parts

14" Low Profile Chrome Air Cleaner

This air cleaner provides a low profile by dropping the filter 7/8" or 1-1/8" below the carburetor flange. 5-1/8" flange fits all popular 4 barrel carburetors. Your choice of 4 element heights are offered to fit a wide variety of applications. The 7/8" drop will fit carburetors with electric choke mechanisms. Optional vent kit, item #851190 is available and sold separately. Total height listed below is the minimum clearance needed above the carburetor flange.

Important: **Items marked with asterisk will not fit Edelbrock carbs with electric choke.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

XStream Air Flow Top and Assembly

If your engine still has its stock style filter element and air cleaner assembly, it most likely is not realizing its full horsepower potential. Restrictive elements combined with the turbulence inside a stock filter housing tend to choke off critical airflow. Put an end to this dilemma with K&N's XSTREAM air flow top or the XSTREAM air flow assembly and feed your engine all the air it can use. The result will be maximum horsepower! Choose from the complete assembly or just add the top to your existing round filter. Either way, you'll enjoy the benefits of a high flow element that cuts turbulence. Cleanable and reusable just like our other filters. Total height listed below is the minimum clearance needed above the carburetor flange.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Air Filter Oil & Clean/Degreaser Set!

K&N Air Filter Oil and Cleaner/Degreaser is the only oil and cleaner/degreaser specially formulated to work in combination with the cotton fabric in the K&N filter. The use of any other could void the filter's warranty and potentially harm the air filter's cotton material. The cleaner/degreaser works to dissolve the dirt buildup and old oil filter oil and can be washed away with water. It is environmentally friendly, and when used as directed, is safe on paint, chrome, cast aluminum, plastic, rubber and vinyl. Each set includes oil, cleaner/degreaser, and service decal. Your choice of 6-1/2 oz. aerosol spray or 8 oz. squeeze oil bottle is offered.

Air Cleaner Element

A K&N air filter element can be washed up to 25 times before it is considered no longer serviceable. Even though the filter may not show outward signs of deterioration, it should be replaced after 25 washings. Excessive washings will deplete the tiny cotton hairs that crisscross the openings. The resulting damage will allow tiny dust particles to pass through. The elements listed below are designed for use with our K&N chrome and stainless steel air cleaner assemblies.

Pro-Flo Air Cleaner Set

Pro-Flo 1000 Series #1002, with the popular reusable air filter, offers superior flow capacity, low profile, good filtration, performance benefits and long-term savings. Pro-Flo 1000 is an economical and effective way to keep clean air feeding your engine without the expense of a new filter every few thousand miles. Maintaining Pro-Flo's foam element is simple, just release the spring clip, remove the element, wash in hot, soapy water. Rinse, dry, and reassemble.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

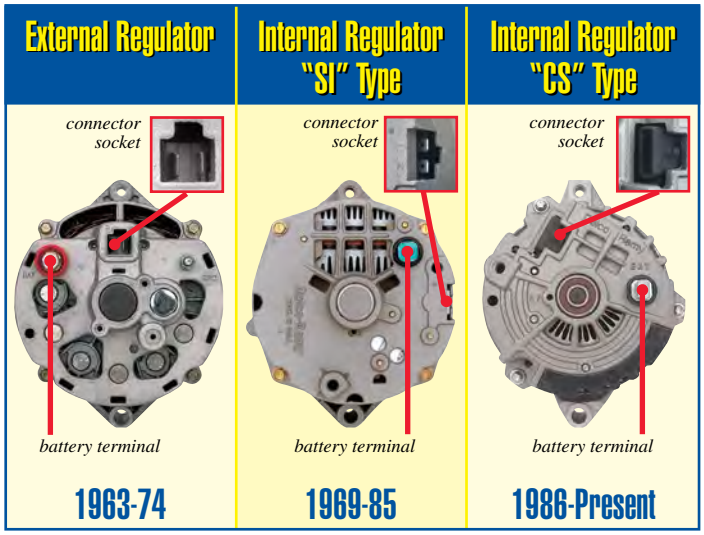
These fasteners are reproductions of the ones used to attach identification tags to starters, generators and distributors. Fasteners are sold in sets of six.

TF700620 1955-57..... 2.69 set

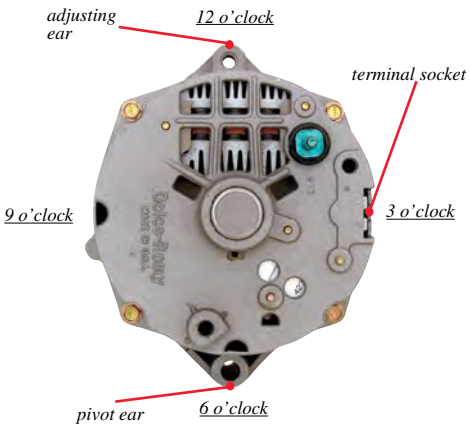
WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

Alternators

Internal and External Regulator Alternator Identification Guide



Clocking Position Identification Guide



The Delco SI series alternators are manufactured so that the rear half of the alternator case can be assembled to the front half of the case in any one of four positions. These positions are referred to as the "clock" positions. Clock positions are determined by viewing the alternator from the rear with the threaded mounting hole (adjusting ear) straight up. With this view, the terminal socket for the two wire, plug-in connector will point to any one of the four available "clock" positions. Straight up is 12 o'clock, to the right is 3 o'clock, straight down is 6 o'clock and to the left is 9 o'clock. Having the different clock positions allows for the alternator to be mounted on the left side or right side of the engine. It can also be mounted right side up or upside down depending on the clock position. This allows for the SI series alternator to be used on many different applications.

Smooth Look Alternator

This is a beautiful new look in alternators. The sharp lines on the back of most alternators have been replaced with a smooth domed surface. The sharp lines around the side have been eliminated and the air vents have been reworked to optimize cooling and surface finish. This chrome alternator is sure to brighten up your engine compartment. This all new alternator will add a custom appearance to your Nova while maintaining a high degree of dependability and performance.

Alternator Components

1955-83 ACDelco Voltage Regulator

A voltage regulator is an electrical device used to control the output of a generator or alternator. Regulators are either external or internal. External regulators are normally located on the fender well in the engine compartment. Internal regulators are mounted in the alternator housing.

Note: Regulators for 10dn alternators are safe up to 60 amps.

External Regulator for Generator

Aluminum Fuel Tank ⚠

Featuring an all new design, this baffled aluminum fuel tank is a high capacity replacement for the factory fuel tank. This fuel tank mounts to the frame and not the trunk floor, allowing for a firm anchor point and also retains use of the factory spare tire well. Our newly redesigned aluminum gas tanks fit between the frame rails, are fully baffled and have an internal fuel trap. They can run an internal or external fuel pump, there is an extra fuel port into the fuel trap so they work great either with carburetor or with fuel injection. Tank measures 28" x 34" x 9-1/2" and includes frame mount cross bar, fuel filler hose, and hardware. Requires use of screw-on style sender part #TF500021 sold separately (compatible with your factory fuel gauge).

Important: Will not work on wagon models. Some drilling to the frame is required. Some vehicles with a 1 piece filler tube may need to shorten the filler tube for the filler hose.

*Note: *For aftermarket non-factory style fuel tank. Shipped double oversize.*

Universal Fuel Tank Anti-Squeak Insulator

Universal style anti-squeak cushions are designed to install between the gas tank and the gas tank straps. These fuel tank anti squeek pads cushion the gas tank from the body and straps to reduce noise caused by metal to metal contact. Replacing or adding the anti squeak pads can help eliminate noise or friction between the fuel tank straps and the body.

24" Anti-Squeek Set

Set contains: two 24" x 2" x .060" anti-squeak strips, two 24" x 1-1/4" molded fuel strap cushions, and one 5-1/4" x 2" x 1/2" neoprene anti-rattle pad.

Gold Standard Fuel Tank Sealer Set

Our 3 step fuel tank sealer set contains almost everything you might need to seal a tank of up to 25 gallons. The Gold Standard Tank Sealer is specifically formulated to stop rust and corrosion by forming a tough, fuel impervious coating while simultaneously sealing small pinholes and weld seams. The prep products are formulated to extend storage times by leaving a zinc phosphate film that prevents rust until you have a chance to seal the tank with the sealer. Complete set and individual items available.

3 Step Fuel Tank Sealer Set

Buy our fuel tank sealer set and save! Each fuel tank sealer set includes: 2 quarts of Klean (a water based, heavy-duty, cleaner/degreaser), 1 quart RustBlast (a powerful rust remover/metal etch), 1 quart Gold Standard Tank Sealer, gloves, instructions, and a stir stick.

Driven Carb Defender

Driven Carb Defender Fuel Additive has been formulated to protect against harmful ethanol deposits and corrosion in fuel and the induction system. Special inhibitors resist expensive damage and reduced performance from moisture accumulation from modern ethanol blended gasoline. This additive controls combustion chamber residue, cleaning and protecting fuel system and intake tract surfaces to keep carburetors functioning properly. Carb Defender is ideal for everyday drivers or classics that spend time in storage between cruises and special events. One bottle treats up to 25 gallons of ethanol blended fuel.

Edelbrock

E1791

Quiet-Flo Electric Fuel Pump

State-of-the-art electric fuel pumps offer maximum performance in a compact package for carbureted applications. Anodized aluminum housing and high-quality internals make it both strong and extremely durable. The E1791 electric fuel pump is factory set to 6.5 psi does not require a regulator. 3/8" inlet/outlet, 120 gph free flow, up to 600 HP. The E1792 electric fuel pump is preset to 12 psi and requires an external regulator. 1/2" inlet-outlet, 160 gph free flow, up to 1000 HP.

Important: *For proper installation and voltage requirements, use fuel pump relay E1795.*

E1791	6.5 psi	280.99 ea
E1792	12 psi	284.99 ea

Edelbrock

Quiet-Flo Electric Fuel Pump

This anodized aluminum EFI fuel pump offers maximum performance in a compact package. The in-line design keeps the pump motor and components cool even under harsh conditions. Features -10AN inlet/outlet with a flow rate of up to 80 gph at 45 psi for high HP fuel injected applications. This fuel pump supports 835 HP at 12 Volts with a current draw of 12 amps at 45 psi. 10AN inlet/outlet 80 gph at 45 psi.

Important: *Dimensions: 6-7/8" x 3-1/4".*

E1790 ..... 798.99 ea

Edelbrock

In-Line Electric Fuel Pump

This in-line electric fuel pump is continuous duty rated and is ideal for EFI applications that require additional pumping capabilities for upgraded modifications. Works superbly as either an in-line booster pump or as a stand alone unit. Use with EFI regulator part #E1728 for adjustability from 35 to 90 psi. 57 gph, 3/8" hose barb fittings. Includes mounting bracket and 3/8" hose barb fittings.

E3594 ..... 307.99 ea

Features:

- Solid-state worry free electronics
- Internal pressure regulating
- Universal design allows for easy installation
- No diaphragms or mechanical parts to wear out
- Hose barbs fit 5/16" fuel hose

Micro Electric Fuel Pump

This compact electric fuel pump features a solid state design that has a low current draw of around one amp and makes a good stand alone pump or booster pump. Designed for carbureted vehicles with a 12 Volt negative ground electrical system, this pump supports 4-7 psi at up to 35 gph. Includes: fittings, mounting hardware and instructions.

Note: *Not for diesel applications.*

71211 ..... 55.99 ea

Electric Fuel Components

Fuel Pressure Regulator

This fuel pressure regulator is machined from aircraft quality aluminum with fluorosilicone diaphragm material for high temperature protection and extended life. This fuel pressure regulator has a single 3/8" NPT inlet and dual 3/8" NPT outlets for carbureted applications and is adjustable from 5 psi to 10 psi, providing extremely consistent pressure regulation. Compatible with all grades of gasoline and methanol, and has a 1/8" NPT gauge port. Includes mounting brackets and hardware. 160 gph.

E1727 ..... 181.99 ea

E1728 E1729

Fuel Pressure Regulator

For those who want the best! These fuel pressure regulators are machined from aircraft quality aluminum and have fluorosilicone diaphragm material for high temperature protection and extended life. The E1728 features dual -6AN inlet ports, a single -6AN outlet and a -6AN external bypass. The E1729 has a longer body and dual -10AN inlet ports, a single -10AN outlet and a -6AN external bypass. Compatible with all grades of gasoline and methanol fuels. Adjustable from 35 psi to 90 psi and has 1/8" NPT gauge ports. 180 gph.

E1728 ..... 199.99 ea
E1729 ..... 204.99 ea

H12886

EFI Fuel Pressure Regulator

Holley 3/8" die-cast aluminum EFI bypass fuel pressure regulators. These regulators are fully adjustable between 15-60 psi. They feature an EFI return port, an 1/8" gauge port and an 1/8" 1:1 boost reference port perfect for fuel injection conversions with or with power adders. 1/8" hose barb fitting included.

H12880

Billet Fuel Pressure Regulator

Holley billet aluminum bypass fuel pressure regulators. Each one is precision machined from 6061-T6 billet aluminum with a black anodized base and a clear anodized top. These regulators are fully adjustable between 4-60 psi for either carbureted or fuel injected applications. They feature an dedicated bypass/return port, an 1/8" gauge port and an 1/8" 1:1 boost reference port perfect for fuel injection conversions with or with power adders. 1/8" hose barb fitting included.

H12879 3/8" inlet/outlet..... 168.99 ea
H12880 6AN inlet/outlet ..... 168.99 ea

EFI Bypass Regulator

Performance EFI regulator designed for medium to high horsepower applications. This regulator features Aeromotive's high flow design, superb pressure control and legendary durability. Features base pressure adjustable from 40-75 psi, gasoline and alcohol compatible, fuel pressure rises on a 1:1 ratio with boost, 1/8" National Pipe Thread taper (NPT) gauge port. Includes 2 o-ring boss fittings (ORB-06) inlet ports and 1 o-ring boss fitting (ORB-06) return port.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

A9713109 adjustable with EFI..... 216.99 ea

Universal Bypass Regulator

A dual purpose, universal regulator for EFI or for Carbureted street/strip applications. Features pressure adjustable from 3 to 20 psi with standard spring, (installed) or from 20 to 60 psi with high pressure spring (included). Offers the full flow and rock steady fuel pressure that only a dynamic, Aeromotive bypass regulator provides. Capable of regulating any fuel pump between 100 and 250 gph, fuel pressure rises on a 1:1 ratio when referencing boost. All ports are 3/8" National Pipe Thread taper (NPT), with one inlet and three outlets on the main body and one return port on the bottom. Bypass design provides the ultimate, dynamic fuel pressure control.

Note: *Requires a return line to be installed from the bottom of the regulator to the top of the tank.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

3 Port 3/8" NPT

A9713301 ..... 216.99 ea

Carbureted Bypass Regulator

For use when converting from fuel injection to carburetion using the EFI pump in a carbureted application. Perfect for naturally aspirated or 'blow-through' supercharged engines. Features base fuel pressure adjustable from 3-15 psi, 1 o-ring boss fitting (ORB-10) inlet port and 1 o-ring boss fitting (ORB-08) return port, fuel pressure rises on a 1:1 ratio when referencing boost, bypass design provides the ultimate, dynamic fuel delivery system, ideal for converting from fuel injection to carburetion using the stock, in-tank pump, EFI conversions will require a larger than stock return line for proper low pressure control. Includes two o-ring boss fittings (ORB-06) outlet ports and 1/8" National Pipe Thread taper (NPT) gauge port.

Note: *Requires Army/Navy fitting (AN-08) return line from bottom of regulator back to top of the tank.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

A9713204 2 port ..... 226.99 ea

Fuel Pump Safety Switch

This safety feature is a must have for any electric fuel pump vehicle. This safety switch monitors the tach signal to limit when an electric pump can operate. When the key is first turned on, the fuel pump is allowed to run for three seconds, priming the fuel system. After that, it only operates if the engine is running. If the engine stops, so does the fuel pump. No plumbing into the oil lines or no extra priming button under the dash is required.

RE12003 ..... 64.99 ea

Fuel Pump Safety Switch

This fuel pump safety switch shuts off fuel flow whenever oil pressure drops below 15 psi. This adds a safety factor in case of an accident or engine stall. Designed for 12 Volt electrical systems and can be teed into the oil pressure sending unit with an 1/8" NPT tee.

77872 ..... 36.99 ea

Fuel Pump Relay

This universal fuel pump relay will ensure proper wiring which reduces the risk of damaging the fuel pump, and offers consistent fuel pressure. This relay is used with fuel pump part #E1791 or #E1792.

E1795 universal relay ..... 79.99 ea

Performance Carburetors

Thunder Series Carburetor

Edelbrock

E1906

Edelbrock Thunder Series carburetors share all the performance advantages of the popular Performer Series but with innovative new features. These carburetors include all of the performance features of the Performer Series carburetors and also include distinctive black hardware, dual fuel inlets (shipped with left side plugged), lightweight ball burnished and CNC profiled body, and the Quick-Tune secondary. They're available in 650 cfm and 800 cfm sizes with manual or electric choke. There's even a 650 cfm version specifically designed for off-road vehicles. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors include an installation kit and owners manual.

Emissions Note: * ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Standard Finish

E1906*	650 cfm	electric choke..	446.99 ea
E1913*	800 cfm	electric choke..	489.99 ea

Performer Series Carburetor

E1405

By design, Performer Series square bore carburetors are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air Gap or Torker II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design. Performer Series square bore carburetors are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The 2 piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. All Edelbrock carburetors come with an installation kit and owners manual.

Emissions Note: * ① *CARB EO compliant (50 states legal).* ** ③ *Non-CARB compliant (not legal for emission controlled vehicles).* †*Black power coated.*

Street Demon Carburetor

D1900

The Street Demon redefines the street carburetor with clean looks, brisk performance, and universal design. Available in 625 and 750 cfm, the Street Demon supports stock and mildly modified V8's with smooth, crisp throttle response. A dual bolt pattern works with most 4 barrel spread bore and square flange intake manifolds. Includes integrated 700R4/200R4 transmission kickdown location and electric choke. Choose from all-aluminum construction or a polymer main body design. Made in USA.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

1306EDL

Race Series Carburetor

Edelbrock VRS-4150 race and performance carburetors are street friendly but race ready. The 3.75" tall cast aluminum main body fits all 4150 and 4500 carb flange manifolds without requiring an adapter plate. Multiple vacuum hook ups keep this carburetor usable on the street but still ready for the track with larger capacity fuel bowls and four circuit billet metering blocks. The floats have corner cuts to avoid shutting off the fuel flow during hard cornering, and jet extender notches and jet extenders in the rear to keep the jets covered in fuel under hard acceleration. The advanced idle circuit features interchangeable idle discharge jets in all four corners to allow for a smooth, clean idle with the use of big, low vacuum camshafts.

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Carburetor Needle and Seat

We offer several needle and seat assemblies for Holley carburetors. The seat size determines how much fuel can flow at a certain pressure. Larger sizes flow more fuel. Tune your Holley carburetor to flow the right amount of fuel at the proper pressure with a new Viton-tipped needle and seat.

Carburetor Parts

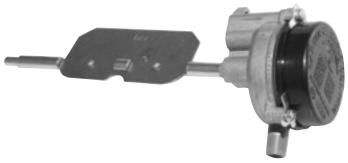
1957 Single Quad Carburetor Choke Cover

Reproduction carburetor choke cover for 1957 models.

TF700511 1957..... 59.99 ea



1957 Carburetor Complete Choke Assembly

To provide the rich fuel mixture required to sustain operation at low engine temperatures, a choke is used to restrict the flow of air at the entrance to the carburetor, before the venturi. With this restriction, extra vacuum is developed in the carburetor barrel, which pulls extra fuel through the main metering system to supplement the fuel being pulled from the idle and off idle circuits. This complete choke assembly includes 170AB238S choke cap set (see part #TF700490). Choke cap made from thermoplastic as original.

TF700482

TF700484

1957 Carburetor Throttle Plates

Chevrolet passenger car carburetor throttle plates. As the throttle is gradually opened from the fully closed position, the throttle plate uncovers additional area behind the throttle plate where a low pressure area is created. This allows more fuel to flow and compensates for the reduced vacuum that occurs when the throttle is opened, thus smoothing the transition in fuel flow metering through the regular open throttle circuit. Made from steel as original.

Chevrolet Headers

1955-57 Patriot Headers

These headers accommodate the GM 605 power steering box conversion and fit most motor mounts. Extra ground clearance makes "slammed" vehicles driveable and above frame rail exhaust system installation easy. Available in raw finish for individual customizing or with Patriot's metallic ceramic coating. Unlike paint or chrome, metallic ceramic coating is easy to keep clean, resist rust and corrosion and will not discolor. Metallic ceramic coating also reduces underhood temperatures. All Patriot headers include installation hardware, collector reducers, gaskets, and instructions.

Note: Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application. Shipped oversize.

Emissions Note: (3) Non-CARB compliant (not legal for emission controlled vehicles).

Patriot Header Notes

1) Does not fit angle plug heads.
3) Fits with stock or 605 steering boxes, aftermarket side engine mounts and rear trans crossmember.
4) Fender well exit.
5) Shorty design for maximum ground clearance.
11) Universal block hugger design.
13) May require smaller front tires to avoid contact.
14) 1955-57 Chevy applications require alteration of emergency brake rod.
15) Can be used with most oil filter systems or transmission and starter combination.
17) Fits most angle plug heads.
19) Check motor mount position before ordering.
23) Will not fit if engine is more than 3/4" forward for HEI firewall clearance.
36) Fits D-Port cylinder heads including ZZ4 crate engines.
37) Fits standard deck big blocks only.
54) Fits with manual and auto trans floor shifts only.
60) Will not work with 168 tooth flywheels or kick out aftermarket starters.
76) Fits with either 3/4" forward or stock location side mounts, rear transmission mount or equivalent and stock or 605 steering box. Stock mid-mount and ears on the frame must be removed.
85) O2 bungs are welded on both collectors.
92) Will fit most angle plug heads including factory Chevrolet "Bow Tie" heads.
105) Original bellhousing frame mounts must be removed.
106) Requires use of Street & Performance (or equivalent) billet aluminum adaptors, along with D & P classics (or equivalent) Chevy frame stands.
107) LS1/LS6 engines require the use of a LS1 oil pan for proper header fit.
108) Will fit with 605 power steering box.
192) Header is designed to fit cars using original V8 pitman arm not 6 cylinder pitman arm. Aftermarket pitman arms must be same as OE for proper header fit.
211) Designed to fit with Maval/Unisteer rack and pinion steering systems.
212) Will not fit manual transmission vehicles with factory Z bar clutch linkage.

Patriot Emission Notes

3) Legal only for off-highway use (except in California or states that have adopted California emission standards), racing use or for use on pre-emission controlled motor vehicles/motor vehicle engines (pre-1974 domestic vehicles certified to California standards, pre-1974 domestic vehicles certified to federal standards and all pre-1974 foreign vehicles), per the manufacturer's application guide.

Hedman Hedder Notes

1) Without smog injection or injection heads.
3) Front motor mounts only.
6) Modification to stock exhaust required to retain catalytic converter.
15) Shortie Hedder (Max. ground clearance).
25) Engine swap, all parts must be factory stock.
103) Will fit with angle plug heads – Chevrolet aluminum only.
208) Due to aluminum cylinder heads on GEN VI engines, 502 BB Chevy will have clearance problems on some applications. Bottom of header flanges may hit head bolts. Notching may be necessary.

Hedman Hedder Emissions Notes

C) For vehicles 1964 through 1974 without A.I.R. system, considered as OE replacement parts when existing emission controls are not removed from vehicle.

1955-57 Doug's Headers

Header design and development is complex and requires a substantial amount of time and resources to do the job right. Doug's has made that commitment, and their name has become synonymous with quality. There's no compromise at Doug's. Every header is tuned with the proper tube size and length to efficiently remove all the exhaust from each cylinder, reducing pumping losses for dramatic gains in horsepower and torque. Doug's headers are carefully developed on the vehicles they are intended to fit and are checked and rechecked numerous times during the design and manufacturing process. Doug's headers are available for 1955-57 Chevrolet passenger car models with small block or big block V8 engines and console or column shifters as noted. Once you check the heavy-duty 1/2" to 5/8" thick machined and finished header flanges, the smooth mandrel bent tubes, and the attention paid to assembly, you'll want Doug's. Metallic Ceramic Thermal Barrier Coating (MCTBC) is simply the best header finish on the market, and is the standard finish on all Doug's headers. MCTBC protects and extends the life of headers by creating a thermal barrier that significantly lowers underhood temperatures, while protecting substrate metal from thermal fatigue. Doug's finishes their headers with a vibratory finishing process that compresses and activates the coating, significantly increasing surface hardness to produce a coating 60% more corrosion resistant than standard header coating. This coating is easy to maintain and will not change color under normal operating conditions. Once you check the options, you'll buy Doug's.

Note: *Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application. Shipped oversize.*

Emissions Note: ③ *Non-CARB compliant (not legal for emission controlled vehicles).*

Doug's Header Notes

4) Fender well exit.
5) Shorty design for maximum ground clearance.
13) May require smaller front tire to avoid contact.
23) Will not fit if engine is more than 3/4" forward for HEI firewall clearance.
36) Fits D-Port cylinder heads including ZZ4 crate engines.
60) Will not work with 168 tooth flywheels or kick out aftermarket starters.
76) Fits with either the 3/4" forward or stock location side mounts, rear transmission mount or equivalent and stock or 605 steering box. Stock mid mount and ears on the frame must be removed.
85) O2 bungs are welded on both collectors.
92) Will fit most angle plug heads including factory Chevrolet "Bow Tie" heads.
105) Original bellhousing frame mounts must be removed.
106) Requires use of Street & Performance (or equivalent) billet aluminum adaptors, along with D & P classics (or equivalent) Chevy frame stands.
107) LS1/LS6 engines require the use of a LS1 oil pan for proper header fit.
108) Will fit with 605 power steering box.
125) Fits Edelbrock angle plug heads.
126) Tri-Y design.
133) Will not fit with Powerglide transmission.
137) Does not fit 4-speed applications with bell housing mounts.
187) Will fit 572 tall deck (10.2") crate engine or equivalent.
192) Header is designed to fit cars using original V8 pitman arm not 6 cylinder pitman arm. Aftermarket pitman arms must be same as OE for proper header fit.

Doug's Emission Notes

3) The product accompanying this document is legal only for off-highway use (except in California or states that have adopted California emission standards), racing use or for use on pre-emission controlled motor vehicles/motor vehicle engines (pre-1974 domestic vehicles certified to California standards, pre-1974 domestic vehicles certified to federal standards and all pre-1974 foreign vehicles), per the manufacturer's application guide.

Wedge Locking Header Bolts

Wedge locking header bolts were designed to keep bolts from backing off. These bolts feature special washers with hardened serrated teeth. The washers bite into the bolt head and the top surface of the header. After being self-locked in this manner, any loosening rotation is blocked by a wedge locking action. They are reusable and you can count on them to not fail. Grade 8.

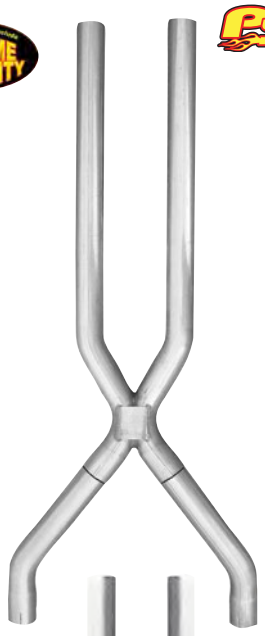
10778	3" single, 2-1/2 dual	101.99 ea
10798	3" pipe, 3" dual.....	79.99 ea



Tunnel X-Crossover

Since a V8 fires alternately, exhaust exits in pulses rather than a steady flow. While one pipe is filled with pressure the other pipe is relatively pressureless, but connecting the two pipes in a Siamese pattern allows pressure to be equalized between the two tailpipes. This action allows the exhaust to pass through quicker for better breathing that increases horsepower. The Pypes crossover product line is defined by a high-quality, exceptionally versatile design. They are a proven winner when it comes to bumping up the horsepower of your daily driver or race car. Pypes tunnel X-crossover fits 1955-57 Tri-Five models with easy installation. All crossovers are made of 409 stainless steel with dual reinforcement plates at the welds where they are needed most. All pipes are mandrel bent to allow for the maximum flow of exhaust gasses, which boosts acceleration. Limited lifetime warranty.

Important: If using stock, cast iron manifolds, add a set of down pipes to connect your original manifolds to the header back system.

Note: Shipped oversize.

Low Line Lake Pipes... The Look is Back!

Get the retro look with a set of chrome lake pipes on your vehicle! This look was popular in the late 1950's and early 1960's. When setup as a functional feature, it allowed the racer to uncap or "dump" the exhaust for increased exhaust flow when racing. The use of a cap was allowed for quieter operation during street driving. It also provided the vehicle with a lower "lead sled" look. These pipes do not incorporate any silencing materials and are recommended for nonfunctional use only. Choose from three styles – slanted outlet without cap, triple outlet with caps or single outlet with cap. Available in 3 lengths to suit your needs. Chrome pipe measures 2" in diameter. Mounting clamps sold separately.

Note: Shipped oversize.

1955-56 Flat Exhaust Flange Gasket

This is a very important often forgotten item. Exhaust flange is between the head pipe and the exhaust manifold. If this is blown out or missing you could suck in cool air and crack a valve.

TF700369	1955-56	2 bolt flange	12.99 ea

1957 Exhaust Flange Gasket

This is a very important and often forgotten item. Exhaust flange is between the head pipe and the exhaust manifold. If this is blown out or missing you can risk allowing cool air in, which can crack a valve.

TF700371	1957	2-1/2"	9.99 ea

1955-57 Exhaust Pipe Packing Gasket

Reproduction heat resistant gasket installs between the head pipe and exhaust manifold outlet. Measures: 2" i.d. Fits 2" outlet exhaust manifolds.

F842515

Super 10 Series Muffler

Looking for the most aggressive sound available? Flowmaster's new Super 10 series mufflers are so aggressive, they aren't recommended for street driven vehicles. Best suited to racing applications, these feature the same Delta Flow performance technology used in the highly popular Super 40 and Super 44 series Flowmaster mufflers. Manufactured from durable 409S stainless steel for long-life and offered in a variety of configurations. Backed by a limited lifetime manufacturer's warranty, these short, single chamber mufflers deliver the closest thing to open pipe sound possible. If you want high impact sound, the Super 10 series mufflers are the answer. Measures: 6-1/2" x 9-1/2" x 4".

Note: *These mufflers are recommended for off-highway use, not for street driven vehicles.*

F42441

40 Series – Original Flowmaster Tone

This is the most "aggressive" sounding street/strip muffler that Flowmaster offers. If you're looking for attention, this one will get you noticed. The standard 40 series has an "aggressive rumble" and will generally resonate inside the vehicle around 1800-2000 RPM's, and again at 2400-2600 RPM's. Constructed of 16 gauge aluminized steel and fully MIG welded for maximum durability.

Universal Super Turbo Muffler

Exclusive patented flow directors channel exhaust flow and eliminate turbulence, larger diameter internal tubes for maximum flow, along with fiberglass matting that delivers a mellow, true performance sound. All aluminized materials, double wrapped and arc welded for longer life and sharper appearance. All universal mufflers are reversible for custom installation.

Important: Sport model from 2" to 2-1/2" measures: 4" x 9-3/4" x 18-1/2" and 3" measures: 4" x 9-3/4" x 20", Street model measures: 4" x 9-3/4" x 25-1/2".

Screamer Twintronic Muffler

With the success of QTP's electric cutout they took it to the next level, A dual mode muffler with a single inlet with a dual outlet. One outlet is a straight pipe with a valve at the end on a 360 degree floating flange for total adjust ability. When the valve is open you get the loud and free flowing exhaust system. Close the valve and the exhaust gases are diverted through the muffled section to get the quiet mild mannered sound. This is the only system out there that can give you exactly what you want. Other systems that make the power are loud and drone all the time which gets old. Other systems are on the quieter side, which lacks the power. With all the noise restrictions coming out The Screamer is the only system that gets you the power and sound you desire! All systems are stainless steel for clean look and made in the USA.

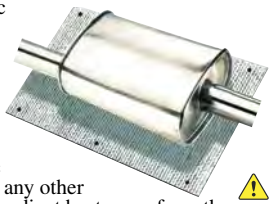
Keep Cool! Reflect Radiant Heat!



The Muffler/Catalytic Converter Heat Shield™ is made up of woven silica with a flexible mylar finish. The highly reflective heat shield can be installed between the catalytic converter, muffler, or any other component to reflect radiant heat away from the undercarriage of the vehicle. Kit includes one 24" x 40" Mylar heat shield and all necessary fasteners.

TT1007	muffler heat shield	76.99 ea

Muffler & Tailpipe Repair

Putty and sealer seals holes and leaks in mufflers, tailpipes, and around joints. Makes new installation more secure. Resists temperatures up to 2000 degrees F. Epoxy impregnated fiberglass bandage chemically welds mufflers and tailpipes. Great for mufflers, tailpipes, joints, and catalytic convertors.

Mufflers

Street Pro™

Race Pro™

Violator™

409 Stainless Muffler

Pypes Street Pro mufflers are chambered to maintain rich sound without resonance, Sound Rating = 7.0-7.5/10. When it comes to flow, you just can't get anything better than our Race Pro Muffler. Race Pro mufflers have a straight through design, Sound Rating = 7.0/10. Violator mufflers have an internal louvered tube with mini sound deflector chambers, making it flow like a straight through muffler but with the sound of a chambered muffler, Sound Rating = 9.0/10. Each muffler case measures: 4" x 9" x 14".

MWA High Performance Muffler

The Gibson MWA Muffler delivers maximum sound and the best muffler flow period! This straight-thru design promotes exhaust gases to flow at the highest rates flowing only 3 cfm less than a 3" straight pipe, improving power potential while keeping interior drone to a minimum. The MWA muffler has no internal packing or weak baffles, allowing it to maintain a lightweight design with a unique and powerful sound. The MWA muffler is Made in the USA and is constructed of high-quality stainless steel. When its time to make your Hot Rod or Sport Truck sound and perform as good as it looks, there is no other choice than Gibson's MWA, "Muffler With Attitude".

CFT Superflow Muffler

Gibson's CFT Superflow muffler with Convergent Flow Technology actually tunes your exhaust by using resonance chambers, directional louvered tuning ports and angular induction to draw exhaust gases into the muffler and expel it at a higher velocity. The result is a muffler that doesn't have packing to wear out, yet delivers more power and a performance sound. This muffler features a chambered and louvered core, to ensure no sound degradation overtime, and fully welded solid internal construction. This result delivers more power with a deep tone.

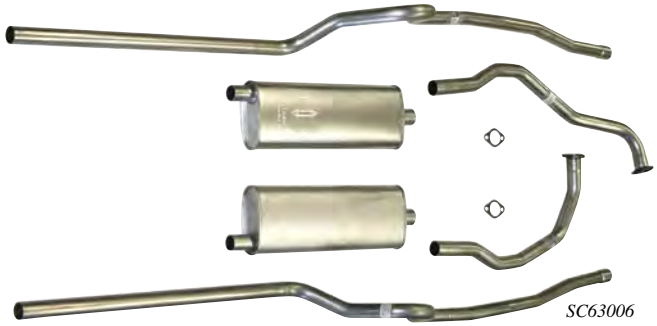
Exhaust Systems



SC63006

Original Style Exhaust System — Aluminized

OE style aluminized exhaust systems for 1955-57 Chevrolet passenger car models. These original style exhaust systems are manufactured in heavy 16 gauge aluminized steel (mufflers aluminized inside and out) in correct size 23" body for 1955 Chevrolet models and 1955-57 convertibles and 29" body size for 1957 (except convertibles). All systems feature notched tip tailpipes as-original and all exhaust systems are mandrel bent for improved performance and exhaust flow. Each system includes the exhaust header pipes and two header pipe flange gaskets as required.

Important: *1957 exhaust pipes do not have the crossover holes drilled in the pipe. This allows the customer to decide if they want the exhaust to flow through the crossover pipe or not.*

Note: *Clamp and hanger set sold separately. Special rate shipping charges apply.* SPL

Exhaust Systems

TF700331

1955-57 Tri-Five Crossmember Back Exhaust System

The classic of all classics. You should be proud of it but don't short change the ultimate classic with anything but the ultimate exhaust system. Upgrade your exhaust system! Performance exhaust system for your Chevrolet Tri-Five is a treat for the eyes when you see how easy it is to install, your ears when you fire it up and your ego when you step on the gas. These systems include an X-Pipe or X-Change pipe that has side dumps that you may install electric cutouts for "flip of the switch" convenience, performance matched mufflers or without mufflers, stainless steel hangers, and a set of tailpipes that allow for straight out the back or side exit.

Note: Shipped double oversize.

1955-57 Crossmember Back Performance Exhaust

Every performance mod for your Chevrolet model is designed for one thing. To put more power to the ground! Magnaflow's Chevrolet systems start with mufflers specifically designed with internal paths that ensure fast, equalized exhaust flow so that both sides flow the same. The Crossmember back systems are built with fast flowing mandrel bent stainless steel tubing that feature Magnaflow's Tru-X crossover pipe. Plus, Magnaflow's wide open performance mufflers outflow OEM chamber style mufflers by as much as 167%, all of which reduces engine heat and back pressure and improves exhaust scavenging from the combustion chamber for much stronger performance. These complete systems minimize the power robbing effects of the OEM system to maximize torque and horsepower from the engine. These exhaust systems offer multiple exit options. Magnaflow is the wide open performance muffler with a smooth, deep tone!

Universal Dual Electric Cutout Set

The optional electric exhaust cutouts and make uncorking your exhaust as easy as flipping a switch. Electric cutout set includes: 2 valves, wire harness, switch, mounting hardware, and 2 gaskets. Limited lifetime warranty. Available with or without Y-pipes. Made in USA.

Note: **Connects to any 2-1/2" exhaust with a straight section of approximately 12" in length and enough clearance for the motor/valve assemblies.*

For use with 2-1/2" or 3" Y-Pipes (Dump Legs)

25057

Stainless Steel Electric Cutout

These cutouts feature a rugged 12 Volt DC motor and rotating gate for a leak proof seal every time the cutout is opened and closed. When fully opened, these cutouts do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly style cutouts. A pre-wired harness with an illuminated rocker switch is supplied for easy installation. Uncork your exhaust with the flip of a switch from your dash. The cutouts are ideal for race tracks that don't require mufflers. Available individually, in pairs, or in complete kits with Y-Pipes for easy installation. Made in USA.

Important: *Not recommended for vehicles equipped with catalytic converters.*

Electric Exhaust Cutout

Don't crawl under your vehicle to uncork your exhaust ever again by switching to electric cutouts. Keep them closed and quiet for the street, wide open for the strip, or anywhere in between with the flip of a switch. You control the volume and the power! Available in sizes 2-1/4" to 4" and a low profile oval design for applications with limited ground clearance. Fits 2-1/4" to 3" round exhaust pipe. Built with high-quality materials CNC 6061 aluminum body and motor plate, stainless steel shaft and butterfly plate, high torque DC gear driven motor, weather tight wiring connectors, and custom illuminated toggle switch.

Note: *Match valve size with cutout size for optimal fit and performance.*

Exhaust Components

12 oz. net weight can | *half pint (8 oz.)* | *pint* | *quart* | *gallon* | *XTC primer 12 oz. net weight can*

02-jet black | *05-cast iron gray* | *08-off-white* | *28-pure white* | *10-flame blue*

03-aluminum | *06-rocket red* | *07-Pontiac metallic blue* | *23-stainless steel* | *25-charcoal metallic*

Xtreme Temperature Coating

XTC is a high temperature/heat resistant coating formulated specifically to protect metal surfaces operating at temperatures from 500 to 1500 degrees F. With proper preparation, XTC provides outstanding adhesion, film integrity, weathering, and thermal shock resistance throughout this entire temperature range, and is guaranteed not to burn off! Available in your choice of a wide variety of colors and sizes.

Note: *8 oz. will coat approximately 3 sets of automotive exhaust manifolds with 2 coats or coat a set of shorty headers with 2 coats. Pints will coat a set of full size headers with 2 coats or coat a complete automotive exhaust system with 2 coats.*

Xtreme Temperature Coating

Important: *When ordering, select the part number for the size of the can you need, then add the two digit numerical color code to the end of the part number to specify your desired color.*

KB655	one gallon	specify color	247.99 ea

Xtreme Temperature Primer

XTC Silicone Zinc Primer prevents corrosion of metal surfaces exposed to high heat, high humidity, condensation, and salt air. It functions much like galvanizing as it locks itself to bare metal surfaces leaving a perfect primed surface for top coating. Available in a wide variety of sizes.

KB65100	12 oz. net weight	primer	24.99 ea
KB65400	one quart	primer	125.99 ea
KB65500	one gallon	primer	379.99 ea

Hi-Heat Coating

The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface, extend the life of wrap by protecting it from friction, and seal the pores to minimize the penetration of harmful liquids. The coating also works excellent as a paint directly on metal surfaces.

Note: *Shipped within the continental U.S. only. Shipped ground only.*

Thermo-Sleeve

Thermo-Sleeve is the combination of a high temperature fabric laminated to a highly reflective Mylar foil. It provides protection from radiant heat for hoses and wires. Thermo-Sleeve's ultra lightweight construction provides more insulation than traditional bulky rubber coated fiberglass. The aluminized sleeve reflects more than 90% of radiant heat, plus it is fireproof and oil resistant! Thermo-Sleeve is available in 3' or 12' lengths.

Exhaust Components

Reduce Underhood Temperatures!

Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust Insulating Wrap™ withstands continuous heat up to 2000 degrees F, and contains no asbestos. Will not over insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec® Thermal Conduction Technology (TCT) that conducts heat across the wrap's surface. The 1/16" thick wrap is available in 1 inch or 2 inch widths in 15' or 50' rolls. Choose from off-white or graphite black.

Off-White Exhaust Wrap

TT1009	1" x 15' short roll	9.99 ea

TT1014	2" x 50' long roll	48.99 ea

Reduce Underhood Temps Up to 70%!

The new quick wrap, high velocity Exhaust Jackets™ are an innovative way to insulate and block radiant heat. The jackets cover the header tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermal Conduction Technology (TCT), developed by Thermo-Tec®, and can be applied with the headers in the vehicle.

TT1015	4-6 cylinder	82.99 ea
TT1016	8 cylinder	93.99 ea

This Flexible Heat Shield Clips Into Place!

The Header Manifold Blanket provides excellent heat retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminized side facing away – offering protection from abrasion and harmful liquid spills. The Header Manifold Blanket is available in 2 sizes: two 20" by 24" blankets for V6 and V8 applications, and one 36" by 40" blanket for straight 6 and 4 cylinder engines.

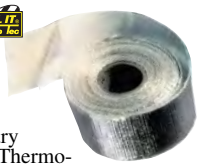
Shield Plastic or Rubber Hoses and Wiring from Radiant Heat!



Thermo-Shield™ protects hoses and wires from radiant heat. Unprotected, rubber hoses and plastic or rubber insulated wiring can dry out, melt or crack over time. Thermo-Shield™ is used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. Reflects radiant heat up to 2000 degrees F. Provides a barrier against the extreme conditions that underhood components are exposed to. Wrap your fuel lines and say good-bye to vapor lock.

- Outlaw Shifter (optional)
- Paddle Shifter (optional)
- Dipstick and Tube

6-Speed Transmission

The innovative TCI 6X six-speed automatic transmission, based on the 4L80E, is designed for Chevy small block, big block, and LS engines to handle both everyday driving and race vehicles up to 850 HP. Six forward gears allow breakneck acceleration as well as fuel efficient low RPM cruising, while a handheld programmer allows shift point adjustment. Each transmission is Dyno-tested and supplied with a serial numbered spec sheet with performance test scores.

Important: *4-speed automatic shifter is required for standard operation. Electronic manual shifting requires the optional paddle shifter or TCI Outlaw Shifter. Paddle shifter is designed for 5 or 6 bolt steering wheel adaptors.*

Note: *Some modification may be required. Special order, must be prepaid. Shipped truck freight.*

- New valve body separator plate
- All new Torrington bearings

4L80E 4-Speed Transmission

If your GM produces 650 to 1000 ft lbs of torque, you need a Bowler custom 4L80E performance transmission. Bowler transmissions are built to order, tailored to your specifications, and unlike assembly built transmissions, every Bowler unit is built by an individual technician start to finish and dyno-tested before shipping. Includes flexplate, converter, computer, and accessories. Modifications may be needed for fitment. Please allow 4 to 6 weeks for your custom transmission to be built.

Important: *Does not include driveshaft or crossmember.*

Note: *Special order, must be prepaid. Shipped truck freight.* TRUCK

1965-96 Tork Master™ Torque Converter

Similar in performance characteristics to the HoleShot™ series, the Tork Master™ is B&M's lowest cost performance torque converter. The Tork Master™ is an excellent all-around performance street converter for small block Chevy. The Tork Master™ torque converter is not recommended for big block or supercharged applications.

*Note: * = 30 spline version.*

Tork Master™ 2000 – 1900-2100 RPM Stall Speed

223055

1967-96 HoleShot™ Torque Converter

A higher than stock stall speed as delivered by the HoleShot™ converter will provide several advantages and benefits in vehicles with modified engines. Big cams tend to reduce low end power and torque. The high stall converter allows the engine to launch the car at higher RPM where more torque is available. The HoleShot™ is a very good choice for the typical street Camaro that is looking for better launch capability. Not recommended for N2O equipped engines. Stall speed listings are based on engines producing 230 ft lb of torque at 2500 RPM. More torque at 2500 RPM will give you a higher stall speed, less torque at 2500 RPM will give you a lower stall speed than the stall speed ratings indicated.

*Note: *Requires 10-3/4" or dual pattern flexplate. **30 spline version.*

1955-97 Flexplate

B&M SFI spec 29.1 approved flexplates ensure that the ring gear or flexplate center will not fail (explode) at high RPMs. Dual bolt patterns accommodate a variety of transmission applications. 153 tooth flexplates feature 10-3/4" bolt circle. 168 tooth flexplates feature both 10-3/4" and 11-1/2" bolt circles. Ideal for street applications to extreme duty racing and high RPM use, above 6000 RPM.

Switch-On High-Performance Driving Fun!

ShiftPlus™ simply recalibrates your transmission's hydraulic system electronically. The ShiftPlus™ shift firmness not only makes driving more fun and pleasurable, but slippage and heat are reduced – extending the life of your transmission! Anyone can install a B&M ShiftPlus™ in minutes with a few simple hand tools. This new design allows you to improve the transmission's shifting performance without removing the transmission pan or valve body. The B&M ShiftPlus™ electronically enhances shift quality and is adjustable. A simple flip of the switch allows the transmission to operate in the performance mode. Flip it back and you are back to stock!

223101	4L60-E		90.99 ea

1962-79 700R4 Torque Converter Lockup

For 700R4 transmissions with square 4 pin connectors. Can be used without the factory computer (ECM). This unit is electronic, NOT vacuum controlled. It reads speed of the vehicle through a sensor that attaches to the speedometer cable. Transmissions with factory internal speed generators must be converted to cable drive to use this unit. Locks up the converter at a set speed and unlocks it when the signal generator senses the vehicle speed is below lock up speed or when braking. This unit is set to lock the converter at 42-47 MPH and can be adjusted if necessary.

TF900630	700R4		269.99 ea

1962-79 Torque Converter Lockup

The B&M torque converter lockup provides a dash mounted control to govern converter lockup at any speed between 30 and 90 MPH. LED dash indicator displays when converter is locked or unlocked. Set includes: an adjustable control box with locked and unlock indication, speed sensor with cable adaptor for mechanical speedometer, wiring, and complete instructions. For GM TH200, TH350, TH700R4,4L60, & 200-4R transmissions.

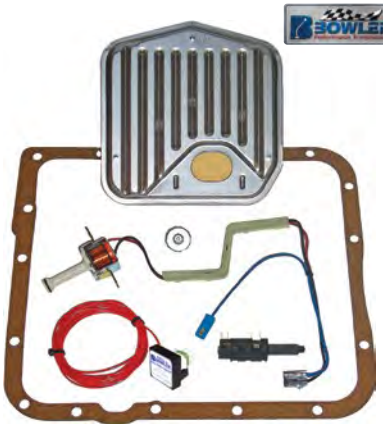
Transmission Components

60109

2004R/700R4 Torque Converter Lockup

The Painless torque converter lockup set uses a vacuum controlled switch and a 4th gear pressure switch to control the torque converter lockup solenoid, locking it into 4th gear. Includes: vacuum switch, 4th gear pressure switch, brake switch, torque converter lockup solenoid, wire harness, new transmission pan gasket, mounting hardware, and instructions.

60110	TH200-4R	209.99 set
60109	TH700-R4	209.99 set



A9800116

Sets Include:

- Single wire lockup control module
- 4th gear pressure switch
- New internal wiring harness with lockup solenoid for 700-r4 and 200-4r
- Brake switch,
- Pan gasket and filter with detailed instructions.

2004R/700R4 Torque Converter Lockup

The Bowler lockup set uses a pressure switch, not vacuum like Painless or a speed sensor like B&M. Their set allows engine to regain proper RPM before allowing the converter to lockup. Usually lock up occurs immediately after shifting into 4th gear, which can lug down the engine and cause poor performance. Module works off of pressure to allow a 8-12 second delay after shifting into 4th gear before the converter locks up. Converter locks up with adequate RPM gain after 4th gear and unlocks automatically with down shift or touch of brake. It will not allow lockup in any gear except 4th.

223071

Key Features:

- Provides crisp shifts on any stock AT.
- Eliminates soft sluggish shifts, shift overlap, and excess wear on clutches and bands due to slippage.
- Improves transmission life.
- Transmission removal not required.

1965-01 Shift Improver Kit

The B&M Shift Improver Kit™ is the easiest way to get the stout performance you've always wanted out of your automatic transmission and you get two modes of performance to select from: Heavy-Duty, or Street/Strip.

Stage 1-Heavy-Duty – Firm positive shifts without loss of driver comfort for improved performance in all street vehicles. Recommended for regular passenger vehicles.

Stage 2-Street/Strip – Provides very positive shifts for high-performance street use or for competitive events. This model is for the enthusiast who wants the hardest, quickest possible shift.

223077	1993-01	4L60E	66.99 set

223095

Key Features:

- Select the mode that best suits your application.
- Improves transmission life.
- Transmission removal not required.

1965-93 Transpak

The next step up from the Shift Improver Kit™ is the Transpak™. It has all the features in the Shift Improver Kit™, plus it provides additional driver manual control (TH400, TH350 only). With the Transpak™, you can downshift at any speed, and you can hold the transmission in first gear to any speed that you want!

Stage 1 Heavy-Duty – For street rods, normal passenger vehicles or other heavy-duty use. Firmer shift feel but not harsh. Improves transmission performance and life dramatically without loss of comfort. Normal automatic operation when in "Drive".

Stage 2 High-Performance Street – For full performance street use. Essentially the same as Heavy-Duty mode except shift is much quicker. Retain full automatic features and standard shift points with selector in "Drive".

Cast Aluminum Transmission Oil Pan

Fight high transmission temperatures with these specially cast transmission oil pans. The sand cast aluminum construction features raised heat sink fins for improved cooling, its 3/16" thick wall construction to add strength to the transmission case, and it includes a special 3/8" thick gasket flange that will not bend as the bolts are tightened. The gasket surface is also machined for a secure seal, and the transmission pan is designed with a magnetic drain plug for easy maintenance. Available in either standard capacity or deep sump for added capacity and powder coated black, "As Cast", or polished. There is a pan to suit every need. Each transmission pan includes all necessary mounting hardware.

Note: Gasket and filter not included.

No More Messy Oil Splash!

End the messy job of draining transmission fluid forever with a Transmission Drain Plug Kit from B&M. Only a few automatic transmissions are equipped with drain plugs from the factory. If you're not one of the lucky few, then you can install one yourself very easily. Simply remove the pan once, drill a hole, bolt the B&M Drain Plug Kit in, and eliminate messy oil splash forever. Non-magnetic. Universal fit.

223300	drain plug	13.99 ea

Transmission Pan FilterMag

FilterMag's powerful rare earth magnets trap and hold wear inducing metal particles smaller than 40-microns down to 1-micron that the filter cannot stop. The super strong magnetic force holds FilterMag to a steel trans pan, is reusable, and will reduce maintenance costs by extending the life of your oil. The super strong automatic transmission FilterMag mounts to the outside bottom of the pan and will keep metal particles from harming your transmission.

Pour In Performance!

Trick Shift™ was originally developed by B&M for racing applications. It's become so successful that it's the most popular high-performance fluid on the street also! Not an additive, this is the best performance ATF available! Trick Shift™ is the easiest way to measurably improve the transmission performance of your vehicle. Trick Shift™ works with all automatic transmissions when a firmer shift is desired. "Pour in Performance" isn't just a catchy phrase – it's reality! It can be mixed with stock type transmission fluids, however to attain maximum improvement you should use Trick Shift™ exclusively. Ideal for towing, light trucks and RV applications as well as racing.

***Important:** Not recommended for electronically controlled automatic transmissions.*

New!

Heavy-Duty AT Cooler with Fan

Extend the life of your automatic transmission with Mishimoto's heavy-duty transmission cooler. Features 100% aluminum, tube and fin construction and a high flow 8" fan to provide maximum cooling for your transmission. Measures: 12.5" x 7.45" x 3.5" (including fan). Includes mounting hardware.

MM13059 universal..... 172.99 ea

Hi-Tek Transmission Cooler

The Hi-Tek automatic transmission cooler is perfect for demanding street/strip and even towing applications. At 175 degrees, a thermal switch activates the high flow 12 Volt 7" electric fan. Durable, oven brazed aluminum construction promises years of performance. The 1/2" NPT fittings are easily adaptable to AN fittings and steel braided cooler lines, or can be used with standard rubber or steel lines. Measures 10" x 7-1/2" x 4" and includes electrical connectors and detailed instructions.

70298 universal..... 393.99 ea

Transmission Fluid Cooler

Transmission fluid is designed to act as a coolant as well as a lubricant for your transmission. If the transmission fluid is allowed to get too hot, performance drops, varnishes form, and the fluid starts to break down, which can lead to premature wear. Flex-a-lite heavy-duty cooler can help prevent this by keeping the temperatures down, helping to ensure longer life to transmissions and components, and reduce the stress created by high-performance transmissions. Also suitable as a power steering cooler.

Important: *Depending on application and setup, additional fittings or adapters maybe required.*

Note: *Dimensions: width = 11", depth without fan = 3/4", with fan = 3-1/4"; height varies.*

3/8" Barbed Fitting

With Fan 10" Diameter Fan

Automatic Shifters

Key Features:
- Unique multi-positioned trigger for user comfort in various shifter positions.
- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle and cable.
- Can be used with a reverse pattern valve body.

The Most Comfortable Shifter We Offer!

The B&M Hammer™ shifter may just be the most comfortably operated automatic shifter you can buy. Grab the handle of a Hammer™ shifter and it feels like it was molded to your hand. The unique design easily fits small to large hands and provides the appropriate wrist angle. The multi-position trigger is spoon shaped for easy finger operation in a multitude of grip positions. Ratchet shifter for TH400, 350, 250, 200, 700R4, 200-4R, 3- and 4-speed automatic transmissions.

Important: *Not for original consoles.*

223016 Hammer™ shifter ..... 305.99 ea

Key Features:
- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle, and cable.
- Can be used with a reverse pattern valve body.

High-Performance Ratchet Action!

The Megashifter™ is one of B&M's all-time classic designs due to it's timeless good looks and high-performance ratchet action. And, it's ideally suited for most popular universal applications. For TH400, 350, 250, 200, 700R4, 200-4R, 3- and 4-speed automatic transmissions.

Important: *Not for original consoles.*

223017 Megashifter™ shifter ..... 431.99 ea
223306 replacement shift boot..... 35.99 ea

Key Features:
- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting. You can't miss a gear.
- Neutral safety switch, back-up light switch, lighted gear indicator, chrome knob and cable.
- Can be used with a reverse pattern valve body.

Classic Style and Stout Performance!

You want style and stout performance wrapped up in a classic package? The B&M QuickSilver™ shifter is your answer! This top of the line ratchet action shifter provides performance shifting without a trigger. To get into park or reverse from drive, just lift the knob/stick assembly and move it forward into position! And it's cable operated for easy installation and precise shifting. For TH400, 350, 250, 200, 700R4, 200-4R 3- and 4-speed automatic transmissions.

Important: *Not for original consoles.*

223018 QuickSilver™ shifter..... 395.99 ea
223307 replacement indicator decal .. 20.99 ea

- Base can be trimmed to custom fit any floor.
- Neutral safety switch, back-up light switch, lighted gear indicator, black T-handle and cable.

The Perfect Shifter for Your Daily Driver!

The Sport Shifter™ may be a low cost alternative to B&M's top of the line MegaShifter™ – but it performs as if it was twice the price! The Sport Shifter™ is not a ratchet shifter and not intended for racing applications, but it makes a perfect addition to any street machine – making daily driving something to look forward to. Utilizing a simple detent action between first, second, high, and neutral, it features a lighted gear indicator, black plastic T-handle, neutral safety switch, back-up light switch, and flat aluminum stick. For TH400, 350, 250, 200, 700-R4, 200-4R, 3- and 4-speed automatic transmissions.

Important: *Not for original consoles.*

223019 Sport Shifter™ shifter..... 296.99 ea

Key Features:
- Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch and polished aluminum T-handle and cable.

Straight Line Detent Shifter

The B&M StarShifter is one versatile 3-speed automatic shifter – wrapped up in a clean, timelessly styled package! In the normal mode the StarShifter is a straight line detent shifter. When the lever is in low, lift the trigger all the way and pull the stick back to convert to ratchet action. Move the stick forward for the 1-2 and 2-3 shifts. Cannot be used with reverse pattern valve body. For TH400, 350, 250, 200 automatic transmissions.

Important: *Not for original consoles.*

223020 StarShifter™ shifter..... 278.99 ea

Key Features:
- Base can be trimmed to custom NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, black T-handle and cable.

More Bang for the Buck!

The B&M Z-Gate™ shifter combines classic styling, performance and a popular price. If you're building a project on a budget, or just want to upgrade your automatic shifter, the Z-Gate™ is the only choice! Great for most 3-speed automatics, the patented 'Z' shaped architecture eliminates the possibility of over shifting and missing a gear. Even more, this easy to operate shifter has many of the features found in our top of the line units, and it includes a T-handle and T-trigger – so you get the most bang for your buck! For TH400, 350, 250, 200 automatic transmissions.

Important: *Not for original consoles.*

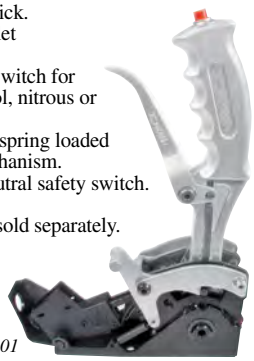
1300041	aluminum cover.....	101.99 set

Key Features:
- Forged aluminum stick.
- CNC-Machined Billet Pistol-Grip handle.
- Snap action thumb switch for operating roll control, nitrous or trans brake.
- One hand operated, spring loaded reverse lockout mechanism.
- Factory installed neutral safety switch.
- Cable operated.
- Optional cover kits sold separately.



3162001

Pistol Grip Quarter Stick Shifter!

The Hurst pistol grip quarter stick automatic shifter is designed for a firm comfortable natural grip, providing a positive feel when shifting. The pistol grip handle is CNC-machined from billet aluminum and features a precision snap action thumb switch that is ideal for operating a Hurst Roll Control, nitrous system or trans brake. Optional shifter cover can be trimmed to fit any floor pan. For a stock console look, choose the distinctive black textured plastic cover kit. Or, for a racier look, order the aluminum cover kit that attaches to the shifter with 2 quick release pins. Both are sold separately. The Hurst pistol grip quarter stick fits TH250, 350, 375, 400 transmissions.

Important: *For vehicles without factory consoles.*

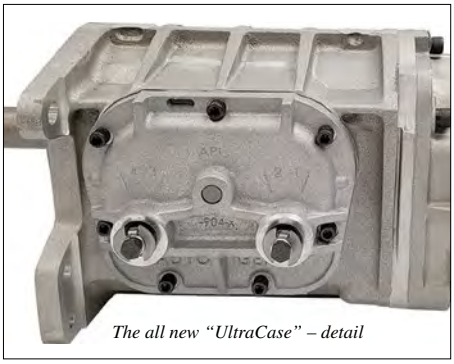
Transmission Conversions

TR1013



The all new "UltraCase" – detail

M22 UltraCase: *The UltraCase is heavily ribbed, incorporates a deeper sump, and has an all-new rear thrust-button. Auto Gear began with the strongest 356T6 aluminum alloy, we thickened the case walls, added additional material to support a stronger main drive bearing and reinforced and thickened the mounting ears. No flex, no leaks, no broken ears.*

1963-74 M22 UltraCase 4-Speed

These are exotic transmissions designed for quarter miles or circle tracks, but if your vehicle sees city streets or country lanes you need a heavy-duty, synchronized, close ratio gearbox with a helical gearset and, to be honest, until now you haven't had too many good options. Each new Auto Gear transmission is built from genuine Auto Gear parts – the highest quality available – and includes all the goodies: the all new heavily ribbed UltraCase, ductile iron mid-plate, your choice of three heavy-duty gearsets (each with roller 1st gear option) and a roller side cover. Best of all, it's ready-to-install and it's available at a less than exotic price. No core required!

Note: *All transmissions now feature bolt on style shifter linkage mounts. Stock stud type shift linkage will work with the bolt on style mounts. All transmissions are special order and must be prepaid. Special shipping rate applies.*

M22 Gearset with 2.20 1st

If your only concern is taming the biggest, meanest motor on the block, you want an M22-based gearset. All three of ours feature the legendary 'Rock-Crusher' gear geometry and run with the signature whine. The M22 was originally paired with a 4.11 axle. Street cars used only in the wide open flat places may successfully run something faster. This approach off loads more of the 1st gear stress onto the axle and makes the gearbox more durable, but the fuel economy is frightening.

TR1013	1963-70	10/27 spl	2999.99 ea
TR1014	1970-74	26/32 spl	2999.99 ea

M22W Wide Ratio Gearset with 2.56 1st

The M22W is our answer to the price of gas. Pair it with a faster axle, say a 3.54 for street or a 4.11 for the strip, and you'll have a competitive combo that will show your wallet a little mercy. It's a little less strong, but it's far from weak.

TR1016	1963-70	10/27 spl	2999.99 ea
TR1017	1970-74	26/32 spl	2999.99 ea

M22X Road Racing Gearset with 2.20 1st

The M22X is for road racing and tracks where second and third gears need to be just a bit tighter. If you don't road race and know why this would be advantageous, you don't need this purpose designed gearset for road racing only.

TKX 5-Speed Transmission Conversion Set

American Powertrain ProFit Conversion combo sets included the components required to convert your vehicles manual driveline to a modern Tremec TKX 5-speed manual overdrive transmission. Each combo includes a TKX 5-speed transmission rated at 600 ft lbs, with 2 available editions (quick launch and wide ratio), bench or bucket compatible adjustable shifter mechanism, bolt-in X-Factor crossmember, driveshaft slip yoke, mechanical speedometer conversion, VSS wiring harness - for electronic speedometer or fuel injection ECU, transmission mount, pilot bearing, weather seal reverse light harness, and white shift knob, hardware, and instructions.

Important: *Compatible with 4-speed bellhousing. Requires bell adapter or engine specific bellhousing and 26 spline clutch disc (sold separately). Some modifications may be necessary.*

Note: *Transmission set contents vary by model. Special order, must be prepaid. Shipped truck freight.*

Bellhousings

1966-79 LS Aluminum Bellhousing

This bellhousing is modeled after the famous "621" model and designed to bolt to Gen III LS engines. This bellhousing, along with a 168 tooth flywheel and 11" clutch, allows the use of an original 4-speed Saginaw, Muncie, or BorgWarner transmission, including the original clutch linkage and starter. Made from CNC-machined heavy cast aluminum, heat treated to and reinforced with extensive thick webbing, this is one of the strongest cast aluminum bellhousings available.

Important: *Pivot ball sold separately.*

621113 1966-79 11" ..... 404.99 ea

11" Aluminum Bellhousing Kit

Reproduction "621" 11" bellhousing kit for models with Muncie M-20, M-21, M-22, Saginaw, Borg Warner T-10 transmissions. For Chevrolet big block or small block engines equipped with an 11" clutch. Accepts Saginaw, Muncie, Borg-Warner and Tremec TKO/T56 transmissions with a 4-11/16" pilot bore. Fits up to 11" clutch on a 168 tooth flywheel. Also fits 153 tooth flywheel when used in conjunction with the proper starter.

14053 1955-57 ..... 169.99 ea

11" Aluminum Bellhousing

A reproduction "621" 11" bellhousing used on various Chevrolet models with big block or small block engines equipped with an 11" clutch. This high-performance option aluminum bellhousing featuring the casting number and GM mark will look and fit just like original. Accepts Saginaw, Muncie, BorgWarner and Tremec TKO/T56 transmissions with a 4-11/16" pilot bore. Fits up to 11" clutch on a 168 tooth flywheel. Also fits 153 tooth flywheel when used in conjunction with the proper starter.

Important: *Pivot ball sold separately.*

11" HD Aluminum Bellhousing

Looking to replace a cracked or damaged original "621" bellhousing, or converting to a 4-speed? Bellhousing is a permanent mold, low pressure casting from A356.2 aluminum that is thicker, weighting 3 pounds heavier than the original, while maintaining a factory appearance. CNC-machined and heat treated to T6 specifications, this bellhousing features extensive reinforced webbing, clutch fork opening, threaded pivot bolt hole and GM casting number. Accepts Saginaw, Muncie, BorgWarner and Tremec TKO/T56 transmissions with a 4-5/8" pilot bore. Fits up to 11" clutch on a 168 tooth flywheel. Also fits 153 tooth flywheel when used in conjunction with the proper starter. Made in USA.

Important: *Pivot ball sold separately.*

Ram True Balance Billet Steel Flywheel

Ram True Balance billet steel flywheels are recommended as a replacement for factory cast flywheels in high-performance and racing vehicles. Cast flywheels are not explosion proof and can be dangerous when used in high-performance applications at higher RPMs. Ram billet steel flywheels are CNC-machined from certified materials and exceed SFI specifications. After machining, the flywheels are blanchard ground parallel to the crankshaft mounting surface ensuring minimum run out and the optimum mating surface for the variety of friction materials offered. Use steel flywheels in heavier drag race cars or for the best driveability in street driven vehicles.

Note: *For use with Ram Clutch Sets only.*

Increase performance without sacrificing streetability!

HY85112 – organic friction material

1955-57 Street Clutch

An excellent upgrade from the stock unit, the Hays Street Clutch far exceeds OE specifications in material, construction and performance. Light pedal pressure and quick release make the Hays diaphragm pressure plate the most popular choice for today's street driven vehicles. Hays Street discs feature organic friction material that is riveted to a Marcel backing which acts as a shock absorbing material. The sprung center hub absorbs driveline torque, eliminating shock and vibration to ensure chatter free engagement. The Hays high-performance throwout bearing has been developed to withstand the high spring pressure and high RPM operation common to performance clutches. Each bearing face is heat treated and Blanchard ground to ensure trueness. The collars are heat treated for strength and machined to close tolerances for secure bearing fork attachment. The ball bearing race is packed with heat resistant moly-based grease for better lubrication and longer life. A nylon liner and bearing retainer is also featured for cooler and quieter operation. Hays Street Clutch sets include a Hays performance pressure plate (light pedal pressure and quick release make the Hays diaphragm pressure plate the most popular choice for today's street driven vehicles), Hays performance clutch disc (features organic friction material that is riveted to a Marcel backing which acts as a shock absorbing material), Hays performance throwout bearing (withstands the high spring pressure and high RPM operation common to performance clutches), bolt kit, and a handy splined clutch pilot tool to aid in installation of set.

Important: *Stock clutch linkage may require reinforcements.*

Clutch Components

LS1 Clutch Master/Slave Cylinder

An adjustable master cylinder is required for installation of the RAM Street Dual on any LS application so you can limit your clutch travel and avoid shifting problems. When installing the new clutch hydraulics, it is essential to flush the system of old fluid and re-bleed with new fluid. Bleeding MUST be done by vacuum method or using a power bleeder such as a Mityvac.

RA510	LS1 adj. master cylinder	209.99 ea
RA520	LS1 slave cylinder	139.99 ea

Hydraulic Release Bearing

Hydraulic release bearing for stock style and multi-disc clutch applications designed for transmissions utilizing the 1.375" collar size. The bearing requires a minimum 3/4" bore master cylinder and a -4AN feed line to run from the master to the bearing. The RAM bearing will provide up to .600" travel using a 3/4" bore master cylinder. T56 models include the necessary fittings and hoses to connect with the factory master cylinder and provide increased travel plus full adjustability of starting position to accommodate most single and dual disc clutches.

1955-57 Clutch Release Bearing with Collar

Reproduction clutch release bearing with collar for 1955-57 models. This clutch release bearing and collar should be replaced every time your clutch is serviced. Fits all 6 and 8 cylinder models, except with 10.4" clutch.

TF800096	1955-57		14.99 ea

Hydraulic Bearing Pedal Adjustment System

With the RAM HSA system, you can adjust the pedal position lower to the floor and also eliminate over travel of the release bearing which can cause damage to the hydraulic bearing, or cause higher RPM shifting problems due to over centering of the diaphragm spring. The RAM HSA valve plumbs inline between your master cylinder and release bearing, whether factory or aftermarket. Once in place, simply re-bleed the system and adjust the screw position to achieve the optimum pedal position and travel. The kit includes: the HSA valve, tee fitting for installation, and a 12 inch Teflon braided line. For factory bearing installations, an adapter fitting is available to enable connection.

78300	HSA valve	144.99 ea
78310	factory adapter fitting	19.99 ea

1955-60 Clutch Fork

This clutch fork is a reproduction for 1957-60 models with manual transmission. It is a functional replacement for 1955-56 models when lower pushrod is swapped. It may also be used in 4-speed conversions with an original cast iron bellhousing.

1955-57 Throwout Bearing

Hays high-performance throwout bearings withstand the high spring pressure and high RPM operation common to racing clutches. Each bearing face is heat treated and Blanchard ground to ensure trueness. The collars are heat treated for strength and machined to close tolerances for secure bearing fork attachment. The ball bearing race is packed with heat resistant moly-based grease for better lubrication and longer life. A nylon liner and bearing retainer is also featured for cooler and quieter operation.

HY70101	1955-57	90.99 ea

Adjustable Throwout Bearing

This adjustable throwout bearing is the perfect replacement for any bearing. Replaces all of GM's three different bearing by simply removing one of the rings. With all three rings on the bearing you have the long bearing. Remove one ring and you will have the mid-length bearing and if you remove all three rings you will have the short bearing.

16505	adjustable	67.99 ea

Clutch Alignment Tool

This clutch replacement tool is a foolproof method for aligning your clutch. Includes seven adaptors to replace virtually any kind of automotive clutch.

Batteries & Battery Boxes

Modern Technology with an Authentic OE Appearance!

BY12016

RESTORER'S CHOICE™

1955-57 Delco® Energizer Battery

The ultimate in underhood detailing! After hundreds of hours of rebuilding, scrubbing, painting, and sanding why settle for an ugly modern battery from one of those big national chain stores? Turn back the hands of time and restore the appearance of your Tri-Five to stock by replacing a period incorrect battery with this original style reproduction. Manufactured by the nation's leading antique auto battery experts, these authentic reproduction Delco Energizer® batteries offer you true "tar top" appearance, using a special patented Poly-Tar® formulation, while eliminating the sticky hot weather disadvantages of a tar-top! Each battery is correct in every detail including acid resistant, screw-in or push-in type caps featuring Delco lettering or circles and are finished in the proper trim. Classic Industries®' restoration professionals have a keen eye for originality, so we've ensured that all batteries have the correct caps and the exclusive "Delco-Eye" feature that was used to check electrolyte fluid level on applicable units. Each case has been manufactured to OEM dimensions, which vary depending on model ordered. Other details include: reproductions of the assembly line battery decal, featuring white label with red text attached to the battery post as well as correct Delco Energizer® lettering on the top casing! These reproduction batteries are the professional Restorer's Choice™ in engine compartment detailing for the street or concours restorations!

CAUTION: *Maintenance-Free batteries are Gel-Cell type batteries and DO NOT require adding electrolyte (battery acid). Don't forget to check the battery tray for rust or corrosion, replacement now will ensure cleaner battery installation.*
**Includes six screw-in yellow caps with "Delco" lettering. All batteries measure 10-1/4" x 6-3/4" x 9".*

Note: *Batteries carry a 48-month manufacturer's warranty. Shipped overweight.*

- Switches to Float Mode When Fully Charged
- For 12V Applications

Smart Charger 800

The OER® Authorized Smart Charger 800 battery charger and maintainer for classic cars and trucks provides high frequency automatic intelligent charging for 12V lead acid, flooded, or sealed maintenance-free (AGM and Gell Cell) batteries. Microprocessor controlled unit plugs into 120V AC current and provides 0.8 amp output through a 4 stage charging program. Features 4 safety functions: over load, over heat, short circuit and reverse polarity, and is spark proof. Designed to be used with ring terminal output or with the optional clamp set as a portable unit. Has GS/CE/ETL/CEC Certifications. Ideal for cold weather battery maintenance, or vehicle storage.

Priority Start Battery Protector

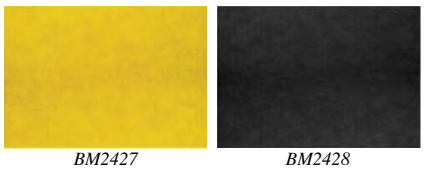
The PriorityStart! 12 Volt ProMax has a surge "spike" protection circuit that adds additional protection to the electrical system. Transient voltage "spikes" can cause damage to computers, 2 way radios, MDT equipment, cameras, and a host of other electrical equipment. The ProMax can be used on all 12 Volt vehicles including those with such aftermarket accessories.

PS1002		104.99 ea

Battery Carrying Strap

This handy tool is a must for your tool box. Allows you to easily carry bulky automotive batteries without getting acid on your clothes and hands. Each end is marked and sized to fit the positive or negative terminals allowing a secure, tight fit onto the post. Battery acid won't harm the strap! For top post batteries only.

X205	carries top mount	7.99 ea



BM2427 *BM2428*

Battery Mat – Acid Neutralizer

The Battery Mat offers protection against undetected battery acid leaks. Once installed, the mat will trap and neutralize any battery acid that leaks from the terminals or top side of the battery, preventing corrosion and expensive damage. Each mat is made of super absorbent polypropylene needle punch felt, with one side heat treated to give it additional strength. The mat is inserted under the battery between the battery and the battery tray. It can easily be installed at any time either when replacing the battery tray or battery.

Cell Saver Battery Insulation Kit

DEI cell saver battery insulation kit is designed to solve the problem of heat soak into batteries preventing premature failure due to heat. Batteries are very susceptible to heat and vibration that could cause premature failure and hazardous leaks. Cell Saver is very capable of damping vibration and will absorb and neutralize any damaging leaky battery acids. Cell Saver is easy-to-install and excess material can be trimmed to accommodate batteries of most sizes and shapes.

Battery Accessories & Tools

Protect Your Vehicle from Corrosive Battery Acid!

Prolong battery life and protect your vehicle's battery tray, underhood and radiator support area with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid, protects against corrosion, is recyclable, protects the environment, and is inexpensive and easy-to-install. The Battery Heat Barrier™ set is completely safe to handle before and during installation. So effective, it is used by all branches of the United States military. Set consists of: one 8" x 40" acid absorbing/neutralizing felt and one adhesive backed 8" x 40" aluminized thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/neutralizing pad to put beneath the battery. Install one on your vehicle NOW, before it's too late.

TT1001	battery heat shield	29.99 set

W20309

Battery Switch

These battery switches are easy-to-install on the negative battery post and disconnect the battery by simply loosening the knob a few turns. To reconnect just retighten the knob. The knob can be removed completely to deter theft. Rated at 500 amps surge and 125 continuous at 12 Volts. Available with a 15 amp fused bypass that maintains computer settings, radio, clock etc., while the battery is disconnected.

500837

Lifeline Memory Retention System

The Lifeline enables users of a Master Disconnect Switch to retain a small amount of power for memory circuits common in fuel injection computers, radio presets and clocks. The Lifeline is a memory circuit retainer that will automatically reset after the electrical load is significantly reduced or if the Master Disconnect Switch has been switched to the on position. Available for standard or remote battery disconnects.

500778	standard disconnect	32.99 ea
500837	remote disconnect	41.99 ea

Quick-Disconnect Battery Terminal

This brass, quick-disconnect battery terminal isolates the vehicle's battery, allowing the clock, radio etc., to remain functional when combined with a fused bypass. Designed for both round and square battery lugs.

W203507		6.99 ea

Master Disconnect Battery Switch

Taylor's 2 post battery disconnect switch completely shuts off all of the current from the battery in the event of a accident or electrical short. The 2 post switch is rated at 180 amps continuous capacity and is especially useful when charging the battery. Includes vinyl on/off decal.

Note: *The NHRA requires a master battery disconnect switch on all modified and super stock class vehicles to comply with their rule 8:4.*

TP1032	180 amps	44.99 ea

W203047 T4988

Battery Cutout Switch

Make sure your battery maintains the precious power you need by disconnecting the battery from the vehicle during storage. Your choice of an inexpensive standard duty cutout or a heavy-duty unit. Works on any 12 Volt system or vehicle. Splices into positive battery cable to provide a switch for turning power on or off.

W203047	standard duty	34.99 ea
T4988	heavy-duty	104.99 ea

Disconnect Position Ring

For disconnect switches to identify the correct position of the switch (ON or OFF). Eliminates the question of which direction is the safe one.

1955-57 Classic Update Wiring Harness Set

Designed to make wiring "that easy", Classic Update Wiring Harness sets allow you to easily convert to HEI ignition, use modern audio equipment, add power windows or even add AC to your vehicle. Engineered for specific year, make and model configurations, these update harnesses include all of the original style lamp bulb sockets, connectors and terminals. This wiring harness set boasts 19 features, making these one of the most advanced systems of their kind.

TF900211	1957	818.99 set

1955-57 Tri-Five Chassis Wiring Harness

This 27 circuit kit is designed to fit the 1955-57 Tri-Five model series passenger vehicle. In addition to factory circuits, this kit includes additional circuits for modern day power options and accessories. This harness features a factory location mounting plate for the fuse block, front and rear lighting sockets, factory and aftermarket instrument cluster harness, and dash and turn signal connectors. This harness utilizes GM color coded high grade TXL wire with the circuit identification printed on it for easy installation. The kit includes a 150 page installation manual written specifically for Tri-Five installation.

TF900220	1955-57	605.99 ea

1955-57 20 Circuit Wiring Harness Set

These wiring harnesses are built specifically for 1955-57 passenger car models. They feature wiring for the entire car and will work with most stock GM steering columns, as well as aftermarket columns such as ididit and Flaming River. Will wire full gauge sets including tach and will address HEI, points and aftermarket distributors, neutral safety switches. Also includes wiring for high and low beams, indicator lights, parking lamps, turn signal lamps, and brake lamps. Will readily accept fuel injection. The wiring is high temperature, fire resistant and color coded. Features the circuit printed on each wire. All sets include a headlight switch, isolated cooling fan relay and color coded instructions. A unique serial number for each harness enables Ron Francis to technically support the installation to you or any subsequent owner.

TF900213	1955-57	609.99 set

1994-02 Fuel Injection Engine Swap Wiring Harness Set

For maximum power with exceptional driveability nothing beats electronic fuel injection. And the easiest way to install a modern fuel injected engine is with one of these proven FI engine wiring harnesses. These harness sets are designed to allow you to properly wire your engine swap from a donor car or crate motor. A variety of harnesses are available to suit 1994-up LT1, LS1 and GM crate engine applications. Each of these sets include detailed instructions and illustrations.

The Detail Zone Wiring

Each set includes the sensor connectors installed on 20 foot lengths of wire for custom installations, connectors for the sensor wires, and a Telorvek panel with installed wiring and connectors to plug into the factory computer. Designed to work with a specific transmission, so be sure to select the correct application from the listing below. Other non-computer controlled automatic and manual transmissions can be used but typically requires ECM reprogramming for best results. 1998-02 ECMs require use of all emissions sensors or a trouble code will occur unless the ECM is reprogrammed.

*Note: *Corvette engines must use the Camaro/Firebird ECM in order to use this wiring kit. Also requires use of the 1998 Camaro throttle body for accelerator cable control. This engine utilizes the OBD II diagnostic system and if all emissions sensors are not used, trouble codes will set in a factory programmed ECM.*

Painless Wiring

The engineers at Painless have worked out all of the connection and routing problems so all you have to do is follow the straight forward instructions for a painless installation. Feature TXL high temp wire that is color coded and labeled with each application for ease of installation. Harnesses for the LS1 applications require 1998 Camaro computer G8606 and a mechanical throttle body.

*Important: *Includes a module to bypass the vehicle anti theft system (VATS) incorporated in the computer. Does not include any emissions related connections.*

Universal Wiring Harnesses

Universal Chassis Wiring Harness

Starting from a blank slate is a daunting task, especially with wiring. Trying to keep your electrical systems running smoothly on a patchwork of old wiring can be a troubleshooting hassle and possibly even a fire hazard. Whether you are planning a series of electrical upgrades or simply need to replace aging, brittle wiring, build your electrical system on a fresh foundation with a quality universal harness. For basic builds, start with a simple kit with wiring provisions for all lamps, horn, fan, wiper, gauges, and all lamps. For more elaborate builds, choose from a selection of advanced wiring solutions. Need to integrate your aftermarket air conditioning? Need extra circuits for a multitude of electronic accessories? With Classic Industries®, there's no limit to what you can do with your wiring.

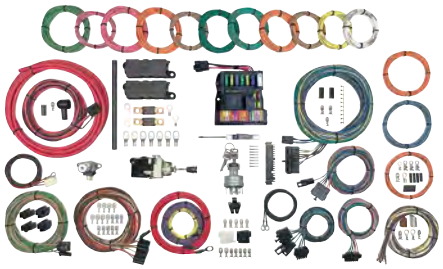
Universal Wiring

Highway Series Modular Fuse Panel Systems

Each universal fuse panel is constructed in heat resistant nylon and features anti-push back locks and single side wire access with self-locking, screw down connections. Includes a starter/alternator 175 amp mega fuse for extra protection. The panel is fed through an 8 gauge power feed wire and features a battery and accessory stud connection. Includes: color coded wiring for ignition, alternator, headlight, steering column, accessories and gauges, relays, fuses, flashers, circuit breakers, and all necessary power connections and terminals. Also includes a full color schematic and step-by-step instructions.



- Composite Panel Base
- Nylon Panel Components
- Color Coded Wire
- Easy-to-Read Wire Labeling
- Self-Locking Screw Clamp Interface
- 8 Gauge Alternator Feed
- 175 Amp MegaFuse
- Full Color, Step-by-Step Instructions

Highway 15 Modular Fuse Panel System

Features 15 power outputs in 8 fuses and 1 circuit breaker. Gauge cluster disconnect for easy maintenance. Includes: ignition, headlight, and dimmer switches.

PAINLESS

18 Circuit Harness Includes:

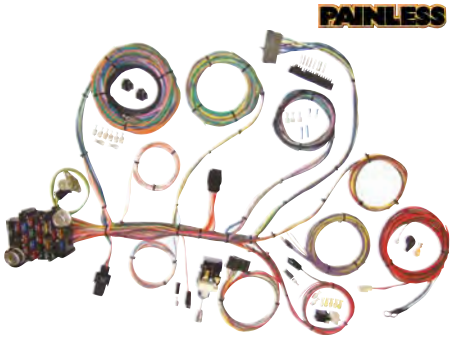
- Accessory
- Brake Lamps
- Charging
- Electric Choke
- Emergency Flashers
- Fused Power Source
- Fan Relay
- Headlamps
- Horn
- Ignition Coil
- Instrument Panel
- Park Lamps
- Radio/Clock
- Starting
- Tail Lamps
- Third Brake Lamp
- Turn Signals
- Wipers

18 Circuit Universal Chassis Harness

This Painless 18 circuit harness may be just what you need. This compact harness has all the basic circuits to get you rolling in no time. This harness has an extra 8 feet of wire in the tail section and 7 feet in the headlight section to take care of longer wheelbase vehicles.

10308 ..... 276.99 ea

PAINLESS



20 Circuit Harness Includes:

- Horn relay, floor dimmer, courtesy light connections.
- Standard brake light connections w/third brake light.
- Heavy gauge main fuse panel feed wire.
- Complete engine compartment wiring for lighting and engine management.
- Complete rear body wiring for lighting & fuel tank.
- Heavy gauge alternator, main power, and starter solenoid wires.
- Heat and air conditioning lead wires as well as accessory radio and battery clock leads.
- Long ignition, accessory, and battery leads for the ignition switch. A separate alternator exciter lead wire is wired in.
- Plug-in steering column connector for 1969 and later GM columns. Original columns can also be wired by using the supplied mating connector and terminals.

20 Circuit Universal Chassis Harness

The Power Plus series is a complete deluxe integrated fuse box wiring system utilizing a complete factory style pre-wired fuse box. Power Plus series wiring kits are designed to offer an economical and convenient wiring solution. By eliminating the disconnects and sub-harness assemblies and implementing direct run technology to the switches, fuse panel, and end locations, this set offers a more streamlined installation and less work for you!

510008 1969-75 20 circuit ..... 436.99 ea

RON FRANCIS Wiring

24 Circuit Harness Includes:

- 24 fuses – You won't run out
- 4 are Select-A-Circuit™ – choose ignition or battery fed circuits by moving the fuse in the slot
- No excessive unused wires hanging out if you don't need them
- Electric fuel pump relay included (or other use up to 20 amps)
- Cost savings for LED users
- Quickly attach 4 more relays for a total of 7 with pre-wired ignition feeds
- Panel measures 5-3/8" long x 3-1/4" wide x 3-3/8" high

MADE IN USA

24 Circuit Universal Chassis Harness

This newly engineered fuse system from Ron Francis Wiring, known as the ACCESS 24/7 comes standard with 24 fuses and 3 relays, along with a unique mounting system and room for 4 additional relays. The ACCESS 24/7 covers all the bases and allows you to consolidate even additional aftermarket product's relays to really clean up the under dash board area. The "24" means fuse capacity, the "7" refers to its capacity for up to 7 relays and the ACCESS 24/7 name is derived from the act that you can actually reach under your dashboard and bring the fuse panel out in plain view for checking a fuse, servicing, etc. There is so much to this small package it is hard to list. When you want to add an accessory or additional wires leading to the fuse panel, they simply plug in specially labeled connectors in the kick panel or behind upholstery. This is very similar to the terminal block design of the EXPRESS or BARE BONZ except they plug in instead. Talk about limited time under the dash. This works great! Made in USA.

TF900215 1955-57 24 circuit..... 689.99 set

PAINLESS

28 Circuit Harness Includes:

- GM Engineered Fuse Block and Painless Mounting Bracket
- GM Steering Column Ignition Switch Connection
- GM Steering Column Turn Switch Connectors
- Two Headlight Pigtails
- 10SI and 12SI Alternator Connectors
- Dimmer Switch Connector
- HEI Power and Tach Connectors
- 20 Extra 56 Series Terminals

1955-57 Twenty-Eight Circuit Harness

This 28 circuit kit includes most all the power accessory circuits you have been looking to add to your vehicle. This universal harness will work on carbureted or any stand alone fuel injected engine with any type transmission.

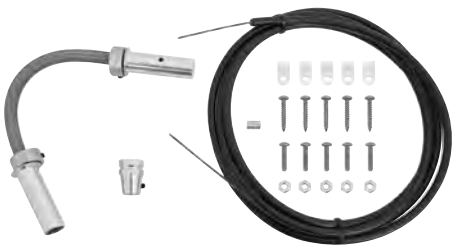
ELECTRIC-LIFE



Shaved Doors — Emergency Entry

Installing shaved doors? You'll need a way to get into your ride if the power fails. Electric-Life billet emergency kit are just what you need. Just connect the end of the cable to the door lock, pass the cable through the door, through the post, and exit through the fender well or the floorboard. Then attach the billet pull knob and you've got a way to enter your vehicle no matter what.

Billet Power Window Wiring Set

Universal polished billet aluminum power window systems for 1, 2, or 4 switches. Billet switches include "Plug and Play" harness and rear illumination. Great for center console installations, one switch controls each window. Switches can be mounted directly over the crank hole, no additional holes necessary. GM style switches give your ride that original factory look.

Note: *These window switches are not designed to replace the OE style switches. Modifications required to door panels and wiring for correct integration when installing. Sets include mounting retainers for the switches.*

RON FRANCIS Wiring

Remote Battery Disconnect

With this setup, one click of the key fob completely shuts down your vehicle's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. For even more security, the 4 channel "Safe-n-Sound" system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4 channel package can handle up to 30 amps worth of electrical equipment.

PAINLESS

Remote Master Disconnect

We offer two Master Disconnect sets with 250 amp continuous duty solenoids designed for use with high amperage alternators. Remote master disconnect set 30204 uses a small toggle switch to activate the solenoid. This switch can be hidden anywhere in the vehicle as a theft deterrent. Master disconnect with emergency push button is perfect for drag race applications as it allows you to install a large emergency push button in easy reach if you need to shut down your vehicle's electrical system in a hurry. Remote master disconnect with mechanical latching solenoid is ideal for everyday vehicle applications and is a simple and effective antitheft deterrent. It uses a 110 amp continuous duty solenoid which is activated by an easy to hide momentary push button.

Park/Neutral Relay Set

This set uses the stock neutral safety switch to also provide for ECM park/neutral ground signal needed when installing factory style fuel injection into older vehicles. For use with any aftermarket shifter or column mounted neutral safety switch.

60122	park/neutral relay	39.99 set

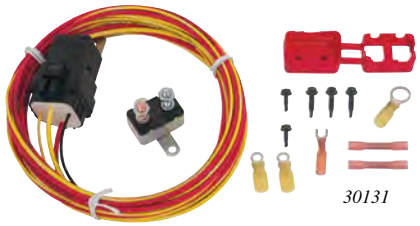
New!

Timed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

Note: Not compatible with probe style fan sensor controls that mount on the radiator or radiator support.

TF900632	1962-79		172.99 ea

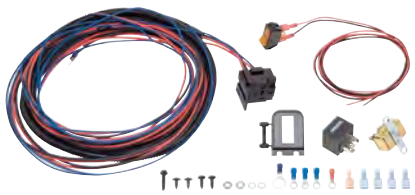


30131

Universal Fuel Pump Relay Set

A relay will prevent voltage drops at the pump thus maintaining constant fuel pump pressure, and will prevent fuel pump amperage overloads from damaging the electrical system. It's a good idea to relay your fuel pump for the street and a must when you're racing. Choose from a regular fuel pump relay or a weatherproof fuel pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers, and extreme condition weatherproof shrinkable crimp-on terminals.

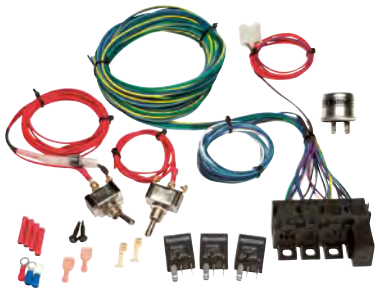
50102	standard	31.99 set
30131	weatherproof	48.99 set



Auxiliary Lamp Relay Set

Install extra driving or fog lamps easily and properly with our auxiliary lamp relay set. Switch can be wired to turn lights on per state law requirements: low beams and auxiliary lamps, high beams and auxiliary lamps, auxiliary lamp operation only. Complete set includes: lighted switch, wiring harness, 30 amp relay, and terminals.

30803	auxiliary lamp relay	69.99 set

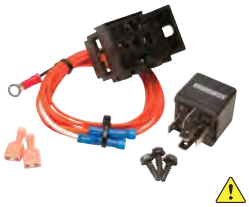


Universal Integrated Turn Signal Set

A common problem faced by rodders and kit car builders is where to mount turn signals since many aftermarket steering columns are not designed to accommodate the necessary wiring and switches. Problem solved, with this new integrated turn signal set from Painless. The toggle switches for both turn signals and flashers can be mounted anywhere. Because the set is designed to be an integrated system, turn signals will work in conjunction with brake lamps.

30120	turn signal set	111.99 set

Brake Lamp Relay



When upgrading taillamps to the new higher wattage Halogens, always use a relay. The Painless set gives you everything you need to protect your wiring and switches.

XT100 XT101 XT102 XT103

X-Treme Tape

X-Treme Tape was developed for the military and has some very unusual properties. The silicone based tape will stick only to itself, and only when placed under tension. Once wrapped around an object, it forms a non-conductive, air and watertight, insulating seal that remains flexible within a temperature range of -60 degrees to 500 degrees F. Insulates to 8000 Volts. Stretches to 3X's its length. Conforms to irregular shapes. When wrapped upon itself, it bonds together immediately and becomes completely fused after 24 hours at room temperature.

Universal Wire Grommet

Sometimes you are forced to punch a hole in your firewall to get additional wires into the engine compartment, but that hole you cut is sharp and can potentially sever wires. To help prevent this, install one of these universal wire grommets. In addition to the added protection, these grommets also give the hole in the firewall a cleaner appearance.

*Note: *Can be drilled out up to a 1/4" opening.*

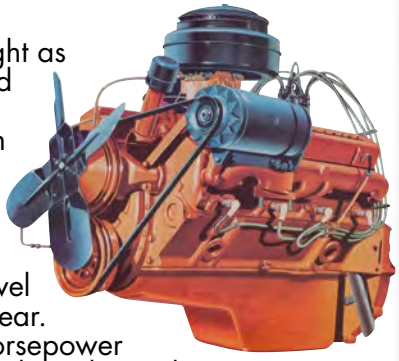
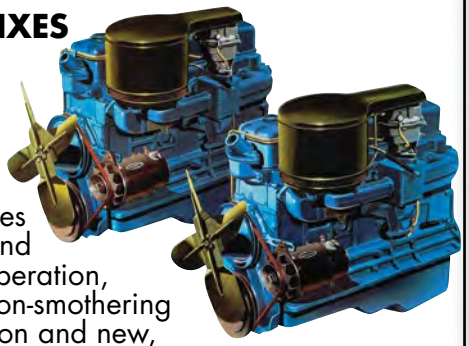
Everything's NEW!

GREAT NEW V8



The valve in head eight as only the valve in head leader can build it! 162 horsepower with an 8-to-1 ultra high compression ratio! Highly efficient oversquare design means less piston travel ... less friction and wear. Exceptionally high horsepower per pound. The new Chevrolet V8 brings you brilliant performance, surprisingly high gas mileage, and extra long life.

TWO NEW SIXES



The great new valve in head six teamed with Powerglide delivers full 136 HP. And it features new efficiency and smoothness of operation, with new vibration-smothering 4 point suspension and new, more efficient cooling and lubrication systems. The spirited new 123 HP six, offered in gearshift models, brings you these same new advances.

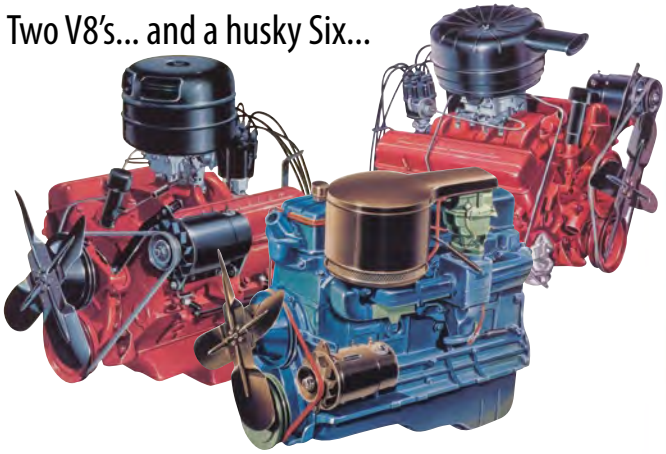
THREE GREAT ENGINES . . .

Two V8's... and a husky Six...



The magnificent heart of every Chevrolet is its engine and for 1956 you can choose from three of the most brilliant and advanced powerplants ever created. There's the ultra compact 170 HP. "Turbo-Fire V8" (162 HP with Synchro-Mesh or Overdrive) that sets the standard for all V8's in its field... its performance mate, the astonishing 205 HP. "Super Turbo-Fire V8" with four barrel carburetor and dual exhausts... and for supreme economy and durability, Chevrolet has created the new 140 HP. "Blue-Flame 140" the pinnacle of more than a quarter century's experience building valve-in-head six cylinder engines.

INTRODUCING THE SUPER TURBO-FIRE 283

The valve-in-head leader has done it again! Brilliant new silk-smooth performance can now be yours to enjoy in Chevrolet's advanced new 220 HP 283 cubic inch V8. You'll experience outstanding acceleration...

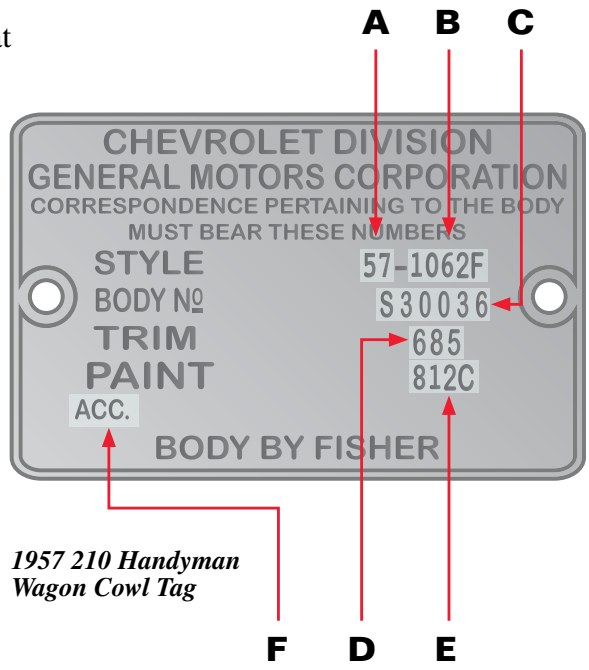
Also for 1957, Chevrolet announces two lower cost versions of "Turbo-Fire V8" design . . . running mates engineered for sparkling performance, high torque and efficient horsepower. Both share the same compact design that converts fuel energy into rear wheel driving thrust so efficiently that it has won the acclaim of automotive engineers throughout the industry!

WORLD STANDARD OF SIX CYLINDER POWER!

The highly refined valve in head six offers low cost motoring pleasure combined with exceptional power and performance. But performance and economy are not all – it is a leader for dependability and efficiency, too. And for '57 its time-proved design has been perfected as never before – making the 140 HP "Blue-Flame" Six is the greatest six cylinder engine ever built by Chevrolet, the valve in head leader!

1955-57 Cowl Tag Identification

1955-57 Chevrolet cowl tags or trim plates were attached to the right hand side of the cowl panel. The plates represented a vehicle's most basic body characteristics to Fisher Body, the coachworks contracted to build vehicles for Chevrolet Motor Division. Codes listed include Model Year, Model Identification Code, Assembly Plant, Interior Trim Code, Paint Color Code and Vehicle Option Codes. The cowl tag provides invaluable information to the car's original paint color, interior color and material, and the location of the plant at which the vehicle was built.



1957 210 Handyman Wagon Cowl Tag

A Model Year Code

The first two digits of the style number represent the model year. For Tri-Five Chevy models, there will either be a "55", "56" or "57" .

Code	Model Year
55	1955
56	1956
57	1957

B Model Identification Code

The second set of digits in the style number code represents the style of the vehicle's bodywork. Within this code, the first two numbers represent the Series Identification – "10" for 210 or Bel Air, "12" indicating 150 Series. The last two numbers represent the bodywork style of the vehicle. A detailed list can be found below.

Note: Up to two letters can also be found after the four numbers. A "D" as the first letter represents a Bel Air Series model while an "F" in either location represents a station wagon model. Example: 1062DF can be identified as a Bel Air 4 door wagon.

Code	Body Style
1211	150 2 Door Sedan
1219	150 4 Door Sedan
1263	150 2 Door Wagon
1271	150 2 Door Sedan Delivery
1011	210 and Bel Air 2 Door Sedan
1011A	210 Del Ray Club Coupe
1037	210 and Bel Air 2 Door Hardtop
1019	210 and Bel Air 4 Door Sedan
1039	210 and Bel Air 4 Door Hardtop
1062	210 and Bel Air 4 Door Wagon
1063	210 2 Door Wagon
1064	Bel Air Nomad 2 Door Wagon
1067	Bel Air 2 Door Convertible

C Assembly Plant Code

The assembly plant code is a combination of two codes, a letter representing the assembly plant location and a sequence number. The list below details the letter code. The numbers after the assembly plant code provide a sequence number indicating the specific assembly plant's sequence or rotation number and should not be confused with the V.I.N. sequence.

Code	Assembly Plant
F	Flint, Michigan
T	Tarrytown, New York
S	St. Louis, Missouri
K	Kansas City, Missouri
O	Oakland, California
A	Atlanta, Georgia
N	Norwood, Ohio
B	Baltimore, Maryland
L	Lansing, Michigan
J	Janesville, Wisconsin
VN	Van Nuys, California
CL	Cleveland, Ohio

D Interior Trim Code

This three digit number represents the interior color and materials for a given vehicle. Codes and patterns are different for each year, but color combinations may cross over. See next page for a detailed list of interior trim codes for each year.

E Paint Color Code

The paint color code represented in three numbers the exterior paint colors and their locations on the vehicle. Two-tone paint schemes were available from 1955-57 and because of this, separate codes were offered for each color combination. From 1956-57, a letter would sometimes follow the three digit code. An "A" would represent a single paint color and a "B", "C", "D" or "E" represented a two-tone paint scheme. Please see the chart on the next page for a detailed list of exterior color codes by model year.

F Vehicle Options

If a particular vehicle was to be built with optional equipment, the codes for these extras would be stamped below the exterior paint color code. However, even vehicles with options sometimes did not have a stamping on the cowl tag. Minor options were not indicated on the cowl tag. Major options, such as a partial list below, were included.

Code	Vehicle Option
AC	Air Conditioning
CP	Padded Dash
WS	Power Windows and Seats
EZI	Tinted Glass

1955–57 Interior Trim Codes

Interior trim codes indicate the color and material combination for a given vehicle. This list offers a reference for owners who wish to restore their interior trim to original specifications. No guarantee of completeness or correctness is offered. Some data supplied by "Chevy Cowl Tags 1950-1975: Factory Trim Tag Code Guide", by Mark S. Allen.

Interior Trim Abbreviations:
C: Cloth, V: Vinyl, C/V: Cloth and Vinyl

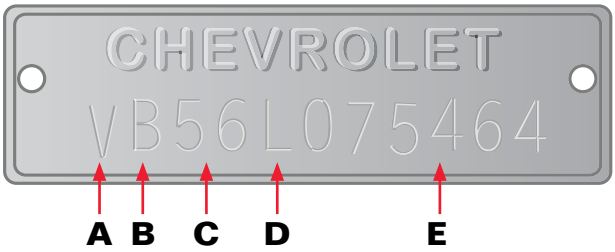
1955-57 V.I.N. Identification

The Vehicle Identification Number (V.I.N.) plate on all 1955-57 models is located on the left front door hinge pillar post. This number represents the vehicle's unique serial number for use with government agencies and vehicle model identification. Below is a guide for decoding your V.I.N.



A V8 Model

In addition to the Series and Model Identification letter, models equipped with a V8 from the factory will contain a "V" before the Series and Model ID. Models originally equipped with a 6 cylinder engine did not feature this "V" at the beginning of the V.I.N.

B Series and Model

The second letter in the V.I.N. sequence is the Series and Model Identification digit. Each Series received a unique letter.

Code	Series	Model
A	1500	150 Models
B	2100	210 Models
C	2400	Bel Air Models

C Model Year

The first set of numbers in the V.I.N. sequence represents the model year of the vehicle.

Code	Model Year
55	1955
56	1956
57	1957

D Assembly Plant

The final letter of the V.I.N. represents the assembly plant at which the vehicle was built. Between 1955-57, ten primary assembly plants manufactured passenger cars. Oakland, CA used the plant code "O", which can sometimes cause confusion with the sequence number, especially in 1955-56 models where the sequence begins with a zero.

Code	Assembly Plant
A	Atlanta, Georgia
B	Baltimore, Maryland
F	Flint, Michigan
J	Janesville, Wisconsin
K	Kansas City, Missouri
L	Los Angeles, California
N	Norwood, Ohio
O	Oakland, California
S	St. Louis, Missouri
T	Tarrytown, New York

E Production Number

The production number sequence represents the basic serial number given at the assembly plant. This six digit long sequence began with "001001" in 1955-56, while in 1957 the sequence began with "100001". Each plant used their own unique sequence numbers.

Four Ways to Order!

ORDERING BY PHONE

TOLL FREE 800•854•1280

In the continental United States, Hawaii and Alaska.
Outside the U.S. call 714.847.6887.

Mon-Fri 8:00-5:00 **Sat 10:00-3:00, P.S.T.**
(Closed Sundays and holidays)

Information you'll need when ordering by Phone:

Customer Number
Found on back cover of your catalog above your name, this number allows Classic Industries® to quickly access your information. If you do not have a customer number, a new one will be given to you when placing your order.

Billing and Shipping Address
Please have the billing and shipping address available. Credit card orders are verified by name and address before shipping. Your order can be shipped to a different address, provided the cardholder's name and address match the credit card used. You may be asked to contact your credit card company to have the shipping address added to your account.

Year and Model of Vehicle
To provide the best possible service, we may require the year and model of your vehicle. This helps verify that the parts you order are correct for your car.

Part Numbers
All Classic Industries® products are listed with a part number. If possible, please have the part numbers of the products you're ordering available before calling to make the ordering process faster and more convenient.

ON-LINE ORDERING

Service Excellence from the Restoration Leaders!

ORDER WORRY FREE #1 Classic Industries WITH

You No Longer Have To:

- ✕ Pay excessive fees to protect your merchandise
- ✕ Contact the carrier yourself
- ✕ File a damage claim yourself to have the carrier inspect the damaged items
- ✕ Send the damaged items back at your expense

With Classic Industries® the worry is eliminated!

PROCEDURE FOR RETURNING SHIPPING DAMAGES

We handle the claim so you don't have to! If any part you receive is damaged during shipping and handling, simply contact our customer service department toll-free at 800.854.1280 within two business days.

After verifying the damage, Classic Industries® will issue a pickup call tag through the carrier that shipped the products. The carrier will pickup the damaged goods from your address and return them to us at no expense to you. After the product has been inspected, our customer service department will send a replacement part.

In order to ensure replacement of damaged products, please return items in their original box and packaging. Failure to do so may result in the claim being denied. Someone must be available at the pickup address to supply the damaged products when the carrier arrives. If the carrier in unable to pickup the products for any reason, the customer may be required to return the products at their expense.

Note: Some products are excluded from damage call tag pickup. Call a customer service representative for information about products that are not eligible.

ENJOY THE BENEFITS!

Money Back Guarantee

At Classic Industries®, we take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Not all restoration parts are created equal. But at Classic Industries®, we research each and every product we sell to make sure our customers are getting the highest quality products in the market. We have decades of experience in product selection and we painstakingly scrutinize every product we offer for quality manufacturing, materials, and craftsmanship before we will offer it in any of our catalogs. Many of our employees are automotive enthusiasts themselves. In fact, many were customers prior to becoming employees, so we understand the needs of the modern classic car enthusiast. Our product procurement specialists have made it their goal to select restoration products that have been manufactured using modern technology and materials with an emphasis on originality, longevity, and attention to detail. What else would you expect from the company that started it all? Classic Industries® is the name you can trust, and we'd like for you to consider us as your partner in restoration. When a company continually offers a quality product for a reasonable price and backs up every sale with the best customer service in the industry, people come back! That's why Classic Industries® has been the leader in restoration for almost four decades. So, if you haven't already decided for yourself that Classic Industries® is the most logical choice as your restoration parts supplier, then check out our Money Back Guarantee. If for any reason you are not 100% satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit, or exchange.

- ✓ **Lowest Prices Guaranteed!**
- ✓ **The Finest Quality Reproductions!**
- ✓ **No Fault Product Protection Offer!**
- ✓ **100% Satisfaction or Your Money Back!**

Price Match Guarantee

If you find it for less we'll match the price!

Classic Industries® will match any competitors current advertised price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Important: In an effort to provide our retail customers with the most competitive pricing available, we will match our current competitor's pricing. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the "Restoration Industry". Performance parts and special orders are exempt from price matching policy. Classic Industries® reserves the right to decline price matching if pricing is deemed to be a special offer, a sale or closeout price, or a non-current price. Competitors sale pricing, inventory reductions, close outs, special promotional offers, etc. may be exempt from the "price match" guarantee. The guarantee is subject to the terms and conditions of Classic Industries® current policies.

Classic Industries® will generally contact competitors to confirm that the published price is current due to market changes, demand or availability. Price matching supersedes all other promotional offers and on sale pricing. If Classic Industries® matches a price from a competitor, additional discounts on that product or products may not apply. If the standard retail price of a product is higher than the competitor's price and an applied discount reduces the price below the competitor's pricing, the now discounted or sale pricing will prevail. We reserve the right to change or revoke this offer at any time without notice. Classic Industries® reserves the right to decline price matching.

Think Of Us As Your Partner In Restoration!

A restoration can take years! We understand the complications and problems that can occur when ordering precious parts for your project car. If you are like most people, you want perfection. The many different elements that make up a restoration isn't just limited to the parts you install. You sometimes need to rely on other outside elements such as body shops, painters, upholstery specialists and parts suppliers. That's where we come in. We offer the quality parts you want without all the guesswork. We carry one of the largest inventories of restoration products and accessories the market has to offer. What's more, you can rely on our nearly 40 years of experience to help you through the rough spots when you need it. Our tech advisors are always ready and willing to discuss any problem you may have concerning the parts for your vehicle and your restoration. Unlike other companies, we give you knowledgeable sales representatives, one of the largest inventories in the business, quick and efficient delivery, Toll Free ordering, and the experience to back it up. If you're not absolutely 100% satisfied with the products you receive. We'll refund 100% of your money! Classic Industries® – your partner in restoration!

Form of Payment

CREDIT CARDS
Classic Industries® accepts ***Visa, Mastercard, American Express, Optima***, and ***Discover*** for your convenience. When placing your order, be sure to indicate the card holders name, address, home phone, business phone, credit card number and expiration date and billing address *(if different from person placing order)*. A security code is required for credit card purchases. Please have your credit card readily available when placing your order. Minimum order is $20.00. New or 1st time customers who are paying by credit card must have the order shipped to the cardholders billing address for the first order. Invalid or non-matching billing addresses could delay your shipment.

CERTIFIED CHECKS
Classic Industries® will accept certified checks for your mail order. Be sure to include customer number and/or reference invoice number. Contact your bank to issue a certified check in the amount due for your order. All orders paid by certified check are held up to 15 days pending clearance.

PERSONAL CHECKS
To use personal checks or business checks on prepaid orders, the name, address, and check number must be preprinted on the check. Be sure to include customer number and/or reference invoice number. Only first party checks will be accepted. All orders paid by personal check are held up to 15 days pending clearance.

MONEY ORDERS/CASHIERS CHECKS
To use money orders or cashiers checks on prepaid orders be sure to include customer number and/or reference invoice number. All orders paid by money order are held up to 15 days pending clearance. Once released the order will leave within 24 hours of clearance.

Make Personal Checks or Money Orders payable to:
Classic Industries®

PAYPAL
Classic Industries® now accepts payments via Paypal! Simply complete your order over the phone with a customer service representative, get your invoice number and then send your payment to paypal@classicindustries.com through Paypal's "Send Money" feature and select "Goods and Services" for payment reason. Be sure to include your invoice number in the "Special Instructions" tab at checkout for fastest service. Orders are generally shipped within 72 hours or less of payment receipt. Contact our customer service department for additional details.

How to Order

MAIL ORDERS
Fill out the order form located in the back section of this catalog. For quick service use your credit card, money order, or cashiers check. Personal checks are held for 15 days from date of receipt pending clearance. All mail orders must be prepaid including freight *(when applicable)*. COD orders through the mail will not be accepted. Classic Industries® offers online ordering directly through our website. Log on to classicindustries.com and order online. Online ordering is available 24 hours a day 7 days a week for your convenience.

WWW.CLASSICINDUSTRIES.COM

FOREIGN ORDERS
All foreign orders must be prepaid before the products can be shipped. The Classic Industries® staff will check with the various freight companies that deliver to your country and area to determine the best possible rates available for your order. Once your order is rated, you'll be contacted by e-mail or phone to approve the rate. After approval and payment is received, the order will be shipped. The Shipping & Handling field for foreign orders will state "TBD" (To Be Determined). Rates are subject to change once the order has been packed and is ready to ship. Rates are calculated based on estimations of weight, dimensions and other factors. Should changes in freight costs occur once the order is packed and ready to ship, Classic Industries® will notify the customer immediately before the shipment is sent. If you have any questions or concerns, please direct your inquiries to info-desk@classicindustries.com.

General Information

Sales Tax Information
Classic Industries® collects and remits sales tax based on state and local requirements. The sales tax laws have changed due to a Supreme Court ruling in 2018. The appropriate sales tax will be applied to your order and remitted based on your state's requirements. If your order is shipped, or picked up in a specific state that requires sales tax, the appropriate amount will be added to your order.

Accuracy Of Descriptions
Classic Industries® makes every effort to verify the accuracy of all information published in this catalog. Each item is represented with information that is accurate to the best of our knowledge at the time the catalog is printed. Classic industries® is not responsible or liable for mistakes, print errors or inaccurate information that may lead to, or result in labor costs or damages to any vehicle under any circumstances.

Kit Products
All Classic Industries® Parts and Accessories catalogs include kits which contain a variety of products. On occasion we may run out of an item supplied with a kit. If this happens we will generally ship what is in stock and back order the item(s) which are not in stock. You may contact our sales department by phone to verify which items are not in stock at the time the order is placed. The customer may decide whether to accept the partial kit or have the entire kit back ordered until the kit is completed and all the items can be shipped at the same time. If the customer decides to accept partial delivery of the kit, then the full price of the kit will be charged to the customer and the back ordered items will be shipped no charge when they arrive at our warehouse. Customers will be charged the appropriate freight fees when applicable. Cancellation of products from a kit will be accepted at 25% below the actual current retail price of the item. On COD orders the price of the kit is charged in full and the back ordered items are shipped on a COD freight only basis.

Rights and Lefts
Some items in this catalog are presented as left or right hand products (left side – driver) (right side – passenger). LH or RH sides are determined by sitting in the vehicle, not standing in front of the vehicle.

Color Matches
Due to multiple manufacturers of products Classic Industries® provides, color variations may occur. Slight color variations are common especially amongst interior products and does not constitute a defect. These products are not eligible for return for this reason.

Pricing
Current product pricing and our pricing policy can be found by visiting our website. Prices in this catalog were in effect at the time of printing and supersede all prices in any previous publication. Classic Industries® makes every effort to honor the prices contained herein. Due to constantly changing costs in raw materials, supply chain issues, and other unforeseen circumstances, pricing on products are subject to change. We reserve the right to change prices without notice. For current pricing, please go to Classicindustries.com, or contact a Classic Industries® sales representative during normal business hours. Eligibility of products for discounts are subject to change without notice.

Trademark and Copyright
Classic Industries® Parts and Accessories catalog is copyrighted. No part of this publication including text, photos or illustrations may be reproduced without the prior written permission of Classic Industries®. The following names and/or symbols: *Mopar, Dodge, Plymouth, Barracuda, Belvedere, Coronet, Challenger, Charger, 'Cuda, Dart, Duster, Fury, GTX, Hemi, Polara, Road Runner, Six Pack, Super Bee, Scamp, Valiant* are registered trademarks of Chrysler Group, LLC and are used for reference purposes only unless specified otherwise.

Product Availability
Availability of all items in this catalog are subject to change without notice. We reserve the right to discontinue products, services or accessories without notice.

Shortages
Always check the contents of your delivery to assure all the parts ordered were received. If you are missing any item(s) be sure to check for back orders notated on your invoice before calling our customer service department *(see back orders)*. If a shortage has occurred, contact our customer service department within 2 working days of delivery to assure a prompt replacement. Classic Industries® assumes no liability after this period.

Shipping Information

ALASKA, HAWAII, GUAM & PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2-Day delivery whenever possible. All orders must be prepaid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped. Contact our sales department for exact rates.

Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

INSURANCE

Each order is charged an insurance fee of $3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will require cash only upon delivery of your order. All COD orders are shipped by FedEx. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of $11.95 per box will be added to all COD orders. Oversize and/or overweight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries® reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to $999.00. If the COD order should be returned to Classic Industries® for non-acceptance/ non payment, the customer will be responsible to reimburse Classic Industries® for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned products. All outstanding charges must be paid before any additional orders will be accepted.

SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries® Showroom location. Contact our sales department for actual additional shipping fees.

Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.

EXPRESS SHIPPING

Classic Industries® offers Overnight and 2-Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Pre-payment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A $16.95 fee will be added to Overnight fees for Saturday delivery. 2-Day orders will arrive within 2 business days (pending availability). 3-Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A $9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.

TRUCK FREIGHT

Products in this catalog that require truck freight are typically indicated with a "Truck Freight" icon. This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be prepaid, including freight charges, before the shipment can be sent. Truck freight rates may vary depending on products being ordered, fuel surcharges, and the shipping destination. Residential deliveries require an additional fee assessed by the carrier due to the additional coordination and transit outside of normal routes. Some Truck Freight shipments may require special handling (e.g., lift gate service, re-routing, additional freight charges, etc.). Acceptance of truck freight shipment, rate and applicable fees is acknowledged at time of order. For additional information visit us online at help.classicindustries.com or contact our customer service department during regular business hours.

OVERSIZE-OVERWEIGHT

These are the designations for Ground or Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (OS1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs. and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs. and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A handling fee will be added to all (OS3) orders. Overweight 1, 2, and 3 designates actual weight is less than 90 lbs. and is billed at >90 lbs. as appropriate. We reserve the right to charge Oversize and Overweight fees on any order containing oversize and overweight products, even if it is not indicated in the catalog. For additional information visit us online at help.classicindustries.com or contact our customer service department during regular business hours.

FOB WAREHOUSE – "FREE ON-BOARD"

All Classic Industries® orders are shipped based on FOB Warehouse. Unless otherwise specified, Classic Industries® is not responsible for freight charges, shipping charges, or damages once the shipment leaves our warehouse.

General Information

Back Orders

The invoice located in the packing slip of your order will notate any items that were out of stock at the time of shipping. The unavailable items will be back ordered unless otherwise specified on your order form or verbally to a sales representative when placing your order by phone. Back orders are usually shipped when the products arrive at our warehouse without prior notification. Classic Industries® will make an effort to contact the customer if the backorder is more than 90 days old. If you wish to cancel a back order, please notify our customer service department immediately. The customer will be responsible for a 25% restocking fee and freight charges if the back order is cancelled or returned after the items are shipped.

Damage Claims

Always check the contents of your shipment in the presence of the person delivering the merchandise. Should any damage occur, immediately notify Classic Industries® customer service dept. so that all steps necessary will be taken to ensure a prompt replacement of any damaged goods. Accurate instructions will be given on damaged goods replacement. Classic Industries® is not responsible if no notification is given within 2 working days of receipt of goods (excluding Sundays and Holidays). Classic Industries® will file a claim with the carrier in most cases. If the customer files a claim with the carrier, Classic Industries® will not be responsible for replacing damaged products and the customer will be responsible to pay for any replacements until the carrier pays the claim. Any replacement parts due to sales errors or customer errors in ordering will be sent using the same shipping method as the original order when possible. Please follow these instructions to avoid any problems or misunderstandings associated with damaged products and freight claims.

Refusals

All refused COD orders will be subject to a 25% restocking fee. Classic Industries® will consider the entire order cancelled and void with no notification to the customer. The customer will be billed 25% plus all freight charges to and from the destination. Contact our customer service department for more information.

Policies

All policies in Classic Industries® current catalog supersede any and all policies in any previous catalog or publication.

Sales Errors/Ordering Errors

Classic Industries® is not responsible for customer errors or employee sales errors. Every effort is made to insure that the products you are ordering are accurate. Should an error occur, we will make every effort to resolve the issue. Replacement products will be shipped the same method as the original order whenever possible. Classic Industries® assumes no responsibility or liability for damages, fees, storage charges, or any other inconvenience that may be associated with sales errors or customer ordering errors.

Returns

Products may be returned for a full refund on the product, credit or exchange within 30 days of receipt. All returns are subject to a 25% restocking fee after 30 days. Should you need to return a part for refund, exchange or credit, please contact our customer service department for a return authorization number and instructions. Classic Industries® will not accept returned goods without prior authorization. Customer will pay freight on all return orders. Allow up to 3 weeks to process refund or credit.

Important: Gift certificates have no cash value and must be redeemed for merchandise only. Literature, CDs, videos, printed materials, stencil kits, stripes, electrical parts, gauges, wiring harnesses, switches, etc. are non-returnable. All special order products must be prepaid in full and are non-returnable. No returns on partial kits or sets. There is no guarantee on moving parts such as engines, transmissions, rear ends, steering gears, water pumps, distributors, wiper motors, etc. If any product is modified, altered, painted, installed or disassembled in any way without Classic Industries® expressed written permission, the item is non-returnable. Classic Industries® always recommends professional installation on all products. Any item which has been altered, painted, installed or deemed non-resalable by Classic Industries® will be returned to the customer at the customers expense. Classic Industries® is not responsible or liable for labor fees associated with the installation, removal, modification, painting or repair of any product purchased regardless of the circumstances. Classic Industries® is not responsible for any damage or discoloration incurred in relation to chemical products being used including cleaners, waxes, polishes, paints, etc.

New Product Showcase

New! R-452N Ultra Thin Speakers

RetroSound 4" stereo speakers are a great way to upgrade the sound in your classic . They use a Neodymium magnet structure for high power handling in a slim-mount design – mounting depth is just 1.8" (45.5mm). Santoprene surrounds deliver the most natural sound possible with no distortion. Mylar tweeters produce crisp, clear highs.

- Indoor/Outdoor Use
- Triple Layer Material

1955-57 Diamond Fleece Car Cover

Designed for indoor and occasional outdoor use, OER's Diamond Fleece cover is manufactured using a durable 3 layer non-woven material that provides excellent protection from dust and dirt penetration. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Fleece offers water resistance and prevents damage caused by the sun's UV rays. Mirror pockets are featured on both sides of the cover when applicable, for vehicle originally equipped with dual sport mirrors. Covers feature non-scratch grommets installed onto each side of the cover to allow the use of a tie strap or lock.

Pickup Layers of Dust with One Sweep!

An easy way of keeping your vehicle clean and free of dust, looking like it was just washed. It's specially treated cotton fibers lift dust off the surface without scratching the paint, even delicate lacquers. The more you use it, the better it works! Regular use can significantly reduce the frequency of washings.
